City Grants Homestead Exemption, Issues Temporary Taxicab Permit

At a regular meeting Thursday Littlefield city councilmen passed an ordinance granting ad valorem tax exemption of \$3,000 to homestead of taxpayers 65 years of age as of January 1 of each year. The ordinance also granted a temporary permit for taxicab operation in the city; appointed Greg Ingham as city secretary; and Mayor J. E. Chisholm to sign an ordinance on Lot 13, Block 36 of the original town of Littlefield; appointed members to the board of directors for 1975; discussed an ordinance for mobile telephone service by General Telephone; and approved a request by the Chamber of Commerce to consider the adoption of a occupancy tax.

must be made on or before April 1 of each year, allowing the tax assessor-collector to require proof of eligibility.

The exemption granted by the city in new ordinance will be effective for the 1975 tax year, provided the taxpayer made application for a similar exemption with the Littlefield Independent School District's tax assessor-collector prior to April 1 of this year.

Eligibility for the exemption depends upon actual use and ownership of the residence by the taxpayer as a residential homestead on Jan. 1 of the applicable year, and the taxpayer's having attained the age of 65 years old on or before such date; provided that the exemption be applicable if the residence constitutes the residential homestead of one spouse without regard to the age of the other spouse.

The city tax assessor-collector has the authority to require documentary proof as he deems necessary in order to determine eligibility for the exemption, which determines the granting of the exemption.

The ordinance became effective with the signing of the ordinance.

Councilmen set Thursday, June 19, at 7 p.m. as the date for a public hearing on an application by James Clark to establish a taxicab service in Littlefield.

Councilmen granted a temporary transfer of a permit for operation that was given to Marvin Webster for cab operation in the city. The temporary permit was issued in order that Clark might begin operation now.

The permanent permit will be either granted or denied following the public hearing at the next regular meeting.

The new city secretary, Gregg Ingham, is a graduate student at Texas Tech, majoring in public administration. He began his duties with the city May 19, and he and his wife,

Patty, are residing in Littlefield.

Members of the council decided that a sewer line easement which was assessed against Lot 13, Block 36 in the original town of Littlefield was not needed at present, and that such an easement would be required in the future. The mayor was authorized to sign the release.

Four men were appointed to the Board of Equalization for 1975. Named were A. C. Bridwell, W. D. Hall, Eldon Gohlke and Don Joyner. They will serve both the city and school facilities.

Councilmen took no action on the increase of mobile telephone service as proposed by General Telephone Co.

After a discussion of the proposed adoption of a motel occupancy tax, councilmen asked that the city manager contact cities in similar population categories, seeking information about the subject and the procedures involved.

City Manager Jim C. Blagg issued a report of administrative activities for the month of May.

"Two days of meetings were held this month with representatives of the American Cotton Growers Textile Mill, the Texas Water Quality Board, and the city to discuss alternative proposals for treating the textile mill waste water. After a review of the information presented by the consultant for the textile mill, it was decided to allow the mill to bring their waste into our treatment plant with no pre-treatment except Ph (acid) adjustment. The results of this method will be monitored for approximately six months to determine if additional treatment will be needed," he stated.

"The final transfer of our tax office to the school under the terms of the recently signed contract was completed this month. No problems have been encountered yet, however, it is too early to determine what, if any, problems will arise.

"Final submission to the Farmers

Home Administration was made this month of all the required information to finalize the grant procedure. We will call for bids to construct the water and sewer lines as soon as the final plans and specifications are accepted by FmHA.

"Planning for the summer youth recreation program was completed this month. We are anticipating a good turnout for the program.

"Final requests from the departments for the fiscal year 75-76 budget were received. These requests will be analyzed by the staff and reviewed with the department heads. The requests will also be compared to the anticipated revenues for the coming year.

"Initial preparation is underway on our upcoming public hearing for the landfill permit. I spent one day in Amarillo visiting with their city attorney because they have just completed a similar hearing," he concluded.

County-Wide Record Book Workshop Slated June 16

A county-wide record book workshop will be held Monday, June 16 according to County Extension Agents Jim Kuykendall and Dorothy Powell.

4-H'ers will meet at 9 a.m. in the County Courthouse in Littlefield.

All 4-H'ers are urged to bring all records, newspaper clippings, D-Forms, green and/or white construction paper and anything else needed. "This will be a long day of activity, taking as long as necessary to complete your record book," Kuykendall said. "This will be an in-depth workshop, so if you desire any help please make every available opportunity to attend if possible," he concluded.

The District 2 4-H record book judging will be held Aug. 1 in Lubbock.

School Board To Meet Monday

The Littlefield School Board of Trustees will meet Monday night at 8 in the High School lunchroom for their regular meeting.

Included on the agenda for discussion will be the minutes of the previous meeting, a review of the financial statement, and a discussion of school personnel.

Green Thumb Crews To Go Back To Work

Work crews for Texas Farmers Union Green Thumb will be returning to work June 16, in Swisher, Briscoe, Lamb, Hale, Floyd, Motley, Terry, Crosby, Dickens, Garza, Dawson, Bosque, Navarro, McLennan, Bell, Falls, Milam, Lee, Travis, Williamson, Bastrop and Fayette Counties, according to state director, David Hartwig.

Congressional action has prompted the release of \$12 million to Green Thumb and four more national contractors which had been appropriated last December.

The release of these funds will allow 196 men to return to projects which were interrupted in April. This means that work on park development, school

repairs, and other community improvement projects will be completed in 22 counties now being served by Green Thumb crews.

Sponsored by Texas Farmers Union, Green Thumb employs low-income rural persons, age 55 and over. The workers provide the know how and the manpower to do improvement projects such as described above.

Individual placements also assist local communities by strengthening social services as teacher's aides, library aides, senior center assistants, and nutrition site workers. Statewide, Texas Green Thumb currently has 291 persons working in 29 counties.

Lions Club Members Selling All-America Football Tickets

Littlefield Lions Club members Jim Jones and Sedell Black have tickets to the 15th annual Coaches All-America football classic to be played in Jones Stadium at Lubbock on June 21st.

The \$3 seats are in section 122 in the second group up and range from the 10 to 20-yard lines. The prospective bridegroom is also a May 1975 honor graduate of Abilene Christian College, with a degree in physical education. He plans to continue his education in physical therapy in Dallas in September. He is presently employed at Snyder State School in Snyder.

Wedding vows were exchanged between Miss Jane Elois Hamill of Levelland and Captain Douglas Creelman Jeffrey III of Alexandria, Va., Sunday, June 1, in the First Baptist Church of Levelland with Rev. Prentis McGee, pastor, officiating at the double-ring ceremony.

Mr. and Mrs. Payton Reese of Littlefield and Mr. and Mrs. Douglas Jeffrey Jr. of Quannah are parents of the couple.

Cathedral tapers in a tall brass candle tree, flanked by arched candleabras entwined with greenery, formed the background for a large bridal arrangement of pink and white roses, peonies, calla lilies, snapdragons, and erimuries. More of the flowers were placed on Grecian pedestals on each side, with two smaller candle trees flanking them. The satin-covered prie dieu was draped with white gardenias and smilax. Pews were marked with clusters of baby's breath and pink point de esprit bows.

Wedding music was provided

by Mrs. Tom Post of Ackerly, cousin of the bride. She accompanied Miss Mary Sheffield of Dallas as she sang "The Wedding Prayer", and Joe Whitten of Big Spring as he sang "Ave Maria" and "Bless This House".

"Trumpets Tune" from Purcell's "Voluntary in C Major" was played as the attendants came down the aisle, and as the pages unrolled the aisle cloth. "The Bridal Chorus" from Lohengren was played as the bride, escorted by her brother, Rob Hamill, came down the aisle.

The recessional was "The Wedding March" by Mendelssohn. As the couple lit the Memory Candle, Rob Hamill read three love passages from the Bible while "Entreat Me Not to Leave Thee" was softly played.

The bride wore a formal gown of candlelight silk chiffon over summer peau de sole, designed by Paula Varsalona for Baline. The princess lines of the dress

were accented with appliques of Alencon lace reembroidered with seed pearls and crystal beads. The scoop neckline was outlined with the lace and beading, and the back featured tiny covered buttons and a princess panel which swept into a cathedral length train. The hemline was banded with the lace and beading, ending in a crystal pleated flounce. The full bishop's sleeves were caught at the wrists with a wide cuff and covered buttons. She wore a cathedral length veil of hand embroidered Valencian lace which was purchased by the bride in Venice, and which was worn by her sister in her wedding. The veil was attached to a camelot cap of lace and beading, matching her gown.

The bride carried a bouquet of pink sweetheart roses, stephanotis, and baby's breath. Ribbon streamers caught in love knots held a gold locket belonging to the bride's mother and worn in her wedding. Her jewelry was a pearl necklace and earrings and an heirloom brooch of diamonds and sapphires, all gifts of the bridegroom. The brooch had been given to his Great Grandmother by his great Grandfather more than fifty years ago. She wore a sixpence borrowed from Miss Minta Jones of Dallas, cousin of the bridegroom, in her shoe, and a blue garter belonging to her cousin, Mrs. Jerry Bawcom of Fort Worth.

In the entry a console held a topiary tree of pink and white satin roses, containing rice, later handed out by Miss Rick-

man and Miss Pirtle. In the living room an antique Louis IV desk held the bride's book.

A round table was laid with a candlelight floor length tulle cloth bordered with appliques of Alencon lace, re-embroidered with seed pearls. A shorter cloth of matching lace and tulle overlaid it, and was centered with a multi-tiered cake decorated with clusters of roses, stephanotis, lilies of the valley, and grapes made of sugar in various shades of pink and white, with touches of green.

The dining table cloth matched the tulle and lace of the smaller table, and was centered with an arrangement of roses, tiger lilies, snapdragons, peonies and clematis in a silver urn. A silver punch bowl and coffee service completed the table arrangement. Finger sandwiches were served from a large silver platter.

A game table in the den, draped in pink and white organdy, held an arrangement of the spring flowers and a brass punch bowl and sandwich tray. Vases of pink and white roses, peonies and daisies were placed in vantage points throughout the house.

To The EDITOR

Dear Editor,

The Littlefield 4-H Club held their June meeting Monday, June 2, in the Littlefield Satellite School building. The purpose of meeting at the school was so the 4-H'ers could see first hand "The Early Childhood Enrichment Series" which they helped buy for the school.

The series consists of four complete sets of studies: one in language skills, toys to develop perceptual skills (consisting of colors and sizes and shapes), development of no readiness, and development of readiness to read.

The kits were on display and explained to all present by Mrs. Larry Dempsey and myself (Etta Mae

Blevins). We also showed those present some of the exercises and physical activities we put the students through.

We enjoyed showing the students through our routines very much, and appreciate their interest in our special students. We would like to encourage all other organizations to set up a special meeting here either of a morning during school or at any other time, so we could acquaint the community with our work.

Thank You,
Etta Mae Blevins
and

The Liberty Bell And Its Replicas

IN 1950, FIFTY-TWO full-scale replicas of the original Liberty Bell in Independence Hall, Philadelphia, were built for the Treasury Department and given to each state, the District of Columbia, Hawaii, Alaska and Puerto Rico, where they are displayed in places of honor.

Rung on July 8, 1776, to proclaim American Independence, the original Liberty Bell has seldom since been heard. The last time the Liberty Bell really rang was on Washington's Birthday, 1846.

The original crack that had appeared when the Bell was being tolled in mourning for Chief Justice John Marshall in 1835 has been drilled out in 1846 so that the edges would not vibrate against each other.

The Bell rang clear until almost noon in honor of the Father of His Country, when the crack spread and the ringing changed to a hoarse rumble. That was the last time anyone heard the true voice of the original Liberty Bell.

IN SUBSEQUENT ceremonies through the years, the original Bell has been sounded— usually only tapped symbolically for fear of damaging the Bell still more. On February 11, 1915, its silence of 69 years was broken to signal the linking of the Atlantic and Pacific coasts by long distance telephone.

Three times it rumbled hoarsely over the wire to San Francisco. In the conversation that followed the Mayor of San Francisco made a personal plea to the Mayor of Philadelphia to have the Liberty Bell sent to the Panama-Pacific Exposition. There, and on its journey by rail to and from the Golden Gate, an estimated 17,000,000 Americans turned out to see the Bell.

AGAIN IT WAS struck to welcome the New Year of 1926, the sesquicentennial of American Independence. On that occasion, the wife of Philadelphia's Mayor Kendrick tapped out 1-9-2-6.

That event was broadcast by radio to the half of the nation that could be reached by radio at that time. Even the muted voice of Old Liberty has not been directly sounded since, nor is it likely to be again, although a radio broadcast of a recording of the 1926 ceremony was made to the nation on June 6, 1944, to signal the invasion of the Continent of Europe by American and allied forces in another war for Freedom.

The 52 replicas produced in 1950 were used by the Treasury Department in its 1950 Savings Bonds Independence Drive. They toured nearly 2,000 American cities. To open that Drive then-Secretary of the Treasury, John W. Snyder, tapped the original Liberty Bell in Philadelphia near the close of an hour-long nation-wide radio show featuring an address by President Truman and celebrities from the entertainment world.

WITH THE 52 duplicates, millions of Americans can hear approximately the same sound as that produced by Old Liberty when it proclaimed Liberty "through all the land and to all the inhabitants thereof." They are exact copies of the original; the crack is in the same place; and the bells ring and are harmonically tuned.

THE REPLICAS allow Americans, unable to see the original, to view an exact copy of Old Liberty. Since its return from the Panama-Pacific Exposition in 1915, the original Liberty Bell has not been allowed to leave Philadelphia.

Since October 10, 1917, when it was the star attraction in Philadelphia's First Liberty Loan Parade during the First World War, it has not even left its shrine in Independence Hall, because of the

danger of further cracking of the precious relic by the jolts and strains of travel, even though it has been protected since its trip to the West Coast by the installation of a six-armed iron spider fastened to the clapper bolt inside the lip of the Bell to distribute the strain of its 2,080 pounds more evenly.

THE 52 REPLICAS of the Old Liberty were donated to the Savings Bonds cause by six leading American companies of the copper industry (bell metal being an alloy of copper). The donors were: Anaconda Copper Mining Co., Kennecott Copper Corp., Phelps-Dodge Corp., American Smelting and Refining Co., American Metal Co. Ltd. and Miami Copper Co. U.S. Steel Corporation's American Bridge Co. supplied the stays and hardware used in mounting the bells. Forty-nine flat-bed trucks, painted red-white-and-blue, on which the bells toured, were supplied as a public service by the Ford Motor Company.

The duplicates were made at the bell foundry of the Sons of Georges Piccard at Annecy-le-Vieux, in the province of Haute-Savoie, near the Swiss border of France, from careful measurements taken by Dr. Arthur L. Bigelow, Professor of Engineering and Bellmaster of Princeton University, and from detailed photographs of the original Bell, its wooden yoke and the wishbone-shaped bronze supports between which it is swung on its exhibit platform in Independence Hall.

Will Our Children Grow Hungry By Year 1985?

Food is like sleep— not much reason to think about it as long as one has had enough. Only lack really stimulates thought about it. The American people have grown so accustomed to abundant supplies of food they no longer think about the source of it or wonder if there will be adequate amounts next year.

They have bought more luxuries, comforts, and conveniences than any other people in the world because until recently only around 16 percent of their disposable income was required to buy food while other nationalities had to spend 40 percent to 80 percent of their income just to eat.

Can there be any doubt that much of our nation's affluence has been made possible by American agriculture? It is ironic, indeed, that people enjoying such multitudinous benefits from it will allow irresponsible political interference and economic juggernauts to threaten the survival of our agricultural businesses. For 200 years, America's family farms and ranches have been "the goose that lays the golden egg", and now only an informed and concerned public can save this goose.

Only 2 percent of the population in the United States is in the business of growing food. America's farmers, including those who harvest their crops of grasses with livestock and are called ranchers, have been steadily declining while our population spiraled upward. Yet, our food producers have not only provided lavish food supplies for our own people, they grew enough to save the nation's balance of payments with exports in 1973 and last year provided the strategic bargaining chip for U.S. diplomatic efforts in trying to keep peace in the Mideast and elsewhere.

In the 1960's, the average food producer increased his productivity 8 percent per year. Output per man hour in non-agricultural industry increased 3 percent annually in the same period. For this kind of performance, the

most efficient and most highly motivated workers in the world.

No way has yet been discovered to grow food without lots of often grueling, hard, dirty work which has to be done in its time and season regardless of freezing cold or blistering heat. In our comfort-pleasure oriented society with its emphasis on short hours and five day work weeks, it is ever increasingly difficult to find people willing to do this kind of work.

Caring for livestock and planting and harvesting crops cannot be left undone because it is 5 p.m. or Saturday. Our independent food producers are motivated by the challenge of making their financial investments pay off to put in the long hours of hard work required to grow food. WHO is going to replace this labor force?

If America's food production goes solely into the hands of big conglomerates or corporations, WHAT will be the price of food when this work has to be done by union workers on eight hour shifts, five days a week, supervised by management personnel? And can wages motivate people to do this kind of work?

THE ABUNDANT LIFE

Goodfinding

THE OPPOSITE OF FAULT FINDING is "goodfinding", and someone has coined this word to be used as the antonym of faultfinding.

This idea is not intended to suggest that we close our eyes to realities, or to encourage naivety; but to emphasize the necessity for seeing the aspects of life that are positive and constructive. These are overlooked so many times.

THIS IS ANOTHER justified effort to discourage and turn our minds away from the hurtful habit of engaging in petty, nagging and unreasonable censure. Of course, some of the perverseness and ugliness of life must be seen for what it is and evaluated accordingly.

We are not justified in assuming the attitude that everyone is all right, or the view that everything is all wrong. Life, in general, is a mixture.

IN SOME INSTANCES, there are "faults" that can and should be corrected; but the "petty, nagging and unreasonable censure" is never in order. It is a destructive and disruptive practice.

In fact, it is a very strange practice, when we consider that imperfections are present in each one of us. As a basic view, all of us will have a better self-image and assist more people if we make "good finding" our predominant practice. We must find the good in ourselves, and in others.

"GOOD FINDING" may be more difficult, but, if it is, it is also more rewarding. We will make ourselves better, and more effective, and happier persons. We will help others, also.

We will be helping others to become more positive, growing personalities, and enjoying the living experience.

THERE IS GOOD to be appreciated, and all such encouragement and support and good which is so very much the satisfactory living.

If this "good" in our lives, lives of others is not found, ignored; all of us lose.

Unfortunately, many of us "good" and we may even appreciate it but we are not diligent in strengthening it by expressing appreciation. "Goodfinding" fully expressed appreciation serves its complete purpose, whatever it may be, will be and increased.

"ONE OF THE GODLIKE" this world is the veneration of human worth by the hearts of Carlyle.

WE CANNOT AFFORD to wrong things that can and be corrected, but the usual "petty, nagging and unreasonable censure" does not help make these corrections.

We will do better, in all "goodfinding" is made a work on our on-going life experience causes more loss to all of us deliberately or just overlooking the actual "good" and in situations.

FINE KETTLE of fish! With so much wheat about ready to harvest in the community, one doesn't know whether to wish for rain or not!

WE MAY BE ABLE to breathe a little easier for the next little while. I understand Kissinger and the President are back home, plus the state legislature being dismissed for the summer. Count your blessings!

WAS ADVISED that around the middle of the year, this inflation thing was supposed to turn the corner. I guess it has! As of this week I got my notice of an increase in my hospital and doctor's insurance.

THAT'S ENOUGH to SEND a guy to the hospital?

WE THINK THAT WE are paying a rather high price for food here in America, but we ain't seen nothing yet now that the vegetable harvesters have united.

Don't get me wrong, I'm for each individual's earning a living wage, and I guess the vegetable harvesters put in a fair day's work. I understand they are paid by the case, carton or lug, therefore there is no fudging on the time clock. But now that many have succeeded in becoming united, cost of production will go up maybe as high as 20 percent and you can bet that when this happens, by the time it gets to the consumer the price will have risen a good 40 percent.

This increase in the cost of vegetables and fruit will also find its way into other products, and it will take a while for ones earning power to reach the increase in the cost of living.

THROUGHOUT this nation, and in other countries, there is or has been a movement for "jail reform". Part of this reform is to modernize our jails. Some circles want the jails to look like rooms in hotels, and I guess they want room service too!

We are supposed to be a Christian nation, as well as most of the other countries in the world. It is my opinion that we are looking at this reform from the wrong side of the fence. We should work on a people reform instead of jail reform.

In other words, jails were developed to put people in who could not, or would not, live within the laws of our society.

THERE'S A BILL about to be introduced in the Congress on the ERA thing. The notable note (they say) is the exceptions that are entered in the proposal. Most notable being the exclusion of contact sports, like wrestling, football, and basketball.

A LITTLE THING not going on when the media (local) and the Babe Ruth League, is communism. The League doesn't turn in its members to the media. It goes out and gets the media. But, and for your information, local team is doing quite well you!

AN ARTICLE in the late U.S. World Report advocates that the Society inaugurated by L.B.J. become quite expensive. Don't see it makes much difference. If you me, the mention of a few hundred dollars makes your brain turn anyway.

These laws were instituted by to protect all individuals, as well as property and his family. All individuals live by these laws with the exception of about one or two percent of the population. These people want, to degree, what belongs to me and belongs to you, as well as a soft stay when they are taken out of society.

I think these groups of people want certain reformation should their time and efforts to reform or two percent of population. If the done, perhaps jails would become solet.

Our laws are not all so bad. person cannot get along. They instituted to protect all of us and one becomes out dated, wrong lawmakers to make a change in particular law.

Nuff said! I can hear some from the above, already.

FREE ADVICE is usually wrong price.

Mearse-Albus Wedding Solemnized

Jan Elizabeth Mearse of Loraine and Kenneth David Albus of Pep exchanged double-ring wedding vows Saturday night, June 7, in the First United Methodist Church of Loraine.

The couple stood before a cathedral candelabra with a bank of palm, flanked on each side with two smaller cathedral candelabras, as Rev. Kevin Clarke of St. Phillips Catholic Church at Pep officiated for the reading of the vows.

Decorating each candelabra were jade and English boxwood. Tall white tapers were used throughout the altar, and pews were marked with crystal votives and accented with Colorado smilax and accented with white bows. Floral arrangements of white gladiolas, mums and carnations were used on each side of the altar.

Parents of the couple are Mr. and Mrs. Herbert Mearse of Loraine and Mr. and Mrs. Leonard J. Albus of Pep.

The bride was given in marriage by her father. She wore a gown of delustered satin with alencon lace details. Pearls outlined the high neckline, and the lace medallion outlined in pearls was repeated on the long tapered sleeves, down the front of the A-line skirt and on the detachable chapel-length train which was held at the back by a self fabric bow. Her headpiece was a Juliet cap of pearls and

matching lace holding three tiers of lace-edged illusion. Her bouquet was a cascade of white stephanotis centered with white roses touched with gypsophila and accented with white satin picot ribbon. The center of the bouquet was lifted for her going away corsage.

Traditional wedding music was played on the organ by Mrs. K. L. Taylor of Loraine, who also accompanied the vocalist, Mrs. Davis B. Edens of Colorado City, as she sang "Because," "The Twelfth of Never," and "Whither Thou Goest".

Matron of honor was Mrs. Mike Mearse of Mathis, and maid of honor was Ann Hoback of Lubbock. Bridesmaids were Donna Beighis of Lubbock, Debbie Watkins of Lubbock, Nancy Graham of Canyon and Mrs. Frank Dobrovoly of Lubbock.

All of the attendants wore gowns of rainbow colors in polyester voile fashioned with a modified square neckline, butterfly cap sleeves, and softly-gathered A-line skirts with a deep self ruffles forming the hemlines. A wide insert of embroidery trim accented the waistline and neckline. The bridesmaids carried colonial bouquets of all summer flowers and each bridesmaid's headpiece matched her voile dress.

Bill Albus of Memphis was best man. Groomsmen were Sydney Albus of Pep, Leonard

Albus Jr. of Littlefield, Samuel Albus of Lubbock, Dale Baumgardner of Pep and Ray Decker of Pep.

Ushering the guests to their pews were Mike Mearse of Mathis and Robert Hoback of Colorado City.

Dedria Decker of Pep was flower girl and wore a long pink dress made similar to the bridesmaids' dresses.

Lee Decker served as ring bearer.

All the groomsmen and the ringbearer wore black tuxedos and shirts to match the color of the bridesmaids' dresses and the flower girl's dress.

For her daughter's wedding, Mrs. Mearse wore a two-piece gown, and both mothers wore corsages of pink rose buds.

Following the wedding, a reception was served to the guests in the fellowship hall of the Methodist Church.

The bride's table was covered with a floor-length organza cloth, accented with pink bows. The three-tiered white wedding cake, decorated with white roses separated with Grecian columns, was topped with a miniature bride and groom. Silver and crystal appointments were used in serving.

The groom's table was laid with a green table cloth, from which German chocolate cake and coffee were served from a silver coffee service.

Members of the houseparty

included Mrs. Ray Decker, Mrs. Samuel Albus, Grata Albus, Mitzi Albus, Cynthia Wade, Belinda Sheffield, Mrs. E. J. Schroeder, Mrs. Ed Small, Mrs. Price Hall and Mrs. Charles Finley.

For their wedding trip to Ruidoso, N.M., the bride wore a burgundy western pant suit.

They will reside on the Mill Creek Ranch at Mason, where the groom is presently employed with Matador Cattle Company.

The bride is a 1971 graduate of Loraine High School and a May 1975 graduate of Texas Tech University with a BS degree in education.

The groom is a 1971 graduate of Pep High School and a 1973 graduate of South Plains College with an associate degree in applied science. Both were on their respective deans' lists.

Out-of-town guests at the wedding were registered from Pep, Littlefield, Colorado City, Munday, Abilene, Memphis, Tex., Mathis, Lubbock, Midland, Whitharral and Sweetwater.

The groom's parents hosted the rehearsal dinner at the Ranch House Restaurant in Sweetwater.

Speaker Bill Clayton Honored In Austin

In a break with tradition, Speaker Bill Clayton has requested all gifts and contributions usually given to the Speaker and his family on Speaker's Day be given to Cal Farley's Boys Ranch and Girlstown, U.S.A. in Whiteface.

During past sessions, House members and friends have honored the leadership of the Speaker during a session by giving presents. This year Speakers Day activities May 26 were geared toward recognizing the cooperation and work of members and House employes as well as the Speaker.

Clayton said contributions to the charity organizations are still being donated, and he plans to make a formal presentation of the money after the session. He has reiterated his call for contributions, encouraging any persons who still might be interested to contribute.

Five receptions were given on Speaker's Day honoring House members, employes and the Capitol news media. Included in the day's activities was a House floor ceremony in which Clayton

was presented with a scroll signed by House members and two framed batiks from House employes.

Thirteen former Speakers also congregated to honor Clayton. They were seated on the podium behind the Speaker during the formal House ceremony.

Speaking to members and guests, Clayton said that the session had been a success because of the hard work of members and their staffs.

"With one week remaining in the session," he said, "I am proud to say that when the smokes is settled and the gavel is silenced, this Legislature will have written a progressive era in Texas history that will be a long time being told."

possible. You've worked together as a team regardless of your ideologies.

"You've worked long and hard. I doubt there's been any Legislature to this point in history that has had the work load this session has had. More than 2,300 House bills alone have been introduced this session, along with the 1,500 Senate bills. I wish the citizens of this state could follow a couple of you to see how much you desire you have of this great shake."

Photographers Set Focus '75

Professional photographers have until June 15 to enter a national photographic exhibition to be held in Amarillo July 18-20, a competition offering numerous cash and purchase awards.

The photo show, "Focus '75," is a project of the Top of Texas Branch, National League of American Pen Women. Its purpose is to promote and exhibit excellence in photojournalism. Focus '75 is the first of what will be an annual competition staged by the Top of Texas Branch of NLPAP, according to Mrs. Julia Spurlock, president of the branch and chairman of the juried show.

There are five categories in which professional photographers can compete for cash awards of \$75, \$50 and \$25: landscapes, portraits (both formal and informal), still life news and/or human interest, and a special division encompassing architecture, industrial and commercial subject matter.

Purchase awards will be available for \$25, \$75, \$100 or \$150.

Entrants are limited to one photograph per category. Entry fee is \$7.50 for the first and \$2 for each additional photo. The pictures should be mounted, they should be no larger than 8 x 10s, and both color and black and whites are acceptable.

A viewing committee will determine by July 1 which entries will be accepted for Focus '75. Color slides may be submitted for the determination but originals must be received by July 15. The three-day show, July 18-20, will be held at Amarillo Garden Center.

Further information about Focus '75, can also be obtained by writing Mrs. Spurlock at Tascosa Road, Box 331, Amarillo, Texas, 79106.
