

THESE STUDENTS are among 131 high school band members who were named to the Region 16 All-Region Band in tryouts here Saturday. On the front row are Annelle Harris, Carol White, Debbie Sorley, Thriess Bingham, Stella Rodriguez, Tina Russell and Sharon Parrott. On the second row are Mark Rogers, Kenneth Richardson, Marty Mangum, Jackie Howell, Craig Gilley, Johnny Wimberley, Bruce Hall, Kathy Turner, Charlotte Hinds and Kay Armistead.

Littlefield Students Lead Region Band Selections

Twenty-one students from Lamb County placed on the Region 16 All-Region Band in tryouts in Littlefield Saturday. They were 16 from Littlefield, 10 from Springlake-Earth, four from Olton, and one from Sudan.

highest number of students of all schools—16 members. Friona and Denver City each had 13 members to place on the band, Lubbock Christian High School had 12 members, and Springlake-Earth placed 10 members. Olton High School placed four members on the band, and one from Sudan made the select group. The four Littlefield students who earned

first chairs are: Thriess Bingham, flute; Mark Rogers, bassoon; Jackie Howell, baritone; and Ken Richardson, percussion. A class breakdown of schools included in the band revealed 94 members from Class AA schools, 34 from Class A schools, and 3 from Class B schools. The band will rehearse Jan. 28, 29 and 30 on the Texas Tech campus, with Gerald Hemphill from Amarillo serving as director, and the initial concert will be presented at Monterey High School Jan. 30 at 7:30 p.m.

Olton students are: Steve Stockdale, clarinet; Kenny Spain and Jim Key, trombone; and Joe Bob Daugherty, bass. The one Sudan student is Joan Harper, clarinet.

GRAND CHAMPION STEER

Lichte Caps Honors Second Year In Row

For the second year in a row, Kenan Lichte has walked off with top honors at the steer show of the Annual Lamb County Junior Stock Show.

His heavyweight cross steer, weighing 955 pounds, won the competition here at the County Show Barns Saturday afternoon.

Reserve Championship Steer honors went to a 925-pound heavyweight Angus steer, shown by Welda Barton of the Springlake-Earth FHA.

Kenan is a Littlefield 4-H'er and is son of Mr. and Mrs. Les Lichte of Littlefield.

Welda is daughter of Mr. and Mrs. W. L. Barton of Earth.

Judging in the steer division of the show continued until about 3:30 Saturday afternoon, with Doyle Warren, county agent of Floyd County, viewing 39 steers in the Angus, Hereford and Cross classes.

Warren presented critiques on the animals for the boys and girls, and told how they could be improved for a better cutting animal.

Showmanship Awards were presented to three Lamb County youngsters following the steer show. The awards were based on the best showmanship during judging, and were decided by the judges in the respective animal categories.

Marios May of the Olton 4-H Club won the showmanship award in the lamb division; Gary Kelley, Olton FFA mem-

Cotton Allotments Mailed To Farmers

MARCH 1 SET FOR SIGN-UP

Allotment notices on Lamb County's 1971 base cotton allotment of 133,980 acres were mailed from the ASCS office Wednesday to individual farmers.

Producers will receive their yields in an additional notice when all 1970 cotton production has been turned into the county office. Lamar Aten, county ASCS executive director, is urging all farmers who have not turned in this production to do so in order that notices may be prepared prior to sign-up.

The base allotment is not a limitation on how much a farmer can plant but will be used for purposes of how many acres will be paid for and an acreage of how much the set-aside will be.

Marketing quotas are not in effect for 1971, 72 and 73 whether a farmer participates or not.

Producers are not required to participate in the cotton program on all farms in which they have an interest in the cotton crop. In addition they do not have to plant within the allotment on other farms in which they do have an interest in the cotton crop.

The prevented planting and failed acreage provisions will be the same as in the past except that if the prevented and failed acres are planted to another crop the payment will be reduced by one-third. The producer must plant or have planted credit for at least 90% of the farm's basic allotment to earn full payments and retain full history.

Transfer by sale, lease, or ownership to this county may be made until May 3, 1971. Landowners who would like to transfer cotton allotment by sale or lease to other parts of the State should check with the ASCS office to see what the deadlines are.

The 1970 projected yield will be used for the transferring and receiving farms to determine the amount of productivity adjustment in all cases. The 1971 yield will be used for the receiving farm for payment purposes. If the 1970 receiving farm's yield does not vary by more than 10% under the transferring farm's yield, all acreage will be transferred. A temporary transfer executed in 1971 for the first time cannot exceed three years. The receiving farm must comply with the set-aside requirements on the total acreage approved for transfer.

The same skip-row rules for planting patterns are still in effect except two or more rows skipped in a pattern are now eligible for set-aside.

Producers may start signing into the program March 1, 1971 and the last date for signing is April 9, 1971.

The Secretary of Agriculture made a tentative announcement for set-aside at 20% for cotton and 20% for feed grain. His final decision will probably be made early in February.

'IF OUR DRIVE DOESN'T PAN OUT, we don't know what we'll do,' say these three Girl Scouts from Troop 227. It only takes about \$10 a year to support one Girl Scout in the Scouting program, and the Annual Drive is now underway in Littlefield. The Mothers' March will conclude the drive here Sunday afternoon, Jan. 31. Scouts are Lupe Munkiz, April Ricks and Kathy Howell.

Girl Scouts Seeking Funds

The Girl Scout Fund Drive is underway, and donations are being accepted by Joe Montgomery, chairman of the drive.

Funds are being sought to help support the Girl Scout program in Littlefield, to make the payment on the Scout building, to pay the utilities at the building, the upkeep of the building, and for the purchase of new camping equipment.

"The girls only have three or four usable tents—hardly enough for 200 girls in the

Scouting program," Montgomery stated. Most of the equipment is provided by leaders, friends and Boy Scout troops.

The Mothers' March—when mothers will make door-to-door solicitations—is scheduled for Sunday afternoon, Jan. 31, from 2:30 to 5:30 p.m.

Funds collected during this drive go to support the entire year's Scouting program.

Officers Arrest Trio In Burglary Here

Lamb County sheriff's deputies Jerry Collins and Gary Lightfoot arrested three young men Saturday night and charged them with burglary of Higginbotham-Bartlett Lumber Company after finding the trio at the site and apparently interrupting the burglary that was in progress.

Albert Estrada, 21, of Littlefield, and 23-year-old Elroy Garcia who gave a Dallas address were arrested at the lumber yard, and Emilio Coronado, a 24-year-old Littlefield man, was arrested at his brother's house on Harris Street an hour and a half later.

Lightfoot and Collins were traveling west on Delano on routine patrol about 9:15 Saturday night and as they passed the north end of Lfd. Drive they saw a car at the curb on the west side of Higginbotham-Bartlett Lumber and someone squatted down by the fence.

The deputies turned their car around and came back in time to see the one who had been by the fence put something in the car. At about the same time, they said another person came over the fence from inside and jumped into the front seat of the car where a third man was under the wheel.

The officers said they saw several power tools laying in back of the front seat as they came to a stop. Lightfoot and Collins said the man standing outside the car saw them and jumped the fence and ran back through the lumber yard and across the street toward Pioneer Grocery.

Estrada and Garcia were arrested then by Collins and Lightfoot, and Sheriff E. D. McNeese and the two deputies had the third man in custody a short time later.

Entry into the business was made by taking the glass out of the north door of the building.

Bond was set at \$5,000 each. At presstime, Coronado had made bond and the other two were still in custody.

Three other arrests were made over the weekend. John Flores Jr. was charged with check law violation on Friday and remained in the county jail. A 17-year-old

from Anton was arrested Friday night on a drunk charge and was out Saturday afternoon after paying a \$20 fine. Bob Landreath of Paris, Tex. was arrested about noon Monday and charged with driving while intoxicated.

FIVE POWER tools were recovered Saturday night by Jerry Collins and Gary Lightfoot, Lamb County sheriff's deputies, when they surprised a trio at an apparent burglary scene at Higginbotham-Bartlett Lumber Company. Two Littlefield men and one from Dallas were charged with burglary and their bonds were set at \$5,000 each.

GOD'S PSYCHIATRY

A DEVOTIONAL
By WAYLAND HUTTO

Dear God,
Thank You for this day.

Thank You for giving me salvation and for loving me. Thank You for the blessings You have given me. Please forgive me of my sins. In Thy name, I pray, Amen.

Recognize this? It is the morning prayer of many Christians. Most of us utter these words without realizing what they really mean.

In thanking God for "this day", we should be trusting Him to take us through it. After all, a day brings temptations, doubts, and dangers of all sorts.

When we thank Him for our salvation and His love, we should be remembering who Jesus is, for "God is love." As we thank Him for the blessings He has given us, we should be placing our faith in Him, that He might bless us again.

In praying for forgiveness of our sins, we should also remember that we are first to forgive others of the sins they have committed against us.

When we say, "In Thy name I pray," we are expressing our belief in the fact that Jesus has provided us the only way to directly talk to God.

Last of all we are praying that our prayer will be answered. One could dig deeper into each part of this prayer, but how many of us even dig this deeply? We are slowly becoming a shallow people who pray only out of habit or a small desire for security.

Our involvements and ambitions relating to success in the world are blinding us and binding us to one thing—self.

It is a shame that the only time we sincerely ask God for help is one in which we think we are in real trouble and deep need.

Many would be surprised if they were to seek God's help constantly.

Homecoming Activities Set At South Plains

Plains College homecoming has been set for Feb. 12, with the game New Mexico Military highlighting events. The year's homecoming will be dedicated to the college's Homecoming Committee, the organization responsible for the establishing of the Homecoming Council.

Members of the committee include Dr. In Brewer of Vernon; W. Marcom of Pasadena; J. Lockhart; Robert Walker Jr. of Berque, N.M.; W. L. Dr. C. M. Phillips, J. G. O. R. Watkins and McCann all of Plains.

Petty, a former member of the committee, is now the theme used for the event and will be carried in the parade and other activities.

faculty members and women students will wear orange and the men faculty members and men students will wear blue, carrying out the college colors of blue and orange.

The lighting of the Spirit Torch will begin at 10:40 a.m. on Friday at the conclusion of the pep rally. The torch will be lighted by the Student Body President Fredrick Jackson, who will turn it over to the cheerleaders.

They will run down to the downtown area bearing the torch and continue around the square. At one hour intervals the torch will be turned over to members of various campus organizations.

The trek around the square will continue until the bonfire and pep rally at 6 p.m.

The homecoming parade will begin at 4 p.m. Friday with clubs and organizations represented with floats.

The dedication dinner will be at 5:30 p.m. Friday in Texan Hall.

At this time members of the Citizens Committee will be honored, presented plaques and scrolls. Dr. C. C. Colvert, Junior College Consultant from the University of Texas who worked with this committee during the establishing of the college, has been invited as guest speaker. Other special guests will include Board of Regents and their wives, administrators and their wives, and members of the Student Senate.

The homecoming game will begin at 7:30 p.m. in Texan Dome. The Homecoming Queen will be crowned at halftime and

former SPC Queens and former Student Body Presidents will be honored at that time.

A dance, both Western and Rock, is scheduled to begin at 9:30 p.m. in the Student Union Building.

Concluding homecoming events will be a Midnight Breakfast in Texan Hall at 1 a.m. Saturday, Feb. 13.

Homecoming Scheduled At Pep

The Pep ex-students association have scheduled their annual homecoming for Saturday, Jan. 30, with registration and open house to begin at 5:30 p.m. that afternoon.

A banquet is scheduled at 6:30 p.m. in the school cafeteria, with guest speaker Nathan Tubb, Dean of South Plains College. The cost per plate at the banquet will be \$1.25.

Superintendent, M. G. Gary will be master of ceremonies and Charles Shannon, president of the ex-students association, will preside over the business meeting.

Additional events include a dance at 9 p.m. and the crowning of the 1971 homecoming queen. Door prizes will be awarded.

LEADER-NEWS SOCIETY EDITOR

In by-gone days, for company and special occasions, Grandma would take out for the barn with her hatchet, drag out her iron skillet and come up with "finger-lickin' good" fried chicken, chicken and noodles, or chicken and dumplings.

With the convenience of broad offerings of poultry products on the market today, plus the opportunity to serve turkey and chicken any time of the year, the homemaker should give thanks to the new methods of processing and shipping of foods, such as these.

Poultry is at the head of the list this year, with excellent quality and low prices. Why not take advantage of their serving versatility to economize on your food budget.

Allow about one-half pound ready-to-cook weight for each serving when you buy chickens.

The women of today have put down their hatchets—as we have all the modern conveniences and a big variety of recipes for poultry to choose from.

Well, enough for the bygone days—let's get down to some of the tasty modern chicken recipes.

BUTTERMILK BAKED CHICKEN

2 cups buttermilk
1 tablespoon salt
2 teaspoons paprika
1/2 teaspoon pepper
2 cups fine dry bread crumbs
1/2 cup melted butter, in reserve

4 whole chicken breasts, split
4 whole chicken legs
8 chicken wings

Wash chicken in cold running water. Pat dry with paper towels. Pour buttermilk in one pie plate and mix salt, paprika, pepper and bread crumbs in another pie plate. Dip each piece in buttermilk then coat evenly with crumb mixture.

Arrange chicken in single layer in 2 shallow baking pans. Cover tightly with foil.

Bake 45 minutes in preheated 400-degree oven. Then remove foil and brush pieces with butter.

Increase oven temperature to 450 and bake uncovered 15 minutes longer or until browned and tender.

CHICKEN IN TOMATO SAUCE

3 pound broiler, cut in serving pieces or
6 whole chicken breasts
1/3 cup flour
2 teaspoons salt
1/4 teaspoon pepper
1/2 cup shortening
1 cup chopped onions
1 cup chopped green pepper
1/2 teaspoon salt
Dash pepper
2 teaspoons curry powder
1/2 teaspoons garlic salt
1 teaspoon chopped parsley
4 cups tomatoes
3 cups cooked rice
1/4 cup currants
1/2 cup slivered almonds
Remove skin from chicken.

SPRINGLAKE-CIRCLE

MRS. TOM STANSELL

MR. AND MRS. Don Spain, Steve, Joe Ellen, Robin and Janet returned home Jan. 4 from Cali, Columbia, S. A. At Cali the Oltonites were with Spain's brother and family, Mr. and Mrs. Jim Spain, Cathi and Chris. They also visited other points of interest there.

MR. AND MRS. Paul Young and Mr. and Mrs. Tommy Kirk and daughter, Jennifer, visited last week with his parents, Mr. and Mrs. Thompy Young near Anson. They also visited with Paul's sister, Mr. and Mrs. Charles Henry, and son Quinton from Troy, Mich. and another sister, Mrs. Bert Killingsworth, from Roby.

Roll in flour combined with the 2 teaspoons salt and 1/4 teaspoon pepper.

Brown in hot fat, remove and keep warm. Add onions and green pepper to fat and cook until tender.

Add remaining salt and pepper, curry, thyme, garlic salt, parsley and tomatoes, mix thoroughly. Replace chicken in sauce. Add water if liquid does not cover chicken.

Cover and simmer 45 minutes. Serve in rice ring; add currants to sauce and pour over rice. Sprinkle almonds over. Serve 6.

CHICKEN STEW WITH ONIONS

2 broiler-fryer chickens, cut in serving pieces
3 cups water
2 1/2 teaspoons salt
1 cup coarsely cut celery tops
3 sprigs parsley
1/2 teaspoon dried leaf tarragon

5 medium onions, sliced
3 tablespoons butter or margarine
1 cup evaporated milk, divided

3 tablespoons flour
2 eggs yolks
2 tablespoons lemon juice

Put chicken in kettle; add water, salt, celery, parsley and tarragon. Bring to a boil; cover tightly. Reduce heat and simmer 1 hour. Remove chicken to casserole; keep warm. Strain broth and boil rapidly until reduced to 2 1/2 cups.

Cook onions in butter until slightly brown; add to chicken in casserole. Blend 1/2 cup of the evaporated milk with flour until smooth. Add to stock and cook, stirring constantly, until thickened.

Beat together remaining 1/2 cup evaporated milk and egg yolks. Add to hot stock and stir until slightly thickened. Stir in lemon juice and pour over chicken.

Serve sprinkled with chopped parsley. YIELD: 8 servings.

HINTS

ARE YOU MOVING? If so why not use bath towels instead of newspapers to pack clean dishes. When you unpack in your new home, they will be ready to use.

USE A DAMP towel on a sick bed tray. It keeps dishes from sliding around.

STAINED FINGERNAILS?

If so they can be easily cleaned by dipping a cotton-wrapped orangewood stick into peroxide and rubbing across stained surface.

PLACE ALUMINUM FOIL under the napkin in your roll basket and hot rolls or bread will stay hot longer.

CUT YOUR stewing chickens up before putting them into the deep freeze. Then they go from the freezer to the pot without thawing.

WASHING WALLS? Fill a paint roller pan with sudsy water and use your roller to wash walls. Rinse with clean water and a sponge.

KEEP LEAF LETTUCE leaves crisp by placing the leaves between paper towels after washing, roll up and refrigerate.

IF YOU SPILL something oily on the floor, cover with cornmeal to absorb it, then just sweep it up.

RED WINE used in cooking brings out the flavor of the meat, while white wine sweetens it.

BULGE IN your linoleum? Flatten it by placing paper over the bulge and iron over it several times with a hot iron.

Adult Disability

ONE OF THE FASTEST growing causes of adult disability in this country is emphysema, a disease affecting the lungs. Causes and effects of emphysema were known, but the disease received greater emphasis in 1964, says the Texas State Department of Health.

A report that year by the U. S. Surgeon General's Advisory Committee on Smoking and Health incriminated cigarette smoking as a contributing cause of the disease.

IT WAS FOUND that for cigarette smokers the death rate from chronic bronchitis and emphysema was six times greater than for non-smokers.

Emphysema and chronic bronchitis are closely related although they may develop independently. Emphysema often develops from chronic bronchitis.

DEATHS DUE to emphysema have increased about five times in the past 10 years. Frequently the victims live in areas where air pollution is a constant problem.

Emphysema is described as an impairment of the bellows action of the lungs. In the course of the disease, the walls of the millions of tiny air sacs (called Alveoli) within the lungs are gradually destroyed. As the air spaces become larger, the victims find it increasingly difficult to expel all the air inhaled, and air

becomes trapped in the lungs. As the disease progresses increasingly large amounts of air are trapped in the lungs, causing the lungs to become enlarged. At the same time, they become less efficient in exchanging oxygen for carbon dioxide.

FREQUENT RESPIRATORY infections, increasing breathlessness, a feeling of tightness in the chest, general weakness and a tendency to tire easily are signs of the disease.

Eventually, emphysema destroys the elasticity of the lungs—the ability to expand and contract. As interference continues, an increased burden is imposed on the heart which must work harder to pump blood through the damaged lungs. Under such strain, the heart may enlarge and eventually give out.

EMPHYSEMA DOESN'T strike suddenly but comes on gradually, sometimes after several seasons of bad colds, each accompanied by a severe cough and often with chronic bronchitis. The cough may become chronic.

There is no known cure of emphysema, but with early treatment under a doctor's care most patients can get some relief from their attacks of breathlessness.

Treatment can enable many to live comfortably for a long time.

"Of course Jim wants you to come. Mother. He's getting your room ready now!"

HOMNY GRAYS

By CORNBALL BLEVINS

ANYTHING that makes you more apprehensive than the state legislature being in session, is for Congress to be in session at the same time.—We're in double jeopardy.

Both sets of law-makers are under pressure to come up with more money, and there's only one place to get it!

IT'S LIKE taking a sumptuous vacation on credit cards (it's a blast until the bills start coming in!)—Makes a vacation last, and, last!

Used to get the "tempters" from various lending agencies. "Dear Mr. B: Your credit rating has been raised to \$000.00. This money is waiting for you to come in and pick it up!"

ONLY THING was, you go get the dough and they had a nasty habit of wanting it back—and then some!

Shux, looks like the sensible thing to do, is just raise the national debt ceiling some more.—After all, what's a few, paltry, billions to a people like us?

COURSE, we wonder if the powers that be, ever have any idea of paying off the national debt? Come to think of it, I wonder what the national bank balance would look like—IN BLACK! (I can dream, can't I?)

If we don't intend to pay up, the higher debt ceiling would be the answer. However, I suspect that we're having to raise taxes for the purpose of paying the interest on what we owe already!

ANYHO-O-O, this promises to be one of the most unpopular group of lawmakers this country has ever known. They're gonna have to hit you where it hurts: right in the pocketbook!

Can't keep from wondering, tho, what's it gonna be like when the turnip bleeds dry. If there's any intention of getting the national budget back in the black, then it doesn't take an Einstein to figure out that there's a bunch of foolishness that's got to come to a screaming WHOA!

FOR INSTANCE: We'll have to give up our drones. We'll have to quit being "Caretaker" of the world. Quit "buying" our friendships, and get out of the "borrowing" business.

Of course, the first thing to do would be to develop the desire to get back on a sound business basis, but, this, we show no inclination to do.

SO-O-O? Guess we'll have fun as long as the credit cards are valid! And, after that?—Wonder what it's like in Canada??

A WOMAN'S VIEW

Minutes

By PEARL BRANDON

SOME ONE sent this little poem to me, and the author is unknown.

I have just a little minute,
Only sixty seconds in it,
Forced upon me, can't refuse it,
Didn't seek it; didn't choose it,
But it's up to me to use it,
I must suffer if I lose it,
Give account if I abuse it,
Just a little tiny minute,
But eternity is in it.

THINKING ABOUT this little poem reminds me of how much little things count.

One small moment of time in which to make a decision that may affect a lifetime.

THE HAPPINESS of life is made up of small things happening in a moment of time like a smile, a kiss, a heartfelt compliment.

Small everyday things make for happiness: an easy chair, a beautiful sunset, a baby's smile.

SOMETIMES we don't appreciate time enough—the seconds—the minutes—today.

We try to look ahead and strain forward, not taking time to enjoy the present.

EMERSON said, "This time, like all times, is a very good time if we know what to do with it."

Sometimes it is hard to know what to do with the present. We are prone to waste it.

TIME PASSES so quickly. We are born into the world in a moment of time and before we realize it we are growing old.

Very few of us make a very big mark in the world, just a tiny little wave on the great sea of time.

WEHN WE THINK of it like that we wonder what difference it makes how we use these tiny minutes, "forced on us" as the poem says, but it does matter.

Each of us are a part of the intricate pattern. If we make a bobber, we ruin God's beautiful plan.

IF WE USE our minutes well, the hours and days and years will take care of themselves.

Thank you for the little poem.

HOW ABOUT Mississippi's Sen. John Stennis switching from Hawk to Dove? Before we're too hard on our school-agers for their rejection of this war, look how it has scrambled our lawmakers!

AT THIS MOMENT there are men in the U. S. Senate who are among the founders of the United Nations, who supported any and all forms of foreign aid and intervention including the resolution which deepened our involvement in Indochina; now those men are saying we should get out, withdraw, come home, mind our own business.

Then there are the senators we used to call "isolationist" because they always wanted us to stay home and mind our own business; today some of them are advocating assorted degrees of continuing involvement in Indochina.

ON INTERVENTION, Fulbright and Goldwater have switched sides.

The dawn of this new year came up like thunder over the Potomac when John Stennis—prestigious chairman of the powerful Senate Armed Services Committee—said Vietnam never should have been any of our business and we should never make this mistake again, that we can't go running around rescuing every tottering nation. We can't and shouldn't try.

THAT'S JOHN STENNIS? Southern Democrat? Conservative, anything-for-the-flag John Stennis? Yes.

And it's not inconsistent. He's still putting our country's interests first. Here is what the chairman of Senate Armed Services says now:

The Vietnam war was a "civil war"; none of our business.

HE SAYS The United States lacks the resources "to aid every Asian nation any time it is confronted with a Communist threat both from within and without."

He says we must never send our troops to fight for nations which lack the unity and dedication to fight for themselves—and to the death, if necessary.

And Sen. Stennis says no President should be permitted to send our troops into

combat anywhere without the prior and explicit consent of the Congress.

SO INDEFENSIBLE is this Vietnam involvement that Sen. Stennis says the idea of an all volunteer army—as long as this warless war goes on—is a joke. Mention it to our troops, he says—they laugh.

Some of us, whose first and only allegiance is to our own country—nobody else's—moved over sooner from a win-the-war position to a get-out-of-Indochina position—some will later.

JUST A FEW MONTHS ago when some senators tried to limit our President's prerogatives in war-making, Sen. Stennis fought them every step of the way.

Now He's on their side.

THIS IS NOT inconsistent. He's still putting our country's interests first. He is not out of step. It's when the situation changes and you don't—that you're out of step.

And this is what this President will discover, sooner or—too late.

THE ABUNDANT LIFE

The Imperfect

By BOB WEAR

TO BE THE BEST we can be, and to do the best we can do are the right and wise guidelines for all of us; but we cannot be perfect, and what we do cannot be perfect. We have no basis for expecting perfection in ourselves or in anyone else. This is not, however, justification for any kind of perverse or degrading behavior.

COMPLAINING about imperfections is a rather common pastime. The imperfections are all around to be seen and criticized and emphasized. Many people use them for excuses to justify their own faulty actions.

Others, with a spirit of rebellion and hostility, want to destroy everything and start over. Of course, some persons choose the wiser course of trying to make improvements; and this is the constructive, intelligent and profitable choice.

"IT IS ONLY imperfection that complains of what is imperfect.—The more nearly perfect we are, the more gentle and quiet we become toward the defects of others."—Fenelon.

WE MUST NOT expect perfection in ourselves, or in others. This is an expectation that will always lead to frustrations and disappointments.

Of course, if we are wise and mature, we will try to do our best; but our best will never be absolute perfection. In our expectations of others, we must be reasonable and charitable; and not be upset if others are unreasonable and uncharitable toward us.

"Whoever thinks a faultless piece to see, thinks what he'er was, not is, nor e'er shall be."—Pope.

IT IS UNFORTUNATE that so many people refuse to take their proper role in, and assume their full responsibility for

living because there are imperfections in everything.

They commit the most damaging sin of all, and create within their personal life structure the very worst imperfections.

THE CHURCH is not perfect, the home is not perfect, the school is not perfect, the community is not perfect, other people are not perfect, and the world is not perfect.

If these were perfect, there would be no place for me. I am imperfect. If we are going to be unreasonable and silly enough to reject everything that is not perfect, we will even reject ourselves.

IF WE EXPECT perfection in this life, we expect more than our Creator expects.

We can move toward completeness or maturity, and should; but when this is accomplished, perfection is still out of reach. We must not be upset, or discouraged, or angry, or bitter, or disgusted with imperfections.

WE CANNOT GET AWAY from the imperfect, because we cannot get away from ourselves.

We can leave home, drop out of school, rebel against authority, prostitute ourselves, throw bombs, set fires, riot in the streets and otherwise jeopardize our lives and our hope for the future; but it is all an inexcusable and oftentimes tragic mistake.

THERE IS MORE to see than imperfections. People and institutions and organizations are not necessarily bad and undesirable just because they are imperfect.

Everything that involves humanity must be forever something less than perfect.

FIGHTING EVERYBODY and everything because of existing shortcomings is the very worst and most senseless employment of one's life.

THE PHILOSOPHER

World Records

(Editor's note: The Sandhills Philosopher on his Johnson grass farm apparently is not much for traveling, his letter this week indicates.)

Dear editor:
A neighbor of mine came over yesterday and handed me a newspaper and said, "Here, read this item. Silliest thing I ever heard of."

The item reported a man had just won the world's record for riding a ferris wheel non-stop. He rode the thing for 20 days, 16 hours and 30 minutes, beating a man who had ridden one for 16 days.

I got to thinking about this and at first I agreed, it does sound ridiculous. Puts me in mind of the man who was proud of the fact he had breakfast in New York, flew to Los Angeles for lunch, caught another plane and was back in New York for supper.

That seems to me like going a long way to eat three meals, when I can get three any day without going more than 50 yards, and not even that far if I don't feel like it.

I understand the airlines are now using

planes that hold 350 people and will fly from New York to London in four hours and show you two movies on the way. If you don't want to sit still you can stand, go up to the upper lounge, etc. I suppose it won't be long till they're equipped with a swimming pool, possibly a bowling alley and a green.

In fact, what they seem to be working is a mode of travel that's fully as good as staying home.

This guy on the ferris wheel, he's ahead of his time. If the only difference between traveling and staying at home is the motion, a ferris wheel in your backyard would sure help a lot of people from cluttering up the airports of the world.

Understand I'm not opposed to traveling, but I've noticed that a person on a round-the-world trip, if he hasn't much sense before he starts out, is likely to have any more when he gets back.

Yours faithfully

... will attract some curious, for a limited time. But they come mostly to stare — not to buy.

What you need is informative ads in your local Newspaper that illustrate and describe things people want. Then people will come to your place of business, not to stare, but to buy.

OBITUARIES

LAWRENCE BURDEN SR.

Lawrence Burden Sr., 70, a longtime Littlefield area farmer, died Saturday afternoon in Parkway Manor Nursing Home of Lubbock where he had been a patient 3 1/2 months.

Funeral services were conducted Monday afternoon in Hammons Funeral Home Chapel in Littlefield, with Rev. Seth Murphy, former Littlefield Baptist minister, officiating.

Burial was in Littlefield Cemetery. Survivors include three sons, Lawrence Burden Jr. of Lubbock, David R. Burden of Corpus Christi and James Burden of Sherman; two daughters, Mrs. Geneva Covert of San Antonio and Mrs. Frances Stockton of Irving; two brothers, Clarence Burden of Trenton and J. B. PERRY BROTHERS VARIETY is expanding to approximately twice its size by adding the two adjoining buildings to the north of the store. The additional space formerly housed Franklin's and Haydon Mens Shoes. The expansion will make Perry's the largest of 12 Perry's stores in the West Texas-Panhandle district, according to Bill Mott, store manager. Arthur Duggan owns the present building and the two stores that are being incorporated. Weldon Davis of Lufkin is the engineer and the work is being done by local contractors, carpenters and labor.

Are the new tire sizes driving you crazy?

F78-14, G70-15, E60-15. No wonder you're confused. But don't give up hope. Here's a brief explanation to help you select the right tire size for your car. (And for the right brand, be sure and select quality Lee tires!)

A "70" series tire is 70 percent as high (from rim to tread) as it is wide. A "78" series is 78 percent as high as it is wide. Etc. The lower the number, the wider the tire.

The last two numbers refer to the wheel size — most compact cars have a 13-inch wheel. Medium-sized cars, 14-inch wheel. Large cars, 15-inch wheel.

BUT WHAT ABOUT YOUR OLD 8.25-15?

An 8.25-15 is now, under the new system, a G78-15. Check the box below for corresponding examples:

Old System	New System
7.35-14	E78-14
7.75-14	F78-14
8.25-14	G78-14
8.55-14	H78-14
7.35-15	E78-15
8.25-15	G78-15
8.55-15	H78-15
8.85-15	J78-15
9.15-15	L78-15

In tire size designations, the letter refers to the size and load-carrying capacity. Basically, the higher the letter, the larger the tire size and the more weight it can carry.

The numerals following the letter refer to the ratio of a tire's height to its width.

NOW, ARE THERE ANY QUESTIONS?

Come in and see us. As your Lee tire dealer, we're always pleased to take the time to clear up tire confusion.

We've got the size tire you need, in radials, belted tires, polyester cord tires and nylon cord tires.

All at a price that won't drive you crazy.

There Is A Star In Littlefield

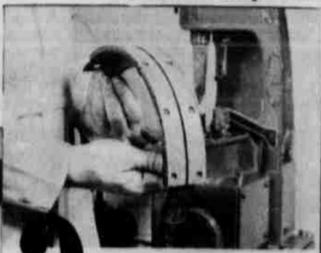

1 WE DISMOUNT YOUR BRAKE SHOES

When your brake shoes look like the photo above, you're driving with your life in the balance. Even when the linings are not worn out, there may be hidden weaknesses that can cause your brakes to fail. Linings can become glazed by excessive heat, reducing friction potential to dangerous levels. Or, if linings are of the glued-on (bonded) type, repeated stops at high speeds may cause them to become detached from the shoes. Star Brake Service agrees with a thorough inspection to reveal all possible causes of brake failure.

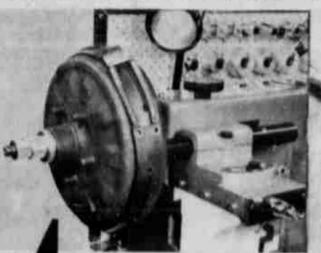

2 WE THOROUGHLY RECONDITION YOUR BRAKE SHOES

When we overhaul your brakes, we like to start with a good foundation. We use the brake shoe that are already on your car because we know that these have been "mated" to work properly with the rest of the brake mechanism. We do not substitute an entirely different set of brake shoes. In reconditioning your shoes, we completely remove the old lining and clean the table of the shoe. When we are satisfied that the shoes are as good as new, we're ready to reline them.

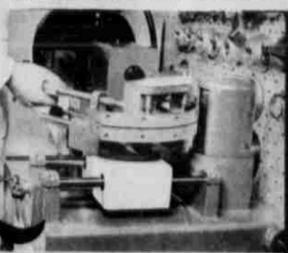

3 WE RIVET ON PREMIUM LININGS

Two things to remember about our Star Brake Service: (1) We use only premium-grade Star linings, secured to the shoe by the only positive method known—precision power-riveting. No adhesives or bonding agents are used because we know that even the best of these can be affected by extreme heat. (2) Ventilating grooves in the lining and hollow-conical vented rivets allow free air circulation through and around the shoe to ventilate friction surfaces. Result: reduced brake heat-up and faster cooling—safer, smoother braking.

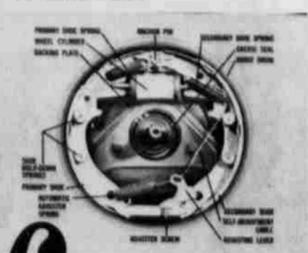

4 WE TURN WORN DRUMS TO RESTORE 100% BRAKING SURFACE

To put refined brake shoes in a glazed, scored or out-of-round drum is like putting a new tube in a worn-out tire casing: sooner or later, you're bound to have trouble. Reconditioning drums is a must for a complete brake job. With our precision Star drum lathes, we restore drums to "like new" condition, with a fresh, perfectly round friction surface machined to precision tolerances.

5 WE GRIND SHOES TO ENSURE PRECISION SHOE-TO-DRUM CONTACT

Turning drums is not enough. For full braking power, shoe linings must be re-ground to the precise contour of the drum. This gives you complete, 100% contact with the drum with equalized stopping power on all four wheels. You get safer brakes and smooth stops, eliminate pulling, squealing and steering. With our Star shoe grinder we are the new shoe to full contact with the reconditioned drum. No "wear-in" and "take-up" adjustment needed because we compensate for initial wear.

6 WE CHECK ALL HYDRAULIC AND MECHANICAL LINKAGES

What goes on between your brake pedal and your brakes? We make it our business to find out. As part of our complete Brake Service, we check all hydraulic and mechanical linkages. If any part is too badly worn to give reliable service, we'll tell you so. That's why, when we deliver a complete brake job, you'll know that your brakes are as good or better than the brakes on a brand new car. And that's a mighty good feeling.

Senator Jack Hightower Elected Senate President

Veteran State Senator Jack Hightower of Vernon added another laurel to his already impressive set of credentials Jan. 12 with his unanimous election to the post of President Pro Tempore of the Texas Senate.

The 44-year-old Hightower, who was first elected as a State Representative in 1962, thus becomes the Senate's second highest official, presiding over the upper chamber in the absence of Lieutenant Governor Ben Barnes.

In addition, Hightower

becomes third in line for the Governorship behind Governor Preston Smith and the Lieutenant Governor. Senator Hightower will serve at least one day as acting Governor when both men are out of the state sometime later this year.

The six year Senate veteran, who was first elected from the 23rd District in 1964 and two years later from the newly created 30th District, also chairs two committees--Administration and Youth Affairs--while serving as

vice-chairman for a third--the Rules Committee.

The Memphis, Tex. native also serves on 10 other committees: agriculture and livestock; county, district and urban affairs; education; finance; jurisprudence; legislative, congressional and judicial districts; oil and gas; privileges and elections; state affairs and water and conservation.

Senator Jack Hightower was nominated for President Pro Tempore by the dean of Texas' senators, A. M. Aiken of Paris.

Following Aiken's nominating speech, seven other Senators delivered seconding speeches praising the accomplishments of the Baylor graduate, who administered the just completed 2-point-one million dollar remodeling job of the Austin Capitol complex.

Hightower, whose background also includes six years as District Attorney for the 46th Judicial District and stints on the Law Enforcement Study Commission and Board of Regents of Midwestern University, was accompanied at Tuesday's swearing-in ceremonies by his lovely wife Colleen and their three daughters, Ann, Amy and Alison.
