War Times—Tyrone Power as the reckless American flier and curvaceous Betty Grable as the dancer in Great Britain sing, dance and romance to the background of war in "A Yank in the R.A.F.," playing today and Monday at the Ritz. One of the spectacular episodes of the film is a reproduction of the British evacuation at Dunkirk.

Reward—Billy Conn, the lad who all but took the heavy-weight fight crown away from Joe Louis, won a reward by getting a steller role in "The Pittsburgh Kid," feature for today and Monday at the Queen theatre. Here Billy gets a more personal reward—in the story—from Jean Parker.

WTCU Says That Moderation Is Deceptive Idea

The theory of moderation in the use of liquor is not only false but deceiving was clearly pointed out in a speech delivered in the United States Senate by the late Senator Sheppard, on January 16, 1931, when he said:

"We are told that moderation is better than prohibition. . . The answer is that the operation of machine power, the basis of modern civilization, calls for prohibition of intoxicating liquor, the steady nerve, the firm hand, the unclouded brain. Who wants to ride upon a modern train with a moderate drinker for an engineer? Who desires to become a passenger in an automobile with a moderate drinker for a driver, or in an airplane with a moderate drinker for a pilot? Who would feel secure on an ocean liner charging in the darkness and the storm with a moderate drinker at the wheel and a temperate indulger on the bridge? Who would willingly submit to the knife of a moderate drinker for a surgeon? . . . If prohibition of alcoholic liquor is essential in the winning of a baseball game, how much more essential is it in winning the greater game of life!" (Submitted and published at request of local WTCU).

Cowbirds do not build nests but lay eggs in nests of other birds, which unknowingly raise the cowbird young.

The thrilling story about Britain's flying fighters, "A Yank in the R. A. F." comes to the Ritz theatre today and Monday with the acclaim of being an outstanding film, with action dominating the well paced story. Star Tyrone Power is magnificent as the Yank; Betty Grable is grand as his American dancer sweetheart.

All the skill of Director Henry King was used to make the exciting scenes stand out. And there are plenty that do—the Dunkirk evacuation done as only 20th Century-Fox's Production Chief Darryl F. Zanuck can do it, with the cast of thousands performing realistically to provide the year's top battle scene; the dog fights which were actually filmed by the R. A. F. in action; a tense fight in a British bomber flying high over Germany; dive bombers attacking fleeing boats.

Tyrone Power gives his finest performance as the bored Yank who is anxious to go into action. A brash, flippant young man, he again has the kind of role which demands — and gets — superb setting. And Betty Grable, in her first dramatic role, shows that she is tops as an actress. In addition to her dramatic scenes in which she excels, she sings and dances to two new hit tunes by Leo Robin and Ralph Rainger, "Hi-Ya Love" and "Another Little Dream Won't Do Us Any Harm."

The thrilling story follows the Yank pilot as he joins the R. A. F. Bored by the instruction he must take and the discipline of the corps, he rebels and incurs the enmity of his commander. Losing the love of his dancing sweetheart, he sets the stage for the stirring smashing climax high in the clouds over Dunkirk.

John Sutton, as Tyrone's commander and rival in love, Reginald Gardner, as the pilot who can never get a girl friend, and Gladys Cooper, as a flier's mother, give excellent support. Darrell Ware and Karl Tunberg wrote the exciting screen play. Lou Edelman was the associate producer.

"A Yank in the R. A. F." is an absorbing picturization of England's fliers at work—and at play.

Farm plan sheets for 1942 were received Saturday by the Howard county AAA office, marking the last step pending the start of the Food-for-Freedom campaign in Howard county.

Starting Monday, a full force of clerks will begin typing information on the blanks pertaining to past records of the farms, acreage allotments, etc., and then, at a date yet to be fixed, every farmer in the county will be contacted to fill in his plan sheet.

These plan sheets, outlining the program of operation for the farm in 1942, will include pledges of increased food production for the nation's part in the war effort.

L. H. Thomas, county AAA committee chairman, and M. Weaver, administrative officer, said that contacting of farmers for filling in plan sheets would likely begin the last of the week. Definite date is yet to be fixed, however.

DINNER FOR 10—One squaw and eight little papooses will get their share of this 367-pound bear bagged by "Big Jake" Bannister, a Chippewa Indian guide who lives near Fort William in Ontario, Canada. Huntsmen seeking bear and moose in the Fort William area tell of Big Jake's strength, say he carried this bear five miles through the brush.

Philadelphia Mint Speeds Up
PHILADELPHIA—A demand for coins has caused the Philadelphia Mint to increase its producing capacity by "at least 100 per cent." Superintendent Edwin H. Dressell said that more than \$400,000 worth of new equipment was being installed and a \$187,500 expansion program underway.

Memos About

Smart shoppers want to find, for Christmas gifts, something that is distinctive, something that conveys the personality of the giver, without being unnecessarily expensive. We know of nothing that fits this requirement better than a portrait of yourself.

Christmas may seem like a long way off to you (it isn't, really), but good portraits take time. You must choose your own convenient time for a sitting; selection as to poses must be made; and expert printing, touching and mounting must be done.

You want your gift portrait to be the best possible. We would appreciate an opportunity to show you that we can satisfy you. And we would like, for your sake, to have sufficient time to do an expert job. Won't you call for an appointment?

Experiment Farm Gets Calves For Feeding Tests

Delivery of 50 calves to be used in the annual feeding tests at the U.S. Experiment Farm is scheduled for Wednesday, Fred Keating, superintendent, said Saturday. The animals are being bought from Foy Proctor at Midland, and likely will come out of the herd of Tom Nance near Midland. Proctor had contracted for the calves earlier in the year.

Gay Moore, Sam Saha, arrived Saturday to assume his duties as feeder at the farm this year, Keating announced. Moore is a graduate of Texas A.M. college and will replace Jot Smythe, who resigned after several seasons as a feeder to direct feeding operations for a packing company at Littlefield.

New Location Made In Dockrey-Robbins

COLORADO CITY, Nov. 1. (Sp) A new location for the Dockrey & Robbins field of northwestern Mitchell county was announced this week by Echols & Fentress, whose No. 2 L. A. Strain will be drilled 330 feet from the south and east lines of Geo. J. Reiger subdivision 14.

A completion was F. W. Merriek No. 3 E. T. Strain in Reiger subdivision 10, drilled to 1,767 shot with 300 quarts from 1,640 to 1,762. It produced 219 barrels in 24 hours on the pump.

Continued rainy weather and muddy roads were still holding up activity on several of the county's new wildcats. Ownby No. 1 Morrison in section 34-29, T&P, was at 2,845 in lime, fishing for tools.

The birth rate for England in 1940 was 14.8 per 1,000, a decline of 2 per cent from 1939.

Business Picture Spotted In Month

The seasonal upswing and the defense pinch vied with each other here during October to give a spotted business picture, a survey of building permits, postal receipts and new passenger car deliveries showed Saturday.

The brightest spot was that of postal receipts. Postmaster Nat Shick reported a total of \$8,070.47 for October, a new record for the month and the greatest ever recorded for any month save for a December. The total was well ahead of the \$5,737.12 for September and led the \$7,461.55 for October of 1940. For the year postal receipts were ahead by \$3,900.

New passenger car deliveries for October rallied, but over-selling before models changed and cramped deliveries because of the defense program held the total to 62 for the month. This was far ahead of the 38 for September but sharply under the 106 for October of 1940. However, 1941 still holds a 149 advantage over last year. October new commercial trucks stood at nine.

Building lagged again during October, new construction totaling only \$14,150, which was up from the \$10,958 for September but far under the \$22,835 for October of last year. Included were six residential permits for \$8,280 and four new commercial jobs for \$4,375. Construction for the first 10 months of the year was around \$88,000 under the same time for 1940.

Thirteen Cloudy October Days Make Crop Harvesting Hard

Thirteen cloudy days that yielded 2.31 inches of rain explained Saturday why October had not been exactly an ideal month for harvesting the county's bumper cotton and feed crop.

While the amount of precipitation was by no means a record, it did rank the past month with the wettest October over a 40-year span.

Greatest amount of precipitation in one day was the 1.07 inches on Oct. 1. The night of Oct. 24

and the following morning brought 1.58 inches. Nine days during the month produced more than .01 of an inch. Eleven days brought fog.

Maximum temperature for October was 89, the minimum 33. Mean maximum was 70.7, the mean minimum 57.5, the mean 67.2 degrees. Precipitation for the month brought the year's total to 21.15 inches, nearly two inches more than the annual average and five inches more than the 1940 total.

The report was furnished by the department of commerce weather bureau at the airport.

Watch Oddly Hidden 10 Years

PARKERSBURG, Ia. — Ten years ago J. R. Strickland lost his watch with chain attached. Recently his wife took a long-nosed dust bag from an old vacuum cleaner and tossed it in the junk pile. Elbow School Crowns Queen

FORSAN, Nov. 1 (Sp1)—Lee Lu Vanlandingham, daughter of Mr. and Mrs. W. H. Vanlandingham of Elbow was crowned high school queen Friday night. Paul White was her escort.

Flo Marie Thieme, daughter of Mr. and Mrs. Alfred Thieme, carried honors for grade school and she was escorted by Jerry Green. James Craig served as master of ceremonies and the orchestra played the coronation music, directed by Eleanor Martin. A trio composed of Sybil Jo Claxton, Evelyn Monroney and Marion Russell sang. Mrs. Bill Conger played the piano accompaniment.

The queen's attendants were: Etta Ruth Molder escorted by Bobby Leonard, Mary Ann Huddleston escorted by Zane Branham, Gwendolyn Oglesby escorted by Donald Gressett, Juanita Smith escorted by Don Cooksey, Wanda Nell Griffith escorted by Harley Grant, Mary Margaret Spivey escorted by Claude Couch. Halloween costume prizes were won by Lois Ray Craft, Lee Ella Dee Craft and Robert Moore.

Total receipts from Halloween carnival netted \$298.12. Bingo prizes were awarded by Forsan and Big Spring merchants.

REA Asks For High Priority

Efforts to get a priority rating from OPM for materials needed to complete the REA extension project in Midland county are underway, O. B. Bryan, superintendent for Caprock Electric Cooperative, said here Saturday.

With nine miles of the 27-mile job complete and energized, work has been at a standstill for more than a fortnight.

Forms are enroute here for application to OPM for priority rating for copper wire, Bryan was advised by Rep. R. E. Thomason of the 18th congressional district. Bids for the request will be that some 25 dairies near Midland will be served by the line and that some of this production will be needed to furnish the bombardier unit there. The Caprock cooperative had enough wire on hand to handle six miles of the job and work of stringing this may get underway soon since the new airport for Midland has been located a mile and a half north of town. The REA line will be dropped a mile to the east to avoid paralleling the field on its boundary, said Bryan.

There is no indication when wire for the B project, for which contract has been let, will be forthcoming. Unless there is some monthly allocation of materials effected, this may be many months coming.

Here And There

M. L. Merrick, son of Mr. and Mrs. S. M. Merrick of Big Spring, has been named for the 1941-42 edition of "Who's Who in American Universities and Colleges." He is one of 22 Southern Methodist University students chosen for the honor. Merrick is a senior engineering student, president of Theta Alpha Omega honorary engineering fraternity and vice-president of the SMU student chapter of American Society of Civil Engineers.

If Saturday seemed a little dull from a business standpoint, it was for good reasons. Recent rainy spells have kept pickers out of fields so often that many slept upon the beautiful weather of Saturday to get in a good day's work.

Fowl pox (scrubhead) is spreading through poultry flocks in this area and if not checked may result in heavy losses to poultrymen. L. W. Bramblett, field representative for the Sweetwater Cotton Oil Co. said in a communication Saturday. Birds can be vaccinated against the malady as a preventive but not a cure, he said. The chick vaccine is effective for a long period of time, but it frequently curtails production. The pigeon vaccine, he said, is effective for two or three months but does not affect production, hence is recommended by Bramblett for this season of the year.

Among hospitals in this area approved by the American College of Surgeons are: Abilene, Hendrick Memorial Hospital; Lubbock, Lubbock Sanitarium and West Texas Hospital; San Angelo, Clinch Hospital, St. John's Hospital, and Shannon West Texas Memorial Hospital.

Workers, whose wages for 1937 were not correctly reported to the Social Security Board, have the remainder of this year to request a change in their wage records for 1937, said Robert M. Mayne, manager of the Social Security office here. The law allows a four year period after the year the wages in question were received for workers to obtain a correction of any error that may occur in his wage record. A statement of wages can be obtained from the board, said Mayne. The office here will furnish a card for obtaining the information.

Germ Threatens Giant Cacti
TUCSON, Ariz.—Discovery of a germ which threatens extinction of giant cacti in southern Arizona has been announced by Dr. J. G. Brown, University of Arizona plant pathologist. Brown said he had succeeded in discovering the type of disease affecting the saguaro and had found at least one insect carrier.

The department of commerce estimates that about 17,000,000 mechanical and absorption refrigerators are in use in the United States.

Four Public Safety Officers Assigned Here

Four new department of public safety men have been assigned to the Big Spring office.

Patrolman Earl Haynie and Patrolman Underwood are to be stationed here, Haynie permanently and Underwood for two months as a substitute for L. P. McCasland, who will go to the patrol's training school in Austin to teach marksmanship.

Perry Dawson and John Phillipus have been assigned here as drivers license examiners.

The drivers license examiners will be in the Big Spring office each Monday, Thursday and Saturday from 8 a. m. to 5 p. m. to issue licenses, and in various other towns in the area the other three days of the week.

Come Early Stay Late

A citywide drive will soon be on for funds for Salvation Army and Red Cross. You may not have a surplus of cash yourself, but surely you can spare a few coins for those stricken by the direct ill fortune. This is not cold "charity"; it is brotherly love in the truest sense.

There are many occasions through the year when you are brought to a realization of the misery others suffer in this world. Not the least of these miseries is poverty, dependence—not because it is ignoble, but because human dignity is made sad by it . . . When you are asked to GIVE, remember that one of the things regular thrift permits you is more generous giving on such occasions. Save each week—and be able to give without "pinching" when you sincerely want to give.

DOING A GOOD TURN—An 18-mile-an-hour wind is needed to turn the 175-foot blades of this new windmill electric generator atop Grandpa's Knob at Hubbardton, Vt., which, builders estimate, should generate enough current to supply 2,000 homes with its 1,000 kilowatts at 2,400 volts. Its position on a peak 2,699 feet above sea level promises constant wind.

Crop Damage By Weather Encountered

Ginnings of Howard county cotton neared the 25,000 bale mark during the past week, and clear, warm weather on the weekend gave promise of rapid continuance of the harvest.

The five Big Spring gins had turned out 11,218 bales of cotton late Saturday afternoon. Production of other gins in the county usually more than equals that of the city gins, so it may be estimated that 25,000 to 26,000 bales of cotton have been ginned in the county to date.

All indications are that the crop will amount to 40,000 bales in the county. County Agent O. F. Griffin said not more than five-eighths of the crop had been ginned. He said the majority of farms are picking as much as three quarters of a bale of cotton per acre, with some exceeding a bale. There are about 60,000 acres planted to cotton in the county.

Griffin also reported that damage to maize and other feed crops was less than had been feared in some quarters. Little if any standing in the fields was sprouting, although some shocked fodder was sprouting and showing signs of decay.

Fields of maize are amounting to an average of one ton of heads per acre, said the county agent, with some crops producing two tons.

Cotton graded lower, local buyers reported, as a result of repeated rains over the county. However, continued clear weather may cause much of it to bleach out again. Most of the cotton picked during the past week appeared to grade strict low middling, but some continued to rank strict middling.

The cotton picker situation appeared moderately well in hand, the Texas State Employment service having placed 15,000 hands through its Big Spring and Lamesa offices and many others being on the job without benefit of TSES. Some farmers are continuing to call for men, however, hoping to beat bad weather to the crops.

In England the cost of living rose approximately 25 per cent between the outbreak of war in September, 1939, and July 1, 1941, according to the Ministry of Labor.

New Buildings add to the evidence of progress being made by the East Fourth Baptist church as pastor. Above is the new Boy Scout hut with its four patrol meeting places, 16 lockers, tables and fireplace; below is the North Nolan Mission, sponsored by the church and erected by the Brotherhood. Plans are underway to make a three-room addition to this structure. (Ferry Photo).

Ector County Well Sets New Record Flow

SAN ANGELO, Nov. 1.—Opening of a third Permian lime oil producing spot in the Abell area in northern Pecos county, where principal production is from the Simpson, middle Ordovician, sand, and a new record 24-hour flow of 7,167.03 barrels, for the Foster field in Ector county featured West Texas oil developments this week.

Pecos county's indicated latest Permian strike was Stanolind No. 1 Louis Rathjen in the northeast part of the Abell. During the last minute of a 40-minute drill stem test through a half inch bottom hole choke from 3,948 to 3,950 feet, the total depth, the test flowed oil at a rate estimated at 50 to 75 barrels hourly. Seven inch casing was run for cementing. Location is 660 feet out of the northeast corner of lot 14, section 26-9-H&GN, two miles northeast of the Abell Ordovician discovery and five-eighths mile north of Stanolind No. 1 Simmons, a Simpson sand producer bottomed at 5,455 feet.

Ray Albaugh and Richmond Drilling Co. No. 1 J. J. Handley, northwestern Dawson county wildcat, in section 36-M-EL&RR, drilled plugs from 5 1/2-inch casing cemented at 4,788 feet and was due to deepen from 4,977 feet in lime. It had changed from rotary to cable tools.

Anderson-Prichard and Osage No. 1 Clayton & Johnson, Borden county wildcat on a Pure farmout in section 1-1-John DeShazo, had passed 2,770 feet in hard lime. M. L. Richards No. 1 W. R. Drum, Borden county wildcat 11 miles northwest of the Sharon Ridge pool in Scurry county, ran 7-inch casing, with the total depth 2,854 feet in lime.

Members of East 4th Church Observe 2nd Anniversary Of Rev. Dunham's Pastorate

Members and friends of the East Fourth Baptist church will review achievements of the past two years today as the pastor, the Rev. R. Elmer Dunham, observes his second anniversary as minister for the church.

Even as the church participates in the anniversary occasion, plans will be shaping up for dedication of two new buildings—a scout hut and a North Nolan Mission plant, both erected at an approximate cost of \$4,000 without incurring indebtedness.

Today the church also launches its annual campaign for subscription of a \$10,000 budget for the fiscal year, which includes \$1,500 for mission as did the one just finished. The church also will be raising the last \$50 toward a \$321.70 goal as a birthday mission gift.

The church has come a long way since some members out of the First Baptist organized it in 1913. Mr. and Mrs. S. H. Morrison and M. H. Morrison have been extremely active all the time and the late Mr. and Mrs. Hart Phillips were staunch supporters. For more than a dozen years the church has been in a new home at 4th and Nolan streets. Curiously, the plant accommodating 650 was undertaken by a membership of 66.

Today it has a total membership of 1,246 and an active, resident membership of 1,010, the largest in the city. During the past two years a total of 596 have been added, of this number 208 by baptism. The establishment of the North

Nolan Mission stands as one of the most recent achievements. It originated out of a vacation Bible School held on the spot by A. E. Lightfoot, now pastor of the Smith Chapel church near Odessa. Using an old building donated by the Robinson chapel near Midway, men of the E. 4th Brotherhood refurnished the structure and added a roof. W. W. Nowlin, a traveling salesman who was converted at the E. 4th church, has returned to become pastor and superintendent of the Mission. Currently, plans are underway to add three rooms to the structure.

Adjoining the church is the Boy Scout hut recently completed at a cost of about \$1,500. It contains space for four patrol rooms, 16 lockers, work tables for machine tools, and a big fireplace—making it the best troop meeting place in the city.

The Rev. Dunham came to Big Spring from Santa Anna and after three months as district missionary was called by the E. 4th Baptist congregation. He is president of Baptist district No. 3 (composed of the Lamesa, Big Spring and Mitchell-Scurry association), is district vacation Bible school leader, and is associational Sunday school chairman.

Homemakers Area Meeting To Come Here

Big Spring was awarded the 1942 conference of the Future Homemakers of Texas as the one-day area No. 3 conference concluded in San Angelo Saturday.

The area conference, which attracts approximately 1,500 students, will be held here on Nov. 7 next year.

John Anna Terry, president of the local Homemakers, was honored with election as recording secretary for the area, and Shirley June Robbins led in one of the sectional meetings. Invitation to the group to meet in Big Spring in 1942 was extended by Gloria Nell, who made use of telegrams sent by J. H. Greene for the chamber of commerce and Mayor G. C. Dunham.

Attending from here were Mary Ann Cox, Betty Newton, Gloria Nell, Betty Jo Pool, Josephine Carr, Maybelle Johnson, Doris Jean Glenn, Dorothy Moore, Shirley June Robbins, and John McIntosh and El Alexander for the boys unit. Lillian Jordan and Fern Smith, homemaking instructors, accompanied the group to San Angelo.

THE BIG SPRING DAILY HERALD

PAGE TEN

Big Spring, Texas, Sunday, November 2, 1941

Twirler—Billy Frances Shaffer, pictured here, is mighty nifty with that baton of hers. Each Friday, between halves at the football games, Miss Shaffer, with the band and other drum majorettes performs such difficult feats as the one she demonstrates here. Billy Frances, who is red haired and vivacious really "loves that baton" and works all the time to get proficient. She learned the art her first year in high school when a teacher interested her in taking a try. Since then she has twirled in snow and sleet, in rain and sunshine and yet the thrill and novelty hasn't worn off yet. She's already won one state medal and has her eyes on other fields, both this year's state meet in Abilene and then she hopes — national meet in Waco. (Photo by Kelsey).

Twirler Says—

It's Not Such A Bad Feeling To Drop That Baton After All

How does it feel, before a crowd of thousands of people, to throw a baton into the air—and drop it. According to Billy Frances Shaffer, daughter of Mr. and Mrs. W. L. Shaffer, and baton twirler par excellence, it's sort of a relief. When it's happened, you can relax a little.

However, Billy Frances seldom has this occur to her when she goes through the stunts between halves at the Big Spring high school football games. A veteran baton twirler of three years, she has not only mastered the technique of basic movements but has also invented some of her own.

One of her original ideas and a trick that never fails to amuse onlookers is rolling the silver baton down her leg through her legs and never stopping its twirl. If you have ever tried to do a simple figure eight with a baton you can appreciate this.

Billy Frances attended high school at Yaleta her first year where a Miss Louise Bolton, now instructor of the Cowgirl band at Hardin Simmons, Abilene, interested her in learning how to twirl the baton.

So quickly did she learn that the second year of high school she was named majorette. She came to Big Spring this fall for her junior year in school.

Proof of her ability is a medal that she won last year at El Paso in the state contests when she placed second.

At first twirling is hard work, according to Billy, and she had to practice about three hours a day to perfect herself. Now she practices with the band each Thursday night at the auditorium and sometimes outdoors on the lawn of her home.

The red-haired student's specialty is aerial work, that is, throwing the baton high into the air and catching it. She doesn't know just how high she can throw her baton. "Once I threw it about as high as the lights at the football stadium—but I didn't catch it," she laughed.

Among the more difficult stunts in twirling is doing the splits and bends while keeping the baton twirling and Billy Frances has mastered these feats too.

Since the old adage "practice makes perfect" still holds good, Billy is working hard these days. She plans to enter the state contests again this year at Abilene and if she's good enough—then there's always the national meet to be at Waco this year.

Churches Begin Busy Week Here

Observance of an anniversary at the East Fourth Baptist church, plans for a city-wide laymen's meeting on Thursday, and efforts to raise feed donations for an orphan home stand out in church news for the week.

At the East Fourth Baptist church today the second anniversary of the Rev. R. Elmer Dunham as pastor will be observed as the congregation inventories accomplishments during the period.

Baptists in general will be faced with an appeal to contribute feed stuffs toward a supply for the Hecker's Orphan home at Dallas in order that the institution's pig crop will not have to be sacrificed on the market. The home's feed crop failed this year and unless friends contribute enough feed stuff, the pork supply of the home may go wanting. A committee has been appointed to canvass Baptists of Howard county for donations.

Thursday 300 or more laymen are expected to gather in the basement of the First Baptist church for a "Men and Missions" program sponsored by the Big Spring Pastors' association and to be staged exclusively by laymen.

Purpose of the program will be explained by Dr. G. H. Wood and W. C. Blankenship will deliver the address of the evening. Cliff Wiley is to preside and music will be directed by Irby Cox. C. E. Stewart and Buck Tyree will offer the prayers. The laymen's mission program is being held ahead of the national date on Nov. 16 to avoid conflict with the Northwest Texas Methodist conference here.

During the past week an agreement was reached to observe Nov. 27 as Thanksgiving in Big Spring, and the pastors association has started planning for the annual union Thanksgiving service.

At the Church of the Nazarene, the Rev. Ernest E. Orton, pastor, will speak on "Our Confidence in God" at the morning hour and "To Whom Do You Belong?" in the evening service. The women's trio, will sing at both services. Reports from the assembly at Wellington will be heard.

The Rev. J. P. McBeth, Dumas, who last year taught the Book of Romans in an associational Bible course here, will fill the pulpit of the First Baptist church in both services.

"Building for the Future" will be topic for Rev. Homer W. Halslip at the First Christian church in the morning hour when he reveals a program of advance for the local church. A study of the Christian faith of an outstanding artist, musician, writer and statesman, will be discussed in "The Faith of Some Great Americans," the evening subject of the Rev. Halslip. In the morning the choir, under Herschel Summerlin, will sing an anthem, "I Will Praise Thee."

The Rev. Robert E. Bowden, Main Street Church of God pastor, will speak on "The Man Who Made a Fool of Himself" in the morning hour and on "Take Heed What Ye Hear" at the 7:30 p.m. worship. The Young People's unit has arranged a special program for 7 p.m.

At the First Methodist church, the Rev. J. O. Haymes will preach at the morning hour on "Is the Church Still Needed?" and at the evening service on "Not What But Whom." Mrs. Jessie Mae Peters will sing "The Holy Hour" at the morning service.

Cunningham And Philips Have 22nd Anniversary

A partnership that has not only lasted but thrived for more than a score of years will have an anniversary this week for Shine Philips and C. W. Cunningham.

This marks the 22nd anniversary of their entrance into the drug business in Big Spring. Curiously, they still are doing business with their No. 1 store at the same location they had when they acquired a drug business from E. Reagan back in 1919.

Currently, they operate two stores—one at the Main Street location and one in the Petroleum building. They had five stores under their charge in the 22-year period, and half a dozen druggists in Big Spring and surrounding area have come from the ranks of Cunningham & Philips employees.

FSA Offers Aid In Food Program

Financial assistance is available through the Farm Security Administration for small farmers who need supplies, equipment and repairs to enable them to contribute to the Food-for-Defense program. Dr. D. Kindrick, county rehabilitation supervisor, said Saturday.

Working under the direction of the state and county USDA defense boards, of which FSA is a part, the agency is ready to make loans to qualified farm families to step-up production of needed foods. Long time loans are available for a great many purposes. Increased production and improved home consumption will be encouraged by the FSA rather than expansion of the farm unit.

Among assistances which the FSA may furnish are: Loans for purchase of silage cutters, grinders, binders and other equipment; shelter for poultry and livestock; purchase of livestock and poultry; equipment for canning and preserving, cellar construction, milk coolers, shelves, etc.; development of water supply, installation of pumps, windmills, supply tanks, pipes, etc.

There are loans for other purposes, too, said Kindrick. Farm families interested may contact him at his office in the basement of the postoffice building.

Jubilusca Scores Marked Success

The Kiwanis club's annual Jubilusca show was recorded as a booming success Saturday night, following two nights' showing to big crowds.

Estimated gross income was between \$500 and \$600, including about \$500 at Friday night's record show.

Exact net profits of the venture will not be known for several days. Profits will go into an underprivileged children's fund.

Dr. Malone Returns

Dr. F. W. Malone, who has been attending medical meetings in Chicago and who stopped at Wichita, Kas., to get his plane, arrived back here Saturday evening. He abandoned plans to attend another meeting in Boston. Mrs. Malone was due to arrive here Sunday. He flew his plane in from Wichita, where it had been recon-ditioned.

Five Killed As Army Plane Falls

FINDLAY, O., Nov. 1 (AP)—A twin engine army bombing plane, its motors roaring, fell out of mist-filled clouds and exploded in a cornfield today. Five men testing automatic flight equipment were killed.

The ship, out of Patterson field at Dayton, dropped to the ground at a 45-degree angle on the farm of L. L. Clymer, 10 miles southwest of here. With flames leaping from the cabin, it bounced along the ground for a quarter of a mile, ripping up 100 feet of wire fence.

RAF RAIDS WIDESPREAD LONDON, Nov. 1 (AP)—RAF pilots, rising up and down Britain's blockade front from Norway to the Bay of Biscay last night and today rained bombs and torpedoes into 11 or 12 axis ships and left fire and wreckage in France and Germany, air ministry reports said.

There are more than 2,500,000 bicycles in use in Sweden, or five for every 12 inhabitants.

British Spurn Turk Mediation Hint

LONDON, Nov. 1 (AP)—A hinted offer of peace mediation broadcast from Ankara by President Ismet Inonu of Turkey today drew chilly thanks from Britons in high places.

Inonu told the Turkish parliament in a speech broadcast to the nation that the country's joy would be "unbounded" if it "could one day become the source of peace which the world awaits and needs."

Expenditures for industrial construction this year is estimated by the department of commerce at a billion and a half dollars, an all-time high.
