# Area School Officials Say Non-Segregation Will Work The South If Not Rushed

School officials feel, in re- non-segregation ruling on this week by the Supreme Court, that the problem and careful con- sideration can be worked out. Their statements to a Press reporter, agreed in this area will com- plete the ruling ending public segregation whenever it has been precisely when separate schools will be to both races.

Superintendent of Schools Pearce said Tues- day will follow the decision of the Supreme Court, but it is not until it takes effect that he will have much to work with. He said he has been involved in the average person thinks. He said he is surprised at the decision. He said he expected it. He said he is going to do it, because it is a step. He said he will be glad to see it. He said he will be glad to see it.

"I don't think any of us should rush into anything without considering the move from all angles. If we rush the result will be deleterious rather than beneficial to all concerned," he added.

**P-TA President Favors It**

Mrs. Oscar Wilemon, president of the Junior highschool P-TA, said "I definitely believe it can be worked out satisfactorily. I be-

## Forgery Suspect Awaits Probation Hearing Friday

Lamb county Sheriff Dick Dyer is holding James R. Allan in jail here pending a probation hearing for Allan in Muleshoe Friday.

Allan, who is out on a three year suspended sentence from Bailey county, is charged with forgery and passing "hot" checks in Littlefield, Lubbock, Spade, Amherst, Anton, Sudan, Muleshoe, Levelland, Hobbs, N. M., Lovington, N. M., and Amarillo.

Dyer picked Allan up in Levelland and returned him here, where he is awaiting the Muleshoe hearing in the Lamb county jail.

Allan was given the suspended sentence for forgery.

Dyer left this morning (Thursday) for Uvalde with a warrant for the arrest of Ruben Sanchez. Charges of leaving the county with mortgaged property have been filed against Sanchez. Sanchez is being held for Dyer by Uvalde authorities.

Commissioner W. C. Zachary (standing left) grilled telephone man Dusty Kemper at the Amherst city commission meeting Monday night. On the counter between them is a copy of the telephone company's brochure asking for an increase which would double some rates. Zachary was questioning some of the figures in it. ## Amherst Commissioners Resist Whopping Telephone Rate Raise

The Amherst city commission met Monday evening with officials of General Telephone Company to discuss the rate increase requested by the company. Present for the city were Mayor J. D. Nix and Commissioners W. C. Zachary and George Harmon. The telephone company was represented by Division Manager "Dusty" Kemper of Brownfield and District Manager Bob Blatz and District Wire Chief F. G. Roberts of Littlefield. Only visitor was a reporter from the Littlefield newspapers.

**Doubtful About Figures**

First reaction of the commissioners to the request for the increase was one of skepticism about the figures quoted in the company's brochure. They felt that at a time when most prices are holding steady or going down, the telephone company's costs should not have risen so much as to require a one hundred percent increase in business rates and a

## Wednesday Rites Henry Witt

Services for Henry Witt, held Wednesday afternoon at the Highway 51 Church of the Nazarene in the city. Mrs. A. B. Witt, widow of the late Henry Witt, died Tuesday at her home on 322 Phelp Avenue. She was 78 years old. She was born in the city of Littlefield, Texas, on December 10, 1880. She was a member of the church for many years. She was preceded in death by her husband and her two sons. She is survived by her daughter, Mrs. E. S. Collier, and her son, Mr. J. E. Knight.

## Hodges Back To Work Group

Women attending the anniversary of the South Texas Association in Lubbock and Saturday heard Hodges of Littlefield on the newspaper personality and character people who run it. He said it is vital for the people to know the truth about the newspaper industry. He said he has been in the industry for many years and has seen many things. He said he has seen many things.

## Hard Rains Force Replanting Of Thousands of Acres of Cotton

All of Lamb County got some rain from Tuesday's thunderstorms, but amounts were spotted. Some got as little as quarter inch, others as much as two inches. The official gauge at Western Cotton Oil Co. in Littlefield measured 1.27 inches. About half of that fell Monday afternoon and the balance before daylight Tuesday morning.

In a few places it fell so hard and fast that seed already planted and washed out. This, added to rotting caused by prolonged cool, damp weather, will force re-

## Landmark Comes Down To Make Room For New Home For Barber and Beauty Shops

Demolition work began this morning on the east side of downtown Phelp Avenue, the frame building which housed J. A. Lilly's shoe shop from the early 1920's until recent years. The building is being torn down to make way for a modern construction which will be erected immediately by W. C. "Dub" Gilder.

Gilder will use the new building as location for City Barber Shop and Orna's Beauty Salon. Gilder recently bought the site at 322 Phelp from Jack Farr.

The north half of the new building, 12 feet by 50 feet, will be used by the beauty shop, owned and operated by Mrs. Gilder. She said she plans to have a reception room in the front, a dry room at the back of the building, and four shampoo and work booths in the center of the shop. Mrs. Gilder said she will add to her present equipment two entirely new dryers, which work on a "cooled air" theory with no heat and no need for the customer to wear a hair net. The shop will be thoroughly modern and television will be provided in the dry room for the customer's entertainment, according to Mrs. Gilder.

A 75 foot parking area will be provided at the rear of the building, entering from LFD Drive, for beauty shop customers' parking convenience.

Beauty operators from the shop, Mrs. Gilder, Mrs. Bonnie Ward, and Mrs. Laveta Thompson, are currently attending a post graduate course in hair cutting and styling at Isbell's Beauty School in Lubbock.

The south half of the building will be occupied by the City Barber Shop, owned and managed by Gilder.

Gilder said the building will have an all-glass front with white brick trim. He expects construction to begin within the next ten

## Troy Stone Is New Manager of Larry's

Littlefield gets a new family from Lubbock this weekend when Troy Stone and wife Wilda move here.

He will be the new manager of Larry's Department store, owner Ernest Ameen announced this week. He replaces Dick Salzman, who has resigned effective Saturday night, May 22.

Stone, who is 28, has just been discharged from the Army after two years of service in the United States and Alaska.

He was manager of Ameen's store in Snyder immediately prior to his Army service.

Ameen says they will celebrate the new managers arrival by offering some unique specials next week.

## Norris Onstead Conducts HC Baptist Services

**HART CAMP** — Norris Onstead of Littlefield conducted both services at the Hart Camp Baptist church Sunday in the absence of the pastor, C. H. Vanlandingham. Vanlandingham is off the church field while holding a meeting at the mission church in Ft. Worth of the Polytechnic school.

Onstead recently surrendered to the ministry and is making plans to attend school at Hardin-Simmons university at Abilene.

He is well known in this area as a businessman connected with his father in the Onstead furniture firm. His wife and daughter accompanied him Sunday.

Monya Hauk, Littlefield high school junior, won the honors in the try-out for drum major of Littlefield Wildcat band last Thursday evening. Harley Don Bryant and Paul Renfro will be assistant drum majors. Frances Hall and Leta Merle Roberts were chosen as majorettes and Joan Parrack will be the new twirler for the coming year. Kenneth Cox of Lubbock was try-out judge for the drum majors and Miss Sue Wheeler of Levelland judged the majorettes. (Photo by Taylor Studio)

## Huber Plugs Reworked Well Abandoned Earlier by Cain

The rumors were false that said the Huber Corporation had made an oil well out of the Bundick No. 1 near Hart Camp. This well had been drilled and abandoned a few weeks ago by Homer L. Cain.

Huber reported Wednesday that they were pulling the pipe and preparing to plug the hole after failing in efforts to acidize a section where some oil show had been found. They said the oil bearing sand was so tight that they could not even get acid into it to loosen it up.

Three rigs are at work in the county drilling more test wells, and a fourth is expected shortly. Monday Western Drilling Company moved onto their location on the Yellowhouse Ranch nine miles southwest of Littlefield and began setting up to drill a test well to the Clear Fork formation, expected to be reached at a little less than 7000 feet.

J. M. Wellborn is drilling below 2000 feet on his test of the San Andres on the J. C. Hilburn lease seven miles southwest of Littlefield.

J. W. Murchison is about 5000 feet down in his projected 6700 foot test of the Clear Fork on the Henry Lisso lease seven miles southeast of Littlefield. He did not report any show of oil in the San Andres.

The Texas Company has not yet moved onto the C. R. Kerr lease approximately one half mile east of the Lisso well. It is also scheduled to go to the Clear Fork.

## Pro-Am Golf Tournament Opens Today

The West Texas Pro-Am Association's golf tournament at Littlefield opens Thursday morning at 9 o'clock, at the local County Club.

Prizes will be given the amateurs on winning teams and the Pros will play for added money.

The tournament will be on a point basis with 10 points for a hole-in-one, proportioned down to one point for a bogey. Prizes will be given the first three teams with highest points, and the two lowest amateurs and three lowest Pros.

Thirteen West Texas working Pros have registered for participation and others are expected to enter. An Amateur of Littlefield and surrounding area may enter, whether a club member or not. The entrance fee is \$3.00.

Last year, J. T. Hammett of Snyder was the low pro among 18 entered with an 8 under par score of 64. This also set a new Littlefield course record. Hammett captured the winning foresome of C. A. Rodgers of Lubbock, Jim Mangum of Littlefield and Dean Herring of Hereford.

Bill Sibley is the starter and the Ladies Organization of the Littlefield Country Club is handling the entry work.

## Jaycees Plan Junior League Baseball

Jaycees are planning now to organize a Junior Baseball League for local baseball enthusiasts, ages nine to twelve, according to Skipper Smith, project chairman.

Smith said a meeting will be held next week of representatives from local civic organizations or businesses that might sponsor a Little League team. Smith said anyone with suggestions is welcome to attend the meeting, time and place of which will be announced later.

Jaycees have not made definite plans yet as to whether the youngsters will play baseball or softball, and whether or not the national Baseball Congress rules will be used.

Youngsters interested in joining a Junior League team may contact Skipper Smith.

## Alabama University Students Elect Joe Cummings 'King of the Campus'

Joe Cummings, son of Mr. and Mrs. Frank Cummings of Littlefield, was elected "King of the Campus" at the University of Alabama recently. The honor is bestowed annually on an outstanding university student. Cummings was selected from about 15 candidates for the title.

Cummings was selected as one of the outstanding freshmen football players in the South Eastern Conference during the 1950 season at Alabama. He was held out of competition the next year to get more age, having entered the university at the age of 16 after graduation from Muleshoe high school in May, 1950.

During the 1952 season Cummings played in every game and was on the starting line-up in several. At the end of the season he was second on the squad in the number of passes caught and yardage gained for the season. Alabama capped this season off by playing in the Orange Bowl New Year's Day. In this game Cummings caught a pass to score a touchdown.

This past season, Cummings held a solid berth on the starting eleven, playing both offense and defense in all games except with Georgia Tech. He was out of that game with a broken blood vessel in his arm. The team won the South Eastern Conference without losing a conference game and played in the Cotton Bowl at Dallas Jan. 1, 1954.

Alabama head coach Harold Drew described Cummings as the best end on the entire squad. Head end coach Malcolm Lanes said, "I wish we had a room-full like him."

The 215 pound end also won third in the javelin throw in the final track and field meet held in Tallahassee, Fla., this year.

During his two years of varsity playing, Alabama has played in two major bowls and won the Conference title once.

## School Transfer Deadline June 1

County Superintendent J. Ernest Jones has reminded all parents wishing to transfer school children to another school district that application for the transfer must be made with the county superintendent before June 1.

The new law changing the time for taking the school census also changed the time for transfers, Jones said. Deadline for all transfer applications has been changed from August 1 to June 1.

Jones said the Lamb county school board will meet June 7 to review all transfer applications for Lamb county. All applications must be made with Jones, whose address is 123 South Westside Avenue, Littlefield.

## Alabama University Students Elect Joe Cummings 'King of the Campus'

There was a tongue in cheek discussion about the desirability of meters to charge customers according to the amount they use their phones. Kemper insisted this would automatically raise phone bills every year because people are using their phones more all the time. Harmon said that would not do for him because someone is using the phone at his house all the time.

Nix said at the rates they are getting he could not understand why they did not build more rural lines and wondered when they were going to build out past his farm near Earth.

Blatz said his farm was in a disputed area where both the General and the telephone cooperative claim the right to serve, and that until the dispute is settled no one will feel like building a line into that area.

The commissioners finally said they were not going to do anything until they had talked it over with the people of the town. The phone man said they would be back on Monday, June 7 for the commission's next regular meeting.

## Mrs. J. W. Walker Discusses 'Friendship' At May Breakfast For Littlefield Woman's Club

Littlefield Women's Club members and guests heard as guest speaker for the Friendship Breakfast on Saturday morning at Community Center, Mrs. J. W. Walker of Plainview.

Mrs. W.D.T. Storey and Mrs. G. A. White registered over 100 guests and members.

Mrs. Ned Fairbairn presided over "coffee on the house", assisted by Mrs. S. E. Ayres, jr., and Mrs. W. A. Wolfe. The coffee was served from an antique ironstone coffee server on a swinging stand from a table laid with white woman's heads were filled with linen cutwork cloth. Ceramic roses and frills of fluted paper to form the crown and brims of hats. A ceramic blue bird carried in his mouth a note lettered with the word "Welcome". Guests were seated in a homelike atmosphere during the serving and later invited to the tables which were placed in the shape of a large "E".

A profusion of roses and other garden flowers decorated the tables. Tiny horsehair lace baskets of roses, mock orange and greenery were plate favors. At the speaker's table, a tiered base of blue brocade, entwined with pink flowers, was topped by ceramic hands, clasped in symbolic friendship, whose beauty was enhanced by cuffs of net scattered with sequins.

Mrs. T. L. Dunlap was general chairman of arrangements and Mrs. A. B. Brown program chairman.

Invocation was offered by Mrs. E. A. Bills, after which Mrs. Doc Wright directed the group in singing "Friendship Onward." Mrs. Roy McQuatters sr., club president, greeted the members and guests.

At organizational level, she expressed the belief that it is necessary for us to be discriminating in joining organizations, realizing that there is not time for everything, only for the finest. She also stated that it is impossible for the average citizen to make himself felt except through organization.

In talking of our international relations, Mrs. Walker stated she have inspired hatred where we have been of service because of the manner in which we offered help, and that we as a nation are lacking in humility. We have, she said, failed to remember that what we have which lifts us above others, also carries with it responsibility.

Mrs. Walker told her audience that public opinion is most influenced at "the family eating board" and pointed then to the statue of the Pioneer Woman, with a child in one arm and her Bible in the other hand, stating that we need to "get back home and look right in here", pointing to her own heart.

At the conclusion of the address, Mrs. Brown presented Mrs. Walker with a blue organdy apron, decorated with white daisy medallions, symbolic of remembrance and friendship, on which was written the names of each member of the Littlefield Woman's Club.

The meeting was concluded with the singing of "Blest Be the Tie That Binds."

Out of town guests were Mrs. Joe B. Foster, Sudan, Mrs. E. J. Stone of Sudan, Mrs. John R. Carter of Plainview, Mrs. Bonnie Haberer and Mrs. G. C. Green of Earth, Mrs. Gene Mayfield of Levelland, Mrs. J. A. Lumaden of Spade, Mrs. C. E. Payne of Lubbock and Miss Anna Neal of Petersburg.

## Miss Anzeline Is Lingerie Shower Honoree

Misses Mona Hawk and Marian Nicholson invited about 35 girls to a come-and-go lingerie shower on Saturday from 3:30 to 5:00 in the George Nicholson home at 319 South Cundiff avenue, complimenting Garland Anzeline who will marry Joe Walden on June 13.

The party carries a motif of daisy mums and ivy, Garland's chosen wedding flowers. Cakes were iced in a large punch bowl which was surrounded by garlands of ivy into which daisies were wired. Sandwiches and green cakes adorned with white wedding bells were served. Corsages of white daisy mums were worn by the honoree and members of the house party.

Mrs. Gerald Chisholm registered guests in the bride's book, one half of which was folded back and covered by a tiered spray of ivy and daisy mums.

## Winsome Class Has Progressive Meal

The Winsome Sunday School class of the First Baptist church reported a good time at a Progressive party Tuesday evening of last week.

The party started at the home of Mrs. Lee Hemphill, the teacher. A devotional using the theme, "Life Beautiful" was presented. A combination of Scripture readings was given by Mrs. Glen Pressley and songs by the group and by Leta Merle Roberts. Rosa Lee Hemphill was the pianist. Orange juice was served to guests in this home.

The next home visited was that of Mrs. Curtis Chisholm, where corsages of roses were pinned on the visitors. Sandwiches, a salad and coffee were served here. Darlene Chisholm and Freddie Gerlach played several piano selections.

From there the party moved to the home of Mrs. Irvin Onstead, where a dessert course was served. The guests were given cards on which Bible verses were written and each read the card to the group.

Members attending were Mrs. Buck Ross, president of the class, Mrs. John Holder, Mrs. John Allen

## Father Of The Bride Performs Smith-Bryant Nuptials May 11

In an impressive candlelight ceremony at the First Baptist church of Fieldton, Tuesday evening at eight o'clock, Miss Trudie Ray Smith, daughter of Rev. and Mrs. Fred Smith, became the bride of Driscal Lynn Bryant of Whitharral.

The double ring ceremony was performed before an altar of tall baskets of white, yellow and orchid asters. Travis Bryant and F. E. Yohner lighted candelabra of white tapers that formed the background for the altar.

Rev. Fred Smith, minister of the First Baptist church of Fieldton, and father of the bride, performed the ceremony.

Miss Ann Spalding of Knott, Tex. provided traditional wedding music. Clarabeth Theford of Littlefield sang "Ah, Sweet Mystery of Life" and "Because."

The bride was given in marriage by Jake Spalding of Knott. She

and nosegays. Miss Lindsey's dress was blue and the others were orchid, green, pink and yellow.

Jerry Hukill of Fieldton was ring bearer and carried the ring on a white satin pillow edged with lace. Little Miss LaJuana McGuire was flower girl.

Joe Al Bryant, brother of the bride-groom, attended as best man. Ushers were Jimmy Hisaw of Whitharral, Jimmy Ted Irvin of Big Springs, F. E. Yohner of Littlefield, Travis Bryant, brother of the groom, Whitharral.

The bride's mother wore a navy dress with white accessories and a white corsage. The groom's mother wore a navy suit with pink accessories and a pink corsage.

A reception was held immediately after the ceremony. The bride's table was laid with a lace cloth and centered with a tiered all white wedding cake, topped

The bodice was adorned with tiny buttons past the waist line in the back and at the wrist. Her veil was of Chantilly lace and nylon net, waist length. She carried a white Bible topped with red rosebuds.

The bride's attendants were Miss Lena Lindsey, of Colorado City, cousin of the bride, who served as maid of honor. Bridesmaids were Edith Harrell of Knott, Texas and Miss Carol Robinson and Miss Earlene Roberts and Barbara Champion of Littlefield. They all wore identical waltz length dresses of organdy and tulle over taffeta with matching picture hats

with a bride and groom and bordered with silver balls. Green punch was served. Miss Jimmy Hisaw served the cake and Miss Edna Harrall of Knott, Texas served the punch.

Ann Royal of Fieldton registered the guests.

For travel the bride chose a rust colored dress with beige jacket. Her accessories were rust and white.

After a wedding trip to Santa Fe and other parts of New Mexico, the couple will move into their home near Whitharral.

Mrs. Bryant attended school at Littlefield three years. She is a member of the Wildcat Band, Littlefield chorus, and the Rainbow Girls.

The groom is a 1953 graduate of Whitharral.

## Miss McCleskey Is Honoree At Gadget Shower

**SPRINGLAKE** — Kitchen gadgets galore were bestowed upon Miss Shirley McCleskey in the home of Mrs. Roney Smith, Tuesday, May 11. The shower honored Miss McCleskey, who is the bride-elect of Loyd Skinner.

Parents are Mr. and Mrs. Glen McCleskey and Mr. and Mrs. B. L. Skinner, all of Springlake.

Misses Lois Lewis and Marylyn Riley served guests from a lace-covered table. Two wide ribbon streamers of pale blue with gold letters — "Loyd and Shirley" — graced the table. The tiered cake was topped with blue roses. Clever place cards with varied small kitchen utensils also echoed the couple's names. Pastel colored mints and assorted nuts were

## WSCS' And Guild To Meet Sunday For Installation

Woman's Society of Christian Service and Wesleyan Service Guild will hold a joint installation of officers at the regular evening worship service on Sunday night at the First Methodist church.

They will be served with the cake and fruit punch.

A girls trio — Miss Joan Maxcey, Miss Lewis and Miss Riley — sang three appropriate selections.

Miss McCleskey was aided in opening the gifts by her mother and Mrs. Skinner. About twenty-five guests were registered. The wedding is to be in the Springlake Baptist church, May 23, at 4:00 p.m.

## Oklahoma Avenue Club Has Lunch, Furniture Study

Oklahoma Avenue Home Demonstration club met Friday in the home of Mrs. M. M. Dubose for their annual covered dish luncheon and all-day meeting.

Mrs. C. E. Jones, president, presided over the business meeting. Mrs. Fred Lichte led the group in singing "Count Your Many Blessings" and "Sweet Hour of Prayer." Mrs. Ray McKinney read a poem by Edgar A. Guest entitled "Mother" and Mrs. C. C. Solesbee read "Recipe for Mothers Love." She also read a scripture, Matthew 22: 31-32.

A game called Heads, Hands and Feet was played.

Roll call was answered by naming "pictures I like the best." The members voted that instead of the next regular meeting, they would meet at the home of Mrs. Roy Blessing at 10:30 a.m., May 28th and go by car in a group to Lubbock on a tour of the Television station, several floral shops and a bakery. The group will eat lunch in Lubbock.

Mrs. Hazel Hickman gave a demonstration on suitable furniture for the individual family. She urged the members to "use much care in choosing furniture," to "be sure it is not too high or too low for the individuals who will use it," and to consider the construction and material of the furniture. Mrs. Hickman stated furniture labels should be studied when purchase is being considered.

Mrs. Hickman showed colored slides of chairs suitable for individuals, some that were too short and some that were too tall for the individuals using them. She also showed furniture suitable for the room and examples of the wrong kind of furniture, and of good and poor construction in furniture.

A discussion followed on fabric and furniture covering. Those present for the club meeting were Mrs. Leonard McNeese, Mrs. H. W. Odum, Mrs. B. D. Thompson, Mrs. E. T. Miller, Mrs. Ray McKinney, Mrs. U. E. Kelly, Mrs. Fred Matthews, Mrs. J. M. Griffin, Mrs. J. F. Tomlinson,

# Olton Is Regional Baseball Champ

The Olton Mustangs won sweet revenge from the Dalhart Wolves, 6-4, taking the Region 1, Class A baseball championship Tuesday afternoon in Olton.

Last year Dalhart defeated Olton for the crown but this week Olton won their first playoff game on Monday afternoon in the Panhandle town, 10-7. Then Tuesday they made a clean sweep of the best two out of three series.

Clifford Curry went all the way pitching for the Mustangs to make his seasonal total 3 wins and one loss. Dale Devers had to take the loss in pitching for Dalhart and was relieved in the sixth by Joe Montana.

Olton's Bobby Bryant paced the winners with 5 hits in 5 trips to the plate for more than half his teammates 9 hits. Every hit was a single. The Wolves made 10 errors to make victory easier for the Mustangs.

Tuesday's game was made more exciting with a little high-spirited fisticuffs in the sixth inning when the score was tied. Dalhart's catcher, Ashby Lewis slid into home plate with his spikes riding high. Olton's catcher, grid-iron star, R. V. Alcorn, swung at Lewis. Umpires and teammates broke it up in a hurry before either player was hurt. There seemed to be no feeling or spirit of antagonism between players at all when play was resumed.

The Dalhart coach immediately took Lewis out of the game, but the umpires took no action. They told the coaches that it looked like only a spark of the close competitive spirit of the game. The two catchers were seen shaking hands and grinning over the incident after the game.

The Olton Mustangs finished this season with a remarkable record of 14 wins with only one loss. That one was their first of the season when Plainview eked out a 5-3 game in the last inning.

Olton Ace, Guy Cranberry, came through the season with a pitching record of 8 wins and no losses. Don Macon won 2 games with no losses, Lonnie Stephens won 1 with no losses and Curry had a 3-1 mark.

Olton took the north half of the District 2-A crown while Slaton won the south half. The Mustangs took the one game playoff last week to make it two District 2-A crowns this year. Their first was in football.

This is the first Regional crown the Mustangs have won in any sport, but the rising sports power at Olton has taken many District championships in recent years.

## Lubbock Sports Show May 22-23

LUBBOCK — The First South Plains Sports Show will be held at Chapman Field House in Lubbock the week-end of May 22-23.

At least 26 booths will exhibit the latest boats, motors, guns, fishing equipment, camping equipment and countless other items of interest to men, women and children who participate in both indoor and outdoor sports.

A planned program of entertainment, exhibits and contests will be carried out three different times during the two-day show. The first show will be at 4 p.m. Saturday, the second at 8 p.m. and the third at 4 p.m. Sunday.

## Sudan Schedule For '54-'55 Toughest Ever

Coach Francis Smith of the Sudan Hornets has announced several games arranged thus far for the 1954-55 basketball schedule. This will be the toughest schedule the Sudan school has ever faced in basketball.

Games and dates already arranged and agreed upon are with Lubbock, Pampa, Clovis, Levelland, Hereford, Seminole, Abertashly, Sundown, Hale Center and Shallowater. Lubbock and Pampa are Class AAAAA schools. The Pampa Harvesters were winners three consecutive years of the Class AAAAA state championship in basketball.

The Hornets will have most of their 1953-54 team back and particularly their star center, Leon Hill.

## Emanuel Lutheran V.B.S. June 7-18

Emanuel Lutheran church has announced dates of Vacation Bible School which will be from June 7 through June 18, from nine to eleven each morning. The school is under the direction of the pastor, Rev. Gilbert Seager.

## Wayne Cunningham...

It is good that the kids get a three months vacation (many of our athletes will work) and the teachers get a vacation (some will go to school) but I wish school wouldn't close down for the summer. I'll have to drive to Sudan and Olton to get sports news twice a week.

The Olton Mustangs took the District baseball championship in a dandy game Thursday afternoon from Slaton. R. V. Alcorn came through again with a double driving in the winning run. There was some real good baseball out there.

## SUDAN IN BASKETBALL

Sudan will have a good team back next year in basketball. Coach Francis Smith doesn't soft-soap the schedule any. The Hornets have games scheduled with Class AA, Class AAA and Class AAAAA for next season already. That 4-A team is Pampa, thrice the state basketball champions. No doubt the Sudan boys will try to warm up in non-schedule workouts with the Lubbock Westerners again as they did last December.

You know they almost beat the Westerners the first half. If Polk for his Texas Tech Red Raiders I suppose Francis Smith would try to get a warm-up game with Tech, also. I wouldn't be a bit surprised if the Hornets don't upset either Lubbock or Pampa on their regular scheduled game.

I know one thing. You can look forward to two of the best games you have ever seen when Sundown and Sudan get together next season. Sundown will have all its height back, too. Both schools are in small towns. Both schools will have the height and experience and both schools have about the best coaches in West Texas.

Littlefield and Sudan games ought to draw big crowds in both towns. That would be one game on the Wildcat schedule that would almost pay for the season of basketball in one night's crowd. I would like to see Sudan on the Littlefield schedule next year.

Has anyone heard how Billy Gage is doing as a pitcher over in Clovis for the Air Force team? There are enough Gages in Whitharral and Littlefield to mail me a clipping of some of his games occasionally. He can do it if they give him a chance over there. Billy was going good with the Lubbock Hubbers before their season opened a couple years ago, when Uncle Sam called him.

One of the year-before-last American Legion Boys' team pitchers had a split ball that wasn't illegal. He'd spit after he threw it. Once in awhile he would miss the ball and it would go across the plate straight, but when he hit it he claimed the ball did all the dipping tricks. Nobody but a West Texas could tell one like that.

## Olton Wins Bi-District

Guy Granbury of Olton pitched a two-hitter to lead his Mustang team-mates to the District 5-A baseball championship Thursday afternoon at Olton, with a 4-2 win over Slaton.

Olton had won the north half of the District 5-A baseball crown and Slaton the south half. Their Monday afternoon but was rained out.

The batting star of the day was iron quarterback, R. V. Alcorn. Alcorn drove in the winning runs in the extra eighth inning with a double out in center field. He had previously driven in another run with a single earlier in the game.

Slaton's pitcher Felix Wylie was charged with the loss.

## Rodeo At Post Begins May 26

The annual four-day Post Stampede and Rodeo will open May 26 and continue through the following Saturday, with night-only performances scheduled. A new event in the Post Rodeo will be the cutting horse contest. Added attractions at the rodeo will include specialty acts and dances each night at the rodeo grounds.

## 4-Minute Mile

Roger Bannister broke all the laws set down by the great mile coaches. It was supposed to be run by a 61, 60, 60, and 58 second laps. He ran the first lap too fast to be able to run the 4-minute mile (which was often called impossible).

They all had it figured out that the 4-minute mile, if ever run, would be done in Sweden where the altitude and the climate was Bannister ran in England where the humidity is low and the temperature was higher.

The books written said the 4-minute would be run with a large crowd to spur on that last lap. Over 1300 showed up, because no one had any idea Bannister would even try for the record and if he did he had no chance.

There would be no wind when the 4-minute mile was done. Runners find backing the wind losing going with it on the other side of the track. Bannister ran and did the impossible with a 15-mile per hour wind.

wouldn't it be a shame if the Authorities wouldn't accept the record? Everything seems to indicate that everything was up to par in timing, track measurement (which turned out to be a little over a mile), competition legal, etc. In my book Roger Bannister deserves the world-wide recognition for being the first to ever run the mile in 4 minutes or less.

I still drive past the softball diamond looking for the lights to come on. I'm an American and baseball's in my blood.

## Week Remodeling Celebration At Cicero Smith Co.

Thomas C. Land, manager of the Cicero Smith Lumber company at Littlefield, has announced plans for a full week's remodeling celebration which begins Saturday, May 22. Free gifts will be awarded to visitors who inspect the store during the week; on Saturday May 29 a public drawing will be held at which a large-screen television set and other valuable prizes will be awarded. Everyone is invited to go in and register for the free prizes.

The Cicero Smith store in Littlefield is one of 27 in the system; 22 operate in Texas; three in Oklahoma and two in New Mexico. The firm was founded in 1903 with headquarters in Fort Worth, and with only three yards located in Fort Worth, Alvord, and Decatur. General offices are still located in Fort Worth.

Visitors to the remodeled store here will notice many improvements. The interior of the local store is colorful and well lighted, filled with scores of items that make the store a one-stop shopping center for lumber, paints,

tools, building materials, and building supplies. In addition to these items have been added small appliances, kitchenware, sportswear, linoleum, plumbing, electrical tools and garden tools are all now available.

Of particular interest to home owners and those planning to build is the "Planning Center" in the store. In this area of ideas, plans, and available without charge.

In addition to the mentioned, the store is finished in a variety of wall paneling for every need and representative selection of products for convenient display.

**VBS Registration  
Friday Afternoon  
At Baptist Church**

Friday afternoon at 2:30 o'clock will be Registration Day at the First Baptist church, according to Ernest Hock, educational director. Young people are invited to register for the Vacation Bible school at that time. This will enable the workers in the school to arrange for the school which will begin on Monday morning at 8:30. Refreshments will be served after registration, which will last for one hour.

The Vacation Bible school will begin each morning at 8:30 and close at 11:30 a.m. There will be hand work for all of the young people and there will be classes for all of the children from ages four through sixteen.

The young people will receive from four to six hours of Bible teaching during the eight days that the school will run. Any children who are not attending Sunday School at the First Baptist Church are cordially invited to come and to bring their friends with them, Hock said.

services Sunday night even though they numbered few due to the absences attending Baccalaureate services at Olton, Cotton Center, and Littlefield.

Yvonne Huff had charge of activities. Mrs. M. W. Wheeler and Mrs. Ivy Thompson treated the group to fudge and pops.

**Jr. Brotherhood  
Enjoys Chili  
Supper Monday**

Junior Brotherhood of First Baptist Church counted eighteen boys present when they met Monday night for a chili supper, which was prepared by Norman Renfro. A song service was led by Wayne Wicker, after which plans were made for care of the church lawn, which is the permanent project of the organization.

A film of "Stranger at the Door" was shown.

James Renfro is president of the group and Paul Yarborough is project chairman. Dr. Albert Perkins is adult sponsor of the comparatively new organization.

**Thirteen Hour  
Devotion At  
Catholic Church**

The "Thirteen Hour Devotion" were opened at the Sacred Heart Church Mass last week with Rev. F. M. Higgins officiating. The evening services consisted of the Rosary, sermon, and Benediction. Services were closed with the Divine Praises.

Father Thomas Reilly of Brownfield gave the sermon. Officiants were Fathers Reichel of Plainview and Peter Morsch of Nazareth.

**Name Workers For  
Hart Camp V. B. S.**

HART CAMP — The Vacation Bible School dates for Hart Camp Baptist church have been set tentatively for June 7 through 18 on weekdays from 8:30 to 11:30. Workers already named are for the Intermediate department: Mrs. Homer Worley and Betty Wheeler; Junior department, Mrs. Junior Muller and Sue Sullivan; Primary department, Mrs. C. P. Montgomery, Mrs. C. E. Timmins, Yvonne Huff and Betty Franklin.

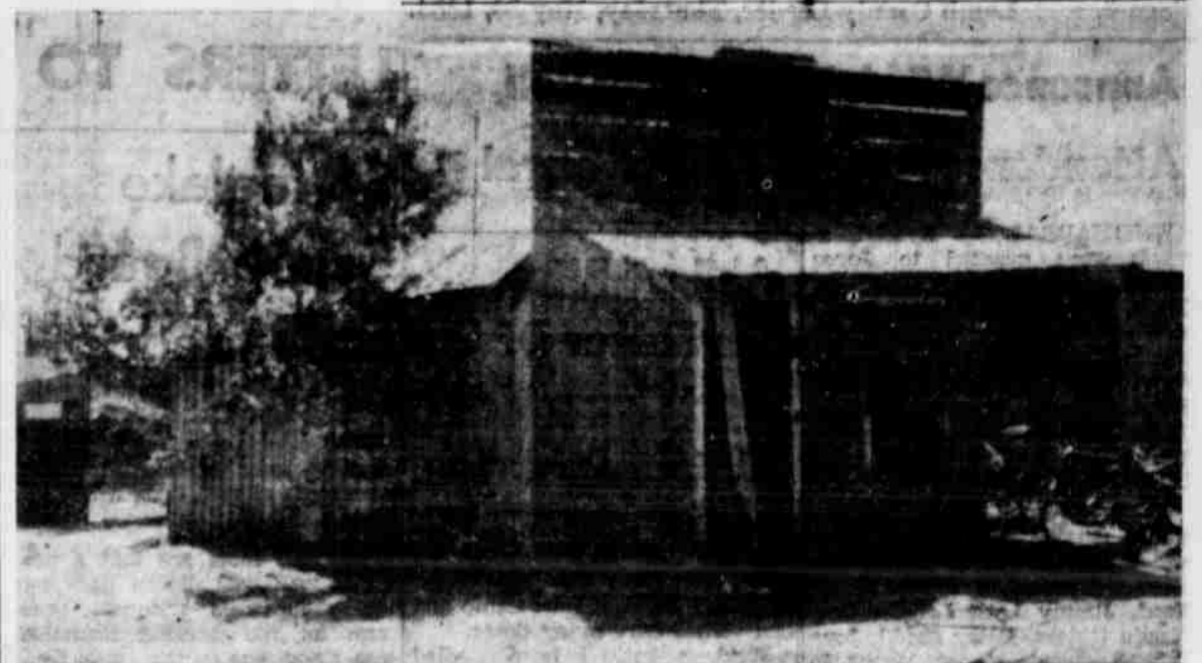

The beginners department is incomplete with Phyllis Worley as one worker thus far. Every child is invited to attend regardless of church affiliations.

Some of the workers will attend the Workers meeting at Earth on Friday to get new ideas on V.B.S. Rev. Charles Vanlandingham will be principal of the school.

**Mrs. Raines Is  
Honoree At  
Bridal Shower**

WHITHARRAL — A bridal shower for Mrs. Melvin Raines of Littlefield was given Wednesday afternoon at 3:30 in the home economics cottage here.

Hostesses were Mesdames Henry Jones, David Mitchell, R. E. Watson, Elva Crank, Chester Borders, H. G. Walden Everett Gage, T. E. Howard, Weldon Newsom, Jack Milburn, and Norman Hodges.

LITTLEFIELD'S FIRST tourist court? The old building shown above originally served as the office in the wagon yard for folks coming to town with their horses and wagons. In the early 1900's it was located between the highway and the railroad and served as a bunkhouse for freighters. John Kling was the first Lamb county pioneer to run the wagon yard and later sold to Frank Wilkins. A few years later Pat Heinan took over and groceries, feed and coal were sold there. In the meantime the building frequently served as a meeting place for card games. For the past ten years it has been located at 406 Duggan Avenue, a standing reminder of Littlefield yesteryears. (Photo by Taylor Studios)

Roses and spring flowers decorated the reception room.

The bride's table was laid in lace over rose, centered with a miniature bridal party, flanked on either side with white candles. Mrs. Mitchell served the individual cake squares and Mrs. Borders registered the guests.

Out of town guests included the honoree and Mesdames E. M. Moore of Littlefield, Maude Armstrong, of Lubbock, H. C. Green of Levelland, W. T. Raines, M. A. Moore, J. W. Borders, Jr., E. L. Bryant, C. G. Landers, C. H. Billings, Chester Richards, R. L. Heard, J. M. Mixon, H. J. Dobson.

### LETTERS TO THE EDITOR

#### Springlake School Board Defended

Dear Sir: The Springlake school board has recently been attacked in print with some alleged facts which are untrue.

The real facts are that a new water well was drilled last year which furnishes adequate pressure for the drinking fountains. The school has on file cards from the state health department giving results of tests taken from each drinking fountain. These tests show the water to be pure and meeting all requirements.

These samples were taken April 26, 1954.

The sewer system is located down near the football field.

The superintendent, principals, teachers and school board secretary are efficient and of excellent character. The school nurse is also efficient and has the interest of our children at heart.

The cafeteria is clean, well furnished and has clean good food served to the children. The supervisor and workers are among the best.

The school janitor, mechanic and bus drivers are reliable and likable.

The school board is comprised of a group of men whom you elected in good faith, trying to do the job with the entire school district at heart. This fact has been manifested.

The people of the district should visit the school and see for themselves. They should meet the people with whom their children come

Lois Grant, Gurene Allen, Verlie Armstrong, Joe Al Bryant, Ralph Bryant, J. D. Collins, Don Doshier, Alice May Eslinger, Jerry Gage, Lenora Gray, Claude Horton, Lethal Jones, Betty Mixon, Joe Don Phillips, Peggy Shedd, Verlie Throckmorton, Elsie Wade, David Walker, George McDonald, Myrtle Epperson, Glenn Edwards, Jimmy Poteet, and Ernest Roy Watson.

Head ushers were Carlene Reed and Leslie Hulse.

Ushers were Voncille Commons, Lanelle Cox, Wanda Raines, Barbara Sires, James Fagan, Frank Bennett and Moses Padilla.

Girls sextette members were Ruclene Wyatt, Linda Martin, Patsy Heard, Carlene Reed, Anna Vinyard and Emma Epperson.

Accompanied by class sponsors, Mr. and Mrs. E. J. Carter, Mrs. J. M. Mixon, and Mr. and Mrs. Everett Gage, the class left early Saturday for a week's stay in Colorado Springs, Colorado.

# Highlights And Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

Things will boom in June on the political front. Candidates are busy now getting their houses in order for the campaigns. What looked to be rather a dull campaign season now promises to be rather a lively affair.

Governor Allan Shivers, seeking a third elective term, spent a few days in Austin, between a vacation in Alabama and a trip to Korea. He plans to leave the Korean party early, to be in St. Louis May 31 for an address at the Southern Baptist Convention.

Meantime, Shivers' main opponent, Ralph Yarborough of Austin, also was actively setting the stage for his race.

Farborough has appointed Bob Sawtelle of San Antonio as his campaign manager. Sawtelle is the son-in-law of the late State Senator Woodville Rogers.

Road Problem  
Representatives of state, local, and private highway interests form a special committee assigned by Governor Allan Shivers to the job of working out a road program that will be presented to the next Legislature.

Texas Good Roads Association, which has a member on the committee, is in favor of a one-cent increase in the gasoline tax to provide money for growing highway needs.

This question is expected to be a major one when the Legislature meets.

More Patrolmen  
Col. Homer Garrison, jr., director of the Texas Department of Public Safety, says he will ask the next Legislature for more highway patrolmen.

Four hundred seventy men now are on the job, says Garrison, and 200 more are needed to cut down rural traffic fatalities.

Abolish Orphans' Home?  
A proposal, made by the Texas Research League, to abolish the state orphans home at Corsicana was being considered by the State

Board for Hospitals and Special Schools.

Almost immediately following announcement of the plan, inquiries from Texans seeking to adopt children from the home began to arrive. Alvin H. Burger, executive director of the Texas Research League, said that was a "totally unexpected response." The league feels the children should be placed in foster family homes, rather than kept in an institution.

Corsicana and Navarro County officials objected strenuously to the proposal. The home has been in operation since 1889.

Also before the Board was a plan to set up a new state mental hospital in Southeast Texas.

Another project before the board is a new dormitory for the Texas School of the Deaf in Austin. Now being used as a dormitory is a building so dilapidated that it was declared no longer fit for habitation.

Wheat Estimate  
Texas' winter wheat crop was estimated by the U. S. Department of Agriculture at 23,418,000 bushels, an increase over the estimate made April 1.

An official of the USDA here said the increase reflected improved moisture conditions.

Laughlin's Appeal  
Lawyers for ousted Judge C. Woodrow Laughlin, appealing his case to the U. S. Supreme Court, attacked the authority of the Texas Supreme Court under the state constitution to remove a district judge.

Legal counsel for Laughlin contends that the state constitutional provision violates the Fourteenth Amendment, or due process clause of the federal constitution.

# Spade 4-H Girls Elect Delegates To District Camp

SPADE — The Spade Girls 4-H Clubs have elected delegates and alternates to the 4-H District Girls

judge of the 79th district, which includes Duval county.

Archer Parr, sheriff of Duval and George Parr's nephew, is running for the state legislature.

Camp at Lubbock. The senior girls elected Gloria Gray as their delegate and Ruby Vaught as the alternate. The junior girls elected Virginia Lynn Anderson as their delegate and Jo Ann Vaught as their alternate.

Pat Pointer, daughter of Mr. and Mrs. Preston Pointer, and a member of the Spade senior 4-H Club, is vice-president of the District 4-H Girls Camp. These girls and a delegate from each of the other Lamb County girls 4-H clubs will attend the camp in about two weeks.

# Spade VBS Begins Monday at Church

SPADE — The Vacation Bible School begins Monday at 3 p.m. in the Spade Baptist church with registration at 2 p.m.

The pastor, W. F. Smith, general superintendent, and other workers are urged to attend the teachers' conference and Vacation School Clinic at Earth Sunday.

There will be a Vacation Bible School faculty meeting Friday at 7 p.m. in the Spade Baptist church.

## Mrs. Bob Kimbrough of Cone, Texas

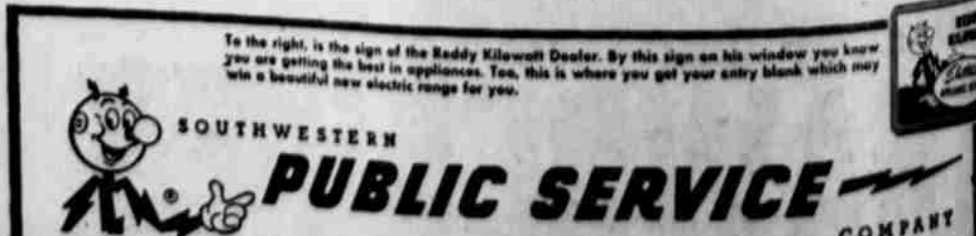

LIKES THE AUTOMATIC FAST COOKING HER ELECTRIC RANGE GIVES HER!

- 1. Says Mrs. Kimbrough, "I like the automatic feature of my electric oven. I put meats in to roast, then we go out and when we get back, our meal is ready to eat."
- 2. About storage space, Mrs. Kimbrough says, "My range has three big storage drawers. In these I keep all my pots, pans and cooking dishes. Even so, there's room for more."
- 3. Mr. Kimbrough listens with interest as his wife tells him how "electric cooking is faster than the old way I used to cook." You, too, will find this feature when you switch to electric cooking.
- 4. The easy-to-use controls on an electric range delight Mrs. Kimbrough as she says, "I find the controls are so easy to use and I always can be sure of getting the right heat for a particular cooking job."

## Anton Farmers Profit in Conservation Plans

Teague has owned and operated a 160-acre farm 2 1/2 miles east of Anton since 1910. He and his son are now operating a half section east and 1 north of the place.

Mr. Teague has ten acres of Sudan already planted and up for supplemental grazing. It was drilled in. He has ten additional acres of alfalfa besides that in the bench levelled land.

Mr. Teague has a trench silo he uses in his dairy operations. He uses African millet to fill the silo. He uses dump trucks to haul

and scatter the manure, but he plans to get a manure spreader.

Mr. Teague rented a maintainer and did his own bench leveling.

He has 32 cows with 28 of them milking now. He uses both Holsteins and Jerseys. He gets 80 gallons of milk per day.

He has 68 acres of cotton allotment this year.

Teague works his operation so he can cut the feed in the field and carry it to the cows instead of them going after it. He believes he can increase his carrying capacity considerably by this method.

G. R. Lindley who lives just east of Mr. Teague on the Carl Sanders farm planted 50 acres of vetch in August between the cotton with an interrow seeder. The vetch was checked for amount of growth by technicians of the Soil Conservation loaned to the Lamb County Soil Conservation District, of which Lindley is a co-operator.

## Hold Graduation Ceremonies This Week at Olton

OLTON — Commencement for the senior class was held Tuesday night at 8 o'clock in the high school auditorium.

Baccalaureate services were at 8 o'clock Sunday night, with Rev. Harlin Harris, pastor of Plainview first Baptist Church, delivering the address.

Invocation at the Baccalaureate was by Rev. Glen Gousey, pastor of the Olton Mexican Baptist Mission. Benediction was by Rev. R. H. Campbell, pastor of Olton Methodist church.

Special selections were presented by the Mass Choir as well as a solo by Gayle Silcott entitled "Hold Thou My Hand."

Processional and recessional music for both commencement and baccalaureate was played by Guy Granbery.

Theme for the Commencement was "The Nation's Creed." Master of ceremonies was Charlie Shelly. Invocation was given by Kenneth Long. "This Is My Country" was sung by the octette.

Commencement speakers were Leabelle Sluder, valedictorian and Bobby Bryant, salutatorian. Other honor students were guest speakers.

Bobby Bryant spoke on "Freedom, Our Watch Word." Avis Jeffries spoke on "Bulwarks of Liberty." Jay Thomas, "Protect the Heart and Home" and Leabelle Sluder, "Lord Guide Our Destiny."

The high school choir under the direction of Dan Williams sang "The Nations Creed"; Javerne Danil gave a reading, "Mizpa."

Presentation of honors was by Glenn Reeves, high school principal. Diplomas were presented by Supt. Carl Macon and J. V. Jeffries, school board president.

Members of the graduating class are R. V. Allcorn, Royce Beardon, Bobby Bryant, Don Carson, Tracy Critchfield, Clifford Curry, Charles Edgin, Neal Eubanks, Max Keating, Kenneth Long, Gary Miller, J. P. Nafzger, Randall Roper, Oliver Rose, Charlie Shelly, Archie Souter, Lonnie Stephens, Jay Thomas, Amos Walden, Don Workman, Joe Dan Yates, Dorothy Barnett, Joanne Bowers, Javern Daniel, Beverly Dill, Betty Gray, Constance Homm, Jolene Hankins, Joyce Hicks, Avis Jeffries, Murrell Lawrence, Shelda Limbrocker, Leabelle Sluder, Norma Smith, Barbara Cornelius.

## Science Fiction Adventure Makes Underwater Thriller

"CREATURE FROM THE BLACK LAGOON" (2A)

"Creature From The Black Lagoon," Universal International's science-fiction adventure scheduled to open Friday at the Palace Theatre, set a record for underwater photography by filming 152 scenes below the surface of the water. Co-starring Richard Carlson and Julia Adams, this drama of the Amazon "Gill-Man" — last living link with the beginning of time — is considered the most ambitious undertaking in the field of submarine picture production.

Utilizing an ingenious underwater camera devised and operated by Charles C. Welbourne, a camera crew equipped with leaded belts, swim fins and aqua lungs worked underwater for 32 days — an actual clocking of 153 submerged working hours — to complete the difficult assignment. A dozen electricians, "grips" and other technicians performed their jobs simultaneously below the surface of the water.

Unusual preparations for filming the "Creature From the Black Lagoon" were instituted by Producer William Alland and Director Jack Arnold.

## Tune The Sound And Shakes Out Of Electric Fans

COLLEGE STATION — An electric fan that roars like a jet plane or shakes the house with vibrations can be "tuned up" to send silent gentle breezes as warm weather arrives.

Pouring oil on troubled fans is not the whole cure. Manufacturer's directions will show correct oiling. Ordinarily, fans need lubricating only once a year. If the fan is run a great deal, it may

need oil more frequently. However, care must be taken not to over-oil and soak the insulation in the motor as this will damage the motor, warns Mrs. Bernice Clayton, home management specialist for the Texas Agricultural Extension Service.

A loose screw may cause vibrations. Dirt on the blades will cause the blade to be unbalanced. If the blades are soiled with oily grease, clean them with a damp soapy cloth or a cloth dipped in kerosene oil. Guards and cover of the motor should be cleaned too. Frayed or damaged cords should be replaced or repaired.

If the fan fails to start, it may mean a break in the cord or a loose connection. If the trouble is not apparent, it's a good idea to check with a repair man.

**Social Justice**

IS THE country prospering? Ask the Chamber of Commerce and they will give you a commercial answer, as you would expect. They will give you figures on the national income and the national debt; they will furnish you with statistics on farm prices and freight-car loadings and employment figures. If all these look good, then the C. of C. will tell you the country is sound and prosperous. Away back in the times of the Bible, in the administration of Jeroboam II, if there had been an Israelite Chamber of Commerce, they must have been optimistic, even enthusiastic, about the prosperity of their country. Wealth had risen to unprecedented levels, trade was active, the territory of Israel was growing. There never had been so many millionaires in Israel.

**Sour Note**

There was just one man, so far as we know, who did not see eye to eye with the optimists in Israel. His name was Amos and he lived in the back districts as a hired man, perhaps as a migrant worker. He had had a good look at Israel from the seamy side, for his layer in the social cake was somewhere below the bottom. He is known to history as a prophet, but he did not claim that title for himself. "The Lord spoke to me," he said, and that was enough. Perhaps the reason he did not care for the label of prophet is that he did not want to be mixed in people's minds with such Yes-men as King Ahab had gathered around him. But he believed and we believe that he had the mind of God, and that is what a prophet has. He went up to Bethel, one of the main cities of Israel, and there made some speeches that nobody liked.

He even got himself attacked as subversive. At all events, he brought what the leaders of Israel thought was a very sour note into the sweet chorus of prosperity.

**What is Happening to People?**

Amos looked at "prosperity" in another light, or we may say he measured prosperity with a different yardstick. Whether a country is on the up-and-up or on the down-and-down is not to be discovered by looking at dollar signs or counting freight cars. The real question is: What is happening to people? The first of all questions is: Which seems to you more important, people or property? If they both seem equally important, or if property seems even more important, then Amos would say you are certainly using the wrong yardstick. He looked over the nation of Israel and he saw two classes of people, the poor and the rich. The poor went to jail for robbing the rich, but no one ever jailed the rich for robbing the poor. The rich were growing richer and the poor were growing poorer. This was not the worst of it for in the process of becoming wealthy, the luxury-classes of Israel were growing both softer and harder than they should be—softer, by indulging in luxuries, harder by indifference to the troubles of the people at the bottom of the pile.

**A Few Questions**

"Social Justice" or its opposite, social injustice, is a big all-inclusive phrase. If you think it has nothing to do with religion, you have the Bible against you. Let us bring it down to cases, as Amos did. Is there social justice in your community, your state? Before you can answer that overall question, you will have to break it down into particular questions. For example: Are there any second-class citizens in your community? Are the same jobs open to all, at the same wages or salary? If a man has to borrow money can he get it at a reasonable rate of interest or do the loan sharks run wild where you live? Are the responsible citizens of your community and state willing to be taxed for the benefit of better schools? Compare salaries paid in your state to horse trainers, with salaries paid to school teachers. Do horses seem to be rated higher than children? Does every child in your state have an adequate opportunity for an education, or are children penalized for being born in the country?

### Cent Parking—

Some of us who work downtown have forgotten what parking meters are for. Of course, they happen to produce revenue for the city government, but that is not why they were put up for. They were put up to make it easier in Littlefield.

We had no parking meters we would have no parking available downtown after 8 a.m. Those of us who would fill up all the parking space with our own cars, shoppers would have to park a couple of blocks away.

Some of us are trying to do that even with parking meters. The ticket writer is under constant pressure from parking meters who want him to come in and tell them he is about to put tickets on their cars, so they get out and put in a penny. If he makes four round a day he can thus buy all day parking for fourcents.

It defeats the purpose of the meters. We who work downtown are very dependent on those who shop here. We, as a community, should cooperate to make the parking meters work for their purpose.

### Beans Censor Films From Viewpoint

Some of our readers are some of our readers. In many cases also our worst. In censorship offices of European countries object to "American gangsterism" of American films. They say it is corrupting. More and more, the "American" is being admired. In the breeding place of the future, young men are American accents and are elbows more.

On the good side of the ledger, the people see photographs of fantastic American cities, and buildings are found in places: science fiction in the U.S.A.

Refugees from behind the Iron Curtain tell that the only American films they have ever seen in their homelands have been those showing the "horrors of capitalism". Films that show "The Great American Depression" are given top billing. THE GRAPES OF WRATH, although quite old, is still plugged repeatedly in the government-owned theatres.

## Lamb Included In Counties Receiving Emergency Wind Erosion Control Funds

Upon recommendation of the Governors of the five states, the Secretary of Agriculture has recently announced a program under which additional funds will be made available to farmers and ranchers in carrying out emergency wind erosion control measures in Colorado, Kansas, Oklahoma, New Mexico and Texas. According to Charles Hill of the ASC office in Amherst, Lamb county received a special allocation under the Emergency Wind Erosion Control program of \$40,900.

Upon recommendation of the Governors of the five states, the Secretary of Agriculture has recently announced a program under which additional funds will be made available to assist farmers and ranchers in carrying out emergency wind erosion control measures in Colorado, Kansas, Oklahoma, New Mexico and Texas. Lamb County received a special allocation under the Emergency Wind Erosion Control Program of \$40,900.

The practices approved under the Emergency Wind Erosion Control Program are as follows: Practice 36, Emergency Wind Erosion Control Measures.

The total of all Federal cost-shares for this practice for any person with respect to farms in any one county shall not exceed \$1500. Costs for this practice will be shared only if the practice is started on or after March 31, 1954 and only if cost-sharing is requested before June 1, 1954, or before the date on which performance of the practices started whichever is the later.

### A.—Field Strip Cropping to Protect Soil From Wind Erosion

The strips must consist of perennial grasses or sorghums in rows or solidseeded alternating with strips of other row crops or fallow. Strips must not be less than 4 normal rows wide, and must not be more than 12 normal rows wide, unless strips wider than 12 rows are recommended by the county committee and designated SCS Technician and approved by the State committee and State Conservationist, SCS. The farm operator must agree to leave the crop stubble standing over the winter, or a winter cover crop established, or necessary protection tillage operations carried out on acreage devoted to row crops.

Maximum Federal Cost-Share: \$1.25 per acre.  
B.—Stubble Mulching to Protect Soil from Wind Erosion  
A stubble mulch must be maintained on the surface soil by per-

forming tillage operations which will leave sufficient crop or weed residue on the surface to provide protection against wind erosion, and incorporate the balance of the residue into the surface of the soil. No cost-sharing will be allowed if the acreage has been burned over or grazed, or if the straw has been removed.

Maximum Federal Cost Share: \$1.25 Per Acre

### D.—Contour Listing, Contour Chiseling, Cross Slope Chiseling, Pit Cultivation or Chiseling Not on the Contour for Wind Erosion Control

Cross-slope chiseling or chiseling not on the contour will be approved only on those areas where it is impracticable to list or chisel the land on the contour. Contour-listing or chiseling must follow level guide lines at not to exceed twice the terrace interval or must follow terraces. Cross-slope chiseling must be performed as nearly as the contour as is practicable. Pit cultivation must be done with an implement that will dam the furrows at regular intervals, and pits must occupy at least 25 percent of the land. Furrows must not be more than 4 feet apart and, if listed, must be at least 4 inches deep. If chiseled, furrows must be at least 6 inches deep.

Maximum Federal Cost Share: \$5.00

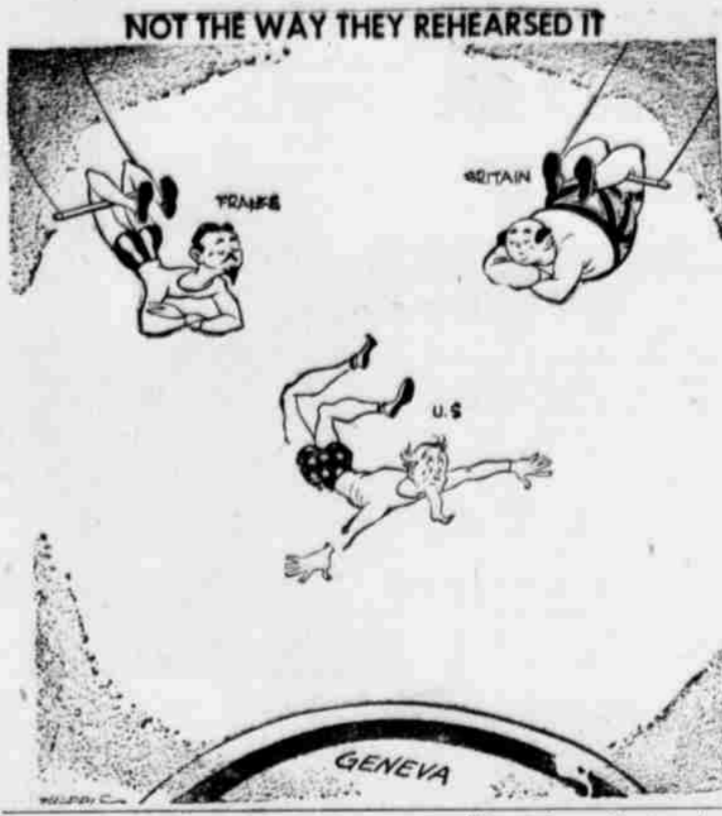

### E.—Seeding Grain Sorghums, Sweet Sorghums, Sudan Grass, Millet, Barley, Oats or Rye to Establish a Cover for the Control of Wind Erosion

Volunteer crops and crops planted prior to July 10, 1954, will not qualify. E-1. Sorghums, millet or small grains of average purity and germination should be planted at the following seeding rates per acre: Grain sorghums, sweet sorghums or Sudan grasses in rows - 5 to 6 pounds. Maximum Federal Cost-Share: \$1.00 per acre.

### G.—Deferred Grazing for Wind Erosion Control

Applicable only to severely depleted areas of range land where the deferment of grazing is necessary to natural re-establishment of desirable grass cover needed for the protection of soil from wind erosion. Applicable only to range land normally used for grazing. The beginning of the non-grazing period best suited to the production and maturity of seed of desirable range and pasture plants shall be set by the county committee. For full cost-sharing the area must be kept free of livestock for 12 consecutive months. If grazing is deferred for 5 consecutive months but less than 12 months, cost-sharing will be calculated by counting 2 acres for 1; if grazing is deferred for 3 consecutive months but less than 5 months, cost-sharing will be calculated by counting 4 acres for 1. No Federal cost-sharing will be given if the county committee determines that any area of the ranch is overgrazed, or for deferring any acreage on which hay is cut.

Maximum Federal Cost-Share: \$5.00 per acre.

Two juniors, W. B. Jones and Martha Shaw led the seniors. Margie Anderson acted as usher.

## Believers Are Secure

By Tommy Williams, Minister

"My sheep hear my voice, and I know them, and they follow me; and I give unto them eternal life; and they shall never perish, neither shall any man pluck them out of my hand" (John 10:27-28).

The love of Christ is so deep and his power to keep is so great that those who believe in him and do his will are kept securely. If a single one who lives and believes in him is ever severed from him, it will be because he himself went astray from Christ; not because the power of Jesus to keep has been overcome. Give a man a measure of financial security, and his greatest danger of losing it

and Colleen Bundick handed out programs.

Harold Byars and Christine Bundick were presented honor trophies from the school.

Immediately following graduation exercises the entire senior class and two class mothers Mrs. Harry Elkins and Mrs. Clarence Bundick, and their sponsors, left by school bus for a trip to Ruidoso, N. M., and the Grand Canyon.

Honor certificates were presented to Margaret King, Faye Tate, Betty Byars, Helen Dube, Pat Pointer, Lou Stubblefield, Wanda Bryant, and Kay Hoelscher, freshmen; Mildred Stevens, Glenis Holly, Ruth Cox and Ann Adams, sophomores; Maudean Tinsley, Tam Pointer, Willie J. Griffin, Colleen Bundick and W. R. Jones, juniors; and Christine Bundick, Harold Byars, and Billy Joe Oden, seniors.

Perfect attendance certificates were awarded to Juniva Arnold, Ruby Vaughn, Betty Byars and Ann Adams.

## Parker Will Be In Washington Army Maneuver

FORT LEWIS, Wash. — PFC. Franklin D. Parker, 21, son of Mr. and Mrs. Arthur F. Parker, Anton, Tex., will participate in the Pacific Northwest's largest combined air-ground training maneuver, Exercise Hill Top, to be held this month at Yakima Firing Center in south-central Washington.

Co-ordination of tanks with infantry will be stressed in the big battle test of the 44th Infantry Division and special supporting units. Troops will undergo gas attacks and simulated atomic bombings during the exercise.

Parker, an ambulance driver in the division's 203d Medical Battalion, entered the Army in 1953 and completed basic training at Fort Lewis, Wash.

## Safety Checks May Mean Fewer Auto Accidents

"Snappy on the outside, deadly on the inside!"

Col. E. B. Tilley of Houston, President of the Texas Safety Association for the Gulf Oil Corporation today used this parody of the popular song, "Laughing on the Outside, Crying on the Inside," to describe the condition of many of the automobiles now being driven on Texas streets and highways.

Col. Tilley spoke in connection with the state-wide vehicle maintenance program all official and non-official groups are conducting in Texas throughout May. This program is part of the annual vehicle maintenance program of the Texas Department of Public Safety and the National Safety Council.

"Many car owners who keep their vehicles well washed and painted are not so particular about keeping them in safe operating condition," he said.

He pointed out that it would make better sense to spend less time shining up the fenders and more time investigating the condition of brakes, tires, headlights

and other mechanical parts.

"You can lose only a little prestige if your car is a bit dingy," he said, "but you can lose your life if your car is mechanically unsafe."

"I certainly don't want to discourage automobile owners from keeping their cars spick and span," Col. Tilley said. "On the contrary, I think concern for the appearance of the vehicle speaks well for the owner. But I do want to impress upon them the importance of placing first things first, and safety should have priority on every driver's list."

Col. Tilley urged all motorists to take their cars in for a safety check this month while the special May vehicle maintenance program is in progress. He said, "The important points to check are headlights, rear and stop lights, brakes, tires, steering mechanism, windshield wipers, muffler and exhaust system, window glass, horn and rear-view mirror."

"Let's have a hundred percent co-operation," he said. "Checking our cars is certainly a simple way to check accidents!"

## HEALTH IS YOUR BIGGEST ASSET

Good health is most important to accomplish your goals in life. When health fails, with loss of earning power, life insurance goes to work to provide food, shelter and other necessities. While you now enjoy good health you should provide for the time when you may be ill or disabled.

There's no better way to provide for emergencies for your old age than a safe, sound, legal reserve. Woodmen life insurance certificate.

Ask a Woodmen representative to help you select the type of certificate that best meets your needs. He will explain, too, the fraternal and social benefits you will enjoy as a Woodman.

### County Soil Conservation DISTRICT NEWS

Commons owns a 120-acre farm in the northwest part of the county, situated 6 miles north of Earth, Texas. The farm has been in operation since 1916. The soil is mostly mixed land, textured, permeable and has an average depth of about one foot of fall per acre. Mr. Commons was farming with rows running from a 10' well of water. The result was over irrigation and loss of irrigation water from the field. Mr. Commons could see very clearly that he was not making the best use of his irrigation water. Therefore, in the early months of 1952, he became a cooperator with the Lamb County Soil Conservation Service to bench level the entire farm and to lay underground concrete pipe to water the bench system. A total of 5949 feet of concrete pipe was used on the farm in order to have a complete delivery system to irrigate the entire field. This pipe system eliminates the necessity of any ditches and saves water in the transportation system. The level bench system eliminates both irrigation and rainfall erosion. All rain water that falls on the field as well as irrigation water is retained on the field and distributed evenly over the entire acreage. Mr. Commons is no longer irrigating road side bar ditches and turn roads. Although a level irrigation system is used, Mr. Commons

states that he uses less water in getting over the farm than he did with graded rows and his crops are producing more with a uniform crop throughout the length of the rows.

Mr. Commons has used a two crop system, cotton and grain sorghums, on the benched field. This system gives him a better possibility of harvesting from at least a portion of the farm in case of hail and also enables him to use a crop rotation system.

In 1953, Mr. Commons seeded 65 acres to grain sorghums from which he harvested 4530 pounds of grain per acre. This tract had an application of 300 pounds of 0-20-0 fertilizer (phosphate) at the time of flat breaking in February and 100 pounds per acre of Anhydrous Ammonia at planting time in early June. The sorghum land was pre-planted irrigated once and again twice during the growing season with about 5 inches of water at each irrigation. About 6 inches of rain was received during this period. The grain sorghum was harvested with a combine leaving a stubble of about 24 inches high as a protection against wind erosion until March of 1954. These stalks were then chopped up and turned under with a breaking plow to add organic matter to the soil, enabling the soil to take water more readily and also to leave the soil in a more friable or mellow condition. On the 35 acres of cotton planted on the farm on the benches, Mr. Commons harvested 33 bales. He estimates that if he had a good stand instead of the poor stand that he would have made around a bale and a half per acre. Mr. Commons applied 300 pounds of phosphate before flat breaking in

### New Method For Interior Wall Decoration

Sherwin-Williams company has produced a unique method for creating interesting designs on walls by means of a twin roller. The method includes the use of a new product, Super Kem-Tone Applikay. Applikay has an opalescent sheen that gives a silk-brocade effect when viewed from various angles. Applikay and the technique of application represents a new frontier in attractive and economical decoration for the home.

Joined on a single handle are a fabric covered roller and a molded plastic roller on which the design is embossed. The fabric roller picks up the Applikay from a paint tray and distributes it evenly over the design roller in the process of application.

Several designs and a eight translucent colors are available in the new method, and combinations may be used to achieve individualized effects.

# New driver comfort! New driving ease!

## New Chevrolet Trucks... do more work per day... more work per dollar!

**You save time in traffic.** New truck Hydra-Matic transmission gets you off to smooth, time-saving starts without shifting or clutching. Imagine how easy this makes driving in traffic and on delivery routes! It's optional at extra cost on 1/2-, 3/4- and 1-ton models.

**You save time on the highway.** New high-compression power gets you up to highway speeds from a standing start in less time, and saves you time on hills, too. You make trips faster—and the new Comfortmaster cab makes them seem shorter. It's got everything.

**You save extra trips, too.** That's because of the extra load space you get in the new Advance-Design bodies. New pickup bodies are deeper... new stake and platform bodies are wider and longer. Also, they're set lower to the ground for easier loading.

**You save on operating costs.** High compression power saves you money! The "Thrifmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

**You save with lower upkeep.** New Chevrolet trucks are built stronger to last longer and save you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

**And your savings start the day you buy.** In fact, they start with the low price you pay—and they never stop. Chevrolet you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally high trade-in value.

**Come in and see how much you're ahead with America's number one truck.** You'll like the way we're talking business!

### 4-H Club News

Kenneth Griffin has been elected as secretary of the Tri-County 4-H camp for this year. The camp will be held at Ceta Canyon July 2, 3, and 4, and is open to 4-H club girls and boys of 14 years of age and over, according to Lonnie Cole, assistant County agent. The counties participating in this camp are Lamb, Hale, and Floyd. Lamb county was selected to plan and present the program for the camp. Max Barnett has been selected to serve as program chairman. The program committee will meet at 9 a.m. May 22 to complete plans for the program. The committees from each of the three counties will meet at 8, May 27th in Plainview. 4-H Club boys and girls in the county now have 28 beef calves on feed, which they plan to show at the Fall Livestock Shows and the Livestock Shows next Spring. Between fifteen and twenty-five more calves will be on feed in the next two months. The boys and girls are doing a good job and gaining experience to do even better jobs of feeding in the future.

### WHAT CONSUMERS EXPECT AS TO PRICE CHANGES

### Survey Shows 41% Of Consumers Expect Steady Future Prices; 36% Expect Fall

What consumers anticipate in the way of future price changes—whether they prove right or wrong—has an important influence on their current economic decisions. It is significant that a recent Federal Reserve Board survey shows that, in early 1954, the largest group of consumers expect prices to remain steady. As always, some expect prices to fall; others expect prices to rise, but there is not a majority in either direction. This is not too much different from the situation a year ago, but it is vastly different from the pattern in early 1951 when 77 percent of consumers expected prices to rise and early in 1952 when 53

percent expected them to rise. About 41 percent of consumers now expect prices to remain substantially unchanged through 1954. These people are not likely to engage in panic spending in order to buy before prices increase, neither are they likely to hold off in anticipation of lower prices. A somewhat smaller number—36 percent—expect falling prices. These consumers may postpone some types of buying, thereby leaving a backlog of needs and desires in the future. To some extent, the hoped-for lower prices already have materialized. Another 16 percent of all consumer units in early 1954 expect rising prices. (An additional 7 per

cent were uncertain). This is smaller than the corresponding percentage in any year since the beginning of the Korean War. The trend suggests that while consumers, in their present mood are not likely to be scared into buying in the near future, they can be enticed into buying. **Royals Have Son** Mr. and Mrs. Lawrence Royal sr. became the parents of a son, last week. ### THE GROWING TREND TO LINCOLN

# You're invited to try the power that won the Pan-American Road Race

We'll assume that you're reasonably satisfied with the car you drive now. But still, we want you to make a comparison. We want you to try a Lincoln in action. Discover an entirely new meaning to power and performance and all-round automotive action. Accept this as an invitation to ease yourself into that comfortable Lincoln front seat. Then head that low, gleaming hood for any road you know. Try it in traffic first. Feel Lincoln's power—gentle when you wish—but with so much in reserve. Notice the quiet hush to this great Lincoln engine, quiet that's engineered into every nut and bolt.

Then move out on the open highway. Nudge the pedal. Surge ahead. Where was that traffic? Now a sharp turn. You're in complete control. A hill? In Lincoln, it suddenly seems flat. There are plenty of sound engineering reasons why you command what many automotive experts consider the finest performance on the road. Ball-joint suspension, 4-barrel carburetor, giant-sized brakes—the biggest on any American-built car. You're driving the fine car that twice won first four places over all stock cars in the Mexican Pan-American Road Race. We've a Lincoln or Capri waiting for you. Won't you pay us a visit?

For the fourth straight year, Lincoln wins first place in its field for economy in the famous Mobilgas Economy Run.

**"Son, when you take over, this General Electric motor will still be driving our pump!"**

"You see, son, General Electric built this motor to last longer. Look at that cast-iron construction—rain, sleet, or dust can't hurt this motor! We don't have to worry about steel bands rusting away. And no extra protection like a shed is necessary because this motor is fully protected against all kinds of weather.

"Another thing I like about G-E motors is that you don't have to lubricate them for a long time. When you do, there are only two places to take care of—one at the top and one at the bottom—both easy to get at.

"Notice that G-E control—protected against the weather just like the motor. It protects our motor against overloads, undervoltages, and short circuits. And I don't have to worry about you getting hurt because you can't open the panel while the power is on.

"General Electric knows our irrigation problems, and they have the engineering experience to give us the motor and control team that will do the best job. Yes, son, when you take over, profit by my experience. Insist on G-E motors and controls!"

**They're Making "Egg-Shaped" Tires Round Again At Homer Garrison's**

Homer Garrison has announced the installation of a new machine which balances wheels and makes out-of-round tires round again, all in one operation. According to Garrison, "this new 'Bear BALAN-TRU' machine was developed to beat rough rides and mysterious vibrations in their automobiles". "Very often", he explains, "these troubles can occur despite perfectly balanced wheels. The reason in those cases is out-of-round tires."

"You can balance an egg... To clarify this situation further, Garrison compared tires to eggs, as follows: "It is conceivable that we could balance an egg, how- ever, that still wouldn't make it round. It's the same with so-called "egg-shaped" tires. They can be in balance, yet they can con- tinue to 'thump' because they are not perfectly round."

When asked whether or not this out-of-round situation has always been present in our tires, Garrison declared: "Yes, according to au- tomotive scientists, out-of-round tires have always been with us, however, because car makers have steadily improved the rid- ing qualities, steering ease and quiet operation of their models, car owners are apt to notice the tires thump more than before. Al- so greatly improved highways and smoother black-top roads magnify the thump caused by an out-of-round tire condition."

BF How Re-Truing Machine Works

"Our new 'Bear Balancer' machine makes "egg-shaped" tires round again by a method of gently evening out the circumfer- ence of the out-of-round tire by buffing off or "crasing" the high spots, one very thin layer at a time. We have found this method to be so accurate and perfected, that the tread or appearance of the rubber in entirely unaffected. The naked eye cannot tell a tire has been re-trued. Yet, it is amazingly noticeable in the im- proved riding qualities of a car, with balanced tires."

"Amazing as it may sound," Garrison continued, "in Tire Re- Truing we actually ADD tire life by removing the high spot." "On tires that are out-of-round, there is a high spot over only a portion of the surface. That is the sec- tion we buff off. Therefore, only a small amount over a small sec- tion of the tire is actually remov- ed."

Here is how this operation adds mileage and saves money for the car owner; when an out-of-round tire starts pounding away at the road, it puts an unnecessary strain on many vital parts of the auto- mobile. First of all, the tire cas- ing itself takes quite a beating. That means it will break down a great deal sooner than it should. About the time you'd like to recap, there's a break in the casing (e.c.) Now, in addition to the high spot, the bulge is aggravated with the constant pounding and has a ten- dency to grow...it will never elimi- nate itself.

The abuse from this pounding does a lot of damage to the tire and therefore also affects all the front-end parts. The rhythmic thump, thump, thump play havoc with the tie-rod ends, wheel bearings, shock absorbers, springs steering gear and the alignment of the wheels.

How can you tell?  
In answer to the question "How can the car owner tell for certain; whether or not his tires are out- of-round?", Garrison replied, "We have a special gauge which tells us, right on the customer's car without removing the wheels, whether or not the tires are perfectly round, and how serious the out-of-round condition is. This test takes only 3 minutes for all four tires; and is performed without charge in our shop."

Want a different vegetable soup to serve for lunch with a sandwich cauliflower together, then puree and add to a thin white sauce.

A dash of allspice is delicious in a tomato sauce. And some cooks like to add a suspicion of cinnam- on, too. Or if you want to add herbs, rather than spices, to the sauce, try dill, parsley or basil. If you use parsley be sure to add enough to give real flavor. A to- mato sauce usually also benefits from a dash of sugar; the amount of sugar needed will depend on the acidity of the tomatoes.

Making sandwiches and on let- tuce in the house? Use the tops of a stalk of celery.

### Mrs. Boone Reviews R. C. Hopping's Book, 'Sheriff-Ranger' For Forum

By a slight stretch of the imagination Forum members and their guests could have heard the lowing of cattle Thursday evening when they had their Final Round-Up, a dinner meeting in the parlor of the First Christian Church.

Spurs and pistols borrowed from young sons were scattered over the registration table, where Mrs. Bacon Jones presided. A yucca plant adorned the piano, with mesquite limbs popping up everywhere. Prickly pears, bean pods and mesquite trailed over the table, intermingled with pairs of children's boots, pistols and spurs. A centerpiece of daisy mums was on the speaker's table.

To add to the western atmosphere, members wore square dresses. Invitations sent out carried the ranch theme and place cards were pictures of cowboys.

A baked ham dinner was prepared and served by ladies of the First Christian Church. Mrs. J. H. Carl acted as mistress of ceremonies and introduced Mrs. L. N. Bridges, who said "Covered Wagon Days" and "Ride, Tenderfoot, Ride". She was accompanied by Mrs. Allen Chambers, a guest.

Mrs. Carl presented Mrs. Virgil Zoth, who introduced the speaker of the evening, Mrs. Pat Boone. Mrs. Boone reviewed the autobiographical book written by her father, R. C. Hopping, entitled "A Sheriff Ranger in Chuck Wagon Days". The book tells of pioneering in early Western Plains country.

As an expression of the appreciation of the members, Mrs. Zoth presented Mrs. Boone and Mrs. Chambers with gifts.

The program was concluded by the group singing "Home On the Range", led by Mrs. Bridges.

Those serving on arrangements committee were Mrs. Carl, Mrs. Lonnie Cole, Mrs. Edward Betts, Mrs. Lucille Smith, Mrs. Bridges and Mrs. Zoth.

Other members attending were Mrs. J. S. Abernathy, Mrs. Ben Brandt, Mrs. Winton Burton, Mrs. E. E. Carter, Mrs. John Driskill, Mrs. Orlene Gibson, Mrs. Bessie Jones, Mrs. Forrest Martin, Mrs. Robert Richey, Mrs. Dalton Tanguie, Mrs. Hugh Trimble, and Misses Becky Pace and Clara Jarmon.

Guests were Mrs. Olley Robbins, Mrs. G. A. White, Mrs. Enloe Smith, Mrs. Bill Bohman, Mrs. Ann Brandt, Mrs. Boone and Mrs. Chambers.

### Social Security Representative Here Wednesday

If you plan to take a job this summer you'll need a social security account card, Mr. Hutton, manager of the Lubbock social security office, stated today.

Your employer will ask to see your card when you start work on a job because it is necessary for him to copy the name and Social Security account number into his records exactly as shown on the card. He needs this information for the quarterly social security report he is required to make of your earnings.

If you already have a social security card, be sure to take it with you when you go on a job this summer. If you have lost your card, you should go to the social security office and get a duplicate this year. If you have never had a card, you should get one from your social security office before you report for work in a job covered by the social security law.

Most jobs are covered by the social security law, Mr. Hutton said. An exception is summer-time work on a farm. As he explained, farm workers must meet a regularity of employment test; they must work at least five consecutive months for one farm operator in order to have their cash wages credited to their social security account. Domestic work—that is, work of any kind for a private household—counts toward old-age and survivors insurance if the employee works for the same employer on an average of at least two days a week.

There are no regularity requirements for jobs in commerce or industry, he said. If you work even for a short time for a business,

producer or intermediate buyer will not be held responsible since the first purchaser of the wheat is liable for the total amount of the penalty unless a marketing card, a marketing certificate, or any intermediate buyer's record and report showing satisfaction of the penalty is presented at the time of purchase.

The director has advised that the penalty rate on excess wheat of the 1954 crop is \$1.12 per bushel.

### Wheat Buyers Warned On '54 Purchases

Each person who buys wheat from a producer during 1954-55 is liable for the amount of the market quota penalty due on "excess" wheat of the 1954 crop, according to Charley Hill of the Agricultural Stabilization and Conservation office in Amherst. Since marketing quotas are in effect for the 1954 crop, farmers who do not comply with their farm wheat acreage allotments become subject to a lien on their crop until the marketing quota penalty is paid.

"When anyone purchases wheat from a producer, he should be certain that such producer is eligible to sell his wheat. He should, therefore, request the producer to present a wheat marketing card or marketing certificate at the time the wheat is offered for sale," Hill said.

"Failure to present a marketing card or certificate at the time of sale will be evidence that the penalty, and the buyer will be held responsible for the lien the same as he would be for purchasing wheat with any other lien attached."

The first purchaser—such as a warehouseman—buying from an "intermediate buyer" may deduct the amount of the penalty per bushel on all wheat purchased from the total purchase price, just as if he were buying from a producer, if such seller does not present evidence that the penalty has been satisfied. Such collection should then be forwarded to the County ASC Office for the county in which the wheat was produced.

An "intermediate buyer" is any buyer or transferee who purchases or acquires any wheat prior to the time the wheat so purchased or acquired has been marketed to a warehouseman, elevator operator, feeder, or processor, or any other grain dealer who conducts his business in a manner substantially the same as these buyers.

## What's a HILL to POWER like this?

What's a HILL to POWER like this?

You've climbed hills before, we know. You've come to many a long rise in the road ahead and tramped down on the gas pedal to make the grade. But did you ever head a ROADMASTER up a hill—a 1954 ROADMASTER?

You seem to sail when you touch off the great V8 power that gives life to this finest of Buicks. You move ahead and up that long steep

pull in a silken, smooth sweep of almost effortless ease—and the thrill your spirits get from such magnificent ability is a precious thing.

And you realize, of course, that a wealth of advanced high-compression V8 power—the highest horsepower in all Buick history, in fact—is the heart of this stirring performance.

But you also realize soon enough that your tremendous satisfaction at the wheel of a ROADMASTER comes from more than great power alone.

It comes from the instant response and absolute smoothness of Twin-Turbine Dynaflow.

It comes from the velvety luxury of your all-coil-spring ride. It comes from the superb ease of Safety Power Steering. It comes from the comforting feel of ample roadweight—brought to feather-light handling precision by a new geometry in front-end engineering.

And very definitely, it comes from the eye-catching beauty in which you travel—the look-of-tomorrow styling that graces ROADMASTER today—and with the spectacular new panoramic windshield that is fast becoming the mark of true automobile modernity.

We'll be delighted to seat you at the wheel of a new ROADMASTER—so that you can drive it, try it, feel it.

It costs you nothing to do so—and it can open your eyes to the finest buy in fine cars today. Drop in, or call us this week.

BUICK SALES ARE SOARING!

Latest figures for the first quarter of 1954 show Buick now outselling every other car in America except two of the so-called "low-price three." Better look into Buick if you want the beauty and the buy of the year.
