no way to have a library "drop" because of the basement location.

Some grand plans are on the drawing board and the only thing standing in the way is the matter of money-\$175,000 to

Already, the Arthur P. Duggan family has donated a tract of land west of the Duggan home on W. 9th, and the Ewing Halsell Foundation has approved a \$15,000 grant providing sufficient funds are raised to build a library adequate for

present and forseeable future needs.

Another provision for the grant calls for approval by the Texas State Library board or some other organization the Halsell Foundation believes has the expertise to evaluate such plans. And the grant expires on Dec. 31, 1975 unless

construction has begun by that date. So with that date just a year in the future, the library board is pushing their fund drive aided by various civic organizations and community service

Mrs. C. E. Cooper is the "mother" of Littlefield's first library. She started the first library with 20 books in her home. Soon the library had 50 volumes and was

together and moved the library to a grocery store on Phelps Avenue where it grew until it was necessary to move the library in with a local attorney who had a large spare room in his law office.

But like a growing child, the library outgrew this location when it passed 400 books. Lack of space forced a move to the city hall.

Things got hectic about then. The courthouse was moved from Olton to Littlefield and all available space was

Since completion of the Lamb County Courthouse in Littlefield, the library has occupied its present quarters, ever increasing its volumes.

In November, 1952, the Woman's Club realized certain steps should be taken to provide for the library's future welfare. The county took over parentage of the library since residents from all over the county were using the facilities.

In August, 1956, the "adoption papers" for the 40-year-old institution were completed and all 6.451 volumes were transferred to the county. At this time "an executive estate committee" was formed composed of Mrs. C. S. Silcott of Olton, Mrs. Lena Hite of Earth, Mrs. Radney Nichols of Sudan, Mrs. Allen White of Amherst, and Mrs. C. O. Stone and Mrs. A. B. Brown of Littlefield. Several of these still serve on the

Library Board. At the present time the Lamb County library is 58 years old and boasts more than 13,600 volumes plus 200 permanent McNaughton loan books and a good

selection of magazines. Five thousand to 6,000 books are checked out each quarter.

Bob Wear made the first public announcement of plans for construction of the new library at the Woman's Club May Breakfast. Since that time the library board has been organizing and assisting with the fund drive.

Present board members include V. M. Peterman, Mrs. Ellarene Holland, Mary A. Wicker, Mrs. Beryl Vann, Mrs. Laura Hay, Mrs. Lillie Mae Silcott, Mrs. Patrician Lewis, Mrs. Bonnie Haberer, Mrs. LaVerna Thompson, Kenneth Ware, Judge Pat H. Boone Jr., Judge G. T. Sides, Paul M. White advised that his company has several sows that will be farrowing in the next few weeks, and that the property is needed as soon as possible.

The company's projected production for the upcoming year is 6,900 pigs per year, to be farrowed by 384 sows. He plans to utilize the existing buildings on the property and will build an additional 25'x180' building and steel fences and other improvements valued at approximately \$100,000.

He stated "This month has been highlighted by the initial installation of the containerized refuse collection system. The new system was placed in service in the commercial area and in two residential areas just adjacent to the downtown area.

"We have experienced a few problems with some of the larger commercial accounts, but we are confident that these can be worked out with time. We are extremely well pleased with the efficiency of the new system and can already see a reducation in overtime costs. The other two trucks to complete our system are in production although the delivery date is not known at this

"The police chief and I met with representatives of SPAG and the radio communications consultant to work out the last details of our participation in the Regional Law Enforcement Radio Communications Project. Installation of the equipment purchased should begin after the first of the year and continue until some time this coming summer. This is a long awaited program and its completion will provide better and faster communication with law enforcement officials throughout the State.

"Much time this month has been given to gathering information to assist us in making application for funds under the Housing and Community Development Act of 1974. We feel that these funds, if we are able to obtain them will allow us to do some of the projects which due to budget restrictions we have been unable to do. the Lamb County Memorial Library Fund, for construction of the new facility.

Anyone having books they wish to donate may do so by taking them to the Security State Bank or First National Bank, and placing them in a box provided for that purpose; or you may call Charles Duvall at 385-4471 and arrange for the books to be picked up. The store will be set up and operated Monday through Saturday from 9 a.m. to 5 p.m.

According to Buddy Wells, president of the Rotary Club, "All citizens may have a part in this important project, regardless of how small it may be! We invite the public to come by and browse as much as you wish."

The project is planned by the Rotarians in conjunction with the current Library Fund Drive, which is sponsored by the Lamb County Memorial Library Corporation.

Radio Tower Site Approved, Hospital Authority On Agenda

In the commissioners court end-of-themonth session, the court set aside a plot of land at the county dump ground site northeast of Littlefield for the erection of a law enforcement communications radio tower.

The tower will be part of a change over to high frequency for area law enforcement. The tower site is just west of the dump ground and construction will probably begin in January.

In other action the commissioners considered a request for office space for a child abuse case worker and considered a request to create a county hospital authority.

Starnes-Cambron Vows Exchanged WHITHA

Saturday night, Nov. 16, Marsha Ann Starnes and Jimmy David Cambron exchanged double ring wedding vows in a candlelight ceremony in the chapel of the First Baptist Church in Littlefield.

Rev. A. J. Kennemer, pastor of the church officiated.

Parents of the couple are Mr. and Mrs. James A. Starnes of Littlefield, and Mrs. Mrs. James Cambron of Hot Springs, Ark.

Presented in marriage by her father, the bride wore a white floor-length gown of candlelight peau de soie, featuring an empire waistline, high neckline, and wide lace, and seed pearls around the long train. Lace accented the collar and cuffs. Her floor-length veil was accented with a row of lace flowers around the edge, and her gown nem was accented with a wide band of lace flowers.

She carried a bridal bouquet of mums with an orchid, tied with ribbons in the colors of her attendants' dresses

Her maid of honor was Bridget Patterson, who wore a dress of apricot, designed like the bride's, except with short puffed sleeves

Bridesmaids were Deane Hitt of Lawton, Okla., who wore a green dress; Barbara Starnes of Littlefield, sister-in-law of the bride, who wore a gold dress; and Janie Starnes, sister of the bride, who wore a yellow dress.

All of the attendants wore hats to match their dresses, and carried mums tied with ribbons to match their dresses.

For "something new" the bride wore her new wedding dress, made by her mother; "something blue" was the traditional blue garter; "something borrowed and old" was a sixpence in her shoe, that was also worn by her mother at her wedding; and she wore pennies in her shoes, dated with the year of their births.

Flower girl was Beth Anne Mann of Lawton, Okla., niece of the bride. She wore a dress of apricot

Candlelighters were Tim Walker of Littlefield and Karen Cambron of Hot Springs, Ark., sister of the groom.

Best man was Richardson of Kansas City, Mo. Groomsmen were Dwight Starnes of Littlefield, brother of the bride; Jerry Cambron of Hot Springs, Ark., brother of the groom; and Bob Sherrick of Lubbock.

Kathy Wright of Lubbock sang, "More", and "We Have Only Just Begun", as she was accompanied at the organ by Mrs. A. J. Kennemer

Following the wedding, a reception was served in the reception room of the church. The bride's table was centered with the three-tiered wedding cake, decorated with yellow

J.C. Penny Presents Gift Of Music To Area Schools

Armon D. Perrin, manager of the J. C. Penney store has announced a gift of music entitled "A Bicentennial Musical Celebration" which will be presented to area high schools and colleges in late spring 1975.

The "Celebration" program, part of the J. C. Penney Company's contribution to the nation's Bicentennial, was awarded a certificate of official recognition from the American Revolution Bicentennial Administration during ceremonies held today in Washington, D. C. The "Celebration" is the first program by a business corporation to be made an official part of the nation's Bicentennial

The "Bicentennial Musical Celebration" includes 70 minutes of historic American music spanning our 200 years, and 30 minutes of newly comissioned contemporary works by American composers.

In announcing the gift, Perrin said, "Our purpose is to make this music as widely available and as useful to as many people as possible. It will be supplied to any other bands, choral groups and orchestras that may ask for it. Use will be entrely unrestricted and free of any performance charges.'

Each school in the United States will receive a box of specially arranged sheet music-enough for school music groups- to equip a complete band, chorus and orchestra. Works for rock and stagebands are included, as well.

The "Celebration" has been created in an effort to enrich the nation's Bicentennial ob servance with a reflection of American history through the music of its most representative

The band music is being programmed by Dr. Richard Franko Goldman, president of Peabody Institute, Baltimore, Md.; the orchestra music by Thor Johnson, conductor of the Nashville Symphony; and the choral music by Leonard DePaur of the Lincoln Center, New York City.

The package is now being

Gold Ownership

CONGRESS EARLIER this fall voted to restore the right of Americans to own gold-a right we have been denied since it was abridged by President Roosevelt

Throughout recorded history gold has been honored as a standard of value. Because of its universally accepted worth, it is especially desired in this era of soaring inflation when paper currency of no intrinsic value and shrinking spending power is blithely printed to cover the deficit financing of government.

DESPITE the recent action of Congress, however, voices are still being heard on Capitol Hill urging the delay or scuttling of the right to gold ownership. Ostensibly, a delay is needed to pass new Federal regulations to protect potential U.S. gold buyers from unprincipled international wheelerdealers. The anti-gold ownership rhetoric surrounding the calls for delay, however, suggest that the real intent is to kill the new law.

unless something is done between now and December 31 (the day before the law becomes effective) ... we will see in a matter of months the wreckage of our fiscal and monetary system," said Rep. Henry B. Gonzalez (D.-Texas) in a recent speech. Gonzalez also paraphrased William Jennings Bryan,

suggesting that we are about to "see our American people truly crucified on a cross of gold."

THE FOLLOWING DAY, Rep. Steve Symms (R.-Idaho) rose in the House to challenge Gonzalez. "The American people will not be crucified on a cross of gold," said Symms. "The only people crucified by the right to own gold are the deficit spenders.'

"We fought long and hard for the simple return of a basic, constitutional right which is our only protection against the legalized counterfeiting practiced by this government," Symms added. "The financial policy of any welfare state depends on the politicians' ability to deficit spend, confiscating wealth through the ravages of inflation. Only two things stand in the way of the kind of double-digit inflation we see today- an enlightened, enraged citizenry, and the right to own gold."

WHILE GOLD OWNERSHIP may not be quite the panacea suggested by Symms, it is an important move that is needed- and needed now- as a first step toward restoring the confidence of Americans in the stability of our economy. Only such confidence can lead the economy back to good health.

only for adults, you're kidding yourself. Children can be born with congenital heart defects or they can develop heart disease very early in life, according to Dr. Barney Klein of the Lamb County division of the American Heart Association.

"To many think heart diseases and the conditions contributing to them are problems to worry about only when you're an adult. Traditionally, it's been considered part of the aging process, but that's not entirely true," said the Heart Association spokesman.

HE CITED FACTS to emphasize the relationship of heart disease and the

*Approximately eight out of every 1,000 children born in the U.S. each year have one or more congenital heart defects.

*Rheumatic fever, which can lead to rheumatic heart disease, is preventable, but still afflicts thousands.

*High blood pressure is detected in some children before they reach the age of four

*Atherosclerosis (hardening of the arteries) has been found in advanced

DR. KLEIN noted that if a mother contracts German measels (rubella) during the first three months of her pregnancy, it could affect the heart of her unborn child. "That's why," he

Rheumatic fever leading to rheumatic heart disease is on the decline, but Dr. Klein sees no reason why it can't be eliminated.

POINTING OUT that poverty and poor nutrition are "accelerators of rheumatic fever", the Lamb County Heart Association spokesman noted that although drugs can be used as a preventative measure, that's not the real answer.

"The answer," he added, "rests in major cosial and economic progressbetter housing, better sanitation, better education to alert the public- and even the medical profession- to the dangers of rheumatic fever."

FOR TOO LONG NOW, too many have thought that heart diseases and con ditions which contribute to them are not something to worry about until you're well into adulthood. Yet, this is why we have nearly 27 million people in this country with heart disease and why a million die each year from heart attack and stroke.

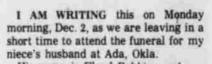

He emphasized that every human being, including infants, can develop heart disease. But with an awareness of these factors, a change in lifestyle and with help of the medical science, you can help your child's heart.

MEMORIAL CONTRIBUTIONS to the American Heart Association may be made through Carol Black at the Security State Bank and James Lee at the First National Bank in Littlefield. Cardiovascular diseases affect more than 27 million children and adults and account for about 54 percent of all deaths in the United States- more than all other causes of deaths combined. Yet, due to new developments, electronic monitoring devices, techniques and drugs, there has been a 21 percent decline in the under 65 cardiovascular death rate since 1950.

A GROUP OF CITIZENS from Altus, Okla, were in Littlefield Wednesday taking a look at Littlefield's downtown renovation project. They met with Littlefield citizens for lunch at noon in the Tasty Taco, where they were briefed on the functions of the committee and other phases of the project, then they made a tour down Phelps Avenue to take a close look. THE ABUNDANT LIFE

Be The First

IN SOME INSTANCES, in our associations with our fellowmen, it will be necessary and wise for us to wait for others to take the initiative.

It is very important for us to learn how to recognize these occasions. We learn to do this by studying what constitutes wise behavior, and this will include the un derstanding we acquire through trial and error. The point is that we can learn how to determine when it will be best for others to act first.

MOST OF THE TIME, we can feel free to make the first move; not as an exhibition of servile or exaggerated attentiveness, but as an intelligent and confident action taken because we understand all that is involved.

We will know what we are doing, and, even better, we will know why we are doing it.

SUCH ACTION may be rebuffed, once in awhile; but, in the majority of cases, the response will be satisfactory or even better. There will seldom be any reason for regrets.

We must not permit the possibility of being snubbed to cause us to hold back and wait for someone else to make the first move. Of course, when such waiting is indicated; we wait.

"I WILL IF YOU WILL" is too often the ruling attitude. I will speak, if you will; I will foreget, if you will; I will be congenial, if you will; I will forgive, if you will.

Apparently the information received was somewhat outdated or the people at A&M were not up to date on the cost of fertilizer or manure in this area. The article stated that a farmer could

get ten tons of barnyard manure spread on his farm as far as 10 miles away for about \$22 per acre— this would be half the price of commercial fertilizer. I do not know what the cost would be to

have the equivalent amount of com-mercial fertilizer, but the cost of barnyard manure for 10-ton per acre delivered 10 miles runs in the neigh borhood of \$42 per acre. This price is broken down as follows: \$2 per ton goes to the feedlot for the manure, \$1.50 per ton goes for loading and spreading, and about 70 cents per ton goes for delivering 10 miles. Tests Show Grain Unhurt By Color

Nutritional value in grain sorghum is not affected by discoloration caused by weathering, according to Jack King, research director for Texas Grain Sorghum Producers Board.

"With prolonged rains we have had this year in the Texas High Plains area causing discoloration of grain, many grain producers and elevator operators have become quite concerned because the grain is not grading No. 2," King said.

"We felt discoloration had very little effect upon the nutritional value. Therefore, TGSPB collected samples of grain from grain exchanges in No. 2, No. 3 and Sample grades. We had a chemical analysis performed on each sample to determine nutritional levels. Results showed that all samples, regardless of grade, were equal in nutritional value when discoloration caused lower grades," stated King.

Tests proved that when all other factors are normal, discoloration alone does not change the nutritional value of grain sorghum The only test which showed a

decrease in nutritional value was a batch which had been labeled Sample grade because of test weight as well as weathering. No. 2 grain sorghum is the normal trading grade. The

minimum test weight must be 55 lbs. per bushel, with maximum moisture content 14 percent. Grade No. 3 must weigh at least 54 lbs. per bushel and have a moisture level of 15 percent or

LET US TELL YOU ABOUT OUR FORD IRRIGATION ENGINES AND WE JUST MIGHT GIVE YOU ONE.

FREE.

But getting an engine free isn't the only reason for talking to us. We want to tell you why right now is the best time to buy one. GUARANTEED PRICE. There's no telling what inflation is going to do to the price of irrigation engines this spring. With our plan, however, you pay 10% down and you don't have to

worry about the price going up in the spring. PAY FOR IT ON DELIVERY. We don't tell you when to take delivery. You tell us. You can take delivery any time. January. February. March. So, you also get a guaranteed delivery date

and you don't have to pay for it until then. GET THE IRRIGATION ENGINE YOU NEED. We have the 300 CID 6-cylinder and the 428 and 534 CID 8-cylinder engines. This is the best part. Because you get the best irrigation engine on the market. Ford. Unlike most irrigation engines, ours have been modified for irrigating. Not for cars and trucks. Because of that, they're more durable so they're more economical to operate. Very simply, they're designed to save you time and money. And these days, that's exactly what

you need. WE JUST MIGHT GIVE YOU A 428 CID. FREE. Come by right now. Let us tell you about our irrigation engines and register for a free 428 CID. There's no purchase necessary and you don't have to be present at the drawing to win. Registration ends January 31, 1975.

But don't let that keep you from booking your engine early. If you go ahead and buy one, and your name is drawn, we'll give you your money back.

Come by right now. Any way you go, you're a winner with Ford.
