

# Wildcats Ready To Trap Lobos In Battle Friday Night

and has the potential to score anywhere on the field," Head Coach Larry Blakely stated as he reviewed the Levelland roster in preparation for Friday night's game in a battle for "The Trap."

"And while they were defeated by Brownfield last week, they did score 27 points, and all four touchdowns were made by Lorenzo Childers."

"Childers is a threat to score anytime

he touches the ball and of course his biggest asset is speed."

"They'll put the ball in the air a lot, also... of 47 plays our scouts charted last week, 23 were pass plays."

Offensively, the Levelland team runs

out of the same veer offense that Cooper used last week. The Lobos' quarterback is Don Yarbrough, a 145-lb. senior that Blakely describes as an "excellent option quarterback and a real fine passer."

"He'll mix 'em up on you, Blakely stated, instead of going short most of the time like Choban (Kelly Choban, Cooper quarterback) did, Yarbrough likes to go deep for the bomb also."

"To control the running game we'll have to slow down Childers and likewise to control their passing game, we'll have to prevent the long touchdown pass."

Robert Dunlap is Yarbrough's favorite target and he caught five passes for 124 yards last week and their tight end, Russ Phillips caught three for 60 yards.

Levelland's offensive line, from tackle to tackle, averages 187 pounds.

Defensively, the Lobos will not stunt as much as Cooper did last week, "they'll line up with you and play you pretty even," Blakely said.

Bobby Baggett leads Levelland defensively and is described as possibly the quickest middle linebacker Littlefield will play against all year.

Their defensive line averages 170 pounds and they have seven players that play both offensively and defensively.

"We feel their defense is a lot better than they showed against Brownfield," Blakely added.

### Scott Yarbrough Wins First Football Contest

Scott Yarbrough of Amherst was the only entry to miss just two games in last week's Leader-News Football contest. Yarbrough missed the Morton-Plains game and the Lamesa-Carlsbad game as both of those ended up in ties.

Yarbrough won the \$10 first prize. Steve Pollard of Enochs captured the \$5 second prize with three misses, but had the closest tie breaker.

Lamar Pollard of Levelland won the \$2 third prize also with three misses and the next closest tie breaker.

Others with only three misses include Jeff Birkelbach, Gaylene Rogers, George Ann Walden, Harold Pollard, Kevin Aduddell, Craig Puckett, Floyce

Pierce, Mark Williamson and Nevill Manning.

Those missing four included John L. Smith, Ronnie Dalton, Jimmy Newman, Lloyd Pollard, Loyd Hood, Tommy Hood, Max McLelland, Virginia McLelland, Gracie White, A. D. Perrin, William P. Holland, Sr., Jimmy Clayton, Rickye Parker, Dana Clayton, Paul Yarbrough, Brad Walden, N. C. Horn, W. W. ### Choir Parents Slate Meeting

Parents of choir members of Littlefield schools are invited to a meeting Monday night, Sept. 15, at 7:30 in the High School choir room.

The meeting is for parents of all choir members, whether high school or junior high school.

New officers for the organization will be elected, and the spokesman for the organization states it is "important that all parents be present for the meeting."

### Scout Mothers Invited To Meet

Mothers of girls who wish to join the Girl Scout program are asked to meet today at 1:30 p.m. in the Girl Scout Hut, 820 West 3rd.

This year, for the first time, Scouting will be open to first graders, and those mothers are urged to be present at the meeting too.

Brownies are for girls 6 years old and up to the fourth grade, when they advance to the Girl Scouts.

All mothers of girls from the first through the sixth grade are invited to the meeting, and scout meeting dates will be established then.

### Chili Supper Served Friday

Prior to the game between the Littlefield Wildcats and the Levelland Lobos here Friday night, the Littlefield Rotary Club will be serving their annual chili supper in the agriculture and community center on South Hall Avenue (Highway 385). Serving will begin at 5:30 and continue

until 7:30 p.m. Game time is 8 p.m. Tickets are \$1.75 and may be purchased from any Rotarian, or at the door. Included on the meal will be chili, a dessert and coffee or tea. The public is invited to go by and eat supper before the game.

## Paralyzed Lions Governor, Wife Only Slightly Hindered

By NILAH RODGERS  
For those who do not know James R. "Jim" Johnson, district governor of Lions 2-T2, members and visitors are probably only curious why the district governor and his wife remain seated throughout their visits. Most are only mildly surprised to note that Jim delivers his stirring address while seated, also.

But if you linger after the meeting, you'll see Jim reach under the table for a pair of metal crutches and see Charla Johnson expertly maneuver her wheelchair away from the table.

Both the district governor and his wife are paralyzed from the waist down, but their handicap is a mere inconvenience in their goal to serve their neighbors.

Never before have Lions seen such an exuberant leader. Lionism in West Texas is on the grow with Jim's favorite words, "enthusiasm," "involvement." He generates a fervor that is infectious and contagious. And never before have Lions had so much fun.

No one has ever seen the likes of the Membership Mafia headed by "The Godfather," Kip Cutshall, 2-T2 membership development chairman.

The mafia has gone all out, dressing to the hilt to play the part of gangsters straight out of the Roaring 20's, complete with weapons and assumed mannerisms.

Thought that has gone into the Membership Mafia is evident with Tom "Dirty" Tollett carrying his machine gun, Hubert "Hatchett" Henry with his machete, James "Edward G." Lee with his gun stashed in his violin case. Roland "Ding-a-ling" Bell, Don "Ever-Lovin'" Avery, Jerry Don "Rossi" Ross, and Curtis "Curtains" Wilke are joined by

the likes of Sedell "Razor" Black complete with his straight edge razor and shortened baseball bat with evidence of hair and blood.

During a cabinet meeting at Tahoka, the Mafia was roused by the sheriff's department, after someone attempted the assassination of District Governor Johnson. Instead of a solid hit, the would-be assassin managed only to get a wheel on the governor's chair. Tahoka Lions replaced it and got the governor rolling again before the noon luncheon.

After the Mafia visited the Lubbock South Plains Club, the sample award plaque was stolen and is still being held for ransom. A water gun fight developed at Olton which almost drowned the tail twister. When the Mafia visited the Levelland club, the gang found flat tires when they returned to their cars. And the membership medalion was stolen during the Plainview visit—the medalion that Governor Jim passes around proclaiming that it can't be had even for a right arm. The only way a person can get a medalion is to bring in a new member.

He charged his cabinet members with "One new member won't do, you've got to get two." The phrase has been repeated so often that even club members are saying—"I've got one new member—now I've got to get my second one."

Originally, Jim thought the Mafia and their methods might increase membership 20 percent, or 500 new members. Now it looks like the Mafia influence may mean 10 to 15 new clubs and 1,000 new members—a record unequalled. Jim's home club, the Lubbock Redbud, added 13 members in one month and has sponsored five new clubs.

"We may exceed our goal by 100 to 200

percent," Jim added. "There's never been anything like this. We've tried all kinds of gimmicks, but we've never had anything work like this. Our timing was right. It's different, unique. They dress the part, go whole hog with handles, clothes. They've just floored everyone with the effort they put in it."

If the Mafia has startled observers with what they've put into Lionism this year, it is because of the dynamic enthusiasm Jim exudes. Not only is he determined to set a new record for numbers, but he thinks his district can retain 9 out of 10 through induction with pageantry, proper indoctrination, and a follow-up plan for retention. He is a firm believer in teaching tradition, history and heritage, and he does it with the fervor of a Baptist preacher.

Now 35, Jim has been paralyzed since 1956. When he was 16 he was injured in a motorcycle accident. He was naive with the folly of his youth. "For a while I thought there would be a miraculous cure like the miraculous conception," Jim admitted. "Finally, I had to adjust to the idea that I would always be crippled. But I was bashful and afraid to get out in public. It took me a long time to understand that people are basically kind and considerate."

Charla Johnson became a polio victim when she was 10 years old.

The couple met at Daytona Beach Junior College in 1958, and they married the next year. The Florida college catered principally to Korean War veterans and other handicapped people. For the first time since his accident, Jim was surrounded by many whose handicaps were greater than his.

"There were people there without arms or legs," Jim said. "A tank commander who had been burned all

over had claw hands that had to be replaced every two years. An Italian friend who had cerebral palsy walked like a center fielder—backward better than forward."

But because all around them were their own kind, they learned to laugh and kid each other. Before Jim left the college trained as an accountant, he had put aside his shell and taken Charla as his wife.

Although college helped him overcome his fear of getting out in public, Jim would take a failing grade rather than speak before a group. "I was literally terrified out of my brain when I had to talk before a crowd," Jim laughed. "When I was in the first grade, a little girl had called me puss face. I recalled her barbed remarks everytime I had to address anyone."

Then Jim joined the Lions Club and it was soon evident that the only way he could advance would be to address a group. So he started practicing.

"I addressed Charla, the kids, the dog, blank walls... I wore everyone out practicing on them," Jim added. "The biggest thing that helped me overcome my fear of speaking before a group was realizing that nine out of 10 out there in the audience would be as scared as I was if they had to get up before the same crowd and speak."

"Now I enjoy speaking so much, I'm often referred to as bucket mouth," he added with a twinkle in his brown eyes.

If Charla doesn't enjoy hearing her husband give the same or similar speech over and over, no one would know it from the way she gives rapt attention. Already they have visited more than half of the 63 clubs in this district, and Jim plans to be through with his official visits by Oct. 1.

Charla used to wear long hair, but when Jim's term as governor started, she cut it very short. "When Jim says 'let's go,' Charla said, 'I just say, alright, just give me 10 minutes and I'll be ready.'"

Jim doesn't discount for a minute the important part wives play in Lionism.

"Behind every successful man there is a woman pushing," Jim said, "and a surprised mother-in-law," he added in an aside. "If my year is successful, I'll owe it in no small way to my gracious wife and my family's sacrifices and the wives of Lions in this district."

Few people realize the sacrifice it is to attain an honor such as district governor. For Jim it was a dream for a long time before it became a reality, and something both he and Charla planned for.

It was a goal he had in mind since 1969 when he determined that he had something to contribute. That year he started reading and studying and doing everything possible to prepare for the position he wanted.

He knew he would have to spend more hours at the contributory office than he would with his accounting business, his wife and his son and daughter. And he started setting aside money, because it was going to cost him between \$5,000 and \$10,000 out of his own pocket.

To Jim, all the effort has been worth it. He basks in the glow of a job well done. Only he knows how very much work has gone into this term. The state convention in Dallas was a working one.

"The international convention in Hawaii will be the culmination and fun part of a glorious year of service," he concluded.

OFFICE CONSTRUCTION is getting well underway at the American Cotton Growers' Textile Plant east of town. Looking through the front of the building which faces east, a carpenter was caught in action Tuesday afternoon, as rafters and other bracing is nailed in place. Roofing will soon go on. ## Freeze Main Dishes For Menu Variety

Freezing main dishes can mean menu variety and provide appetizing, nutritious foods on busy days, says Mrs. Dorothy Powell, County Extension Agent.

Older children can help by placing frozen casseroles in the oven when they get home from school— and dinner will be ready when parents come in from work.

"For freezing main dish meals, prepare the food in the usual way, and cook it until almost done.

"Remember to season lightly— because spices such as pepper and cloves become strong in flavor during freezing. Then, just before serving, add more seasonings if they are desired," she said.

To freeze, cook food quickly and wrap it in moisture-vapor-proof material such as freezer paper or heavy aluminum foil, she said.

"In baking combination main dishes for freezing, use pans lined with aluminum foil— allowing extra wrap that will fold over the top later.

"After baking— because hot food must be cooled quickly for freezing purposes, let it stand at room temperature 30 minutes. Then complete the wrap immediately, label, and freeze at 9 degrees F. or below."

Cooling this food quickly stops the cooking, retards bacteria growth— and helps retain food color, flavor and texture, Mrs. Powell explained.

"Later when ready to heat the food, remove wrappings from the package and place food in the oven in the original pan. Bake until heated throughout."

Of course, homemakers can save even more time if they cook enough for several meals, she noted.

Her recipe for lasagna serves 24 and is excellent for freezing.

### LASAGNA

- 2 1/4 lbs. ground lean beef
- 1 cup chopped onion
- 3/4 tsp. garlic powder
- 4 tsps. salt
- 3/8 tsp. red pepper, crushed
- 1 Tbsp. oregano
- 3 Tbsps. parsley flakes
- 3 cans, (6 ozs. each) tomato paste
- 3 cans, (8 ozs. each) tomato sauce
- 2 1/4 cups hot water
- 3 lbs. cottage cheese, cream style
- 18 (about 1 lb. uncooked) lasagna noodles, cooked
- 3 cups or 12 ozs. process Cheddar cheese, shredded
- 3/4 cup Parmesan cheese

Line 8- by 8-inch baking pans with heat-resistant freezer wrap. Allow enough extra wrap to fold over top. Use one pan for each six servings or one-fourth of the recipe. Do not line pans for food to be served without freezing.

Crumble beef; cook until lightly browned.

Stir in onion. Cook until onion is tender.

Drain off fat.

Stir in seasonings, tomato paste, tomato sauce and water. Simmer for 5 minutes, stirring occasionally.

In each pan, spread a layer of meat mixture.

Add a layer each of noodles, meat mixture, cottage cheese, process cheese and Parmesan cheese.

Repeat layers until all ingredients are used.

To Serve Without Freezing: Preheat oven to 400 degrees F. (hot). Bake 30 minutes or until sauce bubbles at edges.

To Freeze: Fold and seal wrapping. Label and freeze immediately.

To Heat Frozen Food: Remove freezer wrap. Place food in baking pan. Bake 1 1/4 hours or until sauce bubbles at edges and center is hot.

Calories per Serving: About 250.

Variation: Italian lasagna— use ricotta cheese in place of cottage cheese and mozzarella cheese in place of process Cheddar cheese. About 280 calories per serving.

## David Norman New Accountant

Alvin Webb announces the association of David A. Norman with his public accounting firm here in Littlefield.

## Posse Travels To Boys Ranch

About 65 members of the Lamb County Sheriff's Posse made their annual trip to Cal Farley's Boys' Ranch over the Labor Day weekend.

Members visited with the boys, went on a trail ride in the rolling hills, and camped out two nights. They rode in the grand entries for the rodeo Sunday and Monday.

"We always have an enjoyable time up there, and it's a place to be truly proud of for the fine work they do with the boys left in their care," stated Mrs.

Bill Blackwell, reporter for the club.

She also reports that Sheriff's Posse has ridden nine parades this year, and placed in all but one of the parades. "We have two more parades to attend before the season closes," she said. "Between the parades, plays and trail rides, we do a lot of saddling up, and have a lot of fun along with it."

She concluded, "We would like to invite other riders to join and become a member."

## Bonds Sales At \$9,662

July sales of Series E and H United States Savings Bonds in Lamb County were reported by County Bond Chairman James T. Lee.

Sales for the seven-month period totaled \$101,989 for 78 percent of the 1975 sales goal of \$130,000.

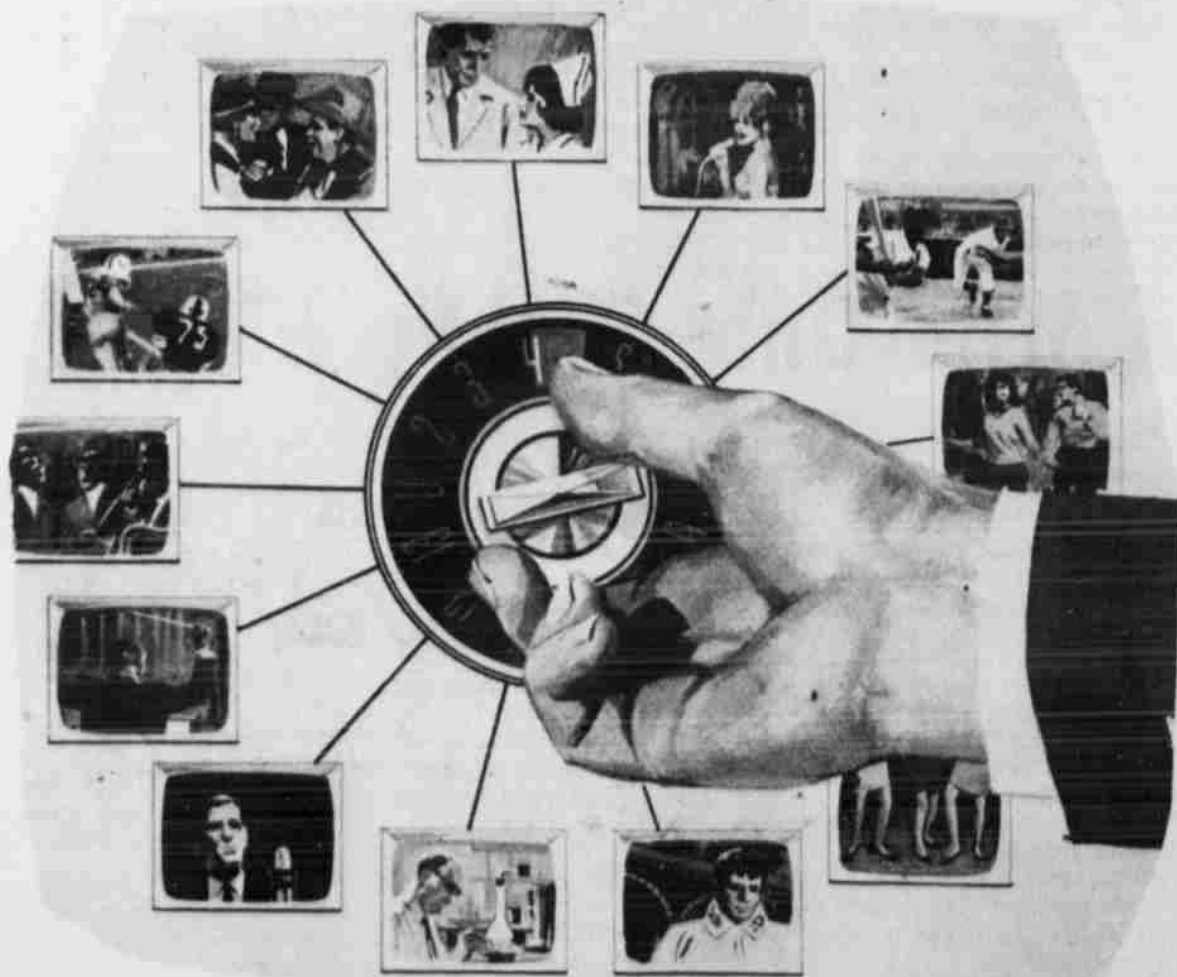

July sales were \$9,662. Texas sales during the month amounted to \$20,018,842, while sales for the first seven months

of 1975 totaled \$140,879,538, 60 percent of the yearly goal of \$234.3 million.

### Census Survey Set This Month

The Bureau of the Census will survey a sample of households in this area during mid-September to determine the extent people have been immunized against selected diseases, according to Percy R. Millard, director of the Bureau's Regional Office in Dallas.

Census Bureau interviewer who will visit households in this area is Rosemary McNeese of Rt. 1, Amherst.

The immunization survey is conducted throughout the U.S. every year and provides information on immunization against measles, influenza, smallpox, polio, diphtheria, whooping cough, tetanus, rubella, and mumps. This information is needed for administration of health programs geared to disease prevention.

These health questions are in addition to the usual ones asked in the monthly survey on employment and unemployment conducted nationwide by the Bureau for the U.S. Department of Labor.

Results of the monthly employment survey provides data on conditions in the labor force, prime indicators of the economic health of the country. For example, the Nation's unemployment rate was 8.4 percent in July, down from the second quarter level of 8.9 percent but still higher than a year earlier. Total employment was 85.1 million in July.

Information supplied by individuals participating in the survey is held confidential by law and is used only to compile statistical totals.

## To The EDITOR

Dear Friend:

The Annual Field Day and Open House of the Texas Agricultural Experiment Station in cooperation with High Plains Research Foundation at Halfway, 14 miles west of Plainview has been scheduled for Thursday, Sept. 11.

Tours will begin at approximately 1 p.m. If you desire to come early, a lunch wagon will be set up to sell barbecue lunches and a rest area will be provided.

This should be an exceptional tour this year. You will have an opportunity to see studies on weed control in corn, greenbug resistant hybrid sorghums, the latest on sunflower research, and numerous other current projects.

I hope you will take this opportunity to see what your money is doing for agricultural research in West Texas.

Sincerely,

High Plains Research Foundation

Dear Editor,

I was just wondering if all riding clubs have as much fun as Lamb County Sheriff's Posse.

We've been kinda stacking it on for the last two weekends.

We went on a trail ride and camp out at Bull Lake on the 23rd and 24th. Made camp Saturday evening and had a nice ride around the Lake. Then that night we had a nice supper and a lot of fun, stayed up kinda late watching all the activities on the Lake. Some stayed all night while some went home, and arrived back the next morning and went at it again.

The lake manager admitted us to a large Ranch that surrounds the Lake, and away we went. Riding the brush and over the hills furnished some wonderful views and entertainment for a group of Plains folks who seldom see such sights. Back at camp at high noon, we en-

joyed a feast of those good old South Plains watermelons. After a short rest, everybody settled down to a lot of lunch and conversation.

It was nearly night before everyone decided to call it a day and head in.

Then Saturday morning, 30 or some 35 trailers, campers and pickups and trucks gathered around for the big time of the year. Some 62 members and their families journeyed to Boys Ranch, up north on the Canadian River.

For the past several years this Club has been guest riders at the Boys Ranch Rodeo—the most unique affair of its kind in all the west. We make a Jack Pot and everyone pitches in for the group and other goodies. We take a large freezer and lots of meat and supplies. All camp in caravan style, tents, campers, trailers, lean-toos and plain bed rolls. Everyone camps out.

A large trench with a big grate over it is the stove that feeds us all. Ham, eggs, hamburgers, beans, salads, fruits, and all that goes with it. Just imagine 30 lbs. of bacon and 7 dozen eggs being cooked for breakfast by some of the least experienced cooks you ever saw. But it's finger licking good, and every bite is gone.

Trail rides on the Canadian breaks and along the river is something long to remember. And just imagine, 42 riders riding single file along those steep and rocky trails.

Sunday morning at 10:30, everyone who can, goes to Church in the beautiful chapel. And this is a wonderful experience for those who really care. To see some 332 fine young men between 3 and 17 years of age who have found a shirt-tail to hang onto, enjoying the kind of life that the Great God in Heaven has made possible for them.

Yes, Boys Ranch does something to you that will always be remembered. Their hospitality and wonderful attitude seems enchanting to all who go there.

## CLIPS & TIPS

By JOELLA LOVVORN

IN MY COLUMN Sunday, regarding the canning of beets, I forgot to mention that the beets are to be brought to a boil and heated through in the vinegar-sugar mixture before being placed in the jars and sealed. You do not pressure these.

**GIVE YOUR NEXT ROUND** of burgers a zesty western topping that will quickly round up the gang. All the hands of the house will go for these hefty flavor-packed burgers.

All it takes to turn ordinary catsup into a zippy sauce is a touch of chili powder and onion, says Mrs. Susan Head, president of Littlefield's Pomona CowBelles.

When the sauce is fortified with red or pinto beans and used to top beefburgers, it's mighty good.

- BEANY BEEFBURGERS**
- 2 to 3 lbs. ground beef
  - 2 tps. salt
  - 1/4 tsp. pepper
  - 1/2 cup catsup
  - 1 tsp. chili powder
  - 1 can (16 ounces) red or pinto beans, drained
  - 2 Tbsp. finely chopped onion
  - 2 Tbsp. finely chopped green pepper
  - 6 to 8 split hamburger buns

Combine ground beef, salt and pepper and shape into 6 to 8 patties 1/2 inch thick. Combine catsup and chili powder in saucepan. Add beans, onion and green pepper and heat slowly 5 to 10 minutes, stirring occasionally.

Place patties on grill 3 inches above ash-covered coals and broil 3 to 4 minutes on one side. Turn and continue cooking 5 to 8 minutes longer, depending upon degree of doneness desired. Place beef patties on bottoms of hamburger buns and top each with 3 to 4 tablespoons hot bean sauce. Place bun tops over sauce. 6 to 8 servings.

**BROILED KABOBS**, so popular at summer cookouts, aren't really new—they're just better. The idea of cooking meat on skewers actually originated hundreds of years ago when ancient nomads speared pieces of meat on their swords to roast over open campfires.

The difference between now and then is a considerably more pleasurable dining experience.

For today's beef, unlike most of the wild game that provided a meal after the hunt in those early days, is a tender, quality product—bred and fed for eating satisfaction.

Then too, modern cookery calls for marinating less tender beef cuts to be broiled. Cuts such as round steak are readied for broiling by cutting in strips before marinating. In addition, fruits and vegetables have been added to the skewers as appetizing accompaniments.

Skewer cookery offers mealtime variety that the whole family will enjoy. Kabobs, allowing for fast preparation and cleanup, are especially great during the grill season.

These samples promise a carnival of cookout fun and surprises, says Mrs. Susan Head, president of the local CowBelles.

- STEAK ON A STICK**
- 3 lbs. beef round steak, cut 1 to 1 1/2 inches thick
  - 1 cup salad oil
  - 1/3 cup lemon juice
  - 2 tps. salt
  - 2 tps. dry mustard
  - 2 tps. nutmeg
  - 1/4 tsp. hot sauce
  - 1 medium onion, finely chopped
  - 1 clove garlic, finely chopped

Cut steak into thin slices about 1/4 inch thick or less. Thread strips, accordion-style, on 5 to 6-inch skewers and place in shallow baking dish. Combine salad oil, lemon juice, salt, dry mustard, nutmeg, hot sauce, onion and garlic and pour marinade over kabobs.

Cover and refrigerate 6 hours or overnight. Turn at least once while marinating. Place kabobs on a rack in broiler pan or on grill 4 inches from heat.

Broil 3 minutes, turn and broil to degree of doneness desired, 3 to 4 minutes, brushing with marinade occasionally. 8 to 9 servings.

- HE-MAN BEEF KABOBS**
- 2 lbs. beef tip
  - 1/2 cup salad oil
  - 1/2 cup soy sauce
  - 2 Tbps. vinegar
  - 1 Tbsp. instant minced onion
  - 1/2 tsp. ginger
  - 1/8 tsp. garlic powder, if desired
  - 2 cans (16 ozs. each) whole potatoes

Cut beef tip in 1 to 1 1/4-inch cubes. Combine salad oil, soy sauce, vinegar, instant minced onion, ginger and garlic powder, if desired. Place beef cubes and marinade in plastic bag, tie securely and marinate several hours or overnight.

Thread 4 metal skewers (12 to 14 inches) alternating 2 beef cubes and 1 potato.

Brush with marinade. Place kabobs on grill 3 to 4 inches above ash-covered coals.

Broil at moderate temperature, turning and brushing with marinade occasionally, for 10 to 15 minutes, depending upon degree of doneness desired. 6 to 8 servings.

**A SHOPPER'S SEARCH** for something to solve the dual problem of budget and busy schedule is easily ended when beef blade steaks are discovered at the meat counter.

Marinating several hours or overnight readies these budget savers for broiling. For especially flavorful goodness try this lively combination of vinegar, soy sauce and catsup sparked with garlic.

Since blade steaks are cut from the beef chuck and are less tender than steaks from the rib and loin sections, it is best to marinate them and broil only to rare or medium.

- ZIPPY BLADE STEAK**
- 1 beef blade steak, cut 1/2 to 3/4 inch thick
  - 1/4 cup vinegar
  - 3 Tbps. soy sauce
  - 2 Tbps. oil
  - 2 Tbps. catsup
  - 1 clove garlic, minced

Combine vinegar, soy sauce, oil, catsup and garlic. Place steak in utility dish or plastic bag and pour marinade over it, turning to coat. Cover dish or tie bag securely and place in pan.

Marinate in refrigerator 6 hours or overnight, turning at least once. Remove steak from marinade and place on rack in broiler pan with surface of meat 4 inches from heat.

Broil 7 to 10 minutes on each side, depending upon degree of doneness desired (rare or medium). 3 to 4 servings.

## THE ABUNDANT LIFE Personal Worth

**THE LOSS OF THE SENSE** of "personal worth" is the kind of loss we cannot afford. Many of our perplexing problems are caused by or associated with this loss.

Many of us do not realize our "personal worth", and even more of us do not realize the "worth" of others. Consequently, many aspects of our lives are distorted.

"WHAT IS HE WORTH?" This question, to most of us, means "how much money does he have?" Surely, we know that there is more to be considered than the amount of material wealth; when we are thinking about "personal worth".

What is the value of the individual? This is the crucial question. The answer we give is going to be decisive in every aspect of the human experience.

**THE QUALITY OF** home life, the over-riding goals and purposes of our education system, the standards and guidelines of community life, and all other social situations will be determined by the value given to the individual.

"THE VALUE of the individual, sick or well, is in the fact that he is important and worth in his own right; and not simply because of what he can do or achieve or produce." -Dr. Menninger.

**IF WE ACCEPT** this conclusion, we move immediately to a higher and better level of the human experience. When the individual can see and appreciate his "personal worth"; aside from what he can do, or achieve, or produce; the self-image is better, behavior improves, and the general

performance will be much better. When we see and appreciate "personal worth" of each other, the social climate will be improved, the interaction among us will be better. Everybody and everything will be better.

**WE MUST NOT PERMIT** the machine we have created to cause a distortion in our view of the self or of others. In fact, we must resist any and all influences that would obscure the important of all considerations: worth, actual and potential, of the individual.

If ever there is to be any improvement in the human situation "personal worth" of each individual must be recognized.

"OUR CULTURAL WORTH" machine and the industrial genius produced it has profoundly perverted the basic individual value, and risked reducing us all to cogs in a dustrial society that can replace us discriminately and without regard to individualistic specialness that we value in ourselves or others." -Menninger.

**THE CONCEPT** of "personal worth" does not involve self-conceit, or other undesirable manifestations, but sets forth the principal element of effective living.

We must never downgrade or devalue ourselves or our fellowmen.

**THE REAL WORTH**, the real value of the human worth and the human life, and if we forget this, there are no values.

## HOMINY GRITS

By CORNBALL BLEVIN

**WHAT WE NEED**, now, is some kind of market for slightly used Sunflower heads. Seems there's so much left over after the seeds are removed, that it's a shame to waste the rest. A little research, somebody?

On the other side of the coin, I don't think this crop is making very much of a hit with some of the combine crews. They're havin' a little trouble setting the machines to handle these giant-sized pods. In fact, I heard one fellow say, "I didn't plant those things, so I don't think I'll worry about cuttin' 'em."

**I WAS OFFERED** a job of heading Sunflowers, much the same as we used to do that old "Hooked-necked" maize. Due to my present job, however, I had to turn it down. Sorry about that!

But then, back to our first thought, I suppose the fiber of the stalk and head is completely inedible, even for livestock. (?) If such be the case, then how about fuel? Many of the modern homes have fireplaces, and I notice a mailorder store still advertises wood burning stoves for sale, and we know we have cubing machines, and the price of gas and electricity is on the increase, and it's gonna get cold this winter.—S-O-O—??

**OH WELL**, you can't blame a fella for tryin' can you? \*\*\*\*\*

**MUST ADMIT THAT** our football team looked pretty good last Friday night. 'Twas either that, or Cooper

looked pretty bad. At any rate, we were runnin' around and hittin' 'em. AND they were fallin'. Made me wonder if the visitors were physically or mentally prepared for what hit 'em. Anyway, it was nice to see the end of the score on our side, again. We're lookin' forward to this on Friday night, to see if that trap can home once more.

**JUST HAPPEN** to know a couple other guys who would be glad to see happen, too. They wore Nos. 66 and 68 last year. GO GIT 'EM, CATS! \*\*\*\*\*

**DON'T KNOW** how many people asked me if I went to hear the B.B. King, during the crusade in Rock-town. Truthfully, I did not. I think I'd have gone to hear Pat (B.B. King's brother)—Shucks, my local preacher can tell me more about the Scriptures than I can live up to. \*\*\*\*\*

**NUMBER TWO SON** is beginning to get educated as to the high cost of going to college. When it comes to the "milkkin' the people for money, the government is a piker compared to those fellows. Shux, they even levy for collectin' fees! (Or, does it just like it?) \*\*\*\*\*

**USN&WR ASKS**, "What happened New York city goes broke?" Well, it can blame Washington. They grabbed the deficititis disease from them! \*\*\*\*\*

## Turn Row COMMENTS

By EMIL MACHA

**AT SOME TIME** or another during his career everyone tells himself that he'll find a better opportunity somewhere else than where he is. That's human nature. The grass on the other side of the fence always looks greener. But recently a fine writer did some straight thinking on this subject. Here is what he found:

"The place to make good is where you are! The only sphere in which your ambition can work is the here and now. The only place you can ever be is where you are."

"You say: 'Where I am there's not a chance.' 'I can't be promoted till the man above me dies.' 'My firm is saturated with politics; its policies are old-fashioned.' 'No, I can't get ahead here. There's no chance!'"

"Wrong!! The fault is not with your situation and circumstance but with you."

"Until you admit that your big chance is where you are, there won't be even a little chance anywhere else. Until you settle down and work with your might and main here and now, you're just a total loss to yourself and the world at large."

muttered: 'A turnip is a turnip and can't do anything about it.' Thousands of ex-newsboys are today's tycoon business. The iron peddler beats the monster steel company. Why? Because they said: 'No chance!' No—because early enough in life they figured out that the place to make good is where you are."

That sounds a lot like preaching, preaching is one thing we don't do. Still, every one of us needs to be preached now and then. Maybe this will be a help. At least, it is an idea. \*\*\*\*\*

**HEAR ABOUT** the fellow who had a friend who can still go ten rounds. As long as someone else is buying them!

### CONSTITUTIONAL AMENDMENTS

(S.J.R. NO. 11)

SPECIAL ELECTION NOVEMBER 4, 1975

### PROPOSITION NO. 1 ON THE BALLOT

Revising the separation of powers, legislative and executive provisions of the Texas Constitution. Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

efficiency of the executive branch.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

### PROPOSITION NO. 2 ON THE BALLOT

Revising the judiciary provisions of the Texas Constitution. Article V, The Judiciary is amended to:

Establish a unified judicial system consisting of the supreme court, court of appeals, district courts, and circuit courts. Existing county courts and county judges are continued until otherwise provided by law. All judges (except municipal judges), district attorneys and district clerks must be elected by the people. The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Individual rights for a trial by jury and appeal by the accused are continued. The state is granted the right to appeal in criminal cases in limited circumstances, and the legislature is permitted to establish methods of appeal to the courts from decisions of state agencies.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the JUDICIARY PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

### PROPOSITION NO. 3 ON THE BALLOT

Revising the voting and election provisions of the Texas Constitution. Article VI, Voter Qualifications and Elections, is amended to:

Provide for registration and qualifications for voting including voter residency requirements to be established by law. A citizen of the United States who is at least 18 years of age and who meets the registration and residence requirements provided by law is a qualified voter unless the person has been convicted of a felony and for that felony is incarcerated, on parole, or on probation, or unless the person is mentally incompetent as determined by a court. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration, and absentee voting

### BETTER FOR FREEZING

New potatoes are better than mature potatoes in most frozen dishes. Mature potatoes tend to disintegrate or become watery when boiled and then frozen.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the VOTING AND ELECTION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

### PROPOSITION NO. 4 ON THE BALLOT

Revising the education provisions of the Texas Constitution. Article VII, Education, is amended to:

Provide that the Permanent and Available School Funds and the county public school funds are continued for the support of the free public schools. The State Board of Education is retained and the Permanent and Available University Funds are continued for the benefit of The University of Texas and Texas A&M Systems. A new Higher Education Fund for Texas is established for the benefit of colleges and universities outside The University of Texas and Texas A&M Systems. The state ad valorem tax of ten cents on \$100 valuation is continued as the source of revenue for the Fund. The ten cent higher education tax may be changed by law within the ten cent maximum. The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. Authority to issue Permanent University Bonds is continued but the bonds may not exceed 30% of the Permanent University Fund.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the EDUCATION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976, except Article VII, Section 9, which becomes effective January 1, 1979.

### PROPOSITION NO. 5 ON THE BALLOT

Revising the finance provisions of the Texas Constitution. Article VIII, Finance, is amended to:

Provide that state taxes may be levied and collected only by general law and to prohibit any state ad valorem tax on real property or tangible personal property except the ten cent tax provided for in Article VII and a

tax of two cents on the \$100 assessed valuation to provide funds for the State Building Fund. Provides that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. Existing exemptions from ad valorem taxation are continued. The present deduction of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The \$3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate \$3000 exemption from ad valorem taxation by political subdivisions is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, nonprofit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. State debt may be authorized by law only if approved by a two-thirds vote of each house of the legislature and submitted to and approved by a majority of the qualified voters of the state voting on the question. Public funds and public credit may be used only for public purposes and no public funds or public credit may be used to influence the election of a public officer. The article prohibits a retail sales tax on agricultural machinery or parts, fertilizer, feeds or seeds, prescription drugs or medicine, or food, except food sold by restaurants for immediate consumption. An assessment voted by marine food or agricultural producers on their product sales is not a tax if provision is made for the individual producer to receive a refund of the assessment when the producer does not desire to be assessed.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the FINANCE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976, except Article VIII, Section 2, Subsections (b) and (c), which becomes effective January 1, 1978, and Article VIII, Section 6, Subsection (c), which becomes

effective January 1, 1979.

### PROPOSITION NO. 6 ON THE BALLOT

Revising the local government provisions of the Texas Constitution. Article IX, Local Government, is amended to:

Provide that the counties of the state are those that exist on the date of adoption of the local government article and that county boundaries may be changed if approved by a majority of the qualified voters in each affected county who vote on the question. Counties may be merged or county seats relocated if approved by two-thirds of the qualified voters in each affected county who vote on the question. The present elected constitutional county offices are retained and four year terms of office are provided. The voters of a county may create additional offices, eliminate offices, or combine the duties and functions of offices. The voters may also grant ordinance making power to the governing body of the county. Cities and towns having more than 1,500 inhabitants may become home-rule cities. Tax limitations are established for operating purposes for cities and counties and the legislature is required to fix debt limits for cities, towns, counties, and school and community junior college districts.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the LOCAL GOVERNMENT PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976.

### PROPOSITION NO. 7 ON THE BALLOT

Revising the general provisions of the Texas Constitution. Article X, General Provisions, is amended to:

Provide the basic requirements relating to public officeholders such as the official oath and residency requirements. The provision defining the separate and community property of spouses is retained, and the protection of a homestead from forced sale is continued. The legislature is required to protect certain personal property from forced sale. Current wages for personal service are not subject to garnishment. A private corporation may not be chartered except under general law, and no bank may engage in business at more than one place in this state. The legislature must provide for the regulation of bank holding companies. The present system of local-option elections for the prohibition or sale of alcoholic beverages is continued. The legislature is required to prohibit lotteries and gift enterprises but may permit certain bingo games and raffles. The presently existing provisions for retirement benefits of teachers and other public employees are modified to allow the state to con-

tribute more than 10%. A policy that the quality of the environment of the State of Texas is to be protected is established, and the legislature is required to implement and enforce this policy. No state funds may be used to remove surface water from the river basin of origin if the surface water is necessary to supply the reasonably foreseeable water requirements of the basin for the ensuing 50 years, unless the removal of water is sufficiently replaced to the point of removal from outside the state or is on a temporary, interim basis. The seaward beaches of the Gulf of Mexico and coastal submerged lands belonging to the state are held by the state in perpetual trust for the people, and subject to reasonable limitations prescribed by law, the public has the free and unrestricted right of use and benefit of the beaches. The provision is continued that, except as otherwise provided by law, a rate of interest in excess of ten percent a year is usurious, and that if a contract does not specify a rate of interest, the rate under the contract may not exceed six percent a year. Discrimination against handicapped persons is prohibited, and a goal of the state is established to provide every resident access to adequate, comprehensive health care.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the GENERAL PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

### PROPOSITION NO. 8 ON THE BALLOT

Revising the mode of amending provisions of the Texas Constitution. The proposed article will be the last article of the constitution. If only Proposition No. 8 is adopted, the article will replace Article XVII of the present constitution. If other propositions are adopted, the article will be appropriately renumbered to remain the last article of the constitution. If all propositions are adopted, the article will be Article XI. Article XVII, Mode of Amending the Constitution of the State, is amended to:

Establish a procedure for constitutional amendments requiring a two-thirds vote of each house of the legislature and majority approval by the voters. The calling of a limited or unlimited constitutional convention with voter approval is provided. The question of whether to call a constitutional convention must be submitted to the people every 30 years.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the MODE OF AMENDING PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

Notice: Cannon AFB Jets To Fly In SAC Exercise Two F-111s from the 27th Tactical Fighter Wing at Cannon AFB of Clovis, N.M. will participate in this fall's Strategic Air Command (SAC) flying exercise "Operation High Noon." The exercise will involve 104 aircraft operating from their home bases and bombers from the United Kingdom's Royal Air Force (RAF) operating from Barksdale AFB, La. Each unit with participating aircraft will be notified a few hours before the start of the exercise. Aircrews will then plan and fly one mission during the two-day exercise. The mission will be scored in all aspects, including accuracy and proficiency in navigation, controlled timing, and, with the exception of the RAF bombers, aerial refueling. The aircrews will also be scored on multiple low-level bomb runs. All bombing will be simulated and radar scored through aircraft transmissions of electrical impulses to ground-based scoring sites. Aircraft other than F-111s scheduled to participate in the exercise are B-52s, FB-111s, and KC-135s.

**Beetle Attacking Trees**

By JIM D. KUYKENDALL Asst. County Extension Agent Gardeners hoping for a bountiful harvest of fall vegetables should keep a close watch for a tiny insect pest that can severely reduce yields. The little critter is the leaf miner, which is a larva or worm of a small fly. The flies lay their eggs between the upper and lower surfaces of plant leaves and the tiny flattened worms that hatch tunnel through the leaves, destroying plant tissue along the way. Leaf miner damage can easily be recognized by the winding trails that the pests make in plant leaves. As the larvae grow, the trails become wider. Kuykendall notes that leaf miners interfere with plant growth by weakening the leaves. The tiny pests reduce the yields of many crops such as beans, peas, cucumbers, squash and peppers, and damage to such leafy vegetables as spinach and mustard often makes these unfit to eat. Leaf miners are often difficult to control, and may require three to four applications of an insecticide applied at weekly intervals. Recommended insecticides include malathion, diazinon, dimethoate and naled. Check the labels of these various insecticides to determine on which crops they can be used safely and the number of days from last application to harvest. Where leaf miner infestations are light, a simple solution may be to pick off the infested leaves or to mash the larvae in the leaves. High quality vegetables can be produced in fall gardens, but careful attention must be given to insect and disease control just as with spring gardens. And the control of leaf miners is no exception.

sometimes brief, are primarily response to such external situations as failure in work, being jilted, the death of a loved one.

**AGITATED** depressions depicts the individual as wearing an anguished expression. He may wring his hands and pace restlessly about, bemoaning his lot.

**RETARDED** depression, the person has a downcast look, speaks slowly and tonelessly, moves with apparent difficulty, and may sink into a stupor.

**NEUROTIC** depressions are those in which the gloomy feelings have virtually turned into a way of life. "Depression neurosis," is manifested by excessive reaction of depression due to an internal conflict or to an identifiable event.

The individual usually realizes his reaction is "excessive" but does not understand its cause.

**PSYCHOTIC** depressions are the most serious. Those who are affected cannot tell the differences between their inner world of thoughts and fantasies

behavior, though rarely related to any one specific event. The person may act withdrawn, feel extremely despaired, and think he is worthless. He may have difficulty sleeping, eating, and carry on his usual activities. Manic-depression illness is usually of this type.

Often there is a family history of similar disturbances.

**INVOLUTIONAL** depression, a variety of endogenous depression, occurs when people are disturbed psychologically just before or during the "change of life." In this period of physiological change, the nervous system and brain may be disorganized in some way. Women between the ages of 40 and 50 tend to be more subject to involutional depression than men, whom may be affected between 50 and 60.

### BUILDING A TOWER? COUNT THE COST

My father pointed out to me a man in our community who, at one time, was a minister. "There was high promise in his life," he said, "but times were hard and he turned back."

It's an old, old story in which all of us share. "Which of you, desiring to build a tower, doth not first sit down and count the cost?" Universal as the question is, let's look at the one who spoke it—Jesus.

He counted the cost of the journey from Bethlehem to Golgotha. And even He, from time to time, drew on the bank of earnest prayer for the resources to meet that day's demands.

No man starts to build a life with a complete stockpile of supplies. No man! It is the height of foolishness to say "I will be a self-made man." There is no such person.

The wise believer, in perceiving the road of life ahead, prays, "Give me this day my daily bread, and forgive me this day's trespasses as I forgive this day's trespasses of others against me. And lead me not into temptation this day, but deliver me from this day's evils."

Counting the cost? Count on Him.

 Levelland football game.... very close, very competitive and the team that makes the fewest mistakes will probably win."  
 Kickoff is at 8 p.m. at Wildcat Stadium.  
 In reflecting back over the Cooper game, Bakely stated, "We were certainly pleased to win the first game. It is very important in any season to get off to a good start and that is what we did. We were especially pleased with the offensive and defensive play on the line of scrimmage. As a matter of fact, the films indicate that we played even better than I thought we had."

"It was a real team effort all the way as all of our practices and scrimmages have been. Our blocking and tackling was good for the first game, but we were not satisfied with our kicking game and the number of penalties... but we will have that corrected by Friday night."  
 "We were real pleased with all our backs, Bill Turner, Ronald Palmer, Reginal Payton and Steve Cruz. They all did a fine job running. Our blocking on the outside plays by Rick Hopping and Blake Wood was good also. Our passing game was not satisfactory, but it is getting better. Jimmy Durham made a fine catch on a difficult pass that netted us 47 yards.  
 "Our line play on the offense is at a better point than it ever has at this time of the year. Jack Speck, Brad Banner, Larry McDonald, Randy Hall, and Dean Walden all played well. Tight ends

Durham and Greg Moreland had good nights. Split end Danny Martinez had an exceptional night as a downfield blocker and made several key tackles in his defensive safety position.  
 "We felt before the Cooper game that we had to control Choban if we were to have any luck at all and our two defensive ends, David Jones and Lane McKinnon were responsible for controlling his wide plays. Hopping had a great night at his defensive nose guard position. Between him and Cruz, Payton and tackles Larry McDonald and Randy Hall, we were able to contain the inside running game.  
 "And while we did not shut off their passing game, we did control the long pass."  
 The Wildcats received no injuries in the Cooper game and are expected to be at top strength for Levelland.

## County Officers Probing Rural Thefts

Thefts totaling several hundred dollars were reported to county authorities over the weekend.  
 A. O. Dickson, three miles southwest of Amherst, reported missing equipment totaling \$450 from his shed on his farm after a lock was broken off. Taken in the theft were an electric welder, cutting torch, 50 feet of hose, parts, battery charger, ball peen hammer and bearings.  
 A theft at the Clifford Gregory farm southwest of Amherst was reported Saturday. Among the missing items from the house were a vacuum cleaner,

28 eight-track tapes, a pair of women's western boots, a dozen gilts, three sets of sheets, a jewelry box, a man's gold ring and a zircon ring. The trunk lid of a car was pried open, also, and two mag wheels, nine tires and a hair dryer were stolen.  
 Don Franks who lives northwest of Olton reported the theft Thursday of property valued at \$1,000. Missing were a three-horse air compressor, 10-drawer tool chest, and 12-drawer cabinet.  
 Four were jailed by county authorities over the weekend. A Littlefield man was charged with carrying an illegal weapon

and fined \$150 plus court cost and given 10 days in jail, probated six months.  
 A Littlefield man entered a guilty plea to a driving while intoxicated charge and was fined \$100 plus cost and three days in jail was probated. A Mexican alien was charged with being drunk and held for the Border Patrol. A 21-year-old Lubbock woman was charged with driving while intoxicated and fined \$100 plus court cost and three days probated three months.  
 County officers received the following complaints last week. H. A. Carter reported the theft of a wheel and gear box off the top a windmill two miles east of Bainer Switch. Goodpasture, Inc. reported the theft of 100 gallons of gas after a lock was broken off a gas tank.  
 Twenty dollars was taken from the office of Bawcom Butane after entry was gained through the east window.

## Olton Post Office Notes Business Jump

According to Olton Postmaster Bub Holt, Olton is experiencing some growing pains population wise.  
 Holt notes that the city's postal receipts are an indication of "what the town is doing," at that the postal receipts reflect the economy of that area.  
 "Our records began showing in 1971 just how we are growing. When this office was built in 1964, we had 564 boxes and that was plenty—we had empty boxes," Holt stated.  
 "That number was a projected total which was believed sufficient for a 10-year period with growth allowance.  
 "Instead, we had to add another 90 boxes in 1967. We had 654 of them then, which was enough, and some excess boxes, but by 1970, we ran out again."  
 Holt said he began requesting ad-

ditional boxes in 1970 and 1971, but the national trend indicated that small-town postal receipts were declining, and the postal department "couldn't believe we really needed them."  
 About two years ago the department agreed that the additional boxes were needed, because general deliveries "were running out our ears. We didn't have boxes to rent." Presently there are 150 families receiving mail through general delivery, and some boxes serve more than one family.  
 Holt had asked for 300 new boxes, but received only 275. These will be installed in the near future.  
 Postal receipts at Olton have increased from \$45,124.55 for the fiscal year ending June 30, 1971, to \$65,278.63 for the fiscal year ending June 30, 1975.

## Defendent Favored In Jury Trial

A civil dispute charging breach of contract for purchase of realty was heard by jurors Monday and Tuesday, and the jury favored the defendant, Byron McGruder and Security State Bank, after deliberating two hours Tuesday afternoon.  
 The suit was brought by Ray Brooks. Slated for trial Friday is a civil suit, G&W Construction versus H. M. Black, account for building terraces.
