

City Population Estimate 6,677

1970 CENSUS ESTIMATES

Preliminary 1970 census for Littlefield's population is 6,677, according to Kathryn Patrick of the office in Dallas.

The county seat, Littlefield, has a preliminary count of 6,677, down 559 from the 1960 total of 7,236—a 7.7 per cent decrease in population.

At Earth, the census tally reveals a loss of 10 persons within the 10-year period, a 9.5 per cent drop.

However, one of the final steps at getting complete information for the 1970 census count is now underway, according to the Census Bureau.

Now, mailmen are checking these addresses to determine if anyone has been missed in the count. If he finds one that is missed, he turns in a blue card to the census office—

which, in turn, is checked against census records.

Many cities are hoping their "lost" may be found and added to the final "official" census records.

And for those families that have two or more youngsters going to college at the same time, the financial problem is that much more acute.

At private institutions, it finds, the average is \$2,720 for tuition, fees, room and board.

In addition, all other types of property—farm improvements, city, personal, industrial, etc.—will be increased 10 per cent.

Added to these costs are such incidentals as laundry, transportation, etc.—

SEVENTEEN CITIZENS from Littlefield are making plans for their July 8 departure for a 5-day tour of the Orient. Shown looking at the globe are, left to right, Rev. R. B. Hall, tour escort; Ann Pullig, Ellen Massengill, Mrs. R. B. Hall, Alene Edwards and Mrs. D. C. Lindley. Fifteen others will join them in Lubbock for the departure flight.

RAUL VILAFRANCO, 8, a spectator at the Babe Ruth B&C Marcum and Security State game Monday night, was injured when he fell from the top of the bleachers, about seven or eight feet. He was taken by ambulance to Littlefield Hospital where he was treated for a fractured wrist. Raul's father, Johnny Villafranco, kneels in the background, as Jim Jefferies, right foreground gives first aid.

'HE WAS WITTY'

Will Rogers' Visits To Halsell Recalled

By NILAH RODGERS

Will Rogers, the famous humorist and actor, liked to get away from it all by being a regular hand on the W. E. Halsell Ranch near Earth.

Lucy Robison. During two of Rogers' visits to the ranch, it was Robison's job to chauffeur him around in Halsell's new Chrysler.

Robison said Will Rogers didn't joke and cut up while he was at the ranch. "He was witty," Robison said, "and just a real nice fellow."

NEWT ROBISON visited the Halsell Ranch last week while he vacationed in the Littlefield area. Robison worked as a cowhand for a number of years. He shows a picture taken at the ranch in the 30's. Robison is on the left; next is Bill Hill, Ernest Huffman (Robison's late wife's uncle), and Joel Lee, dad of Cotton Lee, the world famous steer roper.

Rogers liked to catch the branding wagon out and made a real hand, Robison had an old newspaper clipping that quoted John S. McMurtry of Muleshoe. "Will Rogers is the most tireless roper we have ever seen, working through the largest branding without a pause," McMurtry said. "He handles the largest and most varied loops and is fairly good with all of them. His endurance is remarkable."

And as for Rogers' statement that he never met a man he didn't like, maybe that was because he didn't meet too many, at least during the height of his career. After one visit to the Halsell Ranch, Robison took Rogers to Amarillo. "They were having a big Lions meeting at this hotel," Robison recalled. "A bunch of people tried to get Will Rogers to say a few words. And he was just plumb snotty to them."

Encephalitis Found Here

One case of encephalitis has been definitely proved in Littlefield this summer.

Gene Spies is now at home recuperating from a case of mosquito-borne encephalitis. He was suffering with a blinding headache and was hospitalized at Methodist Hospital in Lubbock Wednesday, June 24, according to his wife, Carolyn. She brought him home Sunday, with orders from the doctor to keep him in bed for two more weeks. He is to return to Lubbock for a checkup July 17, when a neurosurgeon, Dr. Evans, will make a spinal tap to determine his progress.

Fireworks A 'No-No'

Shooting fireworks within the city limits of Littlefield is a "no-no."

City police have had a few calls about fireworks being set off in town, and officers remind citizens that they must enforce the law.

Under city ordinance Number 109, which was passed in September 1948, "Any person who shall violate this ordinance, or any part of same, shall be guilty of a misdemeanor and shall be fined in any sum not to exceed \$100, and each separate sale, giving away, or disposition of any such fireworks or explosives, and each day that any such fireworks or explosives are exhibited shall constitute a separate offense."

Although fireworks are traditional on July 4th, Littlefield has an ordinance prohibiting them—both the sale of and shooting—within the city limits.

Although Rogers was known the world over for his humor,

46 Lives

Past experience and the present trend of traffic deaths indicate that 46 persons will lose their lives in traffic accidents during the 78-hour period of July 4 weekend, according to Major C. W. Bell of the Texas Department of Public Safety for this area.

Major Bell stated that "Operation Motorcade," a special emphasis program designed to focus attention on the added dangers of holiday travel, will be placed in effect from 6 p. m. Thursday, July 2, to midnight Sunday, July 5.

All deaths resulting from traffic accidents will be tabulated by the Texas Department of Public Safety throughout the period, and the totals will be announced daily as a means

of keeping safety uppermost in the minds of the motoring public.

"It is a known fact that July 4 traffic is more hazardous due to crowded conditions of the highways. Add driver misbehavior, misjudgment, negligence, and the drinking of intoxicating beverages while driving is like a giant exploding fire cracker," Bell said.

"In an all out effort to keep this estimated toll down, the Texas Department of Public Safety will utilize additional personnel from its other services to augment the Highway Patrol force during the holiday period," Bell added.

"However, the most important effort in reducing traffic accidents must come from the individual drivers," concluded Major Bell.

Buck Passing

I AM WEARY of what used to be called "passing the buck" among those airing their views about the problems and wrongs of society today.

Youngsters mostly blame their elders who, in turn, blame the young.

MANY PARENTS put the blame on educators, many of whom, naturally blame parents.

Politicians often blame the news media, which, just as frequently blames politicians.

Churches blame a breakdown of morals while liberation and reform groups blame outmoded concepts.

AND SO IT GOES, . . .

To some degree, each of the blame-fixers may be partially right, but in general they are all wrong. What concerns me most is that they are all more eager to fix the blame than to fix the trouble!

CRISES, PROBLEMS, and alarm about them are not unusual in America.

We can all take pride, and we should find comfort, in the fact that this nation has endured crises of one kind or another for almost two hundred years.

It has endured because it was founded upon strong basic principles which were built to last.

LIKE A PIECE of fine old silver our Constitution has not deteriorated with the passing of time, it only appears now to be tarnished from neglect. And, with rededication, with determination, and with elbow grease, it will polish and gleam anew!

It isn't new approaches we need so much as it is a sharpening up and restoration of values to our old approaches.

INDEED, THERE IS little wrong with society today that cannot be righted through a return to the noble

A WOMAN'S VIEW

Old Age

By PEARL BRANDON

"IT IS GOOD for a man to live by the labor of his hands."

This is a quotation from a friend of mine, I'll agree with this, it is wonderful to be able to earn your living with your own initiative, but what of those who can't?

MANY PEOPLE are denied this privilege for various reasons. Some have lost their jobs, some are sick and many have outlived their usefulness, when it comes to work.

This is the saddest of all, for a man who has lived an active life to get to where he can't work.

I KNOW the Lord planned this world well and He made man to be born, to grow into maturity and then to grow old when he reaches the fullness of time.

This is when he must sit through the sunset days, amidst the activity of younger men and watch the days slip by.

OLD AGE should be the happiest

HOMINY GRITS

By CORNBALL BLEVINS

JUST SAW A PIECE of philosophy hanging in a hardware store, in our city, today.

On a placard, hung in a prominent place, was this admonition: "Plan now to do something, for nothing, for your city and community.-- Your community is YOU, multiplied."

Can you think of a more down to earth suggestion for the building of a community?--The beautiful part of it is, that the plan includes YOU!

WE HAVE A LOT of people in this town that go, QUIETLY, about their business of giving their time and efforts to the betterment of our community.--They don't get, nor expect, money in pay for their work.

These are the people you always call, when you want volunteers for some project, or other.--You find them working with such things as The Heart Fund, Red Cross, Scouts, Summer Recreation programs, and the such-like.

THEY ARE WHAT YOU call "The backbone of the community." They are unselfish and, usually, are the happiest people you'll meet.

Like the poet says:
 "There is a sea, which day by day receives the rippling rills,
 And streams that spring from wells of God, or fall from cedared hills:
 But what it thus receives it gives

with glad unsparing hand;
 A stream more wide with deeper tide, flows on to lower land."
 (And, contrari-wise):
 "There is a sea which day by day receives a fuller tide;
 But all it's store it keeps, nor gives to shore or sea beside;
 It's Jordan's stream, now turned to brine, lies heavy as molten lead;
 It's dreadful name doth e'er proclaim
 That sea is waste and dead."
 (Authoress, Lula Klingman Zahn)

AM YTHING I SHOULD attempt to add to the lesson in verse would only detract from it, but, I do want to tender my thanks to the civic-minded people who do so much for our community.

They have learned the secret to successful living.--That is to say: LIVING IS GIVING!"

OH YES, to do full credit to the poem and it's authoress, I'd better give the last verse, which has so much meaning to Christians.

"Which shall it be for you and me who God's good gifts obtain?
 Shall we accept for self alone, or take to give again?
 For He who once was rich indeed laid all His glory down;
 That by His grace, our ransomed race should share His wealth and crown."

PAUL HARVEY Philadelphia Story

PHILADELPHIA has all the potential for crime of any major city yet Philadelphia has the lowest crime rate of all our nation's big cities.

Anybody in Philadelphia can tell you why with two words: Frank Rizzo. While our nation is shopping for an eventual replacement for J. Edgar Hoover, let's consider the credentials of this candidate.

PHILADELPHIA'S police commissioner, Frank Rizzo, is a "rough cop." Yet a recent survey of that city's citizens shows more than four out of five think he's doing a good job, and only three out of 100 think he's doing a poor job.

No popular election in the city's history has ever been decided by such a lopsided margin; Frank Rizzo has more friends and fewer enemies than any Philadelphian in public life. How come?

WHEN RIZZO TOOK OVER in 1967 he said, "We're going to make our streets safe for anyone any time, especially for women and children."

In the years since, Philadelphia's crime rate has dropped from one of the highest to the lowest of the big 10 cities. There has not been a major riot since Rizzo.

NOW HE IS URGING reforms in the jail-bail procedure which he is confident will reduce his city's crime rate further.

Many professional criminals are repeaters, willing to gamble on the compassion of judges and the snail's pace of our judicial system.

THE PRESENT BAIL SYSTEM allows professional criminals, awaiting trial, to remain at large.

THE PHILOSOPHER Great Discovery

(Editor's note: The Sandhills Philosopher on his Johnson grass farm must have his television set back in working shape, his letter this week indicates.)

Dear editor:
 Being unable to find a newspaper yesterday although I looked everywhere, that is everywhere I could see from my rocking chair on my front porch, I went inside the house late in the afternoon and turned on the television set for the first time in a long time and will admit I learned something I didn't know before.

Now I know that in the summer time the networks re-run their winter and spring programs on the theory I guess that if Hamlet is worth seeing more than once so is Festus, but yesterday was the first time I discovered that they re-run their new programs too.

It's a fact. Here came Huntley and Brinkley telling us their names although I caught on to who they were years ago, and then they gave exactly the same news they gave months ago.

For example, they reported that Israel fought off an Arab attack with the loss of one Jeep and three canteens while destroying eight Arab planes, and in the same skirmish, which the Arabs said the Israelis launched, the Arabs said they destroyed ten Israeli tanks and shot down ten planes.

THEN THEY switched to London where a newscaster in a trench coat standing in the wind outside some building reported a new proposal for peace in the Middle East is

being discussed.

In Viet Nam they ran the film of the reporter dodging bullets, falling once more to tell us what was happening to the camera man.

Getting around to the home front, they reported the cost of living went up three-tenths of one percent last month, the stock market fluctuated, another freight train had derailed, Agnew had spoken, there was a riot in Memphis or Los Angeles, I forget which, more studies are being made to halt inflation, pollution has shown up off the shore of whatever coast it was they had their camera trained on, the urban crisis is still the urban crisis, etc.

It's a fact. The networks are using re-runs on their newscasts. All they're changing is the shape of David Brinkley's tie.

There's nothing to the report, is there, that the football leagues aren't going to play this fall, just re-run last season's games?

Yours faithfully,
 J. A.

Honest Advertiser

Proponents of honesty in advertising will find encouragement on an example found in the classified ad section of the Hampton (New Hampshire) NEWS-REVIEW last month. It read as follows:

line, and new equipment. He said motor graders purchased in 1969 were up \$4,000 to \$5,000 over the cost of those that were replaced.

Explaining the needs for an increase in wages and salaries, the judge said the last general county hike was in 1963, although there have been spot increases since then.

"We have a total of 60 employees and a total payroll of about \$280,000 per year. The \$28,000 increase is 10 per cent and that certainly won't match the cost of living increases that have come in the last five or six years," the judge said.

He said the court had not discussed where the salary and wage increases would be put, "but I expect it will be used in a general way, to benefit as many employees as possible."

Notices informing taxpayers of individual increases in evaluations will be mailed late this week.

In the notices, property owners will be advised of the meeting times of the board of equalization.

COMMISSIONER RIZZO says repeaters among these men should remain in prison pending appeal. Pennsylvania's prisons are "virtually unpopulated." Though crime doubled in the 1960s, the number of Pennsylvanians imprisoned last year was half what it was in 1960.

Criminals are not being jailed. Of all criminals convicted last year in Philadelphia, only one in four has gone to prison. The other three are running around free as you are.

portation, recreation, books and clothing.

Including these expenses, it might cost a family up to \$3,400 to maintain a youngster at a private college in the coming academic year and about \$1,750 at a state-supported college.

The total outlay of \$2,236,000 for Lamb County families with college-bound children is based upon the assumption that half of them will be going to public institutions and half to private ones.

LETTER FROM DIANE

Her Story Glows On Londontown

(Editor's Note: Diane Perkins, daughter of Dr. and Mrs. Perkins, shares her trip to Sweden with Leader-News readers.)

Paris, France
 June 11, 1970

Dear Mom, Dad, Mike, and David,
 We crossed the English Channel earlier this afternoon on a huge boat. It was great fun. Being second class passengers, we were allowed the second deck down. We stayed on the top deck as long as we could, but the blasting of the horn and the cold, damp fog finally forced us downstairs. The people are so sweet when we ask them how much something is and which coin will pay for it. While on the boat we met so many nice people. I met an Arabian guy and one Spaniard. They were so sweet to us and couldn't believe our drawl. They told us all about Rome, Florence, Sweden, Paris, and many other places. I also met a native Kentuckian (is that what people from Kentucky are called?). We also met two Londoners. The most interesting of the two was a scuba diver who stabs octopus. The last three said they were just "bumming" around the country, staying and working here and there. There are so many wonderful and interesting people in this 'ol world.

We're traveling on a bus now, heading for Paris. We have two more tours to go on this 4 hour bus trip. Of course the country side is beautiful, but not as lovely as England. England is truly a picture-book of loveliness.

The London tour was fantastic! If I ever come to Europe again, London will be the first place I visit. I could not even begin to explain Westminster Abbey, its splendor and elegance is just beyond

the mere imagination of humans. The Parliament buildings looked only a picture to me. I just couldn't realize I was standing across the famous Thames River from them. Did you know that the little boys don't wear swimming trunks? Believe me -- I saw it with my own eyes -- and just off a main street, too! I loved London! Last night we went to the London Palladium where we saw a live show! It was great!

I still can't believe I'm really here! I'm awfully lucky. I especially feel guilty when I think of you, Mom and Dad. You would enjoy all of this so much!

My next stant will shock you I'm sure. I HATE bread! While in London we had rolls for breakfast, dinner and supper everyday. But, I must explain to you that their rolls are not like ours. As Sally from Spur explained them, "We don't eat them, we use them for doornops!" That is the best explanation of them I've heard yet! Hat! We've really had an experience with food. The hotel restaurant was run by Italians with one French chef. The first day we had ice cold soup for an appetizer that night we had what they called "Pheasant," but we decided it was spoiled spam. The next day we had White Bate for a dinner appetizer. It's just a fancy name for little tiny fish -- fried and with the eyes still in them. One of the Italian waiters forced me to eat one and believe me -- that was enough! We had jelled broth that night and it was just as bad! And the tea--it's not like our tea. It's so thick you can cut it with a knife and to be able to even swallow it, I put 3 cubes of sugar and milk, milk, and more milk. Tonight we will eat in the Eiffel Tower!

This bumpy bus is getting to me so I must run. Dad, I can never thank you enough for this trip. I'm having a fantastic time!
 I miss you all!
 Dianne

Silver and crystal appointments completed the decor. Pickups Collide Near Earth

Two pickups collided one mile west of Springlake Sunday evening leaving fairly heavy damage to the vehicles, but no personal injuries. Jose Montiel of Bovina was driving a 1964 Chevrolet pickup east on U. S. 70 and attempted to make a left turn on to county road when he was struck from behind by another 1964 Chevrolet pickup driven by Faustino Garcia of Earth. The first vehicle was knocked 100 feet to the left side of the road. Highway patrolman Weldon Larson investigated and estimated damages of \$400 to the Montiel pickup and \$500 to the Garcia vehicle.

Independence Day

Fly Your Flag Proudly... And Correctly

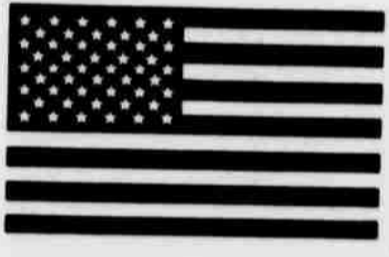

The Stars and Stripes should be given peak position, above others when on same halyard.

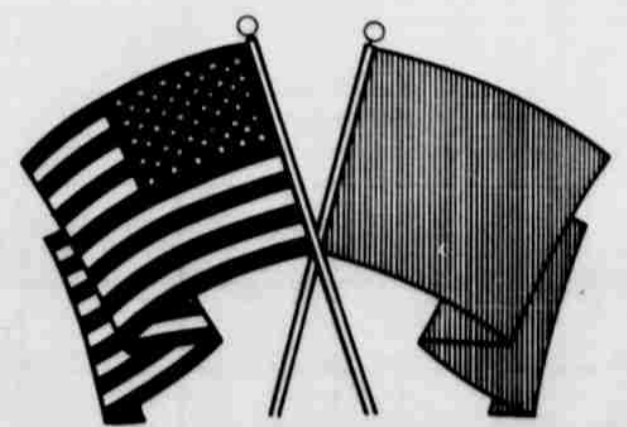

Men, women in uniform should give right hand salute; civilians should put hand over heart.

When flag is flown from window sill, the Union should go to the peak unless the flag is at half staff.

Indoors or out, when displayed horizontally or vertically against a wall, the stars should be uppermost and to the flag's own right, that is, to the observers' left.

Displayed with another flag from crossed staffs, it should be on the right side and its staff should cross in front of the other staff.

A Day To Be Proud Of . . .

How could anyone predict what that document being posted would mean to mankind? Since then, the Declaration of Independence has changed history for the better. For the message of that document was destined to enter the hearts and minds of freedom-loving men everywhere. Let us all, as Americans, pause today and be thankful for that declaration that allows us to live in a free nation. A happy Fourth of July!
