#### HOME TOWN TALK

By Beddy

FRIDAY night a final check-up is going to be made and if that \$300 has not been subscribed for the Big Spring high school Steer football training camp the boys are not going to get to have a camp at all. Then they will open the playing season a lot sooner, a lot more clumsy, a lot more short-winded than otherwise they would.

With \$300 in cash and the donation of automobiles to carry 'em down to the Llano river Sunday morning the thing will go over fine. But we got to have the money, also use of enough automobiles to take 'em down there.

Dollar bills are what we need, lots of 'em. Mail them or send them to the Herald office, hand them to any high school official or to "Uncle Walt" Smith or Doc Wofford. But get 'em in pronto. Friday night will tell the tale.

WE got kinfolks down in the deep black muddy country, Ellis county to be exact, who, having wrecked a livelihood from the gumbo for Lo, these fifty or more years, still believe this country of ours out here is on the rim of the Great American Sahara. The cotton stalks grow tall, along with the crab grass in that country. But—

We couldn't help laughin' and at the same time feeling sorry for our beloved kinfolks all day Wednesday whilst feasting our eyes upon the verdant fields of Howard county, West Texas, U. S. A.

Truth, folks, most all of these farmers have got crops that are a feast to the eye. Rode many miles right in the county along with a number of local folks yesterday and we, as well as the others, were surprised at the condition of the whole crop.

First rattle outta the box, Earl Phillips' place out at Fairview; and E. W. Mariona's right across the fence; they both have fine looking crops. Both men have terraced and contoured their fields. In fact Earl was the first in the county to do so.

It is interesting to notice the 4-H Club boys' milo maize projects. Kinds show their duds up in a lot of instances. The boys plant five acres, two rows milo to one row of peas. They keep a record of labor and seed cost, time of planting and cultivating, total yield, etc. Elmo Phillips, Earl's boy and Edward Marlon, E. W.'s boy, both have fine looking milo projects.

County Agent Bush said both boys would be able to feed off one to three baby beeves from their milo patches.

And, on we went through the Fairview, Richland, Luther, Vincent, Green Valley, R-Bar communities. Seemed that crops got better the longer we traveled. In fact R-Bar has about got the cake for crops north of the T & P. Elbow and Lomax communities southwest of here have fine crops too.

Howard county apparently has as good prospects for a crop, both feed stuffs and cotton, than any county in west Texas and a lot better than almost any other county. We ought to be thankful.

Now, for a market worth a darn.

#### BASKETBALL TOURNAMENT

SHREVEPORT, La., Aug. 24 (AP)—Smashin' out a home run yesterday with two on base in the sixth inning of the American Legion regional tournament here, Jimmy Breaux, second sacker for New Orleans, broke a 1 to 1 tie with Galveston and won the game 5 to 3 for New Orleans. The team will go to the western tournament at Colorado Springs to represent the southwest.

#### WOODWARD TO ADDRESS GATHERING

Hot Weather 'Beaten' By Acquisition Of Building

Ross S. Sterling, candidate for governor, will speak in the Ritz theatre here Friday at 2:30 p. m.

State Senator Walter C. Woodward of Coleman will appear on the program with Mr. Sterling, as he has done throughout the West Texas tour of the Houston candidate.

Here For Lunch  
The Howard County Sterling-Ferguson Club announced Thursday morning through its chairman, James T. Brooks, that the club had rented the Ritz from Manager J. Y. Robb for the hours 2:30 p. m., to 4 p. m.

The decision to use the theatre, which will accommodate 1,500 or more persons was made on suggestion of a number of persons who pointed out that the hot weather, especially in mid-afternoon, would be "beaten" with the theatre's splendid cooling system.

Judge Brooks, who will have charge of the meeting, will introduce Mr. Sterling. Senator Woodward will be introduced by his only brother, Judge Garland Woodward of Big Spring.

Mr. Sterling is scheduled to reach Big Spring for lunch Friday and will for thirty minutes or more before time for his address be at the Crawford hotel where he will be glad to meet his friends and supporters. He will come here from Lamesa, following addresses at towns between Lubbock and that city and will leave immediately after the local program for Sweetwater. He will stop in Colorado for a brief address, proceeding to Sweetwater for a rally before turning eastward to end the week in Fort Worth.

#### Women At Work

The Women's Sterling-Ferguson Club was busy Thursday canvassing the city with personal calls and by telephone in an effort to assure a large representation of women at Friday afternoon's rally. The county Sterling club has distributed circulars, as well as news notices, of the local program throughout the city and several neighboring counties. Large delegations were practically assured from Odessa, Midland, Stanton, Sterling City, Garden City, Coahoma, Colorado, Forsan, Knott and Ackery.

COLORADO, Aug. 13.—Colorado will send two motor caravans, carrying Sterling supporters to as many rallies for the Houston candidate Friday, according to an announcement made here today by

#### HOUSTON LAD DIES IN FIRE AS SCREAMING MOTHER IS RESCUED BY FIRE MEN

HOUSTON, Aug. 14 (AP)—A six-year-old boy lost his life and four persons were rescued when flames destroyed a two story home here early today.

Louis Shafer, six, succumbed to burns and suffocation soon after he was taken from the flaming house by firemen.

Mrs. Shafer, mother of Louis, her daughter Rose, 11, her son, Frank, Jr., 11, and Mrs. N. E. Brown were rescued.

Mrs. Shafer, who was sleeping on the second floor with the two children, discovered the flames and roused the three to safety down ladders.

Mrs. Brown, who was sleeping downstairs, was hurled from the house by a policeman who saw the flames. She was slightly bruised when she was pushed against a column on the porch.

#### "Re-Fooding" The Endurance Flyers

Mrs. Dale Jackson (left) and Mrs. Forest O'Brine are having no small part in the refueling endurance flight of their husbands. Here the two are shown packing food and letters into containers which are let down from the refueling plane to "Red" and "Ohio." The pair had been aloft 583 hours at 2:11 p. m., Thursday.

#### WEST TEXAS CONTINUES BATTLEGROUND OF TWO SEEKING GOVERNORSHIP

#### Jim Claims He Helped Pass Small Land Title Bill; Sterling Heard In Amarillo

(By The Associated Press)

The campaign for the Democratic nomination for governor took on renewed color today as James E. Ferguson and Ross S. Sterling moved deeper into the hotly-disputed West Texas territory.

Ferguson was booked for an address at Colorado and Sterling for speeches at Tulla, Happy, Floydada, the Hank Smith ranch and Lubbock. Ferguson spoke last night at Floydada and Sterling at Amarillo.

Ferguson's speech bristled with personalities, but he asserted personalities had been introduced into the campaign by his enemies with their "talk of honesty in government."

He said he was instrumental in passing the Small Land Bill over the veto of Governor Dan Moody and declared that he always had been the friend of West Texas. He declared the penitentiary system had been efficiently managed during the administration of his wife, Mrs. Miriam A. Ferguson, and took a firm stand against prison relocation.

He defended Mrs. Ferguson's pardon record, lauded the work of the highway department during her administration, advocated old age pensions and an elective highway commission and denounced the proposed state highway bond issue, saying he was for "bringing the government closer to the people."

Sterling at Amarillo explained his plan for building a state highway system by means of bonds financed with a gasoline tax rather than a tax on property, saying the present method of financing highway building was inequitable and unfair. He said that under his plan the state would obtain an adequate highway system, it would be paid for by the people who used the highways, and the counties would be relieved of the burden of road taxes.

He advocated improvement of the school system, shortening of hours for labor and improvement of state institutions, and replied to a number of charges made by Ferguson.

"He says he kept me out of the penitentiary," Sterling said. If he did, he violated the law and is unfit to even proxy governor. But I say the story is false.

Governor Dan Moody continued to attract attention with his denunciation of "Fergusonism." The governor spoke at Honey Grove and Greenville and attacked the records of Mr. and Mrs. Ferguson as administrators. Plans were laid for a gigantic rally at Dallas next week at which Governor Moody would appear.

#### Attorney General

The candidates for the Democratic nomination for attorney general, James V. Alfred and R. L. Bobbitt, flung more and bigger verbal bricks at each other. Alfred spoke at San Augustine, Jasper and Orange; Bobbitt, at Whitesboro, Pilot Point, Aubrey, Argyle and Roanoke, concluding with a radio address at Fort Worth.

Always it was speed. At Albuquerque, N. M., he made his first refueling, a second at Wichita and a third at Indianapolis. All were quick and efficient. His best time, he said, was made with the aid of wind between Wichita and Indianapolis, when he averaged 260 miles an hour.

Most of the time he flew between

#### DIVIDEND APPROVED FOR T & P

CLEVELAND, Ohio, Aug. 13 (AP)—Directors of four railroads, including the Texas & Pacific, declared dividends on stock and interest on bonds in meetings held here Tuesday.

The Texas & Pacific Railway Company authorized 1-1/4 per cent dividends on both its common and preferred stock payable September 30, to holders of record September 15.

The Missouri Pacific Railway company approved a dividend of 1-1/4 per cent on its preferred stock October 1, to holders of record as of September 15.

The International-Great Northern Railroad Company authorized payment of 3 per cent interest October 1 on its adjustment mortgage bonds.

The New Orleans, Texas & Mexico Railway company authorized a payment October 1 of 2-1/2 per cent interest for the period ending June 30, on its 5 per cent noncumulative income bonds.

#### Hawks Slashes Lindy's Record Across Nation

VALEYS STREAM, N. Y., Aug. 14 (AP)—Behind the name of Captain Frank M. Hawks in aviation's record book today is set down the time of 12 hours, 25 minutes, three seconds for an eastward transcontinental flight, the fastest ever flown by man over that distance of 2,500 miles.

It is faster by more than two hours than the time made East Sunday by Colonel and Mrs. Charles A. Lindbergh. Their record was fourteen hours, forty-five minutes. Seemingly fresh and his white sports clothes unstained, Captain Hawks set his Travelair monoplane down on Curtiss Field at 5:11:30 p. m. (E. S. T.) last night after having left Glendale, Cal., at 5:15:27 a. m. (E. S. T.). A week ago he took from Roscoe Turner the record for the westward transcontinental flight, making it in 14 hours, 20 minutes and 43 seconds.

Believes It's Best  
"I don't think it can be done any faster," said Captain Hawks as he landed last night. "Given exceptional weather in the fall, it is just possible my time can be bettered."

A great shout went up from several hundred throats at the field here when the flier appeared overhead, cut his motor and fishtailed down to a landing. As he taxied up to the hangar, his wife and son rushed up and were the first to greet him.

"When do we eat?" he asked. Later, when the roar of the motor had left his ears somewhat, and he could hear questions, he told of his flight, of a moonlit sky under which he took off in the west, of the dawn that met him over the desert and the sun that glared at him first near Flagstaff, Ariz.

Speed Always

#### HELD IN BOMBING

Paul Montgomery, a Murphysboro, Ill. flier, has been placed under arrest after nine bombs were dropped from a plane in the coal mining section near Providence, Ky. A description of the plane used in the bombing corresponded with an orange-colored monoplane flown by Montgomery.

#### Second Aviator Held in Bombing Of Kentucky Mine

PROVIDENCE, Ky., Aug. 14 (AP)—Three arrests in the Monday's air raid on Webster county coal mines were followed today by a fire that destroyed the tipple of the Providence Coal Mining Company.

The fire, described by officials as incendiary, was discovered in a shed and consumed it and the tipple and two Louisville & Nashville coal cars on a siding. Loss was estimated at \$50,000.

The blaze was laid by Wayne Crow, a deputy sheriff who investigated it, to revenge for the arrests here late last night of Essel Grant, 35, and Ewing Riley, 20, in connection with the raid in which nine bombs were dropped from an airplane on mines in this vicinity.

It was one of a series of disorders which included the dynamiting yesterday of an Illinois Central trestle. Grant and Riley arrested on information furnished by Paul Montgomery, Murphysboro, Ill., aviator, who confessed he piloted the bombing plane, were released today in \$5,000 bonds each. Their hearing was set for Friday. Montgomery is expected to be brought here about that time for arraignment. Meantime union leaders called a meeting for this afternoon to discuss the situation.

The mine Number 3 of the Providence Coal Mining company, where the fire occurred, had not been operated since differences over wages and working conditions caused a shut down April 1. Officials had planned to resume operations September 1.

Both Grant and Riley denied any connection with Montgomery's air raid and said they did not know him. Montgomery said he was hired to make the flight.

Malone was arrested last night at Duquoin and was questioned here by county and government officials until an early hour today. Lewis said today that Essel

#### BENEFIT OF TERRACING DISCLOSED

Party From Big Spring Tours Farms of County

A score of Big Spring business men and women spent Wednesday touring their own home county.

With County Agent J. V. Bush piloting the caravan an inspection was made along a 75-mile route, including farms in the Fairview, Richland, Luther, Morris, Vincent, Green Valley, and R-Bar communities.

#### Trip Pleading

Those who took the trip, sponsored for the purpose of acquainting business men with actual crop conditions, with the benefits being derived by farmers from land terracing and contouring and with the progress of Boys' 4-H Club work, came home with a firmer conviction that this is one of the best farming regions in Texas.

The recent rains had saved the crops, every farmer declared. Old fields, except in a few instances, was in good condition. Young feed is in exceptionally good shape and cotton was found to be growing and, in addition, to be more heavily fruited than usual.

One of the chief reasons for the tour was to afford business men an idea of the results obtained by terracing and contouring fields.

Comparisons of terraced land with unterraced land, drawn by the relative condition of the crops, "sold" the Big Spring party on terracing as thoroughly as the farmers who have adopted it are sold.

#### Members Of Party

In the party were J. V. Bush, county agent; Mrs. M. R. Showalter, county health nurse; Mrs. J. E. Delbridge, home service department of the Southern Ice & Utilities company; Fred Keating, superintendent of the government farm; R. L. Price, T. S. Currie, B. Reagan, W. G. Hayden, Wendell Bedichek, George G. White, Nat Shick, T. W. Ashley, Miss Cora Ashley, Miss Pauline Cantrell, county superintendent of schools; D. H. Reed, George Gentry; H. M. Neel, Mr. Calvert, Mr. Smith.

### News Of Big Spring Society

#### Mrs. James Wilcox Is Given Shower

The Bluebonnet class of the Christian Church entertained with a shower at the home of Mrs. Willard Sullivan Tuesday evening in honor of Mrs. James Wilcox, formerly Miss Miriam Kennedy, who was married in Boulder, Colorado, recently.

A two-act playlet, written by Mrs. D. R. Lindley, was given as entertainment. It was called "Marriage, Old and New."

To appropriate times the first act turned out to be an old-fashioned church wedding with the old-fashioned bride and groom. The second act was a modern wedding with a "rapper" bride and "jelly" groom.

Mrs. Wilcox then followed the "rainbow" which was rainbow colored ribbon, to the pet of gold at the end.

The following guests were served refreshments: Mesdames F. M. Purser, Roy Carter, J. T. Allen, Jack Clark, Leo Wright, D. E. Landley, Everett Walters, E. H. Mr. Tenyson was a member of the Bessie Brooks and Company Store in the early days of Big Spring and left here 31 years ago.

#### Mrs. Jack Hodges Entertains Club

Mrs. Jack Hodges entertained the members of the Bluebonnet Bridge club at her home yesterday morning.

She used a green and yellow color scheme in the refreshments and decorated her house with stinnias.

Mrs. J. O. Barker won cut prize, Mrs. W. A. Earnest won guest prize and Mrs. J. H. Rives won high prize for members. They were given pictures as prizes.

The guests were: Mesdames J. O. Barker, Sam Baker, W. R. Ivey, P. H. Liberty, O. Y. Miller, W. D. McDonald, Lee Weather, J. H. Rives, Gus Pickle, E. M. La Boff and W. A. Earnest.

### AMERICAN TAKES PHOTOS OF INSIDE OF STOMACH

VIENNA (AP)—Success of an American in photographing the interior of the stomach has raised enormous interest in medical circles here.

Dr. William Paul Aschner of the Mt. Sinai hospital in New York described this photography. It was done with a tiny camera, made to be swallowed, devised by Back of Vienna.

Aschner gave results of 21 photographs of stomach lesions. There was afterward opportunity to check the accuracy of 13 of these pictures by operation or autopsy. In five cases the photos proved more reliable than the method known as the barium meal.

**REDS EXPEL THOSE WHO DRINK OR GO TO CHURCH**

KHARKOFF, U. S. S. R. (AP)—Drinking, churchgoing and wife beating were among the offenses for which sentences of expulsion were meted out by the communist party in this section of Ukraine. These findings applied chiefly to townsfolk. Most of the peasants who were thrown out in the annual "house cleaning" were found guilty of refusing to join collective farms, hiding their grain, dodging taxes and otherwise discrediting the organization in the eyes of outsiders. All told the party lists were pruned by nearly 11 per cent. Of the guilty 84 per cent were found in the country and 36 per cent in the city. Most of the town communists are factory workers and under constant party discipline.

Jim True To Form

MANY accusations have been hurled in both directions since the run-off primary campaign for governor was launched. Jim Ferguson has made many attacks upon the character of Ross Sterling.

It is very easy, always to tear down a thing or to hurl charges of wrongdoing. It is especially easy in a short campaign, when the election is less than two weeks away.

Jim, through his wife, has used the recent affairs of a Houston life insurance company in an effort to show that Sterling is not a good business man. He also implies Mr. Sterling would fleece those who invested with him.

Wright Morrow, a well-known Texan, was made receiver of the Security Union Insurance company, a Houston concern which recently went into receivership.

Charges concerning Mr. Sterling's alleged connection with the Security Union and the Lumberman's Reciprocal Association were made at Cooper last Thursday night by Mrs. Miriam A. Ferguson.

Read Receiver Morrow's statement concerning Mr. Sterling's actions in the matter: "The records do not disclose that Mr. Sterling has any connection whatever with the Lumberman's Reciprocal Association. They do show, however, that Mr. Sterling owns 25 shares of stock in the Security Union Insurance company, out of a total capital stock of \$250,000.

The records show that the Security Union has 11 directors, and Mr. Sterling is recorded as one of the directors, but I find nothing in the records to indicate he has ever had anything actively to do with the management.

"When I took possession as receiver of this company on July 11, 1930, Mr. Sterling sent word to me to let him know as soon as possible what he could do to help restore the company's business and protect the company's claimants and policy holders.

"I advised him of the situation and Mr. Sterling promptly gave me his written guarantee for \$25,000, thus enabling me to complete arrangements to reimburse the company's outstanding policy holders at the time I took possession as receiver.

"Mr. Sterling made this voluntary contribution, stating to me he was making it because he was unwilling for any claimant or policy holder in a company which carried his name as a director to go unsatisfied if he could help it. He explained that he desired to do this notwithstanding he had nothing to do with the management of the company nor any legal liability concerning its obligations."

A Business Man At Last

FOR YEARS we have heard the cry up and down this state for a business man in the governor's office.

Good business men have offered for the office, but some flaw in their records or lack of personal funds has prevented their election.

Texas now has an opportunity that rarely is presented the people of any state.

We may vote now for a man who not only is one of the outstanding business men of the south, but whose record for personal honesty is without doubt.

would take on a very different aspect. But, opposed to that outstanding Texas citizen, who is unselfish almost to a fault and who has never been accused of dishonesty, we have a man who has been accused, openly charged and even tried for mishandling of the state's affairs.

OPINIONS OF OTHERS Offsetting the Drought

THE PROLONGED period of drought and abnormally high temperature throughout the country now, happily, ending, has caused enormous crop losses in nearly all states, with resultant distress to thousands of farmers, but there are redeeming features in the situation.

The corn forecast is for 2,212 million bushels, 600 million less than last year, and the smallest crop since the disastrous drought year of 1901.

It is not to be forgotten that the small grain crops matured and were harvested before the drought affected them. The country produced more wheat, oats, barley and rye than last year, and a substantial part of the hay crop was matured in advance of the drought.

Aside from the drying-up of vegetable gardens and curtailment of the fruit yield, the losses from the drought are chiefly in those crops that are fed to livestock, and past experience has demonstrated that in this branch of farm industry adjustments can be made to minimize the shortage in crops.

Even in the worst drought years a massive amount of rough feeds is saved to carry livestock through the period of feed shortage. This year a special help in maintaining livestock will come from the use of wheat for animal feed.

The relatively low price of wheat, compared with corn, together with the large surplus carried over from last year, probably will result in feed-rationing less than two weeks away. That is why Jim Ferguson jibes false charge upon false charge. It is his nature to do that sort of thing.

Jim, through his wife, has used the recent affairs of a Houston life insurance company in an effort to show that Sterling is not a good business man. He also implies Mr. Sterling would fleece those who invested with him.

Constitution and type must be taken into account whenever the effort is made to determine the ideal weight for any individual. This in turn implies a careful examination before reduction is undertaken.

HOLLYWOOD—Movieiland now is language-conscious as movieiland has never been before.

A year ago Hollywood was a haven on earth for English teachers, who hung out their shingles and peddled in the gold of self-consciousness seeking to rid their tongues of their tongue.

Now, because of the widespread interest that has come with foreign version talkies, without a doubt Hollywood is due for an influx of the learned in foreign tongues, and these professors, equally without a doubt, mostly will meet equal disapproval because like the English teachers they will cramp each other with competition.

Increasing Population Nevertheless, the foreign-language talkie has crept into a prominent place in the production schedule. Daily, at one studio or another, new faces are seen, practically unheeded because they mean nothing to an American public which scarcely will be aware of their work.

Tall, dark Spaniards and Mexicans, debonaire Frenchmen, husky blond Germans—and senators, demagogues, frauleins—mingle in studio commissaries with the old established stars. Speaking their own languages, they are eagerly learning English, but no more avidly than the rest of the studio is trying to master their foreign tongues.

Student Again Still after star has undertaken seriously the study of French, or German, or Spanish, even Mary Pickford, habitual and professional off-stage vocabulary that she is acquiring by carrying her Italian primer along with her talkie scripts.

On one hot daily classes in German, French, Spanish and Italian are conducted by "leading" professors, and stars, script girls, pronouns, and who desire, may attend and do.

When foreign versions first arrived here, Hollywood was referred to as a coming "Tower of Babel." Now, instead, the place looms as a future Geneva, a multilingual capital.

Lawrence Tibbett, the operatic hero, is spending his vacation "at home." He does enough traveling in his work, he says.

OWNER OF "DICK O'HARA" DOES A BIT OF KIDDING CHICAGO. (AP)—Pat Joyce's "Dick O'Hara" ran last in the Kentucky Derby, and the railroad man's friends kidded him about his luck.

Now Pat is doing a bit of kidding. He had the only \$100 ticket on "Reville Boy" that long shot came home first in the American Derby at Washington Park. His \$100 came back and \$5,502 with it.

CORPUS CHRISTI LADY GLAD TO PRAISE KONJOLA

Old Resident Eager to Tell What New Medicine Did for Her After Others Failed

MRS. H. L. DRYER

"I was badly run down and even the simplest foods brought on attacks of indigestion," said Mrs. H. L. Dryer, for more than fifty years a resident of Corpus Christi, Texas, residing at 1237 Ocean Drive in that city.

"I bloated terribly after meals and suffered severe belching spells. Constipation was a source of constant worry and I had severe pains in my abdomen after meals. I was unable to sleep at night.

"I have taken Konjola but a week and I can say that every ache and pain in my stomach is gone. I can now rest well at night and eat what I wish without any of my former miseries. I have never used a medicine like Konjola and although I am 65 years of age I can do plenty of work. I am more than glad to pay my praise for this medicine to others.

"This is not an exceptional case. Konjola does its work quickly and none the less thoroughly. It is best in most cases to continue the treatment over a period of from six to eight weeks.

Konjola is sold in Big Spring at Collins Bros. drug store, and by all the best druggists in all towns throughout this entire section.—adv.

to sail for home a fortnight later, the rush of events that fall, culminating in the Armistice, kept her interested and free from introspection.

Howard's memory again faded from her consciousness for the time being. Only on rare occasions now did his face disturb her thoughts. Would she be able to forget him for good? Time alone would tell. Meanwhile there was the excitement of preparing for Jack's homecoming.

Jack wrote that his knee was steadily improving, but that he would be convalescent for some time after reaching home, as the injury was slow in healing and care must be exercised in order that the joint might function normally again.

She was truly happy and expectant when her father-in-law was able to arrange that Jack should be returned among the first of the two million. Quite humanly, she felt that she had hardly been a wife, and she hoped, with a fierce eagerness, that the physical bond between them would bring about a union so perfect as to obliterate Howard's image from her conscious thoughts. She knew she wanted Jack to be a man. No woman on the pier the day Jack's ship came in, craved love more ardently than she.

It was a cold afternoon in December, with flurries of snow in the air. Mr. Vanearing had obtained permission for his family to pass the barriers and stand beside the gangway, which was ready to be run out to the strainer so soon as the ups had pushed her into her berth. Looking up at the decks thronged with officers in the uniform of the day.

"No, if you must," Dick's face was troubled, "But you haven't told me if this is to be a wedge between us. It is almost—"

"Oh, Dick, never! I'm not that high. And after a while after I've gotten myself adjusted to everything—I'll come and visit you and her. But not just now. I couldn't."

"She'll see you before I sail." "As often as you can. I need you, Dick." She ground a balled fist into her eyes. "No, don't come with me. I'll be better alone. This is to be, and it's a good thing it happened this way."

He kissed her, and at the door she turned with a ghost of a smile. "I haven't wished that you'll be happy. I do, Dick—oh, I wish it so hard! And I hope she'll be happy, too. She deserves it, poor thing—more than either of us, doesn't she?"

Dagger's reaction to the emotions roused by Dick's news was a stubborn bias of loyalty to Jack. Tossing through the night, she told herself again and again that she must not let a dead man come between her and her husband, and in the succeeding days the resiliency of youth coupled with her innate honesty—and Dick's level-headed counsel—helped her to resign a normal attitude.

forms of all the Allies, Dagger's cheeks were crimson, her eyes sparkling. Mr. Vanearing hooked an arm affectionately in hers.

"Our Jack will want to jump straight down here when he sees you, Alix," he laughed. "I wish he would," exclaimed Dagger.

Mrs. Vanearing stirred petulantly on her husband's other side. "You both forget his poor knee," she objected.

But Dagger, all unhearing, cried out between tears and laughter: "Oh, there he is! But no—it can't—it is!"

She ended on a sob, and Mr. Vanearing followed her glance upward, a prey to wonderment. It was Jack's mother who recognized him next.

"Of course, it is," she snapped. "Why, Jacky, dear, what have you been doing to yourself?" (Copyright, 1930, Duffield and Company)

What terrible change has the war wrought in Dagger's husband? Read it in tomorrow's chapter.

### Robins Back In Virtual Tie of First Place

Had a football caucus this a. m. with Drs. Ellington and Hardy and Supt. The aforementioned insisted on talking about the Governor's race instead of the Intercollegiate League race. Supt. declared a fence would be erected around the new gridiron on the hill to keep all the good football fans inside after the season opened. Doc Wofford, who has reserved his winter seat in the southeast corner of the warm corner, incidentally, of the press box, was instructed to get hammers and nails, and a board and stop up one crack therein for fear all of us would become suddenly ill with pneumonia. After the conference, the Supt. went superintending, the doctors began to look down in the mouth, and we went downstairs and bought our own Coca-Cola.

It looks very much as if the protest lodged by the Barbers against the Richardson Refinery win of Tuesday will have to be voted upon this p. m. A conference with Lois Madison, the big soap and lather man, revealed the protest, in all probability, will be placed in writing before the sun goes tumbling down this eve. The protest is based on the fact that Dickinson, the chunky Richee chunker, had a sleeve that was too long and was split into little tangents. Whether the cloth did Dick more harm than it did good is one point. There is this to consider. Dickinson hit three batsmen. And you can take one hand and cut the thumb off and still have enough fingers left to count the number of batsmen Dickinson has hit all year. Anyway, Messrs. Cault, the beef grower, O'Brien the teaming contractor, George Gentry, the knowledge dispenser and yours truly will have to vote. If for nothing more, to earn our salt.

Ben Anthony, who galloped around the Cico gridiron for a number of football seasons, decided he wouldn't get to Texas University after all. He craves to move out of the state and sees his lot in with the Oklahoma Sooners. It will be recalled that another aspiring youth went out of the Oilbert a few years ago to set things humming at the Oklahoma university. We refer to Buster Mills, who demonstrated his football prowess before Big Spring became a member of the long section known as District Two. Bobby Garrett of Eastland also went to Oklahoma after leaving a year with the Freshman team at Texas. He came out of Eastland and Mills out of Ranger. However, neither could stand the heat, or else it tired him out carrying his two hundred or more pounds around.

We have at hand a most curious episode from the extreme end of the district. Mineral Wells to be specific. Said letter relates that the Mountaineers have already started pointing for the first game. Seems they are running up one mountain and down another getting in shape for the first conflict of the season. For those not well versed in the matter it is well to say that the Mountaineers and the Steers clash in the initial, down at the water hole. "Big Spring," informs the informer, "is already on the list as a sure win." Heh, heh! We've seen other teams placed on the "We'll sure win this one" blackboard. For instance last year San Angelo was placed on the "easy" sheet and lo, the "Game Little Bobkittens" got lucky and took advantage of the Mountaineers' bones to cop the fray and motor out of town with it. As long as the Mineral Water supporters think Big Spring is going to be another cream puff, so much the better. So much.

Bill Stevens craves to inform his football prospects that uniforms will be issued Saturday. Not only that but a meeting will be held Saturday night. It will not be necessary, says Bill, to wear the uniforms to the meeting. Any football prospect, in fact every football prospect, should money up to the high school Saturday and get the suits of armor.

We see by the news of the day that the New York Giants spend \$100,000 a season on baseballs. That's nothing compared to what the local city league would spend were it not for the uncanny ball shagging ability of Tiny Reed and Moonbeam, lead ball chasers.

Oh, yes. We're getting around to the fact that the local city league will have a Christmas Eve turkey. For over a week now a few have been working to raise money for the football training camp. To date we have less than \$100. The squad leaves Sunday. We have just emerged from a huddle with Bill Stevens and the matter stands thusly. He is making plans for the camp, depending on Big Spring supporters to chip in enough to boost the total to \$300. If by chance there isn't enough to finance the trip by Friday night, or Saturday morning, the plan will be abandoned and what is more the money raised through this department will be refunded to the donors.

BY HUGH S. FULLERTON JR. (Associated Press Sports Writer)

As long as the Brooklyn Robins can keep on slugging the ball, the collapse of their pennant hopes, which has been rumored every time they have lost more than one or two games in a row, seems unlikely. Supporters of their rivals, principally the Chicago Cubs, were beginning to celebrate the Brooklyn downfall after the Robins had lost five straight games and had dropped the opener of the current "crucial" series as Chicago won its sixth straight.

But the Robins slugging reappeared yesterday and showed that there still is plenty of life in the Flatbush team. A game behind and apparently headed for a worse position, the Robins overcame all their weaknesses by the sheer power of their bats and once more placed themselves in a virtual tie for the lead. Today the Cub margin is only two points instead of the hoped-for two games as the result of the 15 to 5 beating inflicted by Brooklyn yesterday.

In contrast to Tuesday's overtime game, Brooklyn went out yesterday early in the game and assaulted Guy Bush for enough runs to win in the first three innings. Bush fell before the booming Brooklyn bats in the third frame, which saw the Robins pile up a 5-0 lead. Four successors were only so many victims as the Robins hammered out 18 hits for 24 bases. The Cubs made 16 blows, one of them Hack Wilson's 40th home run, but with little effect.

While the warfare of the Titans was going on, the New York Giants were having about as much difficulty in their attempt to stay on the heels of the leaders. The Giants had to come from behind in the ninth and score two runs to tie the Cincinnati Reds in the opener of their series. And it took a homer by Fred Lindstrom with Critz on base in the tenth to give them a 7 to 6 victory. As rain at St. Louis kept the Cards and Boston idle, the victory enabled the Giants to pick up a half game lost through Tuesday's idleness. The same rain benefited the Pittsburgh Pirates, who gave away four runs to the Phillies in the first inning then came from behind to win their fourth straight, 8 to 4.

The three American League leaders failed to produce any change in their standing. Philadelphia, Washington and New York all coming out ahead of their western rivals. The champion Athletics made it three straight over Cleveland by a 7 to 2 score as George Earnshaw won his 18th victory of the year. Roxie Lawson, rookie right hander, made a good battle of it until an error spoiled his major league debut.

Washington's Senators piled up an early lead of five runs off their old mate, Garland Braxton, then kept the Chicago White Sox from turning their 14 hits into runs to win by a 7 to 4 count. The New York Yankees put on a similar performance, scoring enough runs in the first five frames to offset a sudden weakness on the part of George Pipgras and defeat Detroit, 10 to 8. The Tigers got to Pipgras in the sixth to score six of their runs but Lou McEvoy, fourth Yank pitcher, finally stopped them short of a tie. Detroit also used our pitchers.

Down at the bottom of the standing, the St. Louis Browns reversed the previous day's decision, beating the Boston Red Sox 7 to 2, and gaining a tie in games with Chicago for sixth place. Goose Goslin again took the day's honors, driving in four runs with a home run and two singles.

## SHARKEY TO BATTLE PRIMO

NEW YORK, Aug. 14 (AP)—The New York American says today that Jack Sharkey has agreed to terms with Mike Malloy, Chicago promoter, for a bout with Primo Carnera, Italian heavyweight, in Chicago next month.

The American says that Johnny Buckley, manager for Sharkey, has agreed to accept a guarantee of \$100,000 with a privilege of 50 per cent of the receipts.

BY RUSSELL J. NEWLAND SAN FRANCISCO (AP)—The gong clangs-out its notice that the tenth round is over.

The referee raises the hand of the southpaw fighter. Several thousand Italian countrymen of Young Corbett III follow into the sky.

And so it has gone on here for years. From an obscure preliminary boy, Young Corbett of Fresno has punched his way to the title of "uncrowned welterweight champion of the world."

The 24-year-old Italian has climaxed a brilliant career by handing Young Jack Thompson, Oakland negro welterweight king, a fearful beating in ten rounds. Thompson saved his crown by the technicality of forcing Corbett to come in a pound and a half overweight.

Less than five months before, also in a San Francisco ring, Corbett won a ten round decision over Jackie Fields, then ruler of the 147-pound division. It, too, was an overweight match.

The Fresno southpaw's record is one of the remarkable of the boxing game. He started at the age of 17 years and in 13 bouts, scored 43 knockouts. Since 1925 he lost two decisions to Dominick McCarthy and Sammy Baker, the last one in 1928 when Jack Thompson dropped him momentarily. He knocked out Eddie Roberts after the latter had dumped the then welterweight champion, Joe Dundee, for the full count.

Corbett's efforts at title matches have been one futile chase after another.

After his last victory over Thompson, his handlers put up \$60,000 as a guarantee to the negro if he would defend his title.

Ray Alvis, manager of Thompson, told the would-be promoter that he was not interested, inasmuch as he felt Corbett would win and that the title was worth more money than offered.

For a topnotcher, Corbett's purses have been dribblings compared to those of contemporaries. For defeating the two champions, Fields and Thompson, he received \$10,000 and \$8,000 respectively. Fields' share was \$28,000 and Thompson carried off \$20,000.

Corbett's consolation is that as he walks down the street people point him out and say: "He licked two champions."

MINNEAPOLIS, (AP)—Add to those who came back—Nick Culp, Minneapolis, American Association, outfielder.

Early in the season Culp was slated to be slanted out of the league because he couldn't hit. Now he is at the top among AA sluggers.

On the opening day, April 15, Nick was hit on the head by a pitched ball. On May 9 he was hitting only .128. By mid-June he had raised this to .335 and had bagged a dozen home runs.

## COSDEN TO BATTLE BARBS

### Crippled Crew Can Tie Richardson For Place

A crippled Cosden Refinery aggregation will do its best to advance into a tie with Richardson Refinery for first place in the City League chase this afternoon.

At Dusty D the Barbers, given a 7 to 8 mauling Tuesday afternoon at the hands of Richardson, will clash with the Cosden redcaps. Should the Barbers cop the tilt they will advance into second place, one-half game behind the league-leading Richardson aggregation.

Richardson Refinery, winners of the first half, and picked to cop the second split, meet the Tigers Friday afternoon. Should they cop, which is expected, they will have lowered the top rung and will be prepared to move south with it.

The Tigers were on the road yesterday afternoon over the Bankers. An usual the Bankers did not have enough material on hand so J. Garcia, manager of the Mecca aggregation, took the tilt via the forfeit route.

No written protest had been filed by the Barber officials today on the Richardson-Barber game Tuesday. The game was protested during the tilt on account of a fluttering rag attached to the hurling arm of Dickinson, the Richardson chunker.

Should the protest be filed this afternoon it will be acted upon tonight by the board of governors.

The Barbers have one more game on tap after today. They are scheduled to play Coahoma Monday. In all probability the battle will be moved up to Sunday.

## OUTFIELDER'S BAT SPEAKS TO STAVE OFF PINK SLIP

MINNEAPOLIS, (AP)—Add to those who came back—Nick Culp, Minneapolis, American Association, outfielder.

## SPUDDERS AND PANTHERS LEFT IN TEXAS BATTLE

### Waco Cubs Hear Bubble Break, Lose Fifth

BY GAYLE TALBOT JR. (Associated Press Sports Writer)

The Waco Cubs dreamed a beautiful dream while it lasted, but it's all over now. Unable to beat the torrid pace on the road and in the sunlight, the erstwhile leaders have hit the skids for fair, leaving the Cats and Spudders to battle it out for the second half flag.

When the Dallas Steers bowled them yesterday, 7 to 5, in the opening game of their series, it marked the fifth straight loss for the Prattman, who left home solo just a week ago when their collective temperatures running high. They were in third place today, three and one-half games off the top, apparently having fulfilled predictions of the deep thinkers that they would crack wide open when cracking time came around.

A brace of home runs by Ralph Michaels, one with two mates aboard, proved the undoing of the night owls in their opener at Steer Stadium, having bumped the veteran Walter Kinney in timely fashion. The Prattman were leading, 5 to 3, when Michaels toed the plate in the sixth and belted across three runs with a wallop into the left bleachers.

That would have been sufficient, but the Maverick third baseman threw in another round tripper for good measure in the eighth. Walt Tauscher did some rare hurling after relieving Kinney in the sixth striking out six of the eleven batters to face him and allowing only one hit. Kinney had whiffed five Cubs before wiliness caused him to abdicate.

Spuds Win  
Irving Burns' homer in the ninth enabled the Spudders to nudge out San Antonio, 11 to 10, and tie Fort Worth for the pinnacle. The first half champions were trailing by seven runs until the fifth round, when they jumped on Carson, Esch and Perry for nine tallies to go into the lead. In addition to his game-winning homer, Burns also crashed a double and single, driving in four runs in all. Kooib, a newcomer to the Spud ranks, received credit for the victory when he relieved Caldwell in the fourth and held the Indians to two runs in the rest of the way.

Dizzy Dean chalked up his third straight win for Houston as the downstater humbled the Panthers,

14 to 1, in their inaugural at Fort Worth. The former soldier limited the Cats to seven hits, two of which came in the last frame, and contributed a homer, double and single to the Buffs' assault. Every Buff joined the attack with a homer and four singles.

Dropping their opener to Beaumont, 13 to 4, the Shreveport Sports passed up a chance to move ahead of Waco into third place. As it was, the Sports, Buffs and Cubs virtually were in a deadlock for the third rung today. While Morrow held the Louisiana sluggers to 10 scattered blows, two of which were homers by McClannahan, the Shippers hopped on three Sport flingers for 12 hearty hits. Schube, with two home runs and a single, was head man for the winners.

### EVERYDAY QUESTIONS

Answered By  
**Dr. S. Parkes Cadman**

Questions from readers are answered daily by the Rev. Dr. S. Parkes Cadman, Radio Minister of the Federal Council of Churches of Christ in America. Dr. Cadman seeks to answer inquiries that appear to be representative of the trends of thought in the many letters which he receives.

**Kansas City, Mo.** Without it nothing can succeed. Consequently he who molds public sentiment goes deeper than he who enacts statutes and decisions possible or impossible to be executed. These are weighty words which the wets have taken to heart. As a recalcitrant pamphlet on "Education: the only Problem" This publication shows that those who believe the extermination of the liquor traffic is a challenge to the lawful and righteous minded citizens of the nation must remember that public sentiment is the final court of appeal.

Lincoln declared that "with public sentiment nothing can fail."

tainable, should be presented fairly and squarely to the people at large. It is the plain duty of prohibitionists to make every voter and prospective voter in the United States thoroughly aware of the effects of the drink traffic upon private and public morals.

**Linden, Mich.** I observe you have some tough nuts to crack in the questions which you receive, and here is one which seems to me to be the toughest of all. How do you account for the persistent divisions in the organized church over matters which in my judgment should never be brought up in any confession of faith? Why do not the leaders of the various Protestant denominations get together and reduce the conditions of admission to church membership to a simple statement of an avowed purpose to lead the Christian life as Christ himself gives it to us in the New Testament, leaving each

member free to believe or disbelieve the numerous theological and doctrinal questions of faith as he may see fit? I freely concede that the divisions of Christendom are in many ways deplorable and I work and pray for their disappearance. But there are certain facts we ought to face. One of them is that we have divisions in the church of Christ just because people take their religion so seriously. Their convictions are inviolable and convictions must always be respected.

Another important fact is that practically every so-called sect or denomination began in sacrifice. Consider the origin of the Congregational church, the Baptist church, the Methodist church, the Society of Friends, the Presbyterian church of Scotland. The founders of these churches suffered deeply for their faith. The conditions they protested against may no longer exist. Nevertheless, we must not forget that historically denominations witness to the vitality of the New Testament religion.

We should also remember that there is a growing spirit of unity, even though as yet we fall short of unification. I cherish the ideal of united Christendom, but we must not purchase it at too high a price. Outward differences are, after all, of less importance than oneness of spirit and of purpose and that charity which thinks no evil but hopes and endures to the end.

**Oklahoma City, Okla.** Is it not true that so-called great men have often been indebted to others for their leading ideas and success in life? Yes, Plato furnished ideas to countless Christian thinkers, and Aristotle's thought forms served St. Thomas Aquinas and his fellow theologians of Medievalism. The syllogism stands today as the ancient masters fashioned it. St. Paul came a little later and declared: "I am debtor both to the Greek and to the Barbarians." Shakespeare's works are a treasure house of apt quotations, and the echoes of Milton's stately music are

heard in many subsequent utterances. Thomas Gray, author of "An Elegy in a Country Churchyard," confessed that it was any excellence in his poetry he owed it wholly to the study of John Dryden. Wordsworth reveals his close attention to the writings of Robbie Burns.

In the religious world no less than in the realms of philosophy, art, science, literature and industry, part of the past in all the present lives. The nations which are heavily encumbered by their war debts to us gave us Hildebrand, St. Francis, St. Bernard, John Knox, John Bunyan and John Wesley. No monetary obligations compare with the gifts these lofty spirits bequeathed for our enrichment.

Charles Darwin, writing to Sir Charles Lyell, the eminent geologist, said, "I always feel as if my books come out of your brain and that I never acknowledged this sufficiently. . . . I have long wished to acknowledge more plainly than by mere references how much I owe to you."

Your observation is true and far more essential to human progress than is commonly supposed.

**SCIENCE EXPLAINS MENTAL CLOCKWORK**

WASHINGTON—When a person goes to bed with his mind fixed on getting up at a certain time the next morning he often awakens at that time without the aid of an alarm clock.

This is one of the mysteries of sleep explained by Dr. Otto Kauders, Austrian psychiatrist.

When sleep comes Dr. Kauders says, the sleeper is divided into three or four persons.

There is the waking ego, the dream ego, and the sleep ego. The latter is unconscious. The second is semi-conscious with a sort of uncontrolled contact with the outside world which results in weird images, lovely dreams and horrible nightmares.

But the first like a sentry, stays awake and keeps watch.

It challenges all stimuli coming to the brain and if any of them look suspicious it warns the dreamer and awakens the sleeper whereupon all three become one person again, ready to fight or run.

Before splitting up for the night, Dr. Kauders says the whole personality, acting as camp commander, gives the sentries their special orders. Such would be the order to awaken the others at a certain time.

**BENEFIT—**  
(Continued from Page One)  
W. C. Rogers and W. A. Rogers of R-Bar and Arlie Reed and Thomas Lee Payne, Bisco & H club boys, joined the party.

Leaving the courthouse at 8 a. m. the procession first drove through the fields at the U. S. experimental farm just south of town, and proceeded to the Earl Phillips place in Fairview community, the first farm in Howard county to be terraced and contoured.

**Poisoning Worms**  
The result of this conserving moisture and soil was readily visible. Adjoining the Phillips is that of E. W. Marion, who was in the field with his boys busy at poisoning leaf worms.

The 4-H club boys projects of Elmo Phillips and Edward Marion on their fathers' places, were seen. They have five acres each, planted two rows to milo and one to peas. They kept detailed records of planting cost, time of planting, and cultivating, total yield and yield per acre. They will feed one to three baby beavers each from the maize out of their 5-acre patches.

R. W. Langley's 400-acre terraced field was the next on the route. Across the road was T. M. Bailey's farm. He declares he has the best top he ever had there.

George White, one of the county commissioners, reminded every body that the wonderfully smooth road on which they were riding was a county road, and not a state highway. County roads were in excellent condition everywhere. They had already been dug and contoured since the rains.

The G. N. Grant and J. W. Wooten farms were inspected. Morris and A. C. Wooten, sons of A. C., are active 4-H club boys. They have in milo project and one in poultry. On five acres planted two rows to one of milo and peas, it appeared Morris would harvest two to three tons of pea hay, in addition to the milo.

J. W. Wooten said he had less content planted this year, a good portion of it having been blown out early in the season and milo planted in its place.

"You'll be better off" some one told him. Mr. Wooten has 30 acres of terraced land and plans raising the level of the terraces, making them broader and cultivating them.

Up to this point in the tour, Mr. Bush said, the terracing had followed that on Earl Phillips' place. Results he obtained were so obvious his neighbors did the same thing. He was making a fourth of a bale of cotton and a ton of milo to the acre, compared with an eighth of a bale and one fourth ton in other fields.

Richard Puckett Brothers The W. R. and W. E. Puckett farms were next. These brothers joined forces in laying out terraces for their adjoining fields. Water that formerly wasted itself down the road ditches was turned into the field from the west side. Water that once tore a gully across the middle of the large field, from north to south, was turned around the higher ground and controlled with terraces. A shallow lake that once was formed by this water at the south end of the field now grows the best crops in the entire field.

at the store. Messrs. Smith, Calvert Neal and W. C. and W. A. Rogers joined the group there. They had missed connections in Big Spring.

In the Morris community after lunch W. P. Anderson's contoured field was seen. There followed a close inspection of A. C. Henry's crop. Mr. Henry, after attending a terracing demonstration by the county agent, went to work and did a fine job of terracing and contouring his own land.

Asked what he thought about terracing Mr. Henry replied that he thought "it's the idea. I've got the best crop I've ever had on this place in seven years."

The Ben Whitaker place and those of his mother and others adjacent, totaling 1,100 acres offered perhaps the finest example of good terracing. The terraces were comparatively high, 40 feet wide and cultivated. Mr. Whitaker is responsible for the terracing of this neighborhood. He learned the art in the county agent's terracing schools.

The J. A. Appleton place, near Whitaker's was another beautiful example of the benefits of terracing.

**Green Valley**  
The farms of N. E. McMinn and J. S. Thomas in the Green Valley community were seen. A stop was made at Vincent. A side through the R-Bar community ended the journey.

R-Bar, one of the oldest communities in the county, had, as a community, the finest crops seen. A visit was paid at the W. C. Rogers home, where poultry right now is returning sizeable dividends. Hubert Hayworth, one of the best 4-H club boys of the county, who was scheduled for a talk at Luther at noon, but missed connections with the tourists, was visited in the R-Bar community. F. D. Rogers, son of W. C. Rogers, was a member of the county boys' judging poultry judging team at the recent A. & M. College Short Course. It was reported that Roger Miller's milo project is perhaps the best in that part of the county.

**SECOND—**

Grant, president of a local union in Cincy county, Kentucky, and Ewing Riley of Providence, were arrested last night on the strength of Montgomery's confession naming them as the two men who accompanied him in his flight over the Kentucky fields. Montgomery said according to Lewis, that Grant and Riley tossed out the nine bombs which threw the coal field into an uproar but did no actual damage.

Five miners from Zeigler, Ill., brought here for questioning by Franklin county authorities last night, were released today when they were unable to throw any additional light on the bombing.

There was a huge fireworks exhibition and a carnival of noise making by the throng which remained late.

The aviators, whose flight for nearly three weeks had attracted comparatively little attention, were regarding fate and there was assurance they would regain fortune. From the moment they exceeded at our expense, your Pile suffering the 254-hour record of the Hunter

brothers they began earning \$100 an hour, that sum being promised by an oil company for the first 200 hours after beating the previous record. Various attractive offers from commercial organizations and some cash donations were among the message of congratulations that poured in.

Jackson and O'Brien earned about \$40,000 when they made their 420-hour record flight a year ago and hope to "cash in" again.

Kauschen Pills in perfect combination of the six mineral salts your body must have every day to function properly purify your blood of harmful acids, and aid the kidneys and bowels to throw off waste material the continual formation of which is probably the cause of your fat.

**Piles Go Quick**  
Piles are caused by bad circulation of the blood in the lower bowel and a weakening of parts. Only an internal medicine can remove the cause. That's why external remedies and cutting fail. Dr. Leonard's HEM-ROID, succeeds, because it relieves this congestion and strengthens the affected parts. Dr. Leonard's prescription has such a wonderful record for quick safe and lasting relief even in chronic and stubborn cases, that Dr. Leonard's HEM-ROID is the only one of its kind. Buy it at once. **8 plies under the Tread**  
Here is EXTRA SAFETY!  
FOR the high powered, high speed cars of today, with needed quick starts and stops, you should have this extra protection. Just look at the inside of this Firestone Anchor Super Heavy Duty Tire. There are eight plies of cords under the all Non-Skid, Center Traction Tread. It is a big—tough—strong tire—a construction that insures against punctures and blowouts.

**SAFETY . . . Everyone Should Have PRICES . . . Everyone Can Afford to Pay**  
WE HAVE JOINED with Firestone's Co-operative Plan to give you lower prices and plus values by reducing operating costs, and with volume business on a small margin of profit we are able to make you these substantial savings.

### Taxi Driver Hurt In Crash

Jack Drake, driver for the City Taxi Co., is in the Bivings and Barcus Hospital with an injury to his chest as a result of a car crash at the intersection of West Ninth and Scurry streets at 8 o'clock this morning. The car driven by Drake and one said to have been driven by G. Harvey collided at the street intersection. The car driven by Drake overturned. Each of the cars was badly damaged. Harvey escaped without injury. Drake's injury is not serious. He was taken to the hospital in an Eberley ambulance.

### Alabama Vote, Without Heflin, Short of Goal

MONTGOMERY, Ala., Aug. 14 (AP)—Triumph and trailing candidates alike in Alabama's biennial democratic primary, in which the total vote appears to have fallen far short of the 200,000 mark hoped for by party leaders, today pledged their united support in opposition to an independent ticket headed by Senator J. Thomas Heflin. With slightly more than 100 precincts missing 110,999 votes had been tabulated in the race for the senatorial nomination in which John H. Bankhead was conceded victory over Frederick I. Thompson, Mobile publisher. It was estimated that the complete count would swell the aggregate vote by 15 per cent.

### LINK WITH OLD WARS DIES IN NEW ZEALAND

AUCKLAND, New Zealand (AP)—Elizabeth Rore, last link with the bad old days, whose father actually started the bloody Maori Wars, has died at Blenheim in the South Island, aged 107. Her father, Captain Blenkinsopp of the whaling brig Charline, married the daughter of a Maori Chief and in this way became acquainted with the powerful chief Te Rauparaha from whom he bought the whole of the luxuriant Wairau plain for the price of a cannon. Rauparaha found that the cannon was useless and would not fire a shot. The duplicity of Blenkinsopp led directly to the Wairau massacre, the first of the deadly encounters between the Maoris and the whites.

### MARION TO NEW YORK

CHICAGO, Aug. 13 (AP)—The girl of the golden West, Marion Talley, was found the West not as golden as the East, after all. Stopping off in Chicago yesterday on her way to New York, the young diva said the drought had ruined the corn crop on her 800-acre Kansas farm and hinted she might meet the loss by returning to New York's Metropolitan grand opera house, which she abandoned for the farm a year ago after a meteoric success. "It is my privilege to change my mind," Miss Talley said.

### SHAH OF PERSIA GETS REJEWELLED AUTOMOBILE

TEHERAN, Persia (AP)—The Shah has a new motorcar with massive gold figures and glittering with real jewels. Twenty coats of white enamel were put on the bodywork and all the parts that on an ordinary car are nicked, are gold-plated. On the headlights are embossed the Persian royal arms, picked out in emeralds. Upholstered in champagne-red silk throughout, the rear seat has been specially constructed to hold only one person, as in Persia one may occupy the same seat as the ruler. Cigarettes are contained in a case in solid gold encrusted with diamonds placed near the royal seat, and the floor is covered with Russian wolfhound skins. Chickens or saxophones either can be sold at a small cost to a classified reader. Just phone "Seven-2-Eight"—adv.

### Freedom From Stomach Distress

Collins Bros. Has the Remedy and Guarantees it to End Indigestion or Gastritis. You can get one bottle of Dare's Mentha Pepsin and if after you take it you do not say it did you more good than anything you ever used before, your money will be waiting for you. This delightful and effective elixir not only gives instant relief from gas, fullness, acid stomach and distress after eating, but taken regularly for a short time will turn your weak, run down stomach into a strong, healthy one able to perform its duties without help. It ends indigestion, gastritis, catarrh of the stomach and does it in a surprisingly short period of time. Dr. Wm. W. Morgan, a prominent dentist of Bridgeton, N. J., writes: "After suffering severely with gastritis and other stomach troubles, a friend gave me a bottle of Dare's Mentha Pepsin. I had obtained little relief from other remedies, but four bottles entirely ended the trouble." Get it at Collins Bros. and all regular druggists everywhere.—adv.

the donors. It is not our intention, or that of the school officials, to keep the money unless the team gets to go. So it comes to this. The team has been assured of the encampment, and unless this money is raised they will have to be informed there will be no encampment. Of course it is to the team's interest to go. Therefore it behooves the team members to aid in this matter by sending in their dollar. Every student in Big Spring high school should pay one dollar on this fund. Every business house in Big Spring should give something. Yet, few of either have done anything along that line yet. So the committee call—delayed as it has been—will be made Friday morning. Think this matter over a bit. If it is not worth your while, don't give anything. If it is, be prepared to aid the Steers along.
