Young-Dusenbury United In Double Ring Ceremony

Wedding vows were pledged by Miss Paula Darlene Young and Fredric Craig Dusenbury Saturday afternoon, Dec. 19 in the First Baptist Church of Stratford.

Rev. Bill Tanner, pastor, officiated for the double ring wedding ceremony.

Parents of the couple are Mr. and Mrs. James O. Young of Stratford and Mr. and Mrs. Fred Dusenbury of Guymon, Okla.

The bride is the granddaughter of Mr. and Mrs. Glen Young, Mrs. Lloyd Crosby and Olan Williams, all of Littlefield. She is the great-granddaughter of Mrs. Birdie Sisson of Littlefield.

The bride, given in marriage by her father, wore a formal length peau de soie and lace gown, fashioned with a fitted Empire bodice and portrait neckline of lace overlaid on organza. Her full sheer sleeves were caught at the wrists by deep lace cuffs. Lace traced a pattern down the center front of the gown and encircled the entire hemline. The A-line skirt swept to the back in fullness and cascaded into a full chapel length train. She wore a bridal veil of silk illusion, accented with lace and extended the length of the chapel train. Her bridal bouquet consisted of pale pink carnations and red rose buds accenting the center of the bouquet.

Musical selections were presented by Mrs. Lorraine Mehner, pianist and Mrs. Martha Harrison, organist. They accompanied Mrs. Jim Ingham, soloist, as she sang "The Lord's Prayer" and other selections.

Matron of honor was Stephanie Folley of Amarillo. Bridesmaids were Vicki Hayes of Canyon and Dolly Wilson of Denton. Terry Young of Stratford, sister of the bride, was flower girl. They were fashioned in floor-length pink velvet dresses with white lace bodices. Their bouquets were of pink carnations and red roses.

Best man was Bill Lee of Stillwater, Okla. Guests were seated by James Young, brother of the bride, Marc Caudle of Guymon, Okla., Garey Folley of Amarillo and Paul Keeling of Lubbock. Groomsmen were Nelson Dusenbury and Randy

Dusenbury, both of Guymon, Okla., brothers of the groom. Guests were registered by Mrs. Paul Keeling of Lubbock.

For her daughters wedding, Mrs. Young wore a double knit navy blue dress with red and blue accessories. The grooms mother chose a pink coaldress with silver accessories.

A reception followed in the Fellowship Hall of the Church.

The bride's table was laid with a white net cloth trimmed with satin bands and wedding bells, with the bridal bouquet centering the table. Presiding at the bride's table was Mrs. Paul Keeling of Lubbock and Vita Barlow of Amarillo.

Mrs. Arthur Stokes, Misses Julie Cleavinger and Jenney Templeton served chocolate cake and coffee from the groom's table.

For a wedding trip to Colorado Springs, the new Mrs. Dusenbury, chose a double knit coat dress of pink with brown accessories.

They will be at home at 1908 Gregory A in Amarillo.

The bride attended North Texas State University and she is employed by Whirlpool Corporation in Amarillo. Dusenbury attended Oklahoma State University, Panhandle State and is presently attending West Texas State University in Canyon.

Jerry Brantley New Partner In Amarillo Firm

Jerry L. Brantley, son of Mr. and Mrs. J.P. Brantley of Amherst, has recently been named a partner in the firm of Rittenberry & Associates of Amarillo. He attended Littlefield High School and graduated from Texas Tech University with a Bachelor of Architecture Degree and is a registered architect in the State of Texas.

Brantley served his architectural apprenticeship with Billingsley & Stracener Architects and Engineers; Atcheson, Atkinson & Cartwright Architects and Engineers of Lubbock; and with Wright-Rich & Associates of Dallas.

In his new position with Rittenberry & Associates, he is project architect which principally involves the designing and planning of projects as well as the production of working drawings and supervision of construction.

Brantley is married to the former Carol Ann Watkins, formerly of Sudan. They now reside at 2423 South Ong in Amarillo.

MRS. FREDRIC CRAIG DUSENBURY

Church Setting For Black Nuptials

The Baptist church was the setting for the nuptials of Brenda Gay and William Canyon Sunday.

The pastor of the church, Fredrickson, organist and Mrs. Sharon Stevens, soloist.

A reception followed in the Fellowship Hall of the church. Misses Patsy Green of Matador, Judy Beddo of Lubbock and Pat Browne of Morton presided at the serving table.

For their wedding trip to New Mexico, the new Mrs. Black chose a gold double knit dress, complimented with black crushed patent shoes and bag.

The couple will reside in Sudan.

The bride is a 1967 graduate of Brownfield High School; a 1970 graduate of Texas Tech, with a B.S. in elementary education. She is employed by Sudan Public Schools.

Black is a student at West Texas State University and is employed at Marsh Electrical Supply in Amarillo.

Resolutions

Short on resolutions for the new year? Here's a list designed especially for you and your family by the Texas State Department of Health:

Promise to give your body at least as good care as you give your car.

PERIODIC EXAMINATIONS are the best way yet devised to detect bodily disorders while they can still be treated successfully, so let your doctor look you over thoroughly once a year whether you're ailing or not.

Make it twice yearly if you're middle-aged.

Dental troubles won't kill you, but sometimes they can make you wish you were dead. So check in once yearly with your dentist, too.

IF YOU ARE putting on weight, resolve to start passing up the candied yams, boiled potatoes and the cream-filled tidbits which almost invariably spell extra pounds and perhaps an early grave.

Too much weight contributes to high blood pressure, and may be associated with hardening of the arteries and various forms of heart disease. Also, it means impaired vigor, greater surgical risk and greater danger from otherwise minor illnesses.

A **GOOD**, physician-prescribed exercise regimen will keep your body in shape, tone up your heart muscles and put the spring back into your step.

The statistics linking smoking to cancer and heart disease continue to pile up, and it is tougher and tougher to rationalize the habit.

Resolve also to impress the health

hazards of smoking on the minds of teenagers in your home.

WHEN DRIVING, consider that every other car is being driven by a madman, and when walking trust motorists only as far as you can see them. Motor vehicle deaths stand far above accidental deaths of all other types.

Resolve to take full advantage of every advancement in medical science aimed at benefiting you and the family, but always on competent medical advice. Start by checking the immunization records of your entire family—not just the children—as a safeguard against disease and their complications.

PROMISE TO OBEY local and state laws pertaining to health protection.

For example, if your town has a dog leash law, adhere to it. It is a public protective device and you are the public.

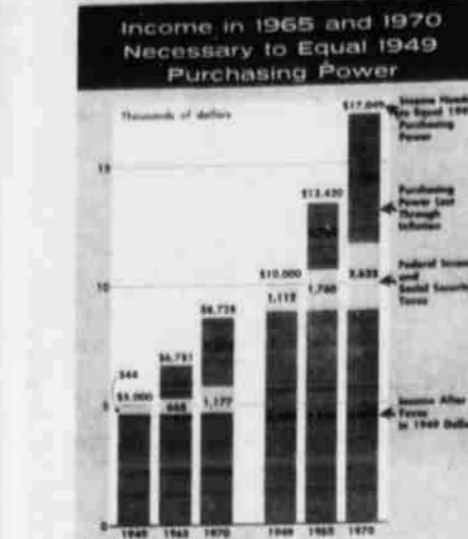

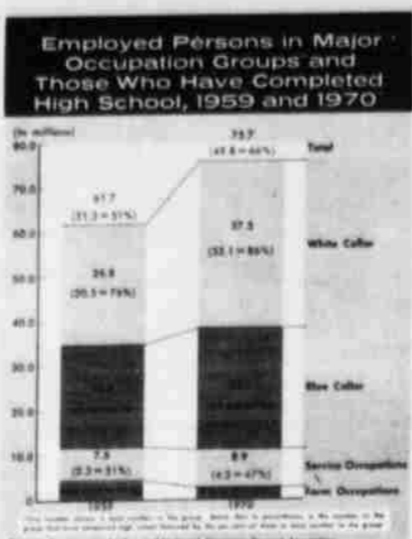

If you are a pet owner, be certain they are kept in good health.

LAST BUT VITALLY important, give an occasional thought to such awesome problems as water conservation, pollution abatement, juvenile delinquency, drug abuse and the growing number of elderly people in our society.

Lend your support as a responsible citizen to community efforts to solve them.

YOUR HEALTH should be of great concern to you. So get the good health habit by putting some healthful resolutions to work.

You'll be happier, live longer and enjoy life more.

A Point For Women's Lib?

1970 saw for the first time, the educational level of men equal to that of women in the national labor force, according to figures reported by the National Consumer Finance Association November newsletter, FINANCE FACTS.

For both sexes, the median level of schooling was 12.4 years. This is in sharp contrast to 1940, the first year figures were available, when the median level of schooling for men was 8.6 years and 11.0 for women in the labor force.

The gap between formal educational attainment of men and women in the labor field has been gradually closing since World War II. By 1952, the spread was 10.6 years for men and 12.0 years for women. The report says increasing affluence and changing attitudes made additional education attainable, and contributed to a

rapid rise in educational experience for men.

Technological evolution demands of the last 20 years have also spotlighted the need for more educated workers in all fields. These demands helped to bring more female participation into the labor force. Between 1968 and 1970, 57% of a 3.9 million net increase in the labor force were women, of whom 1.8 million were married.

Historically, figures for women with less than 12 years education remained constantly low in the labor force picture. However, rates of employment for those with 12 years or more education consistently increased over the years.

If anything, this month's newsletter, could provide more ammunition for some activist women's lib-types who have been saying all along that the male, in comparison to the female, was an "inferior product!"

HOMMY GRITS

By CORNBALL BLEVINS

We note, by the suburban rag, that interest in religion is on the decline. So what else is new?

We also note by the same medium, that crime is on the increase. (No kidding!)

We find by the same informant, that morality is at a new low. (You don't say.)

You may notice, also, that there's an all time high in citizen unrest and dissatisfaction, especially among the young, in our nation (How disturbing!)

And, have you read that respect for law and order—in fact, for all authority—is at a very low ebb? (Surely not!)

We may, even, get the idea, from some of our sages, that our nation is on a very shaky foundation. (Say, what're you tryin' to do?—Shake me up?)

That's the trouble with these guys that haven't got anything to do but read the papers and listen to tv news and the like. They're always going around, mutterin' about what a bad shape the world is gettin' in!

If they'd just go on and mind their own business like we do, they wouldn't notice these little things.

So, what if religion is about to become outmoded, we don't practice it anyway. And suppose crime is on the increase. We have locks on our doors and keep a gun in the closet.

And, morality? You can only go around in life once, fellow—you go foral the gusto

you can get! As for law and order, those cops are gettin' too big for their britches, anyway! Our laws are out of date!

As far as this old nation of ours is concerned, it's stood for many years. (Who's to suggest it'll fall now??)

So, we alarmists are outvoted. Yet, I remember the warning of a former sage. He wrote:

"For the lack of a nail, the shoe was lost. For the lack of the shoe, the horse was lost.

For the lack of the horse, the rider was lost. For the lack of the rider, the battle was lost.

For the lack of the battle, the war was lost. For the lack of the war, the kingdom was lost.

All, for the lack of a nail! "

Now, I wouldn't compare religion with the insignificant nail. This, only to show that something important is missing.

We remember that this nation was founded upon Christian principles. — It's constitution based on the Bible.

Surely, we recognize that a building can't stand after the foundation has rotted away!—(Or, do you think we are the exception?)

All together now: Let's stick our heads back in the sand! "

DEAR EDITOR

Thank You

Dear Editor: On behalf of those less fortunate of our community and the members of The Salvation Army Advisory Board, we wish to express our sincere thanks and appreciation for the generous response of the citizens of Littlefield.

This year we were able to fill 47 baskets; serve 264 persons; give 117 new and used toys; and to give 131 Sunshine Bags to the patients of the Hospitality House, Knights Rest Home, and the Amherst Manor Rest Home.

Because of the generous support and response we have indeed been able to place a smile where a tear might have been.

Sincerely yours,
Daniel Hudson, Captain
Commanding Officer

Youth Commended

Dec. 24, 1970

Editor of the Leader-News, I've just been seeing pictures of the Littlefield young people.

I want to commend them, as they always look so nice, and don't look a bit like the hippies, and that makes me proud of them.

I do hope they are Christians. I read in the Book of Isaiah, 50th chapter and 5th verse, and it says, "The Lord God hath opened mine ear, and I was not rebellious, neither turned away back."

Oh, I think it's wonderful for our teenagers to accept Christ and not turn back to evil ways. Also let me say to them, don't turn back, and do your best to encourage other teens to accept Christ.

I wish all of them, and all the ones connected with the Leader-News, a Merry Christmas and very prosperous new year. I still enjoy the editorial page.

Oh, I do love young people and I ask God to bless them each day when I pray.

s/Mrs. E. M. Parker

PAUL HARVEY

This Is The Time!

PROBLEMS, we got problems, we got lots and lots of problems.

Listen to this quote from a man whose perception we have to respect: "These are indeed perilous times."

Our young people are rebelling against established authority. They are indifferent to convention and are no longer neat in appearance. They are openly disobedient to their parents. If these are to become our future leaders, there is indeed little hope for the world!"

That was Socrates, 2,400 years ago!

WE STILL HAVE problems, thank goodness!

When too much prosperity and too much leisure turns so many to booze, dope and depravity from the sheer boredom of it all, let's thank heaven that we still have some problems to preserve our mental muscle tone.

WE HAVE A GENERATION feeling sorry for itself because of problems when the real problem is that they have too few. The "establishment" they find repugnant because of some conspicuous hypocrisies is not all bad, you know, when you read the record.

Headlines are preoccupied with a temporary recession, yet since 1960 we have enjoyed an unprecedented boom. Our total GNP has increased \$400 billion; that's nearly 80 per cent!

PERSONAL INCOMES increased \$300 billion; the number of people employed jumped a whopping 10 million. Personal savings skyrocketed \$35 billion.

OVERPOPULATION THREATENS ecological imbalance, but we're not doing nothing about it. The birth rate in the United States has declined 25 percent these last 10 years, is lower than ever before in history.

Pollution remains unpleasant, potentially hazardous, but right now it's being researched, retarded or reversed in every contributing industry.

BLACKS HAVE NOT got all that they have sought but in just four years the number of them hired for professional jobs has increased 35 percent. Total Negro employment has jumped more than 20 percent.

Today the average black in our nation is more likely to go to college than is the average citizen, black or white, in England, Germany, Belgium, Denmark, Italy, Spain or Russia!

THERE ARE MORE than 300 Negro millionaires in the United States. And more of them sitting as judges or in Congress or in state legislatures or in city hall—more blacks in positions of power in the United States than in all the Communist nations of the world combined!

We've not yet cured the drug disease but we, in one generation have conquered or controlled diphtheria, smallpox and typhoid, polio, measles, tuberculosis and pneumonia.

AND MY GENERATION has built more schools, colleges, hospitals and libraries than all other generations since the beginning of time.

We have raised our standards of living and lowered our hours of work. Luxuries the wealth of Croesus could not have bought are available to the least of us: cars, telephones, television.

WE HAVE TAXED ourselves unmercifully to bring hope and health to our sick, our indigent, our young and our aged. And in addition our personal gifts to private charities each year exceed \$14 billion.

So let's put this notion that our is an incurably sick society...and get on with its continuing improvement.

YOU LEAF THROUGH every page of recorded history and you'll not find one with fewer debits and more credits than this one.

Of all the eons of history, this is the time to be alive!

OBITUARIES

MYRTLE TRUDY CRAIN

Funeral services for Mrs. Myrtle Trudy Crain, 69, of Littlefield who died Monday morning in Medical Arts Hospital, were conducted Tuesday afternoon in the Flomot Church of Christ.

Officiating was Jack Hutton of the Turkey Church of Christ. Burial was in the Flomot Cemetery, with Hammons Funeral Home of Littlefield in charge of arrangements.

Mrs. Crain was born May 4, 1901 in Ryan, Okla., and had lived in Littlefield five months after she moved here from Sulphur, Okla.

Surviving are her husband, Cooper Crain; two brothers, Delmer Calvert of Muleshoe and Ray Calvert of Abernathy; and two sisters, Mrs. Ethel Martin of Tulare, Calif., and Mrs. Alma Purdy of Littlefield.

PAULINE STANTON

Funeral services for Mrs. Pauline Stanton, 54, of Lubbock, who was dead on arrival at Methodist Hospital early Saturday morning, were conducted Monday afternoon in W. W. Rix Chapel in Lubbock.

Rev. J. Robert Moore, associate pastor of Southeast Baptist Church, officiated, and burial was in the City of Lubbock Cemetery.

Peace Justice' F. H. Bolen ruled the death due to natural causes.

Mrs. Stanton had lived in Lubbock since 1927, when she went there from Maypearl.

Surviving are one brother, John Holder of Littlefield, and one sister, Grace Sublett of Huntsville, Ala.

THE ABUNDANT LIFE

Non-Destructive

TEARING DOWN is easy. We can tear down and destroy in a few minutes that which may have taken years to build.

No intelligence; no skill; no well-planned effort are required.

In fact, the hellishness of tearing down what others have built is one of the most pernicious expressions of a corrupt and confused human being.

THOSE WHO TEAR DOWN are not building anything for themselves. They don't know how, or they do not have the character to do so, or they may be too lazy. It could be that they have not grown up, and their destructiveness is an expression of their childishness.

It is possible that these people have a very poorly conceived view of life. Obviously, they are not right in their views; in their thinking; in their aims; in their actions; or in their use of life. Everything about them is wrong.

THE WRECKERS ARE self-destructive in their destruction of what belongs to other people. In the first place, such action is the action of weaklings.

Nevertheless, these people are always a very real threat to the general welfare. It is difficult to accept the fact that there are people degraded enough to do these things.

They must be opposed with all available strength. It should be held as a view of all men that such persons forfeit their right to free movement.

DESTROYING THE PROPERTY of a person is not much different from destroying the person.

In fact, the step from destroying what a man has built and what belongs to him to the destruction of the man is a short step.

The destroyers fight against one of the most noble and most needful of all life

elements; the drive to structure.

A **SENSELESS ACT** of destruction. In this act, there is no gain, no purpose.

It has the effect of setting progress, and exalting human evils. It becomes a headed monster that is bigger.

THIS PERVERSE act presses and produces and most hurtful evils. Hatred grows, fear grows, could bind people together, the human incentive for progress, and exalting human evils. It becomes a headed monster that is bigger.

EVERYTHING BECOMES the world of the destroyers, destroy what others have built, enrich themselves, and other human being.

They not only do not lose a little of themselves, they destroy something, sense, they are destroying.

BUILDING IS the greatest when building is being the common good.

Building is the proper intelligence, and maturity and the right view of profitable, because building an accomplishment of our purpose.

ALL HOPES, aspirations mankind are frustrated, but they find building.

DOWN TO EARTH

Drugs

JIMMY R. ALLEN

THE PRESS REPORTED recently that Mike Curb, president of MGM records, announced a new policy for his company. MGM records will not make records with drug lyrics or utilize groups which are on hard drugs.

CONVINCED that drug groups are "the cancer of the industry" the 25-year-old executive is quoted as lamenting the glorification of drugs by singing groups "smashed out of their minds."

He said, "I credit hard drug record acts with starting hundreds and hundreds of new young drug users." (Nashville Banner, 11-3-70)

GLORIFICATION of drugs is central to the problem of drug dependence and abuse among our Americans. It's encouraging to find one of the record companies with a sense of responsibility for youth.

If others would follow this example, a giant step would be taken in the struggle to protect the young against short-cuts to sensations which distort the meaning of life.

THE NETWORKS could also behave responsibly in the process of deglamorizing drugs by taking similar steps and rejecting drug oriented groups.

Short spot announcements against drug abuse do not balance or counteract the attractive programming of subtle drug messages which creates an aura of success around drug users.

The general youth public is more aware than adults of the fact that giant rock festivals, with their excesses of drug use and slackening of moral standards in sexual expression, are underwritten by profiteering record companies and other adult promoters.

MASS MEDIA is so new to our culture that we have not yet assessed its role in fashioning moral standards.

It's becoming obvious, however, that its impact in this process is fantastic.

Breaking And Entering At Nipak Plant, VFW

Two breaking and entering cases are being investigated by the Lamb County sheriff's office.

W.G. Hanson at the Nipak Fertilizer Plant in Littlefield reported the entry, vandalism and theft of a safe from the Nipak office Saturday night, Dec. 19.

Entry was gained by knocking the pins out of the door separating the plant from the office. Two desks and the filing cabinets were pried open and the safe was loaded onto a set of dolly's and wheeled out of the east door and taken to the north side of the plant where it was beat and pried open with a pick.

Approximately \$213 in cash was taken from the safe. Extensive damage was done to the front, back and bottom of the safe and to the desks and filing cabinets.

The following night, Sunday, Dec. 20, the VFW Building was broken into. An attempt was made to enter on the east side of the building then entry was gained by breaking a bathroom window on the north side. Missing was \$15 in cash and two bottles of liquor.

Yule Color Event Ends Next Month

The Leader-News' Yourself Coloring will come to a close Jan. 4, and all entries postmarked by midnight in order to qualify for judging.

Two \$25 gift certificates from \$12.50 gift certificates from Forrest Price's Auto will be awarded to two first place winners.

All children in grades through six in the News circulation area are eligible to enter. Judging will be done in two categories for kids in grades one through three and the other for kids in grades four through six.

So, if you haven't and wish to do so, send in your coloring by the end of the Dec. 24 deadline. The Leader-News will select the best of your entries and mail or bring it to the News, Box 72, Littlefield, Texas 79339. Winners will be announced in the Leader-News Sunday, Dec. 31, 1971.

NEW YEAR TO ALL

1 hard-cooked egg yolk, sieved
2 tablespoons snipped parsley
Cut large Brussels sprouts in half. Cook sprouts, uncovered, in boiling salted water for 12 to 15 minutes or until just tender and drain. Heat butter in small saucepan or skillet until it begins to brown; add crumbs, egg yolk and parsley. Spoon crumb mixture over sprouts; toss lightly. Yield 6-8 servings.

NEW YEAR'S GERMAN FRUITCAKE

3/4 cup butter
2 cups brown sugar
4 eggs, separated
3 cups flour
1/2 teaspoon cinnamon
1/2 teaspoon nutmeg
1/2 teaspoon cloves
1/2 cup buttermilk
1 teaspoon soda
2/3 cup cherry preserves
2/3 cup apricot preserves
2/3 cup pineapple preserves
1 cup chopped nuts
1 teaspoon vanilla
Cream butter and sugar, add egg yolks and beat well. Sift the dry ingredients together and add soda to butter milk. Blend. Use fruit preserves that have pieces in them as you want chunks of fruit to show up in the colorful finished cake. Measurements need not be exact but don't use more than 2 cups of preserves. Add remaining ingredients, blending in stiffly beaten egg whites last. Turn into large tube pan that has been greased and floured. Bake in a moderate 350-degree oven for 1 1/2 hours.

Cotton Demand Future Factor

The law of supply and demand will be a significant factor in farm decisions on the High Plains in 1971, 1972 and 1973, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock.

Johnson told a December 15 gathering of PCG Directors that "We cannot afford to make management decisions under the new farm program without full knowledge of both domestic and foreign production figures, consumption figures and overall supply conditions because these to a large extent will determine the market prices we can expect for a given commodity."

"And whether he shows a profit or loss on these 'extra' acres will depend largely on his accuracy in gauging the market at harvest time, whether it be for cotton, wheat, corn, grain sorghum or any other of the crops commonly grown in the area."

With this in mind Johnson presented figures showing world cotton production for 1970 is now estimated at 51.7 million bales, compared to aggregate world consumption of around 53.6 million bales. Thus the world's total supply of cotton is expected to be down to about 19.8 million bales on August 1, 1971, a drop of 1.9 million bales from the August, 1970 figure of 22.7 million. Johnson also noted that this will be the second consecutive year in which world production fell more than 1.5 million bales short of consumption and that consumption has exceeded production, worldwide, in three of the last four years.

USDA's planting intentions survey, the results of which are scheduled for announcement January 25, is something Johnson said farmers will want to study closely as a means to guessing both the volume of U.S. production in 1971 and the qualities that will most likely be produced.

Under PCG by-laws, current association officers and all past presidents also serve on the executive committee. These include Secretary-Treasurer Paul Bennett of Littlefield and past president J. D. Smith of Littlefield.

A Morning Resolve

I WILL TRY this day to live a simple, sincere, and serene life, repelling promptly every thought of discontent, anxiety, discouragement, impurity, selfseeking; cultivating cheerfulness, magnanimity, charity, and the habit of holy silence; exercising economy in expenditure, generosity in giving, carefulness in conversation, diligence in appointed service; fidelity to every trust and a childlike faith in God. In particular I will try to be faithful in those habits of prayer, work, study, physical exercise, eating and sleep which I believe the Holy Spirit has shown me to be right.

AND AS I cannot in my own strength do this, nor even with a hope of success attempt it, I look to thee, O Lord my Father, in Jesus Christ my Saviour, and ask for the help of the Holy Spirit.

**Our very best wishes
to all our friends from the folks
at Security State Bank.**

If you would like a lithographed copy of "Morning Resolve", we have a limited number, suitable for framing, available at the bank.

Two Wrecks Investigated

City police have investigated only two wrecks since Friday morning.

Friday afternoon, Kenneth Pratt of Littlefield was driving a 1964 Chevrolet southward on LFD Drive when a 1967 Chevrolet, driven by Jerry Richardson of Plainview, was traveling east on 14th Street and failed to yield the right of way to the Pratt vehicle at the intersection. The two collided.

The Pratt vehicle was damaged approximately \$50 worth, and the Richardson vehicle received about \$250 in damages.

Later that same afternoon, Paula Kay Thomas of Littlefield, had stopped her 1965 Mercury at the stop sign on the courthouse parking lot, when a 1967 Pontiac, driven by Carolyn Sue Gray of Littlefield, came

from behind and struck the Mercury.

Damage to the Mercury was about \$90 to the trunk lid and chrome.

The Pontiac received very little damage to the front grill.

Two Car Wreck At Springlake

A two-car wreck at the intersection of U. S. 70 and 385 at Springlake was investigated by Highway Patrolman Weldon Parson Saturday afternoon.

Raymond Caldwell of Leon, Okla. was driving east on Highway 70 in a 1969 Ford pickup while Clyde Brock of Baytown was approaching the intersection in a 1964 Chevrolet station wagon. The brakes on Brock's station wagon failed and his vehicle hit the front left fender and bumper of the Caldwell pickup.

There were no personal injuries to any of the four occupants in each of the vehicles. Damages of \$200 were set on the Ford and \$400 to the Chevrolet.

Census Bureau Slates Canvass

Questions on consumer buying and home improvement expectations will be asked by representatives of the Bureau of the Census in this area during January, according to Walter A. Freeman, Jr., Director of the Bureau's regional office in Denver.

Representative for this area is Mrs. Rosemary McNeese of Amherst.

The questions are asked four times yearly as part of a nationwide effort to collect information as a guide to Federal agencies and other groups in developing programs based on consumer spending patterns.

A sample of residents in this area will be asked if they expect to buy a house, car, or major appliance during the next year and if they have made recent purchases of these items. Homeowners will be asked about home improvements and repairs during the last three months and any planned for the future.

In the third quarter of 1970, the survey indicated that consumer spending plans were little changed from the second quarter, while the percentage of families expecting their incomes to decline within 12 months had increased for the fourth quarter in a row.

Information supplied by individuals participating in the survey is kept confidential by law and will be published only in the form of statistical totals.

PLAN TRIPS

Visiting friends and family during the holiday season is part of the fun, but often trips are planned on too tight a schedule. Plan trips well in advance and don't "make up time" on the road.

MRS. GORDON RAY GRAVES JR.

Miss Janice Rasco Weds Gordon Ray Graves Jr.

Miss Janice Rasco and Gordon Ray Graves Jr., were united in a double ring wedding ceremony Saturday evening, Dec. 26 in the Melonie Park Baptist Church of Lubbock.

Officiating for the ceremony was Edgar Earle McDonough, minister of the Plainview Church of Christ.

Parents of the couple are Mr. and Mrs. Trilton P. Rasco of Lubbock and Mr. and Mrs. Gordon Ray Graves of Littlefield.

The bride, given in marriage by her father, wore an empire styled gown of white re-embroidered chantilly lace over a peau de soie skimmer, fashioned with a high neckline and tapered sleeves. A peau de soie band, edged in scalloped lace with tiny buttons centered the front of the dress. Her bouffant mantilla was outlined in matching scalloped lace and attached to a crown of pearl leaves and crystal drops, that fell to chapel length forming her train. She carried a cascade of carnations atop a white Bible.

Mrs. Donna Childers attended the bride as matron of honor. Miss Elaine Graves of Littlefield, sister of the groom, was bridesmaid.

Dale Graves of Canyon served his brother as best man. Doug Kemper was groomsmen. Guests were seated by Gary Brothers of San Angelo and Pat Lupton of Shallowater.

Shirley Rumsey and Marcelia Hart lighted the candles. Flower girl was Renee Hart and Jeffery Rumsey was ring bearer.

Musical selections were by Mrs. Washam, organist and Mrs. Kenneth Rhoades, soloist.

The attendants wore aqua formal-length gowns fashioned with empire waistlines.

A reception followed the ceremony in the Fellowship Hall of the church. After their wedding trip to El Paso the couple will reside at 2910-A Harvard Ave. in Lubbock.

The bride is a 1968 graduate of Monterey High School. She attended South Plains College in Levelland and is employed by Jenkins Furniture Center in Lubbock.

Graves is a 1968 graduate of Littlefield High School and a graduate of South Plains College. He is presently attending Texas Tech and is employed by L. B. Foster Pipe Co.

"Give me one good reason to wait and band Caparol when I plant my cotton."

It'd be quicker to give you the only good reason why you shouldn't.

Giving you all the reasons why you should switch from broadcasting a pre-plant cotton herbicide, to banding Caparol pre-merge, takes longer. Because there are at least seven good ones.

- You don't have to tie up money in weed control months before you need it. Banding Caparol pre-merge at planting, keeps your options open until the seed goes in the ground. And you're using money over a shorter time period.
- The economics of banding Caparol, instead of broadcasting and incorporating a pre-plant, is the only reason some growers need. Caparol is the best answer yet for the problem of tight money, cheap cotton and weed control.
- Caparol is easy to apply. Just mount a spray nozzle behind each planter wheel and you can plant and spray in one trip. When the cotton is in, the herbicide is on.
- Planting can't mess up a Caparol treatment. Busting too deep or knocking off too much soil with the planter can undo even the best pre-plant incorporated treatment. But not Caparol. It's sprayed

behind the planter. The last to go on the seedbed.

5. No incorporation is needed. you pre-merge Caparol. you save the cost of incorporation, and you save soil moisture, as well.

6. In addition to great carelessness control, Caparol controls morningglory. Pre-plant herbicides just can't touch it.

7. You can rotate to sorghum or follow again with cotton without danger of injury. Caparol does not cause a carryover problem.

Now if you only needed one reason to wait and band Caparol when you plant your cotton, you have plenty to choose from. And they are worth checking into. If you do, it's a better than even bet you'll join the switch to Caparol.

The only reason not to band Caparol is a severe grass infestation is likely to be more of a problem than broadleaves. This is about the only reason left for broadcasting a pre-plant herbicide.

Check it out for yourself. Caparol to the test this year. See the switch is on to Caparol.

New Year's--What A Day!

The First Day has been celebrated as early as the autumnal equinox, About Sept. 21, and as late as the summer solstice, about June 21.
 In most European countries during the Middle Ages, March 25 was the beginning of the New Year. And legend has it that El Cid, the great hero of Spanish liberation from the Moors, once won a great battle on New Year's day by giving his tired horses generous gulps of sherry the night before.
 The Russian people, long ago, gave the New Year a roaring welcome with a hundred cannon shots at midnight.
 In ancient China, people took a different approach to the First Day. They cleaned house, paid debts and closed their shops.
 Then they shot off their firecrackers... and who can ever forget a New Year's in Chinatown of a big American

city, with its colorful procession and fiery paper dragons breathing good cheer to everyone!
 Near China, in old Japan, New Year's was a time for everybody to don new clothes, take three days off from work and visit their friends.
 Each gatepost would be adorned with green pines and bamboo. And over each door would hang red lobsters, crabs and scarlet tangerines, standing for long life and happiness.
 Gypsies in Spain used to marry on New Year's Eve. The 18th century writer George Borrow tells us that a main feature of the bridal ceremony was the feasting associated with it.
 Once the Gypsy couple took their vows, guests ate and sang and danced throughout the night and day.
 Not to be outdone, Italinas just consider January 1st as part of their Yuletide festival, and so revel until Twelfth Night, 12 days after Christmas.
 In Vive-La France, New Year's Day is so singular that

adults let Christmas pass by and exchange presents on January 1st.
 In America today, New Year's festivities range from gala gatherings to cozy conviviality.
 Regardless of the size of the party, men and women look their best on the occasion and radiate scent-sational fragrances such as Shulton's Burley after shave and cologne for men and Desert Flower for women.
 Both help make a splash among New Year's guests all over the country.
 John Ruskin, noted 19th century English critic, once toasted the New Year in by saying: "I consider just and tolerable the drinking of sherry from dawn to dusk... Happy New Year!"
 Tradition has it that in Scotland the first one in a house on New Year's Day gets a big, big bear hug. Why? Because he has brought the host good luck. Midnight Scot celebrators carry cakes and spiced ale to wish their host a good year.
 And the same to you!

NEW YEAR'S - WHAT A DAY!

Texas Economic Growth Slowed During 1970

The pace of Texas economic growth slowed during the 1970's, chiefly under the impact of federal fiscal policy, Texas Employment Commission indicates.
 But TEC in its annual report to Governor Preston Smith makes it clear that the whole picture is not bleak.
 Unemployment went on a rise, to be sure, the rate going from 2.6 to 3.7 per cent of the labor force, highest closeout figure of any fiscal year since 1965. Several major areas of the state were hit hard by the cut in defense spending.
 The labor force continued to grow, though at a much slower rate. Total employment was estimated at 4,629,700 at fiscal year-end, up 1.5 per cent from the previous year.
 Nonagricultural employment was estimated to be up 1.9 per cent over last year, hitting 4,323,700. The estimated agricultural employment, 306,000, was off 3.6 per cent, due

mainly to a substantial reduction in the number of workers needed in the coastal bend area, caused by Hurricane Celia.
 TEC sought to promote maximum employment by encouraging the development and full use of all manpower resources, placing 349,077 persons in nonagricultural work. This was a decline from 458,046 in fiscal 1969.
 A landmark during fiscal 1970 was the initiation of a computerized job bank in San Antonio to provide more effective services to both applicants and employers.
 A conceptual model office was installed there to make use of job bank data, and a job information service was provided which included a job search information unit aimed primarily at disadvantaged residents in ghetto areas.
 Agricultural placements, at 199,432, were down only moderately, despite a decreasing need for seasonal farm workers due to increased mechanization. This accelerating trend forces many farm workers out of the migrant stream, and TEC has redirected some resources to provide employability development service to these workers.
 The 733,911 who sought work through TEC in 1970 represented a yearly increase of 14 per cent. Among these were 142,474 veterans. Commission offices counseled over 82,000 of the new applicants, and administered ability or skill tests to 86,451.
 TEC paid out \$46,912,306 in unemployment benefits during

fiscal 1970, up from the \$27,413,021 of the previous year. Claimants received an average weekly payment of \$38.74 and an average total amount of \$378.88.
 This decreased the Texas Unemployment Compensation Fund by more than \$5.2 million, to \$347,964,929. Since the fund still exceeds \$300 million, most employers may anticipate another reduced tax rate in 1971. Of the experienced-rated employers, 94.7 per cent are now eligible for the minimum unemployment tax rate of 0.1 per cent.
 TEC extended special service to veterans, handicapped applicants, youth, older workers, and minority groups. It found time to participate in several extended service projects such as the work incentive, concentrated employment, model cities, volunteers in service to America, public service careers, and the supplemental training and employment programs.
 Screening and referral of persons to training in job skills was another TEC major effort during 1970, working through special programs such as manpower development and training, NAB-JOBS, the cooperative area manpower program, job corps, neighborhood youth corps, operation mainstream, new careers, and the special impact program.
 The Commission had 129 regular institutional training projects approved for 3,035 MDTA trainees, and provided special training opportunities to over 22,000 more.
 In addition, 16,098 persons

were placed in NAB-JOBS training where the National Alliance of Businessmen in Texas and TEC work jointly to provide on-the-job training to the hardcore unemployed.
 TEC referred 4,854 eligible young people 16-21 to Job Corps, where they were prepared for the responsibilities of citizenship and taught job skills to improve their employability.
 Cooperative area manpower program was responsible for planning and coordinating efforts of federal and state agencies where programs aim at development and training of manpower.

Capt. Glenn Edwards Winner Of AF Award

A former Whitharral resident, Capt. Raymond Glenn Edwards, has been selected the Air Force's outstanding fuels management officer for the second consecutive year.

Capt. Edwards is the son of Mr. and Mrs. R.E. (Cy) Edwards of Whitharral, and is officer in charge of the 3535th Supply Squadron's fuels section.

A veteran of six years' military service, Captain Edwards received his award at a recent staff meeting from his wing commander. Prior to being named the Air Force's outstanding fuels management officer for both 1969 and this year, Edwards had received several first place awards. In addition to these honors, he is the recipient of two bronze stars.

Since his arrival at Mather, Capt. Edwards' section has been cited as 100 per cent effective in a Strategic Air Command (SAC) operation readiness inspection, best in Air Training Command (ATC) in 1969, and eighth in the Air Force during that year.

As fuels officer, Capt. Edwards is responsible for the procurement, storage and distribution of all fuels used by Mather and transient aircraft on a 24-hour, seven-day week schedule. To accomplish this, he distributes these tasks among the 96 personnel assigned to the section.

Other tasks the section performs is the distribution and storage of liquid oxygen and ammonia used on the 320th Bomb Wing's aircraft and airborne missiles.

Previous to his assignment at Mather, Capt. Edwards was the fuels management officer at Takhli Royal Thai Air Base,

Thailand, where he earned one of his bronze stars.

The father of a family of five, Capt. Edwards will soon be leaving Mather for re-assignment in Aviano, Italy.

Edwards is a graduate of Whitharral High School, South Plains College and Texas Tech. He taught vocational agriculture at Muleshoe before going into the Air Force.
