## Attorneys Templeton and O'Shea Make Donations To Tennis Court

EVINS, 12-year-old Sudan seventh grader, was named grand speller for Lamb County Saturday afternoon after she correctly spelled "sponsor" and went on to spell "spoo". Chris Prentice, 13-year-old seventh grader, was in the spell-down with Linda through several words in the alphabet before he missed "sponsor". Linda is the daughter of Mr. and Mrs. Tom Evins of Sudan and Chris is son of Mr. and Mrs. Prentice of Otton. (Staff Photo)

At the close of the tain-bus accident trial, the three lawyers for the families involved indicated that they would donate \$1,000 each toward the installation of drop gates at the U.S. 385 crossing where the accident occurred. Soon afterward, the State announced that money had been appropriated for the construction of additional safety features at the crossing. Since that money had already been appropriated, and the lawyers had indicated they would like to make a memorial contribution, they were asked if they would consider donating to a memorial tennis court construction fund. (A tennis court is wanted so badly that students had already petitioned the school board to construct an outdoor all weather court that could be used for basketball and tennis.) Attorney Robert Templeton of Amarillo was the first of the three attorneys to donate \$1,000 to the school toward the building of a tennis court. Last week Lubbock attorney John J. C. O'Shea sent the school a check for \$1,000 as his donation to the tennis court fund. The Leader-News contacted Lubbock attorney Johnny Splawn Tuesday af-

ternoon. He is the third attorney for the plaintiffs. He indicated that he planned to make his contribution, also. Donations from Templeton and O'Shea have been deposited to the Littlefield Schools Tennis Court Memorial in the Littlefield First National Bank. In addition, a small donation has been made at the Security State Bank. Individuals who wish to make contributions may do so at either of the Littlefield banks. Jones said early this week that hopefully construction of the court could be done this summer. The school board will decide on the size, type of topping and location. LHS Principal Tom Brawley has secured back stops and some other materials for use in construction. In order for the court to be completed before the fall term starts, further donations will be needed because the 1973-74 budget will use all the allocations for this school year. If enough donations are not made, Jones said it is possible the board can appropriate money beginning with the new school term, Sept. 1.

A WARM SPRING DAY is a good time to take a long stroll, and Mrs. Maurine Chisholm was caught by the Leader-News camera Tuesday morning as she enjoyed some fresh air and exercise. Spring officially appeared here Thursday, March 21, but the weekend immediately following was one of winter-like character. (Staff Photo)

## Gardening Hobby Growing, Vegetable Tips Given

Gardening as a hobby is growing in popularity. More residents are gardening than ever before. Everywhere you turn you can see a seed rack, nearly empty in places. A recent surge of interest in gardening hit last year and is continuing this year. Area nurseries and garden shops selling seeds and bedding plants are up from 20 to 100 percent over last year. Garden equipment is the hottest item in the garden equipment business. Hardware and allied stores say they have sold more garden equipment this spring than in the last five years combined. State and county agents are receiving more requests for gardening information than ever before. Would-be gardeners are advised that a large area is better than a small one. A smaller plot is better for space, irrigation and insect and disease control. When choosing a site, gardeners should choose a spot in full sunlight. Vegetables should be tolerant and should not be in the shade of trees, fences nor other buildings. Vegetables should not be planted in soil that is populated with trees. If trees are extensive they will sap all the nutrients away from the garden. It is a good time to begin soil preparation for gardens. Soil should be 10 to 12 inches in depth and worked down. Commercial fertilizer or manure may be added, but is not necessary. Soil in this area can grow almost any variety of vegetable. Some cold tolerant vegetables may be planted now. Those that can withstand the colder temperatures are potatoes, onions, lettuce, carrots, radishes, mustard greens and turnips. About the first 10 days in May, tomatoes and peppers and other summer vegetables grown from transplants may be put out. Tomatoes are about the first choice of most Plains gardeners. Tomatoes yield more than any other vegetable for the amount of space they occupy. Other summer vegetables do best when planted in late May or early June when soil temperatures average 65 degrees or more. Squash, okra, beans and peas are popular vegetables for this area. Information on proper varieties is available at the extension office and from local dealers. Plentiful water is necessary for gardens. There is seldom enough rainfall in this area through the summer months. Gardeners are advised to use furrowed irrigation rather than sprinkling since sprinkling often spreads the chance of diseases. Gardens should be thoroughly irrigated about once a week. Gardeners should be selective in choosing vegetables they grow. With a small plot of land, vine crops such as watermelon, cucumbers, and cantaloupe occupy too much space. Sweet corn occupies a large amount of space also, as well as throwing too much shade on other plants. The average home garden will be mature in August and early September, and that's the the choice time for canning, preserving and freezing the crop.

## ACUPUNCTURE WORKS FOR THEM Whitharral Residents 'Needled' Into Good Health

By NILAH RODGERS Three Whitharral residents can give first hand information on the ancient Chinese art of acupuncture. B. E. Hayes, Mrs. Henry "Granny" Jones, and Mrs. Ralph "Shorty" Wade have recently been to Dallas for acupuncture treatments. They can't believe the "miracles" of acupuncture, and after telling their stories, all their friends go around saying "I can't believe it." "I can't tell you how it works," said Shorty, "but it does." Mrs. Wade has been confined to her home for two years from inflammation of nerves from surgery and neuritis. During a good part of this time she moved about with a walker. She couldn't ride in a car and climbing stairs was out. She said she took a pain pill every three hours and suffered from insomnia constantly. "After the first treatment I slept without medication," she said. "After the second treatment I climbed stairs and went up and down like a human being." She took five treatments and is now at home trying to catch up on all the work she has been putting off and slighting for two years. Before treatment she said she could vacuum half a room and have to sit down and rest thirty minutes. "Wednesday I vacuumed four rooms, mopped the kitchen, scrubbed the bathrooms, went to the dentist, went shopping, then went out for dinner." That was the first real shopping spree she had been on in two years. When she would try to buy groceries, she would be so tired she couldn't put them up when she got home. "Granny" Jones spent the two weeks before the Dallas trip in bed. Arthritis had become so bad she couldn't lift her hands over her head nor lift her legs. After her first treatment she ran back to her hotel room, kicking up her heels as she ran. The women learned of the clinic from Hayes who had been there several weeks prior for treatment of gout arthritis. After three treatments, Hayes was kicking up a leg he previously couldn't lift. A Dallas medical doctor was instrumental in securing two Chinese acupuncturists for his clinic in Carrollton. The Chinese acupuncturists do not speak English, but work through interpreters. In addition to helping Granny's arthritis, her high blood pressure dropped. They took a reading of 160, put needles in both arms, and her blood pressure was

130 the next day. Shorty said she is no longer tense as a result of two needles inserted in her neck. The Whitharral women's side benefits are not too unlike other reported unlooked-for benefits. Patients who smoke have been known to lose all desire for their tobacco habit after a needle applied to a certain point in the ear. And one bald man noted a sudden growth of hair on his head after needles had been placed on his head for treatment of lateral sclerosis. Some people believe acupuncture smacks of witchcraft, but not Mrs. Wade. "They have charts on the wall showing the human body and every nerve," she said, "they know just exactly where every nerve is and they even 'feel' to get the right nerve. They know what they're doing." The women said the needles hurt a little when they are inserted, but soon quit after insertion. The needles are left in place about 20 minutes. They aren't stuck in, but rotated. After removal, there are no holes nor blood to show where they've been, and no bruises. Shorty counted 27 needles at one time from her waist to her knees. Granny had

30 needles from her neck to her feet during one session. Both women went to the acupuncture clinic with their doctors' approval. Shorty's doctor advised her that acupuncture shouldn't be any more expensive than treatment by regular specialists. She thinks a charge of \$50 for registration, examination and the first treatment, and \$35 per day for each treatment afterwards is in line with a specialist's charge. She noted that each session after the first is the same charge, regardless of the number of needles inserted. "We can't believe the results, and we've been there," the women concluded.

Area Students Earn Journalism Awards Bruce Peel of Littlefield High School is among more than 600 junior high and high school students in Texas public schools who were honored Friday evening, March 22, for their outstanding work on newspapers and yearbooks. He was honored for newspaper sports writing in the Class AA division, and received a first place. Dona Davis of Littlefield took second-place honors for news writing, and Andy Rogers was a second-place winner in the sports column division. Anton's Dena Goen received a third place for her sports photograph. The individuals were recognized at the 47th Interscholastic League Press Conference state convention meeting at The University of Texas in Austin Friday and Saturday. The meet, at-

## License Plate Deadline Near

The final week for Texas motorists to obtain the new red and white license plates which must be affixed to their vehicles by midnight Monday, March 28. If not yet registered, nothing is required from last year. The renewal process is in the mail and payment of the vehicle owner must present at the time of registration. If the registration form has been filed, the owner will be required to

bring the certificate of title and last year's license receipt. Beginning the 1975, Texas will change over to the five-year license plates. Then in 1976, instead of buying a new license plate, motorists will purchase a 1"x2" adhesive backed sticker that will be placed on the upper left corner of the plate. In 1977, the sticker will be stuck in the upper right corner, then alternated for the following years.

LAMB COUNTY YOUNGSTERS were on the first place team at the Howard County College Livestock Judging Contest in Big Spring last week. They are, left to right, Art Foley, coach; Brian May of Sudan 4-H, Cory Logsdon, Joe Foley, Rodney Logsdon, all of the Littlefield 4-H; and Jim Kuykendall, County Extension Agent and coach. They were among 62 teams and 248 contestants who entered the contest. They will tour Abilene Christian College April 1, Lubbock Christian College April 4, West Texas State University April 6, and will enter the District 4-H Elimination Contest April 27. (Staff Photo)

# CowBelles Meet Wednesday, Hear Olton Feedyard Vet

The Pomona CowBelles met Wednesday, March 20, in the New Tasty Taco Restaurant, with the president, Susan Head, presiding.

Pam Marcum gave the invocation and Mrs. Head welcomed the guests to the first general meeting.

Dr. Howard Head, Littlefield veterinarian and husband of the chapter's president, introduced Dr. V. E. Brimhall, assistant manager and veterinarian of the Olton Feedyard, who addressed the club as main speaker of the day.

He stated that since his first love is cattle feeding, his talk would naturally be down that line of thought. He said that most people do not realize that feeding cattle "doesn't mean that we're ranchers or farmers, but rather that we are manufacturers."

Using the Olton Feedyard as an example, he stated that a feedyard with a 30,000 head capacity will feed out 1 1/2 ton of beef per hour, 24 hours a day, with a capital investment of \$1 1/2 million. He stressed that the way the market situation stands at present is: Consumption down with the effects of inflation, cost to the feed lot and rancher is up since cost of grain has doubled in the year. In the past month, cattle have been losing \$75 to \$100 per head.

Dr. Brimhall stated that the benefits of the feed lot is good all the way around. It benefits all businesses and hires local labor.

He believes the future is looking good, and made a

guess that in 45 to 60 days, things would look even better, due to the spring season, more money and fewer people jobless.

Dr. Brimhall said he was sure the CowBelles would be of great help in beef promotion projects, and advised he would help all he could.

Other portions of the program included regular business transactions such as the reading of the minutes by the secretary, Adriene Smith; and the treasurer's report by Shirley Logsdon.

Mrs. Head read a letter to the chapter from the president of the Texas CowBelles, Mrs. Tom Henry, who congratulated the chapter on its organization.

Mrs. Head explained that she had received quite a bit of literature on CowBelles in the two short weeks of time the

local chapter has been organized, and had learned that Texas has only 22 local chapters.

She also explained from where the name Pomona for the local chapter came—Pomona was one of the Roman Goddesses of Agriculture.

Among the first projects the CowBelles are planning is the Beef For Father's Day promotion and the printing of napkins to include brands of local ranchers and farmers.

The charter for the organization will be left open until the end of May.

Two new members were signed up during the meeting—Mrs. Doyle Tapley and Marguerite Faver.

Other guests present were Melba Gray of Rt. 2, Littlefield and June Wallace of Spade.

LITTLEFIELD High School senior Andy Rogers of four high school seniors recently interviewed finalists for the \$1,000-per-year University Scholarship for the School of Applied Arts at South Texas State University. Eight of the scholarships awarded university-wide. The four School of Applied Arts scholarship finalists were chosen for interview from more than a dozen applicants. The University Scholars Scholarship program was started last year by SWTSU to enable the university to actively academically superior freshman and junior transfer students. Andy is shown here pasting SKAT page, of which he is a staffer. (STSU Photo)

## Easter Seal Donations 'Going Well'

Lamb County's Easter Seal Representative reported that the 1974 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well.

Doyle Patton Jr. of Littlefield, serves as Easter Seal Appeal Treasurer for Lamb County.

The 1974 Easter Seal Appeal will finance the Easter Seal Society's rehabilitation program for crippled children and adults in Texas. Last year the Society helped 20,570 disabled persons through its program of assistance in finding and making effective use of services for the disabled and their families.

The Easter Seal Society helps support 18 treatment facilities in Texas where children and adults not eligible for other assistance are treated. These centers offer physical therapy, medical diagnosis, speech and hearing programs and related services to help the disabled build happier and more useful lives.

As Easter Seal Representative, Doyle Patton is the person to contact for services from the Easter Seal Society. He can be contacted at Security State Bank.

When contacted for services, Patton will provide the request form to be sent to the Texas Easter Seal Society in Dallas to determine the needs of the disabled person. The Society will provide the service where possible or will

advise the handicapped person of the best resources available to help him.

Patton added that con-

tributions to the Easter Seal Appeal should be sent to him as soon as possible.

# Fashion Show To Feature Local Styles

The South Plains Area Fashion Show, scheduled for April 4 at South Plains College, will feature styles reminiscent of both the Western era and the nostalgia of the 1920s, 1930s and 1950s.

Cotton and other natural fibre fashions will be shown at 8 p.m. in Texan Hall. Theme is the "American Fashion Tune."

The SPC fashion-merchandising students, sponsors for the program, have obtained fashions from merchants in Levelland, Lubbock, Littlefield and Brownfield.

"There will be fashions for men, women and children of all ages and sizes," said Mrs. Sharyn Godley, fashion-merchandising coordinator at the College. "One of our goals is to strive to make this an informative as well as entertaining program," she noted. "We will show fashions that are wearable for this part

of the country and yet are very fashionable," she added. Fashion commentator will be Barbara Haskett, assistant fashion coordinator for the Dallas Apparel Mart. Master of ceremonies will be Jim Martin of Lubbock, former SPC student now working at Hemphill Wells in Lubbock.

An award for the outstanding model of the show will be presented by Billie Boyd, employed in the public relations department for J. C. Penney's of Dallas. Judges for the award will be Mrs. Godley, Barbara Haskett and Martin.

There will be 22 models from the faculty, staff and student body at SPC and the community as well.

Entertainment will be provided by Jack Nowlin and his Barbershop Quartet.

Tickets for the fashion show are \$1 a person.

Part of the proceeds from the show will be used to pay expenses for a trip next year by fashion merchandising students to the Dallas Apparel Mart, where they will observe marketing procedures. "This experience is one of the most, if not the most important experiences for a fashion-merchandising student's education," Mrs. Godley said.

Proceeds also will be used to pay for props for the show and refreshments.

## Nutrition Month

SCHOOL CAFETERIAS operating under the National School Lunch Program offer nutritionally balanced meals and milk to all students. The lunch program for public schools in Texas is administered by the Texas Education Agency, in cooperation with FNS. Children whose families can't afford to pay full price for the lunches get them free or at reduced cost.

Some 1,328,000 students in Texas eat school lunches each day.

SCHOOL STUDENTS, like most everyone else, often eat what they like and not necessarily what is good for them. So feels Martin Garber, regional administrator for the U.S. Department of Agriculture's Food and Nutrition Service (FNS).

\* March Nutrition Month, a nationwide campaign to promote better nutrition, is aimed at people with poor eating habits

in hope their eating habits can be changed.

THE NUTRIENT VALUE of foods is something everyone should know, says Administrator Garber. Teaching this information to school age children will guide them as they form eating habits which last a lifetime.

Lunches produced under the National School Lunch Program are a good means of imparting nutrition education. Each Type A meal must meet standards established by FNS. Each Type A meal consists of meat or other protein-rich food, vegetables and/or fruit, bread, butter or margarine and milk.

Texas' chairman for March Nutrition Month is Dr. Barbara Mitchell, who is also president of the Texas State Nutrition Council.

## THE ABUNDANT LIFE Our Contributions

CONTRIBUTIONS ARE the useful and worthwhile things we give and do to help someone, or some good cause. We may give money, or time, or energy, or skills, or we may give ourselves.

These contributions are the principal elements which make up the best and the most rewarding part of one's life pattern. Of course, the giving must be done cheerfully and willingly.

THIS IS THE ACTION which gives the fullness of life to both individuals and communities. In order to live, we must give. The most certain way to quench the spirit of life is by keeping that which we can and should contribute to help each other and for the betterment of the community where we live.

Of course, different persons have different views about what to contribute and when to contribute. Nevertheless, it is a fact that there must be contributions; because a large segment of the well-being of humanity survives, if it survives, as the result of generous contributions.

OUR GIFTS AND ATTAINMENTS are not only to be light and warmth in our own dwelling, but are to shine through the window, into the dark night, to guide and cheer bewildered travellers on the road." —Beecher.

THERE ARE PROPER LIMITS to be observed, as we contemplate what and when to give. We have responsibilities to self, and to our immediate obligations; such as our family.

These must have first consideration. This, however, does not make it im-

possible for most of us to make contributions to help others in good causes.

WE MUST USE WISDOM in judgment in determining our contributions to make. This is the most helpful, and keep our right frame of mind for a lifetime of contributing.

When we are trying to be useful, there is always the possibility of becoming discouraged and envious. The controls of wisdom and judgment will protect us from these perverse attitudes.

THERE ARE BIG and important causes which require big contributions and some of these need our generosity. We are grateful, at the same time, we know that some needs are not supplied. The person who contributes what is needed, so, and those who would are not given.

Even so, a very satisfactory making helpful contributions available to all of us.

WE MUST GIVE in order to really live. The life that does not get, and get, and get, and get, cannot be a rich and happy life.

"Do not wait for extraordinary circumstances to do good actions; use ordinary situations."

OUR CONTRIBUTIONS, small, made with wisdom and judgment, are never in vain.

# CLIPS & TIPS

By JOELLA LOVORN

WHILE GOING THROUGH my recipe file box, I found several recipes for confections to satisfy a person who has a "sweet tooth".

Here's one I acquired from my mother, Mrs. A. M. Lovorn of Miles, who now and then still does some "special baking" around the house.

### GERMAN SWEET CHOCOLATE CAKE

- 4 pkg German sweet chocolate
- 1/2 cup boiling water
- 1 Tbsp. vanilla
- 1 cup vegetable shortening
- 2 cups sugar
- 4 egg yolks, beaten
- 1 cup buttermilk
- 2 1/2 cups cake flour
- 1 tsp. soda
- 4 egg whites, beaten

Melt chocolate in boiling water. Add vanilla and salt after chocolate is melted. Cream shortening and sugar, and add beaten egg yolks. Add 3/4 cup of the buttermilk alternately with the sifted flour. Dissolve soda in remaining 1/4 cup buttermilk, and add to creamed mixture. Stir in chocolate. Fold in egg whites. Bake in three 9-inch cake pans at 350 for 25 to 30 minutes.

### FILLING

- 3 egg yolks
- 1 Tbsp. flour
- 1 cup sugar
- 1/4 tsp. salt
- 1/2 pint whipping cream, or 1 large can evaporated milk
- 1 stick margarine
- 1/4 cup chopped pecans
- 1 cup short-cut coconut
- 1 tsp. vanilla

Beat egg yolks and set aside. Mix flour, sugar and salt, and stir into the milk or cream. Add butter or margarine, and cook over low heat until margarine is melted. Pour small amount over egg yolks, beat, and add yolks to milk mixture.

Add pecans and coconut. Cook until thick, stirring constantly. Remove from heat, and add vanilla. Spread between cake layers and cover the cake with frosting.

HERE'S ONE for plum pudding I've been saving from a "Spice Island" recipe leaflet.

### PLUM PUDDING

- 1 1/2 cups sifted flour
- 1 tsp. baking soda
- 1 tsp. salt
- 1 tsp. ground cinnamon
- 1/2 tsp. ground nutmeg
- 1/2 tsp. ground cloves
- 1/2 tsp. ginger
- 2/3 cup firmly packed brown sugar
- 1 1/2 cups dry bread crumbs
- 1/3 cup chopped nuts
- 1 cup shredded suet
- 1 cup chopped mixed candied fruit
- 2 cups seedless raisins
- 3 eggs, lightly beaten
- 1/3 cup molasses
- 3/4 cup milk

Into a mixing bowl sift together the flour, soda, salt, cinnamon, nutmeg, cloves and ginger.

Combine with the mixture the brown sugar, crumbs, nuts, suet, candied fruit and raisins. Blend in the eggs, molasses and milk.

Pour the mixture into a well-buttered 2-quart pudding mold and cover tightly. Place the mold in a rack over 2 inches of boiling water in a kettle. Cover the kettle and steam the pudding for 2 hours or until it is slightly resistant to the touch. Serve hot in slices.

THIS ONE'S an easy and quick candy recipe. Most of you probably already have it—but if you don't, here it is.

### PEANUT CLUSTERS

- 8 ozs. chocolate
- 1/2 lb. roasted peanuts
- Pinch of salt

Melt the chocolate in a bowl over hot water. Do not let water boil.

Remove from heat and add peanuts. Stir well. Drop from spoon onto waxed paper.

Place in refrigerator to chill, keep in a cool place. Makes 3 dozen clusters (according to how large you make them).

### TIPS AND TRICKS:

WHEN THE LIDS on glass or metal salt shakers are corroded and fused to the shaker, soak them in hot vinegar with a little salt added. The lids are easy to open and the corrosive material is washed off easily.

AN EASY WAY to mend a hole in a garment is to place a thin piece of paper under the hole and darn back and forth with your sewing machine. The paper will dissolve when the garment is washed.

TO MAKE YOUR perfume scent last hours longer, as soon as you apply it rub a dab of moisture cream right over it before it dries.

CLEAN YOUR costume jewelry by putting it in a little bowl and pour rubbing alcohol over it. Let this sit a few minutes and all tarnish will come off. After wiping, your jewelry will look like new.

## DEAR EDITOR

3-26-74

Dear Editor,

In reference to the insurance article in Sunday's newspaper, I would like to make note, to the fact on disability income on housewives and the rating of their particular occupation.

Since I am a local agent for Bankers Life, I would like to say that we are able to insure a housewife along with her husband with disability income. Also our rating of 4 means that the housewife or homemaker has the second best hazardous occupational rating, in disability income and also in the rating of health insurance and life in general.

This letter is written only to enlighten the readers of this paper, concerning insurance, as to what is available, in stead of what is not available.

Sincerely yours  
S/A. P. (Tony) Zahn

HAS ANYONE mentioned that, "Old bookkeepers never die;—They just lose their figures"?—Well—Anyway—

JUST A WORD of caution to all you lucky people who happen to have cars with Speed-Controls on them. Sit down and decide what you're gonna do, should they fail to de-energize when you touch your brake?—?

Personally, I think they're the greatest thing that has happened, since The Almighty came up with woman. But, by the same token, they're not always predictable.

STRANGE AS IT may seem, the fault may not be in the unit, itself, but in the stop-light switch of the vehicle. Sometimes the little ol' plastic-constructed switch may get a sandstorm in it's innards, and fail to make contact when you push the brake pedal.

When this happens (if it does) the result will be a slowing of the car (just slightly), then she'll take off like a bronc that's been hit on the backside by a bumble-bee, tryin' to regain the speed where you'd had it set! Pretty startling, to say the least! (This means your stop lights aren't working, either.)

DID YOU KNOW, to carry traffic from the places where it is produced to the places where it is needed in the country, more than 225,000 miles of large-diameter pipelines have been constructed. If you put all these together in a single line, they'd be pretty close to the moon. And it's about all the smaller gas pipelines in the world, it's almost enough to go round trips.

## Dimmitt Leads 3-AA Golf Tour

The Dimmitt golfers shot a 343 Tuesday on their home course and opened up a six stroke lead for the District 3-AA golf championship.

Dimmitt's score through three tournaments is 1006, and Olton is close behind with a 1012. The Mustangs fired a 348 Tuesday. In third place is Friona with a 1077 score, and Littlefield is in fourth with a 1109. Friona and Littlefield both shot 373's at Dimmitt.

In the race for district medalist, Olton's Kenneth Burgess took the lead with an 83 at Dimmitt for a total 244. Andy Rogers of Littlefield had an 84 and is one stroke back of Burgess with a 245. In third place is Dimmitt golfer Kelly Moore with an 86, 251.

## Volleyball, Tennis Tournaments Set

The District 3-AA volleyball tournament will be played at Olton Friday, and the Littlefield girls will face Morton in the first game at 1:30 p.m.

## Little League Plans For 1974 Announced

All persons interested in helping with the Little League baseball program this summer should go to the organizational meeting today at 7:30 p.m. in the XIT room of the Security State Bank.

"We're going to need coaches for at least five more teams," said current LL President Bill Payne, "and we'll need an official scorekeeper and workers for the concession stand, too." Payne said that due to rising costs of the League, a \$3 enrollment fee will be required of each boy that plays. Sign-up sheets will be distributed at school April 1, and sign-up night will be April 2 in the XIT room from 7-9 p.m. Each boy that signs up

# Cat Tracksters Prepare For District Meet

By ANDY ROGERS

The Littlefield Wildcats made their second best showing of the season Saturday at the Roosevelt track meet, and came away with a frosty third place finish.

Coupled with their win at the Wildcat Relays a month ago, the Cats are now ready for the District 3-AA meet that unfolds Saturday in Olton.

"I think the district meet is going to be very close this year," said Track Coach Lewis Boomer. "Friona and Dimmitt both have tough teams, and Olton has some outstanding individuals."

But it's all going to depend on who gets the most fourth, fifth and sixth places. You're going to have outstanding people that are going to score in every meet, but an individual can only be in so many events, and depth is where your strength lies."

Dimmitt won the Roosevelt meet for their second win of the year, and Friona took their third title of the season in the Farwell meet. "Personally, I'd say Friona will be the team to beat in district," Boomer said. "They've got a lot of team strength, but I think their main asset is their depth."

Randy Cook had the only first place for the Cats at Roosevelt, winning the discus with a hurl of 145'. Cook failed to win the shot put for the first time this season, but he took second place points with a 50-8 heave. Ricky Richards took fourth in the shot with a 47-9.

Bill Turner ran his best time of the year in the 330-intermediate hurdles, a 42.2, and won second place. Stanley Patterson had his best time of the year in the 440 with a 54.8 that won fourth. Terry Bryson finished sixth in the broad jump with a leap of 17-10.

"Our times weren't very good at Roosevelt, but it was very cold and the wind was blowing pretty hard," Boomer explained. "We did have some improvements, though, and we felt it was a real good meet for us. We finished third in a good field of 20 teams, and we were real happy with the progress we made. We had many more people qualify than in the past. In fact, we qualified in every event except the sprint relay and the high hurdles."

Turner had his best time in the intermediate hurdles, and Ronald Parmer (44.7) and Sammy Schlotman (45.0) had their best times also. Bryson qualified in both the 100 and

220, and even though he's had better times, his qualifying for both events showed an improvement. Our sprint medley team composed of Parmer, Schlotman, Gary Lichte and Steve Cruz won first place, and this was encouraging to them (the sprint medley is run by those that didn't qualify for the other events). Patterson ran his best time in the 440, and though Ricky Hopping didn't place in the shot or the discus, he had his best distances in each (125' in the discus and 45' in the shot). The mile relay team (Patterson, Bryson, Turner and Buddy

Jungman) improved 16.6 seconds to a 3:46, and that's good in those windy conditions. Currently, Cook is leading the district in both the shot and discus. Turner has the best time in the intermediate hurdles, and Mike Cotter has the best pole vault. Richards is second in shot and Hopping is third.

"We're going to have to get a lot of points in the field events and try to hang on in the running," Boomer said. He added that he felt Patterson had a good chance of finishing high in the quarter,

and that the mile "should be interesting." There's only about 30 seconds separating the and last teams in the and if the meet goes interesting race. The field events will 9:30 a.m. Saturday, running pre-lims begin 10:30 a.m. The final place at 2 p.m.

The regional meet April 19 and 20 in Olton first and second finishers in each event compete there.

THE MAJOR LEAGUE ALL-STARS, elected by the coaches, were announced Friday night at the conclusion of the local tourney. Front row: Stevie Jackson, Ron Hampton, Randy McCarty, Jimmy Clayton and Scot Yarbrough. Back row: John Johnson, Hoby Phillips, Mark Yarbrough, Eddie Gregory and Ricky Henson. Coach is Jerry Williams. (Staff Photo)

THESE TEN PLAYERS were named to the Littlefield minor league All-star team. They are (front row), Mike Williams, Allan Jones, George Brockington, Randy Hopping and Leslie Yarbrough, and (back) Rocky Bowman, Eric Sawyer, Jerry Jones, Pylant and Todd Butler. The minor league team will be coached by George Brockington and Tommy White. (Staff Photo)

## Littlefield Fems Win Third At Farwell

The Littlefield girls collected 80 points Saturday in the Farwell track meet and finished only two points off the winning totals of Nazareth and Vega.

The Cat fems were sparked to their third-place finish by Shebra Johnson's first place points in the 100 and 220. Miss Johnson ran an 11.4 in the 100 and set a meet record in the 220 with a 28 flat. She also ran

a leg on the spring relay team finished second with a 52.8. Penny Walter, Georgia Ann Jackson and Ann Mackey were the other members of the team.

Miss Mackey picked up a pair of third place finishes in the 100 (11.8) and the 60 (8.0). Miss Walter came in third in the high jump (4-6), third in the broad jump (14-9), and fourth in the 220 (29). Jill Owens grabbed first in the high jump with a meet record height of 4-9 1/4, and took third place in the 80-yard hurdles (13).

The Wildcat fems' next meet is Saturday at Hereford, and there will be competition

at both the ninth and varsity levels.

## Mr. and Mrs. H.V. Lynch Observe 40th Anniversary

HARTCAMP— Mr. and Mrs. H. V. Lynch of Hart Camp were honored with a reception Sunday afternoon in observance of their fortieth wedding anniversary.

The reception was held in the Hart Camp Baptist Church Annex where they have been church members many years, and where he serves as a deacon.

Hosting the reception were the women of the Baptist Church and other friends of the community.

The former Lena Faye Parkey and Has V. Lynch were married Feb. 7, 1934 in Plainview. At that time she was teaching school at Hart Camp and he was in the garage business in Hart Camp.

Mrs. Lynch taught two years at Hart Camp, two years at Spade and then back to Hart Camp six more years. Soon after their marriage, they started farming the land now owned by C. P. Montgomery and in 1937 they purchased five acres of land where their house now stands and later purchased the entire farm and they are living there at this time but have retired from farming.

Lynch's parents, Mrs. V. T. Luch and the late V. T. Lynch, lived in this area many years and she was a charter member of the Hart Camp Baptist Church long before the present building was erected.

Mrs. Lynch's parents, the late Mr. and Mrs. Claude Parkey, were residents of Plainview until the death of Mrs. Parkey after which the family moved to Hart Camp.

Many friends of the couple attended the reception and were served refreshments from a table covered with a

ruby red cloth draped over white satin. Crystal candle holders containing red candles surrounded by flower rings centered with two white doves and the number "40" in red was the highlight of the serving table.

The three-tiered wedding cake, punch, mints and nuts were served by Miss Debbe Oliver and Miss Kimmie Foster from crystal appointments.

Mrs. V. L. Foster registered guests, and the honorees received many useful gifts. The community gifts presented them included a chime mantel clock, a decorative wall mirror and bed linens.

Approximately 75 guests registered, with out-of-town guests coming from Lubbock, Dallas, Plainview, Spade, Littlefield, Springlake, Whitharral, Amherst, Olton, and Halfway.

Special guests were Mrs. Lynch's sister and brother-in-law, Mr. and Mrs. Oliver Bier of Plainview.

## Jamboree To Begin

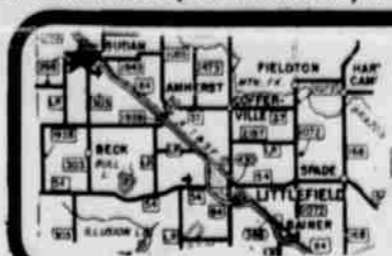

The Floyd, N.M. Lions Club is sponsoring its 23rd Annual Country Jamboree in a three-night event, slated for the Floyd High School Gym beginning at 7:30 nightly, March 28, 29 and 30.

Reserved tickets may be secured at the Security State Bank in Littlefield at \$1 for adults and 50 cents for children under 12 years old.

The country jamboree, formerly called the Floyd Grand Ole Opry, is country and western musical approaching its 23rd annual performance in the Floyd High School gym.

The Floyd Lions Club has received statewide recognition in New Mexico for its sponsorship of the jamboree in a memorial adopted by the New Mexico House of Representatives during the recent legislative session.

The bill, designated House Memorial No. 15, was introduced by Rep. Cecil Cook of Roosevelt County and honors "The Floyd Lions Club Country Jamboree for its outstanding performances and the many charitable ventures that it benefits."

## Late Blooming Apricot Trees Sought By TTU

If anyone on the South Plains has an apricot tree that still has 25 per cent or more of its blossoms, Dr. George Elle is interested. He asks that these owners write him in care of the Department of Agronomy, Texas Tech University, Lubbock, Texas 79409.

Elle will get in touch with the owners at a later date to obtain bud wood which will be evaluated in Texas Tech orchards.

"I have heard of people in the area who have trees which make crops five out of six years," Prof. Elle said, "and I am interested in the trees which have produced crops for the three or four years out of the last six."

The average trees, he said, produce crops only one out of five years.

Elle said he hopes to circumvent the problem of late killing frosts common to the area. While Elle usually can find out-of-state stock for research he is convinced that the only solution to finding the right apricot trees for South Plains weather is to work with seedling apricots, which have come from seed planted in West Texas.

"If we can develop late blooming apricot trees," he said, "The public will be the beneficiaries. Our immediate goal is to find the right trees. We will develop a supply of them for the public to plant, harvest and enjoy."

"If we can develop late blooming apricot trees," he said, "The public will be the beneficiaries. Our immediate goal is to find the right trees. We will develop a supply of them for the public to plant, harvest and enjoy."

Elle said he hopes to circumvent the problem of late killing frosts common to the area. While Elle usually can find out-of-state stock for research he is convinced that the only solution to finding the right apricot trees for South Plains weather is to work with seedling apricots, which have come from seed planted in West Texas.

## GARDENING SEASON

Home gardens are going in throughout Texas. For a successful garden, select a well-drained, fertile site that receives plenty of sunlight. Proper seedbed preparation and variety selection are also important. Sand, organic matter and gypsum can be used to improve tight clay soils. Use transplants to help get a garden off to a head start. Regular watering is essential, along with controlling weeds, insects and diseases.

# FIELDMAN NEEDED

Established, large, Texas Cannery needs local representative in your county to contact growers about planting Southern Peas to be combined for our company. Complete program available for growers—seed, farming technology and contract to produce. Must be well-known in agricultural circles. Knowledge of pea farming would be very helpful. Work would be mainly during period just prior to planting of early spring and fall pea crops. We need someone who could start immediately. Call collect for full information. Mr. Bob Orr, 4214-592-4571 or 593-6656.

### A Message to the High School and College Age Students of Littlefield . . . (and those who love them) From the President of West Texas State University

You are standing on the threshold . . . perhaps the threshold of greatness, but at least on the threshold of what can be a rewarding career. West Texas State University is also on the threshold . . . we think it is the threshold of greatness.

There is a new excitement on our campus. Everyone associated with the University tells me they feel it, students, faculty, alumni and our many boosters throughout the Panhandle.

The excitement started ten years ago when we achieved University status. We began getting many new facilities including a new library, science building, research center, classroom and administration buildings and a new Student Activities Center which is second to none in the United States. We have new programs of a dozen different kinds . . . even one for horsemanship.

Much of the money for these programs and facilities has come from individual citizens, companies and foundations. These benefactors say, in effect, that our area should be the site of a significant university . . . a university with facilities and programs which attract outstanding faculty and students from all over the nation, even the world.

WTSU is growing but it is not so big that our teachers can take a personal interest in each student and relate to him as the individual he is. Though we have a higher percentage of Ph.D.'s on our faculty than most universities, (over 50% ) our classes average fewer students than most, (under 20).

Our students are very much a part of making things happen at WTSU. They are interested, involved and excited. Their learning experience is bigger than the classroom . . . it is as big as life itself.

Tell us which of these areas of study interests you and we will tell you more about that program at WTSU. Clip this coupon and mail it to me personally. I'll see that you get the whole exciting story without obligating you in any way.

Lloyd D. Watkins  
Dr. Lloyd Watkins, President  
West Texas State University

P.S. Don't let financial considerations keep you from exploring the idea of coming to WTSU this summer or fall. Scholarships and other financial assistance are readily available.

## Horsemanship Clinic Set

Horsemen of all ages and experience will get a rare opportunity to develop their skills in a horsemanship clinic in Lubbock March 29 and 30. A three-man team of horse specialists, noted for their teaching skills and horsemanship abilities, will demonstrate everything from grooming and discipline to performance maneuvers and basic horsemanship, says County Extension Agent Buddy C. Lodsdon.

The men are B. F. Yeates, Gary Potter, and Doug

Householder, all Extension specialists with the Texas Agricultural Extension Service at College Station.

The event gets underway in the Fair Park Coliseum at the Panhandle South Plains Fairgrounds at 4:30 p.m., Friday, March 29, and will continue through the evening until about 9:30. Convening again on Saturday at 9 a.m., the clinic will last most of the day, adjourning at 4:30.

Registration for adults (18 and over) is \$7.50. For youths from ages 9 to 17, the fee is \$4.50, and for children under 8 years, \$2.75. These registration fees include a barbecue luncheon.

The event, Lodsdon emphasizes, is open to people of all ages. People living in or outside a residential area who have horses will especially be interested in improving their horsemanship abilities, he adds.

Specific skills to be taught include grooming and discipline, basic western horsemanship such as control of feet, hands and legs and proper posture, performance maneuvers such as driving, stopping, turnabout and leading, and skills in barrels, poles, reining and hunt seat.

JUNIOR CASTILLO won third place in Roffler's hair styling competition in Tulsa, Okla. Sunday. Junior has been barbering at Sedell's Kut Hut in Littlefield for a year. Connie Black was his model. Junior was the only one from Texas in the competition. (Staff Photo)
