STANDING LITTLEFIELD CITIZEN for 1969 is Tom Hilbun, Littlefield the man who has also donated hours of his time to civic work and to the adult program. Presenting an engraved plaque to Hilbun is Doyle Patton,

## MEET TOM HILBUN

### 'Good Citizenship' His Motto For Past 23 Years

Hilbun, designated citizen of the Year at the Littlefield Chamber of Commerce banquet Friday night, has been a long-time member of the organization. He has been influencing directing them through adult lives through his adult scouting work.

Hilbun has probably spent more time sleeping in a tent than any other adult on the South Plains. He has been out camping with boys when water in their canteens froze solid. Through dust and storms, heat waves and rattlesnakes, Hilbun continues his work.

In addition to holding just about every office possible locally, he has the same distinction in the Order of the Arrow.

Now a merit badge counselor and committeeman on the advancement board, he is often referred to as "Mr. Littlefield".

Hilbun's awards are numerous including the Scouter, Scouter's Key, Wood Badge, and Silver Beaver, a national award, and about the highest award given to a volunteer.

Under his leadership, Troop 638 earned another national award, the historical trails award, for hiking out McKenzie's trail across Lamb County, staking it out and erecting hand-chiseled signs.

For nine years Hilbun conducted every adult leadership training course in the George White District. He has been to two national jamborees and camped out under the stars at Philmont Scout Camp at Cimarron, N. M., while getting his wood badge and made numerous trips there to take scouts for training.

### Farm Lease, Audit Are Approved

Councilmen authorized manager Jim Shearer to farm lease contract and accepted the audit for 1969, during their session Thursday night.

A report, by way of letter, on the annual compliance inspection of the Municipal Airport by the Federal Aviation Agency was heard and acknowledged.

### FUND DRIVE OVER \$5,000

Sudan Volunteer Fire Department is still accepting donations to the Humphreys Hospital Fund, to aid Greg Humphreys, 5-year-old son of Mr. and Mrs. John Humphreys of Sudan.

Greg was critically burned in a playhouse explosion Saturday, Jan. 24, near the residence of his grandparents, Mr. and Mrs. Dude Harragan.

He is now in the Shrine Burn Hospital at Galveston, listed in critical condition.

According to a fire department spokesman, although listed as critical, Greg is able to walk around in the hospital, but is being watched closely for signs of infection.

Funds which have been placed in a Sudan bank for the boy, had reached \$5,218.92 by Saturday morning.

Greg's two brothers, Kent 4, and James, 8, were also burned in the explosion. Kent died in John Sealy Hospital in Galveston Jan. 26 and James was treated and released at Littlefield's Medical Arts Hospital the same day of the mishap.

### Littlefield Set QB Club

Littlefield football coach Gene Mayfield will lead the Quarter-Club banquet to be held at 7:30 p.m. in the Littlefield School Cafeteria.

Mayfield led the Littlefield Wildcats to the state finals in 1956.

Mayfield is head coach of the Permian where he coached his team to state championship years ago.

## Spirits High As Littlefield Kicks Off New C-C Year

### Almost 400 Out For Annual Fete

By JOELLA LOVVORN

If almost 400 persons who attended the Chamber of Commerce Banquet here Friday night seemed "high" on Littlefield, there was a reason.

A specially prepared tonic was served...but that wasn't it.

Behind all of the enthusiasm shown for the community at the banquet was the electric car dream.

Littlefield's prospects for industry through the ElectricCar seemed evident at all turns.

Cong. Bob Price lent authority to the prospects, pointing out, "We all know, that with the growth of technology, fewer and fewer people have been able to produce more and more of the food and fiber products that come from the soil. This means that agriculture-dependent areas such as ours must find new industry if many of our people are going to be able to make a living without moving to the decaying urban areas."

"It is for this reason that I am extremely pleased to see those of you here in Littlefield and Lamb County take the lead in forming the ElectricCar Corporation."

"What is this phenomenon that has brought about renewed interest in battery-powered vehicles many years after they were shunted aside in favor of the gasoline engines?"

"Watery eyes, stinging nostrils, sore throats--these are the things that are bringing Littlefield a new industry. Smog, polluted air, poisoned skies, however it may be described, is a universal problem in the United States."

Introductions of Mr. and Mrs. D. L. "Cotton" Whitley and other ElectricCar representatives kept the future industrial prospects in mind.

Tom Hilbun, Littlefield insurance man, was recognized as the "Outstanding Citizen of the Year". Doyle Patton made the introduction and presented him with a plaque, donated by A&B Office Supply.

The "Outstanding Farmer Award" went to Herbert Dolle. Dolle was introduced by Joe Montgomery, who also presented an engraved plaque that was donated by the Lamb County Leader-News.

Incoming President Jim Jones presented a plaque and scrapbook to Outgoing President John Clayton.

Rev. R. B. Hall kept the crowd entertained as the special speaker made his way to Littlefield by plane and auto. Cong. Price got stuck in air traffic on Love Field in Dallas and

JOHN CLAYTON, outgoing Chamber of Commerce president, left, was presented a plaque for "distinctive and dedicated service as president of the Littlefield Chamber of Commerce during 1969." Making the presentation was Incoming President Jim Jones, who also presented Clayton with a scrapbook of last year's events.

### Dolle Wins Farm Plaque

Herbert Dolle, named Outstanding Farmer at the Chamber of Commerce banquet Friday night, was just a shaver when he came to Lamb County in 1924.

Dolle attended Littlefield schools and helped his dad farm with mules until 1934 when he got himself a team and began farming on his own.

The following year, Dolle and his wife, Edna Geistman, were married. "We went to Roswell in a Model A Ford," Dolle said, "and I only had \$15 in my pocket, and part of that was borrowed." Dolle's first tractor was a two row, bought in 1939.

One of the five farms Dolle now operates is the original home place he and his dad started farming in 1924. Dolle farms about 1062 acres, and has completed conservation plans on four of the farms and is still working on the other one.

Dolle's farms vary from dry land, to very limited water, to good water. He places importance on water management on all his land, and uses sprinkler and surface irrigation systems and terraces and diversions to conserve water.

Dolle has used the Great Plains Conservation Program, Agriculture Conservation Program and district assistance to

### Grand Jury Indicts 11

Eleven persons were indicted on seven counts by the grand jury that convened Wednesday.

Indicted were Armond Gloria, Ruben Jacques and Manuel Jacques charged with breaking and entering the C. J. Givens home at Olton.

Harvey C. Wilson, Mamie Mae Smith and Harry Lee Brown were indicted on the charge of breaking and entering the E. V. Sherley house.

Alfred Williams was indicted to stand trial for breaking and entering a house occupied by Sophia Martinez.

Josephine Sanders was indicted on a forgery and passing charge on two checks for \$76.22 each on Boothe Elevators at Anton.

Daniel Arguijo was indicted for forgery and passing, charged with two \$65 checks given on Walter Weige. Two other persons were indicted for theft. Their names and charges will be published following arrest.

Bail was set at \$2,000 each. Edwin Dawson of Springlake was jury foreman.

Criminal cases are set to be heard during the jury week beginning March 2.

### FARMERS CONCERNED

## Cotton Picture Hazy, USDA Mum On Yields

By NILAH RODGERS

Lamb County farmers are ready to flog the U. S. Department of Agriculture.

Notices of 1970 projected yields and acreage allotments were sent to farmers last November. Growers voted on the 1970 cotton program last December, approving marketing quotas by the usual top-heavy margin.

Everything looked set for 1970.

Then just as the sign-up on the 1970 program was ready to start Monday, the USDA threw the entire cotton picture into confusion. The USDA refused to approve the projected yields its county Agricultural Stabilization and Conservation Service offices had already sent to farmers.

This comes about as the result of allowing farmers to appeal their acreage up if they could prove their yield was more than their allotment. Many farmers took advantage of this. Now the USDA won't approve this additional acreage.

It looks like farmers who have suffered hail losses during the 1966-68 period will have their projected yields lowered so that more pounds can be given to growers who can prove higher yields than were assigned them.

The USDA cannot refuse to accept proven yields as projected yields for a farm. It is required to do this by law.

But if it is handled in this manner, farmers who have been unfortunate in unusual hail losses will suffer double jeopardy. First he lost yields due to the hail losses, and now he will lose again to those who weren't hit by hail and other disasters.

Unless this ruling is changed, a lot of Plains farmers, including a number in Lamb County, will have five to seven per cent or more shaved from their projected yields.

There are Lamb County farmers who were hailed out in 1966-67-68. They cannot prove a higher yield, although they can make it in a normal year.

Things are liable to get messy if something isn't done about this, according to Lamar Aten at the Lamb County ASCS. "We won't know how we stand until Tuesday," he said. Aten predicts that farmers whose yields have been cut will get up in the air over another cut. "This will get political," Aten predicted.

A bureaucrat might argue that a farmer who lost a crop three straight years could realistically expect to make no more than his average of that period. Thus, to the bureaucrat, the average yield for such a period would be a valid basis for giving the farm a very low projected yield.

But the farmer knows different.

He wouldn't be in business if he farmed on such an abstract

### ElectricCar Stockholders Meet

Stockholders of ElectricCar Corporation will organize a board of directors here Monday night when they meet at 8 o'clock in the XIT Room of Security State Bank.

The session is the first for stockholders following the merger of ElectricCar and EMV (Electrically Motivated Vehicle Corporation) in January.

The resulting million-dollar corporation has 54 stockholders, and most of them are expected to be here for the organizational meeting.

BOY SCOUTS throughout the nation begin celebrating the organization's 60th birthday today. Many will attend church in uniform and will participate in services. Littlefield Scouts, here, make a conservation and nature study. Included, left to right, are B. T. Kisner, committeeman and merit badge counselor; Ricky Bennett, second class; Felix Klein, second class; Andy Rogers, Life; Brad Banner, second class; and Randy Whitson, Scoutmaster.

### Crop Production Funds Available

Lamb County is one of nine South Plains counties designated as a disaster area due to crop production loss from weather conditions, and emergency funds are now available through the Federal Housing Administration (FHA).

These funds are designed as a supplemental source of credit to assist those who otherwise wouldn't be able to continue their farming and ranching operations.

Counties designated to receive emergency funds were named by the secretary of agriculture. A special rate of three per cent interest is applied to funds obtained for continuing normal farming operations.

Applications for these funds can be made at the FHA office in the basement of the Littlefield Post Office.

Congressman Bob Price made the announcement to Lamb, Bailey, Briscoe, Castro, Deaf Smith, Hale, Hall, Farmer and Swisher Counties.

Congressman George Mahon's district for emergency funds includes Hockley, Cockran, Crosby, Lubbock, Terry, and Yoakum Counties.

### Civil Jury Rules For Defendant

In a civil case heard Monday and Tuesday, styled Van Wagon versus Buddy Free, the jury found in favor of the defendant, finding that the plaintiff actually caused the wreck.

The plaintiff, Vance Wagon, et ux, was asking \$60,000 as the result of an automobile accident and injuries that occurred April 21, 1968. Attorneys Forrest Bowers and Sam Aldridge represented the defendant.

Bob Gibbins and Jerry Kirby were defense attorneys.

David Harmon was foreman of the jury.

### Shower Honors Miss McFadden

OLTON- The home of Mrs. Jack Kirby was the setting Friday for a miscellaneous bridal shower in honor of Miss Paul-ette McFadden of Lubbock, bride-elect of Jimmy Stockstill of Earth.

Guests called between the hours of 3 and 5 p.m. Many useful and attractive gifts were brought or sent.

Mrs. W. C. Gunter Jr. and Mrs. J. W. Lee greeted the guests and presented them to the honoree: her mother Mrs. Paul McFadden of Lubbock; Mrs. Alma Stockstill of Earth;

mother of the prospective bride-groom. A special guest was Mrs. Anna Martens of Lubbock, grandmother of the bride-elect.

The serving table was laid with a white lace cloth over red satin, centered with a red floral arrangement. White satin streamers printed in silver with "Paullette and Jimmy" extended from the floral arrangement. Crystal and silver completed the table decor. The Valentine theme was used in all decorations.

Miss Quinette Redinger and Miss Lucy Gunter presided at the serving table. They served red fruit punch, cake, nuts, and heart shaped mints.

Hostesses presented the honoree with a six-place setting of her chosen silverware, a set of cooking utensils, and a set of ice tea glasses.

Hostesses assisting Mrs. Kirby were Misses P. L. Pol-lard, C. S. Solcott, Tom Seawright, O. T. Crosby, Lee Sim-mons, J. D. Stampe, Juanita Thomas, Jake Mitchell, Travis Bundick, Earl McClain, Garland Rose, A. G. Huguley, L. A. Blackwell, K. W. Carson, Leon May, W. C. Gunter Jr., Joe Roberts, D. C. Eby, Gene Reynolds, Lester Kennedy, Charles Lewis, Leo V. Smith, Walter Lewis, Bob Coen, Ray Culwell, J. W. Lee, R. V. Allcorn, Quentin Redinger and Miss Quinette Redinger.

### PTA Discusses Mental Health

Spade PTA met in regular session Thursday night, Feb. 5 in the school auditorium.

PTA president, Mrs. Duane presided for the business meeting. The Pledge of Allegiance was led by Mrs. Lucille Johnson, and the meditation was given by C. C. Byars.

Speakers for the program were Rev. Phillip Berry, pastor of St. Martin Lutheran Church of Littlefield and Mrs. Hazel Mackay, teacher at one of the Satellite Schools of Littlefield, a division of the Lubbock State School. Using the theme "Mental Health: Whose Responsibility?" they presented accounts of the work being done and taught at the Satellite Schools in Littlefield.

Founder's Day observance was presented by Mrs. Joe Bailey, first grade teacher. Her program included the reading of the names of all past presidents of the local chapter of PTA. Mrs. C. C. Byars and Mrs. Hopper are past presidents.

Mrs. Pat Moberley, Mrs. Ivins and Mrs. Billy Guthrie were elected to serve as nominating committee.

An executive meeting preceded the regular meeting. Refreshments were served by the seventh grade mothers.

## Area Residents Help On Girlstown Plea

Littlefield and area residents have more projects going for Girlstown than you can shake a cotton stalk at, but Girlstown needs a lot of help when you consider there are more homeless girls there than could be hugged and kissed in an hour.

In addition to the project to raise 4,000 books of stamps, area residents have been helping with a project to secure 50 sets of box springs and mattresses.

Gary Stacy of Stacy Mason arranged for 50 sets of bedding direct from the Sealy factory. The Company agreed to let Girlstown have sets that sell for \$110 for only \$27.50.

Friday, enough money to pay for 42 sets had been raised. Clubs, groups and individuals may buy an entire set or give any amount toward this purchase. This bedding will replace sleeping units at the home

that are 20 years old and completely worn out. If there is money left after buying the springs and mattresses, this will be used to buy sheets, pillow cases and blankets for the home.

Anyone wanting to help with this project can pledge support by seeing or phoning Houston Barker at Stacy Mason or Mrs. I. D. Onstead.

### SPRING HAIRDOS

Among the scene-making new hairdos for spring: hair up-swept and coiled into a tight knot at the top of the head. It's really a throwback to grandma's day. In the spring showing of Oscar de la Renta, all the models sported such a hairstyle, designed this time by Suga.

**ARMY SPECIALIST FOUR** James S. Moss (right), 21, son of Mr. and Mrs. Carroll M. Moss of Olton, received the Purple Heart during ceremonies Jan. 10 near Cu Chi, Vietnam. Congratulating him is Colonel Ennis Whitehead, commanding officer of the 2nd Brigade, 25th Infantry Division. Spec. 4 Moss was presented the award for wounds suffered in action against hostile forces in Vietnam. The specialist, a squad leader in Company C, 2nd Battalion, 12th Infantry of the 25th Infantry Division, entered the Army in March 1969 and was stationed at Ft. Ord, Calif., before arriving overseas in August 1969. He is a 1966 graduate of Olton High School and attended West Texas State University, Canyon.

## Boy Scouts Celebrate Anniversary Today

Sixty years ago, the nation's largest youth organization, the Boy Scouts of America, came to America.

Fifteen years later, the South Plains Council was organized. This week both anniversaries will be observed with a week-long observance of the annual Boy Scout Week which runs from Feb. 7-13.

More than 10,000 Cub Scouts, Boy Scouts, Explorers, and adult leaders in the South Plains Council, including Littlefield and Lamb County, will join in a series of special events to mark the occasion.

Highlights of the celebration will be unit centered Courts of Honor in Scout Troops and Cub Pack Blue and Gold Banquets.

These events will take place in more than 250 Scouting units in the 20 county area of the South Plains Council.

Judge Halbert O. Woodward of Lubbock, newly elected president of the South Plains Council, announced that the theme for this year would be a continuation of the "BOYPOWER 76" slogan, "America's Manpower Begins with Boypower."

The annual report to the Gov-

ernor ceremonies will be held in Austin Saturday.

Representing the South Plains Council in the annual event will be Rhonnie Crawford of Lubbock, an Eagle Scout in Troop 402. He was selected earlier as "Top Scout" in the council and will make the report to Governor Smith.

Also participating in the report will be District Top Scouts John Brand of Lubbock; Tony Ellison of Ralls; and Mike Branon of Lamesa.

The 60th anniversary of the founding of Scouting is today, which is also Scout Sunday. Scouts and leaders have been requested to attend the religious institutions of their choice in uniform.

Official Scout religious programs and inserts will be used, and many sermons will be on the theme of Scouting and religion. Scouts will be deeply involved in religious services as song leaders, ushers, Scripture readers, and in many other capacities.

Religious emblem awards will be made to many Scouts who have earned them for service to their religious institutions during the past year.

## Fry's Pigeons Take Honors In Minnesota Tumbler Show

W. W. Fry, secretary-treasurer and publicity director of the Komorner Kapital Klub of Littlefield, recently took four first place awards at the American Komorner Tumbler Specialty Show in St. Paul, Minn., held Jan. 7-11.

He also won an award for showing the Best Barred Blue Old Cock pigeon in the show. He showed best opposite sex in Young Dun Hen class; the Young Any Other Color Cock class; the Old Barred Blue Cock class; and the Old Barless Silver Cock class.

He placed second in Old Black Cock class and third in Old Red Cock class. "The Old Red Cock class was the largest color class in the history of the Grand National Show, with 26 entries. This show drew the greatest

numbers of Komorners ever to be shown at Grand National," Fry said.

Fry showed five Silver M.F. Helms in the American Helms Association Specialty Show, and won a first place award on Old Silver Cocks. This cock was also best opposite sex of its color. Fry's birds placed first and second in Young Silver Helms Cocks and second and third in the Young Silver Hen Class.

"The Komorner Kapital Klub still has nine members and the prospects look good for a greater enrollment of members in 1970," Fry stated.

"Many young birds have already been banded with beautiful 1970 bronze colored bands, and every member is hoping to have a future show champion already started," he concluded.

### Sending Valentines

Kay Hoffman

One of the warmest pleasures. And a custom truly fine. Is sending folks we hold most dear A loving valentine.

The little words of "thank you" And warm words of love and cheer, Of these we're oft neglectful As we travel through the year.

Just a quaint old friendly custom, But it's worth its weight in gold. For it lends a happy feeling To folks both young and old.

The finest selection of Valentines are at your original Hallmark Store in Littlefield.

# dry up, lady!

Think about it. Your biggest complaint about washday is probably the clothesline routine. With a family, it gets to be a hang up. You can spend a big part of your life hanging out T-shirts, mini-skirts and Hubby's socks. And sheets, and jackets, sweaters, bedspreads... even curtains. Not to mention the unmentionables.

You don't like lifting, lugging and wrestling loads of heavy, wet wash to the backyard. Then there's always the weather. Now's the time to do something about this bundle of problems with a GAS clothes dryer. A gas dryer does five loads of clothes for the price of one load in an electric dryer. So, dry up with gas.

THE ABUNDANT LIFE

Enjoy Living

By BOB WEAR

CAN WE ENJOY LIVING? Unfortunately, there are people, too many, who seem to think that it is some kind of a sin to even suggest the possibility of doing so.

Some will ask, "How can anyone enjoy living in a world like our world?"

Others will say, "If you had the problems I have, you would know that it is impossible to enjoy living." Someone else will say, "If you felt like I do, you wouldn't even talk about enjoying life."

MOST PEOPLE CAN ENJOY living. It may be too late for some, but not for most of us.

This can be accomplished in spite of physical difficulties: in spite of disappointments and occasional failure; and in spite of the undesirable world condition.

LIFE IS NOT A VALE OF tears, even though many folk insist that it is.

Of course, there will be some tears for all of us; but these tears must not prevent the enjoyment of living.

In fact, our tears can help make our vision clearer so we can see more of the truly worthwhile aspects of life.

ENJOYMENT OF LIFE is not found in standard moral and ethical behavior.

All available facts support the accuracy of this conclusion. All around us, there is an abundance of evidence that those who rebel against the laws of God and our time-tested moral code never enjoy living.

Yes, they try to give the impression that they are having a good time; but they are just pretending.

Much of the disorder and turmoil of our age, perhaps most of it, stems from the ill-formed views about how to enjoy living. Self-indulgence is not true enjoyment.

PAUL HARVEY

Way Out

ONE OF NEW YORK'S youngest narcotics addicts was Walter Vandermeer. He was an alcoholic at 10, addicted to heroin at 11.

Of all New York's 600 heroin deaths this past year one-fourth were under 20; many under 16.

WALTER VANDERMEER, overdosed with "H", found dead in his Harlem bathroom was 12.

Probably nothing these days is more frightening to parents than the drug menace. They don't understand it. They know no defenses against it. They don't even know how to recognize it when they see it—until too late.

School-agers glibly discuss the varieties of drugs by both their scientific and nicknames, are familiar with the effects of each.

PANICKY PARENTS, trying themselves to gang up on this shadowy adversary, are holding meetings, forming committees in hundreds of suburbs and small towns from coast to coast.

The Wall Street Journal surveyed these organizations and discovered they all have two things in common: they are scared witless by the menace and they don't know what to do about it.

A CITIZENS' COMMITTEE in Smithtown, N. Y., urges blood and urine tests to determine who is using what. The Clifton, N. J., school board is seriously considering daily saliva tests. San Diego schools are expelling drug experimenters in bunches.

There are four statewide organizations in Massachusetts; most meet well, meet regularly, keep minutes, waste hours, accomplish nothing. Some such groups receive small federal grants.

PRESIDENT NIXON has given his support to the use of local committees to attack the drug problem.

THE PHILOSOPHER

New Source

(Editor's note: The Sandhills Philosopher on his Johnson grass farm discovers a new source of tax revenue this week, or so he claims.)

Dear editor:

All governments, from towns to cities to states and on up to Washington, are always looking for new sources of tax revenue and I have just found one in a newspaper that blew across my face as I stepped out the back door the other morning and which I pulled off fast as no man in his right mind will go out my back door blindfolded on account of that loose ball.

It's the second one from the top. Or was yesterday. Another one may be loose by now.

According to it, South Vietnam has been charging and we've been paying 10 to 15 million dollars a year in taxes on property such as food and supplies and ammunition we've got stored there to defend the country against North Vietnam.

People talk about those backward Asian countries but somebody over there ain't so dumb.

Whoever thought up the idea of

taxing us for helping them is a genius.

But I don't see why we can't learn from the mysterious East and use this idea ourselves.

For example, take highways. Most big highways are financed in great part by the Federal government. All right. If a highway comes through a county, why can't the county tax the highway? It may sound preposterous, but why not follow the Asian mind and send Washington a bill and see what happens? Who knows, if it reaches the same office that's paying U. S. taxes in South Vietnam we might get a check back in the next mail.

If it works, the lid is off. There are Federal projects and buildings all over the nation, every town has a post office--say, there's an idea. Tax the post office. Tax the welfare office. Tax the Red Cross. Tax the Internal Revenue office. Tax the state legislature. Tax the Governor's mansion. The field is unlimited.

Yours faithfully, J. A.

A WOMAN'S VIEW

Cat Problems

By PEARL BRANDON

WRITING A COLUMN for publication is an awesome thing, I've found out. When I think of all the people who might read it, I almost get cold feet and throw in my pen.

There is one thing we know, no one can write for every body. I am a very ordinary person so I will try to slant my thoughts toward ordinary people with ordinary problems.

RIGHT NOW we are having cat problems at our house. We never solicit cats but it seems we always have one.

It used to be the grandchildren who lived in Los Angeles and couldn't have cats of their own would manage to bring one to Granny's house.

THE CAT WE HAVE now came in a hail storm. In the spring while the hall was heating off everything, including the roof, my mother heard kittens crying under the honey suckle vines near her window.

I put something on my head and ran through the rain and hail and found two tiny kittens almost drowned.

We dried them off and put them in a box in the garage where the mother cat found them. Instead of moving them out, she moved in with them.

THE KITTENS were real cute. One was white and the other gray. We had a lot of fun watching them tumble and play on the lawn through the summer, then the gray one disappeared...and not long after, the mother cat disappeared too.

We had only the white one left, which was just as well. She was a real cute ball of fur playing around and sleeping in the garage until my husband ran over her with the car one day and broke her tail at the top.

FOR A FEW DAYS we thought she would die but she pulled through. Of course she became "Broke-tail." She is still pretty but she drags her tail. The only time she holds it up is when she is scared, then

she runs like a streak with her tail sticking straight out.

Our grandchildren fell in love with her...Granny don't give Broke-tail away. No one would love her but us.

WE NEVER LIKED a cat in the house, especially at night, so we always put her out and left the garage door open so she could sleep in there. This wasn't too bad even though we felt a few neighbor cats took advantage of the open door and slept in there on cold nights.

Then she started receiving gentleman friends...and this was something else! One morning when the snow was several inches deep I went out and there were six big old Tom cats all lined up with Broke-tail sitting on the banister looking smug and happy.

THIS WAS THE LIMIT We just had to close the garage door. This created another problem...Broke-tail had nowhere to sleep.

The weather was bad so we let her stay in the house. My husband POSITIVELY does not like a cat box in the house. "You'll just have to get rid of that cat!"

WE TALKED IT OVER and decided to call the pound and have her put to sleep the next morning. That night she lay on her pillow by the fire looking happy and contented. I felt like a traitor.

She thinks this is as much her home and it is ours, and we are her family. You don't plot to get rid of a member of your family.

THE NEXT MORNING I fixed a cat box. When my husband started to object, I suggested that HE call the pound, that I wasn't going to.

That was a horse, or should I say, cat with a different color. He didn't want to call the pound any worse than I did.

THE CAT BOX STAYED and Broke-tail sleeps on her pillow by the fire dreaming of her babies she will have in a few weeks.

HER BABIES! Hey! Does anybody want a broke-tail cat?

HOMINY GRITS

By CORNBALL BLEVINS

I GUESS ONE of the most satisfying sounds around the house, these days, is the patter of little "tax-deductions". (I've got a couple left at my house.)

Thinking of tax deductions makes me think of government, thinking of government makes me think of inflation,--and thinking of inflation makes me think of Nixon.

ONE OF THE LATEST cartoonists works depicted Nixon and the huge "Firey-Dragon" named "Inflation", standing "eye-ball to eye-ball" in a fighting stance. (I was very good, I thought.) Much has been said of inflation, here of late.

Anyway, at lunch, a couple of days ago, I asked my number two deduction if he could define "inflation" for me. (He's a seventh-grader.)--After thinking for a moment, he grinned: "It's payin' \$12.50 for pictures, that you thought were going to cost you \$9." (I'll not bother to try to explain that one to you.) "No--you know, it's high prices," he added.

A LITTLE LATER, my number one deduction came in. (They don't have the same lunch period.) and I asked him the same question.

"It's spending more, and going in debt for more money than you're taking in," was his answer. (He's a soph.)

Now I know one of the answers was a little more toward being

correct than the other, yet, when you combine the two, you've got a mess just like we've got!

NOW I THOUGHT inflation was what you did to tires, basketballs, footballs and the like.--That's why we got air, you know, is to blow all these things up!--Course, now, we've got polluted air, they tell me, and if our finances are blown-up with polluted air, we're in more trouble than I thought!--(I do understand that air pollution is, ESPECIALLY, bad in Washington!)

I OVERHEARD a couple of my farmer friends talking,--they were praising something they called NFO--(I guess that stands for 'New Financial Orbit').

"Shux," I heard one of them say, "Wouldn't surprise me, if we see \$3 grain by next fall!"--"Hey, you guys; cut that out!" I yelled, "My butcher shows his steaks by 'appointment, only' now!"--"Taint the grain that's causing it", one answered, with an air of complete innocence, "It's the processor that's getting the BIG rake-off."--(That being the case, I'm going to send my deductions to "processing College", they sure ought to be able to take care of "the ol' man" in his old age!)

I SUPPOSE INFLATION is the art of payin' people more, to do less

CHAMBER BANQUET

Continued from Page 1

was about an hour and half late for his speaking engagement.

Price didn't get to eat and feasted on the "Littlefield Tonic" (really grape juice) at the close of his talk.

Price's topic was "Agriculture--Pollution--Industry" and he spoke on the three as inter-related.

"Wherever there is industry, there is pollution of some kind and in the broadest sense, agriculture is industry--the largest one in our part of the country."

"Based on recent estimates, the 104 million automobiles in the United States are emitting 358,670 tons of deadly gases into the atmosphere every day.

"In January 1970, automobile manufacturers announced they can hopefully produce smog-free engines by 1980. We can add tonight that hopefully what is happening right here in Littlefield can speed up that timetable."

"Perhaps the Electric Car will be the forerunner of new technology which will allow us to have clean air without heavy additional costs....

"As important as cleaning up our environment is, there is something else that is just as important--that is revitalizing rural America in order to keep our population spread evenly about the country. That means industry to provide jobs for our people.

He continued, "And why are there so few jobs in rural areas?"

"First, because of the agricultural revolution....

"Secondly, little has been done to create job opportunities in rural areas for people forced out of agriculture. I think all of us here tonight will admit that it has just been within the past four or five years that we have begun to seriously think about bringing industry to our area."

Price went on to explain, "Many things have conspired to prevent the creation of jobs in rural areas: Federal farm programs have cut our cotton crop to 10 million acres, compared to 43 million acres before the programs began and local communities have not provided the services and utilities needed to attract industry."

After describing bills which

he had introduced in Congress, Cong. Price closed his speech with an explanation of why the U. S. is still in Vietnam.

He went back in history to the beginning of the conflict and brought an up-to-date analysis of the situation. He said, "We'll probably still be in Vietnam 40 years from now," and went on to explain "We still have troops in Europe, Japan and Korea."

The master of ceremonies introduced out-of-town guests from Lubbock, Clovis, N. M., Abernathy, Abilene, Dimmitt, Anton, Earth, Olton, Tulla, Amarillo, Hereford, Muleshoe, Levelland, Plainview, Springlake, and Washington, D. C.

State Rep. Bill Clayton; "Miss Littlefield", Kathy Minyard; and her runner-up, Tonya Bingham were introduced.

Mrs. T. L. Dunlap and members of "We, The Women" were recognized for their part in thinking up the theme, "Industry Is The Tonic Littlefield Needs", and decorating the high school cafeteria to fit the theme.

Incoming and outgoing officers and directors were recognized: ticket co-chairman Warren Dayton and Jerry Kehoe were introduced; Chic Conway, banquet chairman and Chamber of Commerce Manager Jim Kelly and his secretary wife were applauded for their contribution to the banquet.

Mayor J. E. Chisholm introduced the Congressman.

Barnes To Speak At Olton Banquet

Lt. Gov. Ben Barnes will be guest speaker for the Olton Chamber of Commerce and Agriculture Banquet set for March 17.

A highlight of the banquet will be the naming of Olton's 1970 Man and Woman of the Year.

Committee chairmen are working and planning for the banquet which will hopefully be one of the biggest and best.

Tickets will be mailed to members in the near future and additional ticket sales will be under the direction of Ken Burzess and Claude Burnette.

OBITUARIES

ELDRIDGE VALDRAN WEST

Services for Eldridge West, 93, of Seagraves, formerly of Whitharral, who died Tuesday in Seagraves Hospital, were Thursday in the 13th Street and Avenue D Church of Christ in Seagraves with Odell Setliff, minister, officiating.

Graveside services were conducted in Resthaven Memorial Park in Lubbock with arrangements by Webb Funeral Home. He was born in Erath County and had resided in Levelland and Whitharral from 1928 through 1933. He then moved to Lubbock where he remained until 1962. He then resided in Seagraves.

Survivors include two sons, V. R. of Albuquerque, N. M., and B. L. of Lubbock; four daughters, Mrs. R. E. Hudson of Austin, Mrs. K. D. Faulkner of Seagraves, Mrs. W. R. Teston and Mrs. Marie McDessy, both of Lubbock; 16 grandchildren; 37 great-grandchildren and one great-great-grandchild.

MRS. J. T. COPELAND

Services for Lucille Copeland, 54, of Olton, who died Thursday in a Plainview hospital, were Saturday in the First Baptist Church in Olton with Rev. John Lewis, pastor, and the Rev. Robert Field, pastor of Halfway First Baptist Church, officiating.

Mrs. Copeland, a native of Texas, had been a patient in the hospital about a week. Survivors include her husband, J. T.; a daughter, Mrs. Bill Griffith, and a son, Wayne Allen, both of Olton; a brother, Walter Daugherty of Myra; and five grandchildren.

RONALD L. MILLER

Ronald L. Miller, 28, a laborer who was taking gravel samples on a pavement project 5.5 miles north of Olton on U. S. 385, was fatally injured Wednesday at about 2 p.m. when struck by a truck.

Funeral services were Friday in the First Baptist Church with Rev. R. N. pastor, and Rev. J. T. Williams of the retired Baptist minister, officiating. Burial was in Littlefield Memorial Park with Parsons Funeral Home of Olton.

Investigating highway patrolmen said there were no witnesses to the accident, believed Miller was walking gravel spreader when the truck backed him.

Driver of the truck was Luis Ferrer, employe of Boswell & Crafton, a construction firm. The company was on the highway between Dimmitt and Hammon.

Survivors include his wife, Jan; two daughters, Mandy and Shelli, both of the home; parents, Mr. and Mrs. G. H. Miller of Olton; five brothers, Noble of Lubbock, Albert G. of Jefferson Town, Ky., Harvey Springlake, Gary of Amarillo, and Dale Monterey, Calif.; two sisters, Mrs. Heard of Littlefield and Mrs. DeBorja of El Paso.

JIM R. RICHARDS

Services for Jim Rouser Richards, longtime area resident, who died Friday home following an extended illness, were Saturday in Hammons Funeral Home in Littlefield with Rev. W. H. Howard of Olton and the Rev. C. Couch of Sudan officiating. Burial was in Sudan Cemetery with arrangements by Hammons Funeral Home.

A native of Olustee, Okla., he moved to Sudan area in 1927.

Survivors include his wife, both of Sudan; two sons, Alvin and Kenneth, both of a daughter, Mrs. Donna Benware of Fort Worth; a brother, A. D. of La Feria; three nieces, Mrs. Lillian Fulcher of Muleshoe, Mrs. Dean of Granite, Okla., and Mrs. Schipper of San Jose, Calif.; and several children.

FARMER

Continued from Page 1 complete his conservation work. Conservation projects include building waterways, terraces, irrigation systems and grass. Management-type operations are carried out year to improve the soil. Last month Dolle was named as the outstanding conservation farmer of this district by County directors. This nomination was made from 100 members.

"Herbert has been a good job for a long time," rector W. E. Jones said, announcing Dolle winner. Dolle will be entered in Texas Conservation Program, also, with conservation winners to be named in May.

Dolle received the Award of the World Conservation Award in 1966.

The Dolles have three and two daughters, Herbert (Butch), Nazareth, Mo. Muenster, Sharon of Billy of Littlefield, and youngest, J. T. lives at home and is an LHS junior.

COUNCIL

Continued from Page 1 ledged. The letter came from Bill J. Howard of the and concerned the issue which was made Dec. 11. While reviewing monthly report, council learned that the new units have reduced trip dump grounds by approximately half.

Trips for the same year were 713 compared for this year.

Besides routine business reading and approving of the previous meeting of proving bills for councilmen discussed and approved a payment plan delinquent tax account.

COTTON

Continued from Page 1 average. And he'd likely farming pronto if he being hailed out in just a normal occurrence and be projected into the future such. Moreover, if the USDA poses its pending change this late date, it will be a big faith with many people who thought the rules had been established when voted for marketing quotas December.

The sign up for this year began Monday, but Area farmers wait until the yield matter is clear before enrolling in the program. This may be here Tuesday. The deadline sign up is March 20.

Lamb County Farmers sign the intention to participate in the feed grain program and know the acreage, projected yield and payment. But a cotton farmer will sign a blank form and the amount to be filled isn't being encouraged, less an official ruling to the contrary, it is through the county ASC here and over the Plains have to refigure production yields on every farm.

### Model 30 Nurs-ette Automatic Calf Feeder

#### Easy To Install

Unit comes completely assembled, ready for easy mounting. Just connect to cold water line and electricity. New electric timer gives positive control of feeding intervals.

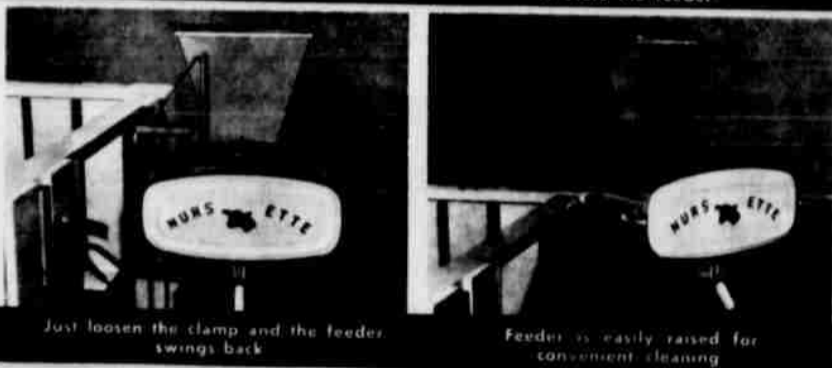

Mounted on fence, the feeder is protected from calves.

Simple installation makes it easy to relocate the feeder.

#### Easy To Maintain

No more fighting calves while cleaning the feeder. Unit swings out into the aisle for easy care. Hopper holds approximately 25 lbs. of calf feed. Vibrator keeps the powder flowing properly.

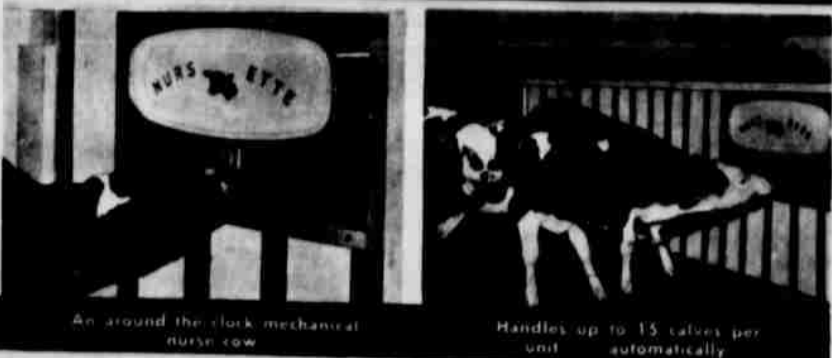

Just loosen the clamp and the feeder swings back.

Feeder is easily raised for convenient cleaning.

#### Easy To Use

They learn almost immediately as when nursing a cow. They set their own schedule eating small quantities every few hours day and night.

An around the clock mechanical nurse cow.

Handles up to 15 calves per unit automatically.

Multiple feeding is scientific. Nature intended calves to eat whenever they are hungry, as when nursing with the mother cow. Automatic feeding is profitable. You can profit by raising choice calves... for veal, stockers and feeders, or herd replacements with less time and labor.

The Nurs-ette is fully guaranteed against mechanical failure due to defective material or workmanship for six months from date of purchase and registration.

Nurs-ette Calf Milk Replacer Formula is especially designed and formulated for automatic machine feeding.

## Hospital-Clinic

### Has Meeting

AMHERST -- The annual meeting of the South Plains Hospital - Clinic Association was held in the high school auditorium Saturday, Jan. 3.

Bennie Harmon, president of the board, presided. Rev. Glenn Willson offered prayer to open the meeting. The auditor, Calvin Price of Littlefield and Floyd Rowell, administrator, reported.

During the past year, Dr. B. L. Burditt of Del Rio was added to the staff.

The Halsell Estate has donated an elevator to the hospital. Installation is expected to be completed this week or next. Recognition will be made and a plaque will be placed on the elevator when open house is held at the hospital during National Hospital Week this spring.

Ladies of the Hospital Auxiliary are furnishing a room in the hospital which they expect to have completed by that time.

Gene Campbell and Gene Templeton of Earth terms expired. They were re-elected.

**MICHELIN X RADIAL**

INSIDE STORY

safety + performance

Ordinary Tire      X Radial Tire

Test after test has conclusively proven that MICHELIN X Steel Cord RADIAL tires are built for today's high speed turnpike driving. (Found safe at 115 mph.) You'll corner with great safety because MICHELIN's radial plies absorb strong side forces much the same way as a pillow absorbs a punch. Steering will become easier and your car won't wander on straightaways. Steel cords prevent the braking action from distorting the tread so stopping distance is decreased.

What's more, steel-cords offer superior protection against punctures for a higher degree of safety.

economy

You'll get up to 10% gas savings because MICHELIN X Steel-Cord RADIAL tires roll easier. Your car will use less energy and go further on a gallon of gas. Unmatched traction on wet roads makes the MICHELIN X Steel-Cord RADIAL an all-weather, year-round tire. It gives as much snowgrip on packed snow as a snow tire... plus more grip on ice.

mileage

It's true that any radial tire produces increased mileage but only the radial with a steel-cord belt will double it. Under the same driving conditions (same car, same driver), the MICHELIN X Steel-Cord RADIAL lasts at least twice as long... frequently much longer... than conventional tires. And we'll back it up with a 40,000-mile tread wear guarantee to prove it!

construction

MICHELIN's extra-flexible body is made of rayon plies that run in only one direction along the wheel radius from bead to bead. This radial design (1), invented by MICHELIN tire engineers in 1948, virtually eliminates heat-producing friction and fatigue inside the tire, which greatly reduces chances of blowouts.

Now, thanks to MICHELIN's exclusive steel-to-rubber bonding method, developed in 1938, a super-strong steel cord safety belt (2) encircles the casing without the tread. Steel cords provide the tread with lateral longitudinal flexibility together with lateral stabilization. Carcass flexing is not permitted to distort the tread which consequently grips harder, tracks surer, and rolls easier with minimum scrubbing and distortion. That's why MICHELIN Steel-Cord RADIALS will outlast, outperform your present conventional tires... and other radials built exclusively with textile cords.

## Saint Valentine's Day

Let's make St. Valentine's Day unanimous. Let's say "I love you" to at least one other person. It is a bright and good day in the Christian calendar. Every one of us is the better man because he dares to love. The heart and the cross belong together. You cannot truly love without honoring the principle of sacrifice. Saint Valentine was a Christian martyr, beheaded by Claudius, emperor of Rome about the year 50 A.D. He loved enough to surrender his life in the service of God. The heart and the cross tell us that God is love, that he loved enough to give all for us. Will St. Valentine succeed in winning you and me to a genuine love for God that will not count the cost? The best text for St. Valentine's Day is John 3:16.

## Trouble, Trouble Go Away

REV. R. B. HALL  
First Baptist Church

ARE YOU IN TROUBLE? Most people are! The Bible has much to say about trouble. One main character of the Bible, Job said, "Man is born unto trouble." Again he said, "Man is of few days and full of trouble...he fleeth also as a shadow."  
Job had every kind of trouble imaginable to come upon him. His family was killed in a freakish accident. He became deathly sick himself. His wife left him, and his friends laughed at him...yet he profited by his misfortune. He, like the psalmist, saw good come from his hardships.  
The writer of Hebrews expressed the same feeling. "Now no correction for the present seemeth to be joyous, but grievous; nevertheless, afterward it yieldeth the peaceable fruit of righteousness unto them which are exercised thereby."

he would be more contented. At that thing was done about it.  
It was decided that on a given day a man would bring his burden to a cross and cast it on a great pile of burdens and himself of it for good.

THERE WAS ONLY ONE condition was to select another burden, one of the loads he so enviously observed others carrying...and so it was...My, what a pile of discarded luggage!  
Everyone was happy...but not for long. Each man examined the burden he had found it different, heavier, and more bear than his old one. Before long he returned, asking for his old load again.

O HOW LIKE US to think "grass looks greener on the other side of the fence." Things are always better when we're not! We seem to feel that if only we were different, or if only I didn't have this or this adversity, my world would be better.  
You've heard it I'm sure, but it's true: peating: "I complained because I had shoes, until I met a man who had no feet."

TROUBLE CAN BE GOOD for us.... if we take it in the right way! If we had no trouble, we would not know what life is, or what it is for.  
The greatest souls that ever lived have been those who have come up through great tribulations, struggles, and troubles. They accepted their troubles and bore them well.

An old, old legend tells of a time when the people of the earth made proud lament each in his own behalf. Each was full of anger and envy because life had treated him unfairly compared with others. His troubles were too many, more than others had to bear, and they were heavier and harder too.

EACH ONE SAW his neighbor walking lightly under his load of care and difficulty...or so it seemed, and it made him unhappy. Every man was sure that if he could trade troubles with his fellowman, life would be easier, and

IF ONLY YOU and I could trade all that troubles us and begin counting our blessings, I believe we would be in better shape...spiritually, physically, and mentally.  
The Bible says, "Thou wilt have perfect peace whose mind is stayed because he trusteth in thee." Could our troubles mount up to the degree that we fail to trust in God?

JESUS SAID, "Let not your heart be troubled....Ye believed in God, believe also in me."  
ARE YOU TROUBLED? WHY?

A TOUR to the Orient is being planned by Rev. and Mrs. R. B. Hall, and who will make the guided tour with the Halls will leave from Lubbock. First stop will be in Hawaii, then on to Japan where they will attend the 1970 Baptist World Alliance. Persons interested in making the tour, led by Rev. Hall, are asked to contact him at Littlefield's First Baptist Church for further details.

## Two Amherst Seniors Plan Washington Trip

Two Amherst senior girls, Darlene Weaver and Barbara Muncy, are scheduled to fly to Washington, D. C., this week for the first session of a Presidential Classroom for Young Americans.  
The girls will stay at the Washington Hilton Hotel, headquarters for Presidential Classroom. The study will end Friday with a review and examination of the work covered during the session. A graduation banquet, complete with yearbook and diploma, will be that evening.  
Miss Weaver is the daughter of Mr. and Mrs. W. T. Weaver Jr., and Miss Muncy is the daughter of Mr. and Mrs. Clarence Muncy.

The syllabus includes academic instruction in the three branches of the Federal Government, seminars and talks with congressmen, city officials, government department heads, ambassadors, and national news media representatives.  
Central Florida produces 28 million tons of phosphate annually--70 per cent of United States and 30 per cent of world need.

## Sponsor League

ANTON-- A Little Dribblers Basketball League has been organized for Anton boys ages 9, 10, 11 and 12 years of age. Application cards will be distributed in school this week. Tryouts will be Saturday, Feb. 14 at 9 a.m. in the Gym. Parents are invited at this time and rules and regulations will be discussed.

A \$3.50 fee will be charged to cover cost of the uniforms and insurance. Boys must furnish their own shoes. There will be two games a week with 2 hour workouts on Saturdays.

The Anton Lions Club is sponsoring the league in Anton, S.M. Monroe has been elected president of the league.

Little Dribblers, Inc. is a non-profit corporation organized to further the interest in basketball as a competitive sport. Its organization is comparable to other youth programs such as Little League baseball.

An all star team will be selected from our community to participate in tournament play leading to National Little Dribblers Championship. The national finals championship tournament will be played in the South Plains Texan Dome at Levelland during April.

## Lamb Co. Cancer Society Representatives At Meet

Lamb County Chapter of the American Cancer Society was well represented at the District 3-5 Crusade Conference held Thursday, Feb. 5 at the Red Raider Inn at Lubbock.

During the morning general session, Mrs. C. L. Houchin of Earth, vice-president of the Lamb County unit, spoke on the "American Cancer Society Program".

Mrs. Houchin discussed the various programs and services employed to "Fight Cancer in Texas" and gave a break down of the use of each dollar given to the American Cancer Society.

She stated: "Thirty-eight cents goes for cancer research--our current investment sponsoring investigations in ten major Texas hospitals and medical schools."

"Fifteen cents out of every dollar goes for professional education, fellowships, and services--keeping physicians informed of up-to-date developments in treatment of cancer, providing clinical fellowships, supporting tumor clinics and professional conferences."

"Twenty-one cents goes for public education--informing Texans of Cancer's Seven Warning Signals so that they may guard themselves and their families against cancer. Free films, exhibits and pamphlets are available to all Texans."

"Twenty-three cents is spent for service to patients--providing cancer patients with dressings, loan closet and comfort items, and speech rehabilitation."

"A nickel of the dollar is spent for development of program and administration."

"Nine cents goes for campaign-providing Crusade materials for 265 Unit Campaigns which reach more than three million Texas families during the April Crusade; developing memorial, legacy and special project programs and providing Crusade staff assistance."

"This brings a total of \$1.11 of expenditure, which reflects increased research allocations to Texas by the National Cancer Society," Mrs. Houchin concluded.

Hubert Henry of Littlefield, president of the Lamb County Unit, presided over the luncheon session of the Conference, and Dr. James Granberry of Lubbock presented the challenge.

Others attending from Lamb County were: Mrs. Thurman Lewis, Earth; Melvin Rape, Orlton; Mrs. Gault Demel and Mrs. Frank Simnacher, Pep; Mrs. Jack Nix and Mrs. J. K. Nelson, Spade; and Mrs. Charles G. Nace, Littlefield.

The goal for Lamb County for the April 1970 Cancer Crusade has been set at \$10,000. The slogan for this year is "Crusade '70, 'We're On Our Way!'"

## Anton Lions To Hear Dr. C.L. Kay

ANTON--Dr. C. L. Kay, assistant president of Lubbock Christian College will be the principal speaker at Anton Lions Club Ladies night meeting Monday Feb. 9 in the Anton school cafeteria.

Dr. Kay has delivered over 2,500 addresses on the principles of the American system of private enterprise, the nature of man, comparative economic systems, and the religious, historical and moral values that have contributed to our economic well being. He is an exponent of the free market, private ownership of property and limited government rationale.

He was selected by Clark Clifford, Secretary of Defense, to participate in the Joint Civilian Orientation conference conducted by the Department of Defense. The purpose of the conference was to give 70 civilian leaders, representing a cross-section of American business and professional leadership, a first hand view of our armed forces and observe operational demonstrations at army, navy, air force, and marine field commands.

In addition to Dr. Kay's address, a special musical program has been arranged.

## Damage Heavy In Wreck At Amherst

Heavy damage resulted from the collision of two pickups just east of Amherst at US 84 and farm road 37 Wednesday afternoon.

A 1968 Ford pickup owned by Gifford Hill Western of Farwell, was pulling a trailer loaded with plastic pipe. The driver, C. Eddie Chambliss, slowed and was struck by the vehicle behind him, a 1967 Chevrolet railway express pickup driven by Thomas Gale Cox of Lubbock.

Cox's chest hit the steering wheel and he was knocked unconscious, according to Highway Patrolman Bill Angel.

Damages to the Ford pickup, trailer and pipe was set at \$400 and an estimated \$800 to the other pickup.

# Levelland Too Much For Cats

Littlefield slid to 1-7 in District 3-AAA play while Levelland upped its zone standing to second place when the two rivals of long standing clashed here Thursday night.

Levelland coasted to an 81-59 victory over the Wildcats in the final meeting of the two teams in this district, before they go separate ways in next year's redistricting.

Levelland jumped off to a 14-2 lead early in the first quarter before the Cats got handy with the ball and narrowed the gap to a 17-14 three point lead. The Lobos pushed the margin

to 11 and a 25-14 lead at the end of the first quarter.

The Cats scored 12 to Levelland's 15 in the second stanza, came within three points of the Lobo scoring again in the third,

and had 16 to Levelland's 21 in the final frame.

Charles Carter led the Wildcat scoring with 20 points, hitting on eight of 18 field goal attempts and four of eight free throws. Charlie Holt and Gary Hutchins connected on 13 and 10 points to figure in the double column.

Failure to come up with rebounds hurt the Cats more than turnovers. Levelland's long-armed boys grabbed the rebounds holding the Cats to 15 offensive and 21 defensive rebounds for the night.

The Wildcats travel to Slaton Tuesday.

## JV FALLS 80-50

The Littlefield JV grabbed the round ball and hit on eight field goals and a free throw for a 17-11 lead against the Levelland JV only to get behind and fall victim to an 80-50 defeat here Thursday.

Levelland won the game at the freethrow line, hitting 30 of 47.

Four of the Littlefield JV starters fouled off pronto.

Ralph Funk and Matt Giles contributed 10 each before they fouled out in the third quarter. Jay Trammell hit eight and Jerry McCarty seven before getting benched on fouls. Dennis Hartly, the only starter not forced to the sidelines, hit on seven.

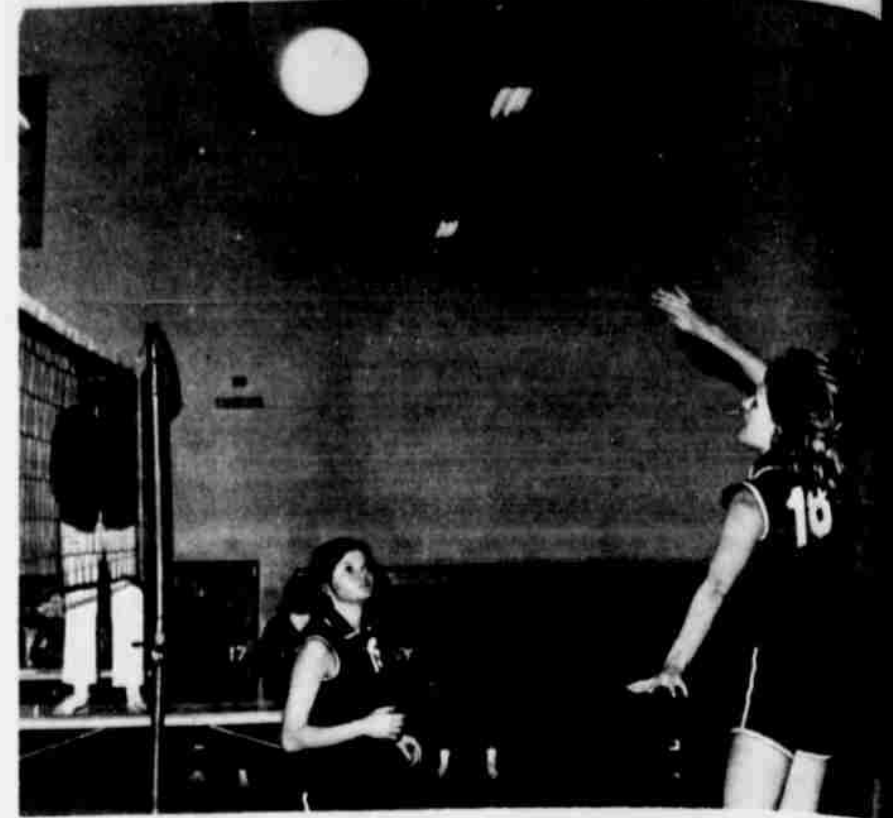

Levelland's JV capitalized on their advantage late in the third and in the fourth quarter, running up 24-0 in the final frame.

CHARLES CARTER and Keith Woody are all over a Lobo in a full court press late in the Thursday night game with Levelland.

and just about everybody who loves comfort and knows a wise move when they see one. Installing gas air conditioning now will allow you to beat the spring rush that always comes with that first hot or dusty day. So, while others are waiting for the overworked installers, you'll be cool, calm and collected...already enjoying the benefits of your winter air conditioning buy. Gas quietly cools your whole house for what you may have been paying to cool two or three rooms before. And, you'll save on repairs, too, because gas air conditioning has no compressor to break down or wear out, and a com-

pressor is a usual source of failure in other air conditioning systems.

So, join the smart ones. Call Pioneer today and tell them you'd like to find out more about installing gas air conditioning in winter. A representative will come tell you just what it will take to convert your present forced air heating system to gas air conditioning. It costs you nothing to get a complete cooling survey of your home or business.
