AN ENERGETIC GROUP of Littlefield youngsters collected \$25.37 for the Spies-Cristan Hospital Fund Saturday afternoon. A grand total of \$2,371.65 had been deposited for the fund in both banks by presstime Wednesday. Felipe Cristan's condition is now listed as serious at Methodist Hospital in Lubbock, but Danny Spies is still on the critical list. Danny opened his eyes for the first time Saturday and x-rays revealed there was still some forn and swollen tissue in the base of his brain. Youngsters here, left to right, are Tanja Thomson, 7; Benita Parker, 10; Rhonda Hollingshead, 11; Michael Williams, 10; Mark Williams, 5; LaNona Betts, 13; and Kyle Shipley, 10. Two dance bands played for a dance Saturday night in the old Jaycee Hall, and the \$255 collected was donated to the fund.

AREA WATERLOGGED

Rain Total Near 3 Inches

Booming thunderstorms mixed with soaking drizzle visited Littlefield and the Lamb County area again, lowering the boom about 6 a.m. Monday morning.

A dry spot is hard to find anywhere on the South Plains following one of the worst summer droughts in many years.

The entire area is thoroughly soaked following on-again, off-again rains all day Monday and Tuesday with hard showers falling between 2 and 5 a.m. Wednesday morning. Littlefield's official rain guage at the Pioneer Natural Gas office on Phelps Ave. showed 2.85 Monday through Wednesday morning.

Wednesday noon, rain totals over the area ranged from 2.5 to over 4 inches.

More than 3.7 inches fell in the Spade-Hart Camp community for the three day total.

Several farmers in the Whitharral area reported over 4 inches since early Monday morning. Only 2.2 fell at the Richardson

General Store at Bula, but northeast of Bula D. W. Clark received over 3 inches. Ed Williams at the Earth Farm

Chemical said farmers in the Earth-Springlake area had an average of 3.5 inches of precipitation this week. Inside Sudan city limits, 2.2 inches of

rainfall fell Monday through Wednesday morning, but in the Beck Gin area more than 3 inches of moisture came.

MISS HAMPTON LEARNS:

'People Are People'

By NILAH ROGERS

Frances Hampton knows what it's like to be in the minority.

She is one of 226 Baptist college students who gave up their summers for a special type of service. She spent 10 weeks working in Vacation Bible Schools in underpriviledged areas-and most of the time she was the only white person wherever she worked.

Miss Hampton worked with Negro youths in the Home Mission Board program in Atlanta, Ga.

During the 10 weeks she was there, she "learned to see people as people instead of seeing simply the color of their skin."

There's no particular sacrifice written into the employment, admittedly, since participating youths are paid \$30 a week for the 10 weeks they are in the program, but there is a purpose in mixing work and recreation and a great deal of dedication is needed.

Miss Hampton was assisted in her Bible school work by two Negro girls. In most instances these three were superintendents and teachers of their departments. And in almost every case, the children who attended would not have been able to have Bible school without the missionaries.

"There wasn't as much racial prejudice as you hear about," Frances Hampton said. "I was treated very well

everywhere I went." Miss Hampton saw the part of Atlanta that most tourists never see. Although

were in downtown Atlanta, and not in real ghettos, she came face-to-face with slum conditions.

'We went down streets where the people have to put garbage out in front of their houses and it just piles up-it's never picked up. There are a lot of high rise apartments being built. I saw situations where people don't want to move out of their homes into apartments, and you can see why they don't want to give up their homes

The trip wasn't all work and no play. Frances saw the Braves play the San Francisco Giants, She went to Georgia's Six Flags Over Texas twice, visited Stone Mountain, the capitol, the Home Mission Board building and went shopping several times. An impressive sight to her was the Regency Hyatt House, a 20-story hotel with revolving restaurants, bubble elevators, and beautiful fountains and landscaping.

She went by plane both ways, and this was her first time to fly:

It isn't her first time in missionary work, however. She is getting to be an old hand at this. Last summer she went on a five-week trip to Nevada where she worked with Indian children on a reservation in Virginia City. Two summers ago she did Bible school work at Ojita village near Espanola, N. M. These Spanish people are descendents of Coronado's men who deserted Coronado

and hid in the hills centuries ago. Frances Hampton finds this work an excellent way to combine service with

ASC Mailing Farm Checks Ninety-five per cent of about \$12 throw out some of their ideas to see how

million in payments for participation in cotton, feed grain and wheat programs will be in the hands of Lamb County farmers by the end of this month, according to Lamar Aten at the Agriculture Stabilization & Conservation About \$5 million was mailed out

through the Lamb County ASCS Office last Tuesday. Through Tuesday of this week, approximately 60 per cent of the payments had been mailed.

Of the total amount being processed through the Lamb County office, \$9 million is for the 14.7 price support on cotton and \$3 million for feed grains.

Proof reading, checking and processing is being done locally as the funds are received from the New Orleans, La.

Aten said about 30 percent of the 2,250 farmers participating in the program in this county are being checked on for compliance before checks are issued. A farmer may get a check for feed grain on one farm and for cotton on

another, Aten said. Payments are averaging around \$5,500 per participating farmer. This represents about the same amount that was paid last year. This year the county is down in cotton, but up in feed grain, so the average is approximately the same.

Broken down into acreage, payments are being made on 204,000 acres of grain. corn and wheat, and 168,202 acres of

There was a possible 187,688 acres of cotton that could have been planted this year. Of this amount, 168,202 acres were planted in cotton at the first planting. This represents about 90 per cent of allowable acreage.

Many farmers did not plant back in cotton after the Good Friday 13th hail storm, thus leaving just a little over 138,000 acres of growing cotton in Lamb

Farmers are now speculating on the 1970 government program. Almost the same program will continue on wheat. according to Aten, but the remainder is too far in advance to predict. Hopefully, he expects to get some good rumors by the end of the month. Government aides people are taking it. Aten said. "They generally have two or three alternates in mind. The Secretary of Agriculture has so much leeway, it's dangerous to do too much guessing at this point." Aten concluded.

Football Draws Record Turnout, More Money

Littlefield school enrollment remains slightly down from a year ago, but the football program is bursting at the seams.

Those two topics occupied the school board when it met in regular session here Monday night.

Supt. Paul I. Jones reported enrollment at 1,884 as of Monday. compared to 1,918 at the same time a year ago.

The major loss was in the first grade, where there are 49 students less than the 243 reporting at the first of school last

On the football field, however, Coach boys out this year, 67 of them in the newly inaugurated seventh grade

The 190 reporting from other classes is thought to be a record in itself, and the 257 total is the highest enrollment ever in football here.

The big turnout has produced problems, however. There turned out to be a shortage of equipment, and Supt. Jones asked the board to amend the athletic budget during the board meeting.

Trustees did so, adding \$1,000 to take care of getting enough equipment to suit out all the aspirants

In other activity, the board employed officially two new teachers, Miss Nina Lee McBride, formerly of Grants, N. M., schools, for fifth grade, and Leon Burch. former's of Spade schools, for ninth grade math

Also the board employed Cornell and Co., Amarillo, as the school auditor.

LAMB COUNTY ASCS office manager Lamar Aten and girl Friday, Vera Taylor, check over about 1,000 checks made out to county farmers. By the end of September, Lamb farmers' government checks will total nearly 12 million dollars for the entire cotton, feed grains and wheat program participation for 1969.

Entries in the annual Leader-News Football Contest are rolling into the newspaper office at a fast clip, indicating this year's contest is drawing unusual popularity.

Sunday's edition of the Leader-News carried the first in a series of 12 weekly contest forms. Contestants fill out the form and mail or deliver the entry to the Leader-News office.

Deadline for entering is 5 p.m. Friday. Mailed entries must be datemarked by Friday, or be disqualified.

Weekly winners, who will recieve cash prizes of \$5.00, \$3.00 and \$2.00 for first, second and third places, will be announced in each Thursday's Leader-News.

Contestants who participate regularly will be vying for two free tickets to the Cotton Bowl's New Year's Day football classic. The tickets will be awarded on the basis of most number of wins over the 12-week season.

There's still time to enter the first week's contest. Do it today!

What The Leader-News Thinks

Tragedy Of Philip Nolan

with Edward Everett Hale's classic novelette, "The Man Without A Country". Unfortunately, few of the students who read it were old enough to grasp the message of the story and it became just an exercise in English literature.

Edward Everett Hale's father was Nathan Hale, a nephew of the famous Revolutionary War spy who died at the hands of the British. Young Hale was named after his noted uncle, Edward Everett, who delivered the "main address" at Gettysburg on the day Lincoln made the Gettysburg Address.

Edward Hale in later years was the chaptain of the U.S. Senate. 'The Man Without A Country" was written during the Civil War as a warning to anyone who would renounce his country. His hero is Lieutenant Philip Nolan, who-upon being found guilty of treason-expressed a desire never to hear of the United States again, His wish was granted and the rest of the tale describes his life of regret.

We would like to quote one statement by the fictional Nolan for the benefit of those who are today renouncing their country. Perhaps some of them will heed the words of the tragic Philip Nolan.

"Youngster, let that show you what it is to be without a family, without a home, and without a country. And If you are ever

Sorghum Prussic Acid May Poison Livestock

Recent rains over the area have brought on regrowth of sorghums, sudangrass, sudan, sorghum hybrids and Johnsongrass that suffered from the dry weather this summer or that was recently

"This situation may pose a threat to grazing livestock," said Lamb County Agricultural Agent Buddy C. Logsdon.

"New growth on sorghums sometimes develops a high prussic acid content and becomes a hazard to grazing animals," Logsdon said.

The same situation develops when the growth of these sorghums is stopped by a freeze or frost. So farmers are urged to keep an eye on their stock for the next few months if their animals are grazing any of the different sorghum types," he continued.

Prussic acid acts quickly in the digestive tract of an animal, and can kill an animal within a very short time after the plant is eaten. Whether or not a poisoned animal can be saved depends on how soon a veterinarian can get to it.

Animals that have been poisoned may stagger and act sleepy before suddenly dropping dead, explains Logsdon.

Severe muscular twitching sometimes seen. Labored breathing and frothing from a wide-open mouth are common symptoms. An animal may grind its teeth and turn its head into its flank. The breath usually has an almond-like odor, and mucous membranes appear congested but not cyanotic and bluish The blood is often cherry red

Death results from suffocation, since the poison prevents the exchange of oxygen from the blood to the tissue.

Forage containing prussic acid can be fed safely if it is cut and allowed to cure completely in the field, or if it is put up as silage and not fed for several months, adds Logsdon.

Mature plants with few suckers are seldom dangerous if growth has been normal. Grain sorghum or sudan stubble regrowth grazed in late fall can be very dangerous.

A good way to check grazing safety is to turn one or two low-quality animals into a suspect field and watch them a day or two. Be sure water is available to them or the symptoms may be delayed.

If poisoning is suspected, Logsdon advises to consult your local veterinarian at once. However, good grazing management is the best preventive against animal losses due to prussic acid poisoning.

THE ABUNDANT LIFE

Beautiful People

DURING THE LAST several weeks, there has been a growing use of the expression, "beautiful people". According to news stories, these are the new breed of Americans. They are described as being polite, tolerant and permissive. Of course, they are the pill-popping, self-indulging, libertine crowd; but they are polite, tolerant and permissive.

They are polite and tolerant as long as they are undisturbed in their lawlessness, and otherwise degenerative behavior. If these are the beautiful people; who are the ugly ones?

HOW SAD! HOW VERY SAD that anyone was ever so foolish as to describe these dirty, lazy, useless, destructive and degraded persons as the "beautiful people." These are, in fact, in a very special

THERE IS NO REAL BEAUTY about the thin veneer of the sophisticated and deteriorating superficial segment of human society. These empty lives are filled with "things," but, as always, the empty life filled with "things" is just as empty still.

Littlefield taxpayers will begin feeling costing up to \$1.37 under the additional one-fourth cent increase in compared to \$1.29 under the art an additional one-fourth cent increase in the state sales tax Oct. 1.

From the consumer standpoint, the new state sales tax will be up from 4 to 4.25 percent, or an additional penny for every four dollars.

The Texas Legislature finally reached agreement on the new tax bill Saturday after 180 days of wheeling and dealing, and came up with a plan to raise \$348.6 million:

Senators also approved, 29-0, a \$5.87 billion appropriations bill that would require \$349 million in new taxes for 1970-71 state operations. Beer and liquor were removed from

the tax-exempt list; a nickel per drink levy will be collected at private clubs and on airlines flying over Texas, and cigarette taxes will jump from 11 to 15.5 cents per pack.

In areas with a city sales tax, collections on beer and liquor would benefit these cities by about \$10 million. Here's how the sales tax increase will affect purchases where both the state and city sales taxes are collected:

Grid Wars Open Friday

The opening kick-off on the 1969 football season sends Littlefield and area teams into action

Everything is non-conference at this stage, but all the games have big appeal to home town fans. Littlefield, Olton, Springlake-Earth, Anton and Amherst all will be playing at home.

Taking to the road are Sudan, Bula, Whitharral and Littlefield Junior as they open the '69 grid

Pick Up Season Tickets

A note to the people who have notified the school they want to keep their Littlefield Wildcat season ticket option, but still have not picked up their tickets: You'd better go get 'em!

Business Manager Sid Hopping said early this week he is holding season tickets for some folks who told him they'd want them. But he can't hold them past 5 p.m. Friday, when he'll have to offer all tickets for sale at the gate for the Dunbar Littlefield game.

Mustangs Open With Levelland

OLTON'S MUSTANGS enter the 1969 season with only two returning in From left are Barry Cowart and Gary Durham, a pair of defensive standay year, with Coach Jerry Blakely.

Olton Has New Coach, And Few Returnees

Jerry Blakely, could wear out a crying towel in record time.

It's not that he's like the everyday football coach and just wants the press to think he's a hero when he emerges with a winning season. Blakely really has a problem.

Situation: New coach in a football town that has won 19 while losing only two contests the past two years; only six returning lettermen from a team that graduated 20 last spring, and only two of those back were starters, and he's

starters to broken bonitis. The Mustangs have captured

the District 3-AA championship the past two campaigns. In fact they've walked through their regular season schedule without a loss. Blakely last week lost two

fine candidates for the starting lineup, quarterback Mike Parsons with a couple of broken bones in his throwing hand, and tackle Lynn Gullett with a broken leg.

With Gullett's exit, that leaves only five lettermen back: Barry Cowart, Gary Durham, Johnny Arroyos, Alfred Garcia and Mickey Crowder.

Cowart and "Bull" Durham started as defensive linebackers last fall, but saw little action on offense.

Durham has been moved to fullback, where the 156 pound junior is adapting quickly. Alonzo Springer, 140 junior, is tabbed thus far as slotback and Cowart, 173 junior, will be the

S-E Wolverines Ready With Lots Of Experience

New mentor of the Springlake-Earth Wolverines, Dean Wright, may have a little difficulty remembering all his players' names, but there's one hing for sure he remembers how to coach winning football.

And winning in any kind of sport is what the Wolverines do

Coach Wright has 11 letterment back from last year's 3.7 club (one of the poorest records for an S-E team ever), but 10 of them were starters who gained mountains of experience.

The Wolverines are blessed with fair size to go with that experience, but have a shortage break away speed. Fullback ony Barton, a bruising 182-pounder, was the fastest sprinter in school last spring. He did the century in 10.5.

Probably one of the biggest

pluses for the Wolverine '69 edition is its defense. This showed well in a scrimmage last week against Silverton. The Owls were held scoreless throughout the skirmish.

Wright is working his team hard on its passing game. He has five good receivers, but his two quarterbacks are either still a little young or inexperienced.

Mike Cleavinger started in the quarterback position last year while a freshman. But the 156-pounder is being put into the backup position by another sophomore, Hoyt Glasscock, Glasscock, 193, is not the passer Cleavinger is, but he

poses much more a threat on running with the ball. Jerry Braden was a ball carrier last year, but has been moved to the guard position. The junior lends heft to the

line with his 178 pounds and is yardage on their side of the an excellent blocker Barton will start at tailback He is a junior, and weighs 182 pounds.

Other starters back with Clevinger, Glasscock, Barton, and Braden from last year's squad are Danny Parish, Terry Bridge, Kent Parish, Ricky Enloe, Terry Ott and Steve Sanderson.

Wolverine strength this year, according to Coach Wright, will include the running of the fullbacks, a tough defensive line backed up by a seasoned secondary. Major weakness is passing.

Two big tackles gaining valuable experience with every workout are George and Marcellus Nance, George is a 189-pound sophomore and Marcellus is a senior weighing 180. In practice, no one makes

Ayala, 191 senior, at guards; and Randy Parkman, 149-senior, at center.

Defensively, the Wildcats probably will have Larry Purdy, 145-junior, at middle guard; Haberer and Ayala at tackles; G. Nace and Trotter at ends; Phil Chambers, 138-junior, and Mitchell or Danny Estrada, 218-soph, at linebackers; Hickman at rover; Funk and Holt at halfbacks and Owens at safety.

Dunbar's leader is Ernest Davis, 165-pound senior quarterback, who Lewis describes as "fast on the quarterback sweep, and a good passer." Lewis can throw short and deep, and

he makes the Dunbar attack go. Dunbar also runs a 205-pound fullback named William Meridth, spelled by Ronald Kinner, a speedster who also is

the Panthers' kicking specialist. "We're expecting great things from Davis," says Dunbar Coach Prenis Williams. "He did a fine job last season.

He's only 165, but a strong kid." Davis last year gained 372 yards rushing and completed 25 of 54 passes for 414 yards of six TD's.

Biggest loss to the Panthers from the 68 team was Marc Wilson, 6-7, 215-pound end who did not return to football this season
