## Gold Star Winners Named, Others Lauded

By JOELLA LOVVORN

Jennifer Templeton of Earth and Rodney Logsdon of Littlefield were honored as Gold Star Girl and Boy for 1974 Saturday night during the annual Lamb County 4-H Achievement Awards Banquet, held in the Junior High School Cafeteria.

Mrs. Peggy Bales, organizational leader of the Amherst 4-H, was lauded in recognition of "Outstanding Leadership" in the county; and "Meritorious Service Awards" were presented to Art Foley of Littlefield and Lewis Fields of Sudan.

"Alumni Recognition" awards were presented to Ray Joe Riley of Springlake, Peggy Bales of Amherst and John Bridges of Earth, who "have provided youth with living examples of dependable, purposeful citizenship."

Serving as master of ceremonies for the banquet was Brian May of the Sudan 4-H Club, and mistress of ceremonies was Cindy Moss of the Sudan 4-H Club.

Joe Foley of the Littlefield 4-H Club led the "Pledge of Allegiance" and the "4-H Pledge", prior to the welcome address by Jennifer Templeton of the Earth-Springlake 4-H, and the introduction of the special guests by Cory Logsdon of the Littlefield 4-H.

Logsdon also introduced the representatives from each of the 4-H Clubs in the county who presented reports on the year's activities. Jamie McDaniel reported on activities from the Amherst club, Debbie Spencer reported for Littlefield, Rodney Smith made the report for Olton, Jim Fields reported for the Sudan club, and Dawn Branscum reported for Earth-Springlake.

Special speaker for the night was Joe Brown, farm and ranch director for KDAV radio in Lubbock. He encouraged the boys and girls to "be aware of the responsibilities God has placed on us. Each of us is responsible to others around us. If we have a negative pessimistic, or beaten attitude and outlook, we will breed this same attitude in others; simply because people are watching... they want to see what you are made of."

"We have a far greater influence on others than we sometimes realize, therefore we have to be careful. God has placed us here for a purpose, and that purpose is far more serious than we make it out to be sometime. And, because he has placed us here, how much more we need to depend on Him for guidance and direction in our day-to-day living."

Brown continued, "We are in a difficult time. People, young and old, are needing answers. Instead of bad-

mouthed our leaders, we need to uphold them in prayer. That means our President, Congressmen, state and local leaders, our 4-H leaders, and our parents.

"Most of all, we need to tell the truth. Sometimes the truth hurts, but in the long run, it heals. 4-H'ers in the present times have to exude an atmosphere of freedom, rather than an attitude of defeat or confinement. We first have to be set free ourselves. We have to give all our worry and anxiety to the One who can handle it. If we try to go it alone, we are defeated. When we have this victory, then we can listen to others, and if they are down, lift them up."

A highlight of the thoughts he expressed was: "Do not bring condemnation on yourself. Do not think that you or your project is not important. You have to purpose in your own heart to see it through; to make it happen."

Mrs. Dorothy Powell, county extension agent, introduced the Gold Star Girl. She stated, "In presenting the Gold Star Award this year, we recognize a girl who has been a 4-H member for 7 years. She has carried and completed projects in Foods & Nutrition, Clothing, Junior Leadership, Beef, and Method Demonstration."

"She has served her club as President, Secretary for 2 years, and Treasurer. In addition she is presently serving as 1st Vice-Chairman of the 4-H Council and District Council Delegate."

"Some of the activities she has participated in include: Rally Day, 4-H Fair, State 4-H Roundup, District Elimination Contest, Stock Shows, County and District Food Shows, Awards Banquet, Leadership Workshop, Dress Revue, and attended the Citizenship Short Course and Heritage Tour."

Special Awards she has received include: Achievement, Beef Cattle, Foods & Nutrition, Clothing, Homemaking 1 and 2 Awards, high point individual at 4-H Fair. In addition she exhibited the Reserve Champion Angus at the Springlake-Earth Livestock Show.

"She also participates in many activities at Springlake-Earth School. These include: FHA, Student Council, Pep Club. She has served FHA as Secretary and Parliamentarian, President of the student Council and Pep Club, and was named Miss FHA."

"She is Jennifer Templeton, daughter of Mr. and Mrs. Gene Templeton of Earth."

Jim Kuykendall, assistant county extension agent, introduced the Gold Star Boy.

## Methodists Slate 'Country Store', Turkey Supper

The annual Littlefield First United Methodist Women's Bazaar will be held today in the form of a "Country Store" and "Bake Shop", and is being held in conjunction with the annual Methodist Men's Turkey Supper served at the church tonight.

Store hours will begin at 2 p.m. and run through 8 p.m., while the supper will be served from 5 to 8 p.m.

The "Country Store" will feature a variety of hand-made items including stitchery and crafts, and there will be a variety of home-made goodies in the "Bake Shop".

A new cookbook has been printed and will be for sale.

On the menu for the supper will be turkey and dressing, giblet gravy, sausage, green beans, bread, candied yams, cranberry sauce, pumpkin pie, and tea or coffee.

Tickets for adults are \$2.50 and for children under 12, \$1.50. The public is invited.

## Commissioners Court Declares Disaster Area

Neil Wood from the Farmers Home Administration met with the commissioners court Monday to ask the court to request Governor Dolph Brisco to declare Lamb County a disaster area due to the drought last winter and through the first eight months of the year, excessive rains in August, September and October, and hailstorms in the northern

portion of the county. In presenting the request, Wood used rainfall figures compiled by John D. Harmon. According to these statistics, the drought began Aug. 1, 1973 and continued through July 31, 1974 and included the entire county. Lamb County received 7.54 inches of moisture during this period compared to 18.8 inches normal rainfall.

Lamb County received 17.8 inches of rain in August, September, and October when the average rainfall is four inches.

In addition to the unusual reversal of rainfall distribution, Wood's report said the north part of the county received severe hail June 3 of this year and other portions of the county received hail June 11 and 12. Further, the northwest portion of the county received a freeze Oct. 15th compared to the normal Nov. 4 freeze date.

After compiling information from cotton gins, elevators, farmers, ranchers and lenders from Lamb County, the County USDA Emergency Board compared this year's crops to the normal value of crops in this county according to information received from the 1973 Agricultural Statistics of the Texas Department of Agriculture.

Based on these figures, the board showed a 40 percent loss to cotton and grain sorghum crops in this county, a 30 percent reduction in cattle herds and a 40 percent loss due to sale at light weight, loss of price per hundred weight, and drought conditions.

The court adopted the resolution. In other business Monday the court approved the purchase of three new cars for the Lamb County sheriff's department. A bid of \$10,183.35, plus trade-ins, from Armes Chevrolet was accepted.

Pete Peterman met with the court after lunch to ask for financial help in building a new memorial library. No official action was taken, but the commissioners indicated they would continue to help with the book inventory and pay the librarian and assistant librarian.

Routine matters of paying county and precinct bills and accepting various county reports filled the full agenda.

## School Board Discusses Relatively Short Agenda

The Littlefield School Board of Trustees disposed of their mostly routine agenda in short order Monday night with official action taken only on the minutes of the previous meeting, the approval of the financial statement and the changing of the meeting time to 7:30 for the December meeting.

Items under discussion, but which no action was taken, included a proposed central office building, participation in the Plan A Program and personnel salary increases.

## Four Arrested, Tools Stolen

Three were arrested Monday and charged with the felony theft of radio equipment out of a truck. They were Ronnie Posey and Wallace Posey of Littlefield and Donal Isbell of Coleman.

Bonds were set at \$2,500 each. A Littlefield man was charged with driving while intoxicated Friday, a Lazbuddie man was charged with carrying a pistol and bond was set at \$1,000, and an Amherst man was charged with check law violation.

The theft of a tool box and tools valued at \$100 and \$200 were reported stolen from Arthur McLeland while his pickup was at Littlefield Delinting Plant.

## THINGS AREN'T SAME AS IN '71 Inflation Means...

RODGERS note: Last week Littlefield students provided some of their ideas on how people spend their money. Many of the students discussed the subject of inflation. So this week we asked the Amherst fourth graders to discuss inflation, and this is what they said.

RODGERS may spell it inflashin, but inflation means sugar and candy costs a lot more. You don't buy much of it, you buy a lot of it, and you get many places.

RODGERS MAKES PEOPLE SICK. Inflation means that people have been having more babies and old people have been living longer.

McLeland thinks inflation is a sickness - "one who spreads it makes people sick." My sister and brother give me a lot of money and it is going at all in your pocket. My sister knows exactly who is spreading inflation when it comes to my family.

RODGERS WADDY GRIPES. Inflation means the heat, clothes and shoes are more expensive. My daddy, because he is getting old, he always has to buy new shoes every month.

McLeland thinks inflation is a crisis like the gas shortage and all that. "We can't go anywhere with todays crisis. Things aren't the same as in 1971."

the recent presidential lecture to clean their plates or admonitions from parents, they are aware that wasting food is sinful.

"Don't waste food," a fourth grade girl wrote. "Like if you have left overs, don't give it to the dog unless it's spoiled. I eat left overs to show they are good."

POPULATION EXPLOSION? "Inflation is like a balloon blowing up and getting bigger," Larry Sawyer wrote. "Our family has 'inflated' by babies being born. And by getting one dog and then finding another one."

"Inflation means the population is growing," Randy Morris wrote. "The thing with my family is that people have been having more babies and old people have been living longer."

Maybe he is a little confused in his definitions, but he has a solution: "If we can lower prices, farmers can grow more food. And then we can help other people and help ourselves at the same time."

CAN'T GO PLACES. Harley Bass doesn't like inflation. "What it has done to my family is: we can't do as much as we used to, we can't go as many places," he wrote. "I wish we'd never had anything like this. I don't like it!"

A boy who signed his paper Leroy said inflation is a crisis like the gas shortage and all that. "We can't go anywhere with todays crisis. Things aren't the same as in 1971."

Three years ago he would have been a first grader. How is that for going back a few years?

Amy Brownlow said inflation means her family doesn't get to buy as many things, "and that we can't just wear things out in a week. By inflation we have learned to take care of what we have."

SOON WE'LL STARVE. The fourth graders have heard various prophets of doom. "Prices are going up so high you have to be rich to even buy sugar, bread, lunchmeat and candy," Mandy Clark wrote. "Nearly every day it goes up. Pretty soon we will starve."

And then there are students who get inflation mixed up with television serials and unemployment.

"Inflation doesn't help my family because there's no work," Rosa Martinez said.

"I think it is something that comes on T.V. I think it is some kind of story," is Frances Gonzales' explanation.

"I think it is real and it is bad," Jay said. My sister is mad. She is mad.

The fourth graders may misspell the word and confuse it with infection, unemployment, and population explosion, and television soap operas. Even then, some of their definitions, explanations, and suggestions are no worse nor better than some from Washington experts.

**Hedges-Webb Vows Exchanged**

Barbara Jan Hedges, daughter of Buddy Hedges of Roaring Springs and Ann LaGores of Lubbock, and Stephen Webb, son of Mr. and Mrs. Alvin Webb of Littlefield, exchanged double ring wedding vows Friday night, Nov. 8, in the home of the groom's brother in Lubbock.

Officiating was Hank Scott of Bacon Heights Baptist Church in Lubbock.

Pat Hedges presented his sister for marriage, as the couple stood before the altar decorated with a large candelabra holding yellow candles and entwined with ivy, and a large bouquet of mums and lilies.

Attending the couple were John C. Smothers, Mike Domino and Barbara Kayser.

The traditional three-tiered wedding cake, punch, nuts and mints were served from the bride's table; and devil's food cake and coffee were served from the groom's table.

They are now at home in Littlefield, where the groom is associated with his father in the accounting business.

The groom is a 1969 graduate of Littlefield High School, and graduated from Texas Tech in 1973 with a Bachelor of Business Administration and Accounting degree.

The bride is a 1970 graduate of Springlake-Earth High School, and is presently attending Texas Tech as a junior elementary education major.

**Assuring A Power-full Future And A Sound Environment**

That's why we plan ahead . . . we want you to be secure in the knowledge that you'll have enough electricity to fill your needs in the future. This weekend we'll be opening our Jones Station to the public so you can see how we do it. We have a new unit at the largest electric generating station in West Texas, with a turbine control system that's the first of its kind in the world. This unit brings our total system capability to 2,255,100 kilowatts!

We're also concerned about the environment . . . that's why we use reclaimed water at Jones Station . . . and we're experimenting with various crops using the reclaimed water after it's used in the power plant.

At Southwestern, we don't want you to waste electricity . . . but we want to make sure that you have it when you need it!

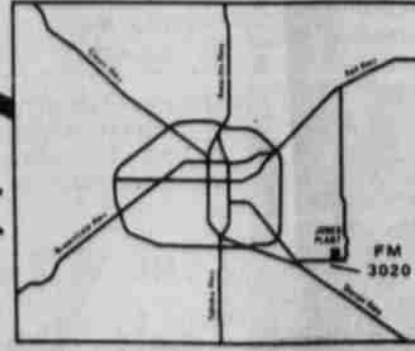

Water conservation is a big part of our plant operation.

**OPEN HOUSE**

# CLIPS & TIPS

By JOELLA LOVVRON

IT MAY BE TRUE that you can't tell a book by its cover, but in the near future you will always be able to tell the exact components of a frozen prepared dinner by its package.

That's the word from the USDA and the FDA.

Earlier this year they issued "Common Or Usual Name" labeling regulations which will standardize carton graphics elements for all frozen dinner brands as a service to consumers, effective Jan. 1, 1975.

Several cartons are already beginning to reflect these changes.

Illustrative of "Common Or Usual Name" packaging: cartons are to show:

"Each component is to be prominently listed in descending order, by weight, next to the dinner's variety name (in lettering half the height of the variety name).

"The word "Dinner" is to appear only as a part of the variety name on the carton.

"The ingredients statement and company name and address are to occupy a space on the back panel instead of the front riser panel.

Swanson has already simplified heating directions. At the time of conversion to the "Common Or Usual

name" format, all dinner cartons will indicate a 400 degrees F. oven temperature for heating. It will no longer be necessary to make adjustments to the aluminum foil overlay after the dinner is placed in the oven. Dinners are heated 5 to 10 minutes longer.

What's more, a four-color illustration of the dinner will be included on the back panel as a handy reference for before-heating foil adjustment.

Swanson believes that these changes add up to substantial consumer benefits in both the purchase and preparation of frozen prepared dinners.

IT'S FRUITCAKE-MAKING time, and the fun of baking is a big part of pre-holiday festivity.

Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, take a look at the holiday tradition of fruitcake baking—and buying.

"One big question is whether to make your own or buy one," she notes. Good quality ready-made fruitcake is a boon for busy homemakers. They come in all sizes—by the slice, in 8-ounce, one pound, one and one-half pound, up to five pound and over sizes.

DARK OR LIGHT FRUITCAKES

CHOICES RANGE from dark to light types of fruitcake, with both kinds full of fruits and nuts—or for families who like just a hint, the fruit and nuts may be lightly scattered through the cake.

"But whichever type you choose, read the label first to make sure you buy what you intended to buy. Prices for ready-mades usually depend on the amount of fruits and nuts they contain. The more nuts and fruits, the higher the price," Mrs. Clyatt said.

COST OF HOME BAKING

THE SPECIALIST pointed out that if you make your own, cost depends on the recipe.

"Check costs of the ingredients before you bake.

"Of course, costs don't consider your time, patience and the cleanup—or your satisfaction."

CANDIED FRUIT CHOICES

CANDIED FRUITS are a necessary part of fruitcakes and a welcome addition to pies, cookies, breads and salads. As you look over the selections of candied fruits, you may want to compare the price with the cost of preparing your own, Mrs. Clyatt suggested.

Some choices are citron, lemon peel, orange peel—available in glace form, covered with a light coat of sugar, or in drained form, with all the surplus sugar removed. Also cherries are packed whole in glace form, colored green and red.

"Mixed fruit contains four or five diced fruits such as citron, orange peel, lemon peel, pineapple and cherries. Pineapple, packed in glace form as fingers, slices and diced, colored red, green and yellow is available."

Candied fruit comes in four-ounce containers, but can also be found in larger vacuum jars, cello-packs and bulk containers. The specialist suggested you consider the total amount of candied fruit you will need for holiday baking and buy it in the larger packages—usually more economical.

Stores usually stock candied fruit to last only through the holiday season since the demand is small during the rest of the year, the specialist said.

HOW TO BUY NUTMEATS

NUTMEATS are an important ingredient in fruitcakes of all kinds and there are do's and don'ts for buying them.

## THE ABUNDANT LIFE Solve Problems

THERE ARE PROBLEMS, and we know that there will continue to be problems. All of us know that this is so. What shall we do? We can be upset; or resentful; or even hostile; but if we react in these ways we have increased our problem load. Obviously, we do not want to do this. There are better ways to consider and deal with them.

It seems that many of us are hurt and discouraged, because we have faulty expectations; some sort of notion that we should not be having problems.

WE MUST FACE REALITY: the reality that problems are part of the living experience for everybody. We must also realize that some of them can be difficult; some are major and some are minor; but all are problems.

If we try to escape our problems, we are creating the biggest one of all. This means that we are making our life situation much more difficult.

UNNECESSARY PROBLEMS must not be created, because there will be enough problems in the most wisely conducted manner of life. If to these regular ones, we add those which can be caused by carelessness; bad judgment; and the like, we are endangering our personal effectiveness.

Regardless of the number or difficulty of problems, we must not let them stamper us to overwhelm us. Some of them can be solved, and it may be that solutions can be found for all of them. Of course, in some instances, we may need assistance. If so, we should obtain it.

ALL OF US HAVE PROBLEMS which will solve some of them, working for the solutions to find a tolerable way to live in spite of those about which nothing.

PROBLEMS ARE HERE to be with some condition our minds this fact graciously; because living includes continued solving.

THERE ARE NO problems but we can, for the most part, how we respond to our problems.

termology. Chairperson Counciling? No sweat but world will people understand talking about my mother-in-law say, "Parent-in-law"? I suddenly realized that I had mother, sisters, nor brother kinspeople. I'd become an insa IT!

I TRIED TO write a few sentences, just for practice, but was stumped before the missive even got off the ground—Aunt?—Sis? Yes, I could substitute the word Houseperson for my mate, even went through Mailperson with ease. I had no trouble using child when addressing my son. But when it came to referring to in-laws and my parents' relatives, things began to get pretty fuzzy. Uncle?

LOOKS AS IF I'll have to go back to school to learn this new language or

FAIRLY ENOUGH, I realize equal rights, also means responsibilities. It was difficult enough to remember who'd cooked last meals, made the last vacuumed the floors at our house. Maybe time about is fair (mused) But when it dawned which of us had given birth to five kids, I nearly became a case!

# Turn Row COMMENTS

By EMIL MAC

THERE HAS BEEN a lot of complaining of late as regards to the shrinking paycheck. A lot of people are getting into the act, trying to pinpoint

Mrs. Clyatt's suggestions are:  
—Buy unshelled nuts that are clean and free from scars, cracks or holes.  
—With shelled nuts, look for kernels that are plump and meaty, crisp and brittle, and if used for garnish—uniform in size and color.

—Unshelled nuts are often, buy not always, less expensive than shelled nuts.

—To compare costs: two pounds of unshelled tree nuts make one pound (three to four cups) of nutmeats.

"The small, recipe-size packages are generally more expensive than the 'holiday baking' size (one pound) packages," the specialist pointed out.

BAKING, GLAZING, DECORATING

"BAKE FRUITCAKES in foil pans, individual-size glass casseroles, or even in tiny muffin tins. Glaze and decorate them after they've cooled. You can bake them in clean, well-washed coffee cans for unusual shapes," she added.

"For a handsome glaze, heat corn syrup to a full, rolling boil and spread with a pastry brush over the top of the cake. Decorations of nuts and red and green maraschino cherries will cling tightly if first dipped on one side in powdered sugar icing before arranging on the cake," Mrs. Clyatt said.

CARE OF BAKED FRUITCAKE

WRAP THOROUGHLY cooked fruitcake tightly in plastic wrap, then heavy aluminum foil.

"You may want to brush the cake occasionally with fruit juice or cider. Or you can saturate a cloth in the liquid, wrap the cake in it first and then overwrap with plastic wrap. Four to six weeks will complete the mellowing of the delightful fruit flavors," she said.

After the fruitcake is well-seasoned, a home freezer or refrigerator is ideal for storing it. Just be sure the cake is freezer-wrapped, she reminded.

FOR WHAT it is worth, be husband in hot water is one who sure he'll become hardboiled.

### Wildcat Gridders Undergo Surgery

Two Littlefield Wildcat gridders underwent surgery this week as a result of injuries to their knees.

Junior tailback Bill Turner underwent surgery Saturday for ligament damage to his right knee suffered in the Olton game, and junior fullback Rick Hopping underwent surgery Tuesday morning due to cartilage damage on his right knee.

Hopping first injured his knee in the Muleshoe game earlier in the season.

Of the injuries, Coach Jerry Blakey stated that it was too early to tell, but the knees should respond favorably with proper treatment.

In speaking of the Olton game, Blakey stated, "Olton played very good both offensively and defensively and did a fine job all the way around. We have no alibis, no excuses, they just beat us."

### Sheriff's Posse Sets Playday

## 293 = 4,665 = Thanks To Our Customers

In the last two weeks we've been honoring our long-service employees . . . 293 of them with a combined service of 4,665 years . . . and with individual service for periods ranging from five to 45 years.

And this seems like a good time to recognize the confidence that you, our customers, have in our employees and in our Company. We, all of us, appreciate the understanding you have shown in recognizing that, like everything else, our costs of providing electric service have increased . . . and that makes it necessary to charge more for electricity. Inflation, higher material costs, higher costs of the fuel we use to make electricity . . . even the higher costs of borrowing money all account for higher costs of your electric service.

But, so long as we are expected to have electricity ready for you the instant you turn on a switch . . . to meet your year-around demands for electricity to keep your homes and businesses liveable . . . then there's just no other way. Increased costs must be reckoned with.

We have good employees . . . all trying to do the best job they know how, and so it's in order for us all at Southwestern Public Service Company to say, "Thanks," to our customers for their understanding . . . because your understanding of our problems does make our jobs that much easier.

FITS ON STANDARD RIMS

NEW 78 SERIES brings its road steadiness and high flotation to pickups. This broad, burly truck tire fits standard rims. Put more tread on the road without replacing rims. Tough Massive Tread and Shoulder resist the cutting, chipping and gouging of rough surfaces and road hazards.
