

# Councilmen Authorize Ordinance Granting Telephone Increase

grantee a 17 percent gross rate increase to General Telephone Company of the Southwest. That increase includes a 23.64 percent select increase on certain items.  
Present for the hearing were Max

Preston, general council for General Telephone, and Rad Richardson, district manager.  
Preston reshaped the case as presented 2 1/2 years ago in district court when the rate case first started.

He explained the situation as of March 30, 1971 and went into other details explaining why the present rates are inadequate for proper operation.  
In closing, Preston urged, "Give us a substantial increase. The longer we wait

the greater the need will be." He then suggested that a 30 percent increase be granted.

As a matter of comparison, councilmen learned that business one party rates in Littlefield are presently \$11.50 and would be raised to \$15.30 at the 30 percent increase.

Residence rates for one-party phones in Littlefield are currently \$5.45 and would go to \$7.30 at 30 percent.

In a study made by Bill McMorris, the 17 percent gross, or 23.64 percent select increase, which the council is recommending, would grant a raise of \$14.30 for business one party—compared to the present \$11.50; and \$6.80 for residence one party—compared to the present \$5.45.

If General Telephone's recommendation of 30 percent had been accepted, Amherst and Anton residents would be paying \$14.30 for business and

\$6.95 for residence phones, compared to their present rates of \$11.25 for business and \$5.50 for residences.

Those city governing bodies will meet at a later date to adopt their ordinances containing the 17 percent gross or 23.64 percent select increase.

Several aldermen representing Anton and Amherst were present to discuss the case and unanimously decided on the increase offer.

In other action by the Littlefield councilmen, the low bid of \$24,975 for a pumper body for a new fire truck was awarded to Fire Appliance Co. of Wichita Falls. Funds for the body will come from Revenue Sharing funds.

Other bids came from Boardman Company of Oklahoma City, Okla. and John Bean of Elkhart, Ind. Boardman's bid was \$28,880, and Bean's, \$26,225.

Fire Appliance Company has promised a 120 to 150 day delivery time.

## Lamb County Ranks Tenth In '73 Cotton Production

GENERAL VARIETIES of the official Littlefield flower, the daylily, are in bloom throughout Littlefield. Colors are ranging from nearly white to scarlet red, and are enhancing many spots in home yards, in parks and on the Santa Fe Plaza. Due to the dry weather, lots of water is poured on them. (Staff Photo)

LITTLEFIELD GARDEN CLUB members made a daylily tour Tuesday morning to view several home gardens, as well as Crescent Park, the Santa Fe Plaza, and the intersection of Highway 54 and Business 84. Here they're at the Santa Fe Plaza discussing some of the large blooms. Members include Bertha Tisdale, Ellen Will, Mabel Messer, Florence Porcher, Mary and Ina Webster. (Staff Photo)

Official figures from the Texas Crop and Livestock Reporting Service in Austin show that Lamb County ranked tenth in 1973 cotton production, with a grand total of 153,200 bales ginned from an average of 444 pounds of lint per acre.

The figures show 2,888,600 bales of 480 pounds net weight produced in the 25 counties represented by Plains Cotton Growers, Inc., Lubbock-based cotton producer organization. The production came from 2,784,000 harvested acres for an average of just over 498 pounds per acre.

Lamb County's planted acres for 1973 were 167,300, of which 165,700 were harvested.

The figures were given to PCG by phone Thursday, June 20. The TCLRS publication "Texas Cotton Statistics" for 1973 is expected out in another week.

The total production was the highest ever for the plains, well above the previous record of 2,443,900 bales set in 1961. The yield per acre was the second highest in history, falling behind the 513 pounds per acre made in 1965.

The joint PCG-Lubbock Cotton Exchange Estimates Committee in its final 1973 guess on Dec. 1 of last year placed production at 2,725,000 bales.

Dawson County, with 315,300 bales, for

the second year running edged out Lubbock County as the area's top producer.

Lubbock's total was close behind at an even 310,000 bales. In third place was Lynn County where 275,800 bales were harvested, compared to only 210,500 bales grown in Gaines County, the 1972 third ranking county.

The highest per-acre yield in 1973 was achieved by farmers in Borden County where each harvested acre turned out 644 pounds of lint. Following Borden in this category was Martin County with 599 pounds per acre and Howard with 593 pounds. Floyd, Crosby and Borden Counties were the top per-acre producers in 1972 with 616,605 and 559 pounds per acre, respectively.

The joint PCG-LCE Estimates Committee will meet early in July for its first estimate of what are acknowledged as greatly reduced 1974 crop prospects. Most observers are agreed that drought, hail and winds have cut Plains acreage for this year to around 2.1 million acres, and that yields can't possibly equal the excellent outturn of 1973. At least one knowledgeable source is placing production potential at 1.5 million bales, but there are others considerably more pessimistic.

## 4-H'ers To Study Government On Heritage Tour To Washington

About 45 4-H'ers from throughout the High Plains will join other young Texans in Dallas June 25, to embark on a heritage tour to Washington, D. C. and points in between. They'll be participating in a six-day National 4-H Citizenship Short Course in the nation's capitol.

The delegation will include a boy and girl from Lamb County, according to Jim Kuykendall, assistant county extension agent. Among those attending will be: Rodney Logsdon and Jennifer Templeton.

Accompanying the group will be five 4-H leaders and two county Extension agents. Mrs. June Terrell of Plainview is one of the leaders going, and Martha E. Couch, Gaines County Assistant Extension agent was selected as one of the two agents.

In all, the trip will cover eight days' travel to and from the nation's capitol, by charter bus.

4-H members entering their junior or senior year in high school next school term are eligible.

The 125 Texas youth and their leaders will leave Dallas June 25, arriving in

Washington, June 30. The excursion will take them through Tennessee and Virginia, with visits to historical sites.

In Washington, they'll participate with the other youth from throughout the nation in a six-day citizenship short-course. The program, Kuykendall said, is designed to supplement the citizenship education and leadership development training young people receive through the home, school, church and other organizations.

Citizenship shortcourses are conducted at the National 4-H Foundation in Washington. Topics relating to the individual's concept and responsibilities of citizenship are covered in assemblies and opportunity sessions at the center.

Learning experiences are gained through visits to operational centers of many branches of government and to memorial centers in the nation's capitol.

Tops on the agenda of the 4-H'ers will be a visit with their local congressman. They will return via West Virginia and Kentucky, touring other historical sites enroute home. The group will return to Dallas July 9.

## Longtime County Landowners To Be Honored With Program

Farmers and ranchers in Lamb County whose families have held the same land since 1874 or before will be honored by the Texas Department of Agriculture's "Family Land Heritage Program", according to Commissioner John C. White.

The program which will be initiated July 1, will "pay tribute to those families who have proved their respect for and dedication to the land," White said.

This county has some of the oldest establishments in the state, with a long history of dedicated service to the agricultural community and I hope that every qualified family will take this opportunity to be recognized by the people they have served, White said.

Applications and rules for the program may be obtained by writing

Commissioner White, P. O. Box 12847, Austin 78711.

Any family who is certified by Judge G. T. Sides will qualify for the honor. An applicant need only show a continuous family relationship between the founder of the homestead and the present owner.

The land must have been in use for agriculture by the family since 1874 or before, must be at least 10 acres and producing \$50 or more from agricultural products.

Those who do qualify by Aug. 31 will be recognized in a special ceremony at the State Fair this year and short history of their family and land will be published in a land heritage directory. In addition, local recognition will be provided to the families for their long dedication to agriculture.

## 4 County Students To Attend Seminar

The local county Farm Bureau will sponsor the attendance of four students to the 12th annual High School Students Citizenship Seminar to be held July 15-19 in Waco, according to Jerry Ray, president of the Lamb County Farm Bureau.

Students selected to attend from this county include: Toni Gardner, Littlefield; Quincy Lewis, Earth; Jimmy Villanueva, Olton; and Linda Evins, Spade.

They will be among more than 500 students from over the state entering the 11th and 12th grades in September who have been selected to attend the seminar on the basis of leadership ability and scholastic achievement.

Sponsored by the Texas Farm Bureau, the seminar is held on the campus of Baylor University. Its purpose, according to Ray is to convey to the students a better understanding of our American heritage and the capitalistic

private enterprise system "that has made ours the greatest of all nations."

He also said they will be informed about some of the forces, both internal and external, that are eroding our way of life. The ultimate goal, he added, in addition to helping them to be better informed, is to cause them to want to pass on their experiences to others.

Attendance is not limited to students from Farm Bureau families, but it open to those who reside in towns or cities as well as rural areas. Their attendance is sponsored by the local county Farm Bureau.

## Arrests, Thefts Occur Over Weekend

An Olton man was charged with driving while intoxicated Friday, and three passengers were jailed on drunk charges. V. L. Smith was arresting officer. The three charged with drunk paid fines of \$22.50 each and the one charged with DWI was released on a \$1,000 bond.

Highway patrolmen arrested a 19-year-old Summerfield man Saturday. He was released on a \$1,000 bond.

Sheriff's officers checked three offense reports this week. Herman Cooper's service station at Springlake was broken into through a plate glass window Sunday. All drawers were ransacked, and change was taken. The owner was in Arkansas at the time and the extent of missing items was not known.

Two Spade farmers reported the theft of gas from their pickups parked in front of their residences, and missing batteries, jacks, tools and oil.

W. W. Thompson and Dick Martin owned the pickups. An estimated loss of \$100 in tools and supplies were taken from each of the two vehicles.

## 'Texas' Trip Re-Scheduled For July 11

The first chartered bus trip to view the play "Texas" in Palo Duro Canyon has been changed to Thursday night, July 11.

Not enough persons signed up for the Tuesday night trip as first planned, therefore another trip is being worked up.

Contact the Chamber of Commerce office in city hall to make reservations.

Cost per person is \$12, and includes a steak dinner, reserved show seat and the round-trip bus ticket.

## Cancer Board To Meet Today

Executive Board of the Lamb County Chapter of the American Cancer Society will meet at noon today in the Fiesta Taco Restaurant in Littlefield.

## Expert Witnesses With Opposing Views Testify On Cloud Seeding Procedures

BLAH RODGERS said the "clouds just wouldn't pay any attention to him," leading him to develop "reservations" about the future of molding the weather to suit man.  
He told the court he became a reformed rainmaker, and a scientist whose high hopes waned when the experiments failed.  
In earlier testimony Dr. St Amond said the reason rain increase efforts failed in the 1950s was because sodium iodide was used with silver iodide which produced "an ineffective material."  
On cross examination by defense lawyer Paul Lyle of Plainview, Workman said he published his last paper on cloud seeding in the arid Southwest in 1962 and that he had never personally participated in seeding clouds with silver iodide. Dr. Workman said his three projects were in 1946-49 and in the early 1950s.  
For many years Dr. Workman was head of the physics department at the University of New Mexico in Albuquerque, was in charge of the experiments at New Mexico proving grounds, and established the Langmuir laboratory.  
Dr. Workman's conclusion published in SCIENCE in 1962 contended that silver iodide used in quantities sufficient for precipitation and distributed throughout the atmosphere of the arid southwest would result in decreased rainfall.  
WITNESS CONTRADICTED Immediately following Workman's testimony, Richard A. Schleusener, director of the Institute of Atmospheric Sciences of the South Dakota School of Mines, presented contradictory testimony.  
Dr. Schleusener said in a research program costing seven and one-half million dollars, four-year results indicated that most seeded clouds produced more rainfall than those not seeded. He cited research from his own project, Operation Cloud Catcher in South Dakota.  
Dr. Schleusener said research grants by the National Science Foundation in the 1960s spurred massive project work, and in the past 10 years had added significantly to the body of knowledge on the subject.  
He cited significant North Dakota seeding experiments that showed 23 percent more rainfall overall from seeded clouds in a randomized situation, or three and

small cloud without sufficient dimensions and updraft velocity.

DR. WORKMAN CALLED

In a court battle expected to set precedent for future cloud seeding operations, plaintiffs called Dr. E. J. Workman Monday. Dr. Workman is a pioneer in the weather modification field, beginning cloud seeding experiments 30 years ago. Dr. Workman said he worked with Dr. Vincent Schaefer, the scientist who discovered dry ice caused super cooling of clouds, and Dr. Bernard Vonnegut who discovered silver iodide had the same structure as dry ice and produced nuclei like dry ice.

The silver haired scientist described for Midland Attorney Billy Browder how repeated attempts to seed clouds in northern New Mexico in the 1950s failed. He

presented reports from a number of dryland farmers listed as plaintiffs were presented along with testimony of Dr. Pierre St Amond with the Department of Commerce through the U.S. Navy Weapons Center, Dr. Merlin Williams, director of the South Dakota state-wide weather modification program, and Colorado state director of Natural Resources, Lewis Grant.

Drs. St Amond, Williams and Grant all testified that probable hail laden clouds 35,000 feet high, a base of four to 10 miles wide and with updrafts of 1,500 feet could not possibly be destroyed within the capabilities of the two West Texas programs which inject silver iodide into the clouds.  
In cross examination they said it could be possible to dissipate a

## To The EDITOR

Paducah, Texas,  
June 22, 1974

Dear Editor,

I have just finished reading the letter by Henry Banks of Graham, Texas, and it disturbs me.

We have recently finished a 7 1/2 month ad-interim with the Christian Church in Littlefield, and we think Littlefield is one of the nicest towns we know. In our ministry we have lived in 16 towns in seven states.

Mr. Banks' letter reminded me of one of my cousins. He grew up in Albany, Ky., my hometown, and went away to

live in Louisville. Every time he came back to Albany he had nothing but criticism for the town. He had gone to Louisville where someone else had built the roads, the streets and the businesses. He had not stayed in Albany and helped to build it up. Who do you think liked my cousin?

We think Littlefield is a nice town with a lot of wonderful people, and we think your paper is a mighty fine one.

Sincerely,  
Mrs. Robert Glenn

SUPPOSE I COULD go ahead and bore you with details of the slow and painful progress of improvements of the living conditions of the plains pioneers. This, however, would take considerable time and space.

The major step, of course, was the acquiring of adequate water supplies and the windmill. The transition from wood burning stoves (and, or, coal) made living much easier. For the most part, the windcharger was something of a flop. (This for furnishing electricity for the radio and a little lighting.)

The wind just didn't cooperate at the proper times, plus batteries that were always going bad. The rural electrical program was the final step to this question.

ONE OF THE THINGS that have never been improved is (or was) the spirit of neighborliness and interest in one another. There was a mutual concern and care among the early settlers that hasn't been matched since. They were always ready to help each other when the need arose, and in all kinds of trouble and illness.

They traded work, loaned implements and workstock, and kept some kind of social activity going on the side. Winter months were passed with many domino and forty-two games, play parties and musicals.

THE LADIES' QUILTING (or sewing) clubs provided one of the highlights to the women's activities. It was from these gatherings that all the community projects were either hatched, or spread about. They were an excellent community news-media, and sometimes, about as accurate as some of the reporting that takes place today.

RELIGIOUS ACTIVITY was not overlooked. In Bula there was a community building that served as church building, school house, and social gathering place. It was called "The Tabernacle", since it's primary purpose was for religious gatherings.

Of course, there were about as many religious beliefs as there were families,

but somehow they did very well under the "Union System". The Sunday School literature, when available, was of the "Non-Doctrinal" variety. Of course, you had to be careful what you taught your neighbor's kid, lest you cause a hassle.

SUMMER MEETINGS were of the same type. There were men of the cloth who made themselves available for these meetings who were called "evangelists". They were supposed to be of the Swiss variety not supposed to offend anyone. They were instructed to preach only from the Bible and not cater to the doctrine of any church.—Sound strange?

As the population of the community increased, the union was gradually broken up, with each of the ISms becoming strong enough to build their own places of worship. Odd, isn't it, that men can be friends and brothers in most anything except religion?

SCHOOL WAS ANOTHER kettle of fish. Togetherness was a way of life. All classes in the same room. One, maybe two teachers for the whole project. There were few secrets kept from the family, as brother and sister were able to tattle on each other when they got home.

About the time a new school building was built, I was made aware that I wasn't welcome in their classes. We lived about four-hundred yards across the school district boundary. Of course there was the matter of a transfer that could be done, but this couldn't be taken care of 'til "Next Year".

THAT'S WHEN I became acquainted with the bussing problem. I had to walk about two miles to catch a bus, then ride an additional 20 to get to school. I wondered if it was worth the effort.

When my parents saw my first report card from Littlefield schools, they were of the same mind. The walking part didn't last very long, as the school board saw fit to extend the route to our house.

I think the deciding factor was another couple of displaced students, living just See PIONEER LIVING, Page 8

WITH ALL THE EMPHASIS these days on beef, and getting the animals out of the feedlots and onto the consumer's table, you might be interested in the new Texas Grain-Fed Beef Cook book that has been published by the Texas Department of Agriculture.

The booklet contains recipes on choice and inexpensive cuts, casseroles, appetizers, variety meats and leftovers. It also describes methods of selecting and preparing meat.

For a free copy, write to Commissioner John C. White, Texas Department of Agriculture, P. O. Box 12847, Austin, Tex. 78711.

COMMISSIONER WHITE'S Department of Agriculture has also published a folder on breads, which contains recipes on yeast-rising and fruit breads developed by the Texas Wheat Producers Board.

So if you've ever wanted to bake your own bread, write for a free copy of "Breads", addressed to the address above.

Jarrell Tharp of Powell, Wyo., and Clayburn Tharp of Sweetwater; a brother, Floyd of Morton; three sisters, Mrs. Harold Jackson of Coolidge, Ariz., Mrs. John Taylor of Lovington, N.M., and Mrs. David Norman of Cannon; a half brother, Pressley of Odessa; five grandchildren and three great-grandchildren.

1 tsp. chili powder  
1 clove garlic  
1/2 tsp. liquid smoke  
1/2 cup catsup  
1/2 tsp. Tabasco sauce  
salt to taste

Cook beans until tender. Add chili powder, liquid smoke, catsup and Tabasco. Fry bacon until crisp, remove from pan and crumble. Fry in bacon fat until tender, onions, garlic and bell pepper. Add to beans and simmer slowly about 15 minutes to blend. Stir in crumbled bacon.

These beans freeze very well.

3 1/2 cups dry beans  
1 can Coke  
2 tps. ground mustard  
2 Tbsps. shortening or oil

Pick over, wash and put in very large boiler. Pour Coke over the beans and add the above ingredients. Add enough water to be sure the beans will be well covered. Put in refrigerator overnight.

Next morning, heat over high heat. Turn down some, but let them boil rather fast with lid on for 1 1/2 hours.

Then add:  
1/2 lb. salt pork chopped  
6 cloves garlic  
1/2 tsp. oregano  
1/4 tsp. red pepper  
1 tsp. (about) chili powder \*

Let them cook for 1 hour more then add 2 medium onions finely chopped. After you are sure the beans are tender, add 1 small can tomato sauce. Turn to simmer and simmer for two more hours. Salt to taste.

When you boil the beans fast, you will need to add water at times. Make this hot water and be sure to just barely cover the beans each time.

## TIPS AND TIDBITS:

IF MEMBERS of your family are sweet potato fanciers, take note: experts say "sweets" are one of the world's most all-around nutritious foods. Try whipping sweet potatoes with a bit of orange juice—or mash them with butter and chopped pecans. Delicious!

KEEP BAKING SODA handy in kitchen. It makes a good extinguisher for grease fires that may flare-up while cooking.

TO GIVE cauliflower a tang, try adding any of these: caraway seed,

## MAGGIE WEAVER

Services for Mrs. Maggie Emma Weaver, 90, longtime Littlefield resident who died at 12:30 a.m. Tuesday, June 25, in Littlefield Hospital following a lengthy illness, were conducted Wednesday afternoon in First Baptist Church of Littlefield.

Officiating was Rev. A. J. Kennemer, pastor.

Graveside rites will be at 3 p.m. today in Boulden Cemetery in Keller with Hammons Funeral Home of Littlefield in charge of arrangements.

Mrs. Weaver was a native of Keller and a member of the First Baptist Church. She had lived in Littlefield 48 years.

Survivors include four daughters, Mrs. Margie Underwood of Petersburg, Mrs. Sarah Tooley of Vernon, Mrs. Fannie Jefferies of Littlefield and Mrs. Virgie Blevins of Fort Worth; three sons, Jack of Littlefield, Bill of Amherst and J. T. of Waco; two sisters, Mrs. George Tooley of Littlefield and Mrs. T. C. Clement of Wellington; 20 grandchildren; 43 great-grandchildren; and three great-great-grandchildren. Grandsons will be pallbearers.

# THE ABUNDANT LIFE Neatness Needed

WE CAN BE OVERLY difficult to please, but we can also be too easily pleased. We can be sloppy and messy about our work; and about our manner of dress.

If we are wise, we will avoid both of these attitudes.

THE DESIRABLE CONDITION is very well described by the word "neatness" as it is used to mean "cleanliness, orderliness, and freedom from clutter, jumble, or raggedness".

NEATNESS IS NEEDED in a number of areas, in order for us to be our best and do our best. The encouraging aspect of this obvious need is in the fact that all of us can be successful in fulfilling it; if we want to do so. It does not involve anything elaborate, or complex, or expensive.

In our manner of dress, "neatness" must be our aim; because our manner of dress tells our fellowmen about us. It also affects our personal conduct. If we are thinking as we should, we will want to present our best self to others; and we will do all we can to make our behavior the best we can. Neatness in our manner of dress will help us accomplish both of these desirable purposes.

AS THE INDEX TELLS the contents of the book, and directs to the particular chapter, even so do the outward habit and garments, in man or woman, give us a taste of the spirit, and point to the internal quality of the soul; and there cannot be a more evident and gross manifestation of poor, degenerate, dung-hilly blood and breeding, than a

rude, unpolished, disordered outside." -Massinger.

WE KNOW THAT clean make the man, but there is sense in which one's appearance is part of what outward appearance has what we are, and also part. To our fellowmen, dress affects our general appearance is certainly includes the total grooming. Everything else being equal we dress and groom ourselves better we will behave on important accomplishments require or permit ostentatious such a show would be artfully defeating.

NEATNESS INCLUDES In its general aspects, neat order. There is great need "order" in our immediate in our work; in the management in relation to our obligations in the formation and our personal life pattern. "Order means light and liberty and free command self: order is power." - A

ORDERLINESS IS NOT stiffness, or rigidity; but it in which everything is in proper place, and each thing placed in its relation to thing. Neatness is needed for and for its benefit to every

# Turn Row COMMENTS

By EMIL M.

DURING THE EARLY Risers Lions meeting Tuesday, an individual asked me what my topics were for this edition's column.

I stated that I didn't know yet, so he asked if I would make a few comments about scouting in Littlefield.

I think that this is rather timely since a letter was published Sunday in the Leader-News from Henry Banks, and some of his comments toward young people and the lack of aggressiveness in the community.

Back to scouting. There are many boys and girls in scouting in Littlefield, and only a handful of volunteers workers who give a great deal of time and money to help make scouting more educational and enjoyable. Most do not know how much time is required of a scout leader, and how much money he has to take out of his own pocket for his troop, and in some instances, all the reward he gets from his volunteer work is a baby sitting job. In the case of younger people, scouting gives the parents a night out while their youngster goes to the meeting, because they know the scout

celery salt, dill, mace or tarragon.

STAGGERING STATISTICS—It's estimated that one in three Americans are overweight—that adds up to more than 70 million people.

The average homemaker with a family of five washes more than 48,000 dishes, glasses, silver ware, pots and pans in a year.

The longest sausage ever made exceeded 3,100 feet.

DID YOU KNOW that crisp apples help clean the teeth? (An apple a day helps keep the dentist away!)

CHICKEN is done when: (1) legs move readily when lifted or twisted; (2) bird is "fork tender," and (3) a meat thermometer inserted into the stuffing registers 165 degrees.

FOR A new-lasting breakfast, cook your youngsters' hot cereal with boiling water. Then cool it instantly and deliciously with a scoop of ice cream.

THANKS CORNBALL for contribution in your last column my age.

## Brown-Carter Vows Pledged At Vernon

Teresa Gail Brown of Vernon and William Lawrence Carter of Canyon exchanged double ring wedding vows Saturday evening, June 22, in the Texas Street United Methodist Church in Vernon.

Vows were pledged before a bank of greenery, backed by three cathedral candelabra and flanked by spiral candelabra entwined with greenery. Family pews were marked by candles and greenery.

Parents of the couple are Mr. and Mrs. Troy Brown of Vernon and Mr. and Mrs. H. A. Carter of Littlefield.

Officiating for the reading of the vows was Rev. M. W. Reynolds, pastor of Texas Street United Methodist Church in Vernon.

As Troy Brown presented his daughter for marriage, she wore a gown of candlelight bridal satin with scoop neckline and empire waistline adorned with heavy floral embroidered lace. The gown featured long sheer sleeves adorned with tiny satin-covered buttons and loops. The back of the dress featured 30 tiny covered buttons and loops and a chapel-length train. Her veil was of candlelight silk illusion with hand made tatting lace around the edge of the chapel-length veil which was gathered onto a pearl band. The dress was

designed by the bride and created by the maternal grandmother, Mrs. T. J. Cherry.

She carried a cascade bouquet of spring flowers in yellow, white and orange with a yellow cymbidium orchid nestled in the center amid lulle puffs and satin ribbon.

Cherry Brown of Vernon was her sister's maid of honor. Bridesmaids were Judy Marcom of Bovina and Mrs. Bill Duncan of Lubbock. They wore old-fashioned empire waisted yellow sheer flocked dotted gowns with floral flocked inserts on the bodices. They featured sheer sleeves, ruffled at the bottom and sashes of floral flocked material typing in back. They wore white picture hats with matching flocked floral bands, short white gloves and yellow velvet chokers with Cameo silhouette pins attached.

They carried nosegays of yellow and apricot pom poms with yellow satin streamers. Michael Carter of Lubbock was his brother's best man. Groomsmen were Alfred Sanderson of Vernon and Dennis Cowen of Littlefield.

Ushering the guests to their seats were Keith McGrew of Littlefield and Troy Brown of Vernon, brother of the bride. A cousin of the bride, Victoria Leigh Crisler of Lubbock, was flower girl.

Alexia Brown of Vernon, sister of the bride, lit the candles and read I Corinthians 13:4-8 from The Living Bible.

Pre-nuptial musical selections were "Speak Softly Love," "The Summer Knows," "Close To You," "Love Story," "A Time For Us," "First Time I Ever Saw Your Face," and "For All We Know."

A solo, "The Wedding Song" was sung by Mrs. John Caruscio of Vernon.

For her daughter's wedding, Mrs. Brown wore an emerald green lace knit sleeveless A-line floor-length gown featuring tailored collar and

covered buttons and loops down the bodice, with white accessories.

Mrs. Carter wore a pale ice blue gown fashioned with a bouffant skirt, a ruffled collar of darker shades of blue and blue accessories.

Both mothers wore corsages of white glamelias.

Following the ceremony, a reception was served in the fellowship hall of the church. Those assisting with the serving at the bride's table were Mrs. Junior Haynes of Stephenville, Mrs. Jimmy Dunn of Vernon, Mrs. Melvin Carter of Vernon, Mrs. Johnny Townsend of Vernon, Mrs. Ray Tamplin of Vernon and Mrs. Ruth Jackson of Vernon.

Centering the bride's table was the traditional three-tiered wedding cake, adorned with yellow roses and topped with a miniature bride and groom. Lemon bridal punch, nuts and mints were served with silver and crystal appointments. Yellow napkins with "Teresa and Larry" accented the floor-length white eyelet cloth on the table.

Assisting at the groom's table were Mrs. Keith McGrew of Littlefield and Mrs. W. E. Peterson of Vernon.

The groom's table was laid with a cocoa brown floor-length knit cloth, centered with a German chocolate layer cake. Brown and vanilla pottery and gold ware were used to serve the cake, nuts and coffee. Accenting the decorations was an owl glove candle.

Distributing the orange and yellow rice bags during the reception were Misses Kimerly Crisler and Lana Crisler of Lubbock, and Mary Etta Cherry of El Paso.

For their wedding trip, the new Mrs. Carter wore a yellow and white knit backless sun dress featuring a ruffled neckline, with a short white eyelet bolero with circular sleeves, white picture hat,

short white gloves, yellow sandals and the orchid lifted from her bridal bouquet.

They will reside at 2707 Sixth Avenue in Canyon.

The bride is to receive her BS degree in speech and hearing therapy from West Texas State University in August and will be teaching in

the Tulia School District next fall.

The groom is also a student at West Texas State University, where he is a

member of Sigma Nu Fraternity. He is presently employed as warehouse coordinator at Affiliated Foods, Inc. in Amarillo.

## Women Plan Festivities Days Events

Members of "We, The Women" met Tuesday noon to plan projects for Festivities Days, and to take care of other items of importance. Dee Davis read the minutes of the last meeting. Mrs. Head presented a gift from the president La Voyce in behalf of the organization in honor of her month-old daughter, Lyman, born April 22. There was a plaque, with a message to place the child's name.

Members voted to again conduct the annual art show, to operate a concession stand, and to sponsor the Flea market.

Members will again sell tickets for prizes for Festivities Days and will receive 10 percent commission on the sales.

Other projects mentioned included selling snow cones, sandwiches, and sponsor the selection of a merchant of the year and employe of the year. Carol Wallace, who has been named chairman of a float for

advertising Festivities Days, described the design to illustrate a Hawaiian theme, and asked for volunteers to help build the float. Current plans include its first appearance in the July 4 parade at Muleshoe.

Prizes for this year's Festivities Days will include a Hawaiian trip for two, a bicycle, four-coin commemorative set, and a half a beef.

DENISE BASSETT

## Denise Bassett's Poem Chosen For Publication

The poem reads:

**OMNIPOTENT GOD**

It is God who made us and the world; this I know. In God there's love and spirit and happiness. He will love us if we are willing to love Him. For God is more powerful than all the war weapons. From where our God came I do not know. But He knows all that we do and say.

The Book says we are created like Him. His kindness is shown by forgiving our sins. And God was perfect to create such a plan. He asks only that we worship and serve Him. We must always be faithful to the end.

Denise Bassett, 18-year-old daughter of Mr. and Mrs. H. A. Bassett of Littlefield, was notified that her poem, "Omnipotent God," has been chosen for publication in a series of national magazines. The notification came from Mr. Walsh, chairman of the American Poetry Society in Los Angeles, Calif. The poem was published in the bi-annual magazine of high school English instructor Hazel Ward.

# Kemp-Johnson Vows Exchanged June 8

with white accessories. They will reside in Lubbock where they will be attending school. The bride plans to attend nursing school.

MRS. DANNY JOHNSON

MR. AND MRS. W. T. JUNGMAN WILL BE HONORED WITH AN OPEN HOUSE Sunday, June 30, from 3 to 5 p.m. at their home at 318 E. 16th in Littlefield (instead of last Sunday as announced in the Sunday issue of the Leader-News). They will be celebrating their 60th Wedding Anniversary, and hosting the event will be their son and daughters. Friends and relatives are invited to attend. (Personal Photo)

Linda Jean Kemp of Littlefield and Danny Johnson of Shallowater exchanged double ring wedding vows Saturday night, June 8, in the Irvin Street First Baptist Church in Littlefield.

Officiating for the ceremony was Elder U. H. Jackson of Fort Worth, pastor of the Church of the Living God.

Parents of the couple are Mrs. Betty Jo Kemp of Littlefield and Mr. and Mrs. G. B. Johnson of Shallowater.

Vernell Kemp Jr. presented his sister for marriage. She wore a white satin-lined floor-length gown, with sheer train flowing from the headpiece, and edged in lace. The gown was fashioned with a high rounded neckline and sheer full sleeves.

She carried a bouquet of yellow and white roses.

Barbara Kemp of Littlefield was her sister's maid of honor. Bridesmaids were Brenda Simington of Littlefield; Gloria Johnson of Lubbock, sister of the groom; Janice Johnson of Littlefield, cousin of the bride; and Diane Kemp of Littlefield, sister of the bride.

Their gowns were of yellow and white dotted Swiss with short sleeves. They carried yellow and white bouquets made by Mrs. J. P. Brantley of Amherst, and wore white flip hats with yellow trim.

Cheryl Kemp of Littlefield, sister of the bride and Bridget Willard of Littlefield were flower girls and carried white baskets with yellow flowers.

Allen Mitchell of Muleshoe was best man. Serving as groomsmen were Jerry Kemp of Lubbock, brother of the bride; J. E. Johnson of Littlefield, cousin of the bride;

Leon Hodge of Littlefield; and Travis Danford of Lubbock. Randy Kemp, brother of the bride, was ring bearer.

Steve Coston of Littlefield, nephew of the groom, was candlelighter.

Traditional nuptial music was presented by Miss LaQuetta Simington and Miss Brenda Simington.

Solos were presented by Miss Joyce Douglas, "There's A Time For Us"; Roy Hayes, "Let It Be Me"; and "Theme From Romeo and Juliet", by Miss LaQuetta Simington who also played the "Wedding March".

"Something old" was the lace in her veil, which was made by Mrs. Minnie Johnson; "something new" was her dress; "something borrowed" a Bible; and "something blue" the traditional garter.

For her daughter's wedding, Mrs. Kemp wore a long yellow dress of flocked organza with yellow satin and white accessories, and a corsage of yellow and white roses.

Mrs. Johnson wore a long yellow double knit dress with lace sleeves, white accessories and a yellow and white corsage.

Beverly Kemp registered the guests in the bride's book and Teresa Kemp distributed the rice bags.

Following the ceremony, a reception was served in the church cafeteria. Serving the wedding cake and punch were Mrs. Opal McCarty, Mrs. Fannie Willard, Mrs. Mae France Coston, Mrs. Retha McCarty, Mrs. Bennett and Mrs. Barbara Simington.

For their wedding trip to Ruidoso, N.M., the bride wore a yellow two-piece pants suit

## Garden Club Makes Tour

one-half times as much rain fall on seeded days than corresponding non-seeding days.

He called the drouth gripping this area as self-perpetuating, adding that when it becomes dry it's inclined to stay dry. "Silver iodide can enhance precipitation," he said, "it will clean out the air."

When asked what happens when silver iodide is put in a small cloud of 3,500 feet with a base a mile wide he answered "absolutely nothing, dynamics are such that the temperature is too small to be an effective rain producer. If a cloud doesn't have strong updrafts, there is no need to seed. Without a strong updraft, it won't hail."

**DR. RAY BOOKER**  
A second defense witness Monday told Lyle that both extensive research and cloud seeding on his own led him to conclude that there is little chance West Texas hail suppression has decreased rainfall.

Dr. Ray Booker said he had personally logged 3,000 hours flying

and 3,000 penetrations of thunderstorms to study the effects of silver iodide and in conducting his own operational seeding programs similar to the South Plains programs.

Dr. Booker is president of Weather Science, Inc. and president elect of the Weather Modification Association. "In 1965 I was classed as a pessimist," Dr. Booker said, "even though I was a founder of the cloud seeding period. But by 1970 I was convinced many things could be done."

The Oklahoma scientist refuted earlier testimony concerning "over seeding," saying with a plane going two miles per minute you can't overseed in the length of time it takes to make a seeding flight.

When questioned on what effects there is from silver iodide if it isn't all taken up in the updraft, Dr. Booker said the fall velocity was of no consequence. "You'd have to drink 130 gallons of rainwater from seeded clouds to get as much iodide as you get from the salt you put on your egg in the morning," he said.

"And there is 100 times on Baggies than you could the silver content."

Dr. Booker turned the attorney Bill Browder examination, "Do you mean that these farmers who don't know what they are about?" Browder asked.

"I'm a farmer, and I drouth is like and the process," Dr. Booker said.

When asked if he'd seeded a cloud and bro Dr. Booker replied, "You mere man can turn around that's 10 miles sucking in 10 cubic miles a minute? A mere man around a cloud like that who can do that sits on hand side of God!"

(This concludes testimony through the first three of last two days proceeding detailed in the Sunday News.)

### PIONEER LIVING

**Continued from Page 2**  
to the north of us.

The busses were transportation, and that's about all that could be said for them. Comfort hadn't even been thought of. There were model T's, then the Model A, a few four-banger Chevrolets, Dodges, and one or two of the Brand X variety.

**OF COURSE THE** make or model made little difference, they all had one, or two things in common. First you could bet the ride would be rough, and second, you were never sure whether you'd make your destination on schedule. The air conditioning was great in the summer, but the heating was lousy in the winter.

The chassis was owned by the fellow who was successful in getting the bid for running the route. Could be any Tom, Dick, or Harry, from year to year. He bought the truck and the school rented him the chicken coop to put on it. Your driver might be a school kid himself, or it might be a grandpop that was well "Set" in his ways.

**THE FIRST BODIES** were of all wood construction with a couple of benches down the sides. They did have a top on them, complete with hail wire just above seat level to the top, and black side and back curtains that could be rolled up or down. The improved model was a little wider, with the middle bench added to accommodate more kids. The side-boards were built a little higher, and the hail wire omitted.

At the first of school the benches were padded and covered. The padding, however, was pretty short lived. Some brats were always at a loss as to what to cut and whittle on, and the seats suffered a great bit as a result. At first the drivers made an effort to have recovered, but finally decided they wanted to cut the pads off, they preferred to ride on the boards that did.

**JUST ATTENDING** the construction was an education in itself. We mix and mingle with the city. They soon learned that just a guy wore a blue denim shirt and overalls, and split-leather shoes necessarily mean that his fist carry the wallop of a mule. On hand, we learned that the guy those fancy knickers, shiny white shirt, and a necktie was testimony that he was a sissy.

The novelty of the situation, each grade had its own teacher. They even swapped different subjects. Too bad we were more attention!

**EARLY HOME** of the Edward N. Ray family, 11 miles southwest of Sudan. The house was built in the early winter of 1924. It served as home for husband, wife, and seven youngsters, when the picture was taken. Eighth child was born later. Two modes of transportation are seen. You might guess as to which was most dependable. Note smoke from wood-burning cookstove, in center of picture. (Picture made by Mrs. Cornball, 1928)

### "Getting Along"

**SOONER OR LATER**, a man, if he is wise, discovers that life is a mixture of good days and bad, victory and defeat, give and take.

He learns that it doesn't pay to be a sensitive soul—that he should let some things go over his head like water off a duck's back.

He learns that he who loses his temper usually loses. He learns that all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's grouch too seriously.

He learns that carrying a chip on his shoulder is the easiest way to get into a fight. He warns that the quickest way to become unpopular is to carry tales and gossip about others.

He learns that most people are human and that it doesn't do any harm to smile and say "good morning" even if it is raining. He learns that most of the other fellows are as ambitious as he is, that they have brains that are as good or better, and that hard work and not cleverness, is the secret of success.

He learns that it doesn't matter so much who gets the credit so long as the business shows a profit. He comes to realize that the business could run along perfectly without him.

He learns to sympathize with the youngsters coming into the business, because he remembers how bewildered he was when he first started out. He learns not to worry when he does not make a hit EVERY time, because experience has shown if he always gives his best, his average will break pretty well.

He learns that no man ever got to first base alone and that it is only through co-operative effort that we move on to better things. He learns that the fellows are not any harder to get along with in one place than another, and that "getting along" depends about 99 per cent on himself.

# Pioneers Top Pee Wee League

After two and a half weeks of Pee Wee League play, the Pioneers sit atop the standings with a perfect 5-0 record. The Chiefs are 1 1/2 games back with a 3-1-1 mark, the Tigers are at 2-2-1, the Lions are 1-4, and the Roadrunners bring up the rear with an 0-4 ledger.  
 Two make-up games were played Thursday, with the Tigers edging the Lions 12-11 and the Chiefs smothering the Roadrunners 17-4.  
 The Lions rallied for six runs in the last inning to move ahead of the Tigers 11-9. But the Tigers fought back for three runs in their last bat and won the game. Ronnie Guthrie paced the winners with a pair of homers. David Tunnell and Troy Martindale added homers, and Bruce Kidd was the winning hurler.  
 Heath Reynolds, Mike Pierce and Rudy Mendez had two hits apiece for the losers. Rene Mendez pitched.

Scott McAnally held the Roadrunners to only four hits in the Chiefs victory. Brian Pace and Steve Coston crashed two homers apiece and scored three runs each to lead the Chief firepower. McAnally, Billy Savala and John Lee also scored three runs.  
 Sheldon Macha, Vernon Williams, Raymond Verga, Douglas Williams, and Douglas Gilbert were the top Roadrunners, and Randy Contreras took the pitching loss.  
 The Chiefs came back on Friday to make it two in a row with a 15-5 swamping of the Tigers. Billy Savala was the winning hurler. Brian Pace had two singles and a double, John Lee a triple, and Steve Coston a double.  
 Troy Martindale and Ronnie Guthrie had triples and singles for the Tigers.  
 The Pioneers had to score six runs in the last inning Friday to beat the hard-playing Lions 11-9. The Lions bounced to a quick 7-3 lead after two innings, but couldn't

# Sheriff's Posse To Participate In Celebration

The Lamb County Sheriff's Posse will leave from the Crescent House Restaurant at 12 noon Saturday, June 29, to travel to Canyon to participate in the Canyon Days Celebration.  
 The Posse will ride in the parade at 5 p.m. and compete with about a dozen riding clubs from Texas, New Mexico and Oklahoma for

trophies. West Texas State University President Floyd Watkins will be parade marshal.  
 The Annual Canyon Days Celebration features a parade, a barbecue and the annual world championship Pony Express Races. Teams from Texas and Oklahoma will vie for the title beginning Friday night at 8 p.m. and continuing

Saturday at 8 p.m.  
 Anyone interested in the activities of the Lamb County Sheriff's Posse is invited to go to Canyon with the group. For more information call President Mark Suitt, 299-4181.  
 The Posse is also hosting an open trail ride Sunday, June 30, at Bull Lake at 2 p.m. All area riders are invited to bring their picnic lunch and come ride. Trail Boss Kenneth Overland will lead the group over 5,000 acres around the lake.

# Lions Drop WOW

The Lions rallied behind the grand-slam homer of David Duenes and the three-hit pitching of Stevie Jackson Friday to wallop WOW 11-2 in a major league game.  
 WOW, the major league leaders for the past four weeks, lost only their third game of the season. But with only two games left, the Woodmen have the championship cinched.  
 Marty Drake slugged a solo homer for the Lions and Jackson cracked a single.  
 Joe Rodriguez paced the Woodmen with a solo shot and a triple. George Brockington singled and Randy Healy took the loss.  
 In another major league outing, Rotary clubbed Pay & Save 8-5 Monday.  
 David Guajardo popped two hits for the winners, followed by Ruben Torres, Robert Flores, Jerry Hernandez, Rudy Rangel and Bobby Guajardo with one single each. Torres handled the pitching.  
 Alvin Contreras drilled a single and a double for the losers. James Johnson had a pair of singles, and Pitcher Kerry Rainbolt and Todd Upton picked up singles.  
 In a high-scoring shootout, Leader-News outlasted VFW 19-17 Friday in a minor league game.

Both teams scored in every inning, and the Veterans got all their runs without producing a single hit. David Brady was the winning hurler. Steve Vargas slapped two doubles, Alex Burnett had a double and a single, Freddy Sierra doubled and Scott Lewis singled.  
 Joshua Rangel pitched for the losers.  
 Monday, Steve Wallace, Larry Wormley and Buddy Collins combined their pitching talents to no-hit Security State and lead Carlisle-Oldham to an 8-4 victory.  
 Joe Martinez hammered out a double and a single to lead the winners. Henry Huey added two singles, and Keith Collins, Steve Adair and Sammy Rangel singled.  
 Pat Torres pitched for the Bankers.

## We call it Monro-Matic<sup>®</sup> because it adjusts automatically!

Monro-Matic, from the world's No. 1 selling name in shock absorbers—Monroe. Guaranteed for life.

Monro-Matic is our most popular replacement shock absorber for two good reasons. First of all, because it adjusts automatically to all road or load conditions. Its six valve stages automatically adjust the flow of fluid to make the ride stable and smooth. And, the Monro-Matic is guaranteed for as long as you own the car. You can bring your Monro-Matics back any time for replacement, no matter how many miles you've driven on them. Installation extra.

So if your car has over 20,000 miles on it, better check the shocks. See us. We'll check them free and if shocks are needed, we'll install Monroe, the number one selling line of shock absorbers.
