Art Show Starts Festivities

Two full days of activities are coming up Friday and Saturday in Littlefield, when the Third Annual Lamb County Festivities Days will be staged.

Purple Bingo Worth \$100

The full program will feature something for everyone—from the youngest to the oldest citizen in the country.

Men with pampered beards, pretty girls, artists, fiddlers, liars, bike and trike riders, horsemen, dancers, and men with "pretty figgers" will all strut their stuff during the two days.

Another highlight of the two-day event will be the drawing for a new Cricket automobile, motorcycle and television set, beginning at 8 p.m. Saturday.

Kicking off the festivities Friday will be the Fifth Annual Sidewalk Art Festival, sponsored annually by "We, The Women", a branch of the Chamber of Commerce.

Artists from throughout the area will display their paintings and handcraft in a show on Phelps Avenue in the 500 Block from 4 to 7 p.m. Cash prizes will be awarded to winners, as chosen by popular vote of the public viewers.

Other sponsors of the event will be Hart-Thaxton Hardware, Littlefield Glass Works, The Gallery, Littlefield Chamber

of Commerce, and the various art associations of Littlefield.

Friday night, "Miss Lamb County" will be chosen from a field of 18 candidates from throughout the county. Beta Sigma Phi is sponsoring the pageant—the third such for Lamb County.

The 1971 Miss Lamb County will reign over the last day of Festivities and will lead the parade down Phelps Avenue Saturday afternoon.

Live bands will be here for the teen street dance following the pageant, and hundreds of teenagers are expected to gather in front of Pat's Record Center for the event.

Saturday's action begins with the Sheriff's Posse Jack Pot Play Day at the roping arena at 9 a.m. Eight events are being planned for riders who are 18 years old or older, and events will continue through about 2 p.m.

A bicycle-tricycle contest for the tykes will begin at 1 p.m. in Laguna Park, with Rev. David Hamblin serving as chairman.

The colorful parade down Phelps Avenue is scheduled to begin promptly at 3 p.m. Among entries in the parade are six Percheron horses with a wagon hookup,

owned by Jenkins Auction Service of Amarillo; floats built by various organizations in the county, old automobiles, school bands, clowns, and several other surprises.

Buck Ross and David Thompson are serving as parade chairmen.

Youth contests begin at 4 p.m. in Laguna Park, with Buster Owens serving as chairman.

Among the events are sack races, three legged races, wheel barrow races, and watermelon seed spitting contests in three age group divisions—the 8 and 9-year-old, 10 and 11-year-old, and 12 and 13-year-old divisions.

All the weird beards, sideburns and mustaches will be judged in a contest in front of the Lamb County Courthouse at 5 p.m., with Jim Jones and Doyle Winfield of the Littlefield Lions Club in charge.

The "Biggest Liar" title will go to someone during the biggest lie contest on stage in front of the courthouse, beginning at 5:45. Don Avery and Neil West will emcee that program.

A parade of "beauties" will be in contest

ALBERT CASTRO

He Sings For His Supper

Weekdays, Albert Castro is head of the produce department at Furr's Supermarket and keeps fresh fruits and vegetables bought and stocked for his customers' meals. Nights and weekends the produce manager sings for his supper.

Castro is a licensed ordained Baptist minister. Although he no longer pastors a church, hardly a week goes by that he isn't scheduled to lead singing at a revival, sing at a wedding or direct choir.

The young evangelistic worker is so sought after that he keeps his schedule on a calendar in Furr's storeroom and consults it at the end of a day's work to see where he is supposed to be that night.

Before going into evangelistic singing, Castro pastored five years at Plains and Plainview. Even then he was called on so often to lead singing at revivals that at one time he was gone 40 days. "I was gone all the time," he said, "and you can't pastor and be away so much."

So he took his first full time job in the evangelistic music field at Lovington, N. M. where he lived until he moved to Littlefield over a year ago.

Mr. and Mrs. Castro and their six children live at 929 E. 9th Street and they attend the Parkview Baptist Church.

Two months ago, Castro went to Oklahoma City to cut an album of gospel music. The record will soon be released under a Nashville, Tenn. Warming label. The long-playing stereo record has 10 songs with Castro doing the solos.

A professional group, the Singing Deweys, do the introductions, the instrumentals and the vocal background. Buddy Dot, the leading guitarist, used to play for Conway Twitty.

As Castro goes from revival to revival he will take his records with him and make them available to those who want to buy

them. In addition, the Baptist Bookstore in Lubbock will retail the record.

The Castro family sometimes sings together, but 9-year-old Danny, the youngest of the two Castro boys is a born

singer and often takes the lead in the father-son duets. Even before his first record is released, Castro is planning to make another recording—a duet with Danny.

ALBERT CASTRO and 9-year-old son, Danny, sing one of the gospel songs on Castro's long-playing album that will soon be released. Castro leads revival singing at many area Baptist churches in addition to singing at weddings and other special events. Prior to moving to Littlefield as a produce manager at Furr's, he worked in the religious music field full time and pastored two churches.

Non-Voters' Registration Low

Registration in Lamb County only 189 young voters aged 18, 19 and 20 have registered to vote.

On this figure, voters under 21 are expected to cause much of an increase in next year's elections.

The voter registration for those under 21 was extended again recently, only those who had registered in the tax assessor's office through Friday, August 20, will be called for registration. The 18-20-year-olds are newly registered, they will not be called for registration until they are 21 years of age.

Questions about the status of the under-21 voters and jury service came about when the law was changed to allow jury selection to those who are 18 years of age.

HOMNY GRITS

By CORNBALL BLEVINS

EVERY SO OFTEN, circumstances arise that seem to dictate that it may be best you ignore certain events that transpire until you cool off a little, or you have a more concise understanding of the subject, itself.

For that reason, I'm trying to ignore our Honorable Governor--Or, that is, his juvenile behavior these last few days.

While I've been guilty these last few years of proclaiming the sanctity of States Rights, now hardly seems to be the time to openly revolt.

THE HORSE HAS long since been out and gone. No use tryin' to close the gate now, anyway. We've done run outta' feed!

Why, just a few months ago, the governor was up in Washington trying to promote the revenue sharing thing! Did he have a "Tacit" agreement?

I BETCHAV' Mr. Sharp can tell you about Preston's "implied" agreements.

But, then, on the other hand, Mr. Smith may find that Nixon has more backers in Texas than he has himself! When, and, if he finds this out, he'll probably be ready to reverse his stand.

OF COURSE, MY feeling for the president isn't always one hundred percent. Really, I can't take any credit for his being in office in the first place. Nonetheless, I still regard him as my president, with all the authority vested in his office, as has been given by Congress. With these things in mind, I try to be

duly respectful of his office. Even so, my feeling runs sometime sweet and sometime sour. As of the present situation, I have my fingers crossed and am hoping for the best.

WHILE AS FOR the governor, I'm just hoping we still have the governor's office left when the incumbent's term is over. It may be abolished!

If he's trying to mimic George Wallace, he's missed the boat. We have to admit that George gets plenty of publicity in connection with his mutiny against the Feds! But, usually, he knows where he stands before he starts making headlines.

AND ANOTHER THING, George is too smart to get caught with his hand in cookie jar. Granted, he'll do about anything to keep his name before the public, but, we'd surmise that he keeps his "Tacit" agreements.

One thing for sure, as of my personal survey, Preston's not making many votes by his present actions. He'll have to do better than that to make the people forget Sharpstown!

ANYWAY, IT SEEMS that we'll have to go higher than the state offices to solve our present dilemma. (We'll never know whether the medicine will do the job if we refuse to take it.)

It's plain to see that such an enormous job can't be done on the state level, even if we had the brains to do it!

H. E. AKIN of Amherst took out his pocket knife at his self-rigged table at the barbecue, and had no troubles in cutting bite-size pieces. Akin has lived in Lamb County 40 years, serving as a farmer and rancher at Olton and Amherst.

County Drug Bill At All-Time High

Lamb County residents are using more prescription drugs than ever before. As in most parts of the country, the consumption of these medicinal preparations, per person, has more than doubled in the last 25 years.

And, because of the increased usage and the higher cost of prescription items, the outlay for these drugs has been mounting proportionately.

In Lamb County's regional area, on the basis of the latest figures reported by government and industry sources, the average family has about 16 prescriptions filled per year and pays approximately \$36.90 for them.

Throughout the nation, more than \$3.8 billion is spent annually in this direction, an average of \$49.12 per family. This is exclusive of drugs dispensed to patients in hospitals. It is five times as much as it was in 1950, when the total amounted to only \$736 million.

At that time the average cost per prescription was \$1.85, according to the Health Insurance Association of America, as compared with \$3.72 now.

In general, it is found, expenditures for prescription drugs are highest in the

South, because consumption is greatest in that part of the country. It is lowest in the North Central States.

In Lamb County, in addition to the amount spent for prescription drugs, approximately \$19.60 is spent per family for salves, ointments, cough medicines, aspirin and other medicinal preparations that are non-prescription items.

Thus, for the local population as a whole, it is estimated that nearly \$405,000 is being spent per year for drugs.

A wide difference is shown in the medicinal needs of young people as compared with elderly people. For prescribed medicines, the range is from less than \$7 worth per person for those under 15 to about \$42 per person for those over 65.

The findings are that there is every indication that the rapid rise in the use of these drugs will continue, influenced by the increase in the number of drugs available.

Of the 7,000 or so drugs available today, according to the American Pharmaceutical Association, 60 percent were not on the market 10 years ago.

Cotton's Market

IF YOU CAN'T GET what you want in one store, you will go across the street to another store and ask for it.

This is the way of life in the marketplace. It applies to textiles just as to any other product.

MILLS HAVE A choice of raw materials to process. For some time, they have been turning to synthetics. This has cut significantly into cotton's share of the market.

NOW, THE consumption decline has been checked. Youth is demanding color and comfort in apparel and cotton is the ideal answer. Sales of prints, knits, corduroys, denims, and other cottons are holding up well and this is reflected in a stronger demand for cotton.

This turnaround is encouraging to cotton farmers who have been putting up a dollar a bale for research and promotion to strengthen their markets.

FAILURE TO CAPITALIZE on the demand for cotton by not providing an adequate supply, however, could jeopardize markets and the grower's investment in land, equipment, and other cotton production resources.

This has prompted the U. S. Department of Agriculture, the ASCS, and state agricultural extension services to join with the National Cotton Council in a campaign for "Better Cotton Yields for Profits and Markets" in 1971.

THE ABUNDANT LIFE Be Encouraged

By BOB WEAR

DISCOURAGEMENT is rampant, and its devastating effects can be seen everywhere. It is admitted that there are reasons for discouragement, but we must surely know that we cannot afford to let the feelings of discouragement dominate our thoughts. Let us not overlook the fact that, intermingled with the happenings and situations which may cause discouragement, there are many sources of encouragement.

WE MUST SEEK encouragement. Otherwise, it is obvious that we will be overcome by the ravages of discouragement. We find ourselves in a situation in which we must make some very important choices.

Most any one of us can have the choice between struggling under the burden of increasing discouragement, or being sustained by the strength of continuing encouragement. Yes, we make the choice.

OUR SENSE OF VALUES is the controlling factor in choosing between being discouraged and being encouraged. There is enough in any one day's experiences and news to discourage us, if we choose to let these things take first place in our thoughts.

On the other hand, if our minds are wisely attuned to the other side of life, we can find enough to encourage us. There must be deliberate, continuous and informed effort; but this effort is more than justified. Try it!

WHEN WE RELATE to others, in the very best way we can, many of them will encourage us. This is one of the blessings

in pleasant and mutually understanding associations with our fellowmen.

It is helpful to know that, one way or another, everybody can provide some degree of encouragement; and will do so when we keep an open door.

We must, of course, use every opportunity we have to encourage others. We can do this by word and deed, and this action by us will become one of the ways by which we are encouraged.

"I BELIEVE that any man's life will be filled with constant and unexpected encouragement, if he makes up his mind to do his level best each day, and, as nearly as possible, reaching the high-water mark of pure and useful living."--Washington.

WE CAN ENCOURAGE ourselves by using all available sources; and one of the most certain and dependable source is in our encouragement of others.

When we encourage others, we are going to be encouraged.

WE MUST ALWAYS remember that we live in an imperfect world (a world of imperfect people), and therefore we must condition ourselves so that we can be realistic in our expectations.

We are imperfect, too; and therefore, we must be reasonable and honest in the expectations we have for ourselves. Many people are constantly discouraged just because they expect too much of others and of themselves.

WE CAN BE encouraged or discouraged. Let us be encouraged.

PAUL HARVEY Gutsy Quarterback

AS QUARTERBACK, President Nixon is inclined to test the center of the opposition line.

He tried to defeat inflation that way for three punishing downs, was losing yardage.

ON FOURTH DOWN he went around left end.

President Nixon is a gutsy quarterback, inclined to gamble on fourth down.

On his way out of Vietnam, President Nixon gambled on an end-around through Cambodia and was thrown for a loss.

ONE SATURDAY morning in June he looked at the rain clouds over Washington, gambled on a rose garden wedding and won.

In July, on his own one-foot line and against an incredible enemy rush, he risked a long forward pass to Kissinger in Peking, advancing the ball half way down the field.

Then, in August, President Nixon faced almost certain defeat on the inflation front.

HE WAS BRUISED and battered and losing yardage on every play. A hand-off to Congress was tempting. But instead, personally the President carried the ball around left end for what now looks like a turnaround in the final quarter of the game.

However these may appear to be crowd-pleasing grandstand plays, they are neither impulsive nor contrived.

EACH, FOR BETTER or worse, results from consultation, deliberation and

evaluation of the risks involved.

When Mr. Nixon, as a presidential candidate in 1968 was confronted with some current contradictions of some 1960 quotations, he replied, "I could not recommend myself as a leader if I'd learned nothing in eight years."

WHEN SECRETARY John Connally was asked about the recent reversal of the President's economic game plan, he said, "You'd have a doll for a President if he were incapable of changing his mind."

Further, the President's flexibility in adjusting to changing circumstances makes us a moving target for predator nations.

CRITICS WHO believed Mr. Nixon to be frozen in an unrealistic, outdated, anti-Communist posture, since the China overture, know better.

Domestically, congressional Democrats who thought they had cornered the supply of economic stimuli since the Aug. 15 boldness know better.

AS I SAY, President Nixon is a gutsy quarterback, inclined to gamble on fourth down. That kind is likely to be booed as vociferously as he is cheered but when the plays are all in and added up, if he can show an impressive total of yards gained, he is likely to be re-signed for another season.

WHERE IT COMES FROM

About 80 percent of the nearly \$10 billion added to the Texas economy by agriculture in 1970 was generated from the manufacture and supplying of tools for production and the processing and distribution of agricultural commodities. Notice

AN ACT BE ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS: SENATE BILL 249, Section 1. (a) This Act shall apply to every county in this State. In all the counties, each owner of any livestock shall within six months after this Act takes effect, have his mark and brand for such stock recorded in the office of the county clerk of the county. These owners shall record the marks and brands whether the brands and marks have been previously recorded or not.

FACTS CONCERNING RERECORDING OF BRANDS IN TEXAS

All brands and marks on Texas livestock must be rerecorded with County Clerks after August 30, 1971, according to a new law passed during the last session of the Texas Legislature. Producers will be given a six-month period (August 30, 1971 through February 29, 1972) in which to register these brands and marks and the location on the animal which they are currently using, after which time any unrecorded brand will be available for use on a "first-come" basis. Producers shall record the marks and brands whether the brands and marks have been previously recorded or not.

All brands and marks must be rerecorded every 10 years. Each County Clerk records for his or her given county only, so many producers may need to record their brands in additional counties if their operations are extensive.

The owner shall have the right during this six-month period to file the mark and brand now recorded in his name. In the event it cannot be determined from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

It should be noted that it is illegal to brand livestock without first properly recording the brand with the County Clerk in the county in which the livestock are held.

Dr. Barry King Named Acting Dean

Dr. Barry G. King, director of graduate business programs, has been named acting dean of the College of Business Administration at North Texas State University while a faculty search committee seeks a permanent dean.

Dr. King is married to the former Phyllis Jeffries of Littlefield, daughter of Mr. and Mrs. Bill Jeffries. The Kings have three children, Kyle 8, Kevin 6, and Sharon Kaye 22 months.

The NTSU College of Business is the state's second largest and ranks among the top 20 in the nation in number of students.

Dr. King succeeds Dr. Clifford Hutton who resigned as dean of the NTSU business college effective Sept. 1 to become the first vice-president for student affairs at the University of Tulsa.

Dr. King's appointment was made by Dr. Gustave Ferre, incoming vice-president for academic affairs, who will chair the eight-member committee seeking the new dean. The appointment has been approved by the executive committee of the NTSU Board of Regents, with formal approval expected during the regents' next regularly scheduled meeting in October.

Dr. King was named director of the graduate programs in business at NTSU in fall 1970, coming from the University of Houston where he had taught three years.

"Because he has been chairman of the graduate program and a recent self study of the business college, we thought he was an ideal choice for acting dean," Dr. Ferre said. "He's only been here one year but in that time has developed the respect of the faculty and has shown a broad view of concerns that go beyond any particular area of the business school," Dr. Ferre added.

A bachelor's and master's graduate of Hardin-Simmons University, Dr. King received the doctorate from Ohio State

and taught at both schools and Oklahoma State before going to Houston.

He is a member of the American Institute of Certified Public Accountants, American Accounting Association and American Institute of Decision Sciences, and has had articles printed in various professional publications.

Dr. King is a native of Texarkana.

Cotton Board Slates Meet

Cotton Incorporated's Board of Directors on the Agricultural Research Committee will meet in Dallas Monday, Aug. 23, to review agricultural research supported by the dollar-per-bale program.

The producer directors will hear in-depth reports on progress of current projects on insect, weed and disease control, yield and quality improvements, equipment developments, and other on-farm research area.

The committee will analyze program proposals and formulate plans for the 1972 agricultural research program.

According to Howard Alford, Lubbock, president of Cotton Incorporated, the cotton producers give guidance and direction to Cotton Incorporated's staff on how the dollar-per-bale program is administered.

Alford said, "All cotton producers, through their elected representatives, determine the type research and marketing activities their dollars buy."

THE GREAT BEEHIVE

A RUGGED RUNNING game will be supplied by these Springlake-Earth Wolverines. Standing are Hoyt Glasscock, Bobby Cleavinger, Mike Cleavinger, Brian Sanderson and Carl Sulser. Kneeling are Greg Slover, Guy Davis, Larry Thomas and Eddie Alair. S-E scrimmages Silverton on their home field Friday, Aug. 27th, at 6:30 p.m.

SENIOR LINEMEN for the Springlake-Earth Wolverines includes (back row) Terrel Ott, Monty Price, Wisian, Tony Keith, Chris Brock, Barry Pittman and Hollis Daniel, and (kneeling) Danny Marriott, Joe Rivas, Mike Triana, Doug Freeman, Don Templeton and Bobby Angley.

WOLVERINES 3-A CROWN CONTENDERS S-E Running Game Key

Springlake-Earth Wolverines lack a strong offensive running game but a strong offensive running game was out for the title.

Key to key people plagued the last season and contributed to record.

Back Mike Cleavinger, a 6-1, 172-pounder was injured in the first 1970 game and was out for the season. Guard Terrel Ott didn't see any more action, and a 5-10, 169-pound tackle, got injured and was out for the season. Injuries, all three will start for the season and the trio is expected to

Editor's Note: This is the first in a series on stories on pre-season prospects for football teams in the Littlefield area. Watch future issues for stories on the Littlefield Wildcats, Otton Mustangs, Sudan Hornets, Amherst Bulldogs, Anton Bulldogs, and Whitharral Panthers.

make up for all they missed last season. After almost two weeks of workouts, head coach Duane Locke has named probable starters but added that several positions are up for grabs.

Three seniors and two juniors are slated for the backfield. Hoyt Glasscock, the Wolverines' 6', 200-pound fullback who was

named honorable mention on the All-South Plains team last fall, is in the fullback slot again this year. Quarterback Mike Cleavinger is joined by senior Eddie Alair who will probably get the halfback spot. Two juniors, Guy Davis, 5-11, 144 pounds, and Larry Thomas, 5-10, 147, have Locke's approval as defensive safety and running back and/or quarterback respectively.

Don Templeton is first in line at center. Another senior, Hollis Daniel, and Barry Pittman, a junior, furnish fierce competition.

Ott and Doug Freeman start at guard. Joe Rivas, a new face at S-E, and Nicho Triana are backups who'll be good help.

Tony Keith, a 5-10, 165-pound senior, is the only Wolverine definitely tabbed to start both offensively and defensively. Other defensive starters are tackle Chris Brock, David Wisian, 6-2, 184; Doug Freeman, 5-10, 158-pound junior; and Monty Price, 5-10, 153 and a junior. Bobby Angley, a 6-1, 185-pound junior will start on defense some. Pete Acevedo, a 6-2, 200-pounder is playing his first year of varsity ball. Danny Marriott, a 5-10, 150-pound junior played defensive tackle as a sophomore.

Big things are expected of Carl Sulser, a 6-1, 155-pound senior, tabbed all-district for his performance at tight end last season. Greg Slover is the other senior end. Three juniors are headed by Brian Sanderson at split end, with Bobby Cleavinger and Lorenzo Padilla bucking for starting positions.

The Wolverines will be running the triple option veer T again this year. Kress and Vega are expected to furnish the most competition in the well balanced district.

Forty-nine boys are coming out for grid ball as Locke heads into his second year as head mentor. Assistant coaches are Bert Leaverton, Tom Phelps and Earl Ramsey.

Quarterback Club To Meet Tuesday

Next regular meeting of the Littlefield Quarterback Club will be Tuesday at 7:30 p.m. in the high school cafeteria. President James Walker announced.

The club originally had a special meeting planned tonight, but this meeting has been canceled. The coaching staff was to be on hand, but it was learned that the coaches will be out of town tonight, attending a scrimmage between Crosbyton and Roosevelt.

The Wildcats open their season here against Crosbyton on Friday, Sept. 10.

Turkeys Nab Grasshoppers

A frustrating sight to many West Texas ranchers is the vast swarm of grasshoppers which arrive to strip the ground of needed livestock grasses.

But right away the turkeys follow. As the grasshoppers are eating the grass, turkeys are taking grasshoppers, bringing a sort of balance to the situation.

Turkeys, say Texas Parks and Wildlife Department biologists, may include the grasshopper to the extent of at least 90 percent of its diet from June through September. Even during winter months when food is scarce, the birds find the dormant insects for nourishment.

How To Change Your L-U-C-K

What many people call "luck" is actually a reflection of their own Labor, Understanding, Courage and Knowledge. One man labors harder than another to excel, then is regarded as "lucky" when he succeeds. Another, lacking enough knowledge, makes a poor investment, then sees himself as "unlucky" when the results become clear. The greatest book ever written on L-U-C-K, says a top theologian, is the Holy Bible. There, says Dr. Oswald Hoffmann of radio's famed Lutheran Hour, are to be found excellent guides for self-improvement of the kind that can change what some people regard as their "luck."

The labor of the righteous tendeth to life: the fruit of the wicked to sin.—Prov. 10:16
Two are better than one: because they have good reward for their labor. For if they fall, the one will lift up his fellow: but woe to him who is alone when he falleth; for he hath not another to help him up again.—Eccles. 3:9-10
And also that every man should eat and drink, and enjoy the good of all his labor, it is the gift of God.—Eccles. 3:13
The desire of the slothful killeth him; for his hands refuse to labor.—Prov. 21:25
Now he that planteth and he that watereth are one: and every man shall receive his own reward according to his own labor.—1 Cor. 3:8

From evil is understanding.—Job 28:28
Trust in the Lord with all thine heart; and lean not unto thine own understanding.—Prov. 3:5
How much better is to get wisdom than gold! And to get understanding rather to be chosen than silver!—Prov. 16:16
Understanding is a wellspring of life unto him that hath it; but the instruction of fools is folly.—Prov. 16:22
I went by the field of the slothful, and by the vineyard of the man void of understanding; and lo, it was all overgrown with thorns, and nettles had covered the face thereof, and the stone wall thereof was broken down. Then I saw and considered it well; I looked upon it and received instruction. Yet a little sleep, a little slumber, a little folding of the hands to sleep: so shall thy poverty come as one that travelleth, and thy want as an armed man.—Prov. 24:30-34

shall strengthen your heart, all ye that hope in the Lord.—Psalm 31:24
Watch ye, stand fast in the faith, quit you like men, be strong.—1 Cor. 16:13
Finally, my brethren, be strong in the Lord, and in the power of His might.—Eph. 6:10
The wicked flee when no man pursueth: but the righteous are bold as a lion.—Prov. 28:1
In fear of the Lord is strong confidence; and his children shall have a place of refuge.—Prov. 14:26

"L" IS FOR "LABOR"
Wealth gotten by vanity shall be diminished; but he that gathereth by labor shall increase.—Prov. 13:11
In all labor there is profit: but the talk of the lips tendeth only to penury.—Prov. 14:23

"U", "UNDERSTANDING"
Folly is joy to him that is destitute of wisdom; but a man of understanding walketh uprightly.—Prov. 15:21
And unto man he said, Behold, the fear of the Lord, that is wisdom: and to depart

"C", FOR "COURAGE"
Be of good courage, and He

"K", FOR "KNOWLEDGE"
Receive instruction and not silver: and knowledge rather than choice gold. For wisdom is better than rubies; and all the things that may be desired are not to be compared to it.—Prov. 8:10
Wise men lay up knowledge, but the mouth of the foolish is near destruction.—Prov. 8:14
The heart of him that hath understanding seeketh knowledge: but the mouth of

fools feedeth on foolishness.—Prov. 15:14
Who is a wise man, a man endued with knowledge among you? Let him show out of a good conversation his works with

meekness of wisdom.—James 3:13
The fear of the Lord is the beginning of knowledge: but fools despise wisdom and instruction.—Prov. 1:7

Better is the poor walketh in his integrity who is perverse in his ways is a fool. Also, that without knowledge, is good; and he that hath his feet sinneth.—Prov.

DAMON HUNTER, Boys Ranch resident from Fla., is shown making his qualification ride on a calf for the 27th Annual Boys Ranch Rodeo, Labor Day weekend. Damon is 13 years old.

Approximately 10,000 people are expected to visit Cal Farley's Boys Ranch over the Labor Day weekend to watch the boys put on their 27th annual Boys Ranch Rodeo. Teenagers May Prefer Unconventional Breakfast

Do you have a normally active teenage girl in your home—one who doesn't like to eat a conventional breakfast? She could choose to eat a sandwich for breakfast, according to Frances Reasonover, Extension Foods and nutrition specialist at Texas A&M University. Why not? Miss Reasonover says the important point is that you eat as you like, as long as the foods you choose for the entire day include specified amounts from the basic four food groups, and as long as you meet calorie needs. She explains that a day's eating might start like this: a cheese sandwich for breakfast along with a banana and a glass of milk. If that doesn't appeal, you may want to begin the day with spaghetti, chili, baked beans or deviled eggs. For a normally active girl, average height—5 feet 10 inches, weighing 117 pounds, she needs approximately 2,300 calories. Her food intake should include 4 cups of milk equivalent; 4 servings of meat and vegetables, making include those rich in iron and C; 4 or more servings of the bread-cereal group. The guide is flexible. Specific foods chosen for the group and the time when either as meals or snacks largely a matter of preference and family routine, she says. But, the specialist remembers to choose to maintain a desirable
