Scott, Littlefield policeman, is more than 30 area law enforcement representatives who commencing Monday at a Basic Police Certification Academy at South College, where facilities are being used as a training center for the third year in a row. Officers are now certified, according to Chief James Cox. Representatives, who were in various types of law enforcement work, passed a written final order to complete 240 hours of training and be certified as police officers. Certificates were issued by Texas Commission on Law Enforcement Standards and Education. Smith, training coordinator for

the Texas Criminal Justice Council, was in charge of the police training project. He has been assisted by area highway patrolmen, Department of Public Safety officials, attorneys, teachers and special investigators for the Federal Bureau of Investigation.

Training has covered such areas as a basic history of law enforcement, searches and seizures, arrests, fire arms training, the Texas Penal Code, special investigation, traffic laws, court testimony and report writing.

Police officers in the academy represent a 15-county area in the South Plains region—Motley, Lamb, Hale, Floyd, Yoakum, Hockley, Lubbock, Crosby, Dickens, Garza, Lynn, Terry, Cochran, Bailey and King counties.

Lamb County 4-H Youths Attend Texas Congress

The opening assembly the second day will feature an address on "History's Legacy" by Dr. Haskell M. Monroe, dean of faculties and professor of history at Texas A&M University.

A third keynote speaker will be Dr. William H. Hale, Jr., associate director for the Continuing Education Center at the University of Georgia. He will speak on "Strength Out of Diversity" at the closing assembly of the congress.

Hail Suppression Funds Short, Cloud Seeding May End In July

Officials of Better Weather, Inc. said this week that another \$15,000 is needed to keep the hail suppression program going through July. Officials say that they lack \$38,500 to continue the weather modification through October, or for the entire six months contract price.

Secretary Dale Stanley said that if the necessary funds are not paid that the program will end on the date they run out of money.

"When we run out of funds, we will shut it off," Stanley said. "This means the money has got to be in by July 18th. It's about time a bunch of people realize that we can't operate without their money."

"With as much moisture as we've got in the air, and with clouds almost every day in July so far, this could be a year when nearly every day could be a day for seeding. Then we always get quite a

Other contestants were Debbie Spencer, daughter of Mr. and Mrs. Barton Spencer of Littlefield, and sponsored by Gebos's of Littlefield; and Teresa Lively, daughter of Mr. and Mrs. Tom Lively of Earth, who was sponsored by Howell's Floral.

Hundreds of area citizens ate barbecue in the FFA show barn near the rodeo grounds, and persons purchasing tickets to the opening night's performance were treated to the barbecue.

Parade winners were presented trophies, and trophy buckles were

Consideration of this salary is on the agenda for action this meeting.

Various rules, fees and usage were discussed, and a list of regulations and contracts were drawn up to be distributed among the committee.

After studying the plans, the committee is to meet again in the County Community Building at 8 p.m. on Tuesday, July 22. At that time the group will go over the proposals and complete the by-laws.

Man Charged With Kidnapping, Murder Of Former Earth Woman

A Michigan man, David Delap, has been arrested and is in jail in Okeechobee, Fla. without bond on a charge of kidnapping and killed an ex-Earth woman, Paula Diane Etheridge.

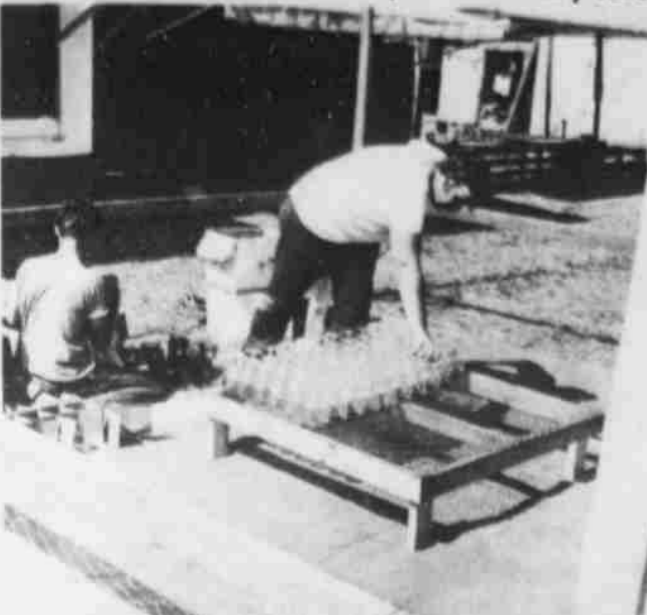

Miss Etheridge was kidnapped from an Okeechobee laundry on June 30 and apparently killed shortly afterward. She was to be married on July 26 to Ronald Lee Hayes of Okeechobee.

The arrested man gave himself up to authorities, then led officers to a site approximately 25 miles from Okeechobee where the body was found. According to Oklahoma officers, the man gave no excuse for committing the murder except that he was "angry and upset."

LITTLEFIELD FEDERAL SAVINGS AND LOAN

EDITORIAL

The Federal Rathole

ONE OF OUR journalism patriots, reporter Donald Lambro of United Press International in Washington, has recently launched a book published by Arlington House Publishers in New Rochelle, N.Y., which we hope will be read by millions of Americans.

Titled "The Federal Rathole," the book documents the fact that not just millions, but billions of dollars are being wasted by the Federal Government on projects and programs which border on the insane.

Lambro declares that "at least 1,000 areas of federal activity could be abandoned at a saving of \$25 billion a year—and that's only a beginning."

Lambro insists, and provides convincing arguments to show, that countless "programs, agencies, departments, commissions, boards, bureaus, councils and committees" that the nation cannot afford and doesn't need, could be abolished without a trace and no one would ever miss them. The one visible result would be a huge income tax reduction for every taxpayer in the nation.

AMONG THE MONEY-WASTING cases cited:

—\$750 paid by the National Foundation on the Arts and Humanities for a

seven letter poem: "Light." You paid for it.

—\$5,000 to so-called "novelist" Erica Jong for a book (Fear of Flying) which is so filthy that no family-read newspaper could print its contents. You paid for that, too.

—\$113,417 spent to find out that mothers prefer children's clothing that needs no ironing. This newspaper would gladly have provided that information for a real bargain basement price. But, you paid top dollar.

Lambro, poking around in Foggy Bottom, found two commissions that had been set up during World War II to protect us from the Nazis. It is doubtful that they could protect us against anything, seeing that they have yet to discover that the war ended 30 years ago. But, you're still paying to keep them in business. What business, it is hard to say.

As this editorial is being written, the U.S. Congress is debating passage of a new "ceiling" on the national debt of \$577 billion—an increase of \$46 billion. Lambro predicts that this will be pushed to over \$600 billion before the end of the year, as Congress continues to pour more and more money down "the federal rathole."

Don't you think it is time to call a halt? Washington Exclusive

Mr. Wade Warren,
Lamb County Leader News
Littlefield, Texas

Dear Wade:

I would like to report to the citizens of our community that, through a joint effort on the part of several civic clubs and individuals, approximately \$1,200 was raised on July 4 to be used toward the construction of the Littlefield Memorial Tennis Courts.

It was truly a cooperative effort and my thanks go to each individual and club involved. Some of the organizations which especially deserve thanks are:

The Early Risers Lions Club and the Littlefield Lions Club, whose members assisted in the preparation and serving of the barbecue.

"We, The Women" whose cake walk and auction raised in excess of \$200.

The several chapters of Beta Sigma Phi for their assistance in concession stands.

The County Commissioners Court, and especially Jack Peel, for their efforts in readying the new Agriculture center for our use.

Lamb County Feeders for the donation of beef for the barbecue.

The Circle Eight Square Dance Club for their efforts to make the square dance a success.

In addition, many individuals deserve some special thanks:

Lloyd Jaquess and Jay Bridwell for their assistance in preparing the barbecue.

Cliff Smith, who donated his services as caller for the square dance.

Cal Harvey, who was helpful in many ways.

Janna Stehlik, who operated the concession stand for our children's games.

Tom SoRelle and the members of the Wildcat Band who performed during the barbecue.

Ernest Mills, for his auctioneering services on a very short notice.

David Thompson and Junior Nicholas, for the use of their equipment.

It is most difficult to name each person who was involved in this effort, but, again, I do appreciate their help.

Finally, my thanks to everyone who attended the celebration.

Sincerely,
s/Tommy Brawley

Dear Wade:

As you know, we had the A.T.T. Amusements Carnival on our grounds this week. Prior to their coming, we received word from concerned friends that this company had engaged in some shady dealings during a Carnival in Dimmitt a few weeks before coming to Littlefield. This was all well and good. We appreciated the warnings we received.

However, we checked up on the story and, as all stories must, it had another side to it. I would like to pass this information on because I feel that, due to perhaps hasty judgement, some unfair comments were passed around which reflected poorly on Mrs. Wade and her carnival.

The situation, as best we can ascertain it, developed in this way: The Dimmitt Ordinance on Carnivals evidently states that amusements sponsored by non-profit organizations are exempt from a permit fee providing that the organization sponsoring the carnival receives the profits; if there is no sponsoring group, the carnival must pay \$7.50 per booth/per day for a permit.

When Mrs. Wade brought her Carnival to Dimmitt, she was assessed—and paid—\$150 a day. The payments were made through the Police Department. However, she had established contact with a Lions Club in Dimmitt and they agreed to sponsor her. At this point, something broke down in communications. Although Pete Garcia, the Lion's President had written a letter of sponsorship, the city continued to assess the permit fee. The fee was paid. This put Mrs. Wade in a kind of double-jeopardy. The city wouldn't acknowledge the sponsorship of the Lions, it seems; and, the Lions expected their sponsorship fee despite the fact that, due to the necessity of paying permit costs, their sponsorship was actually nullified.

On top of that, Mrs. Wade, while here in Littlefield, did pay some \$300 to representatives of the Dimmitt Lions Club. All in all, she paid \$900 to the city of Dimmitt for a permit, and \$300 plus to the Lions for sponsoring her—a move that is supposed to negate permit fees.

If Mrs. Wade and A.T.T. Amusements have been judged unfairly by the citizens, I hope that we will learn from this episode the importance of hearing all sides of a question before we say or do anything.

A Woman's View

By PEARL BRANDON

I READ AN article about a good Christian woman who had visited the poor section of the city on some kind of Christian mission.

When she came back home her faith was shaken and the presence of God in her life seemed far away.

She was haunted by the scenes of sorrow, suffering and deprivation she had seen that day.

IN HER PRAYER that night she said, "Today I saw a little girl crying because she couldn't go to school—she had no shoes. I saw an ugly old woman dying of cancer in a hovel over-run by rats."

I saw a boy who had lost his eyesight and both legs in war." Then she said, "Where are you God? Why am I allowed to live in this lovely home while so many others are suffering?"

I THINK MOST of us have had this experience at one time or another even in our quiet town.

In this world of many ills and heart-aches, we can't expect to escape all the hurts. If my lot is better than my neighbor's then my responsibility is to share some of my blessings with him.

My responsibility to the little girl is to buy her a pair of shoes so she can go to school. I should help the young war veteran get the benefits due him for having given so much for this country.

I should also see to it that the old woman is made more comfortable in her last days. She may be old and ugly now but she may have once been beautiful.

MOST OF US have experienced what seemed to be unanswered prayers.

We claim the promise of, "ask and you shall receive, seek and you shall find and knock and the door shall be opened unto you."

Sometimes when we ask the Lord for things it is probably something we really don't need, or would be better off without.

WHEN WE SEEK in vain, perhaps we are looking the wrong places for the blessings that would make us happy.

And when we knock on the Lord's door we are just banging with our fist and making such a noise we do not hear the gentle voice saying "come in."

Prayer is like communing with a loving Father that is concerned about our needs. He cares for us as a loving earthly father does for his children.

ALL OVER the world we have turmoil and suffering now, but God moves in the events of the world and right now He is stronger than all the violence and trials of life.

The Bible says He notes the fall of a sparrow. I believe He cares about every starving child and every bed-ridden person in all the world and none of them shall ever be forgotten in His scheme of things.

Some day all evil shall be conquered and we shall never be afraid again.

HE IS GOD of the past and also of the future. Surely we can trust Him now to see us through our daily problems.

Sudan FFA Group In Accident Enroute To Houston Convention

A group of Sudan FFA boys and their advisor were involved in a wreck this week near Snyder while they were traveling to the 47th annual state FFA Convention in Houston.

Taken by ambulance to a Snyder hospital were Don Hamm, FFA advisor, Craig Doty, Larry Bellar, Mark Lane, Daryl Roberts and Gary Ham. The teacher received a concussion and was unconscious about an hour. Gary was cut on his head, and Bellar bumped his nose.

Delinquent Taxpayers' List Being Compiled By Comptroller

Comptroller Bob Bullock said Wednesday that some 1,800 delinquent taxpayers in the Lubbock area owe more than \$1 million in state sales taxes and almost \$250,000 in city sales taxes.

The Lubbock area delinquents are those under the jurisdiction of the Lubbock district field office which covers the counties of Lamb, Bailey, Hale, Floyd, Motley, Dickens, Garza, Lynn, Borden, Dawson, Gaines, Terry, Yoakum, Cochran, Hockley, Lubbock, Crosby, Cottle, King and Kent.

The back taxes owed in the Lubbock area are part of \$59 million owed by an estimated 70,000 delinquent sales tax accounts statewide. Bullock has assigned a special task force in his office to set up an aggressive collection system.

The Lubbock office is in Suite 400 of the Terrace Shopping Center (4902 34th Street); the telephone number is (Area Code 806) 795-0691.

The Lubbock area delinquents date back to 1962 and range from a few dollars to one case owing \$27,088 in state sales taxes, Bullock said, and \$8,855 in city sales taxes.

Bullock said the Lubbock area delinquents, just like the rest of the state, "show no pattern and certainly no reason why these accounts were permitted to go delinquent in the first place or why they have been permitted to stay that way."

Area-by-area reports on delinquents will be released for the rest of the state as soon as they are prepared, Bullock said.

His special task force includes personnel from the Comptroller's legal, sales tax and field operations divisions as well as from Bullock's personal office.

Bullock has warned that many of the delinquencies "may be so old that we'll never get the money."

THE ABUNDANT LIFE

Stay Steady

WE HAVE A CHOICE between being pushed about by every wind that blows, or establishing and maintaining our life course with a reasonable and satisfactory degree of constancy.

There are dependable and time-tested guidelines and principles by which we can stabilize our conduct of life.

THERE IS TRUTH to believe; by which to fashion our attitudes and actions. We have the potential to develop and hold to justified conventions; to know what we believe and why we believe it.

This does not mean that we have a closed mind, but it does mean that we can "stay steady"; that we can sustain the life posture that will make our living effective and meaningful.

THERE ARE ABSOLUTES, specifics; and fixed values and standards; which are generally recognized as having met all of the tests of time. Therefore we can find and hold a steady course for living which will be constructive and productive; a way that is beneficial to us and to the people with whom we are associated.

This will be a progressive way for us, because we can grow and expand within the framework formed by the well-proven standards and values which enable us to "stay steady".

IN OUR WORK, we can be dependable. We will be able to accept the responsibility associated with the work; we will be conscientious in both our

attitude toward the work, and which we perform it.

We will not neglect everything we can do to take can "stay steady", and enhance our personal well-being.

WE WILL MAKE PROFOUND commitments which are and we will keep these. It is important to us to "stay steady" because we desire to have a reputation on this basis.

We will not want to disappoint other persons who may be interested in us. We will want to add this essential to our self-image, too. We think it is important for others to think well of us, and for us to have a basis for thinking well of ourselves.

MUCH OF LIVING IS ROUTINE—the actions and activities which are monotonous, but there is nothing wrong with this; except in our minds. We think this arrangement is objectionable.

Many persons do some very and unjustified things in order to get away from the routine. Of these are some wholesome varied activities which help us; but the quality of our behavior is the important consideration.

THESE ESTABLISHED patterns are the essentials of life; there are no reasons why they become dreary and uninteresting.

"STAY STEADY" IS the way to a justified aim, because we must weary in well-doing.

A FARMER was finishing his haying on Sunday morning when the pastor drove by.

"Brother," the minister lectured him, "don't you know that the Creator made the world in six days and rested on the seventh?"

"Yes," said the farmer, uneasily at the rain clouds darkening the sky, "but he got done and I didn't."

Felony Charge To Go To Grand Jury

Only two were jailed the last part of this week. Bobby Joe Dillard was charged with a felony Wednesday. Bond was denied until the grand jury meets Monday to determine whether he will be charged with enticing a minor.

An Earth man was jailed on a driving while intoxicated charge Wednesday and fined \$100 plus court cost and given three days in jail.

The only entry on the offense report at the county jail was a report from Anton Butane concerning a broken window and breaking and entering the soft drink machine. A case of pops and a 12-inch crescent wrench were taken.

What is "Whole Life" Insurance?

Whole life is permanent insurance which accumulates cash value and paid-up values. This will last as long as you do. Usually the premiums are level. The increase of the above benefits, which are called Non-Forfeiture Values, becomes greater the longer the policy is in force. You have the option to continue the premiums for the rest of your life but are not required to do so. To illustrate, using an example company, a \$10,000 policy purchased at age 35, the insured could at the end of 20 years cease paying premiums and be insured for nearly \$6,000.

HOW'S The Electric Company DOING?

Let's ask Don Webber, transmission line foreman . . .

1973 COST \$14,000 A MILE

1975 COST \$30,000 A MILE

"What's going on here, Don?"

"We're putting in a new 115,000 volt line . . . gives us another feed to back up our dependability . . ."

"Cost us about \$14,000 a mile just two years ago, now it's running \$30,000 a mile."

Higher costs to keep your electric service dependable . . . part of the reason your electric bill may be higher these days. But without dependability, electricity wouldn't be worth much . . . would it?

New Groups Of Boys Eligible To Be Scouts

Boys who have just completed the second or fifth grades in school are now eligible to become Cub Scouts or Scouts, according to Jack Baker of the South Plains Council, Boy Scouts of America.

The local BSA council has 164 Cub Scout packs and 170 Scout troops in the 20-county area with headquarters in Lubbock. They are part of the youth program of the local religious, educational, civic, fraternal, and other community groups.

"Scouting is for all boys who have completed the fifth grade or who are 11 through 17 years of age," Baker said. "The focus of the program is on rounding out a boy's physical and mental fitness through a vigorous program of activities. They meet once a week as a troop under the guidance of a Scoutmaster and are also members of a smaller group called a patrol."

Baker explained that Cub Scouting is a family-centered program for boys who have completed the second grade of who are 8 through 10 years of age. They meet weekly as a den under the supervision of a den leader. Monthly, all the dens come together for a pack meeting led by a Cubmaster.

"One of the advantages of boys becoming Cub Scouts or Scouts now is that they will be able to get in on the special summer activities," Baker said. "There's probably a pack and troop near every boys in our council area," Baker said, "or boys will know friends who are Cub Scouts or Scouts." In

Comptroller Forecasts Depletion

Comptroller Bob Bullock said Tuesday in an updated revenue forecast that the state will be left with peanuts in the treasury after paying its bills for the next two years.

And there wouldn't even be peanuts left if it hadn't been for the governor's vetoes, additional tax officers given the Comptroller and cuts in welfare budgets, Bullock said.

Bullock's revenue forecast taking into account the governor's vetoes and the Legislature's spending bills said the state can expect to have a \$27 million balance after spending \$12.1 billion during the upcoming two-year budget period.

"That \$27 million," Bullock said, "just happens to equal the total of spending items vetoed by the governor and is 1,000 times more than the small change left on the table when the Legislature got through passing its spending plans."

"The Legislature spent every dollar we said would be available," Bullock said. "When they got through there was \$27,463 left—or about half the cost of operating the Legislature for a day."

"In other words, if they had stayed in session one more day they would have had to adjourn by noon because they would have been out of money," he said.

Research Foundation Names New Officers

The Board of Trustees of the High Plains Research Foundation at Halfway elected Don Marble, prominent farmer from South Plains, president of the Foundation and its Executive Committee, at a recent annual meeting held at the Headquarters at Halfway, 14 miles west of Plainview. Marble is a past president of Plains Cotton Growers, Inc., and has been active in many farm and crop organizations for the past several years.

In accepting this position, Marble said, "We have a responsibility to the economy of West Texas, to do the best job of agricultural research possible, and the High Plains Research Foundation can be very instrumental in helping achieve these goals, especially since the recent affiliation with the Texas Agricultural Experiment Station. We will be working, closely with Texas Tech University and West Texas State University in an attempt to accelerate the total agricultural research program in West Texas".

Other Officers elected at the meeting included J. B. Wheeler, Plainview, chairman; Ray Joe Riley, Springlake, vice-chairman; J. D. Smith, Sudan, vice-president; Sam Thomas, Amarillo, secretary-treasurer; and Jack Cloude, Plainview, executive director.

Trustees named to the Executive Committee, in addition to those mentioned were Don Anderson, Lubbock; Elbert Harp, Lubbock; Virgil Patterson, Amarillo; C. I. Wall, Amarillo; W. B. Tilson, Plainview; Graddy Tunnell, Plainview; Ralph Wheeler, Edmondson; and Leo Witkowski, Hereford.

Trustees are elected to three-year terms, and the following persons were named to serve: Harry Igo, Merwyn Igo, Donald Johnson, Delwin L. Jones, Pete Laney, Jack Little, Jim Lindsey, Aubrey Lockett, Barry Love, Macky McCarty, Ken McEachern, Gene McLaughlin, Edd McLeRoy, Troy McNeill, John McQuien, Ralph Mabry, James Man, Don Marble, Wayne Martin, Fred Mercer, W. E. Miller, T. E. Mitchell, Bill Nelson, Pat Northcutt, Bruce Parr, Virgil Patterson, Virgil Payne, R. G. Peeler, "Doc" Potts, J. Ray Pritchett, Ewald Quebe, Dean Rea, Ray Joe Riley, B. A. Robertson, Lyle Robinson, and James Rogers.

Dr. Jarvis Miller, Director of the Texas Agricultural Experiment Station, in explaining the future plans for the Lubbock-Halfway location, stated that funds will not be immediately available to do the amount of research which had been hoped, unless other sources of funds can be developed. However, Dr. Miller was very optimistic that within a short period of time, more personnel and advanced programs can be expected.

Dr. George McBee summarized the research being carried on at the Halfway location. A large sunflower project is underway, some potato research has been started this year, a total water-use efficiency research program is being expanded, fertilizer and herbicide research has been increased, and the new greenbug resistant varieties of grain sorghum are being tested. Dr. McBee said, "The experiment station is a benefit to the people, and the Halfway station will be as one unit."

Graddy Tunnell, attorney, said that the timely conceivable Lubbock-Halfway will become the leading agricultural research station in the State of Texas.

Southwestern Public Service Completes Industrial Survey

The Area Development Department of Southwestern Public Service Company has completed a survey of industries in the area served by the electric company.

The first phase of the survey, completed in March, was made in all of the towns that SPS serves in Texas except Amarillo and Lubbock. The second phase of the survey covers these two metropolitan areas.

"The purpose of the survey is to assemble information that will aid in the design of programs to assist existing manufacturers expand their production facilities," commented Larry Milner, area development manager for SPS in Amarillo.

The survey, representing twenty-three communities on the North and South Plains, reveals that 32.4 percent of the existing industries responding to the survey plan future expansion. Forty-seven of the companies surveyed plan expansion within the next twelve months, while another sixty-one plan expansion in the next three years. During the next five

years, twenty-five companies plan expansion. Employment expansion in the near future was projected in the range of forty-three percent. The survey covers manufacturing, agriculture, and oil and gas related industries, with a total representation of approximately 14,000. Of this number, 9,000 are production employees and the remainder in clerical or administrative jobs.

In discussing the Milner said, "Some of the problems faced by manufacturers when planning expansion are labor supply, reducing resources, financing, technical information, transportation, building management and air laws.

"Helping all the towns service area with existing industries is one of our primary functions. We are the information in this survey will aid us in that help," Milner said.

Trustees are elected to three-year terms, and the following persons were named to serve: Harry Igo, Merwyn Igo, Donald Johnson, Delwin L. Jones, Pete Laney, Jack Little, Jim Lindsey, Aubrey Lockett, Barry Love, Macky McCarty, Ken McEachern, Gene McLaughlin, Edd McLeRoy, Troy McNeill, John McQuien, Ralph Mabry, James Man, Don Marble, Wayne Martin, Fred Mercer, W. Hog Cholera Located In Hereford Swine Herd

An outbreak of hog cholera—the first in the United States in more than a year—has been confirmed in the Texas panhandle, the U.S. Department of Agriculture (USDA) reported July 4.

USDA Animal Health officials warned hog farmers throughout the nation—but particularly in the southwest—to remain alert for signs of this costly and often fatal virus disease, which has the potential for rapid spread.

Hog cholera is a disease of swine only; it does not affect other animals or humans.

Hog cholera has been the object of a highly successful state-federal eradication campaign that began in late 1962. The last previous cases of the disease were reported in Puerto Rico on May 4, 1974, and in Mississippi on Feb. 7, 1974.

The current outbreak was found in a herd of about 100 hogs owned by Louis Woods located near Hereford, Smith county, according to officials of USDA's Animal Plant Health Inspection (APHIS).

The diagnosis was confirmed at the APHIS Veterinary Services Laboratories in Ames, Iowa, from tests on specimens that had been flown by courier from both the hog farm and the Texas A&M University veterinary diagnostic laboratory, where earlier tests had indicated the presence of hog cholera.

"Of course we are disappointed at finding cholera when we are this eradication," said Dr. Mulhern, APHIS administrator. "But this does illustrate the difficulty in eliminating the trace of a disease and the importance of remaining alert to the task of eradication."

"The affected swine have been placed under quarantine by the Texas Animal Health Commission. Additional and federal quarantines placed as necessary to prevent the disease. Contract infected or exposed swine in the primary ways hog cholera spread to healthy hogs. A state-federal task force has been established in the area to eliminate the disease and investigate the source of the outbreak and any possible spread. The infected hogs have been destroyed and the carcasses will be indemnified for the loss of his hogs."
