M.P. THEDFORD RETIRES

years of farming ends with chant of auctioneer

Forty-six years ago, M. P. Thedford bought out a farmer's complete farming operation for \$260 and started

mules southwest of Littlefield.

From that meager start in 1930,

FARM EQUIPMENT sold for as much as \$19,000 for a tractor down to as little as \$2.50 for a tire and wheel. One set of duals sold for \$800. This photo shows only a small portion of the farm equipment sold in the M.P. Thedford sale Wednesday.

THEY CAME from far and near to bid on the farm equipment that covered two acres on one of the M. P. Thedford farms. Auctioneers Cruce and Dulin said this was the largest individual sale they had ever held. Checks given for sale items came from all over Texas, and from Nebraska, Colorado, and Arizona. [Staff

Thedford spread out his farming operations to span 3,150 acres in this area (plus a sizable amount near Bovina for a time.)

Wednesday, all the equipment he had accumulated to farm more than 3,000 acres went on the auction block. The farm sale took place down a dirt road west of Lums Chapel not very far from the farm Thedford rented and farmed with his team 46 years ago.

The display of equipment looked like a farm show at a big fair. Even stacked pretty close together, the tractors, trailers, planters, sweeps and all the odds and ends of farming

equipment took up two acres of land. Among the items for sale were two late model eight-row tractors and complete sets of eight-row equipment. three six-row tractors and four sets of equipment, a 6600 model combine, 34 cotton trailers and four flat bed trailers

The crowd assembled to bid on the equipment resembled a throng at a large fair. Pickup trucks lined both sides of the road for a half mile in either direction.

Hot dogs, sandwiches and cold drinks were dispersed from a fully equipped food van.

But in place of the hawkers of side show events and carnival attractions, the droves of Khaki and Levi clad farmers congregated around the fast talking man auctioning off the equip-

The chant of the auctioneer's voice, amplified with battery powered loud speakers, filled the air.

In the background tractors motors purred like giant cats as farmers climbed up in the cabs and gave tractors a sound test.

The auction started at 10 a.m. and lasted for seven straight hours without a break. Buyers came from as near as the adjoining farms and from as far away as Corpus Christi, Rotan and Irving. Before sunset, only a few scattered pieces of equipment remained.

Thedford said the following morning when he went out to the farm where the sale was held, he viewed the emptiness with mixed emotions. 'T've spent my whole life in this community

southwest of Littlefield," he said.

In 1974 when chisel sweeps and plows were so scarce, Thedford bought all the available new sweeps he could find. That was the year following the '73 crop bonanza year, and he wasn't even thinking about retiring

So there were more than 200 new sweeps that sold in the Wednesday

Thedford said in 1974 he lacked \$84,000 making enough to cover his expenses. But it was not being able to find the right kind of hired hands that

made him decide to sell his equipment, rent his land and retire.

"It was the labor situation that ruined me," he said. "I just had so much trouble getting and keeping good farm hands that I decided to quit.

Thedford didn't make that decision until this past December. "And I spent a lot of sleepless nights after I decided to sell out," he added.

When his hired hands found out that he was going to sell out, they all quit

Contestants from all over the State will be competing for the title of Miss Texas Teen-Ager.

Each contestant accepted will be requested to participate in the Volunteer Community Service Program of the National Teen-Ager Pageant. This program teaches teen-agers to share and to participate in school and civic affairs. A mini-modeling charm course is given in conjunction with the pageant.

The winner of the Miss Texas Teen-Ager Pageant will receive a scholarship, other prizes and an all-expense paid trip to compete in the Miss National Teen-Ager Pageant in Atlanta, \$10,000 in cash scholarships will be awarded at the National

Contestants will be judged on scholastic achievement-leadership, poise-personality and beauty. There is no swim suit or talent competition.

Each contestant will recite a 100 word "Essay" on the subject, 'What's Right About America'

Miss Duvall is sponsored by Producers Co-op Gin of Amherst. Her hobbies include sewing,

Representatives from Amherst and Anton were present and agreed to pay part of the cost of the consultant. The two neighboring towns are also facing stiff phone rate increase proposals.

Bill McMorries of Amarillo will study the General Telephone proposals and recommend action to the city council. McMorries' fee will be about \$1,500

The Texas Utilities Commission will have the authority to set phone rates beginning in September. The hiring of McMorris will probably delay any rate increase for at least several months.

General Telephone's last rate increase totaled about 20 per cent and went into effect in July, 1974. GT had sought a 53 per cent hike in rates.

GT asked for this rate increase last November. The proposed increase is about 25 per cent.

The phone company has proposed two different increases. A one party business phone would jump from the present \$14.30 per month to either \$20.30 or \$22.25.

A one party residence phone would climb from \$6.80 per month to \$7.80 or

Mayor J. E. Chisholm said that the rate increase did not take into account long distance charges or service charges and therefore General Telephone had not clearly presented the total picture.

Present from Amherst were Mayor See PHONE, Page 2

To The **EDITOR**

February 20, 1976

Mr. Jerry Tidwell, Editor Lamb County Leader-News Littlefield, Texas 79339

Dear Sir.

Residents of Lamb County have been led to believe that in the near future Medicare would not pay for the hospitalization of a Medicare patient if this patient were admitted to a hospital owned by physicians. The following letter from the Social Security Office of Program Evaluation and Planning in Baltimore, Maryland, clearly indicates that this is not true.

February 12, 1976

Mrs. Louise Landers, Administrator South Plains Hospital and Clinic P. O. Box 487 Amherst, Texas 79312

Dear Mrs. Landers:

This is in response to your inquiry as to whether or not there has been any legislation recently passed or introduced that would prevent Medicare payment for a patient who was admitted to a hospital by a physician who owns or has financial interest in that particular hospital.

Because we were not aware of any such legislation, we presented your question to the Social Security Office of Program Evaluation and Planning in Baltimore, Maryland. After considerable research that office advised us that it is unaware of any legislation such as you have described.

If we may be of further assistance, please let us know.

We would like to take this opportunity to express our sincere appreciation to the staff of the Lamb County Leader-News for the coverage they gave on the Beta Sigma Phi Valentine

We would also like to thank local businesses who contributed in different ways to help make Alpha Lambda Zeta's, "Spirit of '76" dance a success. Pazaz, Security State Bank and Connell's Office Supply donated door prizes. Furrs donated food for an hors d'oeuvres table, and Chisholm's Floral loaned the archway and beautiful Valentine decorations for the presentation. All of these people are greatly appreciated.

THE AMHERST HOTEL

The Amherst Hotel was erected in 1921 by the Halsell Cattle Company to house prospective land buyers and guests of the Halsell family.

Early home builders and prospective businessmen lived here while getting established in their business. Traveling salesmen and school teachers, doctors, lawyers, merchants, etc., took advantage of this, the most hospitable hotel in the West.

This building was not only a marvelous hotel of many nice and inviting rooms, together with a spacrous lobby, and dining room, and kitchen second to none. It was enjoyed and appreciated by all that came this

Banquets, dances, and all kinds of gatherings from far and wide made this their headquarters. The Roaring 20 s fashion was pompadore hair, silk shirts, wide ties and bell bottom trousers for the men. Short marcelled hair, short skirts, and rolled silk stockings was the new look for the modern flapper.

The charleston, two-step and schottische, together with the Tennessee Waltz, and occasionally a few squares were the big dances of the day. Prohibition had the liquor deal sewed up, and only a few bottles of home brew and corn liquor were to be had. But law and order always prevailed and good time was had by all.

The Post Office, bank, drugstore, doctor's office, lawyers office, barber shop, land office, and office of the Justice of Peace were all connected to the hotel lobby.

Being the most convenient and

nicest hotel on the South Plains, and the day of the traveling salesman, the Amherst Hotel was the traveling man's home away from home.

Roy and Marsha Gilbert were managers and operators for several years, and gracious hostesses they were. Another early day operator was Mrs. McFalls, a real live wire and promoter. She managed and operated the establishment for many years; and surely helped to make the hotel famous. She is retired now and lives in Roswell, N.M. She was loved and honored by all who knew her.

Then in later years, Mrs. Clara Moreland took over the management and no hotel had a better matron. She was attractive and just the kind of person who was appreciated and respected:

The Gartons operated the Ranch

Style Kitchen where family type meals were known far and wide. Everyone in town and the country came here to eat. The Lobby Sign read:

All Rooms with Bath-\$2.00 Meals, family style, all you can eat-\$1.25

Among honored guests that stayed there were Will Rogers, Tom Waggoner, George Mahon, Charlie Guy, and many others.

The Hotel burned in 1952. Fire equipment from Littlefield, Sudan, Anton, and Earth, came to help fight the fire, but to no avail.

Fond memories will long remain of this famous old inn that added much to the history of Lamb County.

Incorporated area towns get \$12,566.23 () tax rebates

Comptroller of Public Accounts, Bob Bullock, announced that a total of \$12,566.23 in city sales tax rebates have been returned to Lamb County incorporated towns thus far this year. Net payment to the city of Littlefield

was \$7,665.37. Returns to Olton have totaled \$3,342.08.

The city of Earth received \$973.05 and Amherst got rebate checks for

\$585.78 Bullock mailed monthly city sales tax rebate checks totaling \$11.3 million to 741 cities and towns Friday, bringing to \$22.7 million the amount rebated to cities so far this year.

At the same time, Bullock issued a word of caution to the hundreds of organizations formed to celebrate the nation's bicentennial.

"Many of them don't realize that if they sell trinkets or souvenirs, they've got to have a sales tax permit and collect and remit sales tax," he said.

The Comptroller said the confusion may exist because the legislature exempted from the sales tax certain purchases made by Bicentennial

"No tax is due on items they buy and actually use themselves in commemorating the country's 200th birthday," Bullock said. "But the things they sell to other persons- belt buckles and hats and flags, for example - have got to be taxed."

He said sales tax permits are easily obtained at any of the Comptroller's 36 district offices around the state.

50 head livestock shown by county youths at El Paso Show

A record number of Lamb County youths participated in the El Paso Livestock Exposition last week. No one placed in the top and none made the sale, but the participants gained valuable show experience.

Fifteen head of steers were shown. Thirty-four lamb were taken. Brad Pierce showed the only barrow.

Dean Walden placed sixth with his steer. Scott Carter had two steers to place sixth. Others from Littlefield showing steers were Gary Birkelbach and Jeff Birkelbach.

Tony Lopez, Mary May, Brian May and Daryl Roberts of Sudan all showed steers. Roberts placed 11th. Cary Sawyer of Earth exhibited a steer.

In the lamb divisions, Jeff Birkelbach placed sixth. Scott Carter placed 10th, and Kevin Riley placed 11th. Other sheep exhibitors were Cary Sawyer, Steven Bearden, Ronnie Bearden, Jodie Riley, James Humphreys and Kelly Tooley.

covered his house had been broken into and his belonging carried off, he was talking to Feagley. Feagley noticed that Beadle had the same kind of matches that had been in Davilla's possession when he was booked. Davilla was brought down from his

jail cell, questioned about the house burglary and admitted that he and a juvenile brother had broken into the Beadle house on two nights previous to taking the car from the church parking lot. In addition to the car theft, Davilla

It's always best to give the technician the symptoms, leave the car with him, with instruction as to tell you what is required before he proceeds with the repair. - Indeed, it's better to pay for diagnosis time than trying to bluff the fellow into thinkin' you know as much as he does about automobiles.

THE DEDICATED technician takes pride in his work. He's as anxious to turn out a good job, as you are to get one. Few customers return to tell him how well their car performs, since he worked on it. I suppose there's little wonder there's so few of the dedicated kind anymore.

A Banker's Viewpoint....

The picture of a dog chasing its tail is a time-worn illustration of futility

But the dog may rate somewhat higher on the anti-futility scale than his master, if you consider the stupid chase of "wealth" by all mankind through the empty process of inflation. The dog at least seems to enjoy chasing his tail. No man can draw pleasure out of inflation, which is merely a human brand of chasing futility.

This 'was brought out just the other day in a report by the federal Census Bureau. The bureau made a study of the earnings of Americans, along with the effects of inflation, between the years 1969 and 1974.

The study found that although in dollar figures average Americans made far more money in 1974 than they did in 1969, the buying power of what they earned was almost exactly the same.

The higher paychecks brought by inflation didn't reduce poverty either. The number of people classified as living below the poverty level remained about the same. Inflation, in fact, doesn't do anything good for anybody, except perhaps politicians, who seem to think they win votes by sponsoring inflationary federal spending programs.

One large item regarding inflation that apparently the Census Bureau overlooked is the damage it does to our international trade. Every time inflation shoves up the dollar price of goods, the less of these goods we can expect to sell abroad. Fewer sales to foreign nations mean fewer jobs in this country.

Up to now inflation in other countries, whose politicians are even wilder spenders than ours, has kept our world trade, and our balance of payments, from becoming a complete monetary tragedy, as far as international commerce is concerned. But that gives us no real cause for cheer.

If our federal budget were balanced, and kept that way, the prices of our goods, at home and abroad, would not continue to be escalated by inflation and climbing taxes. As a result we could consistently undersell less prudent nations while bringing profits to our industries, new income to our government, and

jobs for millions who need them. This is only simple arithmetic. We wish the majority of our congressmen and senators could comprehend it.

We believe in this country and its people. Like the writers of our Constitution, we believe that the strength and the real intelligence of government originates with the people. So we urge all our citizens, here and elsewhere, to do our part-keep up with public issues and send our opinions about them to our elected representatives.

It has been known for some time that methods existed to insure the building of ENERGY EFFICIENT HOMES. But, inexpensive energy in the past made it logical to ignore the extra investment such a home would require. Now with energy costs rising, it becomes more and more important to use effectively every bit of energy we consume. The TOTAL ELECTRIC ENERGY EFFICIENT HOME does this ... and, it means, conservatively, a 40% reduction in heating and cooling costs.

You'll be hearing more about the ENERGY EFFICIENT HOME. If

The 35 communities of the According to President Max Council will lock off between Tidmore, the Scout Council now and March 1. There will will apply for participating be over 6,000 prospects in the membership in the Lubbock

When asked if the Boy historically raised over Scouts were going to make their goal this year, Bradford The Littlefield Drive Chair- answered, "Yes, when you man for Scout Funds is Marty consider over half the budget Mangum with a goal of \$4,000 has been raised with only 528 The final phase, the families members and 10,000 prospects of Scouts, will kick off after are still to be seen. I expect the March 1. Bradford noted. The drive to be completed and over the top by April 15. The pleasing thing is that during this all-out drive, the program of Scouting is being carried out and actually expanded in the 20-county Council.

Funds for the local Council are used to serve 300 churches, P.T.A.s. civic clubs, veterans' organizations and other institutions who actually own the Packs. Troops and Explorer Posts. The Council provides office services with four full-time clerks. The office maintains the registration and advancement records for the 10,000 boys and leaders currently enrolled. The Council has eight full-time professionals who provide the field training for the leaders. In addition, the Council maintains two year-round camps in Texas and a summer camp facility at Tres Ritos, N.M. The cost per boy in the South Plains Council which reaches from Lamesa to Tulia, the New Mexico State line to Paducah has been less than any other Council in West Texas or New Mexico.

"I am sure the citizens of West Texas won't let our youth down in this most urgent need." Bradford concluded.

Thompson Well Qualified For Commissioner's Office

I want to take this time to voice a few of my qualifications. I have had my own business for 12 years and feel that qualifies me, as any businessman knows, for the business aspects of the Commissioner's office.

I have always been very interested in the upkeep of our county roads, and after years of dirt work, a lot of which was road

work, I feel I can improve our roads to a great extent. Give me your support in the Commissioner's race. Let's work together for a better county. Thank You.

The Lamb Bowling Lanes Good Neighbor Tournament was a great success. There were over 100 entries last week. Another week is scheduled with the bowling leagues and anyone interested is invited to participate. There will be a plaque given to the winner. In keeping with league policy, half of the funds raised will be donated to the Lamb County Red Cross. A new tournament is scheduled again in March.

PEARL BRANDON

THIS MORNING as I sit in my quiet living room, with the sun shining and the birds chirping outside, it is hard to realize the great hardships and sorrows happening in other parts of the world.

The war going on in Angola, the unrest and violence in Ireland and the aftermath of war in Beirut seem very

Then the terrible suffering from the earthquake in Guatemala is awful to think about. Our son spent about ten quake is very real to him. He has defeated Lubbock Cooper to JV's extended their lead to visited many of the villages that are flattened now.

> OF COURSE I KNOW we are not immune to disaster in this country. especially tornadoes, but we have more than our share of blessings

> compared to the rest of the world. We hear much about people on

welfare and food stamps and etc. but I don't think there is any reason for any one in our country to be really hungry. Some are without jobs and are suffering the inconvenience of being unable to pay their bills, (which is bad) but when it comes right down to the nitty gritty, their children are not hungry, or out in the cold.

POLITICIANS are sparring around everywhere now, and the news media is having a ball this election year. Every citizen old enough has a right to vote for the candidate of their choice, and should exercise that right. After election is over and those elected have taken their places to run this government the next four years we should get behind them and help to keep our country the finest in the world

Regardless of who is elected president he will belong to all of us and he will need our support. We should stop kicking and start pushing them

I am glad I live in a country with freedom to voice our own opinions, to vote for whom we please and to worship God after the dictates of our own hearts.

I am glad "Old Glory" is our flag. I feel proud everytime I see her flying in the wind. My heart warms every time I hear the national anthem sung or played. I think it is wonderful to see the children of Lubbock schools pledge allegiance to the flag every day on TV

In this bicentennial year let us sing or shout "God Bless America." and thank God for allowing us to live in this beautiful country.

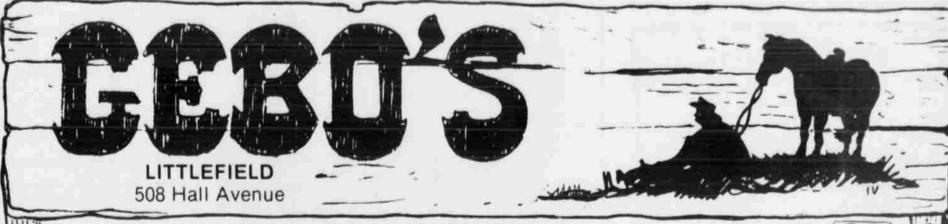

My Country tis of thee, Sweet land of liberty, Of thee I sing.

Where had these destructive people come from? Did they do the same things to the homes where they lived?

Let me tell you who they are. They are the ones who steal towels from motels, write on walls, litter picnic grounds and ride bicycles on sidewalks.

Jesus spoke for all of us when He was asked, "Who is my neighbor?"

Your neighbor is you-yourself!

Yes, that's exactly what Jesus said. You have to live with yourself. You have to look in the mirror and see yourself. You can't be a good neighbor to someone you haven't seen unless you have been a good neighbor to someone you have seen-yourself!

Say it another way, "I must love my neighbor AND myself." That's the essence of the Golden Rule.

ANTON- Mrs. Sidney Lan- presentation of the Jamestown settlement and Colonial Williamsburg. She and her husband visited these places and Yorktown last July where they made slides and collected information for the presenta-

tion of this program. They crossed the James River on a ferry which landed near the original Jamestown fort. They toured the Jamestown site and spent a day at

Colonial Williamsburg. The colonists at Jamestown experienced many hardships and many perished. The first president was Edward Wingfield and the parson was Robert Hunt. The Jamestown settlement was made in 1607 entirely of men. The first women arrived the next year.

The colonists moved inland to Williamsburg in 1698. Mrs. Landers showed slides and discussed the Capitol, Gaol, Magazine, and Governor's Palace. The colonial government of Virginia convened in the Capitol in 1704 and it served as capitol until 1780 when it was moved to Richmond.

It was at the capitol where America's oldest representative government was held. It wa here that Washington was hor, red for his victories in the French and Indian wars, Patrick Henry defiantly protested the Stamp Act, and George Mason's "Virginia Declaration of Rights" was passed.

The capitol was the scene of stubborn resistance of the colonists to what they regarded as arbitrary policies of the Crown. At the Gaol both debtors

and those charged with capital crimes were jailed. The stocks was used for punishment of lessor crimes. The Magazine is where the

colonists stored their firearms and gun powder, used for protection against invaders and the Indians. It is an octagon shaped red brick building which has survived 250 years.

The removal of the supplies by the British governor and resulting anger of the colonists was one of the acts which brought on the Revolution.

The Governor's Palace was reconstructed. The original building was used by seven representatives of the King of England and two Virginia governors, Patrick Henry and Thomas Jefferson, During the seige of Yorktown, it was used

as a hospital.

MRS. VIRGINIA Davila taught a Mother's Aid course for girls in the 5th and 6th grades at Littlefield Saturday. This was a two-hour course. This course aids girls if they do baby sitting or help care for younger ones in their own home. Mrs. Davila taught in the Bula Head Start program for 10 years, and has three children of her own.

Withrow drove to Muleshoe late Sunday afternoon and had a visit with their daughter, Jackie Withrow.

to the intensive care unit, at Lubbock Methodist Hospital, and is gravely ill at this writing.

BILL TURNER signed a national letter of intent Wednesday with the University of New Mexico in Albuquerque. Assistant football coach Bill Waters flew in from UNM to sign Turner. Previously the LHS senior has signed with Rice University, but changed his mind because he said he liked the Albuquerque area best. This offensive halfback and defensive safety was honored as All-District running back, safety punter and kicker, and as All-South Plains safety and punter this year, as well as MVP by Littlefield coaches.
