## New Littlefield Industry Manufactures Bird Repellent

### 14 Businessmen Join To Establish Corporation

Bird management is a big field for the pest control industry, and a new Littlefield industry has come up with the first humane, long-lasting repellent.

Called by its trade name, Birdmaster, the chemical is applied to tops of buildings and repels sparrows, pigeons and other undesirable birds for at least six months.

The chemical is put out by Bishop Pest Control, Inc., which was first formed under the name of United Pest Control. Fourteen Littlefield businessmen make up the corporation, which is headed by Duran Bishop.

This new Littlefield industry plans to manufacture and distribute the petroleum-based Birdmaster in Texas and plans nationwide distribution in the near future.

The trademark has been registered and the chemical is patented. Birdmaster is registered by the Texas Department of Agriculture.

In tests, the chemical has been applied with a squirt can to the tops of buildings, completely ridding the premises of sparrows in two or three days and keeping them off for up to 30 months with a mortality rate of seven to nine per cent.

Pigeons were driven away in two to three weeks after treating roofs and the treatment lasted six to 12 months with a death rate of two per cent.

Protected species of birds normally do not roost on buildings treated with this type chemical.

The chemical is formulated in one gallon and one-half pint containers and is applied to surfaces in a strip "pencil lead"

thin. If the surface is over 10 inches wide, a crooked line is applied.

In 98 per cent of all jobs, Birdmaster has lasted from six to 12 months, Bishop said. On some buildings, pigeons and sparrows have been repelled for as long as 30 months.

Cost of some competitive brands is three times more expensive, he said. One gallon of Birdmaster treats over 2,000 running feet of surface compared to a competitive brand that treats 160 running feet. The results of the Birdmaster chemical is unsurpassed by any bird control Birdmaster knows of at this time, stockholders say.

Bird management programs across the country have been expanding faster than the development of new chemicals for use.

Aircraft experts say they expect bird strikes this year are going to cost over \$10,000,000 in the military Air Lift command only, and they predict at least one fatality and eight flyers injured due to birds.

Large outbreaks of disease are being

### Cheerleaders Slate School Aug. 11-16

Littlefield High School cheerleaders will instruct a special cheerleading school for Littlefield and area senior and junior high schools.

The school will run from 8 to 11:30 each morning from Aug. 11 through Aug. 16.

Participants in the school will range from 9 to 16 years old and the instruction will include stunts, tumbling, yells and pompon routines.

Those wishing to attend the school are asked to meet at the Littlefield High School gymnasium at 8 a.m. Aug. 11 for the first session.

Advance registration must be submitted by July 31 with \$5 to Diane Maner, 219 E. 21st; Diane Perkins, 416 E. 16th; or to Mrs. Marti Toulmin, 400 E. 22nd, Apt. 4. Checks should be made payable to the Senior High Cheerleaders, and all proceeds will go toward defraying their camp expenses.

An entry blank may be found on page 6.

## Corn Crops Contracted

Some Lamb County farmers are seeing a "bumby" dream come true.

A number of area farmers are growing hundreds of acres of corn that is contracted and being made into corn starch, corn chips, corn oil, dextrose and dozens of other by products.

"They are using the whole kernel," B. T. Hamilton said. Hamilton lives on the county line near Lazbuddie and he is one of many farmers in the Earth area who is growing corn on a contract for Dimmitt Wheat Growers.

Other farmers in Lamb County are growing corn contracted to Frito-Lay, Henry Agakai who lives northwest of

Olton is growing 320 acres for the Frito-Lay Co.

Most contracted crops are April corn, planted early to get ahead of the Western Corn Borer.

Legend says if there is silk on the corn by July 4, farmers will make a good crop. "Well, we not only had silk," said Hamilton, "we had roasting ears by July 4."

W. O. Jones, Phillip Haberer, Jack Angeley, Dub Martens, Ed Dawson and Orville Cleavenger are others who have contracted corn acreage to the Dimmitt concern.

In addition to the numerous starch and sugar products made from the corn, there are many by-products including dog and livestock rations.

Farmers in the Littlefield, Sudan,

Spade and Pleasant Valley communities are growing corn on contract also.

Hamilton reported the corn crops around Earth to be some of the prettiest ones he'd ever seen. Farmers in this area said they thought they were ruined after the storm that ripped through the Springlake vicinity. "It bent it over," Hamilton said, "but then we got a wind out of the other direction that straightened it up."

The corn will be combined with headers. Harvested corn used for cornstarch and products made through the Dimmitt operation will average 20 per cent moisture, and that's high moisture content for grain products.

Moisture content for the corn contracted by Frito-Lay will average 15 per cent, a spokesman said.

**BIG JOB AHEAD**—Deverelle Lewis, left, named Friday night as new Littlefield director-head coach of the Littlefield Wildcats has some busy days ahead of him. He wheeled into town Monday to meet with Jim Jefferies, new basketball coach, and Jerry Trees, lone holdover from the 1968-69 coaching staff. Between now and August 18, when two-a-day grid events start, Lewis must line up three additional members of his staff, and coaching school starting August 3, and issue shoes to his prospects August 13. Meanwhile, his wife will be house-hunting, and planning the family move here from Richardson.

### LAMB COUNTY PRISONER

## Art Work 'Passes Time'

RODGERS

Trevino is an artist, and that's no joke.

He is in the Lamb County jail, because of a lie.

He is serving a two-year jail term (an eight-year prison term) for himself during his trial.

Two years he is serving now is the eight years he was sentenced for armed burglary, making almost five years he has been in jail. Trevino has been behind bars since November, 1962.

Strong armed robbery charge was of Trevino's holding a knife to a woman's throat and robbing her. The woman is a cashier at the Palace Theatre.

He was just a very young man when he began serving time at Huntsville.

He never had any schooling at all when he was sent to the state prison, and he was 2 years old before he learned to write.

Prison required that he learn a trade and Trevino chose art school. In prison he learned the three R's (reading, writing and arithmetic) to the sixth grade.

When he was school age his family wanted to send him to school, he said, but he didn't like school and refused to go.

He grew up in a large household in the middle income bracket. Trevino and his five sisters lived with their parents at Morton until Trevino's father died in 1955. After the senior's death, the family moved to Littlefield.

Trevino likes to sketch "to pass the time away" while he is in jail. A few map colors are all the art supplies he has.

He likes to make picture frames, too, but he has no equipment to work with. He made a match stick picture to hold the pictures of his girl and brothers. He was more than 20 years old when he started putting the match sticks and glue together in a design that he likes.

He can make conventional picture frames but the goffer wood matches he uses in the jail kitchen where he cooks are the only kind of wood he has. Trevino is a trusty and does other work in addition to his cooking.

for the prisoners that usually number seven to 14.

He sketched LBJ after finding a billfold-sized picture of the former president in a magazine. His favorite sketch is of his "heart throb" as the county officers teasingly call Trevino's girl friend.

He has made lamps and jewelry boxes while he is "passing" time, also.

Trevino's most unusual art job is on himself.

His arms and the upper part of his body are covered with self-styled tattoos that he adorned himself with using a household sewing needle and India ink.

At close range one can see a pale "X" and three little stars just above the bridge of his nose.

JOE TREVINO learned to read and write while in prison and developed his artistic talent. Using a lead pencil, Trevino sketched LBJ from a small picture he found in a magazine. The center sketch is in light map colors and the pictures on the right are artistically framed in a mounting Trevino made from kitchen matches. Trevino tattooed his own arms, also, using a sewing needle and India ink.

### County Museum Meet Tonight At Courthouse

A special meeting has been called for 7:30 tonight in the County Courtroom of the courthouse to discuss important steps in getting the proposed Lamb County Museum underway.

A slate of officers will be elected and the organization of the Lamb County Museum Association will be completed.

Charter members are being solicited and plans for application for the organizational charter will be discussed.

A suitable building for locating the museum is being sought—one which is easily accessible to the public, large enough, fireproof, etc.

MAN TOOK FIRST STEPS on the moon Sunday, July 20, 1969—a record date in history. Neil Armstrong and Buzz Aldrin walked on the surface while Michael Collins waited in the three-man space capsule as it orbited the moon. The astronauts are shown, one to the extreme right of the television screen and the other in the center of the picture in the shade to the left of the U. S. Flag. Shown with a model of the command module and lunar lander and ascent stage are 11-year-old Chip Sayers of Morton, former Littlefield resident, and Jackie Speck, 10-year-old son of Mr. and Mrs. Jack M. Speck of Littlefield.

**Job Applications Up In June**

Job applications during June at Texas Employment Commission offices took an upward turn as students, 1969 high school graduates and others sought employment. Job applications jumped to 92,987, up 35,507 from May. After allowing for the three-day longer work month, most of the changes in activities from last month represent those occurring each year in June. Testing activities, both proficiency and specific aptitude, were up. June nonfarm job placements increased over May

by 8,675, largely in the "under 22" age group. Local offices filled almost 19,000 more farm job openings in June than they filled in May, mostly because of blackberry, vegetable and broomcorn harvesting, and cotton cultivation activities," said R. L. Coffman, Texas Employment Commission Administrator. Unemployment insurance claims for June were up over those for May by about 8,000. Cotton can take fast dyes.

**ACTIVITIES**

## What The Leader-News Thinks

### Farm Safety Week

There are so many special weeks and days on the calendar that one can become easily confused and bewildered as there seems to be an endless chain of proclamations and observances.

However, one of the really significant designated periods, one which is of particular interest to Littlefield and the surrounding area, is National Farm Safety Week, proclaimed for the week of July 20-27.

In this day of modern and mechanized agriculture, of farm homes served by electricity and gas, of a high-speed network of farm and ranch highways, the incidence of accidents occurring to our farm population is not, unfortunately, decreasing in proportion to the decrease in the number of farms or farmers.

Instead, farm deaths in Texas due to accidents increased by more

than 26 per cent during 1968 with almost 300 losing their lives and many more injured. These fatalities, scattered throughout 142 of the state's 254 counties, do not include deaths due to highway traveling to and from the farm.

Major causes of accidents on the farm are burns, drownings, falls, tractor accidents and farm machinery accidents other than tractor mishaps and accidents caused by animals.

National Farm Safety Week is a joint effort by communication media, by virtually all segments of the agricultural industry and by agri-business to call attention to and to decrease this tragic toll.

It is especially pertinent that we in Littlefield and the South Plains, while recognizing and participating in this special week, make every effort to eliminate these costly accidents throughout the year.

### THE FARMER'S WIFE Be With Us

By LIBBY MUGGETT

OH DEAR GOD,  
Creator of all the Universe,  
We thank You for letting man  
visit your Moon.  
For permitting us at long last to  
obtain the knowledge and  
equipment  
To accomplish this visit

KEEP US EVER MINDFUL that  
not until You are ready for us to  
discover something  
Do we ever do so,  
No matter how great our  
machinery and our technology.  
Guide our scientific minds in  
discovering each new fact,  
But keep us remembering that  
for each new discovery made,

THERE ARE A MILLION more  
mysteries still locked away from us.  
Give us big doses of humility if  
we are inclined to boast  
Or if our heads are prone to  
swell.  
Make us humble, God.  
Let us remember that we are but  
explorers of a tiny part of all that  
You have created,  
That we are but discovering  
different bits of a vast expanse of  
heavens that

YOU PUT INTO perfect working  
order.  
Eons and eons ago,  
Make us grateful, God.  
Let us see how beautiful is the  
planet Earth we live on.  
Forgive us when we misuse it.

HELP US TO REALIZE how  
wonderful was Your plan for man's  
habitat,  
How the moon, the stars, and the  
sun benefit the Earth and all on it.  
And when we make our first,  
faltering steps into Space,

Trying to see what all is out  
there,  
Be with us.

LET US REMEMBER it is  
Yours, only ours to discover and  
use.

If man uses the new knowledge  
he has found for mankind's good  
And if he increases his great  
potential in ways pleasing to You,

WE PRAY THAT the discoveries  
will come fast and furiously,  
With comparative ease and no  
loss of life.  
But if man begins to find ways  
even more horrible than he already  
knows

To put himself in an even more  
perilous position than now,  
We pray for You to please once  
more close up Your secrets from us  
Until man is ready for them.

MAKE US THANKFUL, God.  
Thankful that we don't yet know  
all that we think we're ready to.  
Thankful that You have chosen to  
have us search for knowledge.  
Thankful for what You have  
chosen to let us find out,  
But make us wise, God.

OH LET US GET wisdom along  
with all of our new knowledge and  
discoveries!  
Help us to remember that  
without wisdom,  
All new power,  
All solved mysteries,

ALL UNLOCKED secrets are  
dangerous.  
Be with us in our search for ways  
to use what we have now  
discovered.  
Be with us in our search for more  
discoveries.  
Be with us.  
Be with us.

### PAUL HARVEY

## Blow In My Ear

AROUND WASHINGTON  
recently they've been repeating a  
crude analogy intended to describe  
our President's support of the  
present Saigon government.  
They're saying he's like a man  
whose best friend got a girl into  
trouble and he, Nixon, feels  
obligated to marry her.

ON ONE HAND, President  
Nixon has been yielding to  
home-front pressure for  
disengagement while, on the other  
hand, he continues staunchly to  
defend the present Saigon  
government.  
Must we remain bethrothed to  
President Thieu?  
It is entirely possible that a  
foreign policy, expedient under  
President Eisenhower, may now be  
outdated.

IT IS ENTIRELY possible that a  
self-interest foreign policy, once  
denounced as "isolationism," is now  
the only workable alternative.  
Our increasing unpopularity in  
Southeast Asia and demonstrations  
against American installations  
worldwide attest to the bankruptcy  
of interventionism.

IN LATIN AMERICA, where  
other American handouts have  
often supported unpopular  
governments, we are resented,  
resisted, our diplomats and  
presidential emissaries are unsafe.  
Yet despite the conspicuous  
mobilization of opposition to our  
self-appointment as doctor, lawyer,  
defender and benefactor for the  
world—apparently President Nixon  
remains pledged to that policy.

STATE SECRETARY William  
Rogers explains Mr. Nixon's  
upcoming world-circling trip saying  
that the United States intends to  
remain a Pacific power with deep  
interest in the security of Asia.

And Vice President Agnew has  
labeled all critics of our Vietnam  
involvement "neo-experts" who  
"don't know what they're talking  
about."

AGNEW SAYS the Nixon  
Administration is "not going to  
default on the commitment of four  
Presidents."  
That latter quote contradicts at  
least one of President Nixon's  
pronouncements, to the effect that  
we will not again, alone, defend any  
of the 41 other nations with which  
we have mutual-defense treaties.

THE PRESIDENT has  
recognized the mathematical  
impossibility of such a polygamous  
commitment, has promised that we  
will not again "go it alone" as we

have, except for token assistance, in  
Vietnam.  
So we are learning—but we have  
not yet learned—that our best  
possible usefulness to our fellow  
inhabitants of this planet is to serve  
not as an arsenal but as a  
lighthouse.

OVEREXTENSION has severely  
damaged American interests.  
Formerly we were told that  
"isolationism" wouldn't work  
because we "need world markets."  
Now we are seeing American  
markets pre-empted and American  
investments abroad confiscated.  
Ironically, for the most part, we  
are in the most trouble in the parts  
of the world where we have spent  
the most money. That should tell  
us—U. S.—to mind our own  
business.

IF WE DO THAT—mind our own  
business—efficiently and profitably,  
we may again lead the world.  
We've been pushing on a string  
and it's been buckling. Pull it.  
"Blow in my ear and I'll follow  
you anywhere."

### NEW INDUSTRY

Continued from Page 1

attributed to English sparrows. In recent  
research the sparrow has been blamed for  
encephalitis because of the sparrows'  
close association with man and the high  
rate of antibodies to encephalitis virus  
sometimes found in these birds (an  
indication that the bird has had the virus  
at some time).

Duran Bishop is president of the  
corporation. He graduated from Anton  
High School and worked for a pest  
control in Lubbock before moving to  
Littlefield in '64.

Bishop's associates call him a self-made  
chemist. Since becoming interested in  
chemicals, Bishop has taken numerous  
university courses, "and read and digested  
stacks of books on the subject."

He used the bird repellent "going on  
three years" before Birdmaster was  
incorporated. He realized it was going to  
take quite a bit of money to test the  
chemical. "One day someone suggested  
forming a corporation and selling shares,"  
Bishop said. Duran Bishop heads the  
corporation as president, L. E. Sullins is  
vice president, and Bob Roden is  
secretary-treasurer.

Presently the corporation is set up to  
make 100 gallons of Birdmaster per day.  
Within one month the Littlefield firm can  
change over to 500 gallons per day  
production.

The number of employees needed in  
the future isn't known now, but  
Birdmaster, Inc. "will gear to whatever  
production is needed."

## What Our Readers Think

### Baseball Workers Thanked

Littlefield, Texas  
July 21, 1969

Mr. Bill Turner  
Lamb County Leader-News  
Littlefield, Texas

Dear Mr. Turner:

We would like to express our  
appreciation to you and your staff  
for the fine news coverage your  
paper gave the baseball program for  
Littlefield this summer.

We would, also, like to express  
our appreciation to all the parents  
who worked at the Concession  
Stand this baseball season, and  
those who brought ice cream and  
brownies for the Civic Ball Games.  
As you know, the Concession Stand

is one means of support  
baseball program.

Also, we would like to  
the parents who worked  
Concession Stands during  
Tournament, and the  
donated ice cream, brown  
food for sandwiches, and  
loaned equipment to the  
Concession Stands. The total  
alone involved more than  
parents in our Concession

To you and to all of  
would like to say a sincere  
"You" for a job well done.

### THE ABUNDANT LIFE

## Do It Today

By BOB WEAR

THERE ARE SO MANY  
meaningful and important things  
that we are going to do. There are  
things we can do, should do and  
wish to do.

All of this is commendable;  
however, there is a tragic element  
involved in the fact that we are so  
often inclined to delay.

We are going to do these things,  
but not today.

MOST OF US have good  
intentions, and to make them serve  
their potential good, they must be  
carried out.

Many of these good intentions  
can be acted on today.

SOMEONE HAS SAID, "He was  
going to be all that a mortal should  
be, tomorrow. No one should be  
kinder or braver than he,  
tomorrow. A friend who was  
troubled and weary he knew; who'd  
be glad of a life and who needed it,  
too; on him he would call and see  
what he could do, tomorrow."  
"Each morning he stacked up the  
letters he'd write, tomorrow. He  
thought of the folk he would fill  
with delight, tomorrow. All that he  
left here when living was through  
was a mountain of things he  
intended to do, tomorrow."

### County Jails Two

Willey Conley, a Littlefield Negro, was  
jailed Sunday on a charge of assault with  
intent to commit murder. He was released  
Tuesday on \$1,000 bond.

L. A. Willis of Littlefield was jailed by  
County authorities Saturday on a traffic  
violation. He paid a \$20 fine Monday and  
was released.

### Thefts Reported

Two cases were reported to city police  
Saturday.

A cigarette machine in a service station  
which had been closed several months  
had been broken into. When the station  
was re-opened Saturday, the breaking and  
entering was discovered.

Entry to the building was not forced,  
but taken from the machine were 85  
packs of assorted brands of cigarettes and  
\$7.80 in change.

Theft of eight stereo tapes, valued at  
\$79, was reported to city police Saturday  
by Gene Williams at the Dairy Queen.

DO IT TODAY must be the  
guideline for our actions in all areas  
of our living experience.

There may be some things that  
cannot be done today, but today is  
the ideal time for doing most of the  
things that should be done.

PERHAPS WE INTEND to  
express appreciation to someone, or  
assist someone in need, or perform  
some act of good citizenship, or do  
a job that should be done, or make  
some self-improvement.

We should do it today.

Undue delay causes another very  
difficult and sometimes critical  
problem. There are duties which  
rightly belong to this day, and  
should be done. If they are not  
done, a situation develops in which  
there is a collision of duties.

NEGLECTED DUTIES do not  
go away, but rather remain to  
collide with the new duties of new  
days and new conditions of life.  
When possible, we must look upon  
each duty and obligation with the  
spirit that we will do it today.

"DO IT TODAY" is a  
fundamental element in the  
dynamic spirit of life, because it  
touches every facet of the life  
situation. It is the element of life  
action that helps to make us free  
and effective in our living.

Southwell said, "Shun Delays,  
they breed remorse; take thy time  
while time is lent thee.—Good is  
best when soonest wrought;  
lingering labors come to nought."

DO IT TODAY is important as a  
principle of action, because it  
enables us to attain the optimum  
level in good effects from our  
efforts. Much of the effectiveness  
of our actions can be lost through  
unnecessary delay in our  
performance.

Today is the very best time for  
doing many of the things that must  
be done, and is the only time for  
doing some things.

There is so much that needs to  
be done, that can be done and is  
waiting to be done. It may be that  
some of these things can be done  
later, but some of them must be  
done today or not at all.

TOO MANY OF US are waiting  
when we should be up and doing, if  
we are going to live, do it today.

# Corn Husking Bee Celebrates 'Moonday'

Monday was "Moonday", a prompt holiday for many people, celebrating the Apollo 11 moon landing.

But for Mrs. Percy Carter and some of her Lums Chapel neighbors, it was the annual corn husking bee—the day to put up enough corn to last until next summer.

The day started early for Mrs. Carter, her daughter, Mrs. Hall Martin, and Mrs. W. D. Terry. Mrs. Ernie Goertz, Mrs. Percy Carter and her children Hall T. II and Sharon Martin.

Percy pulled the corn, Hall T. II and Sharon helped shuck and all of it, and the ladies fixed it for the freezer.

"We'll get together and do this every year," Mrs. Carter said, removing her glasses. "I've got corn all over my

glasses, face and hair," she laughed. "We just have a barrel of fun. And I'm real proud I've got my corn fixed. I've got all I'll need for a year."

Mrs. Carter has her corn put up, now it is time for her to help the neighbors who helped her. This group has been having corn husking bees for several years.

As each one's corn is ready, the women take turns getting together and helping each other put their corn in the freezer.

A long morning is usually enough time to get enough corn put up to last until the next summer.

"Sometimes we all have dinner together," Mrs. Carter said. "But this afternoon we've got to get together to plan a wedding shower, so all the ladies went home."

MRS. PERCY CARTER, right, and her daughter, Mrs. Hall Martin, blanche and cool corn from the freezer. Mrs. Carter and several of her Lums Chapel neighbors always get together when it is time to gather and freeze their corn and make a morning or a day out of it "having a barrel of fun" as well as getting a year's supply of corn in the freezer.

## 'Ya Gotta Wanna' Theme Of Meet

The youth division of First Baptist Church in Muleshoe is sponsoring a youth-led week of events, titled "Ya Gotta Wanna!" beginning July 27 and continuing through Aug. 3 at the church, located at 220 West Ave. E. in Muleshoe.

Youth minister for the week will be Rev. Dean Allen, a graduate of Hardin-Simmons University in Abilene who is currently enrolled in his second year at Southwestern Baptist Theological Seminary in Fort Worth.

Services will be conducted at 8 p.m. nightly, with the youth choir meeting at 7:15 each evening for rehearsal. Visiting youth have been invited to rehearse and sing with the group.

"This theme expresses the belief of the youth here that in order for anyone to accomplish anything in life—and especially in regard to his personal relationship to Jesus Christ—he's 'gotta wanna,'" said Mack M. Moore, minister of music and education at the church.

"The public is cordially invited to attend, where adults, as well as the youth of this area, are most welcome," said Rev. D. C. DuBose, pastor of the church.

## Wooten Shower Honoree

Gary Wooten was the guest of honor at a bridal shower given in the home of Mrs. Wooten.

Approximately 35 guests were present from 9 to 10:30 a.m.

The table was covered with a white cloth centered with an arrangement of fresh cut flowers.

Silver and china appointments were used to serve coffee, tea and coffee cake.

Honorary gift was a set of crockery and a set of dinnerware.

Honorees were Meses. Earl Glass, Reece Pritchard, Brad Gilbert, Ted Rendleman, Bob Harrell, Monroe Parker, L. L. Anderson, Carl Butler, Jack Grace, S. M. Monroe, Macky McCarty, Richard Gore and Cecil Overstreet.

**BAD BLIZZARD**  
The blizzard of 1888 concentrated on New York City. Snow began falling down Sunday night, March 11. By Monday morning, drifts were 10 to 15 feet high. Before noon, every house, cable car and elevated train had stopped running. Firemen raised ladders to rescue passengers from stalled streetcars.

**WHERE ARE THEY?**  
Be sure to know where your children are going when they leave the house with bathing suits on and towels in hand. Swimming in an unfamiliar area without proper supervision could be a tragic mistake.

## Cox Tin & Plumbing In Business 44 Years

Forty-four years is a long time to be in the same business, and that is how many years Bob Cox has been in the plumbing business in Littlefield.

Plumbing has come a long way since Bob started Cox Plumbing in 1925.

In addition to being a jim dandy plumber, Bob Cox is also a salt water fishing enthusiast. His favorite fishing spot is down in Guaymas in Old Mexico, and he fishes there once or twice a year.

"I've caught every kind of fish there is to catch," Bob said, "except for three varieties."

Bob's take includes yellow tails, groupers, red snappers, triggers, barracudas and porpoise, among others, more familiar salt and fresh water fish.

Bob has brought back "a thousand couple of thousand pounds of fish" from his excursions off the California coast "Old Cortez" country.

According to Bob, he forgets all about plumbing when he is down there "sitting 'em up."

A little small game hunting fills Bob's hobbying time.

He is a member of the Littlefield Chamber of Commerce and a Missionary Baptist Church.

When it comes to plumbing, Bob takes care of your small do-it-yourself plumbing needs or a major turn-in commercial job. He handles repairs, installation of refrigerated air, evaporative coolers, motors, excelsior pads, floats—everything needed to get those air conditioners going to keep the going.

Lennox is Cox's main line of refrigerated air. Arctic Circle, Alpa Universal and Wright are some of the brand names in evaporative coolers.

In plumbing repairs, Cox has everything from a washer for that leaky faucet to the completely new, never-to-never wear out fixtures.

Cox does all types of commercial and residential plumbing repairs.

Call Bob Cox at 385-4020 for a plumber who really knows his business. Or stop by Cox Tin and Plumbing at 708 E. 3rd and browse around the handyman's supply.

## Roadrunners Keep Pee Wee Leadership

The Roadrunners continued their unbeaten record Thursday night with an 18-4 win over the Green Ramblers in Pee Wee League action. Tasty Cream took a 9-2 loss

Friday night, as Larry Whitson pitched the Barrucas to victory.

Brent Jones was the winning pitcher in the Roadrunners' win. Jimmy Avery hit a home run and Joe Coffman got two base hits for the Roadrunners. Outstanding players for the losing teams were Kendon Zahn, Green Ramblers, and Bonnie Martin, Tasty Cream.

## Anton Area Team Meets Hereford 9

ANTON—The Tumbleweed All-Stars, made up of players from Anton, Frenship and Shallowater, will take on Hereford here tonight, needing a victory to stay alive in the double elimination Pony League all-star tournament underway here.

The winner of that game will meet Borger Friday night, and a Borger win would end the tourney. Should the Tumbleweed-Hereford winner topple Borger Friday night, the tourney would be extended to a championship game Saturday night.

Borger topped Hereford, 11-6, Monday while Tumbleweed was ripping Castro County, 13-1. Hereford eliminated Castro County, 7-4, and Borger jumped on Tumbleweed, 12-3, in games Tuesday night.

The loser of tonight's Tumbleweed-Hereford game will be eliminated.

## Plainview AL Wins Tourney, Playoff

Plainview American League All Stars, fresh from winning the area tournament staged in Littlefield, walloped Levelland there Tuesday night in an area playoff game.

The team's 6-1 victory came after three homers, two by big First Baseman Wesley Brown and another by Bobby Chaffin. Danny Huffines, who pitched Plainview's win over Sudan-Amherst in the Littlefield tourney, was the winning hurler.

The victory put Plainview in the playoffs at Lubbock. Brown rapped two doubles and scored a run to lead the American All Stars to a narrow 2-0 win over the Plainview National League. All Stars here Saturday night.

The win gave the American Leaguers the District 26, Area

A title and moved them into the game with Levelland.

Hal Wesley was the winning pitcher for the American league with Chad Williams doing the catching.

Steve Westbrook and Bret Wells were the National league battery.

The American League scored in the top of the third and sixth innings.

### RESUSCITATION

Knowing how to revive a drowning swimmer may someday save the life of a loved one. Many persons who have drowned in home pools may have been saved if someone nearby knew how to apply artificial resuscitation.

## School To Begin 7th Grade Football On Limited Basis

Littlefield schools will have football on a limited basis for seventh grade boys this fall.

Two out-of-town games will be played with nearby schools, along with two home games. Other activity for seventh grade footballers will be intramural, or practice.

The okay for seventh grade football came at a recent school board meeting. The vote was 4-2, with board members Buddy Bingham, F. L. Newton, Bob Roden and Wayne Streety voting for, and Jack Barton and Pat Downs voting against.

Seventh grade football has been a lively topic here in recent years, and it has drawn full discussion at board meetings.

Trustee Bingham, who introduced the motion to have the sport, said he believes the school ought to have football for seventh graders "so we can compete on an equal basis with other schools."

Bingham said he thought the

overall athletic program would be benefitted and gate receipts increased enough to offset costs of the seventh grade sport on a long-range basis.

He said the program should provide better training for boys of this age, "and this will result in fewer injuries."

Trustee Barton has been opposed to the program involving games with other schools, although he has supported it in the past on an intramural basis.

"When you schedule games," he said, "that's combat." Barton listed his reasons for opposing the sport at a competitive level as: (1) the expense of additional equipment; (2) the expense of employing another coach which he felt would "naturally follow"; and (3) the proneness to injury of boys that age and size. He also said he thought boys "burn out" earlier in the sport when they start earlier.

Supt. Paul I. Jones has said expenses will have to be held down, and that he felt the regular six-man coaching staff can handle the additional duties.

Seventh grade football was offered here until recent years, but became the subject of some criticism when games began taking the youngsters farther from home, and keeping them out late on school nights.

The board noted in approving the sport recently that games would be on a limited schedule with "nearby" schools.
