

Wildcats, Levelland Battle For Trap

Littlefield's Wildcats, still stinging from a last seconds loss at Crosbyton, will try to turn the tables on an old Class AAA foe at Levelland Friday night. Game time is 8 p.m.

The Wildcats want the victory for more than one reason.

Besides seeking a "new start," the Cats would like to extend a five-game winning streak over the Lobos and keep the "Golden Trap", symbol of football supremacy between the two schools.

Of course, the traditional rivalry means Levelland will be gunning for Littlefield, the trap and to rub a little of that Class AAA dirt in the Wildcats' AA nose.

It all shapes up into a hectic battle between two ground-

oriented teams coached by former compadres at Plainview---Littlefield's Deverelle Lewis and Levelland's Bill Mayfield.

Lewis is in the second year of a rebuilding program and Mayfield is in his first go-round at Levelland after great success at Class A Gruver.

The Wildcat mentor thought Littlefield showed "lots of improvement" at Crosbyton, despite the loss, and said only some costly fumbles and penalties prevented his team from scoring three more times and getting the victory.

Although the Cats had troubles with leg cramps in the Crosbyton game, sending numerous boys to the sidelines, no one was banged up enough to keep them out of the Lobo game.

Lynn Barton, senior quarter-

back, sprained an ankle, but was getting around okay in practice sessions this week. "His ankle's still a little sore, but we think he'll be ready to play," said Lewis.

If Barton is slowed, Junior Jay Trammell will get the starting nod. A soph quarter-back, Alan Mackey, also should get in some playing time.

Although Lewis thought mistakes took the Wildcats down Friday night, Crosbyton Coach Wendell Robinson commented: "I guess we were a little lucky but we'll take the win. Littlefield just ran the ball down our throats and we were fortunate to win. Ralph Funk and Danny Estrada just ran over our smaller line."

Levelland's Mayfield was pleased with the Lobo running

game in their win over Lockney, 14-0.

"Fullback Roy Gregory, Quarterback Terry Billingsley and Halfback Gary Grant did a good job. Gregory led our rushing attack and broke a tackle on his 17-yard touchdown run.

"We felt like we did a pretty good job defensively. Steve Gray (210-pound tackle) led the defense and the secondary of Raymond Smith and Billingsley did a good job.

"We had a better night running than we expected but some key mistakes cost us chances to score more than we did," said Mayfield.

Gregory gained more than 100 yards rushing against Lockney. Littlefield had a pair of runners in that category against Crosbyton, Funk and Estrada.

1,948 Enrolled In Local Schools

Enrollment in Littlefield schools was reported at 1,948 as of Monday during a regular meeting of the school board that evening.

In other activity at the brief meeting, the board re-employed Cornell and Co. of Amarillo as the school auditor, approved a future choir trip to Eastern New Mexico at Portales, and heard the year-end financial report.

The school system started the new fiscal year Sept. 1 with local maintenance fund at zero, following a year in which the board delayed a tax increase and used surplus funds from the previous year to make ends meet.

The budget for the coming year includes a tax increase designed to keep school operations in the black, but with very little surplus foreseen.

Enrollment as of Monday is up 53 students from a year ago, with the total in the last four grades at 517, up 32 students from last year.

The complete enrollment by grades:

JAMES ROBISON

Crusade To Bring Famed Evangelist

James Robison could stump the panel on "What's My Line" any day of the week.

As he signed the blackboard, the TV camera would transmit a picture of a young athletically built, 6'3" dark haired man. His well-coordinated movement as he walked to the moder-

ator's desk would suggest to the panel a professional football player.

His tanned skin might lead them to think, "big game hunter", and to ask, "Do you work outdoors in your profession?"

His serious, penetrating way of looking at them might suggest to the panel that he was a doctor, accustomed to evaluating people's illnesses.

In truth, James Robison is none of these, yet he is all of them.

He was an outstanding football player in high school. He does some of this most effective work outdoors, while hunting and fishing. Robison does deal in his profession with illnesses, but they are illnesses of the spirit.

James Robison is an evangelistic preacher. Although he is only 26 years old, he has been preaching for eight years, and is regarded by many as one of the most effective evangelists at work in America today.

What motivates a young man like James Robison to give his life to evangelistic preaching? What would cause him to be away from his wife and two young children half of the year as he goes from coast to coast preaching in crusades?

"When I was in high school, I attended a revival led by Daniel Vestal. In that meeting, I felt the Lord calling me to be an evangelist," recalls Robison. Robison changed his plans to

enter the University of Texas to study law and enrolled in East Texas Baptist College. He began preaching while still a student. From the beginning, his ministry has been effective. Over three million persons have heard him preach in his seven years of ministry, and as a result, 60,000 decisions for Christ have been made.

James Robison could answer "yes" to the "What's My Line" panel's questions:

"Are you a football player?" "Are you a big game hunter?" "Are you a fisherman?" "Do you treat people for illnesses?"

He does all these things well, but the most important dimension in his life is his dedication to his calling as an evangelist.

"It is easy to love God more than the wicked, sinful and bad things in life. I must grow in grace until I love God more than the good things in life. Christ must be first before my family, my home, my friends, my pleasures, and before myself," explains James Robison's motivation to be a full-time evangelist.

Area Women Don't Want To Be 'One Of The Boys'

By NILAH RODGERS
Leader-News Staff Writer

The Women's Liberation movement hasn't caused much of a stir in the Southwest and

the flurry has been even less in Littlefield where a brief survey shows most people -- men and women -- like the way women have things now.

While working women agreed they would like to have equal pay, they don't want to be "just one of the boys," and though several women admitted they would like equal opportunity, they don't want equal responsibility.

Interviews were made by telephone and most greeted the question with a hearty laugh before replying.

Ray Lynn Britt, Lamb County District clerk, laughed and asked "How's that for an answer?" Mrs. Britt is one of several women questioned who said she is perfectly happy with the situation the way it is and is not in favor of Women's Lib. "I have an idea," she said, "that the women who started this were disgruntled with their husbands and had nothing better to do."

Morley Drake, an old-timer who was in the newspaper business for many years, summed what he thought of women being liberated with single explosive expletive. "Women should work if they wanna," he said, "but there's no sense in their wanting to be classed as regular help. A woman's place fundamentally is in the home, and they shouldn't be making a movement against men -- pitting a battle against their best friends."

"I'd be glad to see women equal," Bob Wear, Crescent

Park Church of Christ minister joked, "until now they've always been so far above us." Mr. Wear views the movement as foolishness, saying he didn't understand what motivates the women, but adding that he thought the advocates were just a small minority of women in the nation. "It's just another manifestation of the ridiculous, foolish ways of our time," the preacher said.

Mrs. Ruth Kirby, wife of Attorney Jerry Kirby, and a lawyer in her own right, said she doesn't intend to work for the Women's Lib movement, nor does she intend to oppose it, either. She said the movement is a refreshing change in news, giving persons a chance to think on

2 To 3 Inch Rains Splash Over Area

Rains that over-flowed five-inch rain gauges in the Pettit area averaged two to three inches in the immediate Littlefield area the early part of this week.

Although rain is generally appreciated in this area, the moisture came too late to appreciably benefit most of the county's cotton crop.

Buddy Logsdon, county agriculture agent said the precipitation will help some of the late cotton if an early freeze doesn't come, and in a few cases where

grain sorghum is late the moisture will be beneficial. Farmers who have planted wheat small grains for grazing found the rain just right.

The cool temperatures the first part of the week slowed crop development and will probably lower micronaire quality of the cotton, but with the warming of temperatures growth won't be affected too much, Logsdon said, and a period of about two weeks of wet, cool weather would be necessary before the micronaire readings would lower to a large degree.

Showers brought a halt to the grain harvest, and combining will get underway again with more warm, dry days predicted for the South Plains beginning today.

Bus Driver Workshop Set

Hundreds of school bus drivers from throughout the surrounding area and Lamb County will be converging on Littlefield Saturday morning, Sept. 19, to attend a bus driver workshop. Registration will begin at 8:30 a.m. at the Junior High School and the session will continue until 12.

A representative from the Texas Education Agency and Patrolman C. A. Dempsey of the Texas Highway Department of Public Safety will conduct the workshop, according to County School Superintendent C. Roy Stevens.

"Any bus patron who wishes to attend the workshop may do so," Stevens said.

Dedication Set At Girlstown

The Caprock District of the Texas Federation of Women's Clubs and Pioneer Natural Gas Company have co-sponsored a lighting project at Girlstown, U.S.A., near Whiteface, to correct a lighting deficiency on the campus.

Dedication ceremonies for the recently completed project will be conducted Saturday afternoon, Sept. 19, at 2:30 on the campus south of Whiteface.

Marker To Note Comanchero Trail

An official Texas Historical Marker for the Comanchero Trail will be dedicated on Saturday, Sept. 19, at 2:30 p.m.

This marker, awarded through a special Legislative appropriation, and erected by the State Highway Department, recognizes the outstanding work of the Lamb County Historical Survey Committee of which committee R. E. Scott of Sudan is chairman.

The 18" X 28" marker is located about eight miles west of the city of Littlefield, on the Bula Highway (Route 54) where the Comancheros made one of their trails during their wanderings.

Master of ceremonies for the dedication will be County Judge G. T. Sides. Rev. Clem Sorley of Littlefield will give the invocation and Guy Walden of Sudan will give the dedication address.

The marker will be unveiled by Grady Trotter of the Highway Department, and Rev. Leonard Tittle of Amherst will give the benediction.

The marking of historic sites and landmarks is part of the

Texas State Historical Survey Committee's program of preservation activities.

The name of the marker and its location will appear in the next edition of the Guide to

Fords Go On Display Friday In Littlefield

Ford Division's 46 models in six car lines for 1971 range from the all-new Pinto and hot-selling Maverick in the economy market to the restyled Ford and elegant Thunderbird. And the most completely changed Mustang since this car started it all in 1964 will kindle anew the interest of sport compact buyers.

All the new Fords go on display beginning Friday at Mitchell-Ford, Inc., in Littlefield.

PINTO sports the flair and style of its stablemates, Mustang and Maverick, while targeting in directly on the size and economy characteristics of the leading imported cars it was created to challenge.

This smallest of the domestic sub-compacts is four inches longer, eight inches wider and seven inches lower than the leading import.

MAVERICK—stepping up a notch in size from Pinto is Maverick, the successful "Simple Machine" introduced by Ford Division in April, 1969. Now nearing the half million mark in sales -- and climbing fast -- Maverick in 1971 offers a four-door model, a Grabber sport sedan and a wider choice of options for dependable family transportation.

something other than war, race, crime and pollution. "Since there are more men than women," she said, "we can get done what needs to be done on a nation-wide scale by using our right to vote freely and thoughtfully. And at an individual level, each is already free to reject the stereotype feminine role."

Five English teachers were having coffee during a conference period at Littlefield Junior High School. "The Women's Lib movement is for those who don't have enough to do," Mrs. Ruth Badger quipped. "I've got all the liberation I can handle at this moment," Mrs. Barbara Harlan added. "What do you mean liberation?" questioned Mrs. Bonnie Pressley. "We have freedom enough for everything we want to do. We've already been liberated."

The movement is a lot of nonsense, according to Mrs. J. R. Fain. "I'm perfectly happy with my lot in life," she said. "I can't imagine what women want who are demanding equality. I don't think it was meant to be that way from the day of creation. I don't know what they hope to gain."

Texas is one of the states where women have fewest legal rights. Married women in Texas are legal wards of their spouses in most business matters, without independent authority to make business deals and to exercise other authority.

Getting down to the nitty gritty, it seems that married malcontents started and are pushing the movement. But on the other hand a recent survey indicates that most Texas women aren't aware of the limitation of their rights, which, until recent years, did not include the right, or obligation, for jury duty.

It's a fact, ma'am, that Texas is one of the states where women have fewest legal rights. Married women in Texas are legal wards of their spouses in most business matters, without independent authority to make business deals and to exercise other authority.

The 1971 Ford LTD is highlighted by this new front end treatment featuring a thrusting center grille section and dual exposed headlamps. This LTD two-door model includes a new, standard high back bench seat which eliminates the need for rate headrests. Ford's new side impact protection system, flush door handles, windshield wipers and a new two-tiered, coved instrument panel also are features of the 1971 Ford.

The 1971 Torino sports subtle styling refinements to its popular 1970 design. A new recessed, two-section dominates the front appearance of the Torino 500, Torino (top) and Torino Brougham models.

and rear tires, substantially increasing rear seat head, leg and knee room.

TORINO has a revamped line-up of 14 models including two four-door sedans, six two-door hardtops, two four-door hardtops, three station wagons and a convertible for 1971.

A revised base Torino series and a new Torino 500 series have been added for 1971 while the Fairlane 500 and Falcon series are discontinued.

To dress up any Torino model, there are 16 exterior colors, up to seven interior trim colors and more than 50 options. Lower series models feature a revised front appearance and new ornamentation, the Brougham series boasts new interior trim styles and the racy Cobra SportsRoof offers a more luxurious interior.

MUSTANG again offers the widest choice of body styles in its class -- hardtop, SportsRoof and convertible.

Among the features most responsible for Mustang's totally new contemporary appearance are the unique "flat roof" of the SportsRoof models and the distinctive "tunnell backlite" of the high-fashion hardtop. The thinner roof section, flush door handles and hidden windshield wipers contribute to the new sleekness.

FORD-New styling that gives the 1971 Ford even more of the luxury car look than the popular 1970 models highlights

models, concealed wipers, new taillight design, three new roof designs and major exterior changes, lights on all models exposed.

THUNDERBIRD—The try's most popular luxury car -- Thunder enters the 1971 market with exterior and interior sign refinements include new, more formal roof, the two-door Landau, new horizontal theme on all models. The more lined roofline of the model and the four-door complete the three-model up.

A WOMAN'S VIEW

Warts

By PEARL BRANDON

WHILE AT A family gathering a few nights ago, I casually asked what would cure warts.

It was surprising at the answers I got when I asked what would take off the wart.

Another said to tie a silk thread around it real tight and another said I had better go to the doctor.

ONE COUSIN, who lives over at Springlake, said a sure cure for warts was to find an old bone, preferably in a cow pasture somewhere, rub the wart with it and place it back exactly as it was, then turn around and walk away without looking back.

Another said to find a pebble for each wart, rub them and place the pebbles in a small sack and drop them at the first cross roads you came to.

MY BROTHER said he knew a man once that would take a kitchen match and rub the wart and break the match in half and hide it...

five cents a piece and they would vanish while they were asleep.

MY OKLAHOMA sister-in-law said the surest cure was to steal your neighbor's dish-rag and after rubbing the wart, bury the dish rag.

Another one said she had never tried the dish-rag but you could tie a knot in a string for each wart and bury it, and when the string rotted the warts would disappear.

I THINK the best remedy I heard was to find a black stump in the woods with water in it and wash your warts in the stump water.

It was an absolute cure, especially if it was on the dark of the moon and you could hear a hootie owl holler at the same time.

DON'T ASK ME how I got the wart. I don't know I used to think it was from playing with frogs but I haven't come in direct contact with a frog in a long time.

My Dallas cousin said I might have shook the hand that shook the hand of someone who may have played with a frog, or I may have come in contact with a carrier.

I SURE HOPE we don't get a wart epidemic started... black stumps in this country are hard to come by.

One nice said their school bus driver used to buy their warts for

THE ABUNDANT LIFE

A Danger

By BOB WEAR

THE VOICE OF a small minority, and, in some instances, a very violent and hostile minority, is becoming more and more the voice of the people.

This is often the voice of one person, or some self-seeking group of people, or a group being used by alien powers.

IT IS BECOMING increasingly unusual to hear people express their views.

Many folk seem to wait to see what the trend or opinion may be before they say anything. Some don't care, some are afraid and some don't know any better.

CONSIDERED OPINIONS should be expressed. There are many good and sound reasons why they should be expressed.

Such actions will contribute to the life, strength and effectiveness of our democratic processes.

WE MUST BE well-informed in order to accomplish the most good. We must be as honest as we can in our opinions, and as fair as possible in giving a hearing to the opinions of others.

We must encourage each other to use the privilege of free speech. There is no other way to share our ideas, and the sharing of ideas is absolutely essential to the perpetuation of a free society.

WE MUST NOT SUCCEMB to the growing tendency to leave everything to the decisions of somebody else.

We must give honest consideration to the views of others, but we must also respect our own views. Thus the greatest good can be derived from the free and frequent exchange of ideas.

WE MUST DO the best thinking we can if this dialogue is to serve the best purposes. "Learn to think

for yourself; do not be a mere echo of the thoughts of someone else."

The more intelligently we use the freedom of expression, the more helpful it will be in preserving our heritage.

THE FREEDOM OF expression, like all others, will remain strong and useful only if it is exercised frequently and with wisdom.

This critical time in our history is not the time for careless thoughts and words.

HATE, VIOLENCE and disorder are all enemies of personal freedom and dignity.

Therefore, in order to accomplish the most good, our continuing dialogue must be free of belligerence and prejudice.

NO ONE WILL be right all of the time, but the sum of our views will help make a formidable structure for our social order.

Free and frequent exchange of ideas will enrich and strengthen all of us, and our collective voice will be a bigger voice and a safer voice than that of a violent minority.

WE MUST NOT SUBMIT to the self-appointed few who consider themselves the only capable people, and think they know what is best for all of the rest of us.

These people are dangerous, and are a threat to us and all we hold dear. "Where there is no guidance, a people fall; but in an abundance of counsellors there is safety."

OUR DEMOCRATIC PROCESSES will die without open and continuous exchange of viewpoints among the people--all the people.

We must find ways to encourage better and more intelligent communication for a bigger voice.

PAUL HARVEY

Out Of Style

HISTORICALLY, tribal leaders perpetuated their own leadership by promising protection from outsiders.

Each nation's leaders have pointed to real or imagined threats from other nations in order to keep the homefolks bunched.

WE DON'T NEED an artificial catalyst any more.

The enemy is within the gates now. We have enough real threats so that we don't have to create any.

The menace of pollution, malignant inflation, infernal crime and internal combustion will unite us behind leadership--if it is strong leadership.

ARMIES OF MARCHING men are going out of style.

But as we bring our sons home and concentrate on resolving acute homefront problems, how do we keep the Red Bear at arms' length until we are sure he is housebroken?

HERE'S HOW: from launch pads under the sea--launch pads which we keep moving so no enemy can know where they are or where they will be--we aim nuclear missiles at our enemies' gizzard.

Last month off the coast of Florida a long-distance Poseidon missile was fired from a submerged submarine--flawlessly.

THAT 34-FOOT missile equipped with multiple warheads has a reach of 6,400 miles. By early next year our Navy will have 16 such rockets deployed somewhere under the seven seas.

Within reach of any place on this Earth.

SINCE THIS GIVES our Navy a larger share of our nation's fleet-in-face responsibility--and since there is much intramural jealousy among the branches of our armed forces--you can expect

the Army and Air Force to be less than enthusiastic about this new emphasis.

But the Nixon Administration is committed to a numerical reduction in our combined uniformed armed forces from 3.5 million to 2.5 million.

WE WILL OFFSET a reduction in manpower with increased firepower.

And the hundreds of thousands of American troops and aircraft which we have maintained on rented bases around the perimeters of Russia and Red China can be phased down and out within a year.

THIS PRACTICE of maintaining American troops on foreign soil is costly in more than one way. The dollars spent supporting those troops enjoy no two-way circulation. They go overseas to stay.

And frequently we have to bribe our allies in other ways for access to those bases.

SOON, WITH 16--eventually with 31--Poseidon submarines converted to carry the new super-Poseidon missile, there should be no need for far-flung land bases.

In the days when the Strategic Air Command was our nation's major defender, it was argued that we should not put all our eggs in one basket. But, for the most part, we did.

IT WAS SAC alone which kept anybody from starting anything. In the next generation of weaponry, it will be the more effective and less costly submarine fleet.

I MENTION this because Russia is showing much interest in reducing and eventually eliminating all arsenals of strategic missiles.

As outnumbered as we would inevitably be in foot soldiers, let's not

IF THE WOMEN'S Lib Movement is to be a success, there are some changes that will need to be made. Take, for instance, the most popular modern dress design.

In spite of the trappings and trimmings, along with the mod colors, minnie or made lengths, there's a very common oversight being permitted to continue.

FOR EXAMPLE, let's hear a very common sound from our house, when we're fighting a deadline for some appointment-- Everyone is about ready to load in the car, when, from somewhere in the back of the house "Someone will have to ZIP-ME-UP!"

THE ZIPPER that boon to mankind, is capable of causing more trouble than a carload of Carters-Little-Liver-Pills!

CAN SOMEONE explain to me why the zipper, in women's dresses, must always be in the back? -- Looks like a sure blow to destroy women's independence, to me!

And, by design, they're calculated to stick somewhere about halfway up, in spite of all you can do! If the zipper itself is not faulty, they manage to locate the material so that the guide rides up on it, and that's trouble, deluxe!

NOW, IF WOMAN is bent on being on an equal par with the man, they're gonna have to do something about those fasteners. -- You don't see men going around with their zippers

in the back of their pants, or shirts.-- I guess the nearest we ever came to that was back in the early part of the century, when the "Trap-Door" underwear was prominent.

I've been working on a plan to help my better-half rid herself of this problem of being dependent on someone to run her zipper.

I suggested that she locate a nail on the ceiling, with attached wire to be hooked in the zipper.--Now all she has to do is get up in a chair under the contraption, hook the zipper on the wire and jump off the chair.

She balked at the idea of the upside-down process necessary to the "Un-zipping" thing!

OH, WELL, back to the old drawing board!-- Somebody's gotta figure these little details out-- or else this "Lib-Thing" will NEVER get off the ground!

SPAG Gets Grant

Governor Preston Smith has approved a planning grant of \$19,845 to the South Plains Association of Governments, Lubbock, for making law enforcement studies in Lamb County and surrounding area and establishing a regional crime prevention program.

The grant was made on recommendation of the Texas Criminal Justice Council, which advises the Governor on administration of funds received from the U.S. Department of Justice under the Omnibus Crime Control and Safe Streets Act of 1968.

It was one of eight planning grants, totaling \$148,944, recommended by the Council at its regular monthly meeting. Also recommended were 11 action grants, totaling \$206,542.

Judge Joe Frazier Brown, executive director of the Criminal Justice Council, said the South Plains Association plans to make detailed studies of such areas as a teletype network, regional crime information center, feasibility of a mobile crime laboratory, and probation services.

Local funds of \$2,205 will be added to the grant approved by Governor Smith.

YOU EVER hear the word "from your family when you are having for supper? My husband always refused to eat it until I came across this recipe for "East Indian Liver and Smothered Liver and I prepared it--and good. My family now digs into it, and I am going out of my mind."

That calf liver is the most popular and most delicate flavored, most tender and most economical. Beef liver is less tender and more temperamental. "Baby beef" is halfway between the two in age, flavor and price. It is inexpensive and in taste, but equally good.

When you go out to buy liver, choose a half pound per serving. Wash it, wrap it lightly in porous paper, and store in the refrigerator. Before cooking, trim the edges and remove the membranes. Cut into thin slices, unless instructed otherwise by a recipe.

All recipes suggest pre-soaking liver by immersing in boiling water (or blanching a whole piece of liver for one minute). Some people soak liver in water or water with vinegar. One of my favorite ways is to soak the liver with milk for several hours. This tenderizes, tames the flavor and gives it a more pleasant color to look at. When liver cooks fast, it can be completely burned in a matter of minutes. In this recipe, you shouldn't be afraid of the word "Yuck" echoing behind a slammed door.

Warm, Fresh Air

... direct from the manufacturer

Natural gas is the healthiest, most economical way to heat your house this winter. Gas is economical because it's the direct way to produce heat - you don't pay to convert heat to another energy source and then back to heat. And with gas you can afford to bring clean outside air into your home this winter instead of having to re-heat the same old stale air time after time.

So, if you're building or remodeling, be sure to specify gas heating. Gas is the "natural" fuel. It's like buying direct from the manufacturer. Call your heating contractor, plumber, or Pioneer Natural Gas.

Study Club Has Dinner

ANTON--A buffet dinner at the Hayloft Theater marked the beginning of the 33rd year of the Anton Study Club. The Anton Study Club is a member of the Caprock district of the Texas Federation of Women's Clubs. The theme of the program for 1970-71 chosen by the president Mrs. Orval Williams, is "Americanism Begins With Us." The yearbooks were presented by Mrs. Edgie Sliger and her program committee; Mrs. Mavis Couch, Mrs. Steve Monroe, Mrs. Jack Grace, and Mrs. Bettie Herrin.

After a buffet dinner, the members and guests saw the play "What Did We Do Wrong?" Guests included: Mrs. Charles Edgemen, Mrs. Rex Easter, Mrs. Charles Couch, Mrs. Tommy Markham, Mrs. Kenneth Grace, Miss Ricki Herrin, and Mrs. Collier Flowers of Lubbock. The next meeting will be Sept. 14 at the home of Mrs. Ed Hart. Ed Hart will review the history of Anton and the surrounding community.

Shower Honors Carroll Ray

AMHERST--Mrs. Carroll Ray, the former Miss Connie Crain was honored with a bridal shower in the home of Mrs. Charles Smith Thursday evening. Guests were registered in the bride's book as they arrived.

The table was decorated with an arrangement of white daisies and yellow stock. Presiding at the table were Cassandra Waldrop and Debbie Maxfield. Punch and assorted cookies were served from crystal and silver appointments.

Hostess gifts were a set of Club aluminum and teflon lined cookware.

Hostess were Misses Charles Smith, Gary Pigg, L. C. Rhodes, Eddie Landers, Leroy Maxfield, Rodney Maxfield, Eugene Priddy, Strau Coffey, B. L. Burditt, Cleo Bales, Floyd Rowell, L. B. Eady, Nathan Rich, Thelma Byrum, Barbara Huckabee, Cassandra Waldrop, Howard Campbell, Robert Butler, Ben Greener, Don Hevern, Homer Peel, Betty Ivey, Clois Tomes, Delvin Batson, Jimmy Cowan, Eugene Young, Bennie Shipley, Jim Gage, James Holland, Bo Crosby, Mur Hufstедler, E. Special guest was the groom's mother, Mrs. Monroe Ray of Littlefield.

GO OUT TO the variety store and buy a powder puff to store in your flour cannister for "powdering" rolling pins, cake pans, and other flouring jobs. Or keep the powder puff in a plastic bag of flour. It's always handy and ready to be used for those cooking tasks.

Here lately it has been good weather for brewing up a batch of soup or stew.

If you should happen to get your soup or stew too salty add a sliced raw potato and boil five minutes. Remove potato.

THERE'S NOTHING I HATE any more than a roll with a charred bottom. I found one way to warm rolls without burning the bottom, place a lettuce leaf in the skillet and put your sweet roll on top of the leaf and then heat. The roll will get piping hot without charring on the bottom and the lettuce will leave no taste whatsoever.

ACT, SAT Set For Seniors

Seniors planning to attend college should take the American College Test or the Scholastic Aptitude Test before the 1971 fall term according to Tom Hollingsworth, counselor. Most colleges require either the ACT or SAT test for a college entrance exam prior to applying for admission. The ACT battery consists of test items in English, mathematics, social studies, and natural sciences, designed to measure performance on the kinds of intellectual tasks typically performed by college students.

The SAT test measure the development of verbal and mathematical skills which are considered necessary for success in college work. Many schools will accept scores from either of these two tests while others require scores from a specific battery. Scores on the ACT and SAT tests are reported to the high school which the student attends and then to the student himself for use in making further decisions about college plans. The scores are also

reported to the colleges designated by the student. Colleges use the scores to help advise students about their educational goals, to help in deciding placement in English and mathematics and to help make decisions about awarding scholarships and loans. The SAT test will be given in Littlefield Nov. 7 with a sign-up closing date of Oct. 7. The ACT test will be given in Littlefield Feb. 20 with a sign-up opening date of Nov. 23 and a closing date of Jan. 18. The ACT test will be given at South Plains College in Levelland or Lubbock Christian College on the following dates: Oct. 17, sign-up Aug. 24 to Sept. 28; Dec. 12, sign-up Oct. 5 to Nov. 9; Feb. 20, sign-up Nov. 23 to Jan. 18; April 24, sign-up Feb. 1 to March 22, and July 17, sign-up April 5 to June 14. Anyone wanting further information should contact Mr. Hollingsworth.

FTA Members Begin Year With Drive

Future Teachers of America kicked off their year's activities with an ice cream supper membership drive at the home of Kelly Fain, president. Kelly informed the new members as well as the old of the duties and obligations of a future teacher. Students who are interested in joining FTA, but did not attend the ice cream supper may join at the next meeting, a salad supper, Sept. 21. FTA officers previously met

and discussed plans for the year. They include a sandwich supper, pizza supper, Christmas party, tea and hamburger cookout. FTA meetings will be held the third Monday of every month at 6:15. This year's officers are Kelly Fain, president; Charlotte Hinds, vice-president; Marsha French, secretary-treasurer; Jo Reid, reporter; Dena Reast, photographer, and Carol White, parliamentarian and historian. Mrs. Smith is the sponsor.

JOHN MCGEE, new band director at LHS, looks at the last Sweepstakes trophy the Wildcat Band won in regional competition in marching, concert and sight-reading, and hopes the band can capture another this year.

New Director Likes Music

LHS Wildcat Band welcomes a new band director, John G. McGee. Mr. McGee last taught at Marfa High School in the Big Bend country. The following year he attended West Texas State University where he received his Master of Music degree. The music

field is not new to him, as his hobbies include music composition. After serving eight years in the Army, Mr. McGee and his wife, Lynda, settled down to raise a family. They now have two daughters, Susan, four, and Sharon, two. Football rates high with Mr. McGee. He also likes hunting and fishing, and every once in a while he tries his hand at golf. His favorite tale is "Let Me Tell You About the Day I Got a Hole-in-One." Mr. McGee thinks that Littlefield is a real fine place. He believes everyone has a purpose.

SPIRIT OF '71

"SPIRIT" is the theme for the 1970-71 school year. The student council set this theme at their first meeting of this year. Since "SPIRIT" has been designated as the theme for this school year, our first concern in today's column is to define this elusive word. Webster's definition of "SPIRIT" is courage, spunk, animation, and vivacity. Is this also your definition of spirit?

LHS Speaks Out

By PAM BRANNON

If our nation's freedom was threatened, do you think the South Vietnamese would come to our aid?

Larry Purdy (Sr.)-"I think this question has two answers. If we were threatened before the Viet Nam War existed I don't believe we could expect help from the South Vietnamese. If it were under our present situation, I believe they would be obliged to, but even then there would be some against it. It is possible that it could be a large portion of the population. I also believe in some ways that our war would be no part of theirs. So why should we expect help? How many fought in our civil war?"

Beverly Thompson (Jr.)-"No, because I think they just want us to help them only because we have more, and they probably think we don't need any aid."

Marsha Starnes (Jr.)-"Yes, I think they would help a great deal more than some people think. They may be a small country but that doesn't mean they can't fight hard."

Jackye Gregg (Soph.)-"Yes, because they don't want this world turning to Communism. They're fighting against it for a free nation, and they want to have equal rights. They know if they didn't help us win, and then if we lost, they would probably be taken over too."

Chuck Blevins (Jr.)-"Yes, they probably would try to help us, but I doubt if they would be of much help, because anything that could threaten the U.S.'s freedom could take care of South Vietnam without thinking twice."

Timmie Campbell (Jr.)-"No, the Vietnamese can not even fight their own battles let alone help someone else fight theirs."

Mike Parker (Jr.)-"Yes, I think they would come to our aid but I don't think they could help us in any way since they're such a small nation."

Kathy Turner (Jr.)-"No, if the U.S. did have this kind of problem, I think then that the Vietnamese War would be over, because we could not fight two wars at once. Therefore, I think the Vietnamese would be in no position to help anyone because of financial and governmental recuperation."

Dennis Cowen (Jr.)-"Yes, they would try to do something, but they would not have the forces and supplies to back us up."

Doris Ashley (Sr.)-"No, since we have helped them it would be only fair if they helped us. But the South Vietnamese can hardly fight their own war."

Kenan Lichte (Soph.)-"Yes, I think they would come to our aid because they are against Communism just as we are."

Cathy Giles (Jr.)-"No, people in that part of the world always seem to think of themselves, and really don't seem to take any interest in the Western, or modern world. Cynthia Adair (Jr.)-"I think they would want to try to help, but they might not be able to because of political and financial problems within their own country."

LHS A Cappella Choir Ready For New Year

Open your mouths and let out your voices-- Join the choir and sing hymns and choruses.

The choir this year is as new as this verse, but of much better quality. The members of the Littlefield High School A Cappella Choir are daily becoming a proud organization with a goal of ultimate success. Over the past years interest in choir has reached an alarm-

ingly low level. Membership and outside support have decreased. It is the hope of some, however, that the choir can be remolded into an organization appealing to the students.

The following students compose the staff of officers: Wayland Hutto, president; Joe Williams, vice-president; Lisa Volpe, secretary; Gail Williams, treasurer; Becky Kirby and Chuck Blevins, social directors; and Melonie Brantley, publicity director. Section leaders are Joe Williams (bass), Gail Williams (alto), Chuck Blevins (tenor), and Sheila Harrell (soprano). The appearance of the group

will be considerably different this year. The girls will wear formals and the boys will wear dinner jackets.

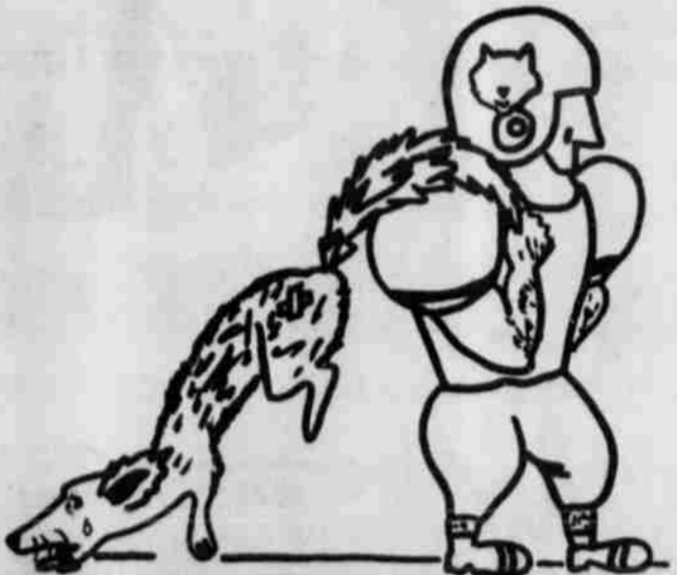

Accompanying the improvement in appearance will be an improvement in the quality of the choir's performance. In November an American concert will be presented as a tribute to our great American heritage. In January the choir will be honored by having a clinician, Ronald Shirey from Eastern New Mexico.

The new choir director and every choir member encourages other students and adults to participate and support the new choir program.

Bell Ringer, Mascot Named

Charlotte Hinds and Doris Ashley were named LHS bell ringer and mascot respectively Sept. 1 after all candidates had made speeches before the Student Council.

Each student trying out had to tell their qualifications for the job and tell why they wanted to be bell ringer or mascot. The Student Council then voted for the best on the basis of the speeches given.

It is the duty of the mascot and bell ringer to promote spirit and enthusiasm among the student body. The bell ringer must also keep the victory bell shining and make sure it is at every game.

Doris serves LHS in a number of other ways. She is president of the Girl's Athletic Association, treasurer of the Kat Klub and an office aid.

Charlotte is actively involved in a number of LHS organizations. She is a member of the annual staff, treasurer of the Student Council, vice-president of the Future Teachers of America and an office aid.

Assemblies Are Slated

Next week, the senior and junior high schools will be privileged to have a notable guest to speak at separate assemblies.

James Robison will speak at the junior high Monday at the high school Tuesday the value of morals.

James Robison was born a broken home and lived in an orphanage until he was 15 years old. At 15 his spiritual life began and drew him into the preaching ministry at 18.

Consequently, Robison soon receiving invitations to speak at various secular and religious assemblies. He rapidly achieved a remarkable reputation for communicating his feelings to all of people--especially youth.

Robison is now 25 years of age and has spoken to more than 250,000 students in assemblies throughout the nation.

Kat Klub Election Held

The first meeting of the Klub was conducted September 10 when officers were elected.

They are president, Kelly Kirby; first vice-president, Carol Chisholm; second vice-president, Donna Bowman; secretary, Lisa Volpe; treasurer, Doris Ashley; and reporter, Melonie Brantley.

It was decided by the members to have a pep squad basketball season. They will wear uniforms and promote school spirit.

An ice cream supper planned for Sept. 19 at Cent Park for the football team due to cold weather, is postponed to a later date.

A sign to display school spirit was made by the Klub and hung in the gym which will remain during football season.

Kat Klub meetings will be held every Tuesday night in the woodshop.

AD SALE UNDERWAY

The 1970-71 annual sale campaign is in full swing. Members of the staff will be calling on local businesses sometime in the next few weeks.

Prices of the ads are: one page, \$40; one-half page, \$25; one fourth page, \$15; and one eighth page, \$10. Booster ads may be bought by individuals or business for three dollars.

The campaign will wrap up the first of November when staff members will begin work on copy and layout.

Staff members are Jo Reid, editor; Debra McAnally, business manager; Spence Carter, Marsha French, Cynthia Adair, Charlotte Hinds, Mary Elizabeth Shott and Linda McAnally. Mrs. Betts is the sponsor.

Beta Sigma Phi Discusses Plans

Texas Tau Chi chapter of Beta Sigma Phi met Monday in the Reddy Room for a regular meeting. President Carolyn Spies presided.

Plans for the spook house to be held in the Girl Scout Hub were discussed. This is a yearly project for the sorority, with half the proceeds going to the scouts.

It was reported that Carolyn Spies and Paula Schroeder had been selected for the "Out-standing Young Women of America" award.

Hostesses for the evening were Loretta Winfield and Darla Crone. They used a football theme complete with hot dogs to eat.

The program "The Body Beautiful" was presented by Janet Houk and Vada Walker. They demonstrated how exercise is good for the body.

Other members present were Jean Johnson, Carol Brooks, Jena D. Brunson, Kathie Fitzgerald, Vickie Tomison, Terry Miller, Claire Sawyer, Linda Merrifield, Renee Williams and Beth Harry.

The next meeting will be Sept. 28 when the Ritual of Jewels will be conferred on our four pledges.

Deer Hunters Begin Making Preparations

With deer season just around the corner, both gun hunters and bow hunters would be wise to start preparations now, according to the Texas Parks and Wildlife Department.

Archers planning to take part in the early hunt at the Aransas Wildlife Refuge, beginning Sept. 10 and running through Sept. 30 are especially pressed for time to sharpen their broadheads and shooting eyes.

For the rest of the archers, opening day is Oct. 1 in regulatory counties except in the McCulloch, San Saba, Mason, Llano, Burnett, Gillespie, Blanco and Travis counties where the opening date is Oct. 15.

Commissioners courts in Edwards, Kendall, Hays and Menard counties rejected the October archery season this year.

The regular deer season runs from Nov. 14 through Jan. 3 in the Possum Kingdom, Permian Basin, Edwards Plateau, Trinity Brazos, Southeast, Oak

Friday will mark the week of the high school season. Only three teams in Lamb eight first game vic-posted a 45-12 victory over Tulia, 46-6 over Sundown, Springlake-Earth victory over 25-0.

LITTLEFIELD faced a tough team that stole the game from the Wildcats in the second, 18-14. Anton won by Wilson, 40-6, and Bula, 52-18, and Klondike, 42-14.

WEEK Coach Bill of the Sudan Hornets led his crew to Amherst for his second win of the season. He may find a very dangerous Bulldog squad with Sesame at its head. Bulldogs went down before Springlake-Earth offense that rushed 16 yards and passed for 10 yards. The statistics receiving though, as the behind the excellent running Bobby Clayton, rushed 50 yards but could not get the 125 yards that were runbacks by Clayton. He was very pleased with

his boys after a 45-6 win over Sundown, but will not take on the Amherst squad without all due cautiousness. "The Amherst team has improved a great deal from last year and could prove to be tough." Amherst will also be trying to avenge a 39-0 defeat from the 1969 season.

JERRY BLAKELY of the Olton Mustangs will be out after the hide of the Muleshoe High team. Blakely was "tickled to death with our rushing game. We knew we had a passing attack after last season but our running game was a question mark."

Last Friday Steve Stockdale, Keith Workman and Marlos May showed their coach just what kind of running game they had. In defeating Tulia 45-12, the Mustang backfield ran for 322 total yards and four touchdowns. Stockdale, the quarterback, passed for 205 yards and two touchdowns.

ANTON COACH Jim Gwaltney watched his Bulldogs go down to a "big and very fast" Wilson team, 40-6. The "Dogs will face what Gwaltney says is as big and fast a team, in New Deal. The New Deal eleven will give the Anton sophomores more, much needed experience before district play opens.

"My team has little experience, as we only had four se-

niors return, but we will get a little better as the year goes on," said Gwaltney.

SPRINGLAKE-EARTH will travel to Hale Center to try for a second win this season. The Wolverines came out the victors in a 26-0 bout with a smaller Amherst team for their first game. Hoyt Glasscock led the Wolverines in offense, handing off to his backs for two touchdowns and carrying one across himself. The Springlake-Earth squad is one of the favorites to win the 3-A crown this year. Tony Barton will be the Springlake back to watch, with 150 yards in 14 carries against Amherst.

BULA and Witharral, both in District 5-B, lost their openers. Bula was dropped, 52-18, by Gail and Witharral was charred by Klondike, 42-6.

This Friday Bula will try its skill against the Wellman Wildcats in Wellman. Coach Loy Halbrooks said that "Wellman has a very tough team, but if we can play ball in all four quarters like we did in the first, third and fourth with Gail we have a strong chance of defeating the Wildcats." The Bula boys had troubles with fumbles.

"We lost five out of five fumbles in the Gail game. Three were within our own 30-yard line and they set up their touchdowns. We fumbled once on their one."

KIRBY WHITE will take the Witharral Panthers' young team against Loop in Loop. The Panthers lost their season opener to Klondike with the lone Witharral score coming late in the fourth quarter when Quarterback Johnny Graham ran 15 yards to the goal after a broken-pass play.

LITTLEFIELD'S Arturo Soria (22) is downed after a gain in the JV clash with Levelland here Saturday.

Littlefield JV Rallies, But Falls Short, 16-14

The Littlefield Junior Varsity football team's fourth quarter rally against Levelland fell just two points short in the first JV game of the 1970 season.

Levelland dominated the second and third quarters with a rushing attack that carried them to the win, 16-14. They picked up 142 yards rushing as compared to a weak 37 by Littlefield.

Littlefield did control the airways though. The JV passed for 96 yards and one touchdown, as compared to 14 yards passing by the Levelland squad.

Randy Dayton was one of the

outstanding offensive players for the little Wildcats. Dayton, the quarterback, completed four of nine passes for 60 yards gained and one of the 'Cats touchdowns.

Along with Dayton as offensive standouts were Randy Posey, receiver of four passes for 60 yards gained plus the 13-yard touchdown pass from Dayton, and Jesse Davila, who completed two of three passes for 36 yards and rushed for 24 yards in seven carries. Davila made the other Wildcat score on a run from two yards out.

Arturo Soria was the other Littlefield scorer on a good

two-point conversion attempt. Soria gained 39 yards in 14 running plays.

Outstanding defensively for the Wildcats were Mike Hopper, Bill Hamblin, Noto Trejo and Charles Smith.

CHARLIE HOLT

STEVE OWENS

Wildcats Owens, Holt To Be Starters

NEWELL, N.M. (Special) - Star of ex-Wildcat football will be in the starting lineup for the New Mexico Military Institute Broncos Saturday night when NMMI heads to Lubbock, to battle Tech's Picadors.

Steve Owens, son of Mr. and Mrs. Owens, is slated to be the opening assignment at

split end for the Broncos. Owens, a 6'2" speedster who tips the scales at 175 pounds, has the hands and speed to become a top-flight collegiate receiver. Offensive backfield coach John Ussery is particularly high on the Littlefield youngster.

Charlie Holt, son of Mr. and Mrs. Marsene Holt, will draw a starting role at a defensive halfback slot. Holt, 6'1" and 172 pounds, was originally recruited as a quarterback, but has been moved to the defensive unit where the Broncos are short of man-power. Quarterback appears to be the deepest spot for the Broncos with three top notchers running with Holt.

New Mexico Military Institute is the only Junior College in New Mexico playing football and annually produces highly sought JC players.

Saturday night's game in Jones Stadium is slated for a 7:30 kick-off.

CHRYSLER

Announcing the 1971 Duster.

The big difference in small cars.

We first introduced the Duster as the best transportation bargain in America. It still is. And we built Duster to be America's "small-enough-but-big-enough" car. And it still is.

Small car lovers of America, your day has come.

You have more tires to kick, more doors to slam, more hoods to look under, more colors to choose from and more test drives to take than ever before.

Which leaves us to convince you that Duster gives you the most car for the money. That it's small enough, but big enough. And that, all in all, it's the ideal small car.

Room. More of it to accommodate more passengers. More of it to accommodate more luggage.

Most small cars are four-passenger cars. And when you sit in some of them, they feel like they were built for three-and-a-half passengers.

Small enough for maneuverability. Big enough for stability.

Duster's small enough to slip into about 3/4 of a parking space. Yet it's big enough to give you stability on the open highway.

It has our unique torsion-bar suspension (for better handling). And unibody construction—its strength completely surrounds you.

So Duster can handle stop-and-go city traffic as well as freeway traffic because it's the right size, the right weight and it handles.

Our small-enough-but-big-enough car has a small-enough-but-big-enough engine.

Duster's standard engine is our rugged 198 cubic inch, 125 horsepower Six.

It gives you great gas mileage and a little

more power than other small cars' smaller engines.

And that's a perfect combination.

Options. You have over 50 to choose from when you order a Duster.

Think of it this way. It's a convenience to have a lot of conveniences to choose from.

If you're considering buying a new small car, and you have certain options in mind to go along with it, you may find Duster the only small car that offers them.

There are things like a Stereo Cassette Tape Player, V-8 engine, vinyl roof and power brakes that you just can't get on some small cars.

The Duster success story: to be continued.

No doubt about it. Duster is the car for the times.

Over 175,000 Duster buyers thought so last year. And we expect more of the same kind of success with the 1971 Duster.

Before you buy a small car, look at our small car.

Duster. Built and engineered with extra care.

See the new Plymouth Duster today.

Church Slates Revival Services

Rev. Mike Kelly will be the guest speaker for an "Old Fashioned Revival" at the Bible Missionary Church, Sept. 17 through Sept. 29.

Rev. Kelly is pastor of a church at Spiro, Okla., and has done pastoral and evangelistic work in Texas, Oklahoma, New Mexico, Arkansas, and Oregon. Services are scheduled to begin at 7:30 tonight and each week night through Sept. 29. Sunday services will be 10:45 a.m. and 7:30 p.m.

The public is invited to hear any and all of these sermons. The services will be informative and presented in such a way

that young and old should understand and appreciate. Music will be directed by Ron Cantrell during the special singing.

ATTEND MEET

The Texas Home Demonstration Association is having its 44th annual state meeting in Galveston this week.

Attending the meeting from Lamb County are Mrs. Shine Miller and Mrs. Dee Myers. The district group left by chartered bus Monday and toured Astroworld in Houston Tuesday before going on to Galveston.

Group workshops will be held in Family Life, 4-H, Health, Citizenship, Cultural Arts and Recreations and Safety. Other meetings will feature outstanding speakers.

Mrs. Miller is the incoming THDA Chairman for Lamb County in 1971.

OBITUARIES

ALONZO GALAN II

Funeral services for Alonzo Galan, II, 18, of Roby, former resident of Earth and nephew of Adam Galan of Earth, were conducted Sunday afternoon in the First Baptist Church in Rotan with Rev. Walter Wooley, pastor of the First Baptist Church of Roby officiating.

Galan received chest injuries in football practice earlier last week and had been transferred from Roby to West Texas Medical Center in Abilene, where he died last Friday afternoon.

He was born Jan. 12, 1952, in Roby, and he later resided in Earth and attended Springlake-Earth school during his second and third grade school. Galan moved from Earth in 1958.

Survivors include his father, Alonzo Galan of Roby; two brothers, Larry Galan and Roy Galan, both of Abilene; six sisters, Helen, Rachael, Bella, Stella and Jackie Galan, all of Abilene, and Mrs. Lilly Beavers of Neosho, Mo.; an uncle, Adam Galan of Earth.

His mother preceded him in death in 1958. An aunt, Helen Galan, helped rear him.
