Payments To Be Down Slightly, ASCS Says

Farmers are faced with more options than ever before, following President Nixon's signature of the 1971 farm bill. "Farmers can forget about what they planted 10, 20, 30 years ago," said Lamb County L. D. Aten, ASCS office manager. "That's a thing of the past."

Aten was at College Station a week ago, and was one of a group of cotton men in Washington, D. C., last week to help write the cotton handbook for the farm program for 1971-73.

Aten, therefore, has as much information on the cotton proposals as anyone. His educated guess is that set-aside requirements for cotton will be 28 per cent, feed grain will be 20 per cent, and wheat 36 per cent.

legislation concerns the release of acreage. Farmers can still get cotton releases following hails, being blown out, and other disasters, but if they come back and plant soybeans or a commodity for harvest, rather than getting the full payment, they will get only one-half of the payment in 1971. Knowing this, many farmers may elect to replant in cotton, Aten said, even if it is late in June.

Many producers are afraid that over-production will occur with no penalties for over planting. Aten said that if the 1971 crop is excessive, the secretary of agriculture can say that farmers can plant as much of any of the three commodities as they want to in 1972, but if pounds increase enough he can then say that the difference in pounds is not eligible for the loan.

In any event, farmers still must plant 90 per cent of all commodities to hold their allotment.

The ASCS office is in the process of figuring '71 payments now. Farmers who want to know what their '71 payments will be should bring in either their gin weights or compress weights (all of one or the other, not mixed), to the office as soon as crops are completely harvested.

FOUR LITTLEFIELD preachers are busy this week knocking out partitions, putting in plumbing and getting the Antioch Baptist Church ready for its new role as headquarters for the Satellite School that is beginning its third year here. Rev. Clem Sorley, Rev. Doug Morton, and Rev. Louis Wetzel are getting the kitchen ready for occupancy within the next two weeks. Sustaining donations of \$100 a month are needed for the school, in addition to tools for a sheltered work shop, kitchen supplies and some good carpets.

County Residents Upper Brackets

Lamb County residents financially? What proportion are now to be found in the upper brackets?

Nationally, according to Commerce Department figures, the median income of families rose 9.3 percent during the past year. However, since consumer prices rose 5.4 percent, the real gain in family purchasing power was about 3.9 percent.

Dear Santa . . .

Jolly Old Saint Nick was in Littlefield last weekend, and informed the Leader-News that he is eager to hear from all you boys and girls in the Littlefield area so he'll know what you want for Christmas.

So, get your paper and pencils ready and write that letter to Santa. Address it to the North Pole, in care of the Leader-News, and we'll see that he gets the letters special delivery.

Santa will be in Littlefield again Saturday morning, and will be giving candy to the kiddies and listening to their wishes for Christmas.

The Leader-News is publishing several letters to Santa in this issue, and the letters will be forwarded to Santa at the North Pole.

Fisher Cops Contest With Furious Finish

RONNIE FISHER
Football Prognosticator

Runnie Fisher came from fourth place at the end of the eleventh week to capture the tickets to the Cotton Bowl game and the \$25 expense money, sweetened by his second \$5 first place weekly win.

Fisher scored 14 this week to sweep to the top, past Mike Sadler, Lee Roy Nuttall and Leon Burch, who held first, second and third place, respectively, prior to the final Leader-News Football Contest of the year.

Joe Blevins, Roy Allan Hutson, Doris Robison, Harold Pollard and Gary Roberts all scored 13 correct predictions and tied for second place. Breaking the tie with the write-in scores, Roberts won second and the \$3 prize, and Blevins took third place and the \$2 weekly check.

Many contestants who were in top contention for the season tripped up this week, scoring their lowest in the final week. Twelve persons predicted 12 of the winners, eleven named 11, and 10 had 10 of the games right.

A tabulation of the 12 weeks shows Leon Burch one behind the grand prize winner, and Sadler, Nuttall and Hutson all tied for the third spot, two behind.

The season standing of the top 31 contestants is on the sports page today.

WILL NORTH VIETNAM LISTEN?

P-O-W Letters Go Out

Can you imagine what it's like to be married to a man missing in action . . . not knowing for years whether you are a wife or widow?

Can you imagine a child not knowing what his father looks like or if he even has a father anymore?

. . . or a parent raising a son only to be separated from him for years without word?

Many in Lamb County are doing what they can to assure that at least 100,000 letters reach the capital of North Vietnam soon, appealing to the conscience of man to enforce the Geneva Convention rules concerning the welfare of all prisoners of war.

There are nearly 1,500 American servicemen being held prisoners or missing in action in Southeast Asia. And their families live with the uncertainty of their fate.

Lamb County residents are being asked to write letters and/or sign petitions in an effort to get humane treatment and the release of servicemen who are prisoners of the North Vietnamese.

So far in this massive letter writing

campaign that encompasses the entire South Plains, approximately 35,000 letters have been written.

The Lamb County Red Cross Chapter,

located in the basement of the courthouse, has typed up hundreds of letters and is circulating petitions that will be sent to

LIGHTING CONTEST

Yule Entries Needed

As of presstime Wednesday, only one entry to the Christmas Home Lighting Contest had been turned in to the Chamber of Commerce office, according to C-C Secretary Connie Skarda.

Deadline for entries has been set at 5 p.m. Friday, Dec. 18.

Last year, 23 entries were recorded, compared to 10 the year before.

This year's contest is again being sponsored by Littlefield's Chamber of Commerce in cooperation with Southwestern Public Service Company, who will provide the cash prizes.

Children and adults who reside within the city limits of Littlefield are eligible to enter, and may clip the entry blank from this issue of the Leader-News, fill it out and mail it to the Chamber of Commerce, Box 507, Littlefield 79339.

Four prizes, totaling \$100, are being given. First place winner will receive \$50; second place winner will take home a \$25 prize; third place, a \$15 prize; and fourth place, a \$10 prize.

A high score of 30 is attainable in the "artistic merit" category, in which design, composition and arrangement of elements, and color scheme will be considered in the judging.

Twenty points are possible in the "originality" portion of the judging sheet. Considered are new ideas or effects, new ways of using standard devices such as luminous plaques, candles, cutouts, wreaths, and shapes formed with Christmas tree lamps.

"Lighting techniques" could bring a score of 30 to the ingenious Christmas lighting artist, if he figures a good use for regular Christmas tree lamps, spot and flood lamps (with or without filters), or other lamps such as fluorescent, circling and reflector color lamps.

Twenty points will be awarded to the entrant who best uses his "ingenuity" in using the structure of house, in using surroundings to an advantage, in assembling the display, and in construction and installation.

MRS. RUTH WADE and Mrs. Ina Mae McQuatters, standing, and Mrs. W. H. Rutledge, Mrs. Norma Frey and Mrs. C. A. Joplin are typing letters and petitions that are being sent to North Vietnam asking for humane treatment for prisoners of war.

Gayle's GATHERINGS
 By GAYLE MILLS
 LEADER-NEWS SOCIETY EDITOR

THE CHRISTMAS TREE. symbol of the beauty and joy of the holiday season, may present problems as you try to choose just the right tree for your home, advises Everett Janne, Extension landscape horticulturist at Texas A&M University.

Proper selection and treatment enhance the long-lasting beauty of a Christmas tree, he reminds.

The first rule in selecting the freshest tree is to shop early. To determine how fresh a tree is, first check the needles. They should be resilient and not brittle when bent.

The needles should adhere when you rub your fingers down the branch. Shake or bounce the tree on the ground lightly to see if the needles are firmly attached. If only a few drop, the tree is undoubtedly fresh and is more likely to retain its needles throughout the holiday season.

Trees on the lot always appear smaller than they actually are. Since Christmas trees are sold according to height, it is economically unwise to buy one several feet taller than the ceiling at home.

Look for a tree with a uniform triangular taper. Check to see that it is free of weak, broken or unduly long branches. Also, it should have a well-filled-out look.

Once home, make a diagonal cut at the base of the tree, removing one to two inches of the base. Stand the tree in water and keep the base immersed. The tree should be stored in a cool, shady spot, indoors or outdoors, until time for decorating.

A Christmas tree with its base immersed in water will remain safe from ignition from a point source, such as a match flame, for at least three weeks, if installed reasonably fresh.

Add water to the base container daily to replace amounts absorbed by the tree. A five or six foot tree may use as much as a gallon of water a day. Low humidity found in most heated homes increases the difficulty of keeping foliage fresh.

Locate the tree so that it is not in the air stream of heating vents or near other sources of heat. Use a fire screen before a fireplace to contain flying sparks.

Keep the Christmas tree lighting system in good order. Inspect and discard wires with frayed insulation, broken sockets, and loose connections. Don't buy strings of lights

unless they have the UL label. Keep the base of the tree free from combustibles. Remove combustible Christmas wrappings as soon as possible.

REDDY KILOWATT suggests that you:

Use electric lights, never candles. Go over your lights carefully for loose sockets or broken wires. Discard sets with frayed wiring. Metal trees should have off-the-tree spotlighting only.

Use tree ornaments that won't burn and beware of metal foil icicles dangling into light sockets.

Some combinations of decorating materials may be dangerous. "Angel hair," usually made of glass wool, will not burn. Neither will spray-on flocking snow. But snow sprayed on angel hair makes a combustible combination. Read all labels on such items.

Ban cigars, pipes, cigarettes at the tree trimming ceremony.

Small children should not be left alone in the room with the tree. Older youngsters should learn not to play under or right next to the tree to avoid knocking it down, and to call an adult or teenager member of the family to turn the lights on or off.

Do not leave tree lights burning when away from home.

I HOPE these helpful tips will help to bring all of you a safe and Merry Christmas.

WHILE WE are on the subject of "trees" here's a delightful and easy idea for a centerpiece for the holiday table.

Buy a sheet of styrofoam 1 1/2 inches thick, 24 x 12 inches. Take a pencil and outline a tree on the styrofoam.

Cut styrofoam into a Christmas tree shape with a serrated edge knife, using a sawing motion.

Paint green, if desired, with green spray paint. Dry thoroughly before using. Arrange various shape pretzels in a pretty abstract design on the styrofoam, from small to large.

If you want to delight your family and friends before the holiday feast, use the remaining styrofoam to cut out small rounds for Christmas balls and stars to use as serving plates for tiny hors d'oeuvres.

Here are two hors d'oeuvre you might want to use.

CHEESE BALLS: For speared cheese balls, use garlic cheese or any other favorite cheese and shape into balls and spear on a pretzel stick just before serving.

HAM ROLL-UPS: For ham roll-ups spread slices of boiled ham with mustard. Roll ham slice around short, fat pretzel rods. Serve at once.

YOU CAN also arrange the hors d'oeuvre on the styrofoam tree instead of the pretzels.

Stock Show Board Names New Officers

The Littlefield Area Stock Show Board met Tuesday, Nov. 24 at 7:30 p.m. at the Crescent House Restaurant to elect officers for 1971.

New president is Doug Walden; vice president is S. A. Farmer; secretary-reporter, James Cook; and treasurer, Don Carr.

The show date was set for Feb. 25-27, 1971. Judges were nominated and are pending confirmation.

The board elected to do away with the sifter and led the judges do their own sifting in the ring. The money used to pay the sifter will be used to help pay mileage for the judges.

The board agreed to pay one half the cost with the County Show Board for a set of scales for the show barns.

The next show board meeting is scheduled for Dec. 15 at 7:30 p.m. at the Courthouse.

FARM-CITY WEEK The period from Nov. 20-26 has been officially proclaimed by President Nixon as Farm-City Week in the U.S. We all have a stake in the observance.

Nowhere else in the world, do some depend upon so few for their food and fiber needs. The five percent of our population engaged in production agriculture gives the other 95 percent benefits unsurpassed anywhere. And food is still the number one bargain in this country. Only 16.5 percent of our income went for food in 1969 compared with 24 percent 20 years ago.

Auto Insurance Rates To Take On Increase

By VERN SANFORD
 Texas Press Association
 Car owners in Texas got the expected bad news when the staff of the State Board of Insurance recommended a 23.4 per cent average increase in auto insurance rates.

The Board took no immediate action, but will set new rates by January 1.

If the agency holds to its past policy of allowing no increase in any line of coverage greater than 25 per cent, the staff proposal may be scaled down to an effective 18.6 per cent boost.

Earlier the regulatory body committed itself to a new rate-making formula taking into account investment income of companies and guaranteeing profit on under-writing after taxes.

Staff recommendations would build into the rate base a 4.7 per cent profit on policy writing and an 8.7 per cent allowance for state and federal taxes.

Industry representatives, still not satisfied, argued their case for a 27.7 per cent average statewide increase and removal of the arbitrary maximum change limitation of 25 per cent for any line. They claimed serious underwriting losses of \$45.7 million over the last decade.

Proposals brought angry rumbles from legislators. Sen. Oscar Mauzy of Dallas predicted that lawmakers "will not allow this economic miscarriage of justice to stand unchallenged." Rep. Joe Allen of Baytown also called the proposed rate increases "tragic."

Coleridge, Southey and Wordsworth were known as the "Ake poets."

Two Accidents Investigated

Highway Patrolman Bill Angel investigated two accidents over the weekend.

A '68 Chevrolet pickup driven by Garcia Trinidad, a ginner at the Circle Gin, collided with three calves near Olton Sunday evening.

Trinidad was traveling east on U.S. 70 about two and one-half miles west of Olton at 8:15 p.m. when his pickup hit the calves that were in the roadway. One calf was killed and the other two were crippled. An estimated \$500 damage

was done to the vehicle. A TEXAS TECH student, Larry Bruce Hines, overturned the '67 Oldsmobile he was driving when he failed to negotiate a curve at the edge of the sandhills south of Olton about 12:30 a.m. Tuesday morning.

Hines was traveling north on Highway 168, 10.7 miles north of Spade, when he lost control of the car and it overturned. Hines was taken to the Olton Hospital for treatment of minor bruises and a sprained ankle.

The car was a total loss.

HONEY GRITS

By CORNBALL BLEVINS

I'M WELL AWARE that I'm no financial wizard. (In fact, the girls that take care of my pee wee bank account say I can't even count!) But, seems to me, this thing of inflation is kind of being promoted, rather than squelched.

Let's take a fr' instance: Suppose I had borrowed \$100. from you in 1936. If memory serves me right, that would represent approximately 33 & 1/3 days work for me, at the common wage.

NOW SUPPOSE I've never repaid the loan. —But, only the 3, or, 4 percent interest charge —Today, that \$100. would represent approximately five day's work.

In addition to this, I would have to pay 8 to 9 percent to borrow this money, today.

IF I REPAID my loan today, I'd be paying you back (value-wise) at about the rate of 17 to 18 cents on the dollar! —A fair profit! —Eh? In other words, I've cheated you out of around 28 days of your life. (Providing you had worked at the same wage as I, in '36.

By the same token, let's shed a tear for the poor guy that's cut corners all these years, to put away a few dollars to retire on, about now!

LET'S TRY AGAIN. Let's say I'd rented a house to you that same year. —Our agreement being: That you may keep the first \$600 of your wages. Your rent will consist of 23 percent of all over the \$600 per year that you make.

If your wages totaled \$1200. in '36 you would have paid me around \$138 in rent.

IN 1970, under the same agreement, you'd be paying about \$1058. in rent. —Now, it just so happens that 1,058 of yur. 18 cents dollar would come to \$190.44. I'm still making \$52.44 on the deal, in real money.

You can see, then, why it's to my advantage to keep your wages up, or the value of your dollar down.

OF COURSE, you can see the impossible predicament of the government, if they (we) had to repay a 1970 model loan with 1936 dollars!

That's the reason the powers that be are keeping such a weather-eye on the stock market. Another 1929 would be unthinkable! (For the benefit of the youngsters, that was the year of the stock market crash).

WE HEAR a lot about "Wishing things could return to normal". Does anyone know what "normal" is? I suppose it would be a state of balance.

That's to say, where a day's wages would buy a days production, or, maybe, where the income balances with the cost of necessities.

ANYHO-O-O, that little nest egg we were saving up, back in the thirties, looks pretty useless, now! But, come to think of it, I hope I don't have to repay MY 1970 indebtedness with 1936 dollars!!

SNOW ON THE FIRST OF DECEMBER? Could be quite possible in Littlefield, but not in this case, where weeds were flocked by cotton lint from Lamb County Farmers Co-Op Gin. The winter wonderland scenery is one of many such scenes throughout the area, with cotton harvest nearly complete for another season.

THE ABUNDANT LIFE

It Does Matter

By BOB WEAR

IT DOES MATTER, meaning it is of some importance. Many things matter, and we human beings are compounding our own personal life troubles to whatever extent we pretend that they do not matter.

Humankind is not solving any problems or escaping any difficulties by assuming the weak and faulty spirit of abandonment.

WE MUST BE HONEST and admit that it does matter. Even when we may fall short of reaching some important goal, we must not resort to the weakness of pretending that it doesn't matter.

Of course, we must accept the disappointment in good grace.

If it is a worthy goal, even though we may never reach it, letting it continue to matter to us, in a sensible way, will bless our life.

MUCH OF THE LOSS realized by people is through the carelessness they create in their attitudes and actions by refusing to admit that it matters.

Each person who lives must think some way; talk some way; act some way; and react some way.

Too many folk tell themselves and others that it doesn't make any difference how they think, or talk, or act, or react. This life posture is one of the most tragic life defaults. Of course, it does matter.

THE MISUSED and misdirected human energy and talent is astounding, and often shocking. It does matter how you and I channel, and use these invaluable gifts.

They have immeasurable possibilities for good. We are seeing the heartbreaking, delayed admissions that it does matter. There is no good reason for so much of this to be so late coming that it is too late.

WE MUST STOP trying to deceive ourselves.

When we say that it doesn't matter to us, but we know that it does matter; we have set ourselves against ourselves in the worst possible way.

This is not the way to escape anxiety, or shore up a sagging self-concept, or create an acceptable sense of success and attainment.

WE CAN CARE without being overburdened with a feeling of hopelessness and helplessness.

Our failures can matter to us without developing an undesirable and unwanted self-concept.

We can live in the joy and strength of a reasonable sense of personal success and attainment, just because we care enough to keep doing our best.

WE HAVE BEEN CREATED to live. In a measure, we forfeit this gift of life to whatever extent we assume any of the spirit that it doesn't matter.

It does matter, and the inescapable view of our own immortality makes it imperative that we be wisely and steadfastly concerned.

WHEN WE ADMIT that it matters, we will take care of our bodies, our minds and our souls. We will work diligently to solve problems. We will be doing right by our fellowmen.

We will be taking good care of everything that is essential to the living experience.

Time will be important to us, our opportunities will be fully appreciated, we will be building and not destroying, and living will be the thrilling and fulfilling adventure it is intended to be.

IT DOES MATTER, and we must act accordingly; regardless of what others choose to do.

A WOMAN'S VIEW

He's Still God

By PEARL BRANDON

THIS MORNING when I sat down to write I didn't have a subject, nor idea one in my head and I said, "Lord, if you have anything you would like said to the public just let me know what it is. He said, "Just tell them I am still God."

That is what I am going to do this morning.

SOME OF YOU who read this column today are suffering from various illnesses. Maybe He is saying to you, come aside and rest awhile. We go at such a high pace these days and push ourselves so that sometimes our bodies cry out for rest.

Haven't you visited people in the hospital and felt like going to bed too? I have had people say to me when I was sick, "Move over and make room for me."

WHEN JESUS was here He went about healing the sick. He is just as strong today. Perhaps if you will tell Him all about your condition in a quiet place He will help you too.

Of course all of us know there comes a time in life when we don't get well. All of us have to die but hasn't He promised us new bodies and a new life in that beautiful Somewhere.

FROM THE CRADLE to the grave is such a short time at the most but in the life to come it never ends.

Sickness and death are not the only problems people have to worry about. We have many other problems, some of them financial. Our Father has a way of solving them also. He seems to say "Why have you need of so much? Why not live more simply, instead of working your heart out for finer things."

He said to us long ago, "Think not of what you shall eat, or what you shall wear, your Heavenly Father knoweth you have need of these things."

PERHAPS YOU are worried over some loved one, or something beyond your control. All I can say is turn them over to the Lord.

He can be as close to them as He is to you. Maybe this is His way of teaching them to have faith in Him and in themselves. All of us have to live our own lives and regardless of how much we would like to help solve other people's problems it has to be between them and their God.

THINGS HAVE a way of working out for the best when we go on doing the best we can and have enough faith in God to lean on Him. Sometimes we need to "let go and let God", as I heard a woman once say.

Now see what I have written without an idea in my head.

PAUL HARVEY

Not Another

CAMBODIA is in trouble. Cambodia, next door to Vietnam, faces much the same situation which recently faced Vietnam and we are responding in much the same manner.

President Nixon prefers contingency plans for evaluating crises before they develop.

WE'D BETTER evaluate this one now. Since the United States thrust into Cambodia last spring the situation for the Cambodians has steadily deteriorated. Since President Nixon took full responsibility for the consequences of that intrusion, he must feel morally obligated to rescue the Cambodians.

TOWARD THAT END, quietly, our dollar aid to Cambodia has been multiplied.

Our government persists in pretending that American planes are not flying direct support missions in Cambodia, when, in fact, they are.

THAT'S THE KIND of "unofficial escalation" which got us in over our heads in Vietnam.

Despite our \$50 million worth of recent generosity, the Cambodian government continues to demand more.

Despite the commitment of our planes, in contradiction to our President's promise, the Communists have seized two-thirds of the country and are now at the gates of the stronghold cities.

WHILE OFFICIAL Washington seeks to focus your attention on the chronic Arab-Israeli standoff in the Middle East, the Indochina situation is critical.

THE PHILOSOPHER

No-Lose

(Editor's note: The Sandhills Philosopher on his Johnson grass farm turns one of his problems over to the experts this week.) Dear editor:

You know, from time to time in between international crises and on-the-farm obligations like the time I rode my tractor eight hours straight without stopping trying to get a crop planted before it rained and made it, in fact, made it three months before it rained and the seeds never did sprout, anyway, in my spare time I have devoted a considerable amount of time to trying to figure out a way to play football with both teams winning every game.

What I'm doing is trying to preserve the sport. Like it is, with every game played, from junior high school through college to the professionals, unless it's a tie, half the fans always leave the stands disappointed if not heart-broken. The game is skating on thin ice, so to speak, like the coach who said they were trying to make a political football out of a basketball scandal.

Think, how long would Gun Smoke last if half its audience was always disappointed at the way it ended? Football is a great spectator sport, I follow it on television myself, but if they figure out some way to keep fans on both sides happy, it's in trouble.

Most Americans find reassurance in our much-publicized piecemeal withdrawals from Vietnam.

BUT MEANWHILE the Communists are squeezing the life out of Cambodia and—to a lesser extent—Laos.

In Cambodia, last time I looked, the Lon Nol government was still in control of the capital city, Phnom Penh, and Kompong Thom and Siem Reap.

YET ALL THOSE strong points are hit from inside by guerrilla raiders and periodically cut off from outside by Communist sieges.

Four of Cambodia's seven major highways have been cut off almost continuously for five months.

At Kompong Thom, a provincial capital, food is so short that townspeople have had to slaughter and eat zoo animals.

BUT IN CAMBODIA, as in Vietnam, the Communists show no inclination to mobilize massive, costly attacks on the cities. It's less costly and eventually more distressing to the defenders if the Reds hit and run and survive to hit again.

Cambodia is trying to mobilize 60,000 additional soldiers by the end of this year. No way. Already Cambodia's army includes many juveniles and some women.

NOW THE MONSOON rains are ending. Dry weather will facilitate increased Communist attacks in the northeast. More American planes will be committed and there will be pressure on us to commit American troops.

And a chorus from 45,000 flag-draped coffins cries out "In Heaven's name, not again!"

LETTERS

Continued From Page 4

North Vietnamese leader Mrs. Ruth Wade, Red said the first petition, was filled Monday and sent to the office through Tuesday.

All correspondence through writing campaign is being handled by the Lubbock Red Cross which letters and petitions on authorities.

Every concerned person encouraged to come by office and sign a letter. Persons who do not wish composing or typing a letter directly to: Mr. Xuan Thuy, the Democratic Republic of Vietnam, Box 100,000, Lubbock, Texas.

Each letter going to the will need 25 cents postage the letter to Lubbock and Vietnam.

Postage need not accompany petitions signed in the Red since the letter writing campaign Cross project.

The American Red Cross countries petitioning the North Vietnam:

1. Identify all prisoners captured.
2. Permit prisoners to write one another and with prisoner installations.
3. Allow a neutral agency to repatriate seriously ill prisoners as soon as they are able to travel.

Red Cross authorities responsibility as a organization and concern of the prisoners and their only motivation.

North Vietnam listens to

Vietnam Pa

Recent news stories concerning prisoners of war in North Vietnam have resulted from a news Hanoi on that subject, according to Thompson, officer in charge of Littlefield Post Office.

"People have become interested in the matter, and several inquiries have been relayed in scattered to the Post Office Department son states.

The information sent to the relays to the public is in paragraphs below.

1. There is no parcel post to North Vietnam. They accept mail from the United States regulations for not accepting North Vietnam are based on there is no parcel post agreement between the U.S. and North Vietnam.

2. As an exception, the authorities have allowed parcels mailed to U.S. prisoners detail Vietnam. The first occasion was Christmas Season of 1968. In December 1969, acceptances made. In January of 1970, that a continuing bi-monthly could proceed. We are still parcels in line with that program.

3. The recent news releases changes one thing only in program—the weight of a parcel Christmas 1970 and New Year period. The weight of this parcel exceeded eleven pounds. The packages sent previously and will be sent after the holiday is 6 1/2 pounds.

4. In all cases, Hanoi parcels are permitted to be sent to the families of the prisoners. Hanoi has restricted the mail parcel per family either for an occasion or, as presently observed, a definite time period.

5. The Department of Defense the decision which member prisoner's family has the right parcel. The designated next receive authorization cards Postmaster General. Only the such cards may mail parcels Vietnam.

6. Parcels have been sent through Moscow.

7. The above information parcels only. Letter mail to North has always been accepted normally through postal channels west to the coast, Hong Kong Hanoi.

8. The parcel program applied those detained in North Vietnam to establish any form of contact persons held in South Vietnam has been unsuccessful. Such course, are not in the province Postal Service.

Plains Student Councils Plan Conference

350 Students Expected

Littlefield High School will host the District meeting of the South Plains Association of Student Councils here Saturday, with about 350 students and sponsors from about 20 area schools expected to attend.

Registration will begin at 8:15 at Littlefield High School and will continue until 9, when the program is scheduled to begin. Tim Moore of Kermit, State Texas Association of Student Councils president, will speak during the morning general session.

Following the general session, eleven small group conferences will be conducted, and led by various schools in the District. The conferences will include topics on relationships between students and teachers, extra-curricular activities, fund raising, school work, communications, dress codes, student involvement, school

spirit, planning for football games, and how to keep the spirit of a losing team.

During the afternoon session, a political rally and election of officer schools will be conducted.

The four outstanding schools in the district will be announced, and the "most outstanding" school will be revealed. The "most outstanding" school will represent the district at the state convention in Austin in April.

Present officer schools are: Anton, president; Dunbar at Lubbock, vice president; Littlefield, secretary; and Morton, parliamentarian.

Four Band Students Try For Orchestra

Four LHS band students tried out for All-State Orchestra recently at Estacado High School in Lubbock.

Director of the contest at Estacado was C. Roy Wilson, orchestra director at Lubbock High School.

Judges were Richard Meek and Anthony Brittain—both members of the Texas Tech music department faculty.

WILDCAT BAND MEMBERS have been admiring their Division I Marching trophy, which was received during UIL marching competition in Lubbock Nov. 18.

Basic English Classes On New Grading Scale

The LHS English department is trying an experiment in grading in the BASIC English courses.

The BASIC English student's report card will show a grade of "P" for passing and "F" for failing.

It is hoped that this program might present a more relaxed atmosphere for those students who are having a problem in English.

This experiment applies ONLY to the basic English classes that were created as a

non college English program.

The opinions of students will be before a final decision.

"Parents, please write, phone, or call principal's office your opinion," Principal Harris stated.

Bill Clayton Is Speaker

Bill Clayton, State Representative from the 18th Congressional District, spoke at a high school assembly, Monday, Nov. 30.

the U.S. Flag and closed with "Maroon and White," the school song.

Rep. Clayton gave a talk on the complicated procedures for making laws.

He emphasized the fact that it all begins with you as a citizen, concerned for the betterment of your laws.

The assembly has opened with the Pledge of Allegiance to

"I'm going to starve to death before lunch!" How many times have you heard this statement or one like it?

Have you said it yourself recently? I have—every day in Bookkeeping.

I just wish that the word "starve" meant not eating for five hours instead of about 24. Have you ever seen those pictures of children in magazines?

Children who haven't eaten in days and probably will not be able to for a few more. Couldn't you just see your little brother or sister digging in a trash can to find something to eat, only to come up with a rotten tomato or some other tasty tidbit?

I'm not using this story to get you to eat your spinach like your mother would, but the next time you eat a Jumbo Hamburger or a T-bone steak, remember who gave it to you and thank Him for it.

FHA Chapter Sets Style Show

The Patsy Lively FHA Chapter is sponsoring a style show of fashions made by FHA members and other home economics students.

The show will be held in the high school auditorium Thursday night, Dec. 10, at 7:30.

The public is invited and 50 cents will be charged for admission.

GOD'S PSYCHIATRY

A DEVOTIONAL

By WAYLAND HUTTO

"Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you."

Any Christian can probably see several duties and promises in this Scripture.

He can see it is his duty to believe God, to serve God, to honor God, and to love God—above everyone or everything else.

A Christian knows that he will be rewarded in at least two ways if he does his duty.

First, he will be granted peace of mind.

Second, he will be granted an infinite existence in heaven.

Now, let us look at the Scripture through the eyes of an unsaved person. He immediately sees an invitation to be a "Holy Joe" or "dogooder." Wanting no part of it, he rejects the people that do. After all, he cannot really see that they have anything that he does not.

Examining these two different points of view, it is necessary that the Christian realize he is largely responsible for the attitude of the unsaved.

Far too many of us think of seeking God just as a duty and not a privilege. We place it with our other already neglected responsibilities and forget its real meaning. This is one reason Christians are misunderstood.

The other reason is that some Christians are failing to seek God's kingdom, so, naturally, they are not finding it.

What about you?

MORNING WATCH BEGINS TODAY

Morning Watch starts today at 7:45 a.m. in the auditorium.

This consists of a short devotional led by any one of the local ministers.

It has been temporarily set up on a weekly basis at a standard time so that everyone will have the opportunity to go.

Students and teachers are encouraged to attend and bring a friend.

LHS Speaks Out

By PAM BRANNON AND JOAN TIMIAN

The question this week was: "What do you think about when you don't have to think about anything at all?"

There were a lot of different answers this week but the answer we got most was "I think about the things I don't have to think about." Others said they thought about their futures and what it would bring.

Here are some of the answers the people gave:

Junior Trevino, (Soph.)—"I think about anything that comes to my mind."

Robert Rodriguez, (Sr.)—"I think of my own 'Utopia,' a world that is perfect, free of racism, materialism, poverty and war."

Marvin Smith, (Soph.)—"Nothing but girls."

Becky Kirby, (Sr.)—"I think about things when I don't have anything to think about."

Melvin Johnson, (Soph.)—"How to become someone important, and to make the world better."

Dixie Carter, (Sr.)—"All the things I don't have to think of when people make me think about something."

Jackie Howell, (Sr.)—"If I don't have to think about anything at all, I usually think about the better things in life. Things which make me feel happy inside and make me forget the bad side of life."

Edwin Culp, (Sr.)—"I think about my future and what the

world would be like to be back in about 1900."

Ann Hopper, (Sr.)—"I really can't say off hand. It depends on things that I see or hear or read each day."

Sylvester Davila, (Sr.)—"I think about what's going to happen to me when I get out of school and mostly about girls."

Gary Roberts, (Sr.)—"I think about what it's all about."

Kim Hill, (Sr.)—"When I don't have anything to think about at all, I try to think about nothing at all."

Floyd Baldwin, (Sr.)—"I think about the way the world is in such a bad condition today."

Margaret Martinez, (Sr.)—"When I don't have anything to think about, I don't think."

Jo Dee Fuller, (Soph.)—"I think about what the beach is like at this time of year and who is there. I wonder what my friends and I would be doing if I was still there. I also wonder how long I'll live and what I'll be like when I'm old."

Compost Procedures Outlined By Agent

"Have you ever dreamed of a way to loosen that tight soil in all your vegetable and flower beds?"

Organic matter can be your answer. While peat moss is certainly to be recommended, a well managed compost pile can give practically all the same benefits at a fraction of the cost.

Fall is the perfect time to begin a compost pile because, in addition to the normal clippings which you should be removing from your lawn, deciduous trees are piling up their leaves as well.

It is generally best to provide some type of retaining wall around the compost pile to prevent blowing and drying of the decaying materials.

This wall, or bin, can be constructed out of wood, soil, or stone, among other materials.

It's a good idea to have two sections in the bin—one for compost which is ready for use, and one for decaying compost.

Alternate four to six inch layers of soil and organic matter. (leaves, grass, etc.) should be added to the pile. To each 10 square feet of such organic matter layers, add one half pound of 10-20-10 fertilizer to hasten decomposition.

The top layer of the pile should always be soil, dished in the middle to catch water. Try to keep the compost moist at all times. During long periods of hot, dry weather, it's a good idea to water the pile occasionally and to keep it covered with plastic waterings.

The compost pile should be turned with a shovel or pitchfork ever two or three months. The material will be ready for use in 6 to 12 months.

Generally weed seeds either decompose or are destroyed by the heat of the compost pile before the material is ready for use.

Typical uses of the composted material around the home include in flower beds, around shrubs and trees, as a top dressing for lawns, and for house plants.

In addition to loosening a tight soil, organic matter performs many other important functions.

It allows for easier water penetration during dry periods

when soils are likely to be "baked" hard.

At the same time, organic matter can result in greatly improved drainage in a waterlogged soil.

Finally, the use of composted materials such as have been described adds to the nutrient level of the garden area.

'People who cook with pride cook with GAS. Mrs. Alex Zotos does.

Some of the world's best cooks are found in the kitchens of America, and they give themselves every cooking advantage, like gas range cooking. Good cooks like Mrs. Zotos and nine out of 10 professional chefs agree that precise temperature control makes the difference in good cooking, and with gas you get exactly that. Gas also gives immediate response and constant temperature, so important in oven cooking.

So, give yourself every advantage and cook with gas. Remember, people who cook with pride cook with gas.

Here's one of Mrs. Zotos' favorite recipes.

CHICKEN OREGANO

Mrs. Alex Zotos, 3622 Maple, Odessa

Quarter 2 fryers. Wash and dry; and squeeze juice of one lemon over pieces. Salt, pepper and paprika chicken on both sides. In large skillet melt 1 stick butter and quickly brown chicken pieces. Place in oblong pan. In butter left in pan add 1/2 cup red wine, 1/2 can tomato paste (3 oz.), 2 cups water, 1 tablespoon celery flakes, 2 cloves garlic. Bring to boil. Pour over chicken. Sprinkle about 2 1/2 teaspoons oregano over chicken. Bake covered for one hour at 350 degrees; uncover last 10 minutes for browning.

Meat and Rice Dressing

Saute 2 onions, chopped, in 1/2 stick butter. add 1 cup uncooked rice; saute together until golden. Add 1 1/2 lbs. ground round and brown. Add 1/2 teaspoon cinnamon, 1 teaspoon coriander, pepper to taste, 2 1/2 teaspoons salt, add 1/2 cup sliced mushrooms, 2 1/2 cups water and 1/2 cup red wine. Cook until done about 20 minutes. When cooked toss in toasted pecans and almonds, if desired. Serve sauce from chicken over all.

New Draft Instructions

Alter Year-End Policy

Colonel Charles M. Duncan, acting state Selective Service Director, said Tuesday that recent instructions issued to local board personnel alter the year-end policy announced last month by the Selective Service System.

The Texas Local Board No. 4 of the Selective Service System, which services this area, is located at 117 E. Ave. D in Mulshoe.

Duncan said that registrants wishing to drop deferments will be reclassified into class I-A status to take advantage of the year-end policy, have been given until midnight, Dec. 31, 1970, to file for the reclassification. Such requests may be received by local boards by that date or carry a postmark dated Dec. 31, 1970 or earlier.

These instructions alter previous policy which stated that the application had to be in the hands of local board personnel prior to a December meeting of the local board.

In particular, the instruction to local boards will be of interest to men who hold high numbers in the 1970 draft lottery.

Should a young man hold a number higher than that reached by his local board—and No. 195 has been set as the highest number which any local board can reach—it is to his advantage to voluntarily give up his deferment for a I-A classification.

In these cases, he will move to the Second Draft Priority Group on Jan. 1, 1971, rather than to the First Priority Group upon termination of his deferment.

While recognizing that young men holding lottery numbers over their local board "high" could effectively limit their vulnerability to the draft by being classified into I-A by the year's end, Dr. Tarr stated the "the law allows young men to elect whether they will apply for a deferment and those young men granted deferments should be able to drop them if they desire."

Dr. Tarr said the new policy was issued because various boards throughout the country were scheduling their last meetings of the year at different times. By defining a specific cutoff date, the new policy allows all registrants an equal amount of time to take advantage of the reclassification offer.

Previous to changing this policy on dropping of deferments, registrants holding deferments were generally unable to voluntarily relinquish them as long as they continued to meet the criteria for deferment, except at the end of the deferment period when they could cancel them simply by not submitting the necessary documents for an extension.

The types of deferments

affected by the are high school deferments, deferments, hardship deferments, The I-Y unacceptance service emergency, in this new policy I-Y are not to drop this class.

Dr. Tarr said deferments are limited generally for it is the registrant's responsibility to document his deferment.

In the absence of the memorandum boards to registrants into that registrants continue their submit the documentation boards.

Cats Bow To Mules

Littlefield's Wildcats fell into a shooting slump Tuesday night in their game with the Muleshoe Mules. The Mules ran over the Wildcats by 74-27 on the Littlefield home court.
 Sophomore J. E. Johnson was the high scorer for the Wildcats with five field goals and one free throw for 11 points. Johnson was also the only Wildcat to score in the double digits. D. Heathington was the game high scorer for the Mules with seven field goals and four free throws for 18 points.

Muleshoe opened the game shooting and canned 18 points in the initial period while Littlefield could only manage four. In the final period, the Cats could only find the mark for nine points while the Mules raced to 34.
 Littlefield shot for a very weak 18 per cent from the field. The Cats took 50 shots and were only able to sink nine. At the free throw line the Cats were also cold, hitting only 32 per cent. The Littlefield squad could only manage nine of 28 free throws. In all the Wildcats had 37 turnovers.

Amherst's Bobby Clayton, senior fullback and middle-linebacker, topped the list of Leader-News Area football standouts by landing spots on the offensive and defensive first teams. To top off those honors, Clayton was named as the Leader-News Area "Player of the Year" for the 1970 season.

Bill Adams, head football coach for the Sudan Hornets, was named as "Coach of the Year" after ending the season with a 7-3 overall record. Adams coached the Hornets to a 5-2 district record and the second place berth after losing the final game to Kress 12-11.

The All-Area teams were picked through nominations from the coaches of the eight area teams. Each coach nominated his best offensive and defensive players based on their performance in the 1970 football season.

The Leader-News Sports Department compiled the nominations and chose the players that did the best job in the different positions through the year. The size of the school and the record of the team weighed in the decisions.

Olton and Sudan each had three players on the offensive first team. Amherst followed with two on the A offense and Springlake, Anton and Littlefield each had one on the first team.

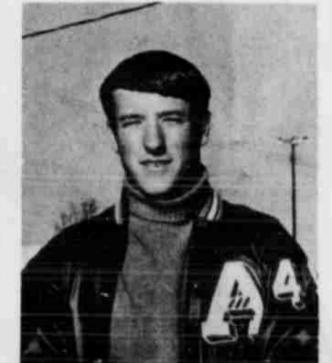

Olton, Springlake, Anton, Bula and Whitharral each placed one man on the defensive first squad. Sudan, Amherst, and Littlefield each had two on the defense.

On the first team offense, Steve Stockdale was named as the quarterback. This year Stockdale a 170-lb. junior led Olton's Mustangs to an overall 8-2 mark. The losses came in district play to Dimmitt and to the loop champs, Floydada. In the 10 games, Stockdale rushed for 216 yards and four touchdowns. In the passing department he completed 103 of 213 passes for a total of 1675 yards and 12 TD's. In all he has scored 53 points.

Along with Stockdale in the backfield is teammate Keith Workman, a sophomore weighing 191 lbs., in one of the three running back posts. Workman compiled an enviable record at Olton this year, rushing for 1387 yards on 225 carries. This is an average of 6.2 yards per carry for 17 TD's. Workman also caught 14 passes for 252 yards and three scores this season. Workman led the Olton scoring with 120 points.

Bobby Clayton of Amherst was the big gun in this year's backfield. The District 3-B fullback was named for the first time offense and defense in last year's loop poll. Besides that, Clayton was on the Honorable Mention list for both the offense and defense of the All-South Plains teams of 1969.

This season, Clayton rushed for 1486 total yards in 287 carries. This averaged out at over five yards per carry and 16 TD's and 96 points. As a defensive middle-
