## City Clean-Up Continues

The current Littlefield clean-up campaign is moving, and work in the project is beginning to show throughout the city.

The Community Improvement Committee met Wednesday morning to hear reports on progress being made, and to discuss future plans for the campaign.

The Committee is sponsoring a community-wide breakfast Tuesday morning, June 6, at 6:30 in the Community Center. The breakfast will feature a colored slide presentation and informative speeches on purposes of the project.

Methodist women will cook, and tickets may be purchased from any member of the steering committee or the co-chairmen at \$1.25 each. Steering committee members are Bettye Smith, James Lee, Pat Bradley, Bob Wear, Judge G.T. Sides and Elouise Cox. Co-chairmen of the committee are Pat Downs and Bill Armistead.

During the Wednesday morning meeting, members discussed designating one day in Littlefield as a special clean-up day, when volunteer

trucks would be available to help city crews haul debris to the dump grounds, after citizens make an all-out effort to clean up their property and stack it in convenient containers or piles to be picked up.

Committee members are looking into acquiring large plastic bags in which citizens may place hard-to-handle and small objects.

Another major project which was submitted to the committee for discussion was the improvement of school grounds. Brenda Wilkinson presented a plan for over-all work that needs to be done on the Primary,

Elementary and Junior High grounds.

Committee members agreed that plans should be continued, but that a concentrated effort near the Primary building should begin as soon as school is out. Work there will include the filling in of a low area just north of the Primary building, where first graders and kindergarten children play. The area catches rain and is rocky.

Plans call for placement of a 50' x 150' concrete slab where new play equipment will be installed.

Plans for other areas throughout the campus call for marked concreted play areas, and some landscaping to improve the appearance.

## Boy Scout Fund Drive Solicits Annual Support

More than 25 enrollers have been enlisted by Pat Bradley, city manager of Littlefield, who has taken on the direction of the city drive for Boy Scouts.

Bradley says he will have at least 50 more enrollers at work throughout the city as the annual drive for funds for the George White District gets underway.

The district, composed of four counties, Lamb, Hockley, Bailey, and Cochran, has a goal of \$21,900 which will include sustaining membership enrollments and funds from United Funds in cities where such a fund operates.

The quota for the operation of Boy Scouts is \$20 per boy per year, according to Marc S. Wittenberg, district scout executive of Levelland, who met with Littlefield workers Tuesday at 7 a.m. at the Pioneer Natural Gas Flame Room for a kick-off coffee.

Muleshoe is the only city which has already met its goal of \$3,200, reached May 16, with the inclusion of \$2,500 from the United Fund and \$700 raised through sustaining memberships.

Other chairmen are Amherst, Joe Miller; Sudan, Marvin Tollett; Earth, Bill Scott; Levelland, Ernest Taggart;

Morton, Roy McClung, and Whiteface, Sam Rankin.

Quotas have been divided as follows: Amherst (20 scouts) \$400; Earth (63) \$1,000; Levelland (205) \$7,300 from the United Fund, and \$3,500 in memberships, total \$10,800.

Morton's goal with 83 scouts is \$1,200; Sudan (37) \$700; Whiteface (26) \$300; Springlake \$300; Littlefield (215) \$4,000.

The Levelland figure represents the entire county's goal and the Muleshoe figure was the Bailey County goal.

For the entire South Plains Council, composed of 20 counties, the 1972 goals are \$104,000 with \$83,000 coming from United Funds, making a total of \$187,000.

The George White District drive will continue until Memorial Day, but the Littlefield drive is slated to end Friday, May 26, according to Bradley.

"Let's come and have a cup of coffee, and celebrate the completion and success for the drive on Friday morning, at the XIT Room of the Security State Bank" he said.

"The achievements and goals of Boy Scouting are well enough known that it speaks for itself," he concluded.

1971-72 DRUM MAJORS who will march in a special "thank you" parade Friday afternoon at 3:30, include Bruce Hall, Annelle Harris and Anthony Pierce. They will be showing off their new uniforms, along with other Wildcat Band members. The parade will begin at the 300 block of Phelps Avenue and will proceed toward the courthouse, where the band will present a short concert.

## Parade, Concert Set

The Littlefield Wildcat Band will present a "thank you" parade and concert Friday, May 19, at 3:30 p.m.

The parade will begin at the north end of the 300 block of Phelps Avenue and proceed to the courthouse, where a short concert will be presented on the steps at the north entrance of the courthouse.

This will be the first time the band will appear in their new uniforms in a parade.

These uniforms were worn at UIL contest in Dimmitt, at the Spring Concert in Littlefield, and at the concert given at Six Flags last week.

Band students pay a \$10 rental fee per year for the use of their uniforms, and this money is placed in the school bank account in the form of a savings account. The principle and interest paid for the new uniforms, lacking only \$1,618.70. The total cost of the uniforms was \$11,851.57. There was not enough money to buy the majorettes' uniforms.

"The Wildcat Band has done an

outstanding job for the school and community during the 1971-72 school year," says Hubert Henry, Band Booster president. "The program that will be presented Friday afternoon is to say thanks to all of the people in this community for their loyal support," Henry continued.

This will be the 32nd and last performance for the band this school year.

## Dedication Ceremony Scheduled For Rocky Ford Historical Marker

A dedication ceremony for the unveiling of an official Texas Historical Marker at the Rocky Ford Crossing will be conducted at the marker site on U.S. 385, 10 miles north of Littlefield Sunday afternoon.

Presenting the 4 p.m. dedicatory address will be District Judge Pat Boone Jr., and an official from the Texas Highway Department will present remarks about the historical event.

Several of the citizens who helped build the stone crossing and original church building at Rocky Ford are expected to attend the event.

Made of cast aluminum with Swedish steel effect, the marker measures 14" by 24" and is sponsored by the Lamb County Historical Survey Committee.

Inscription on the marker reads:

"Rocky Ford Crossing  
(1/2 mile to the West)

On upper channel of 840-mile-long Brazos River, the settlers' water source, but a travel barrier. In 1926, Pioneers built rock road, lining river bed at this point to make it passable. At ford they also built a tabernacle for church and club meetings, founding the Rocky Ford Community. (1972)"

The marking of local historic sites and landmarks is part of the Texas State Historical Survey Committee's program of preservation activities.

The name and location of the present marker will appear in the next edition of the "Guide to Official Texas Historical Markers" in order to stimulate tourist travel in this area, to arouse interest in historical tours, and to acquaint the people of this locale with their unique heritage.

COTTON PLANTING was underway Tuesday afternoon on the Deb Bawcom farm east of Littlefield. Mac Williams pours seed into planter boxes, in preparation for several more trips in the field.

## Area Students Slated To Receive Degrees

A new record in degrees conferred at spring commencement exercises will be set at South Plains College Friday, May 19, according to the list of degree candidates released by the Registrar's Office.

SHEILA HARRELL, daughter of Mr. and Mrs. Freddie Harrell of Littlefield, was presented the Littlefield Women's Club college scholarship for 1971 during the annual May Breakfast Wednesday. Making the presentation is Mrs. Ruth Dodd, left. Sheila plans to attend Cisco Junior College and Hardin-Simmons University.

### Astrology Is Subject At Club Breakfast

The Community Center was the setting for the annual May Breakfast held by the Littlefield Woman's Club, Saturday, May 13th. Approximately 100 members and guests attended. Miss Sheila Harrell was awarded the Woman's Club college scholarship. The presentation was made by Mrs. Fred Dodd. Two members were recognized for perfect attendance. They were Audie Collins, and Mrs. Dodd. Special music was provided by Mrs. Dewey Hulse and Mrs. Weldon Pace.

Mrs. John Bellar introduced the speaker for the morning, Mrs. James D. Allison. Mrs. Allison is a well-known lecturer in this area, having spoken to many civic, private, and sorority organizations.

Her subject was "Horoscopes". She stated "modern astrology maintains that human beings have personal characteristics which are related to the position of the planets at the time of their birth. The moon, too, has certain influences on us. Affliction brought on by the moon is an acknowledged medical fact, and that astrology, if intelligently applied, can be of the greatest help and can render you good service."

"It is not fortune-telling or a philosophy of pre-destination. Through astrology our failures become apparent and we set about to rectify them. People born under different signs are either compatible or incompatible with each other. There is no reason you should not learn to control or adjust your feelings and actions" she added.

This was the final meeting of the year. There will be a called meeting sometime this month to install officers for the next two years. Members will be notified.

# HOMINY GRITS

By CORNBALL BLEVINS

NO, AUNT EDNA, the safety inspection sticker on your auto doesn't guarantee that you CAN'T wreck the thing!

NOTE TO PARENTS of the senior class: -Take heart, we may pull through this thing, yet!

WHILE IS ISN'T my intention to use this column for the purpose of religious debate, seems I'm called on to clarify a little matter that, if left hanging, might leave a sour taste in the mouth.

I DON'T MIND being disputed or quoted, but when I'm TWISTED, it smarts!

Seems I'm put in the position of resenting our youth, having no confidence in them, and doubting their honesty and sincerity as a group. (This, according to the letter to the editor, printed 5-14-72.)

I INVITE YOUR re-examination of the HOMINY GRITS published, 5-7-72. If you come to the same conclusion as the writer of the aforementioned letter, then I offer profound apology for not making myself clear.

My criticism was aimed number one, at the promoters of the new movement for not using the WHOLE of God's truth in teaching these youngsters. Number two, at those of the older generation for not having the proper knowledge and background to steer this new religious zeal into sound and lasting channels. Fancies and imaginations seem to be running wild.

IT WAS MY INTENTION to encourage the use of the Bible by both groups!

Having helped rear five children (two who are still around) I'm no stranger to them, or they to me. I'm fully aware of their problems. (Some real and some imagined.) They have my sympathy and concern.

I CAN THINK of no greater service one could be to them, than to acquaint them with God's Word, THE HOLY BIBLE, and to encourage them to follow its teachings. (Knowledge and faith accomplish little, without application.)

Now, if you're prone to substitute feelings, fables, fancies, imaginations, even HONESTY AND SINCERITY, for the guidance of God's Truth, you're building a house "Upon the sand!" I'm concerned about our youngsters because I fear they're "latching on" to something that may leave them disillusioned and disgusted with religion, period.

IF I'M TO BE criticized for trying to point people (both young AND older) to the Bible as a safe guide to follow in things religious, don't expect an apology! I sincerely believe it to be the ONLY safe guide to follow.

"Therefore, whosoever heareth these sayings of mine, and doeth them, I will liken him unto a wise man, which built his house upon a rock", Jesus, Mt: 7, 24.

HOSEA MAKES this statement: "My people are destroyed for lack of knowledge." Chapt. 4:6.

Tuesday, Charles McGee, a 21-year-old Dallas man, was jailed here for revocation of probation.

Albert Ramos Jr. of Littlefield was arrested Tuesday night by the sheriff's office and remains in jail on a check law violation charge with bond set at \$1,000.

Three drunk charges were filed and fines totaled \$200.

The theft of a tape player from a locked car was reported to the sheriff's office. Danny Wallace of Sudan reported the theft of the tape player valued at \$187.

## Deer Trivia Item

How long is a mule deer's ear?

Depends on the individual deer? Wrong. Texas Parks and Wildlife Department biologists have discovered a universal truth, to wit: every desert mule deer buck over two years of age examined on the Black Gap Wildlife Management Area has had ears exactly 11 inches long.

This news may not revolutionize mule deer management practices, but it may furnish sharp-eyed hunters with a point of reference when studying a prospective trophy through a scope-sighted rifle.

## THE ABUNDANT LIFE

### Wise Action

By BOB WEAR

ACTION THAT IS WISE, courageous and discriminating is essential to effective living. This means that we will studiously refrain from haphazard, impulsive action.

We must choose the wise action which is productive and profitable.

"EXISTENCE WAS GIVEN to us for action. Our worth is determined by the good deeds we do, rather than by the fine emotions we feel."-Magoon.

WE SOON LEARN that some undesirable situations and circumstances must be accepted, even though we do not approve them.

It may be possible for us to remove ourselves from the scope of these situations, and we may want to do this. Oftentimes this is the action we should take.

SOME UNDESIRABLE CONDITIONS can be changed, and should be changed. This is the time for wise action. In order to be effective, such action must be supported by well-made plans and performed with good judgement.

We must be sure that we are not trying to change something that is unchangeable, so far as we are concerned.

IF WE TRY TO CHANGE the things which cannot be changed by us, we will ultimately impair our effectiveness. This is not wise action, but is worse than wasted effort.

Eventually we will be burdened down with depression, frustration and discouragement. We will no longer have the strength, initiative and the will to do anything.

UNCHANGABLE SITUATIONS must be endured just as graciously as possible, because there is no other sensible way to live with them.

This is not always easy, but this action is so much wiser than the futile action of trying to do the impossible.

MOST OF THE ACTION of many persons is actually reaction, and this is not a very satisfactory way to try to live.

If we try to live predominantly reactionary life, it means that other people are controlling us. We really do not have a life of our own.

THERE IS ACTION, however, which is the result of proper response to what

others say and do. This is wise action, and is both commendable and profitable; but it is not reactionary.

It is positive, and deliberate. It is the right expression of considered conclusions and is a legitimate part of worthwhile living.

LIVING IS FOR ACTION, and the wiser and more effective our action, the better our living. Life has not been given to us to be wasted in idleness.

"TOO MUCH IDLENESS, I have observed, fills up a man's time much more completely, and leaves him less his own master, than any sort of employment whatsoever."-Burke.

ACTION CAN BE WASTED energy, and sometimes destructive; or it can be guided and controlled so that the energy expended is productive of some good to us and to others.

LET US, THEN, be alert and active; let us live.

### A Word Of Praise

May 15, 1972

Dear Editor,  
We feel a word of praise and thanks should be given to the Amherst High School girls track team. For the third year in a row they worked their way to the state track meet, this year held in Austin.

All participants placed in the track meet. Doris Kittrell ran the 100 yard dash 11.3 to become the 1972 Conference B State Champ.

Rita McAdams triple jumped 34' 3/4", placing sixth in the state. And in a most exciting mile relay the Amherst girls were edged out of the championship by Gruver, who ran the race in 4:02.0, only 2 seconds ahead of Amherst.

For countless hours of work and dedication, an honored thanks goes to Doris Kittrell, Rita McAdams, Verena Slagner, Gina Young, Mandy Coffey and Coach Harrington.

Proud Amherst Fans

STATE CAPITAL  
**Highlights AND Sidelights**  
By BILL BOYKIN  
TEXAS PRESS ASSOCIATION

Texans displayed at May 6 primaries a strong enough desire for new state governmental leadership to assure a change in top offices and a major legislative turnover as well.

Reform candidates Dolph Briscoe of Uvalde and State Rep. Frances (Sissy) Farenthold of Corpus Christi charged into the Democratic gubernatorial runoff. Mrs. Farenthold scored a stunning upset over Lt. Gov. Ben Barnes. Gov. Preston Smith finished a distant third. Republican gubernatorial runoff candidates are State Sen. Henry Grover and Albert B. Fay, both of Houston.

Houston newspaper executive Bill Hobby lead State Sen. Wayne Connally of Floresville in the lieutenant governor's race and both already are campaigning hard for the June 3 runoff.

John Hill of Houston squeaked through without a runoff over Atty. Gen. Crawford Martin and Bill Pate of El Paso.

From there on, the statewide incumbents managed to stay on top. One, Comptroller Robert S. Calvert, led widely, but was forced into a runoff with a former employe Jim Wallace of Austin.

Former U. S. Sen. Ralph Yarborough has a runoff with Barefoot Sanders for the Democratic nomination to face GOP Sen. John G. Tower.

There will be at least 14 new faces in the Texas State Senate, and all observers concede the body will be more conservative than the present Senate. Six senate seats will be decided by runoffs. Republicans will oppose Democrats in 12 general election races. One Republican Senator is unopposed.

In the House, a total of 64 incumbents did not seek re-election or were defeated. (Actually, 14 were defeated.) Sixteen more incumbents were forced into House runoffs, including Speaker Rayford Price of Palestine. More than 65 incumbent representatives were renominated. Republicans were nominated in 76 of the 150 districts.

CANE ACREAGE ALLOCATED  
The U.S. Department of Agriculture has allocated 25,700 acres in the Lower Rio Grande Valley for sugar cane harvest.

The allotment includes counties of Hidalgo, Cameron, Willacy and Starr. Allocation is the first in almost 50 years for Texas and, according to U.S. Sen. John Tower, is expected to return a cash crop worth more than \$50 million to Texas growers.

Cotton, citrus and vegetables already are produced in the area, but Tower said growers need an additional crop with a stable economic base. Mainland sugar cane production in the U.S. has been concentrated in Louisiana and Florida.

The allocation goes to Rio Grande Valley Sugar Growers Inc., a cooperative which already has 2,500 acres in cane which will be used for seed in the scheduled September 1973 processing.

MISSION SEEKS BUSINESS  
A 10-member Texas trade mission team in Moscow and Bucharest may return with more than \$60 million in business for oil drilling and petrochemical manufacturers.

Texas Industrial Commission said the mission which began last month offers

an opportunity for Texas to step toward capturing a virtually-untapped \$22 billion Eastern Europe.

The tour, organized by the petrochemical industry, is the kind behind the iron curtain designed to promote sales of equipment, refinery and production equipment, instrumentation, controls and of these operations.

STAMP PROGRAM PLANNED  
The State Department of Welfare has been called by the governor to develop a pilot program in preparation for a plan.

A state-funded program proposed in the special session Legislature next month. Public have ordered all counties to a food stamp or a food program for the needy. The program is expected to cost million in economic activity.

COURTS SPEAK  
The American Party was unsuccessful in trying to have law providing state primary elections unconstitutional by the State Court.

The High Court, in another case, ruled that a contractor is not liable for damages in a hauling logs to the plant.

Third Court of Civil Appeals Hays County district court preventing a contractor from second suit over the same contract transaction against Inns.

NEW WELFARE GUIDELINES  
New guidelines have been issued by the State Board of Public Health to eliminate abuse by medical recipients.

One purpose is to eliminate unnecessary medication and unnecessary doctor's office visits. Guidelines will limit prescriptions to a maximum of \$35 monthly maximum. Drug treatment chronic illnesses will be limited to five per year.

A second rule would limit doctor's office to five per year recipient, not to exceed 10 exceptions are possible.

SHORT SPORTS  
Dr. Jimmy R. Haskins of St. become Brenham State superintendent June 1.

University of Texas represents a \$28.1 million contract for construction of initial buildings at UT. A new commission, headed by governor, soon will be named to plan to stimulate economic South Texas.

The 2,500,000th tourist was to the enlarged highway tourist bureau on Interstate 35 on May 10.

A \$119,410 federal grant approved for Summer children's programs in Webb County.

## Thefts, Break-Ins Reported To Police

City police are investigating a theft and break-in, and another theft has been solved the first part of this week.

A citizen on Bell Street reported that five big sacks of beer cans were taken from her fenced back yard sometime Monday or Tuesday.

A stereo 48 four and eight track car tape deck was taken from a citizen's car while at a service station at Second and Delano sometime Monday. The equipment was later recovered.

Tuesday, another citizen on West Sixth Street reported that two windows, one on the south and another on the east side of a house, were broken out with bricks.

Police have jailed two adult males this week.

One was charged with being AWOL (absent without leave) from the Army. He was picked up Monday and released to Army authorities Tuesday. He will be sent back to Fort Sill.

Another was jailed Sunday night and charged with drunk in public, simple assault on a female and resisting arrest. He was tried, fined and released Monday.

## Excellent Rating Given To LHS Wildcat Band

"The Littlefield High School Wildcat Band gave their best performance of the year at the Six Flags over Texas Band Festival in Arlington to receive an excellent rating from the panel of judges," states Bob Ed Grissom, band president.

Judges for the contest were Charles Minelli, director of bands and associate professor of music, and conductor of the Fine Arts Theatre Orchestra at Ohio University; Lt. Cmdr. Anthony A. Mitchell, past director of the United States Navy Band and present chairman of the Music Department at Francis Scott Key Public School; and Dr. James W. Dunlop, professor of Music Education and Director of the Blue Band at Pennsylvania State University.

Minelli praised the band for each of its soloists and director, and awarded the band a Division I rating. "Band did a fine job on 'The Sorcerer's Apprentice' - good to hear this classic - fine all around band."

However, Mitchell disagreed, saying "The Sorcerer's Apprentice" is an ambitious work - sometimes not worth the time and trouble to perform - as even symphony orchestras find out." He finished his comments with "I liked your band - good luck," and awarded the band a Division II rating.

Dunlop also gave the band a Division II rating, resulting in the overall rating being a Division II. A Division II rating, according to University Interscholastic League Standards, signifies an excellent performance by an ensemble.

Lubbock Music Dealer Earl Ray, who was present at the contest, cited the split decision of the judges as evidence of

great differences in the judges for the contest. "The Littlefield band," he said, "was as close to a Division I as it is possible to be without achieving that goal - only a hair's breadth away."

Wildcat Band Student Director Rogers, had this to say: "The judges very good job on very hard music. Regardless of the judges' decision all have something to be proud of, especially we graduating seniors."

Littlefield Band Booster Hubert Henry was also pleased with the band's performance.

"The Wildcat Band's performance was the best I have heard of any band members' and their enthusiasm peaked for the performance, May 12, at the Six Flags. The only unfortunate thing was so many local people do not really outstanding the 1972 Wildcat Band is."

Wildcat Band Director Rountree, received a great compliment on the band. "It was the only one of the contest that was difficult a composition, 'The Sorcerer's Apprentice'. I feel better than some of the other bands played easier music because it was more within their capabilities."

"By playing such an ambitious program, the band has a better chance at being chosen the AA Honor Band in 1973 than many other bands. There is still a great deal that can be done, and in years to come we expect to see great things from the band," Rountree concluded.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

The attitude prevails in Washington that Congress is almost certain to pass some sort of minimum wage legislation in this election year, including an increase in the minimum rate for both industrial and agricultural workers.

This is the report of Ed Dean, Field Service Director of Plains Cotton Growers, Inc., Lubbock,

following a recent meeting of the National Council of Agricultural Employers (NCAE). NCAE is an association of producers, producer associations and allied interests formed in 1963 to protect the interests of agricultural employers. PCG is a charter member of the organization and

Dean is one of the organizing directors. "Legislation to force a higher minimum wage in agriculture without regard for other economic considerations will intensify what is already a tight cost-price squeeze in the industry", Dean said. "We are strongly opposed to any and all such legislation," he added, "but there are strong political winds blowing against us."

Major activity in Washington now centers around three wage bills. The Senate Labor Subcommittee has reported S-1861 which would raise the minimum for industrial

workers to \$2.25 per hour in 1973. The minimum for farm workers, now \$1.30 per hour, under S-1861 would equal the industrial base by 1974.

The law would apply directly to employers using more than 500 man-days of labor in any quarter of a calendar year. It would require payment of \$1.70 upon enactment, \$2.00 a year later and \$2.25 in 1974.

Overtime exemptions contained in current law would remain intact for on-the-farm employees, but exemptions for processors, such as cotton gins, would be repealed.

The full Senate Labor

Committee is scheduled to consider S-1861 soon, and there seems little doubt that it will be reported to the Senate floor. Chances for stopping it or softening it in the liberal-minded Senate look dim, according to Dean.

On the House side HR-7130, known as the Dent Bill, is still seeking clearance from the House Rules Committee. It would raise the agricultural minimum to \$1.50 this year and to \$1.70 in 1973 with no further scheduled increases. Like S-1861 it would phase out all overtime exemptions for processors and handlers of

agricultural commodities. The Administration is sponsoring a bill by Representative John Erlenborn (R-Ill.), HS-1404, which is to be offered as a substitute for the Dent Bill when it comes to the floor. The Erlenborn bill proposes the same wage increases as the Dent Bill, but is slightly less onerous to NCAE in that it would maintain present

overtime exemptions for processors. Dean said NCAE was making a concerted effort to get three bills.

## Fighting Hail Rough Business

Each time the three pilots who watch clouds in this area from the radar in the small trailer parked at the Plainview airport take to the air to fight their number one enemy — hail — they risk becoming victims of nature.

The three are employees of Atmospherics, Inc., the California-based firm that lists as its product the ability to change the weather. Wayne Wilkinson, 36, Phil Knowing, 27, and Norris Viverka, 29, are in the air within minutes after threatening clouds are sighted on radar.

The pilots seek out hail laden clouds and deposit silver iodide crystals in updrafts in the hail suppression program that's in its third year in Lamb and Hale Counties and small acreages of farm land in two adjoining counties.

Pilots say they have faced baseball size hail, and have returned with their planes heavily damaged by the onslaught. Hail stones strike the leading edges of the wings and tail at more than 120 miles per hour. Missing paint and dents on the tail surface show the violence of airborne hail.

Updrafts, indicated on the aircraft's instruments at more than 2,000 feet per minute, glue the pilots to their seats. These updrafts are usually followed by severe downdrafts that ram the pilots' heads to the ceiling no matter how tight the seat belts are.

Even the crash helmets the pilots wear offer little protection, and they say a long seeding session usually results in a bad headache.

The roller coaster rides, which sometimes pushes planes and pilots to maximum structural and physical limits, lasts as long as the storm continues to produce large hail.

The twin engine planes equipped with firing devices on the wings are capable of seeding the clouds for up to four hours, but pilots say a four-hour flight is about the maximum in such conditions.

Responsibility for the millions of dollars worth of crops below belongs to pilots. For them, cloud seeding is a job. For the farmer, it is a hope that severe weather has finally met its match.

This year's program was scheduled to begin Wednesday, May 10, but for the hail suppression program through Nov. 1, the present time Lamb County lacks about \$4,000 in enough money to support the program through harvest.

This is Lamb and Hale Counties' third year in the weather modification program. The program keys on up-damaging hail into rain, but tornado damage has been dissipated, and the rain stimulation is attempted.

Program directors at least three seasons of work are needed before benefits can be measured. The hail insurance policies of the hail suppression program dropped over the past years, indicating area farmers believe in the project.

Pilots act as researchers on the project, noting how weather affects the clouds, cloud movements, and a close watch on West Texas most severe weather is the tornado.

These pilots say they are just about the pilots in this area to get tornadoes in the air. They seeded last year.

They watch the radar day and night if clouds are moving into the target area. They take to the air when indicated, or conditions are right for hail to form in towering clouds.

When their work in the ends this fall, they will do another operation to make rain or to break storms.

The flying will be the rough ride, the interest, the danger. All three say they love

## Leader Calls For Support Of National Cotton Program

"Momentum is going for cotton," says Ray Joe Riley of Springlake, a leader of the cotton industry, who calls for support of the USDA-National Cotton Council campaign to achieve "Better Yields of Quality Cotton for Profit and Market Growth."

Riley said cotton is the leader in the trend to more casual clothing and pointed out that cotton denims, corduroys, prints, etc., are "going strong."

Riley and Dr. John E. Hutchinson, director of the Texas Agricultural Extension Service, are co-chairmen of the "Better Yields" campaign in Texas.

Riley said that providing adequate supplies will let cotton's mill customers cash in

on its popularity and encourage them to keep using it. But that adequate supplies are needed to restore confidence in the growers to meet market demand.

"Better yields of quality" express the determination to protect his dollar-per-acre investment in research and promotion," Riley said.

"Textile demand is increasing worldwide. It has more than doubled in the past years. Cotton's ability to produce man-made fibers, discourage foreign production depends on an adequate and profitable production."

## Haying, Grazing Period Extended

The Lamb County ASCS county committee has secured authority to permit haying and grazing of set-aside and Cropland Adjustment Program (CAP) acreage through June 14.

Before grazing or haying during the period May 15-June 14, application must be made and approval granted or program penalties will apply.

The charges are \$1 per acre per month for grazing and \$3 per cutting per acre for haying. Maximum charge to relet this permission to another person is \$1.50 per acre per month for grazing, and \$4.50 per cutting per acre for haying. Producers who harvest the hay cannot sell the hay for more than \$30 per ton plus reasonable fees for hauling and stacking.

Final replant dates are for cotton, June 20 for sorghum, and July 1 for soybeans. Crops not replanted through these dates order to be eligible for loan and payment purposes.

There are no restrictions on replanting after these dates. May 31 is the final date to obtain a loan on 1971 cotton or grain sorghum.

CHARVL RUSSELL

**WE'D LIKE TO** reminisce just a little, recalling some of the outstanding things in L.J.H. of 1971 and 1972. School started August 25, ending a long, hot, summer.

**DUE TO FINALS** next week, this will be our last column. It's been LOTS of fun writing for you "immature audiences" and hope the rest of you managed to bear with us. This has been a great year for us and has really passed in a hurry. There's really mixed feelings about leaving L.J.H. and we know lots of freshmen who feel as we do. Dread being that "underdog" again!!

**THE BEGINNING** of school is always busy getting adjusted to new teachers and classes. It's always hard to start studying again with all the football games, pep rallies, band activities, and other school functions. September seems to be a big blur!

**TWIRP WEEK** is always a highlight of October along with the first assembly honoring the Court of Honor and Honor Roll students. The Band Council was also elected in October as well as the girls' basketball team.

SUGGESTED FOR IMMATURE AUDIENCES

## Happiness Is . . .

### Summer Vacation!!!

**NOVEMBER** was a busy month for the FFA boys and the Jr. High Drama Club got under way. The band brought home a first division in marching and suddenly it was time for Thanksgiving holidays.

**IT'S ALWAYS** busy in December and this was no exception. The bands started selling Christmas tree tickets, and the choirs sold candy. The L.J.H. band had their annual Christmas concert and the Christmas holidays brought the end of December.

**FINALS, NEW SEMESTER,** and snow remind us of January.

**TO START** off the month of February, the first Driver's Ed class began for those people with birthdays before April 10th. The last of the basketball games were played in October and we really missed those fun times!! And who could forget Valentine and all the L.J.H. Valentine couples? February ended with the Solo and Ensemble Contests in Lubbock.

**MARCH** started off with the beginning of the fifth six weeks. Track got off to a

fast start and the Driver's Ed class took the written test.

**SPRING** vacation started the month of April. Tennis began and track ended with the District track meet. Sweepstakes in band and honors assembly were highlights in April.

**MAY BROUGHT** the band barbecue and rain!!! The last events of the year were student council and cheerleaders elections, and twirlers and drum major tryouts. We can still look forward to the L.J.H. play and the band party Saturday night. Oh yes, how could I forget finals and report cards!!!

**WELL,** these are just a few of the fun things we can remember. It's been a great year and special thanks to Mr. Brawley and the faculty for putting up with all of us the last three years. Good luck to the ones who write this next year, and we hope they have as much fun as we've had!!

**HAVE A good week — study hard for finals — and HAPPY SUMMER VACATION!**

**PEP P-TA officers** were installed May 8 in the school auditorium, with Mrs. J. D. Sams of Plainview, right, serving as installing officer. Officers, left to right, are Mrs. Conrad Demel, parliamentarian; Mrs. Ray Decker, historian; Mrs. Evelyn Albus, treasurer; Mrs. Harvey Demel, secretary; Norman Moore, vice president; and Mrs. Gaubert Demel, president. Mrs. Sams tied a string around each officer's finger to remind them of their duties.

## New Pep P-TA Officers Installed

The final meeting of the Pep P-TA was held Monday evening, May 8, in the school auditorium.

Reports from the members who attended the recent conference of the 14th District of P-TA in Lubbock were heard. The seven members participated in each of the four workshops.

Mrs. J. D. Sams, Plainview, immediate past president of the 14th District, was installing officer for the Pep P-TA for the 1972-73 year. The installation was presented by the tying of string around each officer's finger to help her remember the duties of her respective office.

Those serving the Pep community through elected offices in the P-TA are: Mrs. Conrad Demel, parliamentarian; Mrs. Ray

Decker, historian; Mrs. Evelyn Albus, treasurer; Mrs. Harvey Demel, secretary; Norman Moore, vice president; Mrs. Gaubert Demel, president.

Mrs. Frank Simnacher, outgoing president, announced this year's paid members totaled 60. She expressed her thanks to the officers, and patrons, who have assisted in the success of completing the project obligations the two years of her terms as president. She again thanked the community for the plaque of appreciation presented to her.

## Students Win Third In Trouble Shoot

Leonard Reed and Russell Turner represented Littlefield High School in the annual 1972 Plymouth Trouble Shooting contest Tuesday at Lubbock, and won third place. Representatives of Snyder High School and Vernon High School took first and second places respectively.

MRS. GRACE GILLEY, Mrs. Maggie Chandler and Mrs. Elizabeth Crisp are shown with Littlefield Brownie Troop 214 when they passed out 56 guest books at the residents of the Littlefield Hospitality House. Brownies presenting the books they made were Christi Champion, Lupe Contreras, Shawna Martindale, Mary Parker, Vicki Roney, Holly Stubbs, Dicine Sanchez and Shanna Wren. Troop leaders are Mrs. Lee Raney and Mrs. Lloyd Champion.

## AREA SERVICEMEN

MARINE PFC. Willie Wilborn, son of Mr. and Mrs. Nathaniel Ingram of Earth, graduated from basic training at the Marine Corps Recruit Depot in San Diego. A 1970 graduate of Springlake-Earth High School, he attended Amarillo Junior College at Amarillo.

## JOHN R. GONZALES

Army Private John R. Gonzales, son of David Gonzales, 400 W. First, Littlefield, recently was assigned to the 1st Infantry Division at Ft. Riley, Kan. Pvt. Gonzales, an ambulance driver in Headquarters Company, 1st Battalion of the Division's 63rd Armor, entered the Army in November 1971, completed basic training at Ft. Polk, La., and was last stationed at Ft. Knox, Ky. The 20-year-old soldier was graduated from Spade High School in 1971 and was employed at Amherst Hospital before entering the Army. With a proud history that stretches from France and Germany in World War I to the highlands of Vietnam, the 1st Infantry Division has an Army-wide reputation of being first when needed. It was the First U.S. Army Division to go overseas in World War I and meet the enemy, first to land in Britain in World War II and first to arrive in Vietnam in July 1965. Its combat mission accomplished, the big red one now makes its home at Ft. Riley.

## Spade P-TA Tells Officers

SPADE-Installation of Spade's P-TA officers was held Thursday, May 4. Mrs. Bill Ivins, past president, was in charge of installation.
