LITTLEFIELD IS GRANTED SEVEN CENT REDUCTION IN FIRE INSURANCE RATE

ANGES MADE COMMISSION REDUCES RATE

Another Well; Additional Reduction

Insurance buyers have saved several hundred dollars through a reduction in this rate which has just been announced.

The moving of the fire headquarters to a location adjoining the fire station and the one cent reduction available with the purchase of a fire hose, City Commissioner Boone announced.

Boone is working on a plan to reduce the city well, which may result in an additional reduction in the rate of fire insurance.

Boone said that a city inspector visited Littlefield and advised the commission of the opportunity to reduce the rate by carrying out the moving of paid fire headquarters to a local location adjoining the fire station and the purchase of additional fire projects were implemented.

The paid fireman's salary is about an annual \$100 to fire insurance

FLOYD WYNN IS OVERPOWERED BY PRISONERS

Pair Captured By Officers And Citizens After Chase

Two prisoners, one of whom is said to have a record for escaping jail, early Tuesday afternoon overpowered and bound Jailer Floyd Wynn and escaped from the Littlefield jail.

The pair were: Everett Mahan, who was being held for Sheriff J. S. Gholston of Carthage, after having escaped the jail there. Mahan is under grand jury indictment for burglary.

Buster O'Brien, who gives his home as Altus, Oklahoma, arrested Monday night by Night Watchman John Blair, and charged with the theft of gasoline.

Wednesday Mahan was on his way back to Carthage, and O'Brien was in the city jail.

Mahan was taken back to Carthage by Sheriff Gholston and a deputy. The sheriff took no chances of Mahan escaping, the prisoner leaving Littlefield in chains.

Immediately the alarm was spread that the prisoners had escaped jail, officers and several other persons participated in the search.

The escape took place when Wynn was removing a tray from a run-around in jail, in preparation of feeding the prisoners.

Wynn unlocked a door to the run-around, reached down for the tray, and was closing the door when he was overpowered.

Mahan, according to Wynn, complained that his back was hurting him and asked the jailer if he had anything that might cure the ailment. Wynn replied that he had not, and was about to close the door when attacked.

Mahan, according to Wynn, threatened him with a pint bottle, filled with water and wrapped in a towel, while O'Brien seized his arms. The bottle had previously contained medicine.

Wynn was then bound to a cot with a bathrobe cord and strips of material which had been torn from a mattress.

The prisoners who remained in the jail had previously been threatened

BAND MAKES GOOD SHOWING AT C. OF C.

LOCAL BAND TO BROADCAST OVER STATION KFYO

Arrangements are being made for the Littlefield band to broadcast over KFYO, Lubbock station, in the near future, according to Monte Bowron, director.

No definite date has as yet been set, however, it is likely that the group will give the program Sunday afternoon or on the following Sunday.

No individual advertising will be accepted for the program, but will be strictly an entertaining feature giving publicity to Littlefield and Lamb county, Mr. Bowron stated.

A total of 850 square feet has been added to the floor space of Replin's Department Store. This was accomplished by reducing the storage space in the rear portion of the building. The additional store space will enable the concern to carry out its program of increasing the volume of merchandise carried in stock.

BEST THERE IS

A dyspeptic friend came in the other day singing the blues. Said he: "Well, if I could sell out I would move." When we asked him where he would move to he was somewhat abashed. He didn't know. Thought he would make a change. Then we suggested California, or Florida, or Missouri, or Arkansas, or some other state.

The upshot of the conversation was that our friend admitted that he was just a little discouraged, but that the South Plains, after all, was the best place he knew of. In fact he was ready to confess that we were in better shape than any place he knew of.

That characterizes the situation with a lot of our people. They are just a little depressed by the times. Yet when they analyze conditions they know they are living in the best and most productive, most promising spot in the nation.

And further than that we have the kind of people who will quickly adjust themselves to change, who are alert to innovations, who are thrifty, and who are optimistic.

All of which reminds the writer of the fellow who had a newspaper for sale. He painstakingly wrote an ad, summed up all the good points of the paper, the people and the community, and sent it off to a trade publication. When later reading it, it sounded so good that he decided he didn't want to sell at all. And so with our community—it's the best there is.

PROGRESSIVE TEXANS

Few of us really appreciate Texas' greatness in the industrial and economic pageant of states. A realization of this greatness on the part of Texans is sure to aid us in bringing greater achievements in future for the morale or esprit de corps of our people is a dominant factor in our march to further greatness.

Progressive Texans, Inc., is the only organization in the state that has dedicated itself to the task of awakening Texans to the realization of their high place in the sun and in speeding the day to a rich industrial program that will correct present economic ills.

A state that has six million people; that has a greater agricultural domain, three to one than any other state; that has more ports and greater potentialities for commerce; that furnishes most of the oil of the nation; that is so grand in size that marked areas of climatic difference afford the manifold blessings of widely separated sections; that has a great tidal plain on the one hand and a mountainous plateau on the other; that has the spirit of progress imbued in its soul by red-blooded Americans from every state in the Union, is sure to go forward to the empyrean of greatness as the South comes into its own.

Progressive Texans is the dynamic force behind this surging tide.

We contend that if all was as it should be these spring days the price of cotton would go up as the temperature does.

Muleshoe Farmers To Plant Tomatoes

About 40 farmers and truck growers, interested in tomato production, attended a meeting held recently at the court house in Muleshoe to learn more about planting and cultivating tomatoes on their land in the Black-water valley.

Ninety-four acres have already been contracted for to be put in tomatoes in that district this spring, and other contracts are still being made.

She Reduced 38 Pounds the Safe Way

"I have been taking Kruschen Salts for 4 months and I think they are wonderful. I am 32 years old and 5 ft. 2 in. tall. I was very fat. I weighed 165 lbs. and now I weigh 127 lbs. and feel fine. If I let up taking the Salts one morning I feel lazy and heavy," Mrs. Florence Loftus, Boston.

This is just one of hundreds of letters we get every month—Kruschen not only causes you to lose fat but while you are losing it you gain in health—in vivaciousness—you lose fat where fat is most prominent and at the same time keep stomach, liver, kidneys and bowels functioning naturally.

Any drugstore in the world will sell you a jar of Kruschen for a trifling sum—take one-half teaspoonful in a glass of hot water every morning—go light on fatty meats, potatoes and sweets. But for your health's sake demand and get Kruschen Salts—imitations are numerous. It's the little daily dose that does it.

And a Home Town Boy Makes Good

"Ratliff's Double in Ninth Gives Akron 8-7 Win Over Erie," flashes a streamer across the sport page of an Akron daily newspaper, writing the history of Littlefield's own Dick Ratliff, who's making good in a big way in the large baseball leagues.

Not only has Ratliff gained occasional appearances in the banner, but the press is giving him sufficient material to fill many scrap books.

"The Tyrites quickly overcame a one-run lead in the first inning when Ratliff sent Kraesig and White home with a double to left, after Kraesig had reached first on an error and White had been hit by a pitched ball." Thus reads a story in the Akron daily paper that seems centered around Ratliff. And another paragraph reads:

"There were two down in the ninth when Ratliff came to the bat, and it looked like a certainty that the game would go into extra innings. But Ratliff smacked the ball cleanly to left for one base. And he scored all the way from that station when Gaiher banged the ball against the wall."

Bula Youth Wins Honors at Recent State League Meet

feet, nine and one-eighth inches to gain the place, and received a gold medal for his wide spread. He was accompanied to the state meet by Prof. P. O. Smith, superintendent of the Bula school. He will be eligible for competition again next year.

Sunday School—On to five hun-
dred by June 12. The school now has
the best organization it has ever had.
There is yet room for a few more
teachers. Remember the hour for
opening is 9:45.

11:00—You are invited to join in
the worship by singing these great
old songs of Zion selected and led
by our chorister. Nothing prepares
us for the sermon like singing.

ject will be, "Keeping Bad Company."

12:00—Benediction.

METHODIST CHURCH
Sunday, May 22.

Sunday school will meet at 9:45 a.
m. Last Sunday was a record day for
the Sunday school attendance, with
many new pupils and the largest at-
tendance in the history of the local
church. We appreciated the large at-
tendance and will assure you that you
will find a welcome all the time in
our services.

The house was filled for the morn-
ing services. There were a number
of visitors from the other churches
present. To these and all others who
do not have services every Sunday,
we invite you to come and worship
with us.

Next Sunday will be observed as
College day and we are anxious that,
all the young people and older ones as
well be present. Education is one
arm of Christianity. In the realms
where Christ is not known, we find
ignorance is appalling. The mind is
the great gift of God to man, the
only one of God's creatures that are
so endowed. Come let us worship
God in this observance of College
day.

Remember the night service. If
you enjoy singing some, mingle your
voice with ours in a real song ser-
vice.
Joe E. Boyd.

4-H Club Girl to Describe Farm and Ranch Life in Texas

Miss Mildred Garten, a club girl of Littlefield, has been selected by Miss Ruby Mashburn, home demonstration agent, to write to a New Jersey club about her farm life and to describe the life here in Texas to the people of that state.

Miss Mashburn, in discussing the matter, said: "Miss Myrtle Murray, our district agent, received a letter from Mrs. Elizabeth Dixon of Cumberland county, New Jersey, asking that a 4-H girl write a description of her club work for a county-wide rally to be held at Bridgeton, N. J. Miss Murray sent the letter on to me, and asked me to select a girl for this."

"In her letter Mrs. Dixon said they want to know something about the farm or ranch life here in Texas."

The girl chosen is in her third year's work. She lives on a farm near town, and was one of the Lamb county team of girl demonstrators who entered the second annual cured meat show contest at Lubbock in March.

Over 101,000 Bales Handled in This Area By Cotton Co-Op

Final check of the operations of the Lubbock district office of the Texas Cotton Co-Operative association shows a total of 101,593 bales of cotton handled through this office for the 1931 season pools.

"J. M. Gragh, an accountant in the Dallas office and in charge of our statistical work, advised me of the final total," N. H. Payne, district manager, said. "I believe that if the Japanese firms had not been buying cotton so heavily in this section, we would have gone considerably larger than that."

"My opinion is that the 1932 crop will show nearly 200,000 bales of cotton handled through the district."

Payne stated that no announcement would be made until in the late summer, of the probable list of towns where branch officers and classifiers will be stationed for the season. He said that it appeared now there would be about the same number of branch offices in the district for 1932 as there was 1931. Several new ones were added last fall, bringing the total to about 20 for the district. In addition there were about 75 classifiers and buyers, at gins over the area.

ANTON

Anton and vicinity received the heaviest rainfall of this year last week, estimated at four inches.

The members of the Anton Municipal band attended the West Texas chamber of commerce at Sweetwater Thursday, Friday and Saturday of last week.

Last year a new grain industry got underway here with the growing of a considerable acreage of cane sorghum for syrup manufacturing. Farmers made from 1,500 to 2,000 gallons, according to L. W. Clark of the Anton State bank. This summer, he said, a still larger acreage probably would be planted. There has been a steady demand for the syrup all winter.

A reduction of approximately 40 per cent in the valuation of property within the Anton independent school district has been planned by trustees, according to R. D. Webb, assessor and collector. Last year the valuation was \$2,800,000 and this year it is thought the total will be about \$1,775,000. No change in the rate, \$1 per \$100 valuation, is planned. The district, comprises about 80 sections of land, in northeastern Hockley county.

PEGGY SHANNON HEADS CAST IN HOTEL DRAMA AT PALACE THEATER

A particularly fine cast has been chosen by Tiffany Productions for their latest feature, "Hotel Continental," to be shown at the Palace Theater Saturday midnight, Sunday and Monday, with established favorites from both stage and screen in the important roles.

Peggy Shannon, borrowed from Paramount for the leading role of Mary, gives a sympathetic and convincing performance as the beautiful "decoy" of a gang of crooks, who loses her heart to the man she is planning on betraying.

Opposite Miss Shannon, in the role of the ex-convict who has returned to the "Hotel Continental" on the last night of its existence, Tiffany Productions executives have cast Theodore von Eltz, a long established favorite of both the stage and screen.

Some particularly fine characterizations are given by the following members of the supporting cast: Alan Mowbray, J. Farrell MacDonald, Ethel Clayton, Henry B. Walthall, Bert Roach and Rockliffe Fellowes.

F. Hugh Herbert and Paul Perez have woven a fine love story into the mystery of a hidden wallet containing one hundred thousand dollars. The locale of the entire picture is a famous old metropolitan hotel, which, having served its purpose for fifty years, is about to be torn down.

All of the color, life and gaiety of metropolitan life has been caught by Christy Cabanne, who directed "Hotel Continental," and in the more intimate scenes his handling of the characters indicates a high order of directorial talent.

AMERICAN LEGION

We feel a deep debt of gratitude to all Littlefield and Lamb County for their co-operation and support in bringing about the establishment of a permanent home for the Richard New Post of the American Legion in Littlefield.

By your response we feel that you endorse our purpose . . . a purpose which is mainly to aid in every possible way our comrades who have made sacrifices in order that we might live in a world of peace.

Thousands of comrades lie heroes, forgotten, in Flanders Fields. Thousands of others who did not escape the shells lie scattered in scores of hospitals. These men, still young . . . at an age when they should be rising to grasp the heritage of guiding America's destiny . . . are dependent on those for whom they fought.

For your co-operation in this work . . . for your endorsement of our purpose, we again thank you.

While Miss Dulcie Campbell was visiting Altus, Okla., last week, she was in Mr. Claude Campbell's grocery store around 8 p. m. An unmasked man carrying two pistols dashed in the front door, while another came in the back way. Their first words were, "Don't move one step." The man who entered the back way ordered Mrs. Campbell and Miss Dulcie Campbell to come to the back and said "they didn't want to cause any trouble," they wanted the money and had to have it. While one took \$85

from the cash register the other took everything of any value out of Mr. Campbell's pockets, including his wife's wedding ring and Miss Campbell's pocket book and all the contents. After they had made their raid they gave orders that no one move for five minutes, if they didn't want to die. As it was dark it was very uncertain how they got away. After four days of steady searching one of the robbers was found. The following day Mrs. and Miss Campbell were called to Chickasha to identify him. The ring was found in his watch pocket in an aspirin box. He was put in the county jail until his trial some time in July.

Yes, and the supply of meat and related products stays at about the same level from year to year; this supply was no smaller in 1931 than in 1930.

Thus, in depression years, as in boom years, there is absolute need for a nation-wide, diversified, economical marketing system.

How Swift & Company, with such a system, marketed more pounds of products during 1931 than in 1930, despite low consumer purchasing power and at lower service cost, is told in the 1932 Year Book.

Thirty years ago this company deliberately set out to diversify by handling produce as well as meats. Now it has more than a hundred stations where eggs, poultry and dairy products are bought and processed. Swift & Company enhances demand for produce by advertising brands of high quality, Swift's Premium Milk-Fed Chicken, Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products.

Selling and buying on a national scale, the Swift & Company organization avoids the gluts and shortages characteristic of restricted markets. Being diversified, it spreads costs more thinly over all products; the same refrigerator cars are equipped to carry either meat or produce; the same branch houses handle them; the same salesmen take orders for both.

Read in the 1932 Year Book how this diversity helped to stabilize operations, to keep volume normal and to further reduce our marketing costs, already declared by the National Distribution Council in 1925 to be the lowest in seventeen trades studied.

The Year Book is packed with a hundred items of information about Swift & Company's nation-wide cash market. Ask your local Swift Produce Plant for a copy or use the coupon.

There's a Message for This Man,

Watch him when he comes through here"

His mother had died suddenly. His family was perplexed about notifying him, for he was "somewhere on the way to California." Just here, nobody knew.

They did know, however, he was motoring over a route selected by the Conoco Travel Bureau. So the death message was wired to Albuquerque, New Mexico, which was on that route.

The Continental office set every Conoco station attendant in Albuquerque looking for the traveler. All day Conoco men asked motorists their names. And finally the right man was found, the message delivered to him. An unusual incident. Just one of many out-of-the-ordinary happenings, however, that

have earned a Nation-wide reputation for the Conoco Travel Bureau and its services.

We do more than furnish road maps, help choose routes and supply other travel information. We look upon every Conoco Passport holder as a personal friend to be served in every way possible. Every Conoco station is a branch of the Con-

oco Travel Bureau, and every Conoco attendant is the traveler's well-informed friend.

If you are planning a motor trip, write us where and when you want to go. Or fill in convenient application at any Conoco station. We will send you a Conoco Passport, 1932 road maps and other travel information. Our service is absolutely free . . . maintained for the benefit of American motorists by Continental.

PAPERS CALLED BEST MEDIUM OF ADVERTISING—

Newspapers are called the dominant medium in the United States by Kenneth Collins, executive director of R. H. Macy & Company, in his book, "The Road to Good Advertising," published recently. "Few business ventures in America requiring the stimulus of advertising could live without the newspaper," said the department store executive. "In it we spend more than one-half of the entire budget for all forms of publicity. We do so rightly."

He held that advertising could help greatly in ending the business slump by the use of absolute frankness as to conditions and showing how values are the greatest in many years. Mr. Collins emphasized that newspapers of today are much better than

those of other times and called upon advertisers to take advantage of the superior facilities now offered.

Rocky Mountain National Park Is Scene of Wells' Travels

Rocky Mountain National Park, Colorado's most wonderful scenic wonderland, where rare mountain sheep graze amid fields of Columbine, Colorado's state flower, is the scene of Carveth Wells' 25th radio program in his series of "Exploring America," over the N. B. C. network Sunday, May 22nd, at 9 a. m., CST.

Cut half in two by the Continental Divide, the "roof-tree of America," Rocky Mountain National Park offers one of the most accessible of America's scenic playgrounds, according to Wells. Leaving Denver, he takes his radio audience to Estes Park, through Loveland and Big Thompson Canyon. On every side there are natural wonders familiar to most Americans, such as Long's Peak and Chiasm Lake, which is frozen 11 months of the year; and sky-high golf courses and tennis courts. Outdoor sports have a perfect setting in Estes Park, and there are trout streams stocked every year; horseback riding, mountain climbing and hiking. Visitors can enjoy snowball battles in mid-August, and collect wild flowers or butterflies the same day. At Fall River Pass, 12,000 feet up, there is a marvelous display of geological data bared by the age-old glaciers. And descending on the Pacific slope, the visitor comes to Grand Lake, which boasts the highest yacht club in the world, with all water sports popular throughout the summer.

A noted visitor at our school Monday was Frank Norfleet. He commended us for our nice building and stated that things had certainly changed since he began work on the Spade ranch before the ranch headquarters was established. Mr. Norfleet is a noted detective and recently rejected an offer to work on the Lindbergh case, because he would not be allowed to work alone, but would have to work under a committee. Norfleet is a local hero and well known by most Spade people.

TWO ESCAPE JAIL.—

(Continued from Page One)

with violence if they aided Wynn in freeing himself from his bonds, and therefore refused to assist the jailer in obtaining his liberty.

The attack occurred about 2:45 p. m., and a few minutes later Wynn was free, having worked his feet loose and maneuvered until he got possession of his knife with which to cut the cords which bound his arms.

In escaping Mahan is said to have taken the keys of the jail with him. Wynn notified City Secretary W. G. Street and Mr. Street spread the alarm by telephone. Soon cars were leaving Littlefield in every direction.

Failing, according to officers, to obtain possession of two cars which they endeavored to use in their escape, the pair ran south. Arriving at the W. W. Gillette home, they found the Gillette car parked in front of the house with the key in the switch. Taking the car the pair made their way out of Littlefield in a southwesterly direction and were 12 or 13 miles from the city when caught.

Among those who participated in the search were Constable Fred Hoover, Wynn, Mayor T. S. Sales, Commissioner Pat Boese, Night Watchman John Blair, J. T. Street and County Commissioner Ellis Foust.

Mahan was arrested by Constable Hoover and Mayor Sales, while O'Brien was taken by Mr. Blair and Mr. Foust.

Both were taken without difficulty, but those who participated in the arrests did not attempt their tasks without drawn guns.

The Gillette car had been abandoned and both men were in a field when taken, but a mile or two apart.

Blair found it necessary to obtain a horse and ride across a field to get his man.

The cars which carried the captors were driven by Mayor Sales and Commissioner Foust.

Mahan was first arrested in this county Monday by Constable Fred Hoover, following the receipt of information that he was wanted by the Carthage officer.
