## Duggan Family Donates Land For New Library

BOARD MEMBERS made their temporary corporation permanent Thursday morning and accepted a \$20,000 plot of land contributed by the Arthur P. Duggan family to build a new Lamb County Memorial Library. The proposed new Lamb County Memorial Library is off to a great start with the donation of a tract of land appraised at \$20,000.

In a library board meeting in the county courtroom Thursday morning, trustees voted to accept a 150-foot by 160-foot tract of land at the intersection of 9th Street and Rowe Avenue donated by Arthur P. Duggan Jr. on behalf of the Duggan family.

Duggan offered the trustees adequate space on either side of his home for the planned new facilities. After considering several suggested sites, the board elected to accept the corner property on the west of the Duggan home.

Trustees said they feel the location is ideal, and easily accessible for residents all over the county. The property is three blocks from downtown Littlefield and two blocks from U.S. 385. Ninth Street is part of Highway 54, making the location easy to find.

Present plans call for a 110' x 140' building with adequate off street parking facilities. Cost estimates range from \$175,000 to \$200,000, with this money to be raised by public solicitation and from foundation grants.

An application has been made to the Ewing Halsell Foundation, and trustees said they hope for a \$25,000 donation.

Board members voted Thursday to revise the by-laws and make the Lamb

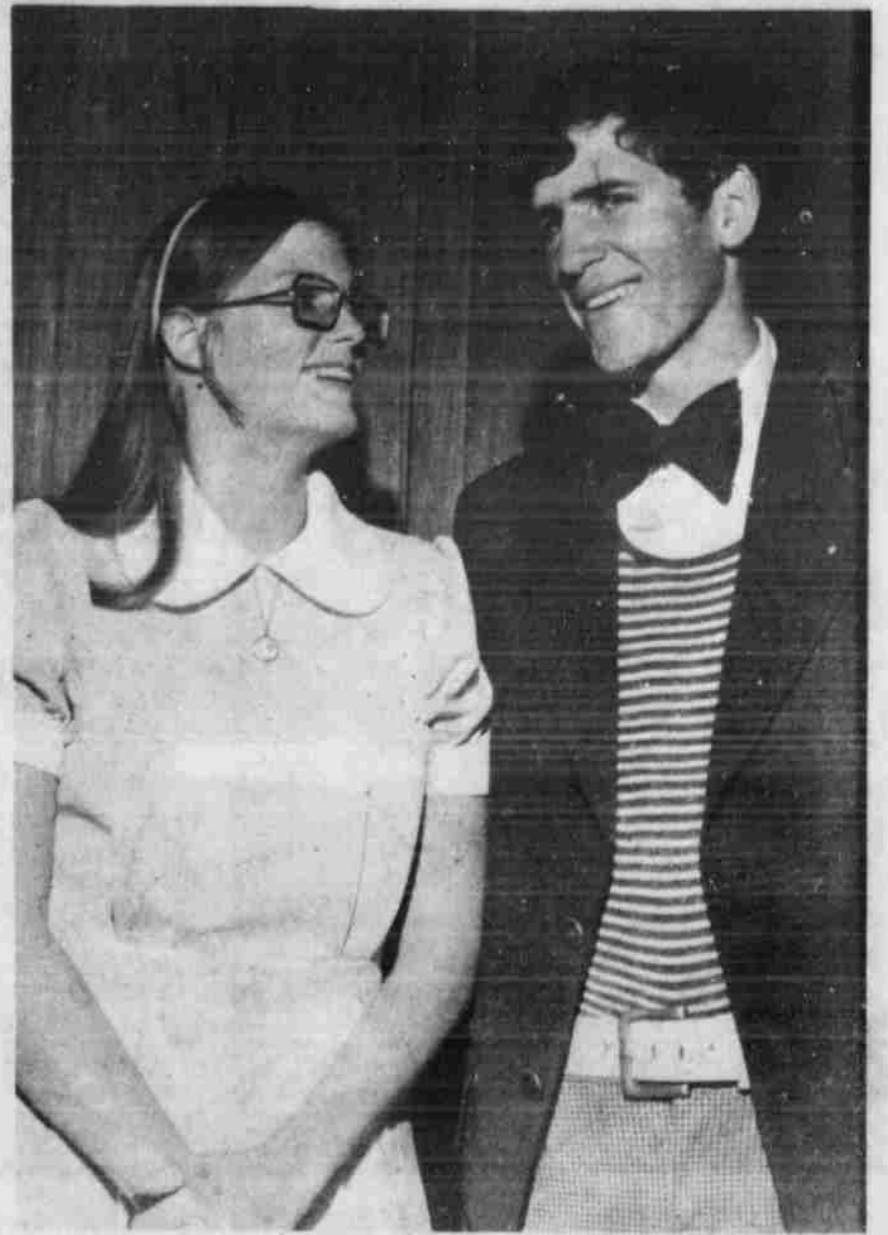

County Memorial Library Corporation permanent. This will allow the corporation to hold title and accept continuing tax deductible contributions. Permanent corporation officers will be elected in the near future.

Friends of the Library and the trustees will work together to provide facilities, and the county will continue to own books, shelves and provide maintenance.

Members of Friends of the Library and the Library Board plan to promote the library construction by meeting with various civic organizations and working with community service oriented clubs and groups throughout the county.

Board members are V. M. Peterman, Amherst; Mrs. Ellarene Holland, Amherst; Mrs. Mary A. Wicker, Littlefield; Mrs. Beryl Vann, Spade; Mrs. Laura Hay, Sudan; Mrs. Lillie Mae Silcott, Olton; Mrs. Patricia Lewis, Earth; Mrs. Bonnie Haberer, Pleasant Valley; Mrs. LaVerna Thompson, Olton. Also Kenneth J. Ware, Judge Pat H. Boone Jr., Judge G. T. Sides, Paul M. Carmickle, James T. Lee, Clarence O. Stone, and Mrs. Ocia L. Stone, all of Littlefield.

Ex officio members are Hubert D. Henry, president of Friends of the Library, Bob Wear, past president of the Friends, and H. C. Randall, vice president of the organization.

OUTSTANDING Girl and Boy of Littlefield High School were recognized Tuesday night during the annual Honors Festival. They are Barbara McBride and Andy Rogers, LHS seniors. They were chosen for the honor by members of the faculty. (Staff Photo)

## First Quarter Deposits Up \$26,030,605 In Year

Deposits in the two Littlefield banks, Littlefield Federal Savings & Loans, Anton State Bank and the banks at Earth, Olton, Sudan and Amherst had total deposits of \$95,071,699 at the end of the first quarter of business for 1974.

Although the Federal Deposit Insurance Corporation's call for statement of condition didn't come until April 24, this figure shows deposits are up \$26,030,605 over this period a year ago when the institutions had deposits of \$69,041,094.

Had the call come earlier in the month before farmers socked such sums into fertilizer, land preparation, pre-planting irrigation and seed, the increase would have shown a much wider margin.

Overall, loans and discounts were up \$7,936,216 this quarter from the first quarter in 1973. Loans and discounts at the eight places totaled \$43,453,365 compared to \$35,517,149 last year.

At Littlefield Federal Savings and Loans, deposits on the call date totaled \$21,231,050, up \$4,400,716 over last year's \$16,830,334. Loans totaled \$17,511,065, up \$5,636,865 over last April's \$11,874,200.

Security State Bank showed deposits of \$24,641,898, up \$8,551,982 over the April figure of \$16,089,916. Security's loans totaled \$8,874,207, up \$1,776,862 over the '73 figure of \$7,097,345.

The First National Bank of Littlefield had deposits of \$8,638,277, up \$2,111,676 from the 1973 first quarter deposits of \$6,526,601. The 1974 loans are down \$389,216 this quarter, from \$1,927,587 to \$1,538,371.

Olton State Bank had deposits of \$14,679,765, up \$3,261,436 from the '73 comparative figure of \$11,418,329. Loans at Olton totaled \$9,216,758, up \$839,100 from last year's \$8,377,658.

The First National Bank at Sudan had deposits of \$6,572,019, up \$2,037,665 from the '73 figure of \$4,534,354. Loans at the Sudan bank are down to \$826,305 this quarter compared to \$1,512,852 last year.

Deposits at Citizens State Bank in Earth totaled \$6,537,866, up \$1,785,453 from the '73 first quarter of \$4,752,413. Loans at Sudan totaled \$2,311,975, up \$98,721 from the '73 loans of \$2,213,254.

## Oltonites Defeat City Bond Issue

Olton voters turned down a proposal for a new city hall Tuesday.

A total of 376 eligible voters defeated the \$200,000 bond issue 216 to 160. A spokesman said approximately 540 were eligible to vote on the proposal.

Under present ruling, the bond issue cannot be brought to a vote again for six months.

The proposed 6,000 square-foot building called for a combination community room and storm shelter in the basement and ground level office space for city offices, police department, council and corporation court space, with additional space to be rented.

At the First National Bank in Amherst, deposits totaled \$8,247,788, up \$2,486,543 from \$5,761,245. Loans are down \$199,932, from \$1,298,923 last year to \$1,098,991 this quarter.

At Citizens State Bank in Anton, deposits totaled \$4,523,016, up \$1,395,114 from last quarter's \$3,127,902. Loans totaled \$2,075,693, up \$517,555 from last year's \$1,558,138.

## Delinquent Taxes To Be Collected For Bula School

The Board of Trustees of the Bula Independent School District approved an agreement Wednesday night with Tom Tollett, attorney at law, for the collection of delinquent taxes due the school at 15 percent of the taxes due, including interest and penalty.

Court costs, if any, will be added to the delinquent taxes due.

According to James Sinclair, superintendent of the Bula Independent School District, "It is expected that Attorney Tollett will begin work by June 1."

"Like most other schools, the Bula ISD has found it necessary to increase taxes because of inflationary costs of operating the school system. Finding that the failure of a relatively few to pay their taxes has resulted in even higher taxes and an increased burden upon the majority, therefore the board has taken this action," Sinclair emphasized.

Delinquent taxes may be paid through May 31 at the school tax office at Bula.

"After that date, Mr. Tollett will assume responsibility for collection of delinquent taxes," Sinclair concluded.

## 'Miss Lamb County' Pageant Set June 14

The annual 'Miss Lamb County' beauty pageant, sponsored by the Tau Chi Chapter of Beta Sigma Phi, has been slated for June 14 in the Littlefield High School Auditorium at 8:30 p.m.

Entries must be 17 years old by July 1, and not more than 22 years old by July 1.

Winner of the contest will receive a \$100 scholarship from Tau Chi.

Entries must be in by May 29. Those interested may contact Bonnie Stephens 385-5700, Judy Vaughn 385-5941 or Pat Mott 385-6006.

ALL WILDCAT Girl and Boy of Littlefield High School are Carol French and Randy Cook, LHS seniors. The coveted title was awarded following a popular vote of the students. The recognition was given during the Annual Honors Festival Tuesday night. (Staff Photo)

## Kindergarten, First Grade Pre-Registration Slated

Kindergarten and first grade students who will be first-time students in Littlefield Public School system next fall are asked to pre-register in Principal Forrest Martin's office in the Primary building sometime this week, May 13-17.

Students who are currently attending public school kindergarten are already registered for the first grade, and do not need to register again.

Every child who will be six years old on or before Sept. 1, 1974 should be registered for the first grade, and children who will be five years old on or before Sept. 1, 1974 will be eligible for kindergarten.

Each must bring his or her birth certificate and record of immunizations at the time of registration.

Children registering for kindergarten will be divided into two basic groups: 1.

the educationally handicapped—those who may have difficulty reading or understanding the English language, or if they are from low income families of \$3,000 per year or less.

2. Other children who will be five years old on or before Sept. 1, 1974 will be eligible to attend kindergarten a half a day. Plans for these students are for attendance in the morning, when their basic academic program will be stressed, then an enrichment program in art, music, and physical education will be stressed in the afternoon.

According to Principal Martin, "It is very important for each child who is eligible and who plans to attend kindergarten next school year to be registered this spring, so that plans may be made to provide the proper number of rooms."

## County TSTA Scholarship Awarded Barbara McBride

Barbara Sue McBride, daughter of Mrs. Ethel McBride of Littlefield, has been named recipient of the \$500 Lamb County TSTA scholarship for the 1973-74 school year, according to Mrs. Joe W. Bailey, Lamb County TSTA president.

Miss McBride has been accepted by West Texas State University in Canyon and will enroll in WT's summer school in June. She plans to major in math education.

During high school, Miss McBride has taken part in band, student council, National Honor Society, Future Teachers of American and DECA activities.

This year she was chosen as District XVII Miss FTA at the district convention, based on speech competition, and she advanced to the state contest where she placed in the top six.

The student body chose her as the 1973 homecoming queen this year, and just recently the high school faculty chose her as the Outstanding Senior Girl.

In addition to being active in extra-curricular activities, she is an honor graduate this year, ranking number four in her class with a 95.16 average. She has been awarded academic sweaters four years in high school. She received

recognition in Algebra I, Algebra II, Spanish II and Trig.

Students from Olton, Spade, Springlake-Earth, Sudan, Amherst and Littlefield competed for the scholarship. Brenda Hopper, a senior from Spade, was chosen as runner-up and will receive the scholarship if, for any reason, Miss McBride should fail to use it.

This is the second scholarship for the Lamb County TSTA to award a student who planning to enter the teaching profession.

## Bezdek-Schlottman Wedding Vows Read

Betty Alice Bezdek of Dallas and Mitchel Gary Schlottman of Pep exchanged double ring wedding vows Saturday shortly afternoon in the Holy Trinity Catholic Church in Dallas.

Officiating for the reading of the vows before the altar decorated with baskets of white mums and greenery was Rev. Patrick Higgins, pastor of St. Cyril and Methodus Church of Corpus Christi.

Parents of the couple are Mr. and Mrs. Henry Bezdek of Corpus Christi and Mr. and Mrs. E. L. Schlottman of Pep.

The bride wore a formal-length gown of white silk organza fashioned with a scooped neckline and full skirt. Appliques of re-embroidered Alencon lace, beaded with seed pearls, enhanced the front and back bodice. Scalloped appliques encircled the skirt bottom above a full ruffle. The train, which fell from the waist, repeated the same ruffle and scalloped lace motif of the skirt. Her shoulder-length veil was held by a beaded Alencon lace headpiece framing the face.

She carried a bouquet of white carnations, baby breath tied with blue and white streamers.

Mrs. Joe David of Garland was her sister's matron of honor. Bridesmaids were Linda Cavalier of Houston, Janet Bezdek of Baton Rouge, La. and Kathleen Bezdek of Baton Rouge, La. They wore light blue, floor-length gowns featuring empire waistlines, and blue daisies. Instead of bouquets, they carried umbrellas covered with blue net and white ribbons.

Danny Schlottman of Pep was his brother's best man. Groomsmen were another

brother, Tony Schlottman of Pep, Sammy Schlottman of Littlefield and Bobby Munn of West.

Serving as ushers were Jerry Stanislaw of Dallas, Edward Vasicek of Grand Prairie and Bob Wood of Dallas.

Kathleen David of Garland, a niece of the bride, was flower girl, and Keith Kapavik of Lancaster, a nephew of the groom, served as ring bearer.

Altar boys were Bart Sinnacher of Morton and Raymond Kohut of Temple.

Wedding selections were presented by the Open Window of the Vicentian Club, accompanied by guitars, drums and tamborines.

For her daughter's wedding, Mrs. Bezdek wore a long pastel yellow dress, accented with lace on the bodice and long full sleeves.

Mrs. Schlottman wore a formal-length lavender gown featuring long sleeves and a V neckline.

Following the wedding reception, dinner, wedding march and dance were held in the SPJST Hall at Ennis.

Members of the houseparty were Corinna Sinnacher of Morton; Betty Puch of Corpus Christi; Sister Barbara of Longview; Virginia Cruz of Dallas and Phyllis Pochico of Dallas.

Registering the guests in the bride's book was Diana Evens of Dallas.

For their wedding trip to Nashville, Tenn., the bride wore her wedding dress.

They will reside at 1919 N. Garrett, No. 110 in Dallas, until they locate another home.

The bride graduated from South Texas College at Corpus Christi and the groom is a graduate of South Plains Junior College.

## Dianne Milligan Honored With Bridal Shower

Miss Dianne Milligan, bride-elect of Phelps Blume, was honored with a bridal shower Thursday, May 2, in the Reddy Room.

Guests of honor were the mothers of the couple, Mrs. Earl D. Milligan and Mrs. W. E. Blume; the bride's grandmothers, Mrs. Ray Milligan and Mrs. Opal Haney; and the groom's grandmother, Mrs. H. L. Phelps.

The bride's chosen colors, blue and white, were carried out in the table decorations. The table was centered with a blue floral candle arrangement.

White cake, mints, nuts and blue punch were served to the guests by Debbie Crosby and Tina Russell.

Lana Weaver registered the guests in the bride's book.

An electric skillet was presented to the honoree by the hostesses: La Nona Betts, Linda Sherley, Linda Weaver, Debbie Crosby, Dona Davis, Sharrise Cowan, Sharla Grant, Regina Williams, Patti Hamblin, Judy Cannon, Cindie Huber, Tina Russell, and Laquinta Clark.

## Miss Grizzle Awarded Degree

Commencement exercises for 589 Oklahoma City University graduates were held Saturday night, May 11, on the campus lawn south of the C. Q. Smith Student-Faculty Center, according to Dr. Dolphus Whitten, Jr., OCU president.

Among those receiving degrees was Geofreen Grizzle of Littlefield, who received the Bachelor of Music degree.

Bishop Paul W. Milhouse, resident bishop, the Oklahoma area, The United Methodist Church, gave the invocation. Dr. William R. Henry, vice president for church relations at OCU, presented the benediction.

President Whitten was the commencement speaker and conferred degrees on the graduates, assisted by Dr. Robert L. Jones, vice president for academic affairs.

Graduates included 301 undergraduate degree candidates, 159 masters degree candidates, and 129 Doctor of Juris degree candidates.

**DKG Members Attend Banquet Honoring Founder's Day**

Nine Epsilon Delta members from Littlefield and 30 members of Epsilon Delta Chapter of Delta Kappa Gamma heard the state president, Mrs. Frances Lowrance, speak at a Founder's Day Dinner Saturday night, May 4, in the Wayland Baptist College Cafeteria in Plainview.

Mrs. Lowrance is a professor of education at the University of Texas at El Paso, and was the recipient of the Delta Kappa Gamma Achievement Award.

Epsilon Delta Chapter of Lamb and Bailey Counties and Gamma Iota Chapter of Hale County were the hostesses. Guests from four chapters serving 15 South Plains Towns were introduced.

More than 100 Delta Kappa Gamma members were served from a buffet table. A

Founder's Day tribute, honoring the 12 women founders of Delta Kappa Gamma, was given by Sue Burgess of Olton. Special music was by Gamma Iota.

Mrs. Lowrance then conducted a mass initiation service for the new officers of all the chapters represented. Initiated as officers for Epsilon Delta Chapter were:

President, Monarae Cummings of Springlake; vice president, Mary B. Obenhaus

of Muleshoe; second vice president, Gracie Lee Evins of Sudan; recording secretary, Iona Donnelly of Littlefield; corresponding secretary, Zoy Risinger of Bula; and treasurer, Sue Burgess of Olton.

Those who attended from Littlefield were Ruth Ford, Harriett Cummings, Audie Collins, Irene Lynn, Iona Donnelly, Nettie Belle Hilburn, Elizabeth Ayres, Edith Settle, and Gladys Houk.

**Showers Honor Karyn Vrubel**

Miss Karyn Vrubel of Lubbock, formerly of Spade, bride-elect of Ronald Pence of Whitharral, was honored with two bridal showers recently.

One was in the fellowship hall of Spade Baptist Church and the other in the Lions Club Building at Whitharral.

Special guests attending both were the honoree's mother, Mrs. John Vrubel of Lubbock; the bridegroom's mother, Mrs. Alton Pence of Whitharral; the honoree's grandmother, Mrs. Ellen Will of Littlefield; and aunts, Mrs. Joe Vasek of Littlefield and Mrs. Charles Carpenter of Amherst.

Other special guests at the Whitharral showers were the bridegroom's sister, Mrs. Don Oden of Anton and his sister-in-law, Mrs. Jimmy Pence of Levelland.

At Spade, refreshments of blue decorated cookies, mints, nuts and blue punch were served from crystal appointments by Mrs. Bob Mills. The serving table was laid with a white lace cloth over blue and was centered with a large white flocked candle surrounded by blue flowers and white doves.

The hostess' gift was a deep fat fryer, electric can opener and pressure cooker, all in avocado green.

Hostesses were Mmes. Carl Reed, Bob Mills, Jimmy Long, C. C. Solesbee, Clem Dubose, Bill Ivins, Gilbert Srygley, Jim Parks, Stella Freeman, R. L. Stubblefield, Earlie Hall and Roy Black.

For the shower at Whitharral the serving table was laid with a white and gold cloth centered with a floral arrangement in a milk glass container. Refreshments of cookies, mints and punch were served from crystal appointments.

The hostess' gift was a complete set of stainless steel cookware.

Hostesses were Mmes. John Dukatnik, Adolph Dukatnik, Clifford Throckmorton, Ervin Sadler, Joe Hoelscher, Don Reding, George Wade Jr., Robert Avery, Jack Gage and Clinton Fagan.

Miss Vrubel and Pence will be married Friday, May 10, at 8 p.m. in the home of the bride-elect's aunt and uncle, Mr. and Mrs. Joe Vasek, 600 Crescent Drive, Littlefield.

## Did We Learn Anything?

AMERICA is just now coming out of a severe gasoline shortage.

The lines at the service stations have disappeared. The restrictions on the hours the stations may sell gas have been lifted, and you can get enough gas to go about anywhere you want to in the United States.

The one big change in the picture is that fuel costs more now and there are indications that the price will rise still higher in the future.

WE NEVER DID get down to the ultimate desperation of gas rationing, with coupons and all its ills, but we did fumble through a period of fuel allocation which is a cousin to rationing. Allocations were handled with the usual governmental boo-boos and are now finally being raised to sensible levels, only because more fuel is available.

The real individual who saved the day, however, was the patriotic American who formed car pools, used public transportation, cut out much of his pleasure driving, and cut down on the use of fuel and electricity in his home and office.

THE GOVERNMENT introduced

daylight saving time on a national basis, which didn't save enough fuel to help any, and set the speed limit at 55 miles per hour.

Cutting back the speed limit caused hardship to truckers but it did save some gas and it did save lives and cut down on accidents.

At the same time the American people were struggling with the gas shortage, they also had to fight a food shortage. To meet this problem they changed their eating habits and began to raise their own food.

WITH THESE EXAMPLES fresh in our minds, the big question is whether the American people learned that we cannot sustain our standard of living if we keep on wasting our natural resources.

And, have we learned that governmental controls can never take the place of good common sense exercised by the citizens of the United States?

We sincerely hope we have learned these two lessons so well that our economy will be given a chance to return to the healthy normal operation of the free enterprise system.

## The Threat To Privacy

THE TRANSCRIPTS of secret tape recorded conversations, which President Nixon has made public, emphasize again the urgent need to take steps to safeguard every citizen's right to privacy.

Although the embarrassing White House conversations are the best publicized example to date of unsuspecting individuals being trapped by the wonders of modern recording technology, they represent only one of many current ways our right to privacy and confidentiality can be undermined.

FOR EXAMPLE:

Computers of the Internal Revenue Service store details from tax returns of some 78 million Americans. Computer tapes are available at cost to the states.

THE SOCIAL SECURITY ADMINISTRATION maintains earnings records on nine out of ten workers in the United States, along with information on nearly 30 million persons receiving Social Security benefits and 21 million persons under Medicare.

THE FBI has more than 160 million

fingerprint cards on file, including those of 20 million individuals arrested on criminal charges as well as those of military and civilian workers in "sensitive" jobs.

THE PRIVATE SECTOR is also heavily involved in recording and storing potentially embarrassing information—whether accurate or not—on individual citizens. The Retail Credit Corporation of Atlanta, for instance, has personal information files on 45 million persons and, according to the Federal Trade Commission, the mechanical capacity to report on the personal lives of 98 percent of the American public.

A SPATE of bills is currently awaiting action in Congress to guard against misuse of this vast store of sensitive information.

The recent abuses of such data that have come to light in the wake of Watergate make a strong case for passage of legislation to protect our right to privacy.

## Pork Producers To Vote On Check-Off Program

Texas pork producers will soon decide by referendum whether or not a check-off will be begun for their commodity. "The check-off is not to exceed 10 cents per head for all slaughter animals at the first point of sale," states Buddy C. Logsdon, County Extension Agent.

Voting on the referendum began Wednesday, with balloting done by mail. All ballots must be postmarked not later than May 14. Ballots will be sent to all producers by the Texas Pork Producers Association, points out Logsdon.

Producers who do not receive a ballot may obtain one from the county Extension Office.

In addition to voting on the referendum, producers will also be electing a board of directors from 15 districts which will be called the Texas Pork Producers Board.

If the referendum is approved, the board of directors will be responsible for handling all phases of the program. The money collected must be used only for developing and carrying out programs of research, education, promotion, and disease, insect and predatory animal control designed to encourage production, marketing and use of pork. Thus, the check-off system is a "self-help" program, explains Logsdon.

The upcoming referendum is being conducted under the Texas Check-Off

Act of 1969 and is under the supervision of the Texas Commission of Agriculture. Approval of the referendum requires a two-thirds vote in favor of the check-off or that those voting "yes" produce at least 50 per cent of the state's pork for slaughter during a designated period. Producers must report their production at the time of balloting.

The Extension Service has conducted educational meetings in the past few months to inform producers about the provisions of the referendum and the Check-Off Act.

Producers who do not wish to contribute to the program through the check-off may ask for a refund on paid-in assessments. A written request must be made within 60 days from the date of the check-off payment on a form provided by the Pork Producers Board.

The check-off program may be terminated at any time by a simple majority vote of qualified producers, Logsdon added.

## A Woman's View

By PEARL BRANDON

AS MOST of you know, I hadn't been feeling well for several months.

A few weeks ago in my article I said if you had a little time, say a prayer for me.

It is amazing how much better I have been feeling lately. I am gaining every day. I think some of you must have been praying for me. Thank you so very much. I am very grateful.

THE BIBLE tells us how Jesus often prayed.

He would leave His disciples and go upon the mountain side and sometimes pray all night.

One day His disciples asked Him to teach them to pray.

MOST OF US know the Lord's prayer, beginning, "Our Father, who art in heaven, hallowed be Thy name. Thy Kingdom come. They will be done—"

I have been thinking of the part, "Thy Kingdom come". How wonderful it would be if that could happen now. All the world would be filled with love. Love never wants anything bad for anyone—only good for us all.

THERE WOULD BE no sickness anywhere in the world, no blindness, no lame, no retarded or afflicted children anywhere. There would be no hunger or evil.

Everyone everywhere would love each other.

NO MONEY would be spent for weapons of war for man would not study war any more. The money could be used to develop and bring water to the dried areas of the world for agriculture. "The desert would blossom like a rose."

Solar energy could be harnessed and the seas farmed for food.

THERE WOULD be no vicious animals but all would be gentle and kind. "The lion would lie down with the lamb and the child would play on the hole of the wasp."

There would be no poisonous serpents, no deceit, or nothing to hurt you. We would never be afraid to walk in the dark for no evil would lurk in the night.

WE WOULD NOT need to push our selves to accomplish things in our short life, for there would be no death. We would have forever to explore this beautiful earth.

In God's kingdom there would be only love and brightness and joy.

In Revelation 21:3 and 4 we have this.

I HEARD a great voice out of heaven saying, "Behold the tabernacle of God is with men, and He will be with them, and they shall be His people, and God Himself shall be their God. And God shall wipe away all tears from their eyes, and there shall be no more death, neither sorrow, nor crying; neither shall there be any more pain, for the former things are passed."

The more I work among people, the more pain I find.

Evil is abroad in the world causing much pain but our God is stronger than evil. Christ conquered evil when He died on the cross.

WE HAVE THE promise of peace someday covering all of the earth, but it can't happen as long as there are hungry people in the world.

Many people think we are nearing the end of an age. I don't know—but we can pray for peace and that His Kingdom will come soon.

## Clawson, Sowder Top Bula Grads

The two top students of the Bula High class this year are boys. Edward Clawson is valedictorian with an average of 92.95, and Jerry Sowder is salutatorian with an average of 91.7.

Clawson is the son of Mr. and Mrs. Ivan Clawson. During his high school years he has been active in football, basketball and tennis. He is a member of the Student Council and an FFA officer. He was awarded the Lone Star Farmer Degree at the State FFA Convention in July.

In addition to his scholastic achievements, he has served as officer of extra-curricular activities and received several elective honors. He

plans to enter Southwest Texas State University in San Marcos this fall.

Salutatorian Sowder is the son of Mr. and Mrs. Bill Sowder. He has served as president of his class, is in the Student Council, FFA, and has received many student awards. He is active in football, basketball and golf and received all district honors in football and basketball two years.

Sowder plans to attend South Plains College and work toward a degree in agriculture technology.

Baccalaureate services will be May 26th and graduation exercises will be May 28.

## Girls Head Olton's 1974 Honor GR Grads

Top ranking Olton graduates are Reida Strain and Martha Smyth. The two girls are valedictorian and salutatorian with grade point averages of 96.91 and 95.35 respectively. The coeds were valedictorian and salutatorian of their eighth grade graduating class, also.

Mark Gunter is the top ranking boy in the 1974 Olton class. He has a grade

point average of 93.64. Other seniors with above 90 averages are Connie Thomas, Donna Muller, Cynthia Johnson, Steve Kennedy, Monte Chitwood, Stan Sampier, Jimmie Graham, Vic Allcorn, Jimmy McCurry, and Chesna Dickenson.

Miss Strain is the daughter of Mr. and Mrs. Russell Strain. She is active in the National Honor Society, school and church choirs and music programs, and has placed in the UIL district and regional levels in typing and shorthand. Miss Smyth is the daughter of Mr. and Mrs. Aubrey F. Smyth. She has been in the National Honor Society three years, is a member of the Student Council, Future Teachers, the choir and pep squad.

## THE ABUNDANT LIFE

# Be Large-Minded

PETTINESS MUST SURELY BE one of the ugliest human traits, and most of us, if not all of us, are guilty of petty thought and behavior occasionally. This may be harmless, but it can be very harmful.

The possibility of its being harmful is so great, however, that we must be constantly on guard against it. The damage it causes can easily become permanent.

This characteristic causes personal distress; it impairs our interpersonal relationships; it is a stumbling-block; and it can close many doors of opportunity. It has the potential to distort the entire life perspective.

"SMALL-MINDED" is a very exact meaning of the word "petty". This condition of mind and life is sometimes described as "mean"; that is, "characterized by petty selfishness".

It may very well be the worst part of a self-centered life. Nevertheless, small-mindedness, from all viewpoints, is among the most undesirable of all characteristics.

THIS "PETTY" ATTITUDE of mind causes the person to put the very worst interpretation upon the words and actions of other people. The small-minded individual is hypercritical; picky; and can find fault where no fault really exists.

Such a person is always happy to make a big to-do about things which should be over looked and forgotten; and is not inclined to forgive anybody for anything. This type of person is usually opposed to every worthwhile proposal.

THE RICHNESS AND FULLNESS of life is out of the reach of the small-minded people. There is substantial

evidence that they are not

with themselves. Perhaps all of us, or manifest some of this spirit about some things, but we can this weakness. We can, by and diligent effort, move away undesirable, restrictive disposition toward "large-mindedness".

THIS MOVEMENT FROM "petty"; "mean"; "sympathetic"; "unforgiving" toward the "big"; "generous"; "selfish"; "sympathetic"; "viewpoint is the most rewarding any of us can make.

It does not require us to justified convictions, or personal integrity, in any way bring improvements in these related areas of one's life.

WE ARE MOVING toward "mindedness" when we are more generous, more understanding and more willing to help with worthwhile.

IF WE WISH TO DO SO, become "generous in outlook, capacity".

We can be "large-minded" more exact, we can be becoming" largeminded, because an unlimited dimension of betterment.

We can refuse to be over-critical can learn to overlook what is overlooked; we can learn to be forgotten; we can learn to we can learn to be wisely sympathetic, and, above all, we can become

"BE LARGE-MINDED"; and strong, useful and happy.

HOW WOULD you feel if current news stories told of casualties running into the tens of thousands resulting from battles fought between opposing American armies on the rolling hills above the Mississippi river outside a little town called Vicksburg?

This was the kind of thing that the people of America had to face during the 1860's and all through the long years of this nation's bitter Civil War. At the end of that conflict, Abraham Lincoln was at the center of controversy.

His assassination added to the flames of hatred. As far as hardships go, untold thousands of families gave husbands, sons and brothers to the Confederate or Union cause and never heard from them again nor knew their fate.

ALIENATION of different groups of people, cynicism, secrecy, distrust, violence and all of the other bad elements included in today's list of problems pale into insignificance compared to difficulties faced and overcome in past days of our nation's history.

A little goodwill, common sense and hard work over a reasonable period of time have always done a lot to make things better.

They still can do the job.

WHILE THE CAUSE of the breach in U.S. petroleum supply appears to be lying dormant controversy over who is to blame shortage, the truth is that work ahead in many areas, from North Slope to preparations for greater quantities of petroleum.

With respect to the late spokesman for the U.S. maritime industry reported late in 1973 that passage of the 1970 Merchant Act, contracts for 50 new U.S. vessels have been signed. Thirty the 50 new ships are liquefied gas carriers and oil tankers, ranging from 35,000 to 265,000 (deadweight tons)—the designated as Very Large Carriers (VLCC).

In addition, 92 tankers valued billion and varying from just 40,000 to 400,000 DWT are in the pipeline. Supertankers offer economies of scale and greater when utilized in combination "superports."

A U. S. COAST GUARD analysis world tanker casualties reveals the accident probability for small serving conventional ports is greater than that for super tankers serving offshore deepwater ports. offshore location of the deepwater provides greater safety because are removed from shallow water heavy ship traffic.

The U.S. Merchant Marine, like segment of the energy industry planning for the future on the nation of public support for the and technology that are the meeting tomorrow's energy needs are betting on the common sense American people whose job security are the high stakes involved in the energy crisis.

REMEMBER the good old days if you ate outdoors the black spots your food were pepper?

## National P-TA Convention Slated For San Antonio

"Every Child Needs You" is the theme for the multi-million-member National P-TA's 78th annual convention, to be held May 19-22 at the Convention Center in San Antonio.

"Our theme underlines the organization's determination to bring together all the millions of individuals belonging to P-TA as a unified force to meet the needs of every child—everywhere," explained National P-TA president, Mrs. Lillie E. Herndon.

This convention will introduce several national priority areas, Mrs. Herndon said, and will emphasize that the work of the individual P-TA member, the local unit, the council, and the state P-TA

can, through follow-up and extension of these aims, profoundly influence the life of every child in every community.

"Every child needs our involvement," Mrs. Herndon added, "and needs the strength we provide as members of the P-TA."

The convention program this year has been designed to stimulate and motivate this involvement as P-TA delegates listen, learn, deliberate, and decide on new paths to be taken for the welfare of children and youth. Topics for work hops range from what's happening in Washington to the problem of school absenteeism. These popular sessions, featuring nationally known educators as well as P-TA leaders, will also focus on such vital issues as parental involvement in the schools, financing public education, young people and the law, the fine art of parenting, and meeting educational needs of children with learning disabilities.

One of P-TA's priority projects which has gained national recognition is its National Project on Smoking and Alcohol Education. In addition to examining this concern in the workshop, "New Hopes for Healthier Living," P-TA delegates will hear Dr. Morris Chafetz, director of the National Institute on Alcohol Abuse and Alcoholism, discuss the latest facts and present information about what P-TA's can do to help fight alcohol abuse.

"RUNT" BURCH was presented with the "Teacher of the Year" award at the close of the Classroom Teachers tea in the L.J.H.S. auditorium Sunday. Retiring school superintendent Paul I. Jones presents the plaque. (Staff Photo)

## Camporee Winners Named At Bull Lake

Seven troops, 22 patrols, and masters and commissioners assisted with the camporee events which drew Scouts to the George District BSA Camporee at Bull Lake park.

Participants in first place building and boiling, knot tying, lashing, and judging, plant identification, compass course, and orienteering.

Place winners were Troops 613 of Levelland, and 612 of Levelland. Second place winners were Troops 614 of Levelland-Earth, 637 and 640 of Littlefield, and 640 and

645 of Morton. Third place winners were Troops 613 of Levelland, 600 and 642 of Littlefield, and 629 of Anton.

Approximately 225 Scouts and adults camped overnight, prepared their meals and participated in the Scouting events.

A highlight for one of the troops was finding a human skeleton on the north side of the lake. As of late Friday, Austin lab results had not been returned to the Lamb County sheriff's office, but the skeleton was believed to be very old, possibly that of an Indian. A Sundown troop discovered the bones.

PHOTOS show part of the human skeleton found at Bull Lake Saturday by area scouts during a camporee. The photo on the left shows the skull and leg bones. The right photo shows scouts boxing up the bones and a county deputy, the county sheriff, and an adult leader looking on.

# Tommy Williams' Three Homers Highlight Week

The chances for a Little League team to go undefeated through an entire season are slim any year, and this year chances are even slimmer. In fact, when Fire Dept. chopped down Birkelbach 20-2 Wednesday night, it gave every team in both leagues at least one mark in the last column. Tasty Taco has two ties.

The big news of the week, however, was Rotary's Tommy Williams blasting three homers, one a grand slam, and a double Thursday to lead his team to a 22-12 win over Birkelbach. Williams capped his performance by also picking up the win, allowing seven hits in six innings of pitching. For the night, Williams totaled 11 RBI's.

The game was anyone's after five innings, but Rotary broke it open with 10 runs in the sixth, four of them off Williams' grand slam.

Bobby Guajardo chipped in a single and a double for the Rotarians. Tony Hall had two singles, Joe Perea a double, and Robert Flores and Ruben Torres singles.

Bobby Martinez led Birkelbach with a double and a single. Mark Newton notched two singles, and Todd Butler, Tracy Birkelbach, Mike Williams and Jamie Rangel all had singles.

In a minor league outing Tuesday, Leader-News pummeled VFW 20-8 after notching eight tallies in the fourth inning.

Chris Duran slashed two singles to pace the Newsmen's artillery. Danny Marquez, Brent Dalton, Scott Lewis, Blake Davis and Garland Wilkinson all pitched in with singles. Lewis was the winning hurler.

Zane Westmoreland slammed a two-run homer and a single for the Veterans. Bill Davidson and Joshua Rangel both slugged doubles, and Billie Guthrie and David Jones chalked up singles.

In a game rescheduled from April 30, Tasty Taco produced 20 runs to blast Security State 20-4 Wednesday.

Barry Fischer twirled a one-hitter to keep the Bankers in a hole. Johnny Logan came up with a triple, double and a single to lead the winner's in hitting, but Adrian Dantley was close behind with two singles and a double. James Rangel popped a double, and Curtis Wilkinson and Dennis Garcia added singles.

Harvey McClanahan's single was the only Banker hit.

Tasty Taco picked up their second tie of the season Thursday by producing two runs in the bottom of the last inning for a 7-7 deadlock with Carlisle-Oldham.

C-O was ahead 7-0 after three and a half innings, but Tasty Taco battled back.

## Little Dribblers Play Overtime Thursday Night

It took two overtimes for Perry's Variety Girls to defeat the McCormick Trimmers 25-21 Thursday in a major league girls Little Dribbler game.

Balanced scoring did the trick for the winners. Geniece Ward led the team with seven tallies, while Gloria Brockington and Tami Scott had six apiece. Patti Bryant had four and Mary Lou Swift added two.

Pam Fisher threw in 10 points to lead the Trimmers. Jamie Lee added nine and Carol Kirby had two.

In the second game Thursday, Robin Messer's 14 points led Virgie's Beauties to a 28-20 win over Oecia's Shutterbugs.

Christi Mixon pitched in 10 for the winners, and Elaine Turner had four.

Bridgette Twitty led the Shutterbugs with 12. Shere Pointer had four and Tonya Tomson and Rhenea Barnett notched two.

Henry Huey punched a three-run homer and a single for Carlisle-Oldham. Keith Collins had a double, and Pitcher Larry Wormley singled.

James Rangel pitched for Tasty Taco and slashed a pair of singles. Dennis Garcia doubled and Adam Solis had a single.

WOW opened the major league slate of games by dropping Pay & Save 13-6 Tuesday.

Joe Rodriguez was the winning pitcher and hammered two singles and a double at the plate, Mark Yarbrough, Scott Yarbrough, George Brockington and Lynn Timian all notched singles.

Gregg Scott's homer and single led Pay & Save. Todd Upton knocked two singles, Kerry Rainbolt had a double, and Randy McCarty, Jerry Jones, Alvin Contreras, James Johnson and Dennis Abeyta had singles.

Fire Dept. pushed across 11 runs in the last inning Wednesday as they posted a 20-2 win over Birkelbach. The game had originally been scheduled for May 4.

Ricky Henson had a flawless performance at the plate, going four for four as he blasted a homer and three singles. It was a good game for homers, as teammates Sammy Lewis and Ricky Silva also slammed round-trippers and added singles, too. Bruce Payne had two singles, and Joe Haynes, David Smith and Clark Pylant all pitched in hits. Pylant received the win.

Jamie Rangel slugged a homer for the losers. Todd Butler, Hoby Phillips, Bobby Martinez, Tracy Birkelbach and Mark Newton all came up with singles.

## 'Land Of Texas' Published

AUSTIN—Do you know that Texas grows enough carrots to feed the entire United States? ... That pecan trees are native to 152 Texas counties? ... That Texas ranks among the leaders in the nation in the bee industry?

Agriculture Commissioner John C. White has announced the publication of FROM THE LAND OF TEXAS—an informative and entertaining booklet of agricultural information.

Dedicated to the school children of Texas, White said that the book is a "record that all Texans can appreciate."

The publication explains the challenges that face today's farmers and ranchers in their production of food for the American table. Also included are the major crops and livestock, production facts and figures and the growing areas of principal commodities.

For a copy of FROM THE LAND OF TEXAS, write John C. White, Commissioner, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

**ILLITERATES**  
Federal studies have found that seven million school youths have severe reading problems, while a survey says that nearly 19 million Americans over 16 have trouble coping with such minimal measures of literacy as application forms. And a West Coast utility relates that of the tens of thousands of high school graduates it interviews annually, 40 percent can't write or read at the 8th-grade level.

## Jehovah's Witnesses Are Meeting Today

Jehovah's Witnesses in the area are attending a two-day convention in Portales, N.M., May 11 and 12.

Nearly 1,800 delegates from most of West Texas and Eastern New Mexico are attending sessions to be held in the Portales High School Gymnasium.

According to John Moore, spokesman for the local group, assemblies of this type are held semi-annually to train Witnesses in their ministry by emphasizing Bible principles regarding integrity, truthfulness and honesty.

"These conventions have contributed toward the exceeding growth of those who become associated with Jehovah's Witnesses worldwide," Moore said. Last year the group baptized almost 200,000. Six months of diligent Bible study are a prerequisite.

The programs include morning, afternoon and evening sessions devoted to Bible talks, discussions and dramatizations with delegates from the local congregation participating. There will be a baptism of new ministers today.

Highlight of the convention will be a Bible discourse by Paul Moske, district overseer from New York, who will speak on, "Be Confident of Divine Victory."

All convention services are performed by volunteer workers who are also convention attenders, with the entire assembly to be organized and operated by Jehovah's Witnesses themselves, none of whom receive any remuneration for services rendered.

The public is invited.

**CAR EXPENSES**  
Few people realize how expensive it is to drive a car, declares the April Reader's Digest. The out-of-pocket cost was estimated at 13.6 cents in 1972. But a former federal official contends that the total cost to the individual and to society, in terms of congestion, pollution, parking and traffic, is at least a dollar a mile.

## When does human life begin?

The authoritative scientific conclusion that human life begins that has been made in the past 50 years, was the conclusion from the International Conference on Abortion, held in Washington, D.C., October, 1967. Approximately 100 major scientific authorities from the fields of medicine, ethics, law, and social sciences participated as consultants in this symposium. Carefully chosen for their scientific integrity and integrity, they presented a cross-section of race, religion, culture, and geographic areas. After several days of "think tank" sessions, the medical group, made up of obstetricians, biochemists, physicians, professors, scientists, etc., came to a near unanimous conclusion (one dissension):

"The majority of our group could find no time between the union of sperm and egg or at least the blastocyst stage, the birth of the infant at which point we could say that this was not a human being. Blastocyst stage occurs approximately one week after fertilization, and would be described as 'twinning.' . . . the changes occurring between implantation, the six-week stage, and the six-month fetus, a one-week-old child, and a mature adult are merely stages of growth and maturation."

"The sperm and ovum unite, a new being exists containing within itself a genetic package completely programmed for development into a mature adult. Time will be added except time and nutrition. The rate of development from fertilization to a mature adult is merely maturing of what is entirely there at the start. Birth only changes a baby's body, its airway and its charm."

## What are the after-effects to the abortion?

After legal abortions there is an increase in the number of tubal pregnancies of 400%; later abortions of 10-15%; of Rh trouble later; of placenta; of premature babies (15% compared with the usual 5%); of psychiatric problems (8.5% in England). There can be internal clots, perforation of the uterus, and later hepatitis from blood transfusions.

## Does an unborn child now have rights?

The unborn child has the right to inheritance, to be born, to be loved while yet unborn, to get a blood transfusion over his mother's objection, to have his rights respected, and other rights of citizenship. In some states now does not have the right of all—the right to life.

## Is abortion safer than childbirth?

In the late stages it is far more dangerous. In the first three months at least twice as many women die from legal abortions as from childbirth.

## Is abortion only a religious issue, isn't it?

Religion certainly concerns itself with the value of human life. It must turn to science,

however, to tell it when life begins. The question of abortion is a basic human question that concerns the entire civilized society in which we live. It is not just a Catholic, or Protestant, or Jewish issue. It is a question of who lives or dies.

## What about when the child is probably going to be deformed?

By the time the child has developed to sufficient size so that amniotic fluid can be taken from the sack in which it lies, to definitely establish the fact that the child will be seriously deformed, the pregnancy has reached a stage where it becomes "fraught with tremendous danger" to the mother (New York State Medical Society). If you really want to kill the baby, why not allow the baby to grow to full size, be delivered normally, and then kill it. This would be safer for the mother. The baby will be just as dead if it is killed 6 months before delivery or six minutes after delivery.

## What about abortion for rape?

Pregnancy from rape or incest is very rare, especially if the victim goes directly to a hospital. The English law does not even mention rape as a reason for abortion because of the "difficulty of legal proof." Rape or incestuous intercourse is rarely capable of being legally proven if reported later. Laws authorizing abortion for these reasons are generally non-operative. What is needed is help for the mother, not the strange sort of justice that would kill an innocent child for the crime of its father.

## What if the mother threatens suicide?

"Suicide in these women is 'rare' (New England Journal of Medicine). The suicide rate among pregnant women is only one-fourth that of the general female population."

## Who decides if the mental health needs of the mother justify abortion?

Over 90% of legal abortions are done for the "mental health" of the mother.

In practice, the need for certification by several physicians to authorize an abortion has been a blatant, pre-meditated, open-door vehicle by which abortion-on-demand has come to be a reality. Any physician can find three other physicians who will sign a document testifying to the need for an abortion. Any physician can also find three physicians who would never sign such a document. This requirement is completely meaningless.

Medical opinion is deeply divided as to whether psychiatric reasons even justify an abortion. "There are no unequivocal psychiatric indications for abortion." (Dr. Sloan, Temple University).

## Doesn't a mother have a right to her own body?

This is not her body but the body of another human person. Since when have we given to a mother the right to kill her children?

## Isn't an abortion permitted only during the first three months of pregnancy?

No. In the United States, abortions are permitted up to nine (9) months. During the first six (6) months, abortions are allowed for any reason. Between the sixth and ninth months, abortion is permitted for health reasons—physical or mental.

## Isn't abortion another means of birth control?

No. Do not confuse abortion with birth control. Birth control speaks of preventing new life from beginning. Abortion kills the new life that has already begun.

## What of the population explosion?

Our ratio of children per family has been declining steadily from 6.0 in 1830, and now stands at 2.45 children per family. At 2.2 or 2.3 we will reach zero population growth. At present rate, we may reach this within the next decade according to Mr. George Brown, Director of the U.S. Census Bureau. The population problem of the U.S.A. is not numbers of people but overconcentration in our cities.

## But legalizing abortion would at least eliminate criminal abortions!

This is purely wishful thinking, and a completely false statement. Consistent experience has been that when laws are liberalized, the legal abortion rate skyrockets, the illegal abortion rate does not drop, but frequently also rises. The reason consistently given is the relative lack of privacy of the official procedures. (Europe, Japan, Colorado).

## Infanticide—Euthanasia (Mercy Killing)

Once liberalized abortion is a fact, there is a progressive acceptance of euthanasia and even infanticide as a "need" in a country. When we lose respect for and eliminate the safeguards protecting human life at any stage of development, we progressively lose respect for and eliminate the safeguards protecting human life at other stages of development. We could then come to accept (as Hitler said) that "useless eaters" of any age are a burden on society. Their lives must be snuffed out. Some day you may be an older person, that "useless eater." Would you want someone else to make the decision of whether you live or die?

## What can I do?

Very few of the above facts have been printed in our magazines and daily newspapers. Public opinion is being swayed toward acceptance of abortion as a public "need." Get these facts out. Learn more about this yourself. Talk to your friends, neighbors and co-workers. Write to the editors and columnists of your newspapers, magazines, radio, TV, etc. and ask that they report both sides of this problem. Join civic groups such as Right to Life Committee, Birthright or others working to preserve the reverence for life.

# ABORTED BABY DISCARDED IN HOSPITAL BUCKET

18 Week Fetus  
6 1/2 Inches Long

## Four Ways To Kill An Unborn Child

1. To abort an early pregnancy the doctor inserts a tube through the opening of the womb and connects it to a suction apparatus. The vacuum is so powerful that the baby is instantly broken up into a fluid mass of blood, tissue, and cartilage. It quickly passes through this tube and is collected in a bottle.
2. In the curettage technique the doctor stretches or dilates the mouth of the womb to admit a forceps or curette. He then reaches in and drags or scrapes out the baby and afterbirth. The surgeon must work by touch alone, often cutting the baby into several pieces in order to get it out. The head may be crushed with the forceps to reduce its size for withdrawal. Bleeding is profuse until the womb is scraped completely empty. The bits and pieces of the baby are then disposed of.
3. Larger babies to be aborted may require an abdominal operation similar to a Caesarean section. The womb is open and the baby lifted out. It usually squirms and its arms and legs. It tries to breathe and may make a feeble cry. If the lungs are too immature to function now it will soon stop moving, but frequently the heart continues to beat for several hours before it dies.
4. The doctor can stick a large needle through the abdominal wall and into the womb. After withdrawing some blood a strong, sterile, saltwater solution is injected—in picking the baby alive. The baby may thrash about a few moments, but soon it becomes perfectly still and about 24 hours labor will start and the already dead baby is delivered. This technique can be used right up to the end of a pregnancy.
