Cancer Society Sets Goal for Upcoming Fund Drive

at their regular meeting Monday night. The Lamb County Unit of the American Cancer Society made plans for the upcoming fund drive and set the goal for the county at \$8,000—the same as last year.

Members of Lamb County reached an all-time high for donations last year, and several communities exceeded their goals by several hundred dollars. Contributions for last year totaled \$7,500, earning the county the Gold Star award.

Lady Clare Phillips will again be the county campaign chairman. She is the individual counties in the county.

As part of the program, a film on cancer titled "Investment in Life" will be presented by the new field representative, J.R. Warner of Lubbock. Warner is narrator of the film and wishes to see the film as soon as possible by contacting the county president, Joella Lovvorn at 441-4411, and make

arrangements. Other films on various subjects concerning cancer are also available.

In other discussions during the meeting, members of the unit discussed several ideas for special events, heard reports from the officers, and set the next meeting for the unit on Monday, March 3, in the XIT Room of Security State Bank in Littlefield at 7:30 p.m. Work packets for the campaign will be distributed at that time.

Communities represented at the meeting Monday were Littlefield, Earth, and the host community of Amherst.

RAD RICHARDSON, left, president of the Littlefield Chamber of Commerce and Agriculture; Jack Wicker, center, president of Security State Bank and Bill Adams, executive vice-president of the Littlefield C-C, discuss a

point after the all-day industrial meeting Tuesday. Numerous civic leaders and governmental bodies met with the industrial prospect. Result of the meeting is expected in about a month. (Staff Photo)

Watch Word For Gold Buyers Is 'Watch Out'

AL RODGERS says there's been no gold rush in Littlefield. "We've had three come in to make inquiries," said Doyle at Security State. "But we sold any. When people find out all the related charges in buying gold back out."

A customer wanted to buy a mere ounce of gold bullion wafer. Last week he would have cost him \$180 since you buy gold at the spot price to begin with a certain amount over the price there are a few other charges \$30 on one ounce. Then the five percent sales tax is added to that. On an ounce of gold that's \$22. To that add another

five percent for the transaction fee, or another \$9.22.

This makes \$202.94 tied up in that ounce wafer and the extras haven't ended yet. Since very few banks have any gold, the gold must be ordered and the buyer then owes shipping and delivery fees determined by the value of the gold and the destination, plus the cost of postage and insurance.

If you leave the gold in the bank where it is purchased, then add \$15 a year for safe keeping.

If you take the money out of the place of purchase, then before it can be resold it must be re-assayed, and that will cost the owner \$30.

Bankers call gold buying a "sterile investment." This means that instead of earning interest money, it's costing the owner either in safe keeping and storage or loss from money that could be drawing interest.

"You can see right off that gold will have to go up about \$25 or \$30 an ounce before you could even get the market price back," Patton added.

The initial price of gold per ounce in New York was set at \$197.50 an ounce, and the price has been dropping since then.

Banks offer gold for customers who want it, but it's hard to find a banker who

recommends gold purchasing as an investment.

Most bankers feel that gold is a commodity and very speculative. Individuals would have to be very sophisticated to make the right decision.

Besides drawing no interest nor dividends, gold is not covered by FDIC.

You have to have it re-assayed, and the costs in handling, insuring, and storing it can run as high as 25 percent. That makes prospective buyers lose interest fast.

If someone has gold they want to sell, that can be a slow process. It would have to be valued. The closest assay See WATCH OUT. Page 4

County 4-H'ers Selling Tickets

4-H members in Lamb County are busy selling tickets as a method to complete their county financial contribution to their Texas 4-H Center.

The 4-H Center is under construction on a 78-acre site on Lake Brownwood, according to Jim Kuykendall, assistant county Extension agent. The Center is about 80 percent complete and is expected to open in early 1975. Kuykendall said that the Center will cost about \$1.4 million and all Lamb County clubs have been asked to participate in the ticket sales to complete their county pledge.

ACEA Jim Kuykendall said that 4-H'ers in Lamb County had pledged to

raise \$6,000 for the Center, and this drive will help them complete their goal.

The ticket sales offers one of the best ways for a youth group to make money, Kuykendall said, and expressed his hopes that everyone will support the local 4-H'ers. Each ticket sold will comprise a \$1 donation toward completing Lamb County's pledge, and will entitle bearer a chance at winning a 12-gauge shotgun and/or one pair of ostrich skin boots.

The drawing will be held during the Lamb County Junior Livestock Show Saturday, Jan. 18, at 1 p.m. at the Littlefield Livestock Show Barns.

Rep. Clayton To Be Sworn In As House Speaker

Persons from Rep. Bill Clayton's district, including many from Austin, Jan. 13 will be flying to Austin, Jan. 13. The speaker-elect will be sworn in as Speaker of the House of Representatives.

Clayton's chartered flight will leave at 8:40 a.m. and is due to arrive in Austin at 11:15. The election and inauguration ceremony is to take place at 12:00 p.m., and the flight will return to Lubbock at 4 p.m. and back to Littlefield at 7:25 p.m.

A reception is being planned in the district who attend the ceremony after the election in the House of Representatives prior to the return to Littlefield.

Clayton's new office may be bigger, his staff a little longer and his work a little heavier, but Rep. Bill Clayton, representative of the Texas House of Representatives, hasn't changed much. The man from District 74 and Lamb County.

out on an almost-barren bulletin board behind his desk was a small sticker with "Think Water" printed across it.

"I've always prided myself in voting my district," he said. "I suppose it's easy for me to identify with farmers and ranchers in my district because I farm right along with them. When they need water for crops, I need water too. I guess I know about the plight of the farmer and rancher just about as well as anybody."

With a long list of accomplishments during his tenure as a state representative, Clayton still maintains his principal legislative achievement is a 700-page recodification of the state's water laws. His credentials in the areas of water and land legislation are a mile long—leader in the fight to write a financing plan for a Texas Water Plain to the State Constitution, chairman of several interim water committees, chairman of the Standing Subcommittee on Water of the Natural Resources Committee, chairman of the Southern Environmental Resources Conference and former executive director of Water, Inc. of Lubbock.

As Speaker, Clayton's interest in water and land legislation will not diminish.

Sixty-fourth in the line of Texas House Speakers, Clayton will be the only

representative from his district ever to be elected Speaker. Only Lee Satterwhite, representative from Potter County, (whose district then included two counties now in Clayton's district, Deaf Smith and Oldham), has served any part of the district as Speaker. Satterwhite was Speaker from 1925-27.

Although not from the district, former Attorney General Waggoner Carr, then serving as representative from Lubbock, was the only other area representative to be elected to the most influential position in the House.

Sanctioned by the Texas Constitution, the Speaker is selected by his peers at the beginning of each term. The Speakership has come to be the most revered position of authority in the House and is said by many to be second in importance only to the Governor.

Observers have said Clayton has congregated the most widely diverse coalition of support in years, drawing votes from the most conservative to the most liberal representatives. Clayton says such a coalition is needed to effectively deal with the important issues facing this session.

Top on the list of Clayton's priorities this session is school financing. He expects the Legislature to provide guidelines for assessment of real and personal property for taxation. He

supports constitutional revision and believes the Legislature should utilize the expertise and materials gathered by the recent Texas Constitutional Convention to present a document to the people.

"One of the greatest problems we're going to have to deal with this session," Clayton says, "is how to handle the \$1.5 billion surplus in our budget. Personally, I'd like to see us save or invest at least part of the money to work for the taxpayers."

Clayton says he plans to give "every representative a fair shake. The speaker's chair will be fair-minded and open. I have always stood for honesty and fairness in government, and I hope to use these traits to raise the public's image of the Legislature."

His reputation as a hard worker, expert on parliamentary procedures and honesty are widespread among his colleagues. Furthermore, his record shows he doesn't veer from representing the views of his district.

"The Speakership," he says, "is a privileged and honored position in the House. I will follow a long list of great leaders in Texas history. It's an awesome task, but also a rewarding one. I'm ready to get on with the work ahead of us—the work the people of this state elected us to do."

LETTERS

To The EDITOR

2 January 1975
Dear Editor:

Due to the disastrous and devastating condition that exists in the cattle industry today and the continued distrust by the consumers with the supermarkets, the Independent Beef Producers of America will have timely and pertinent news releases regarding some of these topics. We will be forwarding these to your paper and would appreciate your reviewing same and passing them on to our many members in your area.

Enclosed you will find a copy of our goals. Our most important goal is to help the plight of the grass-roots farm and rancher of our nation.

Respectfully,
R.L. Moore, President
Independent Beef Producers Of America
P.O. Box 1011
Clarksville, Texas 75426

During a television interview with Horace McQueen, agricultural director of Channel 7, Tyler, R.L. Moore, president and Lee Perkins, vice

president of the Independent Beef Producers of America stated that the cattlemen's hopes were shattered when news leaked out that the President was not going to curtail the meat imports.

The latest word is that he would permit 1,100,000,000 (one billion, one hundred million) pounds to be imported while the ports of all foreign nations are closed to meat imports.

Cattlemen from all over this nation find it distressing and hard to understand. The beef producers are aware of the brain washing attempts by the USDA experts to confuse and mislead them with their "imports are minimal and the foreign meat imported does not effect the beef producers because of the low grade imported".

The news was disheartening because the new level will allow over 85 million more pounds to be imported in 1975 than was imported in 1974. 85 million pounds does not sound too great, but when you realize it would take 241,477 cows weighing 800 pounds to make up this increase in meat imports, it then becomes meaningful.

For this nation's cattlemen the usual optimism of Jan. 1 was overshadowed by this disturbing news.

TEXAN'S NUMBER ONE PROBLEM FOR '75

CLIPS & TIPS

By JOELLA LOVVERN

PECANS ARE BECOMING more expensive now.

Because this year's pecan crop is smaller than last year's, prices will increase as supplies decrease.

COMPARE PECAN COSTS

Consumers can compare costs of shelled pecans versus unshelled pecans as one way of making them more economical.

In well-filled out pecans, about half the weight is nutmeats. So, at 89 cents a pound for pecans in shells, a pound of the pecan nutmeats costs about \$1.78.

Compare this with the cost of pecans already shelled to decide if the difference is worth the time and effort involved in shelling pecans.

CHOOSING PECANS

For pecans in the shell, look for those that are clean and free of scars, cracks or holes. They should be well filled, so the kernel won't rattle.

For shelled pecans, look for plump, meaty kernels. Nutmeats should be crisp and brittle, and if they'll serve as garnish, they should be uniform in size and color.

STORING PECANS

Nuts in the shell keep better than shelled nuts, and unsalted nuts keep better than salted ones.

As a rule, the lower the temperature, the longer pecans will keep.

Here are three recipes that make suitable gifts—or snacks for holiday entertaining.

ORANGE PECAN BREAD

- 1 egg
- 1 cup orange juice
- 1 cup raisins, finely cut
- 1 Tbsp. grated orange rind
- 2 Tbsps. shortening, melted and cooled slightly
- 1 tsp. vanilla
- 2 cups sifted flour
- 1 tsp. baking powder
- 1/2 tsp. baking soda
- 1/4 tsp salt

VICTOR TUCKER

Funeral services for a Littlefield native, Victor "Vic" Tucker, 37, of Lubbock, were conducted Monday afternoon at Resthaven-Singleton-Wilson Funeral Home Chapel in Lubbock.

Tucker was found fatally shot at his home at 6203 W. 19th St. Saturday morning, apparently the victim of a burglar surprised in the act of ransacking Tucker's home.

Officiating at the services was Rev. Doug Thomas, pastor of the College Avenue Baptist Church in Levelland.

Burial was in Littlefield Cemetery under Resthaven-Singleton-Wilson direction.

A native of Littlefield, Tucker had resided in Littlefield until 1959, when he moved to Lubbock. He owned and operated two service stations there.

A charter member of the South Plains Racing Association, Tucker was widely known in local auto racing circles and had campaigned race cars in both the supermodified and sportsman divisions.

A 10-year racing veteran, he had competed at Arena Park Raceways in Lubbock as well as at other South-western tracks.

Survivors include his sister, Mrs. Tommie Sisson of Levelland; three brothers, Jimmy Odell Tucker of Tulsa, J.C. Tucker of Clovis and Bob Tucker of Lubbock; a half-sister, Mrs. W.L. Decker of Stratford, Okla., and a half-brother, Martin Tucker, of Akron, Ohio.

PECAN BALLS

- 1 cup sugar
- 1 cup pecans, chopped
- Beat egg; stir in orange juice, raisins, orange rind, shortening and vanilla. Sift flour, baking powder, soda, salt and sugar into liquid mixture. Mix well. Stir in pecans. Pour into well-greased 5x9x2 1/2-inch loaf pan. Bake at 350 degrees for 1 hour.

SUGARED PECAN

- 1 cup sugar
- 1/4 cup water
- 1 1/2 cups pecan halves
- 1 tsp. light corn syrup
- 1 tsp. vanilla
- Boil sugar, water and syrup together until it forms a thread, or reaches 239 degrees to 243 degrees F. on a candy thermometer. Add vanilla; cool until lukewarm. Beat until the mixture becomes cream. Add pecan halves. Stir until pecans are well coated. Pour on waxed paper and separate pecans. Store in tightly covered containers.

TIPS AND TIDBITS

TOBACCO STAINS can be removed from nails by rubbing the stained areas with cotton soaked in medicinal hydrogen peroxide.

FROZEN FILLINGS? You can freeze almost any kind of sandwich except those containing raw vegetables, hard-cooked egg whites, fruit jellies or preserves and mayonnaise.

IF YOU WANT to free your hands and still carry pocketbook essentials with you, sew a gaily colored hip pouch. Use a drawstring closing that can hang conveniently from pant belt loops.

REMEMBER, most dark green and deep yellow vegetables excel as inexpensive and dependable sources of vitamin A.

DO YOU KNOW the mixing lingo? Cream—to beat shortening and sugar until thoroughly blended and creamy. MENINGUE—a stiffly beaten mixture of egg whites and sugar.

WHIP—To beat rapidly to incorporate air and produce expansion—in other words, egg whites and heavy cream.

"If you think you got stuck with stocks, wait until you have to eat your gold coins," one banker said.

"Robberies and coins go hand-in-glove so to speak," another added.

If you insist on getting into bullion collecting, you'd better watch who you buy from. Bars of gold are even easier to counterfeit than coins. Gold bars are pretty easy to fake. Beirut counterfeiters are said to be making 14-karat bars that will be sold to U.S. suckers as 24 karat. The watch word is Watch out!

THE ABUNDANT LIFE Suspend Judgement

THERE IS NO WAY for us to know how much harm we do ourselves and others by pre-judging people and situations, and otherwise jumping to conclusions.

In many instances, it is much too easy to make evaluations without sufficient information; and, oftentimes, without permitting enough time to elapse. We may even make these evaluations with misinformation. Thus, many mistakes are made; and, consequently, many losses are incurred.

WE MAKE ASSUMPTIONS about people and situations, and this is not necessarily a faulty practice; as long as it is handled wisely. This means that assumptions must be tentative; that is, we make it part of our over-all guideline to "suspend judgment".

It is easier and will certainly save heartache and regrets, if we wait about reaching a conclusion; if we hold our decision in abeyance, as long as possible. There will seldom be an instance that demands immediate judgment about either people or situations.

AT THE VERY BEST, we are going to make some mistakes in our judgments. If we follow the wise practice of "suspending judgment", we will not eliminate all mistakes, but we can certainly reduce them to a minimum.

This will be one of our most helpful personal accomplishments, for the support of our own peace of mind and for the best possible relationships with our fellowmen.

"IN FORMING A JUDGMENT, lay your heart void of fore-taken opinions; else, whatsoever is done or said will be

measured by a wrong who have the judgment everything appears

WHEN WE JUDGMENT", we are not being wise. We are promising our convictions concessions in matters wrong; but are creating favorable climate for a correctly-held conviction identification and support opposed to the wrong.

We are not trying to be silly, but are trying to be irresponsible actions wrong conclusions.

WE CAN BE TOO HASTY, in forming and "judgment". To make it worse, there is an stubborn in staying with statement we have made the untenable position even after we realize it "too hasty".

In the worst aspect of dishonest action, some a way to make it appear right; even though they have made an error in

WE MUST TRY mistakes in judgment, not always satisfactory, be some cases that cannot because neither time nor found for making amends

WE MUST SUSPEND when we can and for just can.

GUESS IT'D DAWNED on you as to how our crime rate is on the increase. And, a good bit of it is taking place right here, in our immediate vicinity.

The old saying about as to how morals are higher, and the crime rate lower in West Texas seems to be becoming one of the passing legends.

WHILE I STILL defend the idea that the best people in the world live right here in our vicinity, our crime rate is rising at an alarming speed. Are we raising a bunch of hoodlums, or are they coming in from the outside? We'd like to think the latter.

Yet, it's a matter of fact that there's too much vandalism and petty crimes taking place for all of it to be coming from out of town. And usually these little "fun sprints" turn into more serious crimes, all too soon. Bonnie and Clyde started out in much the same manner.

I CAN'T IMAGINE where the thrill is, of hearing shattering glass, seeing someone else's property burn, or the destruction of another person's property. And where is the satisfaction of using an item or spending money you haven't earned? These things are taking place, right here, in our own community.

If there was ever a police and county official cooperation, it must be remembered that they're Yet people don't want it.

AS BEN FRANKLIN put it nearly 200 years ago, "...in this world nothing is certain but death and taxes". He might have added "protest". About six years later he was borne out by the Whiskey Rebellion in western Pennsylvania, a protest against a tax on whiskey that forced President Washington to call out the troops. "Death, taxes and protest we still have with us. Only the names and methods and causes seem to change.

I SAW A BUMPER sticker the other day, "If you can buy booze, you can buy beef".

WITH THE UNEMPLOYMENT rate jumping, the crime rate will grow with it, so beware—you cannot be too careful in protecting your belongings. As suggested by many law enforcement agencies, it is a good idea to record all items that have serial numbers and to mark all other items that do not have identifying marks. About the only way you can prove an item belongs to you is to have an identifying mark.

ACCORDING TO THE Associated Oregon Industries News Digest, of the 17 countries listed, the U.S. ranks 13th in food price increased between 1963 and
