

Hail, Rain Belt Crops In Area

Hail belted crops in several sections of the area early this week as showers, some heavy, fell Sunday, Monday and Tuesday.

Only .18 of an inch of rain was recorded in Littlefield for the three-day period, but the moisture was heavier and accompanied by hail at several other locations.

Heavy hail ripped about 2,000 acres of cotton northwest of Sudan Monday afternoon.

Coleman Terrell, who farms in that area, said his late cotton took a real beating. Other farmers in the area who had hail damage included Ed Bellar, Thomas King, Doyle Baceus and H. H. Olds.

Heavy rains and light hail also hit crops north of Littlefield that afternoon. Mrs. Bill Kimbrough, who has a farm in that area, said her place received 2.30 inches of rain and light hail. Others hit by the rain and hail included Cecil Plate and W. R. Faver.

Hail damaged some crops southeast of Littlefield Sunday afternoon. Ed Elliott reported 1.50 inches of rain and heavy hail. Others reporting damage in the area were H. A. Miller, Ed Jones and Ed Coffman.

Monday afternoon hail walloped crops in an area 10 miles in diameter.

Tractor Mishap Kills 2-Year-Old Anderson Child

Funeral services are pending here for 2-year-old Sharon Anderson, daughter of former Littlefield residents, Mr. and Mrs. Harding Anderson.

The child was killed Tuesday in a tractor accident at Waterville, Wash. A sister, Linda, 3 1/2, was critically injured and another sister, Betty Jo, 8, was less seriously hurt in the same mishap.

The family moved to Washington about three months ago. Anderson, a former City of Littlefield employee, was working in the fruit harvest.

Relatives here said the children were playing on a tractor and apparently accidentally started it. The tractor lurched, throwing the girls off, and passed over the bodies of the children.

The children are the granddaughters of Tom Anderson and the nieces of Mrs. L. J. Foley and Mrs. Marie Edmiston, all of Littlefield.

The body of Sharon will be brought to Hammons Funeral Home, which is in charge of the last rites.

Quarterback Club Meet Slated Monday Night

Littlefield's Quarterback Club will hold its first meeting of the season and elect new officers at 8 p.m. Monday at Wildcat Stadium.

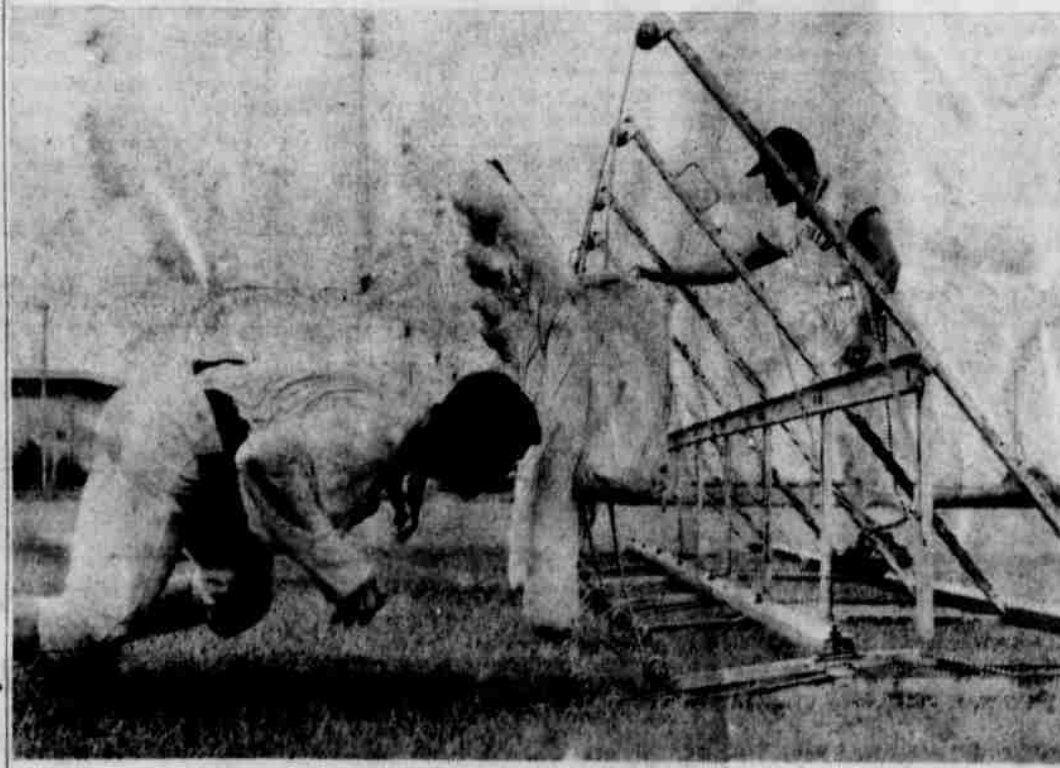

The meeting will follow a 7 p.m. "demonstration session" scheduled by Wildcat Coach Don Williams for the fans.

Williams' gridders will show new equipment they will be using this season and will demonstrate several of the team's basic plays.

Current president of the Quarterback Club is John Clayton.

Tongues Drag Ground As Cat Workouts Open

Forty-one hopefuls showed up for opening football drills here Monday morning, and by Tuesday afternoon tongues were dragging the ground.

Head Coach Don Williams put the emphasis on conditioning in the first four of the two-day workouts.

He told one boy as the Wildcats headed for the showers Tuesday afternoon:

"Don't take it so hard, boy. It gets easier after the third day."

Williams planned more conditioning work Wednesday, the third day, along with fundamental drills.

He planned the season's first scrimmage session for Thursday afternoon.

The team is working without pads in the morning workouts from 7-8:30. The gridders come

Trail Crew Hits Town, Moves On To Levelland

Riders Head For End Of Trail

"Gunsmoke Trail" riders hit town here Wednesday morning and prepared Wednesday afternoon for their last day's ride before reaching the end of the 470-mile trail down U.S. 385 from Burlington, Colo., to Levelland.

A feeling of mixed emotions hit the group as it traveled down Phelps Avenue on the way to the fair grounds.

Georgia Stephens, one of seven Lamb County riders pulling into Littlefield, expressed it this way: "I hate to see it all over, even if it does mean it's the end of KP lute and getting up at 4 a.m."

Most of the 14 riders felt the same way. They were anxious to get on to Levelland and the end of the line, but sorry to see the adventure end.

The riders arrived here about 9:20 a.m., headed by Trail Boss Clyde Prestwood and escorted by two police cars.

They were an hour and a half early, indicating they were ready to get on to the trail's end.

After resting their horses at the fair grounds, the riders rode a bus back to town about 11:15 a.m. for lunch at Jerry's Cafe.

Most of them went swimming at 1 p.m. at Crescent Park Pool, where facilities were provided free of charge by owners Buck Oldham and Ace Bridwell.

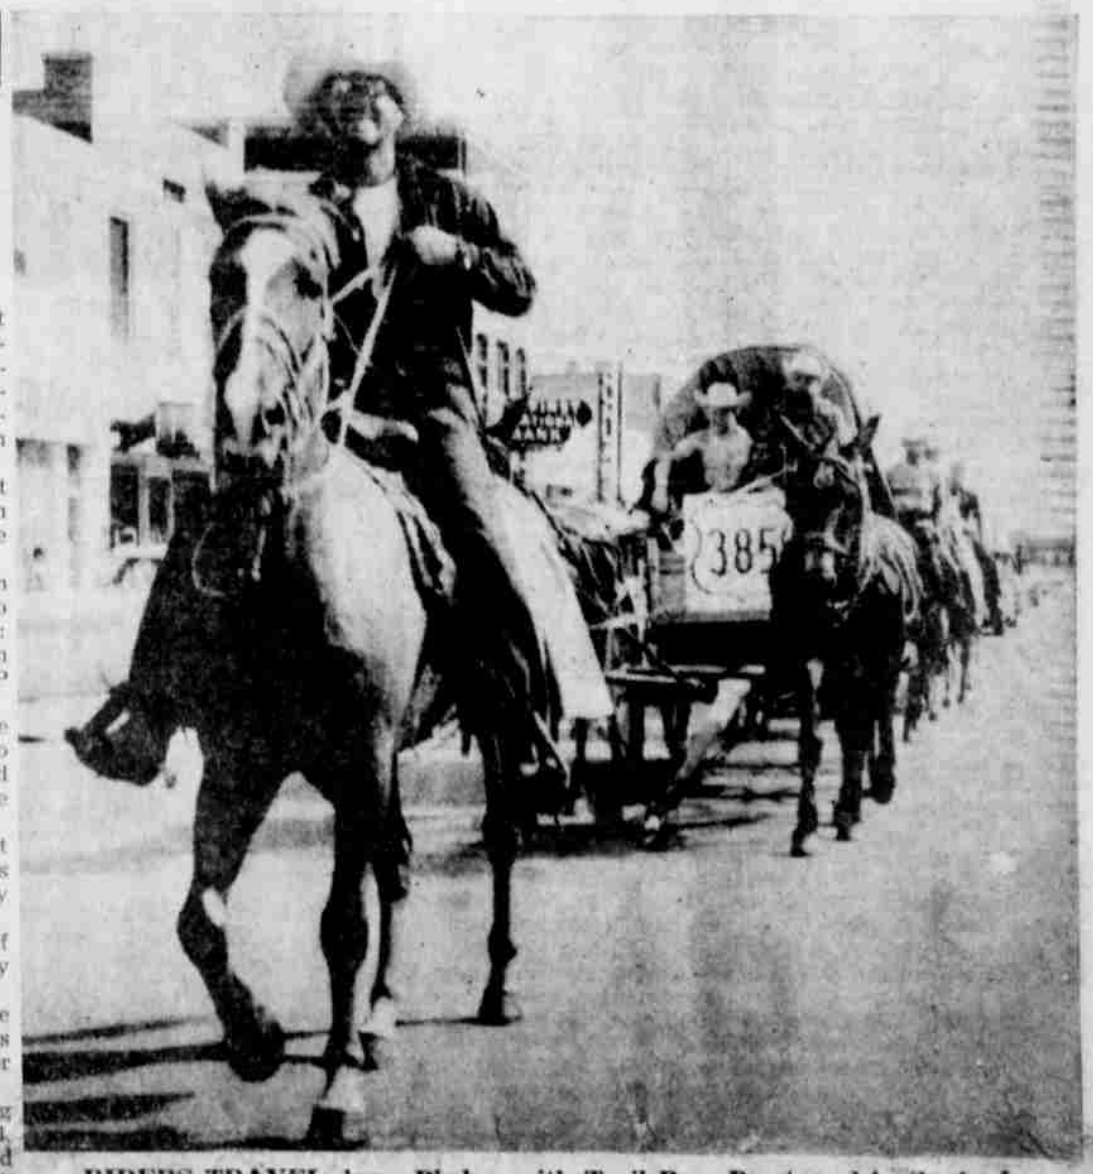

They hit the trail again later in the afternoon and planned to stop for the night near Whitharral. They're due in Levelland this afternoon, where they'll take part in a parade opening Hockley County Hospitality Day.

They'll also take part in an official ribbon-cutting ceremony to celebrate the designation of U.S. 385, the "Gunsmoke Trail" as a U.S. Highway.

Lamb County riders with the group included Miss Stephens, daughter of Mr. and Mrs. W. H. Stephens, Sudan; Eloise Terrell, daughter of Mrs. H. W. Terrell, Amherst; Kaye Bradley, daughter of Mr. and Mrs. Bill Bradley, Amherst; Lyndia Morrow, daughter of Mr. and Mrs. Leslie Morrow of Amherst; J. W. Bitner, son of Mr. and Mrs. J. W. Bitner, Littlefield; Harry Miller, son of Mr. and Mrs. Shine Miller, Littlefield; and Patricia Cantrell, daughter of Mr. and Mrs. Raymond Cantrell, Amherst.

Arriving with the group was Mrs. Emma Gurns of Littlefield, who acted as chaperone for the girls after the group left Eads, Colo. Mrs. Terrell was chaperone from Burlington to Eads, and

Whitharral Farmer Has First Milo Of Year

A Whitharral farmer who lost both hands in World War II has produced the first load of milo in 1959 in the Littlefield area.

W. J. Collier, Route 2, Littlefield, produced the grain on his farm a mile and a half east and a mile north of Whitharral.

The load was harvested Monday afternoon and delivered to Lamb County Grain Co. the next morning by Collier's neighbor, Ed Johnson. Johnson drove up to the scales about 8 a.m. Tuesday.

Collier's load weighed 12,640 pounds and was harvested from about three acres. He figured the yield at 4,100 pounds per acre.

Lamb County Grain paid \$1.50 per hundred for the load and a premium of \$100.

Collier planted Lindsey 610 seed on March 28. He has 200 acres more in grain sorghum, but the rest of his crop was planted later.

Collier's farm is irrigated, but he said he didn't have to irrigate the three acres after it was planted.

"The beds were watered before I planted, but with all the rain we've had this year, it didn't need irrigating after that," he said.

Hail hit Collier's cotton and

Couple Files \$56,000 Suit In Accident

Mr. and Mrs. R. M. Stubblefield, Spade, have filed a \$56,000 personal injury suit in 154th District Court as a result of injuries Mrs. Stubblefield received in an auto truck accident Nov. 7, 1958.

The suit was filed against Shelton Warren Oil Co. and S. J. Polk.

The mishap occurred at the intersection of Farm Roads 54 and 168 at Spade. Mrs. Stubblefield was a passenger in a car driven by Mrs. Albert Kannady. The petition charges negligence on the part of drivers of two trucks involved in the mishap. The trucks were owned by the oil company and Polk.

Wildcats handle Classic

Littlefield's 1958 football team, coached by Back James Presser, defeated Landon Roberts of Amarillo, where they played in the annual Panhandle Classic Saturday.

The team had to be on hand for physicals in Amarillo on Monday.

The practice got under way Tuesday afternoon.

The Amarillo contest, which is usually between teams from the City Slickers and Amarillo, will take place in Amarillo Saturday night.

Roberts will be coached by the City Slickers, made up of players chosen from Class A and B schools. The game will be manned by boys from Class AA, A and B teams.

Every now and then we get some real positive proof about the readership of our little classified advertisements.

E. C. Hardeman ran a little advertisement on a Lamb County farm he had for sale and got an answer from 'way down state... and they came up and looked at the farm... may have sold it!

It's still back to school time and Penneys, Dunlaps and the Littlefield Discount House all feature the things your youngsters will need for school.

When the first load of grain and the first bale of cotton hit town, we feel like we're almost into fall.

Well, the first load of grain came to town Tuesday morning. W. J. Collier of Rt. 2, Littlefield, is the lucky farmer. He planted the hybrid grain sorghum the 29th of March and it is producing 4100 pounds to the acre.

Back Teague at the Lamb County Grain bought the first load for \$1.50 and gave Collier a \$100 premium.

GET ALL THE NEWS OF THE AREA FIRST IN THE LITTLEFIELD NEWSPAPERS!

NOT RIGHT NOW - There is a story going around which has a good application to the problem of inflation. The story goes like this: A preacher was preaching one Sunday on the subject, "Heaven" - what a wonderful place Heaven is, etc.

At the emotional climax of his sermon he pointed to his congregation and fired the question: "How many of you brothers and sisters want to go to Heaven?"

Everybody raised a hand except one old fellow over to the preacher's right. The preacher spied him and shouted, "What's the matter, Brother Bill? Don't you want to go to Heaven?"

The answer came right back: "Yes sir. But I thought you were getting up a load for right now."

And so it is with inflation. Almost everyone agrees that inflation is destructive and should be stopped, but few, if any, are willing to do anything right now. So you can't count on "getting up a load for right now."

(Thanks to Jack Wicker for this one.)

Just when I think I'll never make a golfer, I look in the back seat of Sid Hopping's car and see all those trophies he won golfing over at Roswell last week.

And you oughta get Sid to show you those clubs he won. Littlefield has many outstanding golfers and they're good Chamber of Commerceers as they help put Littlefield on the map.

Mrs. Sid said he really had a gallery watching... so that's good Littlefield publicity.

It's all right to know where you are going, and you should know the way to get there; but it is wrong to try and make everyone else go your way.

You'll get plenty of free cokes, coffee, spudnuts, balloons, and bubble gum if you attend the grand opening of the Littlefield Tire Service Friday and Saturday.

MRS. ROBERT WAYNE HILL (Formerly Elizabeth Martha Kokel)

Miss Elizabeth Kokel Marries Robert Hill

PLAINVIEW - In a beautifully designed formal bridal gown which she made, Miss Elizabeth Martha Kokel of Kress became the bride of Robert Wayne Hill of Littlefield Sunday afternoon at 4 o'clock. She is the daughter of Mr. and Mrs. Edwin Kokel of Kress and he is a son of Mr. and Mrs. E. C. Hill of Littlefield.

The gown of lace and tulle over satin was fashioned with a necked bodice of lace with Sabrina neckline and long tight fitting sleeves that came to points over the wrists. The full skirt of tulle terminated in a chapel train. Her elbow-length veil of French illusion was caught to a crown of seed pearls. She completed her attire by carrying a bouquet of white roses and stephanotis atop a white prayer book.

Setting for the exchange of vows was St. Paul's Lutheran Church here with Rev. E. A. Wolf, pastor officiating at the double ring ceremony.

Arrangements of gladioli and mums graced the altar with other arrangements in flanking positions. Tapers burned in candelabra entwined with greenery.

Miss Frances Kokel of Houston, sister of the bride, served as maid of honor and also as soloist. She sang "O Perfect Love" and "Wedding Prayer" accompanied by Keith Schoppa, organist. Mr. Schoppa used as the processional, "Jesus, Joy of Man's Desiring" - Bach and "The Lord Bless a n d K e e p Y o u" - Peter Lutkin, as the recessional.

Bridesmaids were Miss Edwina Kokel of Kress, sister of the bride and Miss Trini Baker, Hale Center.

Feminine attendants were especially attired in dresses of open blue chiffon over taffeta. Their tight fitting bodices with rousing necklines which came to a low V in back and extremely full skirts were accented at the waistline with a criss - crossed cummerbund coming to a large bow in back. They wore matching gloves and carried red roses on white fans. The maid of honor wore a small white hat and the bridesmaids wore matching blue hats.

Pam Brandt, Littlefield, cousin of the groom served as flower girl. She wore a white headpiece and carried a basket of rose petals.

Gerald Gohlke, Littlefield, nephew of the groom served as ring bearer.

Best man for his brother was Eugene Hill of Littlefield. Groomsman were Monroe Kokel, brother of the bride, Kress and Eldon Gohlke of Littlefield. Ushers were Sam Nafziger of Plainview, Larry and Edward Richter, cousin of the bride, both of Alice.

The reception was held in the Parish Hall following the wedding. The bride and groom and their parents received the guests.

The bride's table was covered with a white cloth and centered with an arrangement of red roses. Miss Adaline Schaeffer presided at the tiered bride's cake. Mrs. Hubert Gohlke poured and Miss Mary Jane Wolf secured signatures of guests.

Other members of the house party were Mesdames A. W. Kunkel, Ralph Block, Frank Barbican, Gordon Swearingen, Roy Thomas, Herman Gloyna, Jr., L. C. Bonke, Robert Hingst and Misses Alice

Farmers Home Loans \$668,550 Here In Past Year

Lamb County families borrowed more than \$668,550 in loan funds from the Farmers Home Administration during the fiscal year ending June 30, 1959, according to a report this week by Truman J. Jones, the agency's county supervisor.

During the year borrowers returned to the U. S. Treasury \$849,954.

Loans made by the Farmers Home Administration are increasing in size, according to Jones. For example, ten years ago FHA operating loans in Lamb County averaged \$4,000 while this past year the same type of loan averaged \$7,500 per borrower.

The growing need for capital stems from inflation, expanded operations and the adoption of modern farming methods, he said.

Farmers Home Administration borrowers during the past year used about \$364,190 in operating loans to pay for feed, seed, tractor fuel and other items needed to carry out their regular farm operations and to buy livestock and machinery needed to put their farming programs on a sounder basis.

In addition to money borrowed for farm operating expenses Lamb County farmers Home Administration families borrowed \$3,630 for real estate investments.

Lamb County families also borrowed \$300,730 under the Emergency Loan Program. Besides making and servicing loans, Jones visits borrowers' farms through the year to help with farm management problems. He estimated he made 386 farm visits during the year, that he held 22 county committee meetings during which time 189 applications for loans were screened and that farmers made 200 calls to his office to apply for loans or discuss their farming and credit situations. He was able to help many farmers who called at the office develop sound farm plans and analyze their credit needs so as to qualify for conventional private and cooperative credit.

Miss Cantrell joined the group at Boys Ranch. The other Lamb County riders were with the group when it started Aug. 2 in Burlington.

Trail Boss Prestwood, who with his son Clyde Jr. and Vernon Williams were the only riders to stay on horseback all the way, called the first days of the trip the roughest.

"It was hardest when we had all that rain in Colorado," he said.

Winning Spouse, House Were Easy For War Hero

By HARRIET GEE
 Honolulu Star-Bulletin
 HONOLULU (AP) — Have you ever tried dating one of the teachers while just a student in school?

War hero Daniel K. Inouye, Hawaii's Congressman - elect did, and was accepted on his first try. "But he was floored," his wife recalls with a laugh.

Dan was a junior at the University of Hawaii in 1947 when his wife, the former Margaret Shinobu Awamura, was in her first year as a speech instructor.

"I thought he was dashing, very interesting and most considerate," Maggie, as she likes to be called, says.

"One of the things that attracted me to Dan was the fact that he's never indicated his country owes him something for the loss of his arm.

"He's always outgoing, perfectly adjusted, more so than many of us. He's always wanted to go out and help others."

CONGRESSMAN'S FAMILY: Daniel K. Inouye, lower right, winner of Hawaii's lone seat in the United States House of Representatives, with his family; clockwise, father Hyotaro Inouye, mother, Kame Inouye, and wife, Margaret.

Inouye, 34, a Democrat, won July 28. He received 111,700 election to the U.S. House of Representatives by a landslide margin of 51,000, and made island history in Hawaii's first state election by being the first person ever to

receive more than 100,000 votes.

Proposal on Third Date
 On their third date, says Maggie, Dan proposed marriage and she accepted. They were married in Honolulu in 1949.

Maggie, 35, modestly refuses any credit for helping her husband become the polished public speaker he is, saying: "He made sure he wouldn't take any speech courses from me."

Mrs. Inouye, until now, has been an instructor in education at the University of Hawaii. After her husband's election, she asked for and got a leave of absence.

She regards it a duty of every wife to offer criticism when requested and says her husband "always asks for my frank opinion" after each public appearance.

Marriage No Different
 She doesn't think her marriage to a disabled veteran is different from any other.

"He likes good old fashioned beef stew, long ties (no bows) and listening to records. He works in the yard, does some carpentry and prefers small, informal parties."

The Inouyes won't be strangers to Washington, D.C., as Dan attended George Washington University law school there for two years after their marriage and Maggie was with him.

Says Maggie of her husband's imminent job in Washington: "I will try my very hardest to help my husband, and the people of Hawaii and the nation."

Caused Him To Wonder

"What's in this handful of dirt?" he recalls wondering. Burns decided to see. The next day he took a sample with him to the hospital laboratory where he worked.

After four years of research, working with Dr. D. Frank Holtman at the University of Tennessee, Burns has isolated an organism from plain backyard soil and produced an antibiotic that is reported to attack fungus diseases successfully.

The organism, he says, is one of the streptomycete group and has been officially named streptomycetes chattanoogaensis.

The antibiotic is called Teneccetin.

Both Burns and Dr. Holtman and the S. E. Massengill Co. of Bristol, Tenn., which has been doing research to determine its practical uses, have great hopes Teneccetin will be highly important in fighting fungal diseases in humans and animals and possibly to agriculture.

A representative of the Massengill firm says Federal Food and Drug Administration approval is expected soon, which would lead to marketing of the product.

Burns says some of the common types of diseases being treated experimentally over the country with Teneccetin include ringworm, thrush, athlete's foot and several types of serious skin and scalp infections.

Since the discovery, Burns has been appointed head of the bacteriology department of the city's largest hospital and next month he will receive his doctorate from the University of Tennessee.

Tragic Side, Too

His story seems filled only with success, but there is a tragic side.

His wife, a registered nurse, worked at her husband's side through the lean years, giving him moral encouragement, and helping with family finances while he studied.

Then, just as it appeared they were on the high road, Mrs. Burns

Amherst Bulldogs Hope To Be Title Contenders

By ALEX DUGGAN
AMHERST - "Have spirit, Will hit."
 That sums up the attitude prevailing in the Amherst Bulldogs' early workouts.
 Head coach Neal Chastain feels his team this year will work together and will have no trouble besting the 1958 record of one win and nine losses.
 "We will win more than one game this year, and the sky is the limit," said Chastain.
 "If we get the breaks, we will definitely be title contenders in the District 4B race," he concluded.
 Amherst lost seven seniors from last year's team, which was riddled with injuries and sickness.
 Eight starters are back from the Amherst team that played the district contests last year.
 Norman Lockett, a 1958 graduate of Hardin-Simmons, will aid

Chastain with the varsity this season. It is Mr. Lockett's first year with the Bulldogs.
 "The big difference in this Amherst team will be the new coach and good spirit," Chastain said.
 Chastain singled out lack of size and inexperience as the main weak points. This year the Bulldogs will have only five seniors and three juniors on the roster.
 Amherst will have two scrimmages before the season opener with Anton Sept. 4. The first will be with Lorenzo at Amherst Aug. 25, the other with New Deal at New Deal Aug. 28.
 Preceding the New Deal scrimmage, the Bulldogs will elect their captains for the season by secret ballot.

Springlake Wolverines Look For Improvement

By ALEX DUGGAN
SPRINGLAKE - "We ought to be improved. If we don't lose any to injuries, and keep everyone out, we might be real tough."
 That was the way Head Coach Don Townsend of the Springlake Wolverines summed up his team's chances in the District 3A race this year.
 The Wolverines won only three games last year, but nine lettermen and a great team spirit during early workouts have given Townsend good reason for optimism.
 Springlake will scrimmage Octon at Springlake August 25.
 Coach Townsend has been moving players around, experimenting with different skills at different positions, but he figures his 1959 team will be running a lot.
 Springlake's best strength is in the junior class. Nine juniors are on the squad as compared to seven seniors and six sophomores.
 Townsend is aided by two assistants, David Allan, B • team

coach, and varsity assistant, and Eldon Davis, junior high instructor.
 Townsend would not venture a guess at his starting line-up, but senior three-year lettermen, Tom Messer, Joe Ellis, Rayburn Ott, and Norman Clayton will probably see a lot of action.
 Four junior lettermen are Bill Starkey, Sandy Sanders, Mike Stockard, and Robert Cortez.
 The coaching staff was pleased with the Wolverine support during 1958, and this year the team has six home games.
 Tri-captains for Springlake this year are Messer, Ellis, and Ott.
Roster and Schedule
 Ends: Tom Messer, 170, 3 letters; Ronny Johnson, 155, 1 letter; Darrell Barlow, 140, junior high.

Workmen guide a 90-ton section of pipe for fitting to another during work on what is the longest, largest, heaviest, deepest pipeline ever laid under water. The pipeline off Southern Calif. will carry waste water out to sea.

PIPELINE IS LAID Bottom Of The Sea

...LES (AP) - A pipe big enough for a train is being laid on the floor to discharge waste water to the sea. Hydraulic jacks then lift the platform's 27-stories-high, 700-ton legs. The platform is pulled 192 feet farther out to sea. The legs are drilled back into the sandy sea bottom and the platform is ready for the next splicing. The pipeline is scheduled to be completed early next year.

Latin Charged With Enticing Girl From Home

A 21-year-old Littlefield Latin American was jailed here Tuesday on charges of enticing a minor girl away from home. The man pleaded guilty in justice court and was fined \$42.50. Deputy V. L. Smith of Olton traveled to Amarillo and picked up the man for Lamb County authorities. The girl, a 16-year-old Latin American, was returned home by her parents.

Drivers Unhurt In 84 Mishap

Both drivers escaped injury in a car-truck accident on U. S. Highway 84 about 9 miles east of Littlefield Wednesday about 3:45 a.m. Investigating officers said a car driven by Donald Hull, Littlefield, was in collision with a butane truck driven by Lowell E. Ford, Sudan. Hull was driving west and Ford east. They said the Hull car struck the left rear wheels of the truck. Damages were estimated at \$600 to the Hull car and \$200 to the truck. The five largest cities, in the order named, in the Rocky Mountain States are Denver, Phoenix, Salt Lake City, Tucson and Albuquerque.

Fall Picnic In Garage Can Be Fun

By VIVIAN BROWN
AP Newsfeatures Writer

COOLER WEATHER need not lose off the picnic season, a fun time for young people that makes entertaining so much easier on the household. No fuss. No fevers. Food that can be prepared mainly in advance, taking advantage of all the short cuts to entertaining.

A festive picnic may be held on the porch, in the garage or in the barn. Dad may oblige, putting the car elsewhere for the occasion if you choose the garage, but in any case it will keep the group out of the house.

A small barbecue unit — hibachi or other portable grill — can do a fine job of barbecuing in a small area, if you plan to broil hot dogs or hamburgers. Food prepared in the house may be kept hot on an electric tray.

Hot Dogs Deluxe
It could be fun to prepare all sorts of unusual toppings for the frankfurters, letting your culinary imagination take over to make this budget meal take on glamor. The hot dogs may be stuffed in advance, for instance. Or mixtures may be prepared, and guests may stuff their own hot dogs, choosing their favorites.

Into the split hot dog may go any type of cheese — cheddar, a mixture of cream cheese and blue cheese, or a thin strip of mozzarella dusted with oregano. Chopped fresh tomato and minced onions, dusted with a bit of brown sugar and some sweet basil, make another good topping.

Grated hard cooked eggs and mayonnaise will give a souflie effect to the frankfurters.

Horseradish with applesauce is a good taste combination. Go light on the horseradish.

A mixture of equal parts of chunky peanut butter and cream cheese masked with chutney (if you have it) or watermelon rind with a little curry powder and Worcestershire sauce may offer an intriguing taste treat.

A sweet-and-sour sauce that is favored by the Chinese may be made with this short cut:

Mix baby food apricots and pears with a bit of vinegar. Or mix orange marmalade and mustard.

Salad, Anyone?
Macaroni salad is a favorite with hot dogs. Inexpensive and easy to prepare, it may be made in advance and kept in the ice box. One pound of elbow macaroni will feed six. Cook it. Drain it. Run cold water over it. Drain again. Then mix into it two chopped pimientos, one-half green pepper chopped fine, one cup of chopped celery, one chopped onion, one-half cup of mayonnaise or more if needed. Add a little French salad dressing if you have it on hand. Put the salad into the refrigerator until you are ready to serve it.

Move the sawbuck table and garden benches into the garage. All seating equipment should be the rugged kind. The record player, a bucket of cold drinks and the food should set the pace for a fun evening. Decorations and soft lights lend more enchantment to the garage picnic.

Rev. Luckemeyer Takes New Post Regular City Council Meeting Slated Tonight

The Rev. Donald Luckemeyer, pastor of the St. Martin's Lutheran Church for the past four years, left Monday to pastor a Lutheran Church at Mission Valley.

Rev. Slaughter of Lubbock will preach at the local church each Sunday at 8 a.m. until a new pastor is called.

City councilmen will take up airport management plans, open bids on a new tractor and hear a report on a proposal for a dancing platform on church property in Spanish town at a regular meeting tonight at 7:30 at the city hall.

The city has been looking for a new airport manager since Jerry Haire submitted his resignation several weeks ago. Haire said he would continue at the job until the city found a new man. The request for the Spanish "platform" was made two weeks ago by the Rev. Norbert Wagner, pastor of Sacred Heart Catholic Church.

In other city activity, City Manager J. W. Harrison reported this week that signs are being painted on city-owned vehicles in compliance with a new state law. Harrison also said that the most-sprayed last Thursday.

lessened. He said he had no complaints on from residents since the sprayed last Thursday.

Safety Group Cites Need For Better Fire Equipment

The need for better fire-fighting equipment for Littlefield's volunteer fire department was emphasized here Tuesday morning at a meeting of the safety council of the Chamber of Commerce.

A report by Tom Hibbin, member of the council, showed that much of the equipment now being used is in poor condition, according to Rev. R. L. Young, chairman of the council.

Fire Chief Ma Dornagin, who attended the meeting, said all but one or two items needed to satisfy the inadequacies are included in the coming year's city budget requests.

The council, in discussing the equipment, cited the department's need for a new three stage pump. Council members also said a new fire engine is needed and expressed hopes that it would be purchased next year, or set up in the budget for 1961.

The group plans a campaign to educate the public on fire equipment needs here during the annual Fire Prevention Week activities in October.

The 'New White Fleet'

A little more than half a century ago President Theodore Roosevelt dispatched "The Great White Fleet" of 16 U. S. battleships on a world cruise. The purpose of this dramatic mission, as Life succinctly describes it, was "to impress the world with U. S. naval power and the nation's coming of age." That was exactly what happened.

Now Life tells, in a full-dress feature story, of a proposal for a "New White Fleet." It would in certain essentials, be very different from its predecessor. For instance, none of the naval ships would be armed. Instead, they would be devoted to helping underprivileged peoples to improve their own lot. The purpose, in a phrase, would be to serve people in trouble.

The idea for this striking proposal first came from Commander Frank Manson, U. S. Navy, and he contributes an article to Life explaining it. After the last world war, he writes, he saw diseased and destitute peoples in far-flung parts of the world. He actually saw people die on the streets of starvation and disease, and the grim and powerful impression this made stayed with him. Then, years after, a specific plan germinated in his mind. In his own words, "In addition to inefficient food production methods one of the major problems of underdeveloped nations is the vicious circle of deprivation. Because of malnutrition the farmers grow too weak to work with maximum efficiency and are thereby unable to produce the full potential of their land—and this in turn keeps them undernourished. Something from outside is needed to break the circle—I suddenly thought: why not have an entire fleet of mercy ships—grain ships, hospital ships, education ships, power ships—a fleet designed to make the benefits of the free enterprise system available to the entire human race?"

There will never be a lack of emergencies with which the New White Fleet could deal, Commander Manson goes on, citing as an example that malaria is now rampant in Indonesia and dysentery is a merciless killer in India. Moreover, he adds, the cost would not be great. The ships could be drawn from our huge mothball fleet. The project would not be financed by government, but by popular subscription.

Life describes the possible makeup of the fleet. The hospital ship and aircraft carrier would be the backbone. But with them would be two navy transports. One would be stocked with staple foods to feed the hungry. The other would be a "floating educational center." Native students would be brought aboard and given courses in agriculture and public health. In sum, a New White Fleet would carry good deeds, vital goods and fresh ideas to remote areas of the world which need them most.

Response to the idea has been all that its sponsors could wish. It is known that President Eisenhower is keenly interested. A Life poll of Congress shows that Senate and Representatives are overwhelmingly in favor of it. Spokesman for foreign nations praise it. Much planning, obviously, is needed. But there seems to be an excellent possibility that the world will see a New White Fleet whose mission is to serve mankind, not to destroy it.

Fact And Opinion

From National Review: "J. Handy Wright, vice president of the Association of American Railroads, told an industry group . . . that union featherbedding has, in effect, stolen seven billion dollars from the rail carriers since World War II. Now, seven billion dollars is just about equal to the total outstanding common stock of the railroads, and about half their net capitalization. Since all the railroads taken together have averaged less than four hundred million dollars in dividends per year since the war, the unions have received more in featherbedded extras than the stockholders have managed to earn for taking truly hazardous risks. Talk about profit sharing, you name it and the railroad fireman, who is paid for not stoking the no-fires on the Diesels, has got it. And how!"

One of the biggest industrial birthday parties in history is pending. It will occur next August 27, when the oil industry celebrates its 100th birthday. Salutes and tributes began in May and will continue through November. The Centennial slogan: "Oil's First Century: Born in Freedom, Working For Progress."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

By VERN SANFORD, Texas Press Association. AUSTIN, Tex. - None of the new special session is the political money-raising bills that failed to pass the Legislature during the past seven months were put away to gather dust. They'll be on parade again in a fourth special session is held to raise money to increase public school teachers' salaries. Gov. Price Daniel has said he will call the session if the public demands it. Texas State Teachers Association has its campaign rolling to create this demand. TSTA's goal is a program that would cost \$63,000,000 over a two-year period. Of this, \$36,000,000 would go for a \$405 increase in annual base pay for teachers. This would bring teachers' base pay up to \$3,610 a year. Hale Aikin Committee recommended a minimum of \$3,800 a year plus a number of other school improvements that would have totaled some \$200,000,000 for a two-year period. But TSTA decided that getting that big a tax bill would be too tough. For the time being, the 70,000-member teacher lobby will settle for a package openly. As one said, "If you're one-third this size with emphasis against teacher raises, they'll say on the item it wants most - pay you're against good schools and

little kids and motherhood - it's suicide." WATCH FOR NEW LAWS - Scores of new laws passed during the regular Legislative session ending in May go into effect this month. From here on, anyone convicted of four moving traffic violations within 12 months will be classed a "habitual violator", subject to drivers license suspension for any period up to a year. Same rule applies to anyone convicted of 7 or more violations committed within a 24-hour period. New, tightened laws are in effect on the waterways, too. Now against the law are: operating a boat or sking while under the influence of liquor, sking at night and "reckless or negligent" boating and sking. Now required by law are: a life preserver for every passenger on a boat and a lighting system, according to size, for every boat. Boat registration fees will not be required until next April. Another new law makes taking a ride in someone else's car without his permission a felony offense. Previously, it was hard to get more than a misdemeanor conviction for car stealing. Ranchers and farmers will be required to fence land along state and U.S. highways to prevent cattle from roaming on the road. Law does not apply to farm-to-market roads. Retail merchants no longer may advertise goods at "wholesale" prices. Only firms that sell only to retailers may claim wholesale selling. Other new laws won't be noticed until later. For example, the new "stick with the party" law requires that a poll tax holder have his receipt stamped "Republican" or "Democrat" the first time he participates in a primary or convention. From then on, in effect, he's stuck with the party stamped on his tax receipt - until he gets a new poll tax. A new program to inspect for cattle disease at live stock auctions was authorized, but is expected to be very small scale for the first two years, at least. It was given only a fraction of the money supporters said was necessary. WOULD-BE SPEAKERS BUSY - One of next year's campaigns is already going strong with two of the candidates claiming victory. Rep. Wade Spilman of McAllen declares he has "more than a majority" of the present House members pledged to elect him as next speaker. Rep. James Turman of Gober claimed enough pledges "to practically assure my election." Victory statements are a common campaign technique for speaker candidates since House members are prone to join a winner's bandwagon to get good committee assignments. Actually, the speaker can't be officially elected until January, 1961, when the 57th Legislature convenes. A large turnover of House members in the primaries could upset the apple cart by removing many of the speaker candidates' pledged supporters from office. Other candidates are Reps. L. DeWitt Hale of Corpus Christi and Frank McGregor of Waco. Reps. Jerry Sadler* of Pecos and W.T.

Oliver of Port Neches are regarded as possible candidates. WATER BONDS SOLD - First \$10,000,000 in bonds to raise money for local water projects has been sold by the State Water Development Board. Lower Nueces River Water Supply District of Corpus Christi may be the first beneficiary of the new program. Water Board has tentatively approved a \$3,000,000 loan to the district to complete the \$21,000,000 Wesley E. Seale Dam and Reservoir. State will pay slightly more than 3.5 per cent interest on the bonds and charge the borrower slightly more than 4 per cent. HOPE FOR HIGHWAY FUNDS - Texas highway builders are holding their breath over a threatened halt of the huge federal road building program. Continuation of the interstate road building, now going full steam in Texas, hinges on Congress' finding a way to get more money for the new way trust fund. Federal government pays 90 per cent of the cost of these projects. State Highway Engineer D. C. Greer said the Highway Depart-

Sandhills Philosopher

He's Glad He And Ike See Eye To Eye On Nikita Trip

Editor's note: The Sandhills Philosopher on his Johnson grass farm thinks he has discovered a similarity in his and the President's thinking. His letter this week indicates. Dear editor: I guess I'm just as human as the next man and I don't mind admitting it makes me feel good to see the President of the United States backing me up in one of my viewpoints. Some thinker in Washington, probably the one who sent that letter is "proceeding on confidence" that something will be done by Congress to avert such an economic blow. Most Texas officials, including Governor Daniel, are opposed to getting the money through a hike in the federal gasoline tax, as recommended by the President.

Why should I cut my front yard just because in-law who has managed downpayment on a new tree meal off of me? Me and President see eye to eye on this. I'm not saying Ike Gettysburg has weeds in yard, he may have more chopping weeds than I. We both agree that my front yard suits me day through Saturday. It up for visitors coming if a man's kids aren't pretty well behaved, maybe he has a sinister motive in mind. Let's not go to the over and see us like don't know why he's an experts figure he has a hand he has, but on the trip. A man can and sending your letter men to Siberia. If I had a sin, I'd like to see it as I could too. J. A.

HELGA ROGAL—tests blood specimen in Norfolk hospital.

25-Year-Old Friendship Brings Her To The U.S.

NORFOLK, Va. (AP) — A friendship spanning a quarter of a century has brought a young German hospital technician to this country.

Helga Rogal, 24, came to Norfolk last October as a technician trainee at De Paul Hospital here. Bringing her here took a bit of doing.

Helga's father, a leading German pathologist, psychologist and neurologist, was a classmate of Dr. Arnold Strauss, now head pathologist at De Paul, while they were students at Bonn, Germany, more than 25 years ago.

Strauss and Helga's father corresponded through the years. When Helga decided she wanted to visit America, it was natural that her father would ask the aid of Dr. Strauss.

Man's Business Is Foul Business

HOUSTON (AP) — Foul business is James T. Lake's business.

Lake, a lone sentinel on the roof of Busch Stadium here, keeps an eye out for vagrant baseballs. He spots where they land outside the park and calls down to ball boys who retrieve them.

Lake has served as ball spotter for the Houston Buffs for six years. He handles the parttime job at nights and during day games on weekends.

"An average of maybe eight or 10 balls go over the stands each game," he told Martin Dreyer of the Houston Chronicle. "We get most of 'em back."

The Port Terminal Railroad clerk sits on the roof outside the press box with a clear view of the diamond. He stations three ball boys outside the park behind the first and third base and home plate stands.

One of the boys is his 12-year-old son, Bobbie, who goes scooting when Lake points to the landing place of a wayward foul ball.

Another son, James Lester, 17, is the Buffs' clubhouse boy. And Mrs. Lake and their daughter, Linda, 6, are apt to be found in the stands.

Lake usually gets out to the game two or three hours early and sees to the recovery of balls cracked over the fence during batting practice. Several dozen old balls are used in the pre-game drills and 36 new ones for the game.

Lake's job includes retrieving balls that land on the roof and his antics sometimes alarm sports writers watching him lean precariously over the edge.

The 41-year-old former amateur ballplayer has to do some fancy ducking to avoid the speedy missiles. "I've been hit on the leg and almost hit another 100 times," he says.

He catches many of the blows to the "sign him up" cries of fans.

Who's the foulest of them all?

That's easy, Lake says. It's former Buff Ken Boyer, now a St. Louis Cardinal Star.

Jai Alai is the most popular sport in Havana.

...dishwashing done in half the time - **ELECTRICALLY!**

Yes, it has been proven - by tests at Ohio State University - that an electric dishwasher does the job in half the time. And they didn't just do the dishes once - but for 30 days.

That's just one reason electric dishwashing makes sense. Some others are the fact that the dishes are out of sight - in the dishwasher - between loads - your hands stay lovelier - and so do your dishes - and the kids want to help with the dishes because the dishwasher makes it all so easy.

So, don't be a dishwasher - buy one.

ATTENTION, HUSBANDS
 Your wife can spend half the time in the kitchen and be twice as happy with you for just 19¢ a day. That's Reddy's daily wage for electric dishwashing.

attitude toward Communists and communism.

The Berlin Maneuver
Russian threats to withdraw from East Germany is an exam- ple of the devious methods the Communists use to gain a point. Khrushchev wanted very much to visit the U.S. for propaganda purposes and to strengthen the com- munist position around the world. He needed prestige; recognition.

Officials here hope that the visit will convince Khrushchev on two points. First, that the industrial and agricultural strength of Am- erica far outstrips that of the U.S.S.R. Second, that the Ameri- can people are firmly united in support of freedom and democra- cy.

Doubtless, Khrushchev has been told those things by his subordi- nates who have toured this coun- try, and by his network of excel- lent spies.

No one we've talked with thinks the exchange of visits will alter one iota the long - time com- munist objective of world domi- nation. FBI Director J. Edgar Ho- ver, speaking on the record is emphatic on that point.

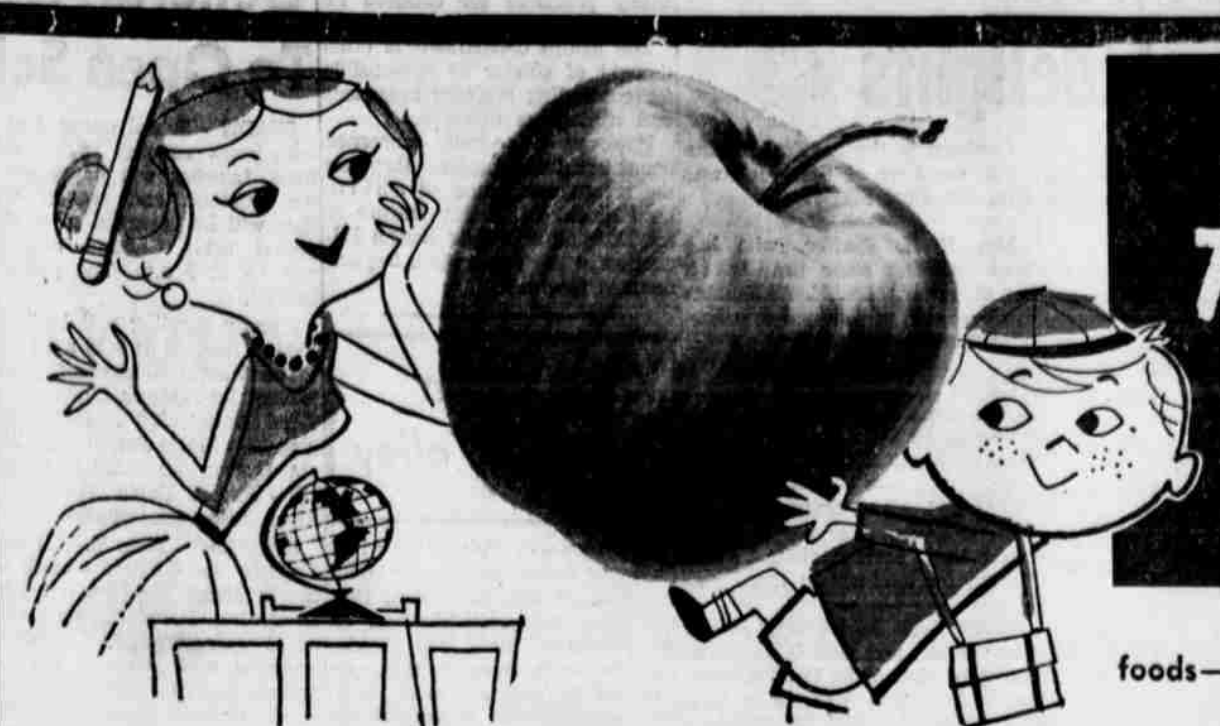

The Communist Conspiracy
"Communism," he said recent- ly, "is a materialistic, enslaving, atheistic evil. It is impossible to compromise with those who knowingly support it, directly or indirectly."

"Communism and belief in God cannot peacefully coexist because God's truth is communism's mortal enemy," Mr. Hoover said. "It is a battle between the forces of God and the forces of evil in which there can be no truce."

Mr. Hoover, from long experi- ence, probably knows more about the working, membership and ob- jectives of the Communist Party in the U.S. than anyone else. The Communist Party, under orders from Moscow, has been stepping up its efforts to weaken and destroy the United States through espionage, he said.

It would be tragic, the FBI chief believes, if the exchange of official visits lulls the American people into false hopes that communists, unlike the leopard, can change their spots.

The Pilgrims introduced the first card game to the United States. Called "All Fours," it is a polite family game which is still played.

IT'S THE LAW in Texas. A public service feature of the State Bar of Texas.

What can you do if someone doesn't keep the terms of a contract with you? You might (1) get money damages for your losses, (2) get back what you gave him as your part of the contract, or (3) get a court order "specific performance" on his promise, on pain of contempt of court penalties such as fines or even jail sentences.

As a rule, a court prefers money damages for a broken contract, since it is definite and often more easily enforced. But in some cases money won't do: For example, since no two pieces of land are alike, you could not take the money given to you in a contract to buy another piece of property "just as good".

And so courts, as a rule, enforce contracts to buy land by specific performance. They make the seller hand over the precise piece of property. Likewise you may get specific performance on contracts to buy or sell unique art goods like a painting of a great master of which there are no two alike.

You can seldom if ever get specific performance on personal service contracts which call for personal or confidential relationships, or special knowledge, good judgment, or skill. Their enforcement would be too hard for the court to supervise. But instead you may collect money damages; or perhaps in the first place you could provide in the contract for forfeiture of money for failure to perform.

No one can enforce specifically an agreement to get a third party's consent. Captain Miles Standish could not make John Alden get Priscilla's consent to marry him.

Or suppose a man and wife own property together and the husband alone wishes to sell. No court will make the wife sell her half against her will.

Before a court orders specific performance it looks carefully into the "equities". Was the "injured party's" contract fair and free from fraud? Did he take unfair advantage of the other party? Or wait too long to claim his rights? Could he have carried out his part of the contract?

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Sudan Sidelights

Mr. and Mrs. J. D. Chester visited Sunday in the home of Mr. and Mrs. D. C. Towns in Hale Center.

Mr. and Mrs. Howell Miller and daughter, Glenna, of Ontario, Calif., and Mrs. Jeanie Walker and son Paul, of San Diego, Calif., visited last week in the home of Mr. and Mrs. Edgar White.

Visiting Sunday in the home of Mr. and Mrs. R. E. Scott was Mrs. Helen Latham, Mrs. Mary Lewis, Mrs. Kite and Dr. McKnight of San Angelo. The group was here over the weekend to attend to business in Muleshoe.

Mrs. Red Davison was ill and confined to a Littlefield Hospital over the weekend.

Brenda Chisholm visited last week in Lubbock with Geneva Light and Linda Parrish. She was a dinner guest Sunday of Clifford George in Lubbock.

Revival services at the First Methodist Church are to be held beginning Sept. 13 and will continue through Sept. 20, according to Rev. Ellis Todd, pastor of the church. The Rev. Lyman Paul Wood of Amarillo is to be the visiting evangelist in charge of services. Time for the morning services has been set at 6:30 a.m. Evening service time is to be announced.

LIPSTICK LOGIC

Our niece is bringing her Baltimore husband to see us this week and such preparations haven't gone on since our son's New England fiancée came down to look us over seven summers back.

Anyone who has spent even a day with new-in-laws remembers staring at a spot on the wall-paper, or a blemish in the wood—mainly because there isn't much else to do while the chatter goes on about people you never heard of and may never know. Besides, those who are used to a place wander from room to room with perfect freedom, visiting with the host and hostess as they go about their duties. But the new-comer, less easy in the house, tries to appear casual in the last place someone left him, until invited to move.

Because corners come alive in a stranger's eyes, we've tried to look at each likely spot, seeking dust. We've looked out windows to see if an old paint bucket or an ancient wet mop is in line of sight. Hot weather is forgotten as we sweep down ceilings and walls, wash windows and wax floors. The front door is freshly painted where the old paint had peeled. New weather-stripping has been tacked to the back door, and squeaky hinges have all been oiled.

Cookies and ice cream, ham and roast, vegetables and salads are stored in the refrigerator against the three-day inroads of healthy young appetites.

Yes, a visit from a new-in-law surely puts a housewife on her mettle. It's a pretty good cure-all for ailing homes and for late-summer doldrums, too.

It is well to follow this same practice throughout the early years of the child's schooling. Safety is an important part of the elementary curriculum, as in secondary schools where older children get instruction in safe driving and the rules of the highway.

Confined to the hospital in Amherst the first of the week was Mrs. Joe Burt Markham.

Mrs. R. H. Shaffer, who has been spending some time with her daughter, Mrs. E. A. Jenkins in Levelland, is confined to a hospital there.

Guests Sunday in the Hubert Dykes home included Miss Hickie Horne of Littlefield and Mr. and Mrs. Woods Goforth of Needmore.

Mr. and Mrs. Warren Driver were in Dallas over the weekend where they carried their son, Randy, for a check-up there.

Guests over the weekend in the home of Mr. and Mrs. O. L. Shannon were Mrs. Audie Park of Summers, Ark., and Mrs. Lena Ray of Long Beach, Calif. The two had visited relatives in Amherst and Hobbs, N.M., the first of the week before coming to Sudan to visit in the Shannon home.

Marilyn Driver visited over the weekend in the Marvin Tollett home while her parents were in Dallas.

About Your Health

Parents, especially mothers are as a general rule extremely careful with their young children; careful in what they eat, careful that they have their shots, careful in their play.

Uppermost in the parents' mind is safety.

While the child is home, the mother has a direct control over the safety of her child.

When a child leaves home, for school or other activities, the responsibility becomes more complex.

It becomes necessary for parents to do their part to see that the community is doing its best to safeguard children from preventable accidents.

What parents can do about this is well worth looking into. The school, police, fire, recreation, and health departments all have a part in planning for child safety.

A child is fortunate if he has attended a well-conducted nursery or kindergarten before school. Here the youngster learns very early to play safely and happily with other children, and he begins to learn the rules of safety.

If he walks to nursery school with his mother, or even if he goes to school in a bus or the family car, the rules of safety can still be taught.

The wise parent finds out what safety rules the school is teaching and then sees to it that the same rules apply at home.

He makes doubly sure that nothing he says or does runs counter to what is being taught in school, because such conflict only confuses and undermines the child's confidence in both his teachers and parents.

It is well to follow this same practice throughout the early years of the child's schooling. Safety is an important part of the elementary curriculum, as in secondary schools where older children get instruction in safe driving and the rules of the highway.

Views From Pleasant Valley

The Pleasant Valley Social Club met in the community building Aug. 13 with Mrs. Fern Holt and Mrs. Margaret McMann as the hostesses. Mrs. Dub Hardin presided at the meeting that was attended by nine members. Routine business was transacted after which German chocolate cake, coffee, and mints were served during the social hour.

The ice cream party for the Pleasant Valley community was very well attended Saturday night Aug. 15. The meeting was called to elect new directors. Dub Hardin is the new president, Kenneth Duncan, secretary, and Cliff Faulkner, director. The group was entertained during the evening by a string band composed of Dutch LaRue, Dan Atkins, Gene Wingham, Mr. Wimberly Eugene Buhrman. Several visitors were present including the Norman Hodges from Hereford. They are former residents of the community.

The B. H. Bickels have as their houseguests, their grandchildren, Charla and Stanley Bickel of Snyder, and her sister and husband, Mr. and Mrs. Jess Dale of Princeton. They were joined Sunday for dinner by the J. R. Moores of Muleshoe and the Bill Bickel family of Muleshoe.

Mrs. Seaborn Moore and her mother, Mrs. Buhrman and the B. H. Bickels attended Mr. O. N. Robison's surprise birthday party in Littlefield last week.

Mrs. Bonnie Haberer entertained with a dinner for Mrs. Green from Marlow, Okla., Mr. and Mrs. Marshall Kelly, Mrs. Zou Wilson, Mrs. C. W. Terry, and Mrs. G. C. Green all of Earth. Mrs. Haberer was visiting in Morton and Whiteface the past week.

Mr. and Mrs. E. O. Green have their daughter, Mrs. Carl Day of Roswell, N.M., visiting them.

Several residents are away on vacations, among which are the John West family, the Harold Allison family, and the Dub Hardins.

Miss Brenda Bills is entertaining her friend Linda Sims of Whiteface a few days this week.

Mr. and Mrs. Jim Allison of Lubbock are visiting his parents, Mr. and Mrs. Gerald Allison. Jim will graduate from Texas Tech this week and will be moving to Seattle, Wash., where he has accepted a position.

Miss Sondra Broyles is the new Bailey County Farm Bureau Queen. She is the daughter of Mr. and Mrs. Edgar Broyles.

NEW BRUNSWICK, N.J. (AP) - Are you supermarket patrons confused by the super-terminology? Terminology like jumbo size, economy size, personal size, giant size, and bath size? So was H. P. Taylor, an engineer.

Result: He's made a circular slide rule for harried housewives who hope to be hep homemakers. The gadget also answers little questions such as: "If three cans of dog food cost 43 cents, how much is saved by buying a case of 24 for \$3.20?"

1914 Fire Truck Gets Honor Spot At Lufkin

LUFKIN (AP) - Lizzie, a 1914 model fire truck, has reclaimed her place in the sun with the Lufkin Fire Department.

Six months ago they stood rusting beside the Central Fire Station, a cranky, aging relic of the days when this city's firefighters first used mechanical wagons.

But city officials decided Lizzie was overdue for renovation, said Bob Bowman, writing for the Houston Chronicle. Firemen worked on her during their spare time. Recently she sported up city streets before a parade making her latter day debut to towns-people.

"She's not as pretty as some of the newer models of fire trucks, but we just don't make fun of her. She's a proud lady." Fire Chief D. C. McPherson said.

Lizzie sports a fresh coat of bright red makeup, new tires and a glittering coat of polish.

"Main trouble in fixing her up was the tires," McPherson said. "After searching around we finally had to order them special from a firm in Houston."

The chief says Lizzie does 30 miles an hour easy and probably could hit 45 with a little strain. But the old girl won't be seeing any fire fighting. She'll serve mostly as honor guard for Lufkin's other fire trucks, heading parades and appearing at city activities.
