S-E Student Writes Winning District Essay

Springlake-Earth eighth grade student Tommy McKinnon has been named district winner of the annual Lamb County Soil & Water Conservation essay contest.

McKinnon, son of Mr. and Mrs. Tom Sawyer, is the winner of the first prize and a \$50 savings bond for his essay.

McKinnon, junior high principal at Springlake, presented the award at the presentation Tuesday on the Lamb County SWCD.

McKinnon's essay "Conservation, Key to Our Future" is entered in the Texas Conservation Awards Program where it is judged along with 191 other entries.

The District Board of Directors judged essays by two Olton youths, Kent Pittillo and Howard Lewis, as outstanding and will award each of them a plaque and \$25 bond at the FFA and FHA Banquet at Olton.

Ed Dwason, district director from Springlake praised Slover at S-E saying he does a good job with the annual awards program. Last year one of his students, Karen Howell, won first in the district and went on to win second place in Region I competition.

This year's winning essay is on the editorial page of this issue of the paper.

Plaintiffs Win Three Civil Suits This Week

A judge tried three civil cases in court this week.

In the first case styled the State of Texas vs. W. L. Hancock and Florence Hancock, a jury ordered the forfeiture of the Hancock's held on Rosie Hancock, a woman charged with theft in this county.

In the second case heard Monday by Judge Pat Boone Jr. with Attorney Joe Young as opposing attorney.

Tunnell was named foreman for Mrs. Joe Van Dyck, Georgia Van, Verdell Burton, Leona W. P. Holland, Mrs. Dick Paul Chisholm, Sherman Audrey West, Herbert Dolle McKinnon.

Deliberations started in a court brought by Jim Camp versus the contractor for breach of contract for to deliver a specified number of alfalfa cubes.

Monday afternoon the jury reached

a \$8,400 verdict for the plaintiff Jim Camp.

Kenneth Hinson was foreman. Other jurors were Jerry Rainbolt, Wilburn E. Andrew, Mrs. Jesse Fox, Lila Jean Robison, Norma A. Hanson, Jim C. Robbins, Harris T. Ray, Mrs. Lyle Brandon, Lela Cody, Mrs. Raymond Heim and J. Lewis Morris.

Jury selection started Wednesday in a suit Arthur Chapa Jr. versus Bawcom Farm Supply and Evert V. Shirley, collision, wrongful death and property damage.

Deliberations began Thursday and the case went to the jury Friday morning. Jurors returned a \$15,187 verdict for the plaintiff Chapa Friday afternoon.

Serving on the jury were W. P. Holland, Olen Kenneth Howard, Mrs. Dick Hopping, Daniel Rey, Mrs. Joan Branscum, Herbert Dolle, Georgia Bahlman, Audrey West, Mrs. Joe Van Dyck, Mrs. Lee Roy Robertson, Norma Poe and Leona Martin. Mrs. Branscum was foreman.

Alcoholism Meeting Set Monday Night

Alcoholism information meeting will be held in the Lamb County Community Action Center Building on North (Springlake Highway) at 8 p.m. Monday night, April 21, according to Carey, alcoholism counselor for County.

"We hope to have a large crowd at our meeting next Monday. It is our job at the South Plains Alcoholism Counseling Services Project to inform the public of the nation's fourth killer disease—alcoholism," Carey said.

The meeting is a part of a continuing program of the control of alcohol in Lamb County. The counselor works in three counties—Hale, Bailey and Lamb.

Jailed, Thefts Reported

A 21-year-old man was charged with possession of marijuana this week. One man and one drunk were jailed by authorities.

Two thefts were reported to county authorities.

Berry reported the theft of a roll of wire, an air wrench, record player, a charger, pole light, chrome wheels and four new tires from his house north of town. A wall heater had been knocked off the wall, too.

Robert Dolle reported the theft of a horse motor taken off a sprinkler system two miles east of Luma Chapel.

A gallon butane tank was reported stolen from the W. H. Robison farm east of Fieldton.

Posse Slates Playday Today

The Lamb County Sheriff's Posse will conduct their regular playday today, beginning at 1:30 in the Posse Arena, located near the Lamb County Showbarns.

All riders in the area are invited to participate in the various events, and spectators are invited to watch the action free of charge.

Proposed House Bill On Cloud Seeding To Be Aired In Commissioners Court Monday

At 2 p.m. Monday, commissioners will hear Tommy McKinnon discuss House Bill 1089 concerning weather modification.

McKinnon's aim is to seek support of the commissioners' court to endorse a bill on weather modification now in a subcommittee of the Natural Resources in Austin.

The bill that would require voter approval before any disputed weather modification permit could be issued has been referred to a House subcommittee following a hearing in mid March.

Rep. E. L. Short of Tahoka is sponsor of House Bill 1089 relating to weather modification and appeared as a witness for the bill before the Committee on Natural Resources.

Residents of an affected area would have the opportunity to disapprove of the weather modification project prior to the Texas Water Development Board (TWDB) issuing a permit for the project. An election would not necessarily be required.

McKinnon, Robert Bolton and E. L. Schlotman of Littlefield and Danny Grant of Whitharral went to Austin to represent an area group called Farmers and Ranchers for Natural Weather.

Dale Stanley, Dwight Faver and Dean Faver of Littlefield, Flip Calhoun of Plainview and R. A. Schooling of the Colorado River Municipal Water District (CRMWD) in Big Spring were in Austin to represent those who favor weather modification.

The scope of the amended house bill as it went to the subcommittee calls for these election requirements.

On receiving an application for a permit which will include hail suppression, the board shall give notice to each county covered by the permit that an application has been submitted for a permit.

No permit which will include authorization for hail suppression may be issued by the board before the end of the 30-day period immediately following notice to the county or counties and then only if an election is not requested or, if an election is held at which the majority of the qualified voters voting at the election approve the issuance of the permit.

On petition to the commissioners' court of a county, all or part of which is located within the area to be covered by the permit, of at least 10 percent of the qualified voters residing within the area of the county intended to be covered by the permit requesting an election, the commissioners court shall call and hold an election.

The election shall be held within 21 days after the petition is submitted to determine whether or not the qualified voters in the county or part of the county to be covered by the permit approve of the issuance of the permit.

Any petition for an election under this section must be submitted within 30 days after the commissioners court of the county receives notice from the

board of an application for a permit that will include authorization for hail suppression.

At the end of the 30-day period following notice by the board to the county or counties, the commissioners' court of each of these counties shall notify the board whether or not an election has been requested and if so, the time at which the election will be held.

The county clerk will check the names on the petition against voter registration lists and certify to the commissioners' court the number of qualified voters signing the petition.

A person filing a petition with a commissioners' court shall make a deposit estimated by the county clerk to be sufficient to cover the costs of the election. Money will be held by the commissioners court until the result of the election to approve or disapprove the issuance of the permit is officially announced.

If the result of the election favors the issuance of the permit, the commissioners' court shall return the deposit to the person filing the petition, but if the result of the election is against the issuance of the permit, the commissioners' court shall pay the cost and expenses of the election from the deposit.

The court will declare the results within five days after the election, and send certified copies of the results to the board within 24 hours.

On receiving all of the certified copies of election results, if the board finds that a majority voted in favor of issuing the permit, the board may issue the permit. If a majority of the qualified voters voting at the election in any county or part of a county to be covered by the permit votes against the issuance of the permit, that county or part of a county will be excluded from the permit's coverage. If a majority of the qualified voters in each county or part of a county to be covered by the permit vote against the issuance of the permit, the board shall issue no permit.

A permit may be issued covering areas in which no election is requested or in which the voters give their approval.

If a permit is to cover only a part of a county, only those qualified voters

residing in that area of the county are eligible to sign a petition and to vote at an election. In computing the vote, only a majority of those qualified voters residing in the part of the county intended to be covered by the permit and voting in the election shall be necessary to carry the proposition in that county.

Provisions of this act do not apply to any permits in effect at the time this act becomes law.

Atmospherics Incorporated has filed proper notice of intent to engage in weather modification activities on behalf of Better Weather Incorporated in portions of Lamb, Deaf Smith, Randall, Farmer, Castro, Swisher, Bailey, Hale, Cochran, Hockley and Lubbock.

The hearing before the Texas Water

Development Board in Austin is set for this Tuesday.

Both pro and con forces indicate they plan to be present at the commissioners court meeting Monday and at the hearing in Austin on Tuesday.

Prior to the discussion of the house bill Monday afternoon, the commissioners court will act on five items on the agenda. The court convenes at 10 Monday morning when county and precinct bills, monthly reports, quarterly reports and canvassing of the school elections are orders of business.

Other agenda items include a tort claims act on insurance, discussion of purchase of equipment for the new community and agriculture building, and discussion of cancer income protection insurance.

Red Cross Assisting With Baby Evacuation

"Due to the many inquiries of local people concerning the adoption of the orphans being evacuated to the U.S. at this time, the following information may be of some help," according to Jean Streety of the Red Cross office.

Every child being evacuated is already spoken for, and has had most of the paper work completed. If anyone locally desires any information, they should call 800-368-1180 toll free. "The

line is usually very busy, so keep trying," she advises.

"Red Cross is taking an active part in evacuation assistance and also in the immediate care of the children after their arrival in the U.S.," she continued.

"Red Cross is also caring for more than 500,000 Cambodian refugees and this number could escalate at any time," she concluded.

Spring Rains Timely For Planting

This week's rains measured from 8 to more than an inch all across the area. And while the totals aren't spectacular, the rains may be a lifesaver for farmers.

With last fall's heavy rains, there is adequate planting moisture, but enough rain to make the moisture meet was badly needed as planting time approaches.

The rains practically assure planting moisture for most crops. The timely rains are a boost to dryland wheat, too.

And after practically missing a crop last year, dryland farmers who had the foresight to plant wheat can count on some good harvest yields.

Soil temperatures are warming. As of Friday, the 10-day average soil temperature was 52.6. For most crops a soil temperature of 60 is needed.

For this past week of Friday through Friday the soil temperatures averaged from the high 40s, warming into the 50s Wednesday.

Date	Temp.	10-Day Avg.
April 4	52	48.8
April 5	55	48.1
April 6	55	49.2
April 7	55	49.5
April 8	50	49.9
April 9	51	51
April 10	54	52
April 11	55	52.6

Western Auto Grand Opening

A grand opening of Richard Wall's Western Auto store will be conducted Monday at 9 a.m.

The store, formerly Forrest Price's Western Auto, is located at 302 Phelps Ave.

The red-coated ambassadors of the Chamber of Commerce and Agriculture will be on hand to assist with the hospitalities, and Mayor J. E. Chisholm will cut the ribbon.

Dunbar Community Club To Meet

Dunbar Community Club will hold a special meeting at 8 p.m. in the Lamb County Community Action Building on North U. S. Highway 385, (Springlake Highway) Tuesday evening, April 22, according to Mrs. Valeria Henderson, Neighborhood Center Social Worker.

"We have a very important meeting and I hope everyone comes out to participate in the election of two new black representatives on the Community Action Board Committee."

EDITORIAL

Conservation -- Key To Future

(EDITOR'S NOTE: This is the award winning essay in the Lamb County Soil and Water Conservation's annual student essay contest. Gary Sawyer was presented a plaque and \$50 saving bond for his efforts.)

The early settlers in America cleared away the trees and planted big fields of tobacco. The tobacco took a great deal from the soil. Soon the land was no longer able to produce big tobacco crops. Then the settlers moved on to new land. The story of these planters has been told in just a few words, "cut down, wear out, and walk off."

The early settlers wasted the riches they found in America. This wasting went on for more than two hundred years. The people began to do something about conservation. Conservation is using without waste.

Soil and wildlife are two of the natural resources America has wasted. Among the others are forests, water and minerals such as coal and oil.

Americans have wasted soil by

wearing it out and letting it wash away. The Mississippi River alone carries several hundred million tons of soil a year and dumps it in the sea. Water running into streams after heavy rains makes gullies. These gullies can turn good farmland into land that cannot be farmed at all.

Americans have mined their minerals wastefully without stopping to think that it took millions of years for the minerals to collect in the earth. Once the storehouse is empty it will take millions of years to fill it again.

The United States Government has done a great deal to stop waste. Many laws have been passed. Forest preserves and national parks have been set up. Forest rangers guard against forest fires. Farmers are taught how to plow their land so that the soil is not easily washed away.

Laws do not help unless people obey them. Plans are of no use unless people follow them. Conservation is not something that can be turned over to the government. Everyone has a part in it.

THE ABUNDANT LIFE

Survival Spirit

WE CAN FASHION our spirit, or we can permit it to be formed by the multiplicity of information and notions with which we are bombarded day and night.

"Our spirit" is our "temper or disposition of mind, with sustained vigor and energy". We have the ability and the opportunity to decide the quality of "spirit" we want, but this is not all.

We also have the privilege of making "our spirit" what we want it to be. It is much easier to "decide" the kind of spirit we would like to have than it is to make it what we want it to be. We can be sure, however, that the greatest effort is justified.

IT IS TOO EASY to let "our spirit" be formed haphazardly by what comes into our minds day by day through the various slanted, fractional, gloomy, and sometimes distorted communications.

How often do we read or hear anything that builds up, and strengthens, and reinforces, and expands "our spirit"? If we do, it is because we are very careful and selective in choosing the information that goes into our mind.

A "SURVIVAL SPIRIT" is our great need, and the beautiful and encouraging fact is that we can have just such a spirit. "Our spirit" is going to be strong or weak, depending upon what things we permit to feed it and form it.

There is no law making it mandatory for us to listen to or read the things that

weaken, and deform it. The truth is that we have the right to choose the kind of spirit we want. We have the obligation to choose the information stimuli that will produce a stable, indomitable spirit.

OUR SPIRIT IS ACQUIRED though we seem inclined to let it happen. We can unknowingly let somebody else or a combination of things make our spirit what it is.

If we do, it will not be the need or want. We must not let it happen. It is "our spirit", and determining factor in our life. We can live with the proper sense of purpose, accomplishment, strength, courage; or we can exist in the fog of despair, fear, discouragement, futility.

"LITTLE MINDS ARE TAMED" by subduing by misfortune, but great rise above it." - Irving

This particular quality of a great spirit is in a great spirit. We can have a spirit we want; not in the sense of perfection, but in the sense of reality.

A "SURVIVAL SPIRIT" is formed and sustained by the choosing of what we see and hear. This is our right, and our privilege. We must not leave the fashioning of our spirit" to chance.

Turn Row

COMMENTS

By EMIL MACH...

IT FINALLY HAPPENED here in Littlefield. Many have seen incidents like this in other areas, some have suspected such happenings in this area over the past years, but to several sports enthusiasts, and a law enforcement officer, it happened here last week.

At present, no one really wants his or her name mentioned, but over a half a dozen local residents are convinced that they sighted and observed a couple of unidentified objects in the area last week. Apparently these objects were sighted two nights in a row, but the second night by several people.

According to what other people have said about their sightings of flying objects in the past, these were similar in description.

Although, even with the aid of binoculars, our local observers could not describe the shape of these objects because of the brightness of the light.

Apparently there was a pair of these objects. One was hovering southwest of Littlefield. Attached to it was a clear bright light that turned into shades of red and blue. This object was apparently sighted (according to the Reader's Digest) recharging its power unit from one of our utility lines. The only motion was a straight up and down motion.

Although it might be a coincidence,

and I'm not sure if the dates were but a farm family that resides miles southwest of Littlefield experienced the flickering of lights at home. The fading of electricity for about 30 minutes and made electric clock lose 10 minutes.

As noted by the observers the object discontinued the hovering and zoomed in a northeasterly direction and apparently rendezvoused another object northeast of town.

The second object was apparently stationary and had bright lights on the first object. After the two drew near to each other they disappeared. And that, my friends, is what I missed when we go to bed with chickens.

Since Littlefield and the area are presently on the boom, who knows, maybe other interested individuals wanting to get a piece of the pie.

THERE ARE MORE PEOPLE willing to follow your footsteps. Follow your advice.

Whitharral in 1966. A retired farmer was a member of the Church of Christ here.

Survivors include his wife, Elizabeth; three daughters, Jane Anderson, Casper, Wyo., Ann Amos of Idaho; Lily Mae Kittrell of Amber; sons, Elmer Sexton of Waco, Ray Sexton of Fort Worth, Arlee Sexton of Arlington, Clarence, J.R. and Carroll Sexton all of Dallas, and Sexton of Austin; 20 grandchildren; six great-grandchildren.

AUBREY HUDSON
Aubrey Lewis Hudson, 79, of Round Rock was dead on arrival at Georgetown Hospital in Georgetown Wednesday after a sudden illness.

Graveside services were conducted Saturday afternoon at the Whitharral Cemetery with Rev. Kenneth B. pastor of the First Baptist Church, officiating.

Burial was under the direction of George Price Funeral Home, Levelland.

He moved to Round Rock, Texas, in 1971. He had lived in Whitharral 45 years. He was a welder and a veteran of World War I.

Survivors include two sons, Hudson of Round Rock and Hudson of Santa Barbara, Calif.; daughters, Mrs. Thelma Murphy of N.M., and Mrs. Jane Zapoteco of Louisiana; three sisters, Mrs. Glenn and Mrs. Myrtle Mueller, Austin, and Mrs. Etta Savage of Paso; three brothers, O. L. Hudson, Roy Hudson both of Austin, and Round Rock; and six grandchildren.

To The EDITOR

Dear Editor:

I am a retired school teacher, a widow and mother.

I want to help rescind ERA (Equal Rights Amendment).

Mainly because:

1. It will destroy our right to privacy and our homes as a family unit.
2. Our public rest rooms should not be de-sexed.

3. Men should be men and women should be women and proud of it.

I am opposed to further transfer of States' authority to the federal level.

Dear Editor:

I understand that early this past week the county judge was approached to ask the commissioners court to support the pending house bill calling for a vote before any weather modification program can be conducted.

Surely the commissioners will recognize that they are overstepping their bounds if they endorse any measure that has not even come close to becoming law.

Such a request is clearly premature. I believe county officials can stay busy taking care of county affairs instead of lobbying for controversial and political matters on a state-wide level.

Rest assured that supporters of Better Weather Incorporated will welcome the people's vote on cloud seeding activities after this measure goes through the regular legislative channels.

Well informed voters will have no trouble distinguishing between up-to-date scientific evidence and insurance statistics as opposed to garbled, misleading, unfounded reports written in the 1940s.

I'm confident the commissioners and the public can see this attention-getting device for what it is—a lot of loud noise and hopefully a rock to throw at the Texas Water Development Board.

I realize letters must be signed but I'm asking that my name be withheld because I'm speaking for many, many people whose very livelihood depends on making a crop this year.

The time is past when a farmer can pay labor and equipment costs, pre-water, apply herbicides and fertilizer, irrigate and spend the kind of money it takes to make a crop and have it all wiped out in a five minute hail storm.

(EDITOR'S NOTE: The letter was signed as required.)

(EDITOR'S NOTE: This letter and story were sent to George E. Culp of the Texas Highway Department in Littlefield, and he felt the public should read it.)

March 31, 1975

Dear Mr. Culp:

I have recently introduced Senate Joint Resolution (SJR) 22 to put the right to work in our state constitution. A copy of SJR 22 and the accompanying press release are enclosed.

You can play an important role in getting this legislation passed by writing to Lt. Governor Bill Hobby, who is the presiding officer of the Senate, Speaker of the House Bill Clayton, and to the state senators and state representatives from your area to ask their support for SJR 22.

Through your efforts we can provide constitutional protection for our right to work. Thank you for your help in this vital matter.

Sincerely,

s/Walter Mengden
Walter Mengden

Senator Walter Mengden, Republican from Harris County, has introduced a state constitutional amendment, SJR 22, to provide for the right to work. Senator Mengden's proposal would constitutionally prohibit both the union shop and the agency shop so that an individual would be able to work without being compelled to join or pay dues to a labor union to keep his job.

"For any man or woman who works for a living, there can be no question that the right to work is equally as important as the freedom of speech, religion, press, petition, etc. In fact, if a man is not allowed to work to support his family, giving all the speeches he wants to and attending all the churches he wants to will not put food on his table. Accordingly, the right to work must rank at least as important as our other freedoms. Just as the guarantees of freedom of speech, religion, press, etc. should be contained in a constitution rather than just in statutory legislation, so likewise, the right-to-work law needs to be in our state constitution," Senator Mengden said.

Senator Mengden emphasized that his proposal was in no way anti-union in nature. "I believe that union membership, as well as membership in a church, political party, civic club, and many other organizations is beneficial to both the individual and the community, but the choice to join or not join must be left to each individual. Compulsory membership in any private organization is totally and completely wrong. No man should ever lose his job because he does not wish to join or pay dues to a labor union. This vital right to work is so basic and so important that it must be protected as one of our basic liberties."

Governor Briscoe has stated that teachers are apathetic. To prove this, he has set up a toll-free number (unpublicized) to prove that we will not call and give our support to TSTA, even if given the opportunity. Please call this number 1-800-292-9600 and state that you are for Senate Bill 37 and House Bill 420 (TSTA Financial and Education Bill) and opposed to Senate Bill 472 and House Bill 1083 (The Governor's Education Bill). Both you and your families may call, but each person may only call once.

When you call, identify yourself and say you are a teacher in Littlefield and which Bill you give your support to. This will be the only notification of this number. It will be up to you as a representative of your area to notify teachers and parent groups of this toll-free number.

OUR OWN daily lives go on about the same. We still get up in the morning and go to work, or get the kids off to school. It is spring and time for making gardens and growing flowers.

Everyday duties call to us and we have to answer by living the best we can day by day. We still have our families to care for, our sick to care for and a living to make—Yes, and we still have our problems to solve.

WE ALSO GAVE 50,000 American lives and many wounded over more than a ten-year period. None of this seemed to help very much. We couldn't give them the will to fight for themselves.

Now we have our own lives to live here in our own homes and environment. It isn't perfect here, but it is the best place in all the world to be at the present time and we should make the most of it.

A Woman's View

By PEARL BRANDON

WE LUCKY PEOPLE living in this beautiful free country of ours have been having a feeling of guilt lately when we hear of all the horrible things that are happening in other parts of the world. I don't think we should feel this way.

Perhaps we could have done more in South Vietnam. I don't know. But we sent our American men over there in that foreign, far away country and we furnished billions of dollars worth of food, arms, and medical care.

We also tried to train those people to be fighters and to stand up for themselves.

WE MUST HAVE had a purpose for building a nation like ours.

We have strong serious men working at the head of government. Many mistakes have been made, of course, but I truly believe that a majority of our leaders want to do what is best for us and for the world.

It is hard to know what is best. I think all of us would hate to see any more of our beloved American men sacrificed in Vietnam.

IN THE MEANTIME, we can pray that God works His will in history and peace will soon come to the world and people everywhere can live as well as we do here in America.

Dayton Keesee To Speak For Spade Church Series

Dayton Keesee will be speaking Sunday, April 20, at the Spade Church of Christ, to begin a series of meetings that will continue each morning at 10:30 and each evening at 8:00 through Thursday evening, April 24th.

Since Keesee is a graduate of Spade High School, this meeting

will be a homecoming. He has resided in this area since 1967 when he moved to Lubbock. The move to Lubbock came as a result of an unexpected evacuation from mission work in Nigeria.

The Keesee family had been in Nigeria for about three years when the civil war erupted in

that land. The work in Nigeria had related to both starting congregations and helping native brethren prepare to preach through training given at Enugu Bible College.

Preparing men to preach has continued to be Keesee's work as he serves as an instructor in the Sunset School of Preaching. About 700 have graduated from that training program and have scattered into some 50 nations, plus many states in this country. "The central theme of the Bible training given at Sunset is to prepare men to help get the Gospel to every nation and every creature as Christ commissioned us," states

Keesee.

In addition to the work in Lubbock, Keesee has made five trips in the last six years for teaching duties in India and Nigeria. The purpose of these trips has been to offer concentrated Bible study to help native members of the church in their spiritual development. These trips have also offered teaching opportunities to "reach the unreached" with the Truth.

Within the last year, such opportunities have found Keesee in Oklahoma, Louisiana, Kentucky, Colorado, Illinois, and Texas. "This trip will be a little different," states Keesee. "I'm going home."

K.Y. Givens Named Babe Ruth Director

OLTON— K. Y. Givens has been named District 2 Director of Babe Ruth 13-15 Baseball, as announced by Joe Stevens, state director of West Texas Babe Ruth 13-15 Baseball League. Givens, recently elected as mayor of Olton, has supported youth baseball in Olton for several years.

He has served two terms as president of Olton Baseball Association and was Tournament Director of the West Texas State 16-18 Baseball Tournament held in Olton in 1973.

Notaries Public Must File

Texas Secretary of State Mark White announced that all presently commissioned Notaries Public desiring reappointment for the new term which begins June 1, 1975 and ends June 1, 1977, must pay the required fee and file a new oath and bond with the County Clerk between May 1, 1975 and May 15, 1975, inclusive.

Secretary White further stated that any person not now a Notary Public who desires appointment for the beginning of the new term on June 1, 1975, should apply to the County Clerk before April 30, 1975.

The required application forms may be obtained from the County Clerk.

White emphasized that Notaries Public should not send requests for appointment or for commissions directly to the Secretary of State as the law specifically provides that the County Clerk approve Notary Bonds and forward copies of the application to the Secretary of State.

Alexander Promoted

Roy Alexander, formerly director of outreach services at Central Plains Mental Health Center, has been named assistant executive director to replace Nick Harrison who recently resigned to accept a similar position with the regional community mental health center in the Beaumont metropolitan area.

Alexander, 28, and his wife, Judy, have one child, Bryan, almost 2 years old.

Alexander was educated at Eastern New Mexico University and holds a B. A. and M. A. in psychology. After his internship at New Mexico State Hospital, he taught psychology at Amarillo College prior to joining the staff at Central Plains Mental Health Center.

As assistant executive director, Alexander will help coordinate all phases of the Center's programs and projects, perform duties of the executive director in his absence, supervise all clerical and receptionist workers, supervise preparation of periodic and special reports, hire receptionists, secretaries and technicians, generally assist the executive director in all his duties.

Bids Sought From Firms

The General Services Administration has announced that sealed bids are being solicited from small business firms for air conditioning energy conservation in the Federal Building— Courthouse, 1205 Texas, Lubbock.

Jay H. Bolton, regional administrator of the General Services Administration in Fort Worth, said the cost of the project is estimated to be up to \$100,000. The Invitation, Bid and Acceptance Form, RTXT5036, which gives instructions for submitting bids, can be obtained from GSA's Business Service Center, Room 1A03, 819 Taylor Street, Fort Worth, Texas 76102, telephone 817-334-3282.

Bids will be received until 3 p.m., May 12, at GSA's Business Service Center at the above address.

Eagle Scout Roundup Underway In This Area

The National Eagle Scout Association in cooperation with the South Plains Council of the Boy Scouts of America has announced the beginning of an Eagle Scout roundup. This program is designed to encourage all Eagle Scouts regardless of their age or occupation to join the National Eagle Scout Association (NESA), according to the council's Eagle Scout Association Chairman, Judge Halbert O. Woodward.

Formed in 1972, the National Eagle Scout Association plans to identify and involve Eagle Scouts in a meaningful fellowship that will enhance the program of the Boy Scouts of America.

NESA provides all Eagle Scouts with the opportunity to continue active involvement with Scouting while maintaining and initiating friendship and experiences through the Scouting program.

The association is for Eagle Scouts of all ages, and local chapters already have been established in scores of Scout councils across the United States.

One major goal of the program is to compile a list of all living Eagle Scouts to be present to Congress during the 1976 bicentennial celebration. Other goals include the developing of a manpower resource for local Scout councils and promoting the idea of helping America to "enter its third century with strong Scout leadership."

It is estimated that there are nearly 500,000 living Eagle Scouts in the United States today.

WARNER HYBRID
WARNER SEED CO. introduces another fine grain hybrid
WARNER W-832
W-832 is bred upon the good strong stalk of the ever popular 839.
W-832 also has the heat and water stress tolerance of W-831 in.
The large semi-compact heads of W-832, with their light-dish brown berries, produce high test weight grain. W-832 the marks of a great producer with its long wide leaves, characterize all heavy producing grain hybrids. An abundant leaf area not only makes for higher yields, but also prevents water, and prevents weed growth by shading the ground.

Texas Beef Conference Scheduled For Amarillo

Dr. Frank Baker, Dean of the Oklahoma State University School of Agriculture and immediate past president of the American Society of Animal Science, and Eugene Moos, International Trade Affairs Representative for the National Association of Wheat Growers will be in the spotlight for the third annual Texas Beef Conference to be held in Amarillo's Hilton Inn April 17.

Moos, a delegate to the recent World Food Conference will keynote the morning sessions of the conference with some observations on the world food situation.

Following Moos' presentation, the delegates are in for a wide variety of sessions covering problems and developments in the beef industry. The first such session will give the cattlemen a chance to voice their opinions about the future of the beef industry.

A questionnaire prepared by the conference steering committee will be completed by the delegates and processed through the West Texas State University Computer Center facilities.

Late in the afternoon session,

the delegates will hear a review of the results of the poll.

The question session will be moderated by Dr. L. S. Pope, Associate Dean of the Texas A&M University's College of Agriculture.

HAMMONS FUNERAL HOME

The police officer on your beat may resent being called a cop, but it has a very long history. The word "cop" in the sense of "one who captures or snatches" is recorded as early as 1704. It first came to English with the Norman Conquest and can be traced back to ancient Rome's *capere* meaning to capture.

Olton Captures Track Title

In district 3-AA girls' track competition held in Wildcat Stadium Wednesday, the Olton Mustangs took first in the varsity division, Friona won the eighth grade division and Littlefield took the seventh grade title.

There is no ninth grade district competition.

The Mustangs, who finished third in the state meet last year, will be a strong favorite in regional and state competition in the coming weeks.

Littlefield, which finished in third place behind Olton and Friona, qualified Shebra Johnson in regional competition in the 100 and 400-yard dash, Melissa Sawyer in the high jump and Karen Carter in the discus.

Miss Johnson was second in the 400-yard dash with a time of 62.4 while Terri Patterson of Friona won the event with a clocking of 61.7. She was the winner of the 100-yard dash with a time of 11.9.

Miss Sawyer will go to the regional meet by virtue of her first place efforts in the high jump with a mark of 4'10".

Miss Carter finished second in the discus with a toss of 74'1 1/2" behind Morton's Tammi Grishem's toss of 78'8 1/2".

In eighth grade competition, the Littlefield 400-yard relay team with a clocking of 55.3 and team members are DeAnna Blakely, Gena Westmoreland, Ann Hill and Carol Sexton. They

also finished second in the 880-yard relay.

Miss Sexton also won the 440-yard dash with a time of 66.9 and finished second in the high jump with a 4'5" mark.

Miss Blakely finished second in the 60-yard dash with a time of 8.2.

Miss Westmoreland won the 220-yard dash with a clocking of 29.7.

Miss Hill finished second in the 100-yard dash with a 13.1 tally and Mary Ann McGee finished second in the shot put with a 26'6 1/2" mark.

In the seventh grade, Littlefield's 440-yard relay team won the event with a time of 55.7. Team members Darlene

Williams, Jana Jones, Bridgett Twitty and Gloria Brockington finished second in the 880-yard relay with a clocking of 1:58.7. Barbara Adams finished second in the 220-yard dash with a time of 31.4 and Geanice Ward finished second in the 80-yard hurdles with a time of 13.0.

Miss Brockington finished second in the 100-yard dash with a 13.0 mark.

Miss Twitty also finished first in the 60-yard dash with a time of 8.1, second in the triple jump with a 29'2" mark and second in the broad jump.

Leslie Perkins won second place in the shot put for Littlefield with a toss of 25'5 1/4".

SNACKS CAN BE SMACKING GOOD.....and NUTRITIOUS

no need to sacrifice vitamins and minerals to satisfy kids' taste.

"Where do those children get all that energy?"

Children at play never cease to amaze grown-ups. The constant activity so typical in young people is fueled by the foods they eat—at mealtime or as snacks.

Children like foods that are easy to eat with a spoon or in-hand, are served in small size portions, are mildly seasoned, look attractive and are colorful. Most moms prefer snacks that are quick to prepare on a moment's notice or are simple enough for the children to make themselves. In today's world, they also must be economical. The following snack recipes have low cost in mind. They omit expensive ingredients yet are nutritious foods that are fun to eat.

MOLASSES OAT BREAD

- ½ cup margarine
- ¼ cup (packed) light brown sugar
- ¼ cup light molasses
- 2 teaspoons salt
- 1 cup milk, scalded
- 2-¼ oz. pkgs. active dry yeast
- ½ cup warm water (105-115 F.)
- 2 eggs, beaten
- 5 to 5-½ cups flour
- 2 cups uncooked rolled oats, regular or quick
- Water
- Additional rolled oats

Combine margarine, brown sugar, molasses and salt in large mixing bowl. Add milk; stir until margarine is melted. Cool to lukewarm. Soften yeast in warm water. Add to milk mixture. Stir in eggs, 2 cups flour and rolled oats. Add flour as needed to make soft dough. Turn out onto lightly floured board; knead until smooth and elastic. Place in greased bowl; turn once to grease top. Cover and let rise in draft-free place until double in size. Punch down; let rest 10 minutes. Divide into 2 equal portions. Shape each into a loaf 9 inches long. Brush each loaf with water and roll in additional rolled oats. Place in greased 9x5x3-inch loaf pan. Let rise in warm area until double in size. Bake in 350 F. oven about 50 minutes. Yield: 2 loaves.

OAT PEANUT COOKIES

- 1 cup flour
- ½ teaspoon baking soda
- ½ teaspoon salt
- ½ cup shortening
- ½ cup (packed) light brown sugar
- ½ cup granulated sugar
- 1 egg
- 2 tablespoons milk
- 1 teaspoon vanilla
- 1-½ cups uncooked rolled oats, quick or regular
- 1 cup chopped salted peanuts

Sift together flour, soda and salt into mixer bowl. Add shortening, sugars, egg, milk and vanilla; beat with mixer at low speed until smooth, about 2 minutes. Stir in oats and peanuts. Drop by level tablespoonfuls onto greased baking sheet. Bake in 375 F. oven until lightly browned, about 10 minutes. Yield: About 4 dozen.

BRAN FLAKE MINCEMEAT COOKIES

- 2 cups flour
- ½ teaspoon baking soda
- ½ teaspoon salt
- ½ cup shortening or margarine
- 1 cup sugar
- 2 eggs
- 1 package (9 ounce) condensed mincemeat, finely crumbled
- ¼ cup milk
- 2 cups 40% bran flakes

Sift together flour, soda and salt. Cream shortening, sugar and eggs until light and fluffy. Beat in mincemeat. Add dry ingredients and milk alternately, mixing well. Stir in flakes. Drop by tablespoonfuls onto lightly greased baking sheets. Bake in 350 F. oven until lightly browned, about 12 minutes. Yield: About 5 dozen cookies.

HOUSEHOLD HINTS for HOMEMAKERS

Did you ever try to remove a button from a perfectly good article of clothing, only to find it up cutting through the fabric? To save the clothing, slip a comb under the button and then cut the thread with a razor blade.

To remove black heel marks without refinishing the entire floor, rub the marks with fine steel wool dipped in the floor wax that's been applied on the rest of the floor.

Did you know that most cheese should be served unchilled in order to bring out its flavor and texture? Twenty minutes or more at room temperature is the best way to serve cheeses. Of course, cottage and cream cheese are exceptions.

If your brown sugar's hard as a rock and you need to use it right away in a recipe, break it into chunks and pulverize them in the blender. Then measure and use as usual.
