Four injured in Sudan shooting

Four persons were wounded in a shooting Sunday night in a Sudan cafe, and Raymond Brown, 23, was arrested shortly afterwards by Lamb County Sheriff's officers.

Brown has been charged with assault with intent to murder in one of the cases, and Justice of the Peace

Stanley Doss has denied bond, pending further investigation.

Brown allegedly used a 22-caliber automatic rifle, wounding Nathaniel Clay Williams, Catherine Burton, Cecil Alexander and Annie Lee Oggs. Alexander and Ms. Burton were transferred from South Plains Hospital

at Amherst to Methodist Hospital in Lubbock. Williams and Ms. Oggs were both treated at Medical Arts Hospital in Littlefield and released.

The shooting occurred at 9:30 and the subject was in custody at 10:15. Monday, Sheriff's officers received a report that an air conditioner belonging to Mrs. H. Pace in Amherst had been taken from outside her house. The incident is still under investigation. Value of the air conditioner is about \$65.

A 17-year-old Littlefield boy was jailed by city police Saturday and charged with liquor law violation. Officers found an open quart of beer sitting by his feet in the car, and a small portion of marijuana was found under the seat. He was released on a cash bond.

Levi's earnings jump to \$1.99 per share

Levi Strauss and Co. has reported a continued increase in earnings during the first quarter of this year.

Last year, the apparel firm reached its first billion-dollar sales year, according to Peter E. Haas, president.

Levi Strauss will be the primary source of sales of denim that will be produced here through the American Cotton Growers' Denim Textile Plant.

The company reported earnings of \$22.1 million, or \$1.99 per share, on sales of \$259.1 million for the quarter ended Feb. 29. They were up from

earnings of \$5.2 million, or 48 cents per share, on sales of \$201.4 million for the comparable 1975 period.

"The strong earnings can be attributed to increased unit sales, improved gross profit margins and a lower tax rate," Haas said. "We are continuing to get a favorable inventory turnover because of our low inventory levels and customer demand for our current product mix."

Haas said that although Levi's future bookings are strong, the quarter-to-quarter comparisons should not be expected to maintain the level of recent increases since the company's current sharp uptrend began with the second quarter last year.

Hit-and-run victim brought to hospital

An unconscious man, whose name is being withheld pending investigation, was brought to Littlefield Hospital where he is being treated for his injuries.

Commissioner Peel Seeks Re-Election

I, Jack A. Peel, would like to take this opportunity to thank each of you for your courtesies and for the support you have given me. I believe the experience and knowledge that I have obtained in this office will help me better serve the people of Precinct 3. I have worked for the good of all through honesty and respect and have supported Precinct 3 to the level of the other Precincts without taking advantage or being disrespectful.

Working with the Commissioners' Court, it has been my privilege to work in behalf of Precinct 3 in obtaining these accomplishments for our community: returning hunting regulations back to Texas Parks and Wildlife Commission, construction of the new Ag and Community Building and the new spinning mill which is now under construction. I believe each of these will benefit our entire county as well as Precinct 3.

Your vote and influence will be greatly appreciated. If re-elected as commissioner of Precinct 3, I will continue to work for Precinct 3 and Lamb County in YOUR behalf and will actively express YOUR desires.

Pioneer Days

THE SANTA FE

The coming of the Santa Fe Railroad did more for the development of the South Plains area than any other event.

From a vast area owned by so few, to the greatest farming, area of modern times, came a way of life for more than a million people.

Before the Railroad crossed this vast domain, man made very slow progress, and often failed in his endeavors.

Freight wagons had their day. The stage coach, and horse and carriage were indeed slow and uncomfortable.

Ranchers were handicapped, as all their supplies had to come from some rail-

head that had already been established.

Cattle had to be driven in large herds or trail drives to market.

Feed supplements, protein, salt and minerals came to them by way of freight wagon. Posts, barbed wire, lumber and all windmills and other ranch necessities had to come a long way under slow and difficult circumstances.

The Santa Fe had its main line from Chicago to San Francisco, and the town and cities along the road were stations for shipments out and in for the natives. Farming and other industries were stimulated wherever the train went.

In 1907, the Santa Fe built a line from Amarillo to Lubbock, and at the various stations along the way, services were available to the ranches at Hale Center, Abernathy, Tulia, and Plainview. All the switches along the line soon began to grow, and agriculture developed.

In 1912, the Santa Fe began its cut of line to Clovis to intersect the main line. By 1913 this line had come as far as the town site of Littlefield. From here it turned around and went back to Lubbock.

By 1914 it gave through service to the main line at Clovis, N.M. Little depots, with cattle shipping pens, loading platforms, and service houses for the maintenance crews were

built at intervals along the line.

Shallowater, Round-Up, Anton, Yellowhouse Switch, Littlefield, Amherst, Sudan, Muleshoe and Texico, were all built or established to service the change from a sea of grass to the agriculture and farming country it is today.

Surely history must recognize the importance of the Santa Fe as one of its most progressive turns of time.

Every Michelin 'X' radial tire for American cars is backed by a 40,000 mile warranty* and that's just about twice the mileage you'd expect from a conventional tire under the same driving conditions. Also, because of its radial design the Michelin 'X' rolls with less rolling resistance than conventional tires, and that means you can save on your present gas consumption (pretty good considering today's fuel prices). Plus, every Michelin 'X' radial tire gives you all the distinctive radial tire advantages: smooth ride, easy handling, traction and firm road-holding.

Stop in today and JOIN THE MICHELIN MOVEMENT!

***40,000 Mile Limited Warranty**
 Michelin's Warranty for 'X' Radial Highway Passenger Tire and '2X' Radial Passenger Tire shown here covers tread life for 40,000 miles of wear within 48 months from date of purchase, when tire is used on passenger vehicles in normal service in the United States. Credit or refund (at Michelin's option) is equal to current "Michelin Suggested Exchange Price" multiplied by percentage of warranted mileage not run on tire.

Major League All-Stars drop thriller 39-38

Levelland South sank a free throw after time had expired to win the championship of Littlefield's major league tournament Saturday night 39-38.

S. Phelan was fouled as time ran out and sank a free throw to give Levelland the tournament title.

Levelland led throughout the game before a last quarter rally brought the 'Cats back. The local youths trailed after one quarter 14-9 and at half 23-16. Levelland led 29-24 after three quarters.

Mike Williams led the 'Cats scoring attack with 13 points while Clark Pylant canned six. Leslie Yarbrough and Jerry Jones both connected for four while Ronnie Smith added three. Jim Burks, Georgie Brockington, Greg Harris and Eric Sawyer netted two each. S. Phelan and T. Anderson

were high for Levelland South with 13 points each.

Littlefield won the opening game Thursday against Sudan 39-28. The Wildcats led 21-9 at the half but a third quarter rally by Sudan brought the Hornets to within seven, 29-22, entering the final period.

Yarbrough was high for the 'Cats with seven points. Smith and Williams connected for six each while James Randel, Brockington and Burks hit for four each. Jones and Sawyer added three each while Pylant sank two.

M. Wooley led Sudan with

13 points.

Littlefield blasted Springlake-Earth 42-10 in semi-final action Friday night.

The 'Cats led 18-3 at half and were never threatened.

Williams' 10 points topped Littlefield's scoring. Smith hit for six while Brockington and Randel added four each. Sawyer popped in eight points, all in the second quarter. Harris sank three and Jones, Yarbrough, and Pylant added two each. Burks connected for one.

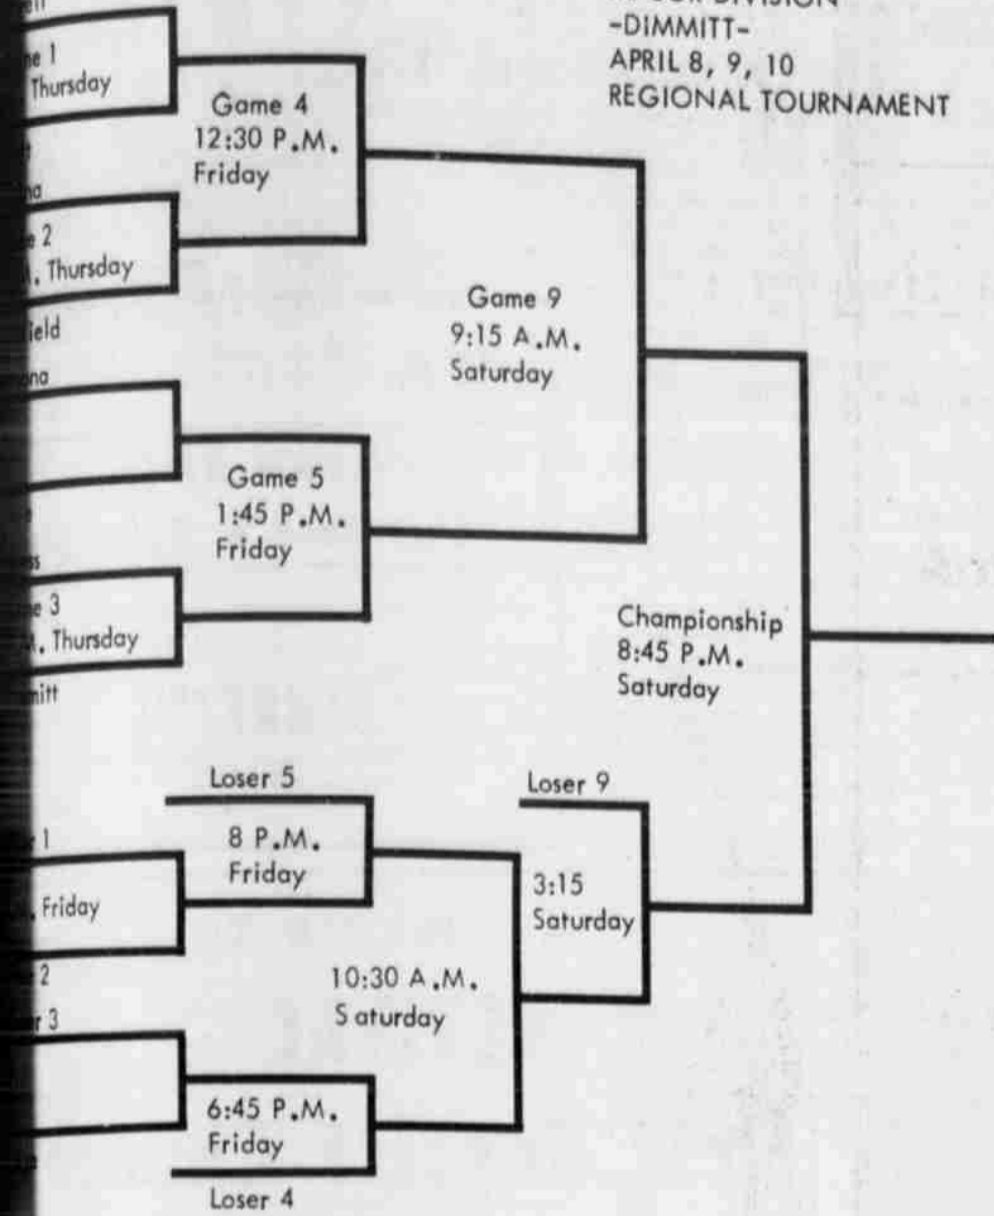

The major leaguers journey to Dimmitt for the three-day regional tourney set for Thursday, Friday and Saturday.

REV. AND MRS. Ken Harlan are the proud parents of a 7 lb., 13 oz. daughter. She was 18½ inches long and was born Saturday morning in Littlefield Hospital. The little miss has been named Sandra Michelle. The Harlans have a son, Bart. SOME FROM Whitharral attending the South Plains Country Jamboree in the Fine Arts Auditorium in Levelland Saturday night were Mr. and Mrs. Raymond Clevenger and Christy, Mr. and Mrs. Gene Munselle, and Mr. and Mrs. James Mixon.

ABOUT \$1,400 was raised by the First Department at the box supper Thursday night.

SUDAN NEWS

THREE SUDAN artists were among more than 100 artists and craftsmen who exhibited work at the annual spring West Texas Arts and Crafts Sale April 2-4 in Abilene. Sudan artists were Sharon Qualls, tote painting; Brenda Chisholm Ballew, oil painting; and Dewey Haragan, oil paintings and handmade frames.

Dynamic duo shines in SL-E track meet

The Littlefield combo of Bill Turner and Rick Hopping again were the top pointer earners as the Wildcats finished with 61 points to take third in the Springlake-Earth track meet Saturday.

440 relay team sets record at SL-E meet

Fourth-place was earned by the Littlefield seventh grade girls Friday at Springlake-Earth. The Wildcats earned 73 points to finish behind Abernathy's 104, Vega's 83 and Springlake-Earth's 78. Eleven teams competed in the meet.

The 440 yard relay foursome of Poni Walter, Sally Wilkinson, Arlene Williams and Jeanette Johnson combined for a 55.7 to smash the meet record of 56.5.

Littlefield placed third in the 880 yard relay with a time of 2:01.3. Ruthie Davis replaced Sally Wilkinson on the relay while the other three girls also

Hopping smashed two meet records. He shattered the discus standard of 150-0 with a toss of 170-2½. The old record was set in 1965 by Springlake-Earth's Patterson.

Hopping also bettered the shot put mark with a heave of 51-10¼. The old mark of 51-1 was set last year by Silverton's Mayfield. Both of Hopping's performances should place him among the state's top weightmen.

Turner again demonstrated his all-around ability. He ran a 54.0 in the 440 to take the event. A 10.3 100 was good enough for second place. Turner added fourth place in the discus with a toss of 136-10¼. Finally the Wildcat senior earned sixth in the 220 with a 24.4 time.

Raymond Baiza captured first in the 330 yard intermediate hurdles with a 42.7. Toney Cowan's 4:58.8 mile gave him second place.

The varsity travels to Denver City Saturday to compete in the Mustang Relays.

Americans may be free and equal but COTTONSEED IS NOT.

There is nothing **free** about cotton seed. Even ordinary cotton planting seed costs money. Good seed costs a little more.

And all cottonseed isn't **equal**. There are two varieties of cotton planting seed that stand out from the crowd. They are the product of years of research by two of the most respected firms in Southwest cotton. The seed for each variety is produced under the most exacting quality control. Depending on your land, one of them is a superior variety for your particular farm. They are:

LANKART® BRAND LX 571

It is an excellent, storm-proof, stripper variety capable of high yields of long, strong fiber with good micronaire ratings. It has good seedling vigor and matures somewhat earlier than the famous Lankart Selection 57. It is highly recommended for the dryland areas of Texas and Oklahoma.

LOCKETT BXL

Lockett BXL has excellent resistance to nematodes and fusarium wilt. It has high yield potential of quality fiber on all types of soils either dry or irrigated. It has staple length in the 1" and longer range with storm-proof type bolls. It is an excellent stripper variety well-adapted to this area and is especially recommended for the light soils where fusarium wilt-nematode complex causes heavy losses.

"CERTIFIED" SEED WORTH THE MONEY

The only way you can be sure you're planting the variety you select is to buy certified seed in the Lankart or Lockett trademarked bag. You can get them from your ginner.

475 bales from 500 acres

"We made 475 bales on 500 acres of actual cotton planted. From the reports I've received around the High Plains, this is about 200 pounds more cotton per acre than the dryland average. I'm sure glad we decided to plant our crop 100% in Certified Coker 5110.

We've rented an additional 700 acres for this year, and we'll plant all of our 1600 acres 2 in and 1 out, which will give us about 900 acres of Coker 5110."
