

Disaster Payments Leased Allotments

USDA has issued a new policy which disaster payments on temporarily transferred allotments.

Under the new USDA policy, there is little advantage for a farmer to lease or transfer allotments. The only advantage is to receive at least the target price of 38 cents. There is little doubt among those who know that the price of cotton will continue to stay high because of foreign demand for cotton.

Too, this new ruling is expected to have severe effects on those who have been leasing their allotments for many years. Many of those who lease their allotments are no longer equipped to farm their own cotton themselves.

It is presumed that disaster payments could be made on allotments transferred through permanent, purchase agreements.

Also, part of the ruling is that multi-crop farmers who plant cotton on abandoned winter wheat acres couldn't qualify for a disaster payment on wheat.

For a partial loss on a farmers allotment, it appears that the local ASCS office must take a 10-year average yield and compare it with the 1974 county average. Then they must take that amount off the farmer's yield to see if he has a loss.

Under the new ruling, farmers would be able to get allotments in the event of drought, hail or wind damage. In addition, bankers and lenders could not count on receiving a certain amount of money on leased allotments in the event of disaster. This could severely affect the ability of a farmer to borrow money to produce a crop.

Two-Cent Postage Hike Goes Into Effect Saturday

A two-cent postage hike will go into effect at 12:01 a.m. Saturday, and the Postal Service has asked citizens to "mail early" to avoid building up a crush of mail just before the deadline.

Harvey Floyd Is Candidate For State Representative

Harvey Floyd of Vega announces his candidacy for state representative of the 74th district.

Floyd is a businessman, family man, and a 14-year resident of this district who is faced with the same type situations faced by the public and who understands these needs and concerns.

Floyd lists primary problems as inflation and an existing need in Texas for additional revenue to meet the demands of inflated prices. He believes his proposal can sufficiently increase state revenue and at the same time avoid a state income tax and increased state property taxes.

He believes revision of the state's taxation program of crude oil would greatly increase the state revenue. In his opinion, an even more urgent need is revision of the state program taxing natural gas. Texas collected \$125 million in taxes in the latest fiscal year on \$1.8 billion paid for natural gas produced in Texas. Much of this gas goes to other states where it serves as cheap fuel.

"With action from the state and cooperation from the Federal Power Commission in changing from a percentage tax to a flat-rate of taxing

natural gas, the taxing system would be equalized and would create an untapped source of state revenue," Floyd said.

HARVEY FLOYD ANNOUNCES CANDIDACY AS STATE REPRESENTATIVE

As Democratic candidate for State Representative of the 74th District seeking your support, you are probably asking yourself, "Who is Harvey Floyd and how can he serve me?"

I am a businessman, a family man, and a 14-year resident of your district who is faced with the same type of situations you face and who understands your needs and concerns.

As you hear my proposal, I ask that you think of it as a joint proposal — yours and mine — and to think of this election in a personal way which will allow us to better conditions.

Primary among our problems is inflation, which affects us all. There is an existing need in Texas for additional revenue to meet the demands of inflated prices. I believe our proposal can sufficiently increase state revenue and at the same time avoid a state income tax and increased state property taxes on property, etc.

Crude oil produced in the United States is priced at approximately \$4.50 a barrel. Texas taxes crude oil on a basis of about \$3.71 per barrel. State tax on oil is 4.6 per cent at the well plus a 3-16c per barrel pipeline tax giving a total of under 20c per barrel state revenue from oil.

Texas collected approximately \$210 million from this source in the fiscal year ended August 31. Revision of the state's taxation program of crude oil would greatly increase this revenue source.

An even more urgent need is revision of the state program taxing natural gas. Texas collected \$125 million in taxes in the latest fiscal year on \$1.8 billion paid for natural gas produced in Texas. Much of this gas goes to other states where it serves as cheap fuel.

Natural gas in Texas is taxed at 7.4 per cent of its wellhead value. Many contracts were made, and are still in force, which sell gas at price ceilings imposed by the Federal Power Commission with a base tax on Texas-produced gas at 16c per thousand cubic feet. Current market value is 75c per thousand or more. A consumer buying gas at 16c per thousand pays state tax of 1.2c while the buyer of 75c gas pays 5.6c tax.

This present percentage system of taxation is unfair to the buyer paying high prices and favors those who pay the least for gas at the well. With action from the state and cooperation from the Federal Power Commission in changing from a percentage tax to a flat-rate of taxing natural gas, the taxing system would be equalized and would create an untapped source of state revenue.

The above proposal is but one I have to suggest. If elected, I pledge to serve you on the district level as your needs from the local level are communicated to me from you. By working together, I believe I can represent you well. I solicit your support and influence in the upcoming election.

\$130,625 Worth Baled Cotton Destroyed In Compress Fire

A fire which started in a graded ditch about 50 yards downwind from bales of cotton stored on the Union Compress yard was blamed for the destruction of 475 bales of cotton here Monday evening. At an average worth of \$275 per bale, the fire loss is estimated at \$130,625.

According to Leon Durham, Littlefield fire chief, there were weeds in the graded ditch leading up to and against a fence where the bales of cotton were stored. The fire struck one long row of bales stacked two abreast, and at one

point jumped to a second row of bales. The cotton was stored here for exporting.

The fire alarm was turned in shortly after 5 p.m. and the blaze was brought under control about 8:30 p.m. Littlefield fire units were aided by the Sudan fire department.

Earlier in the afternoon another fire was reported, and one Littlefield unit answered a call 13 miles north of Littlefield where baled alfalfa hay was burning.

With him are his brother and his grandfather, Troy O. Moss of Littlefield, who purchased the lamb for Moss Shoes at \$3.10 a pound—a total of \$325.50. (Staff Photo)

DAVY TROTTER of the Littlefield FFA won the reserve grand championship trophy and banner for the swine division of the annual Littlefield Area Junior Livestock Show and Sale here Friday and Saturday. Purchasing the pig at \$2 per pound—a total of \$436—was Gebos's, who was represented by Travis Spencer, right. (Staff Photo)

BRIAN MAY'S Hereford steer won the reserve grand champion steer title of the annual Littlefield Area Junior Livestock Show and Sale here, Friday and Saturday. The Sudan 4-H'er sold the steer on a guaranteed bid of \$2.50 per pound—a total of \$2,187.50—to First National Bank of Sudan. (Staff Photo)

Thoughts

From The Living Bible

Before anything else existed, there was Christ, with God. He has always been alive and is himself God. He created everything there is — nothing exists that he didn't make. Eternal life is in him, and this life gives light to all mankind. His life is the light that shines through the darkness — and the dark-

ness can never extinguish it. God sent John the Baptist as a witness to the fact that Jesus Christ is the true Light. John himself was not the Light; he was only a witness to identify it. Later on, the one who is the true Light arrived to shine on everyone.

CLIPS & TIPS

By JOELLA LOVVERN

I HAD A FEW inquiries about recipes to use with the sourdough starter recipe I used in last Thursday's column, and I'm including a few here today.

Mrs. Benny Goss called to thank me for the "visit with an old friend" of hers, Richard Bolt of the 6666 Ranch at Guthrie, from whom these recipes came.

They are printed in "Chuckwagon Cooking from Marlboro Country", a complimentary recipe book they sent to us at the Leader-News.

According to Richard, "The best kind of bakin's are made with sourdough batter. And sourdough was born out west: sourdough biscuits, sourdough breads, sourdough flapjacks, sourdough desserts. Nobody knows exactly where it all got started, but every range cook worth his salt had a sourdough recipe good enough to stake a reputation on. Of course, the trick to makin' bakin's good is to bake 'em light. And most trail hands will tell you, the louder Ole Cookie called 'em to supper, the lighter the bakin's. 'Come an' git 'em!'"

RICHARD'S SOURDOUGH BISCUITS

"You might add a few raisins to keep these sourdoughs from chasin' any tumbleweeds," he says.

- 2 cups all-purpose flour
- 1 Tbsp. sugar
- 1 Tbsp. baking powder
- 3/4 tsp. salt
- 2 cups sourdough starter
- 2 to 3 Tbsps. softened lard or butter (If you want to use polyunsaturated fats, use margarine instead of animal fats)

Sift flour, sugar, baking powder and salt into large bowl; pour in starter.

Mix to make a firm dough. Grease 12-inch iron skillet with cooking oil. Pinch off balls the size of walnuts. Place in pan.

Set biscuits in warm place 10 to 15 minutes. Bake in 400 degree oven for 24 to 30 minutes.

RICHARD'S SOURDOUGH BREAD

IF YOU THINK Richard's sourdough biscuits taste great, wait till you try his sourdough bread.

- 1 cup milk
- 1/3 cup sugar
- 1/3 cup shortening
- 1 tsp. salt
- 1 pkg. active dry yeast or 1 cake compressed yeast
- 2 Tbsps. lukewarm water

Easter Seal Appeal Opens Here Friday

The 1974 Easter Seal Appeal will open in Lamb County Friday, March 1, according to Doyle L. Patton, Jr., who serves as Easter Seal Representative for the County.

Patton said that Easter Seal Appeal letters would begin arriving at homes in the county about March 1.

As Easter Seal Representative, Patton is the person to contact to request services from the Easter Seal Society for Crippled Children and Adults of Texas. These services include physical and occupational therapy, speech and hearing programs and special information services to help solve the many problems faced by the families of handicapped children and adults.

Last year 20,570 handicapped people received help from the Texas Easter Seal Society. With the costs of providing expert professional care rising, more money than ever will be needed.

- 1 1/2 cups sourdough starter
- 5 cups all-purpose flour

Scald milk; add sugar, shortening and salt. Stir to melt sugar and shortening; cook to lukewarm.

Dissolve yeast in warm water. Beat together cooled milk mixture, yeast, starter and 2 cups flour. Add remaining flour to make a stiff dough. Turn onto floured surface, knead 5 to 10 min.; add only enough flour to keep from sticking.

Place in greased bowl, turning to grease surface. Let rise until double, about 1 1/2 hours. Punch down, let rise again about 1/2 hour; divide into 2 balls, cover with towel and let rest 10 minutes. Shape into 2 loaves and put each in a greased 9x5x3 inch pan.

Let rise until double, about 1 hour. Bake at 400 degrees in oven for 40 minutes. Turn out and cool.

CORN BREAD

- 1 1/2 cups cornmeal
- 1 1/2 Tbsps. sugar
- 1 1/2 tsps. salt
- 1 1/2 cups milk
- 1 1/2 cups sourdough starter
- 1 1/2 tsps. cream of tartar
- 1 1/2 tsps. baking soda
- 2 eggs, slightly beaten
- 6 Tbsps. melted margarine

Combine cornmeal, sugar and salt in a mixing bowl. Scald milk, pour over cornmeal; cool to lukewarm. Add remaining ingredients and mix well. Pour into buttered 9-inch square pan. Bake in a 425 degree oven for 40 minutes.

JALAPENO PEPPER CORNBREAD

AS HOT AND GOOD as the western sun. Follow the corn bread recipe, except: omit butter. Add 1 cup shredded cheddar or Monterey Jack cheese, 1 cup chopped onion, and 1/3 to 1/2 cup finely chopped jalapeno peppers. Bake in 425 degree oven for 40 minutes.

SUNDAY COBBLER

A MAN'S NEVER too full to have himself a helping of cobbler.

- 3/4 cup all-purpose flour
- 1/2 cup brown sugar
- 1/2 cup sugar
- 1/2 tsp. cinnamon
- 1/4 cup butter
- 1/2 cup chopped pecans
- 1/4 cup sourdough starter
- 1 (1 lb., 5-oz. can) cherry pie filling
- 1/2 cup seedless raisins

Combine flour, sugars, and cinnamon; cut in butter. Stir in pecans and starter. Combine pie filling and raisins in an 8-inch round baking dish. Spoon first mixture over the top. Bake in 425 degree oven for 25 minutes or until hot and brown. Serves 6.

TIPS AND TIDBITS:

PUT RAISINS in boiling water and let stand for about 10 minutes. This will keep them from taking moisture from the dough of your coffee cake. The raisins will fluff up and make them extra plump for rice pudding too.

MAKE YOUR OWN soap pads. Save small pieces of soap in a jar and add a little warm water to soften them. Put a piece of steel wool on top of the soap and put the lid on the jar. When you need a soap pad, use the steel wool dipped in the soap. This soap jar is less expensive than buying regular soap pads and uses up all those small pieces of soap.

TO REMOVE the purple prints stamped on many items, simply squirt them with hair spray and wipe off with a damp cloth.

THE ABUNDANT LIFE

Like Yourself

"I DON'T LIKE MYSELF" is a comment often made by the people who have difficulty with themselves, with their self-concept. This is what they usually say to the person to whom they go for counseling.

In most instances, they can be helped. The wise counselor will say, "You must learn to like yourself."

If you don't like yourself, but never say so and never seek help, or never try to overcome this faulty attitude; you are in real trouble. This is one of the most hurtful human attitudes, and is probably tied to more personal and social difficulties than any one other flaw in one's self-view.

WITH MOST OF US, there is probably something about ourselves that we do not like; or, at least, something we would like to change that cannot be changed.

This may be true in your life, but it is not the same as not liking your self. You can, and you must "like yourself", in spite of what you consider flaws that cannot be altered.

You and I must accept what cannot be changed, because this is part of the formula for making the best of life.

THERE ARE SOME TEACHINGS which reject the view that you must "like yourself". Do not give heed to such teachings, because they usually embrace some form of distorted notions about humility. Of course, if you "like yourself" as an expression of vanity; you have an inferior self-view; however, even this is better than disliking and mistreating yourself.

There is a very wholesome way in which you can "like yourself", and should do so.

SELF-RESPECT is perhaps necessary element in the maintenance of the valuable "liking yourself". This is usually considered selfishness.

If it is selfishness, it is wrong. You cannot respect others, your Creator until you respect yourself. This is a well-established principle. Therefore, you will always have a view of others; when you self!

"SELF-RESPECT is the garment with which a man adorns himself; the most elevating of which the mind can be adorned. Smiles.

IF YOU WOULD like to think and act in the ways which and nurture self-respect.

BEMEANING AND BELIEVING and misusing yourself does not do with your self-image, and can find much difficulty in the fellowmen.

Of course, it is not mean, arrogant, and haughty, and self-centered; but none of identifying marks of the attitude of "liking yourself".

"TO LIKE, RESPECT ourselves is as much a part of healthy personality as is to like others." Carnegie.

ALL OF THE WISDOM reveals both the necessity of "yourself", and the way to think and "speak" and be healthy, mature living can be.

HAD THOUGHT I'D lost all appreciation for music, then, by some accident, the tube was left tuned to the Weik show. Decided that it had just been some time since I'd heard any.

LIKE ADVENTURE?—You might try goin' out California-way and get in line for some of those free groceries. And they say SMOKING can be hazardous to your health!

SPEAKIN' of something being hazardous to your health, this little flubbug is quite a character, itself. Reminds you of a cat playin' with a mouse. About the time you think you've escaped, it hangs another claw in you.

Lotta people in "Boot-Hill" never got as sick as I've been!

THE APOSTLE PAUL would have been a misfit in our modern society. He didn't seem to go for the "free-ride" bit. He even had the nerve to suggest that "If one won't work, neither should he eat!"

Yet, we continually have this "bleeding-heart" doctrine of benevolence crammed down our throats

day by day, in the name of An and Christianity.

WE FEEL JUSTIFIED in the irresponsible for bringing into the world and turning the society, without benefit of social training!

Yet, we have no scrap institution and promoting state within our boundaries, the principle of perpetuity, only promise continued growth as a means to an end.

ONE CAN ONLY ask, before the drones outlast workers?—Sh-h-hush! we're speak against benevolence! it's better to give, than receive. True, TRUE, but sometimes that too many are trying to with receiving!

SO, PAUL, YOU made a bet you penned II Thessalonians away with the free-lunch christian!

THE DEMOCRATS are clean sweep at the polls this SHOULD happen, who would blame when things go wrong

Turn Row COMMENTS

By EMIL RA

TO BE A MEMBER of the "In Crowd" is to kidnap some rich person and try to become a modern-day Robin Hood. At present, editors of large daily newspapers or some member of their family seem to be the victims, and the kidnapers try to justify their wrongdoings by being some kind of patron saints for the poor.

In reference to the Hearst Case, I can't seem to put any form of charity or Christianity in the action or demands made by these modern-day Robin Hoods, nor is there any Christianity in the recipients of the handouts.

Of course a father or a mother will do most anything to keep their child from starving, but from the violence that has occurred at the scenes where the food handouts are being made, seems to be more animal than human.

What really disturbs me is that some of those so-called recipients are young able-bodied people who prefer living in a society quite contrary to ours, and go around saying things such as "peace" trying to impress people that they have no prejudices, and love everyone and so on.

Spade Captures Bi-District Win Over Bledsoe

ROGERS Longhorns Spade Tuesday night in Levelland's Texan arena earned a second trip to the Class B playoffs.

The scoring and rebounding of Marvin Matthews, the Longhorns' aggressive player in the game, and at built up a 31-point lead in the Bi-district win, Spade now stands at 72-51, the champs in 1973-74.

Spade led all scorers with 21 points, and scored the 13 rebounds. The game also made away from Randy Gray, playmaking guard

and leading scorer for the year, hit for 21 tallies, a point above his season average.

Rounding out Spade's scoring was Mark Cowan with 10, Jay Burchfield with nine, Gaylon Reed with seven and Chuck Mills with four.

"We certainly didn't expect Bledsoe to be as easy as they were tonight," said Longhorn Coach Jim Haynes. "We didn't think they'd be so down, and they're certainly a better team than they looked tonight."

"Offensively, they had a little trouble penetrating, and I think our defense was the main reason for this," he said. "We played a different defense than the last time we played them. We went with a 1-3-1 strong side pressure

defense that basically puts a lot of pressure on one side and none on the other. We pulled out of it after we got about 20 points ahead and played our regular pressure defense the rest of the game."

Spade stung Bledsoe repeatedly with the fast break, particularly in the early stages of the game when Bledsoe had the offensive jitters. The Longhorns erupted to a 19-3 first quarter lead, with Matthews collecting seven and Gray six in the stretch. Bledsoe had little trouble bringing the ball downcourt against Spade's press, but scoring points against it was another matter. They were forced into hurrying their shots, and the

result was a lot of off-balance jumpers that fell harmlessly into the hands of Spade rebounders.

Bledsoe did come back in the second quarter with 16 points, but the Longhorns added 22 and owned a 41-19 cushion at the half. In the third stanza, Bledsoe suffered a four and a half minute scoring drought, and Spade moved into a commanding 54-27 lead. Gary Young spearheaded Bledsoe's 26-point comeback in the final period, and his 40-foot shot at the buzzer banked in to make the final 72-51.

"I thought Marvin Matthews rebounded real well and did an excellent job of controlling the boards for us," commended Coach Haynes.

"He also did a good job scoring. Mark Cowan played very well. This was the first time we've had him with us in three weeks (he's been out with the flu), and he came in and played a real strong

game. I also felt Randy Gray had a fine night."

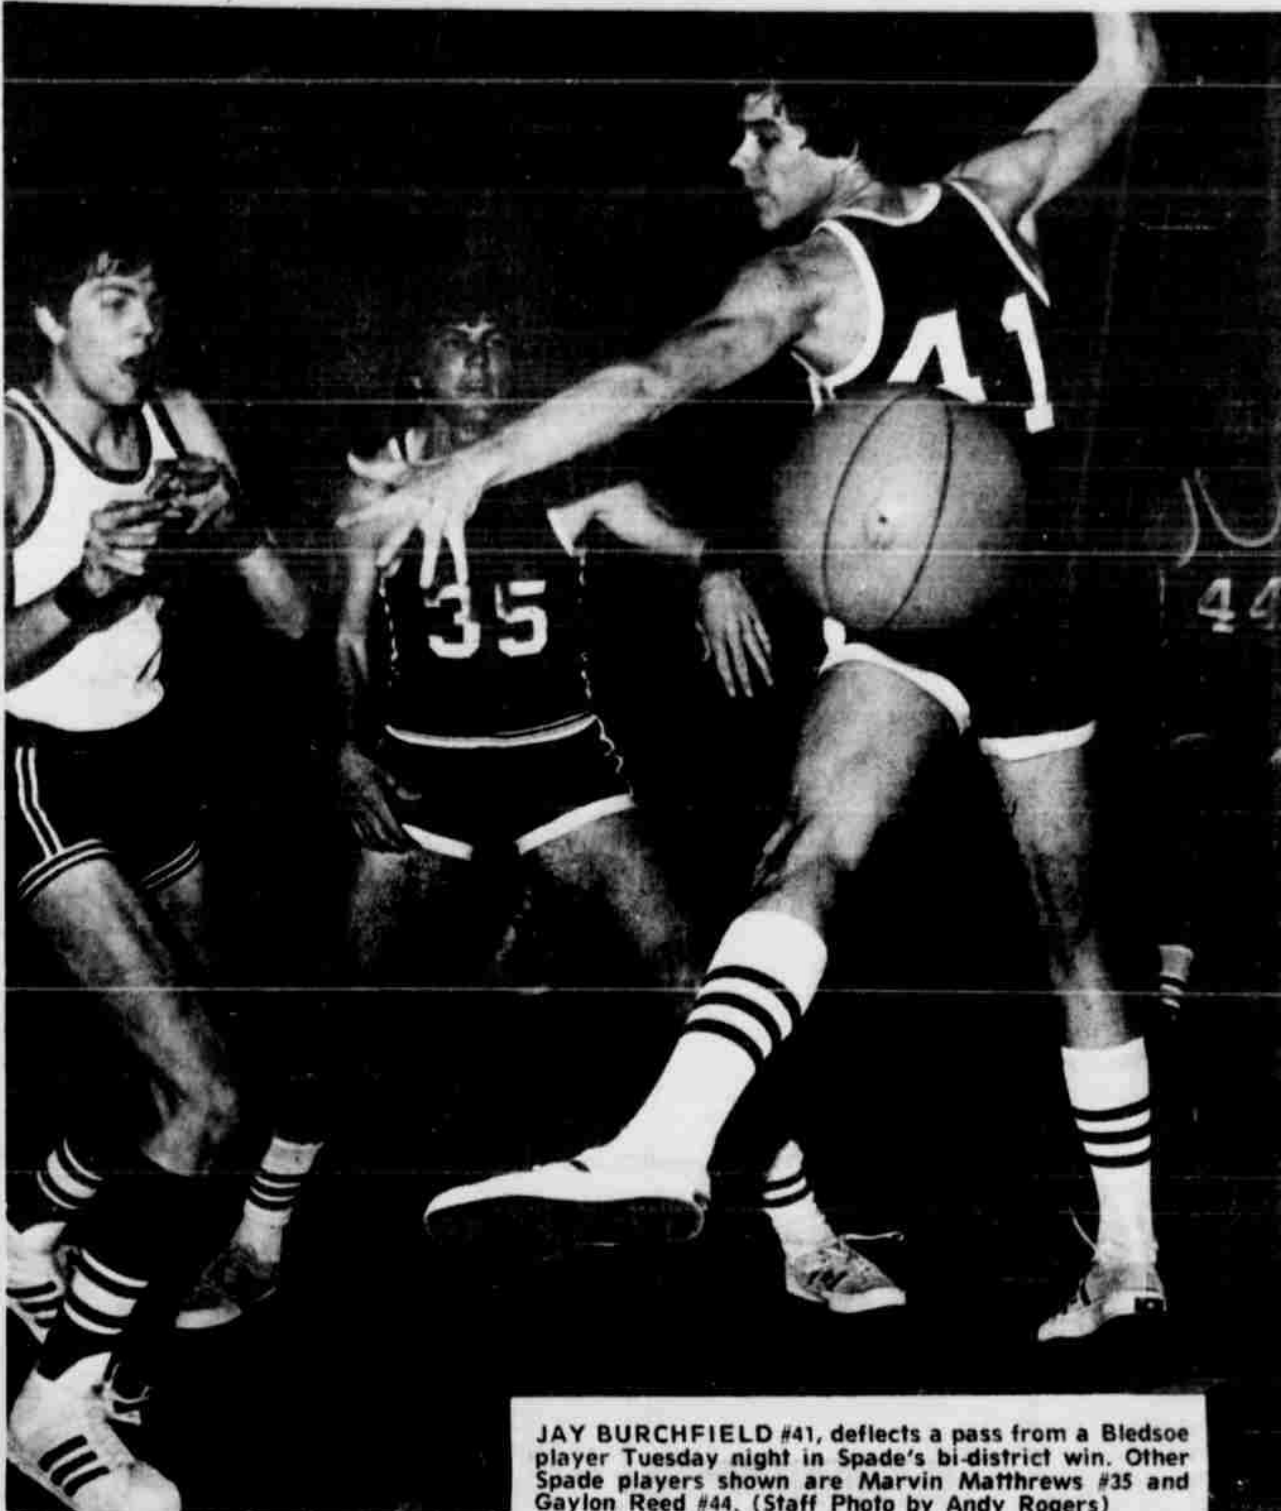

Spade connected on 51.5 per cent of their field goal attempts and eight of 12 free throws. Bledsoe hit on five of seven charity tosses, and were

led in scoring by Gary Young and Terry Rawls with 14 points apiece.

Spade's next foe will be the winner of the Brock-Murchison Bi-district game. The Longhorns will again play in the Texan Dome in Levelland, and the tipoff will be at 7 p.m. Friday. If they meet Brock, it will be a rematch of last year's first round state tournament game, which Brock won 80-74.

Wildcat Relays Set For Saturday

Wildcat Relays will be Saturday at Wildcat according to head coach Lewis Boomer.

"I think definitely the field is stronger this year than it's been the last couple of years," warned Boomer.

"For us, I'd say we'll be strong in the 880 with Buddy Jungman, who was a regional qualifier last year. (Jungman placed third in last year's Relays). And we should have three good chances for points in both the shot put and discus. Randy Cook (second last year), Ricky Richards and Ricky Hopping should do well in the shot, and Cook (second last year), Hopping and Doug McCain should have good chances in the discus."

The field events will commence at 9:30 a.m., and all events will be completed in the morning except for the pole vault, with the finals in the afternoon. The running preliminaries start at 10 a.m., and the finals begin at 2 p.m.
