Lamb County Tax Assessor-Collector, Herbert Dunn, said today that his office will mail new voter certificates to all persons registered as of January 31, 1976. This certificate will be good for the voting years 1976-1978.

Included with the new certificates will be a request for information to up-date current roles, to comply with the new voter registration law. Dunn stated, "No one will be removed or purged from the registration roles for failure to return the information form, but I strongly urge you to assist our office by returning the request with all information blanks completed".

After March 1, 1976, only the new blue certificates will be valid for voting.

Forum Club members, continuing the year's theme "Saluting America," heard a program entitled, "We Treasure the Freedom of Education." Mrs. Joycelyn Henry, local distributive Education teacher, prefaced her program with an explanation of the fact that the one cooperative education course offered in Littlefield High School is only one of many in the field. She presented two film strips, accompanied by cassettes, which pictured the total cooperative education program in Texas.

Members met in the home of Mrs. Marjorie Richey on Thursday evening, Jan. 8. Mrs. Reva Florence, chairman of the special Christmas committee reported a successful Christmas-dinner meeting on December 12 in the home of Mrs. Ruth Ford.

THE ABUNDANT LIFE

Wise Caution

By BOB

CAUTION IS ESSENTIAL to best of living, but we can very easily be overly cautious. We can also be foolhardy. Between being overly cautious and being foolhardy, we can find the desired life posture of "wise caution". Of course, this is an accomplishment that will require our best efforts and these efforts must be a continuing concern. That is, we must never drop our guard. This does not mean that we must keep ourselves in a strain, but we must maintain a sensible level of alertness.

IN SOME INSTANCES, when we must take action, we will find all involved elements to be most favorable for success. This is a wonderful situation, but we cannot keep ourselves on such a safe course always. There will be many times when we cannot delay our action until everything is just as we think it should be. The best we can do is make reasonable allowances for the uncertainties involved. This means that we go ahead with what has to be done, being all the while governed by "wise caution".

WE WANT TO BE AS SAFE and sure as we can, but this justified desire must not be permitted to cause us to live scared. This is not living, it is not even a decent existence. Many people fail to accomplish anything significant, because of being overly cautious. This approach to living can almost paralyze us. It is not unusual for some folk to be so cautious that they actually reduce their possibilities for satisfactory

living. Being overly cautious is this to people.

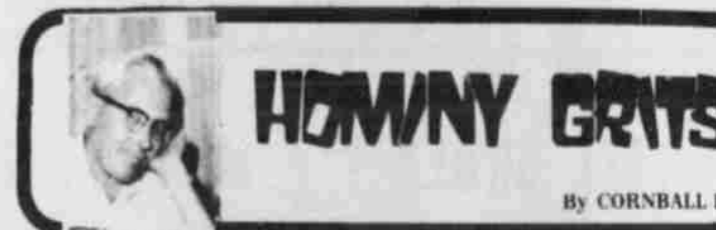

"I DON'T LIKE these cold perfect people, who, in order to speak wrong, never speak at all. I order not to do wrong, anything." - Beecher.

"WISE CAUTION" doesn't deaden our spirit for living, actually helps to preserve it, the only possibility for making the level of personal interest so essential to one's well-being realities constantly emphasize great need for being vigilant, circumspect in our plans and This practical approach to life us to continue living with enthusiasm and a rewarding sense of accomplishment.

THE BALANCE which enables us to be most effective in our lives seem elusive, but it is not unattainable. It is not just a happy accident, but is attained by the great grace in our careful consideration of all identifiable factors and possibilities.

This does not mean that we wait until everything is perfect, before we make a move. If we do this, we never do anything. We seldom do everything exactly right.

THERE WILL USUALLY BE a risk in what we try to do, but certainly keep the risk to a minimum by the "wise caution" with which we choose our words and our actions.

By CORNBALL BLEVINS

DON'T GUESS THERE'S a Texan that's not claimin' the Dallas Cowboys now. Just hope they have as many friends after next Sunday.

'S funny, ain't it, how ever one wants to claim a winner? Hasn't been but a few weeks since their supporters weren't havin' much to say.— The difference?— A fifty-yard, one-in-a-dozen, pass play!

DON'T GET ME wrong—I'm rootin' just as hard for 'em as anybody.— However, I'm not chancin' any money on the outcome of the game. (Not even if I had a cinch!) Would be nice, I betcha, to be able to draw interest on all the money lost on those last two games.

Of course, they've already been dubbed, "The Cinderella Team", and the odds are still against them.— But as far as I'm concerned they're a dedicated bunch of young men that have put a lot of time and effort into the practice and work of preparin' themselves to win.— And maybe they will.

BUT, WIN, LOSE, or draw, I'd be willing to give them the "Fighting Heart Award"— Huh?

WHERE HAVE I been for the last few issues?— Well, I've been busy, besides not havin' much on my mind. In fact, I've been about as confused as the lady on the radio census show.

Turn Row COMMENTS

By EMIL MACHA

AND WE THINK WE have troubles... Claire Tomei, I'm sure that most of you know her, in case that you don't, come to think of it I don't either, well anyway, she lives in Detroit and was awarded \$260,000 in a law suit because she no longer gets a thrill when her husband kisses her.

As the story goes, the lady from Detroit has no sensation in her low lip, the result of a dental operation seven years ago.

The judgement went against a Detroit oral surgeon. Mrs. Tomei's husband, Frank, 34, was also awarded \$15,000.

Of course, I'm sure that most of you have heard by now the atheist Madelyn O'Hair and her husband have officially separated. Apparently the marriage ended with a "No Comment".

JUST RAMBLIN'... Did you know that there are patches of cotton in the area that had not been harvested? What mite that was left in the fields has fences around them and cattle grazing the stubble. Wheat or other types of winter forage is having difficulty growing because of the dry weather. Grazing will be limited on these crops.

She allowed as how as she was chance to vote for that young man from California— JERRY FORD, after all, "He did a good job as governor of that state, and I like to see that kind of government in Washington!"

THEN, TOO, Turn Row has actin' about "half decent of late notice that he missed last night found out why, tho— he'd been to Lubbock, in one of those department stores, and was stranded about a couple of hours, at an escalator that had stopped work."

DO WISH SOMEONE would that feller, "H&R Block", off, and him off the tube! Seems to me, it's enough to have that grisly tax form in my desk, without him reminding me every fifteen minutes to get me about it!

If he keeps it up, I may just go with him one of these days and let do mine.— With my kind of keepin', that should teach him!"

NEARLY FORGOT to mention another Grandpa— that, thank you number one son and wife. Can imagine that happening to a young like me? Might surprise you to know SHE makes number eight!

Soon as I get my came out of it, guess I'll be payin' them a visit.

Of course the snows that we gotten so far were not in vain. Plus since the snows has been easier clods are smaller than those in that were plowed before the snow. Cattle are looking rather well this time of the year, thank stubble and cotton burrs. Don't what the weather will be like for next couple of months. Sure hope it is wet and I'd like to see it warmer especially for the sake of cattle now that calving time is draw near.

We do need more cold weather though, from a farmer's standpoint we don't I'm afraid that our problem will be quite a bit larger than it was last year. I guess the only in our favor now is that we do not as many acres in wheat as there was the area last year so maybe greenbug infestation will not be great.

THERE IS NO week nor day hour, when tyranny may not rest upon this country, if the people their roughness and spirit of defiance— Tyranny may always exist there is no charm, no bar against the only bar is a large resolute breed men.— Walt Whitman

IN WHOM DO YOU PUT YOUR TRUST?

I stood my beautiful grandson on the edge of the kitchen counter and urged him to jump into my arms. Without a moment's hesitation he did so. What a thrill that was! He trusted me! Instantly, silently, I pledged myself never to fail him because I love him so very much.

But I was reminded later that night, as I lay abed of these things:

- we trust in ourselves, and reap disappointments
- we trust our friends, and our hearts are broken now and then
- we trust in wealth, and find it useless, sooner or later
- we trust in reputation and social positions, and find that one slanderous remark can steal it from us

But by trusting in God—the world, the flesh and the devil are put on a leash, muzzled like a dog. "I will not leave thee nor forsake thee so long as the world lasts" is His pledge to you. No thinking person would trust in anything else.

SKAT SPEAKS OUT

Dennis McCain (Jr.)- "I thought this year's football team did a great job. This, I think, was accomplished mostly by team spirit. The basketball team is also doing great. A school that has more than one sport going for it is a more competitive school. I would still like to see basketball get more support, at least at home."

Shelly Bitner (Jr.)- "I think the football team had a good year with a lot of support from the student body. I think the basketball team is doing great also. We all have support for each other. I believe, though, that the rest of the season would be better if we had the student body support like the football team did."

Cindy Drake (Sr.)- "I think both our football and basketball teams have done a great job this year, especially the varsity boys basketball. More support is needed at the basketball games!"

Sally Hernandez (Soph.)- "I think they are doing a great job. I hope they keep up the spirit."

Lonnie Twitty (Sr.)- "I think that we are having a good basketball season because we are winning a lot of games. Football season was the best season of my life."

OFFICIAL LHS NEWSPAPER

Principal's Office Busier This Year

By TODD STAFFORD
Visitors to our school get their first impression of LHS from the office. The frequent opening and closing of the office door certainly shows how busy everyone must be.

"Greater enrollment has made the office a busy place," said Mrs. Peggy McCary, high school secretary. Mrs. McCary has worked for Littlefield Independent School district for a total of five years. She worked at the junior high office for three years and the high school office for two years.

Another person who indeed needs recognition for his work is Mr. Tommy Brawley. He has been employed at LHS for a total of 15 years. Mr. Brawley started out as an eighth grade math teacher in junior high. Later, he taught Geometry and Algebra in High School. He went back to junior high for another two years as a teacher, and then as junior high principal. Mr. Brawley is now working as the principal of LHS.

slips, run errands, and are just general helpers.

A very important person in the office is Coach Jerry Blakely. He has been employed at LHS for nearly five years. When asked if he enjoyed his job he replied, "I think I am very fortunate to be a member of the teaching profession. Working with young people is almost always an enjoyable experience. As a member of the coaching profession, I am brought into direct contact with some of the really great people of Littlefield." Coach added, "The most enjoyable experience I have is to watch a group of young people working together with a common goal in mind. I see this every time an athletic team competes."

Coach Blakely likes to hunt during the winter or hunting season and usually plays a little golf in the early summer. Coach spends a lot of his time in the office checking on absences and working with students who have problems getting to class on time.
