THIRD ARRESTED AFTER COURTROOM TESTIMONY

STEVE JACKSON is a first class scout on his way to becoming a first class man, according to the highway patrolman who passed him on his safety merit badge. Steve watches Bill Angel fill out the form that shows he has completed his merit badge requirements.

BOY SCOUT IMPRESSES OFFICER

Country In Good Hands

MILAH RODGERS

What are little boys made of? Steve Jackson is made of more than numbers and nails and puppy dog tails. He is 13 years old, but he already has the makings of a man.

Steve got his boy scout safety merit badge last week, and his counselor, Highway Patrolman Bill Angel, found the boy filled with admirable qualities.

"I'd never met the little lad before," Angel said. "But if our country rests in the hands of people like him, then we're still in pretty good shape. He was courteous, so polite, and bright. Some boys try to make me think they know things they don't. But Steve knew the answers and he wanted me to know he knew."

When I asked him what he'd do if he found a child who had been poisoned, his eyes lit up. He knew the exact procedure.

Boy scouts are on their own when it comes to earning merit badges. Scout leaders find counselors who are interested in the fields the boys are earning their badges in, but the boys work the badges on their own. Patrolman Angel has counseled boy scouts and given them safety merit badge tests for the past two years.

One of the 10 requirements for the badge is that scouts watch drivers and pedestrians near a traffic intersection for three days. Steve and a friend, Felix Klein, spent two afternoons watching for traffic violations and unsafe practices from the second floor of the courthouse.

During the three hours they watched, they saw more than 450 violations. Three drivers and four didn't use signal lights, 48 jay-walked, 48 ran stop signs, 48 jay-walked, 48 drove on the wrong side of the road and 48 drove in the outside deposits at the courthouse.

THREE JAILED FRIDAY NIGHT

Littlefield police arrested five persons Friday night. Three men were jailed and charged with public disturbance, and two women were charged with disturbance by night.

One of the men was released after he paid his fine, and the others were still in jail at presstime, pending payment of their fines.

One of the women paid her fine and was released, and the other was still in jail at presstime, pending payment of her fine.

In district court here Thursday, a 27-year-old Negro man and his 29-year-old white wife who were charged with the May robbery of the Littlefield Furr's Supermarket were found guilty and sentenced to 20 years in the state penitentiary.

A third suspect in the armed robbery, Clarence Tedward Johnson, 25, was positively identified in the courtroom when he appeared to testify, and Johnson was arrested outside the courtroom and placed in the Lamb County jail.

The 12-member jury found Vernice Richard McWilliams and Betty Davis McWilliams guilty of robbing the Littlefield Furr's on May 10, 1971, after forcing store manager Walter Brinson to open the safe at gunpoint. Mrs. Brinson and the Brinson's two children were held hostage while the robbery was in process.

Mrs. Brinson positively identified Johnson as the third party in the armed robbery when Johnson appeared to testify for McWilliams. Johnson was arrested outside the courtroom Wednesday after Mrs. Brinson testified under oath that he was the third person involved in the robbery.

Mrs. Brinson first identified Johnson Monday when he came into the courtroom to be sworn in as a witness for the defense before the trial started. Mrs. Brinson told the district attorney on the first day of the trial proceedings that Johnson was the other Negro man involved in the robbery.

Mrs. Brinson testified Johnson was not masked, and that he was the man who

stayed at the Brinson house while Brinson was forced to accompany the masked bandit to the store to open the store safe.

Johnson was charged as the third robbery suspect at the same time the McWilliams were charged, but he was not indicted by the grand jury. Mrs. Brinson did not testify before the grand jury that returned the indictments. The Brinson's nine-year-old daughter, Shellie, who had previously identified Johnson in a lineup in Lubbock, did not appear before the grand jury either.

Johnson remains in the county jail with bond set at \$10,000.

Testimony in the robbery by firearms trial began Monday, and the jury returned its guilty verdict Thursday.

Jurors were V. J. Hobrathschk, Sandra Daniel, Kenneth Lynn, Mrs. Benny Bickel, Wallace C. Matthews, Mrs. Donald J. Bryant, Elmer McGill, Irene Reyes, Leon George, John Aduddell, Elvie O. Feagley and Lillian Hamilton. McGill was foreman.

Trustees Meet Here Tuesday

Littlefield school trustees will meet in regular session Tuesday at 7:30 p.m. at the school tax office.

New business on the agenda calls for an order for the annual trustee election and a report from Supt. Paul I. Jones on the administrators' conference he attended in Austin.

To be taken up again are the matters of an irrigation project for the practice field north of the primary school and coaches' salaries.

Other items on the agenda are the approval of minutes of the December meeting, and a financial statement for the month of December and the year to date.

The school trustee election will be called for the first Saturday in April. Terms of three board members, President Wayne Streety, Bob Roden and Werner Birkelbach, are expiring.

Police Probe Two Break-Ins

City police are investigating a case of breaking and entering, and a house burglary, which were reported Wednesday and Thursday.

Taken from Byers Grain and Feed sometime Tuesday night or Wednesday morning were a portable 17-inch black and white GE television set, a portable blue radio which was made in Korea, a 3/8-inch electric drill, a Skill electric saw, and a cigar box with small sockets and wrenches.

Entry was gained to the building by going through the rear door, after a stick was used to release a pen from the door. A windshield and right side window were broken from a 1952 grain truck.

A resident who lives on the Lubbock highway reported early Friday that someone had entered his residence through the back door, took \$200 in \$20 bills from a cigar box in the kitchen cabinet, went through the rest of the house pulling drawers open and searching, took \$15 in cash out of a purse in the kitchen, and went to a beauty shop nearby and took \$65 in bills from a gray cash box.

Police officers located the cigar box and cash box in the garage, with the cash removed. They also reported that the house was left unlocked.

Former Olton Resident Makes Dolls For Needy

By MRS. TOM STANSELL SPRINGLAKE -- Although forced to remain in bed most of the time, because of a bone disease, Mrs. Floyd Malone of Pottsboro, former Olton resident, cleaned, repaired and dressed some 130 dolls for the Goodfellow baskets to be distributed in Denison and to needy families by the Pottsboro Church of Christ during the Christmas season.

Mrs. Malone is the former Miss Jackie Tubb, daughter of Mr. and Mrs. W. B. Tubb of Olton.

Mrs. Malone stated "it helped me to have something to do and gave me a feeling of spending time in a worthwhile effort."

Her 7-year-old daughter, Darla, wanted each doll for

herself when the first ten or 15 were ready for delivery; then she became enthusiastic over helping other children and gave five of her own dolls to be used in the project.

Neighbors and friends supplied materials, lace, buttons, thread and needles. She said one special boy doll was the most difficult to repair, but the hair on some of the girl dolls gave her trouble.

Mrs. Malone has other hobbies to fill her hours. She makes driftwood and fantasy flower arrangements. She said "when I first began the fantasy flower arrangements, I carefully chose containers, but, later I found that could be expensive, so, I learned to combine the driftwood pieces and the fantasy flowers into a wide variety of effects."

THE ABUNDANT LIFE

Be Reasonable

By BOB WEAR

MUCH OF HUMAN MISERY, conflict and loss could be eliminated if all of us would be reasonable in our conclusions and actions.

We are being reasonable when we have the faculty of reason and use it.

WE CAN DEVELOP the power of comprehending, inferring and thinking in orderly, rational ways. This is our great need, individually and collectively.

The more irrational we are, the more trouble and loss for us. In our personal choices and actions, and in our interactions with others; we must be controlled by reason and understanding.

"REASON IS the director of man's will, discovering in action what is good, for the laws of well-doing are the dictates of reason." -Hooker.

Unfortunately, some hold the faulty view that "reason" and "revelation" are in conflict. Misconceptions of one or the other, or of both make them appear to be antagonistic; but the true view of "reason" and "revelation" is crowned with beautiful harmony.

REASONABLENESS REQUIRES US to be moderate, fair and rational; and demands "good judgment."

Unreasonableness probably does as much to undermine human well-being as any one other undesirable characteristic. It may be the greatest offender of all. Be that as it may, we cannot afford it and its devastating consequences.

WE ARE BEING reasonable when we are being sensible; when we use sound judgment; when we are careful not to be excessive or extreme; and when we maintain the proper balance between the ideal and the actual.

Of course, we will fall short of perfection; but we can develop our ability to be reasonable. This should be, and can be a progressively rewarding endeavor.

WE ARE SEEING many sad and tragic happenings which would never occur if people were being reasonable.

These will not decrease unless all of us can decide that reason must be restored, and then work diligently to "be reasonable" and encourage each other to be reasonable.

THIS RULE of thought and action has so much that is good and helpful to offer; and it will produce fruit after its kind, and so it grows.

We must "be reasonable" in personal expectations, plans and actions. We must "be reasonable" in our expectations of others; in our views of them; and in our response to them.

We must also be reasonable in all of our attitudes; in attitudes toward realization and toward disappointment; toward the desirable and toward the undesirable; toward our duties, and toward our privileges; and we must be reasonable as a general response to life.

REASONABLENESS PRODUCES happiness and harmony, and supports the balance and stability which are so very essential to abundant living.

"Do you have something in a nice mud color?"

DEAR EDITOR

What Our Readers Think

Nice Young People

Dear Editor

Find enclosed a \$ 5.00 check and 3 one dollar bills to renew my subscription.

I used to live at Anton and have written to the paper a few times.

I like the paper just fine and let me say I think Littlefield has quite a nice group of young people.

I have never seen a picture of any of the young men that look a bit like a hippie.

Oh, I love young people and pray for them daily that the ones that are not Christians will realize they need Jesus in their lives more than anything else.

What has become of Mrs. Pearl Brandon, also Paul Harvey. Do we now just have Hominy Grits, or Cornball Blevins (Ha Ha).

I always read the Editorial Page, but I have really missed the woman's view and Paul Harvey, but do still enjoy Hominy Grits.

I am for our President. I think he is

doing all he can to stop this war. But I am not for him to really set a date to get the boys home, as if he did, then I believe that the Communists would come in and take all the little nations and try to take America.

I pray daily for our President and all of our Government leaders.

Oh that people would trust God more.

For me, the way things are shaping up the end of time is nearer than we think.

I am hoping the nursing homes have a good year.

I love old people too. I am old myself—just 84 and I am able to live alone and take care of myself for which I am very thankful to the good Lord.

Hi friends at Anton.

JET-AGE SEWING

Sleeves

By FRANCES JONES

Preparation

A READER has requested help with sleeve making.

Most problems occur with the regular set-in sleeve, and the big problem is that about 5 inches of ease must be worked into the sleeve side of the seam without a single pleat.

Also, the problem is complicated because a concave circle (the armhole) and a convex circle (the sleeve cap) must be made to fit together.

Observe full 5/8 inch seam allowances and you will have less trouble. The places where most of the ease must be added are bias and this makes the job easier.

If sleeves give you problems you may have been skipping several steps in preparation, thinking that you will save time. Try concentrating more on preparation.

SEW AN EASELINE (longest machine stitches) across the sleeve cap. Begin below the notches where the edge becomes bias and sew ON THE SEAMLINE all the way to the other side.

If you desire, sew a second easeline 1/4 inch over toward the edge. Do this while the sleeve is opened flat. Figure A.

Grasp the ends of the threads and draw the cloth up 2 to 3 inches on each side. Avoid patches of fullness by distributing the cloth evenly. Place a little ease in the very top of the cap and distribute the remaining fullness along the sides. There is scarcely any ease at the lower armhole.

NOW USE THE iron to set the ease and flatten it. Use the steam iron or a damp cloth and you will get better results, but take care not to get the cloth wet.

Hold the sleeve cap over the rounded end of an ironing board (or a sleeve board) and press with the point or side of the iron. Press directly on the easeline and use your fingers to shift the cloth and distribute the ease.

Do not worry for fear you are putting in too much ease as long as no pleats show because any excess can be slipped out when you put the sleeve into the armhole. You will find that loose weaves, woolsens, and knits will take the ease better than firm cloth or tight weaves with a high thread count. Figure B.

IN FITTING the garment have you altered any seam that leads into the armhole? If you have taken the garment

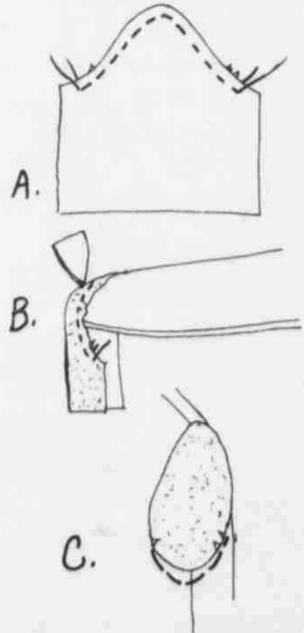

up under the arm it will reduce the size of the armhole and the sleeve will be too large.

Trim the armhole back to original size, but cut ONLY directly under the arm. Never trim the armhole all around. Figure C. The pattern may be used as a guide. If the garment has been let out under the arms, take a smaller seam in the sleeve seam that runs down the arm.

The only trimming along the sides and top of the armhole should be only that which is needed to make the armhole seam run along the crest of the shoulder. Make a chalk line along the crown of the shoulder in the last garment fitting before the sleeve is put in. This should be the seamline when the sleeve is sewed in.

ALSO, DUE to posture or other figure problems it may be wise to baste the sleeve in the armhole and have a special fitting to see if it hangs correctly.

The cap can be shifted forward or backward as needed so the sleeve hangs straight down with no slanting wrinkles.

GUESS YOU SAW the account in our suburban rag, where the makers of Bayer aspirin are bein' sued for makin' supposedly false claims in their advertisin'.

IF IT'S PROVEN that it's against the law to lie, then, a lot of us are gonna be in trouble? Besides, it'll ruin the advertisin' business.

WHY, I wouldn't buy ANYTHING that wasn't the BEST! And, BELIEVE ME, I've got the word of the advertiser, and the manufacturer to prove it!

AND ANOTHER THING—What man hasn't got the BEST family in the world? The best wife, the best kids, the best ancestors, the best pets, and, the best grandkids!

WHY I must have been 12 years old before there was a man alive that could whip my pop!—My dog could whip your dog, my horse could outrun your horse, and my cow would produce the most milk!

NOW THIS GUY Toomey is out to prove that you're in danger of a law suit if you claim that your product is the BEST!

So, I suppose, Bayer's next ad will be sayin' "Sure, we know that many of the cheaper products are just as good as ours, but we need to make a greater profit. AND, we've got to pay our advertisers.—Really, we just live a little higher on the hog than our competitors, therefore, it's necessary that our margin of profit be higher!"

TRUTH IN ADVERTISIN' just HAS to be for the birds!—Why, think of what it'll do to our politicians! If it should come to the point that those guys have to tell the truth, the greatest show on earth will be spoiled!

Can't you hear it now? "Ladies and gentlemen, I want your vote in the

PHILOSOPHER

Dangerous?

(Editor's note: The Sandhills Philosopher on his Johnson grass farm probably is unnecessarily disturbed over something he read, his letter this week indicates.)

Dear editor:

According to an article I read during one of the half-times last weekend, when Congress gets back into session shortly the only woman in the United States Senate is going to propose a Constitutional amendment requiring members of Congress to be on hand oftener.

Absenteeism, she said, is the Senate's greatest disgrace and she is going to introduce a Constitutional amendment providing for the automatic expulsion of any Senator or House member not present for at least 60 per cent of the roll call votes in any session.

This is dangerous legislation and I hope the absent Senators and Congressmen will show up long enough to vote against it.

You require a Senator or a Congressman to work 60 per cent of the time and the first thing you know some Washington bureaucrat will get the notion the rule ought to apply to everybody.

I don't want anybody coming out here to my place telling me if I don't work 60 per cent of the time I'll be expelled. I can't imagine Congress declaring it's

upcoming election. I really don't even to work, but I understand the pretty good.

"And, another thing, I have an opportunity to sell my votes to the bidders to protect their interests in lawmaking. Add to this, the need to buy and sell stocks at fast profits, and the office does have points.—And, the FRINGE aren't bad, either!

"NOW, TAKE OL' honest opponent! He'd make you a good He has no better sense than to put his fingers to the bone, serving you, just doesn't have the imagination the office pay off to his best advantage.

"So, in closing, I'd like to say to your vote. It's the best way I know of to work, while pavin' my way to street!—(If I get around to it, I'll way to pad YOUR pockets, a greater also.)"

NOPE! You can see that if we should know that the listening to, is sworn to tell the truth, take all the challenge out of the want the fun of judging for ourselves.

Thus, when we're watchin' the have the opportunity of givin' the ol' ha-ha! Whether it's shavin' razor-blades, the scrambled to get a car in the bay in order to shavin'.

'SA FACT!—If we were called believe all we hear we'd be candidates for the nut house!

We're wise to you Mr. Toomey, you're only seekin' publicity, a little pocket change. May your razor blades, marry each other, kind of protection takes all the adventure out of livin'!

After all, you guys don't have on all the horse sense!

unconstitutional to loaf. Personally I always work more per cent of the time, but I work a definition of the word, not some Senator's.

I don't know what Senators Congressmen do while they're gone per cent of the time, outside of ramblin' around. President, but they've been on hand enough now to pass more laws than we can obey.

Work is something I don't want coming around to tell me what I can do you can straighten out the grammar want to. Mayor Lindsay of New York knows what I'm talking about. Florida last week announcing he's for President and will campaign all over the country, and when asked what his job as major, he said, "I'm in New York 24 hours a day, seven days a week."

Those are my sentiments exactly this place 24 hours a day seven days a week and it'd scare me to death if some woman Senator come out to pick my notion of work to pieces fine-tooth comb. I admire Margaret Chase Smith of Maine because time she's gone too far.

\$290 Per Capita Used To Run Local Government

With state and local taxes on the rise in all parts of the country, to what extent are Lamb County residents affected?

Are they paying more or less than people in other communities for local government services?

According to the latest figures, they and everyone else are having to dig much deeper than before to meet the increased cost of such services.

For Americans as a whole, the cost of state and local government operations averaged \$427 per capita in the past fiscal year, an increase of \$47 over the prior year.

For residents of Lamb County, the tax load was approximately \$290 per capita. Elsewhere in the State of Texas, it was \$316, or \$40 more than the year before. It was \$301 throughout the West South Central States.

The findings are based upon state-by-state breakdowns of Commerce Department data. They were made by the Tax Foundation and by the Commerce Clearing House, authorities on government finances.

Their figures show that it takes much more than in previous years to operate the various state, county and municipal governments and provide people with adequate police protection, education, sanitation, health, roads and other needs.

In 32 of the 50 states the tax load has more than doubled in the past ten years and has become much heavier in some areas than in others. The range at present is from a low of \$252 per capita in Arkansas to a high of \$652 in New York State.

The high rates in certain sections of the country are attributed to special local conditions, such as unusually large welfare costs, housing problems and the like.

In addition, because of inflation, the cost of supplies, equipment and labor has been

mounting rapidly, forcing governments to look for new revenue to keep solvent.

In all, taxes in the amount of \$80 billion were collected by state and governments in the year, a whopping billion more than in the previous year.

In Lamb County they reached an estimated total of \$4,988,000.

HIS MEMOIR

His day of birth—the first day of the rest of his life. The first day of his biography, his memoir. And what kind of story will he be able to write when he is old and the flame of life has become a dying ember? Will he tell of happiness or grief, of success or failure? Will he bear witness to love or hatred, to war or peace? Will he mention faith or futility?

His memoir depends on his life and his life depends on you. What will you teach him? How will you influence him? He's your child. He's your responsibility. Start him out right by starting him out with the Book of Life. Proverbs 22:6 says, "Train up a child in the way he should go: and when he is old, he will not depart from it."

A good start insures a good finish, and what better memoir could he have than one that says, "It was good."

Beef Promotions Planning Gains

Texas, already number one in the nation in exports of beef cattle, will show further gains in the coming years due to several programs being promoted by the Texas Department of Agriculture.

Texas Agriculture Commissioner John C. White outlined these projects now being conducted by TDA to expand cattle exports:

1. Personal contacts by TDA personnel in lining up buyers and sellers of cattle for foreign purchases.
2. New export handling facilities to be built at a half dozen locations in the state.
3. A tour of Mexican government officials under auspices of TDA personnel to the Houston, Sulphur Springs, Panhandle and San Antonio areas of the state Jan. 12 to 14.

Recently, about 200 head of dairy cattle were shipped from Central Texas to Mexico as a result of TDA personnel contacting Mexican buyers and getting them in touch with Texas' producers. Included in the shipment are Holstein and Jersey dairy cattle.

The cattle were shipped from the Evans Reese Auction Service barns near Waco. "It is cooperation such as this through the private trade channels and through the Texas Department of Agriculture programs that give us a sound basis for further expansion of livestock exports to foreign countries," White said.

"We hear a lot about imports of the exotic breeds to this country, but our cattle, too, are in much demand by foreign countries for upgrading their herds," White explained.

The Texas livestock export business amounted to more than \$12.5 million in 1970.

The Texas Legislature appropriated about \$750,000 for construction of the new export facilities. Present shipping pens have been condemned.

Specifications for new facilities will be located at the Houston International Airport and will be the largest of the proposed facilities.

"The new Texas facilities will be unequalled anywhere in the United States and far exceed minimum standards set by U. S. Department of Agriculture and Mexican authorities," White said.

Blevins Encouraged Despite Cat Losses

Littlefield cagers dropped their 17th in a row here Tuesday night, but Dee Blevins was "prouder than his embattled Wildcats." "The kids showed me a will to win, they came back and they felt they could win when they were down by 10 and 12," Blevins said.

9th Slap Friona, 7th Falls

Littlefield eighth and ninth graders won Friona, and the seventh grade lost Tuesday night. The eighth grade "A" team pulled a 35-point lead in the final quarter after being down in the first three. Ricky Hopping hit 11, Turner, 9, John Batza, 4, David Williams, 3, and Mike Williams, 1. Littlefield's ninth was behind five points at the end of the first quarter and in debt by six at the end of the second quarter after committing a series of errors. Then the local boys poured in 24 in the last stanza to slap Friona 60-30. McCain flipped in 22 points, Ricky Hopping, 10, and Benny Williams and Connie Harlan added 9 each. fallen, the Wildcats would have gained an overtime. As it was, they gave Abernathy all the Antelopes wanted.

Lots of juniors spotted the Littlefield line-up as Coach Blevins put the emphasis on building for next year. Randy Dayton, one of four starting juniors, led the attack with 19 points and J.E. Johnson a junior chipped in 13. Seniors Mike Carter and Jay Trammell joined another junior, Larry Hobratchsk, with 7 points each. Ken Albert, also a junior, tallied 6 and Junior Alan Mackey hit for 2.

The Wildcats came from a 33-25 halftime deficit to tie up the game early in fourth quarter, only to drop back 12 points before putting on a furious finish that brought the Cats within two.

"The boys did a good job on the boards, and we had less turnovers than previous games, even though they kept the press on us most of the time," Coach Blevins said.

Kent Snodgrass led the Abernathy scoring with 23 points.

In the earlier Junior Varsity contest, Littlefield dropped a 61-51 game after six straight victories.

The Wildcats, now 8-3, held a halftime lead at 29-27, but lost two boys on fouls and another went out after a tie ball fracas in a tension-filled second half.

Terry Bryson led the Littlefield scoring with 15, while Chris Pope had 12. Kelly Pratt with 9, Randy Cook with 8 and Gary Brown with 5 balanced the attack. Danny Cushion hit for 2.

Both the varsity and JV, along with the JV girls, will be in action at Dimmitt Tuesday night.

Littlefield will host a JV-Freshman tourney next weekend.

Thursday morning, a 1968 Fiat, driven by Leslie Wayne Tomme of Littlefield, and a 1967 Chrysler, driven by Ama Ward Bryce of Littlefield, were both traveling eastward on West Delano.

According to the investigating officer's report, the Chrysler was in the left lane and made a right turn across the right lane, and the Fiat hit the Chrysler in the right rear door with the left front fender.
