

## Area Deposits Top \$54 Million

in the two Littlefield banks. Federal Savings & Loan, Anton and banks at Earth, Olton, Amherst had over \$54 million deposit Tuesday at the eight institutions.

when the April 20 bank call showed deposits of \$54,225,975.

Bankers expressed optimism over the increase in deposits, crediting the increase to a healthy economy. The late crop with much of the 1971 cotton and grain sold after the first of the year was another reason cited for the increase.

In the Olton area, cattle in the area feedlots were credited with generating more money.

The San Jacinto Day bank call was the first most bankers remember coming on a state holiday. The deposit reports were made Friday in response to a call by federal and state regulatory agencies for statements of condition from banks.

Most bankers were pleased with the financial picture drawn by the deposit figures. They noted that bank accounts tend to dwindle in April as persons make income tax payments.

This April's bank call, however, was too close to the income tax deadline, which fell last Monday, for the deposits to fully reflect withdrawals for taxes.

The three Littlefield banking institutions showed a total of \$34,790,299 on deposit on April 18, compared to \$30,582,726 on the call date a year ago.

While deposits at seven of the eight banking institutions were up, loans and discounts were up at six of the eight. Loans and discounts (L&D) for this quarter totaled \$33,916,412, up \$2,480,856 over the 1971 figure of \$31,435,556.

Littlefield Federal Savings and Loans showed a total of \$14,834,077, up \$1,487,348 from the \$13,346,729 on deposit the first quarter in 1971. Loans are up, also, with loans totaling \$11,496,357 the first reporting period this year, up \$750,656 over the \$10,745,701 in April, 1971.

Security State Bank deposits last week totaled \$14,182,641, up \$1,811,306 from the \$12,371,335 on deposit on the bank call date in 1971. Loans and discounts at Security totaled \$6,092,385, up \$57,772 from the 1971 total L&Ds of \$6,034,613.

The First National Bank of Littlefield showed an increase in deposits of \$908,919.

## Absentee Vote Light, Mail Details Told

Absentee voting in the May 6 primary has been very light to date, but numerous ballots have been mailed, especially to those in the armed services, according to Mary Beth Willey, Lamb County clerk.

Absentee voting by personal appearance and application for absentee ballots to be voted by mail continues through Tuesday May 2.

Mrs. Willey said some confusion remains about who may vote by mail. In the past those who were sick and elderly were taken ballots on the regular voting date. This practice is no longer possible.

The following persons, and no other, may vote by mail:

Qualified voters who because of religious beliefs, cannot appear at the

polling place on the day of the election.

The application for an absentee ballot must be mailed to the clerk. If the application is delivered to the clerk by any method other than by mailing it, the ballot shall be void and shall not be counted. The ballot must be mailed to the voter who is voting absentee by mail. He cannot get such a ballot in person. The marked ballot must be mailed to the clerk, if it is returned in any other manner it shall be void and shall not be counted.

The marked ballot must be mailed back to the clerk in an envelope postmarked not later than midnight of the day preceding election day and must be received in the clerk's office before 1 p.m. on election day.

BARBECUE TICKETS are on sale by members of the Littlefield bands and the Band Boosters. This is the third year Band Boosters have sponsored a barbecue. There will be two big meals Saturday, May 6, with the noon meal from 11 a.m. until 1 p.m. and the supper meal from 5-7 p.m. The meal will be served under shade trees at Laguna Park and bands will play outdoor concerts during the serving hours. THE ABUNDANT LIFE

Credit Is Due

By BOB WEAR

"CREDIT TO WHOM credit is due" is one of the important and helpful guidelines we should follow. It is a proper reward for accomplishments. It is one of the most certain ways to encourage people to a productive social order.

MISPLACED CREDIT often causes great loss, especially when the action is deliberate. Whether deliberate, or an honest mistake, great harm is done.

This problem, when viewed with insight, is seen to be one of our critical problems; one about which all of us should be concerned. Our concern must be great enough to cause us to do all we can to set the record straight, and try to keep it straight.

THERE IS A BUILT-IN imbalance in many of the important activities in which we engage. A man makes a good run with the football, and he is showered with credit and praise.

He made the run because someone (most people never know who) made a key block that cleared the way for him. There are many activities in the human scene in which the bestowal of credit is just as disproportionate.

WE CAN DO BETTER, and it is important to all of us that we do better. There is no good reason why I should receive credit that is due you. It makes me appear to be something I am not, and is very likely discouraging to you.

If I am the right kind of person, I will

make haste to correct this unfortunate mistake.

SOME FOLK TRY to steal the credit that has been earned by someone else. This is especially true in much of our political maneuvering, and is one of the disquieting aspects of politics.

Of course, this evil practice is not limited to politics. In fact, it is so widespread that it touches, to some degree, every facet of human association. The strange practice of "stealing credit" is even found in areas where no one expects it to be. Sooner or later, the credit stealers are found out; they are exposed for the fakes they are.

EVERYBODY IS ENTITLED to receive the credit that is due. Every effort we make to see that this is done is a significant contribution to the strength and effectiveness of our social order, and to each unit of this structure.

Withholding or misplacing credit hurts everybody involved.

"IT DOESN'T MATTER who get the credit" is a generous attitude which is often found among people who work for a great cause. These are people who are more interested in seeing something worthwhile accomplished than in getting the credit.

This is a commendable view. Even so, it is best to give the credit to whom it is due.

LETTER SWEATERS were presented to these Ninth Grade students at Littlefield Junior High School Tuesday, in recognition of outstanding academic achievements. They are: front row, Sharon Healy, Tim Farley, Debbie Birkebach and Steve Mangum. Second row, Toni Gardner, Richard Barton, Cosme Venzor and Margaret Martinez.

Honors Assembly

CHARYL RUSSELL

KIM WOOD

HOW MANY of you received an award Tuesday at the Honors Assembly? A bunch of you got awards even if they were just certificates for perfect attendance. Awards were given in nearly every subject for things like outstanding athletes, scholastic certificates and, of course, the ever-important sweater awards. These achievements took up hours of hard work to those who received them, so congratulations and good work!!

B.J., J.S., D.B., S.P., G.S., R.T., and M.C. — Didn't you get to stay all night?!!

THE JUNIOR High Band played for the P.T.A. last Thursday. Their spring concert was Wednesday. The band played "Macarena," from marching season; "Imperial March," "Aria for Winds," and "Battaglia," from concert season; and "Summer of '42" for the fun of it!

A PREACHER was trying to get the congregation to participate more in singing hymns. "Think of it this way," he said. "For those of you whom God blessed with good singing voices, this is your chance to thank Him. And for those of you whom the Good Lord did not bless with good voices, this is your chance to get even!!"

Overheard in the hall: "I trained my Great Dane to eat only when I ring a bell. And guess what — today he ate the Avon lady."

Doug McD. — I'm glad I'm not a short person. Sammy S. — How come? Doug — They're always the last one's to

know if it's raining!

THE FOURTH annual Band Barbecue will be held May 6.

THE SEVENTH grade band will give a concert while the junior high band will march in the parade and have two performances.

Lisa W. — What's the difference between?? Kathy G. — Between what?? Lisa — I'm not giving any hints!!

CONFUSIUS SAY: Best place to look for a helping hand is at the end of your own arm.

Ben F. — Mrs. Aaron, I'm sick. Mrs. Aaron — Where does it hurt most? Ben — At school!

Daffynitions: Myth — A lady moth. Litter — Our grossest national product.

Steve J. — Dad, how about some money for a new glove?

Mr. Jackson — Absolutely not!! You ought to use your ingenuity and see if you could raise the money some other way.

Steve (later) — Dad, I just raised the money.

Mr. J. — That's great, Steve. It's good to see a young man become independent and use his brains. How did you do it?

Steve — I asked Mom.

WELL, that's all for this week. Be good and remember — if you want peace, you must find it within yourself. Have a good week!

STATE CAPITAL Highlights AND Sidelights By BILL BOYKIN TEXAS PRESS ASSOCIATION

ATTY. GEN. Crawford Martin jarred legislators with an opinion that they are prohibited from hiring not only their own relatives but those of other lawmakers.

The opinion, requested by new House Speaker Rayford Price, thus declared illegal a long-standing practice which, only within the last few weeks, has attracted widespread critical attention.

Meanwhile, State Sen. David Ratliff of Stamford, whose family hiring practices and son-and-daughter job swapping with another legislator triggered a threatened investigation, said he may resign.

More than 40 legislators freely admit relatives were on the state payroll (usually in the Senate for House members' kinfolks and in the House for the Senate kin) during the last five years. Many of the cases involved nothing more than legislators' children working as pages, but combined salaries of the improperly-hired totaled more than \$120,000 since 1967.

Martin said an article of the penal code forbids a member of one house of the legislature from hiring a relative (within restricted degrees by both blood and marriage) of a member of either house when the employee is paid from public funds.

Li. Gov. Ben Barnes issued prompt orders that any Senate employee related to a legislator will be dropped from the payroll immediately.

House Speaker Rayford Price said he also plans full cooperation.

With one state representative indicted for allegedly using state postage stamps to buy a pickup truck and another known to have leased furniture for his state office from his own firm, the House administration committee also proposed new limitations on lawmakers' expense accounts.

DROUGHT GETTING WORSE A Texas climatologist reported drought conditions are getting worse most of Texas.

Agriculture Commissioner John said the drought already has agricultural producers' losses in thousands of dollars.

There was little rain anywhere in North Central Texas.

Climatologist Robert Orton said a moderate drought in the High North Central Texas, East Texas, Pecos, and the Edwards Plateau, Plains and the Upper Coast still is in a state of mild drought.

South Central Texas, Southern and the Lower Rio Grande Valley entered the mild drought category.

ALLOWABLE STAYS UP The Texas oil production allowed May will stay at 100 per cent, increasing demands.

A Railroad Commission order has retained the April maximum when buyers of crude asked for an increase output of 83,312 barrels a day for next month of more than 14 barrels.

NEW DEADLINE FIXED April 30 is a new tax deadline for 72,000 Texas employers.

Wage reports must be filed by the Texas Employment Commission for purposes of unemployment tax for the first quarter of 1972.

Employers have been notified and sent forms and instructions.

Reports must include wages and names of employees, along with other information.

Employers brought under coverage Texas Unemployment Compensation are mainly those who have one or more employees. New employers receive rate of one per cent, which goes downward after two years dependent unemployment experience.

Some non-profit, charitable, educational organizations are exempt if they have four or more workers.

COURTS SPEAK The U. S. Supreme Court in Massachusetts law requiring public employees to take a loyalty test that they oppose overruling government by illegal force.

The State Supreme Court in a 2-1 County case upheld minimum fee and petition requirements for getting the Texas primary election ballot.

Secretary of State Bob Bullock.

The High Court also found that legislature can not exempt water supply corporations from taxation. A corporation in Williamson County sought exemption from school district taxes.

Third Court of Civil Appeals in Southwestern Bell Telephone Co. owes all the taxes on telephone payments which it paid under previous plans.

AG OPINIONS A prohibition against a person who any state or local office of profit or from serving as chairman of a committee any political party executive committee unconstitutional, Attorney General held.

In other recent opinions, the court concluded:

\*County party executive committee primary committee members are entitled to compensation for expenses attending their official meeting.

\*The filing deadline for county school district trustee is midnight 31st day preceding the election, counting the day of the election.

\*A justice of the peace may remove a finger from a dead body for identification purposes, but only if county health officer or a duly-licensed and practicing physician or pathologist can do the amputation.

HONNY GRITS

By CORNBALL BLEVINS

I HEREBY GO on record with a direct testimony as to the fallacy of the nut that says: "Try it, you'll like it."

Well, I've tried it, and I DON'T like it!

HONEST INJUN, I'VE gone at least three issues, without writing, and there's definitely something missing from my zest for life.

I flip thru the local rag to the editorial page, half expectin' "Cornballs" smug-mug to be leering back at me, and HE AIN'T THERE! Ruins my whole day wonderin' just what the crack-pot would have said, had he said anything.

HOWEVER, I DIDN'T expect anything so drastic from my decision to stop writin' as it's causin' Turner to SELL OUT! (Guess it's an ill wind — Huh?)

Anyway, due to pressure from my number one fan (me), I've decided to reclaim my space before they decide to use it for the obituary column, or (worse yet) some of that canned stuff.

I DID GET a nice call from one of the staff members (NOT TURNER) that inferred that my space was still waitin' for me. I thought that was really nice.

So, win, lose or draw, guess we'll try it again. — AND, my thanks to BOTH people that said they'd missed me.

SEE WHERE THE suburban journal has endorsed Smith for governor. — SO? — What else is new?

WAS REALLY sorry that Bob Lilly missed visitin' our fair city some days back. Anyway, the day wasn't a total loss! Garrison made it!

GUESS POLITICS must be a funny

game, at least as far as the voter is concerned. Here I sit, tryin' to make up my mind who to vote for, and I always find myself leanin' toward the unknown.

People, in general, are in a restless frame of mind — myself included. I reckon it's because of our ever-changing times. We, of the older generation are for the most part, and whether consciously or unconsciously, averse to change. I suppose it's caused by our feelings of insecurity.

SO — BEING FED UP with our high-gearred, and high-speed economy, coupled with our helter-skelter times, we're subconsciously reachin' back to the days when we had some inkling of what was going on.

Thus, we're prone to blame those that have been in office during our transition to these unstable times. We voice our protest by voting AGAINST someone, rather than voting FOR.

I'M OF THE OPINION that's the reason we're hearing so much promotion of Briscoe. Actually, who knows what about the man? I for one, had never heard of him, until he announced his candidacy for the governor's chair.

However, if my mind isn't changed by voting day, guess he'll get my vote, even tho, for all I know, he may be aimin' to work that bankin' deal from the other end!

YES, AUNT EDNA — This year we'll keep our cool, and settin' our clocks AHEAD one hour, will be the proper way to keep the right time — Or — ? — Is it the OTHER WAY AROUND?

TELL YOU ONE THING — If gold ever gets to be as high-priced as moon dust, we'll have it made!

OFFICIAL LHS NEWSPAPER

## TWO TO GO TO STATE

### Journalism Wins Regional

For the first time in the history of LHS, students copped a regional sweepstakes trophy in journalism at Odessa Saturday. Littlefield won the Class AA division with a total number of 19 points and will send two journalism students to state.

Vicky Davis, senior, received a first place in feature writing. Denver City's Carla McAllen was second.

In awarding Miss Davis first place, the judge commented on her story:

"She had a very good beginning, good flow of thought throughout the article. The major problem was that some of the information was written in a choppy form. The only

article completely edited by the student."

Pam Brandt, junior, won first place honors in headline writing, followed by Leslie Bruce of Stinnett.

Miss Brandt also took a second place berth in editorial writing, followed by Leslie Bruce of Stinnett.

Crane's Cheryl Fos copped a first place medal in newswriting. Diane Rodriguez of El Paso Parkland was second.

In ready writing, Annelle Harris of Littlefield, was third to Kate Stallings and David Lewis, both of Phillips.

Miss Davis and Miss Brandt will compete in state competition in Austin May 5 and 6.

### Juniors Get Senior Rings

Juniors received their senior rings April 18, and although the rings are all similar, few are exactly alike.

Students made choices between solid or hollow back and Old English or block style letters. The rings have either an incised 'L', an encrusted 'L' or a phantom 'L' in the red ruby stone. Choices between yellow gold or white gold were also available.

### LHS SPEAKS OUT Two Days?

The question this week for LHS Speaks Out was:

"If your doctor told you that you were going to die two days from now, what would you do in the meantime?" Answers were many and varied. Following are some of the answers:

**TERESA WOOD, junior** — I would try to do everything that I had ever wanted to do. I would also go see as many of my friends and relatives as possible.

**SCOTT McNEESE, senior** — For what I would do, my daddy would kill me anyway, but I would only have one day.

**BRENT WHITEAKER, senior** — Everybody would cry, and I would cry. Then I would cry again and Linda would probably laugh.

**SHELLY GRANT, junior** — First, I'd ask God to make me strong and forgive my sins. Then, I'd try to get everybody I could to ask Jesus into their hearts.

**RANDY TROTTER, senior** — I would move I guess. Then I wouldn't sleep the next two nights because I would be getting plenty of sleep.

**PAT GLAZENER, junior** — First of all I would think he was crazy. I would probably do all I could for God, so I would not be ashamed to face Him.

**KENDALL CLINE, sophomore** — I'll never tell.

**FLOYD TREVINO, sophomore** — I'd tell him if he didn't find a way for me to survive, that he was going to die in two seconds.

**PHYLLIS OWENS, sophomore** — I would try my best to see all my relatives and friends (especially my boyfriend) and all my old teachers.

**GILBERT DIAZ, sophomore** — You'd never guess what.

**CRAIG RATLIFF, sophomore** — Travel as much as possible.

**RICKY HAFLEY, sophomore** — Live.

**JOHN ADUDELL, sophomore** — I would get a good looking chick and get out of Littlefield.

**SUZANN SANCHEZ, senior** — Live up to it and enjoy myself while there is still time.

**BRENDA SIMINGTON, junior** — There's no telling.

**DE LON WALKER, senior** — Have a bachelor's party tonight and get married tomorrow night.

**ELIDA VILLAFRANCO, junior** — I would be with Ruben Abete the whole two days.

**GARY BROWN, sophomore** — Have as much fun as possible and get the most I can out of life.

**KELLY PRATT, sophomore** — Live it up and pray.

**ROGER MULLER, sophomore** — Start digging my grave.

**Sunflower Is Studied For Possible Income**

Is it possible that what has for years been considered an aggravation to area farmers could become a new source of badly needed income? Since September, 1966, one of the basic objectives of the High Plains Research Foundation has been to find new crops that can be used to strengthen the agricultural and industrial economy of the High Plains. Through the cooperation of Plains Coop Oil Mill, Lubbock, researchers will revive their interest in a crop with future potential this year. Dr. Douglas Owen, oilseeds specialist at the Foundation, will be conducting cultural studies on sunflowers in 1972 on acreages large enough to determine the true potential of this crop, and to evaluate the possibility of solving some of the problems that have plagued past research efforts on sunflower.

**Three Wrecks Investigated**

Sunday evening, two autos were involved in a collision at 16th and LFD Drive. According to the investigating officer's report, a 1971 Ford, driven by Rebecca Lee Kirby of Littlefield, was going north on LFD Drive when a 1969 Dodge, driven by Frank Castillo of Littlefield, was traveling west on 16th and failed to yield the right of way to the Kirby Ford. Tuesday afternoon, a 1968 Oldsmobile, driven by Urban Ewel Kelly of Littlefield, was turning to the left to park at Medical Arts Hospital and a 1971 Gremlin, driven by Maribeth Williams of Littlefield, ran into the back of the Oldsmobile. Wednesday morning, according to the investigating officer's report, Karen Shipley had parked her 1969 Ford on the right side of the street in the 1400 block of Smith Street, and Mrs. Edith Turner backed her 1965 Chevrolet pickup from her driveway into the left front door of the Ford.

**NEW P-A-G 511 sorghum proves you can get high yields with short water**

Because of the water shortage, many High Plains farmers planted drought-resistant P-A-G 511 in 1971. Many had higher yields than full season varieties planted under the same or better conditions. In the 1971 High Plains Research Foundation tests at Halfway, Texas, P-A-G 511 ranked number 2 of 40 Hybrids tested in Single Forty-inch Spaced rows with a yield of 7,740 lbs. per acre.

Carl Kleuskens of Hereford won 2nd place in the 1971 P-A-G Yield Contest with New 511 and P-A-G 516 with an average yield of 8,455.9 lbs. per acre on a 100+ acre field.

**Herbicide Report Available**

The latest herbicide recommendations for cotton weed control in West Texas are available to producers, chemical dealers and other agribusinessmen.

The recommendations are a summary of field tests by Texas A&M University researchers and Extension specialists throughout West Texas.

"The report summarizes field trials with preplant, premerge and postmerge herbicides," explains Dr. Dudley Smith,

weed scientist for the Texas Agricultural Experiment Station, at Lubbock.

The two-page publication lists the various chemicals that were tested, application rates and necessary precautions for safe use. In addition, the report gives information on herbicide use for weed control in narrow row cotton. Sprayer calibration recommendations are also offered. A special section is included on control of problem weeds such as morningglory, devil's claw, cocklebur and watergrass.

"The bulletin is intended as a guide to assist growers in planning a weed control program to fit their specific needs," says Dr. Robert Metzger, Extension area cotton agronomist. He emphasizes that individual producers must make the final decisions and select chemical brands, methods of application and rates that are most economical for their situations.

Copies of the bulletin are available free-of-charge at county Extension offices in West Texas.

They can also be obtained by writing or calling the Texas A&M University Agricultural Research and Extension Center, Rt. 3 in Lubbock. Ginners, chemical dealers, distributors and custom applicators may also get extra copies at the center.

Besides Smith, Dr. Allen Wiese of the Southwestern Great Plains Agricultural Research Station at Bushland also field-tested the herbicides. The studies were supported in part through the "dollar-a-bale" program of Cotton Incorporated and the Plains Cotton Growers Incorporated.
