Dr. Murry To Address Rotary-Teacher Banquet

Dr. Grover Murry, newly installed president of Texas Tech, will be the featured speaker at tonight's Rotary-Teacher Banquet in the Littlefield Community Center at 7:30.

Dr. Murry, who came to Tech from LSU, will be introduced by Littlefield School Superintendent, Paul Manning, who will also introduce members of the Littlefield faculty and members of the Littlefield school board. The event, an annual affair of the Littlefield Rotarians and their Rotary-Anns, honors the teachers of the Littlefield school system and presents a plaque to the outstanding teacher of the past school year.

Dr. William Orr, president of the Littlefield Rotary Club, will be the Master of Ceremonies for the event and will make the presentation of the plaque.

In discussing the banquet, Dr. Orr said, "Rotary is most appreciative of the teachers of the Littlefield school system, and feel they are doing an outstanding job in the field of education. We feel the teachers are most deserving of any honors they receive, and are happy that Rotary has undertaken the sponsorship of this annual event."

We just wish it were possible to honor each teacher with a token of our appreciation for their time and efforts in helping to educate our children."

Manning said, Tuesday, he did not know what the topic of Dr. Murry's speech would be, but indicated it would probably deal with education and the value of education.

Sheriff's Posse Qualifies For National Finals

Littlefield's Sheriff's Posse members snatched a number of honors on September 11th, as they participated in Playday activities in Lubbock. Together with five previous playdays held during the summer, our Posse has now qualified itself to participate in the national finals, which will be held in Dallas the last week in October.

Leading the field to top honors were Lee Elms, who captured a list place trophy in the key hole race and Gay Nicholas who took first in the ring race and second in the flags race.

Barton Spencer, President of the Posse, won 3rd high in points for the whole District from all the playdays put together and then proceeded to win 3rd in the barrels, 5th in the poles and flags race.

Bill Wells took fourth in the flags; Bill Stone, 5th in the potato, and Don Hatley, 5th in the key hole.

The relay teams performed well, too, as Don Hatley, Barton Spencer and Bill Stone teamed for 3rd in the relay and Lee Elms, Barton Spencer and Bill Stone also took fourth in the relay.

Don Hatley and Barton Spencer ran for third in the ribbon race and Peter Hill and Barton Spencer came in fourth in the wagon.

The Posse will keep itself in trim for the national finals by going to Canyon to compete with winners from District 2 on Oct. 9. This will be a challenge playday between the two Districts, so ribbons instead of trophies will be awarded.

Brownwood Group To Tour City

A group of businessmen and interested parties from Brownwood, Texas is coming to Littlefield on Thursday, Sept. 22 to view Littlefield's re-vitalized downtown area and study its history.

The Ambassadors from the local Chamber of Commerce will be their hosts at a noon luncheon. Led by Charles Duval, members of the Chamber will explain the whole history of the project, stated Arthur Duggan, Chamber President.

The Ambassadors are the official greeters for the city, appointed by the Chamber of Commerce for this function.

EDD HALEY EXAMINES the effect of the recent blast of hail on some of his cotton. His fields of cotton will have virtually nothing harvestable.

His fate is shared by many farmers as the hail cut strips south of Springlake-Earth School, northeast of Olton, and south of Fieldton.

At this time of season, farmers have just a little more free time after working mighty hard through the spring and summer in preparing their land and preparing crops for harvest by cultivation and irrigation. Some had already begun to dip into the grain sorghum harvest and others were watching the cotton closely.

While some might have been growing impatient with the extra wet weather, such cause of concern was small in comparison to the disaster that struck on Saturday afternoon in at least three different areas of Lamb County.

Small hail and large hail - and all of it very hard hail - lashed at crops near the Earth-Springlake School, northeast of Olton and west and south of Fieldton. Aided by high velocity winds, the hail drove plants into the ground, stripped leaves, knocked sorghum heads senseless and strewn the ground and even the highway with unripened cotton bolls as the rains accompanying the winds and hail washed much of the refuse down the rows and across the roads.

The most savage strip of destruction in the Earth-Springlake area started a little north of the consolidated school, around Buzz Jones' farm and cut a swath about a mile wide and six miles long. The center of this strip experienced 100% destruction of crops.

Jowell Jones is reported to have lost three hogs because of the size of the hail. Ed Jones was caught in a tin roofed barn at the time of the storm and had to climb into a pickup and close the windows to escape the deafening noise. Ed Haley lost most of his crop and finds that very little will be harvestable. And that's the way the story continues there for those farmers caught in that strip.

Some of the school buildings experienced broken windows as well as homes and farm buildings caught in the area. One man testifies that some of the hail was the size of baseballs but refuses to be quoted since he feels people would disbelieve it.

The savage fury of the storm was felt near Olton on the road to Hart, starting about 8 miles north of town and going north for about 5 miles in a strip three miles wide. About 10-12 farms are included in this strip with estimated damages of 75-100% of the standing crop.

The third strip seems longer as it started about two miles west of Fieldton and cut a swath 4-5 miles wide, coming through the Sand Hills and on towards Littlefield. One farmer thought it might have continued on to the ocean. Some crops here started at about 50% damage while others escalated to 100%. Some of the farms affected were those of George Stewart, B.M. Farmer, Clark and Leonard Hill, Winston Cummings, Luther Uselton, Charles Carpenter, and Dwayne Phillips. Damage was lighter in the Sand Hills although Roger Bartling reports the hail to be of golf ball size.

Whether these acts are ascribed to a deity, fate, or simple forces of nature, destruction ranging into the hundreds of thousands of dollars was certain, leaving many farmers with dimmed hopes and well-deserving of the sympathy of area residents.

Masonic Lodges To Be Honored

Three Masonic Lodges in this area will be honored during a Workshop to be held at 8:00 p.m., Thursday, September 29, in the Masonic Hall in Sudan. Littlefield Lodge 1161, Muleshoe Lodge 1237 and Olton Lodge 1257 will receive Honor Roll Awards, which are given by the Grand Lodge of Texas in recognition of outstanding attendance at the Spring series of Masonic Workshop programs.

The awards will be presented by L. B. Montgomery of Littlefield, who is chairman of the seven-county Masonic Workshop Area E-7. He will also conduct the meeting.

Montgomery said that Earth and Sudan Lodges are also especially invited to attend the Workshop. Nearly 200 such meetings are held twice a year for officers and members of over 970 Masonic Lodges in Texas. The Masonic Fraternity is the state's largest fraternal group with nearly 250,000 members.

Field Day Attracts Over 1,000

Over 1,000 interested persons attended the Annual Field Day at the South Plains Research and Extension Center on Tuesday, September 20, north of Lubbock.

County agents from the area and workers at the Center guided the farmers through the various research plots as the progress of many new experiments was displayed.

Narrow row cotton is being tried to possibly reduce production costs, increase yield and improve fiber quality.

Continued sub-irrigation studies are in process with specially designed covers for holes in the plastic pipes to keep the holes from plugging as this has been a problem.

Undefeated Wildcats Face Acid Test With Mustangs

Riding the crest of two impressive victories, the Littlefield Wildcats will place their unbeaten string on the line tomorrow night, as they host the improved Coronado Mustangs, of Lubbock, at 7:30 p.m.

The Wildcat crew, off to the

Young Elected President Of D. A. Association

Jack D. Young, District Attorney who lives in Muleshoe, was elected President of the Texas District and County Attorneys Association in Austin held on Saturday, Sept. 17, 1966. The meeting followed a two-day Attorney General's Law Enforcement Conference by law enforcement officials from all parts of the state.

A resolution commending Attorney General Waggoner Carr for his contribution for good law enforcement was unanimously adopted.

finest start since 1961, when they won their first four ball games, will be facing the acid test in the young season, as they prep for the opening of district 3-AAA play in a few short weeks.

Behind them, the Wildcats have wins over a strong Plainview club that has not hit its peak, and a victory over the Muleshoe Mules. The Mustangs have a loss to Lubbock's Monterey Plainsmen, and an upset victory over the Roswell, New Mexico, Coyotes.

The game will pit the staunch defense of the Wildcats against a crunching ground offense, led by Rod Chaney, who last week picked up 131 yards of the Mustang's 341 yard total, and scored two of the Lubbock school's touchdowns. The Wildcats, on the other hand, are expected to counter the potent ground attack, with a formidable surface game that has picked up a total of 357 yards in two outings, this season. In the air, Littlefield has gained only 116 yards, but

the ground-minded 'Cats possess one of the finest passing threats in the area with Williams, Manning, Wright, Hutson, and Pace all being regarded as top-notch-pass receivers.

The reason the 'Cats have stayed on the ground is due to the running of a fine group of backs, plus the absence of a top notch passer. In the tossing department, quarterbacks Mike Grissom and Tim Tapley, have shown they possess the ability to throw, but call for the pass only to keep the defense off balance, seldom using the long ball for a score of big gainer.

The 'Cats, who were slightly flat last week after coming off the big win over the Bulldogs in the season opener, will have their hands full in containing the Mustangs, who improve weekly.

At press time, the game is rated as a toss up. The Mustangs will be without the services of several of their regulars, but the boys that were moved in, have more than filled the gap, as evidenced by the performance of Chaney.

The Wildcats, on the other hand, will be at full strength with Manning, Williams, Koontz, Lambeth, Wright, Grissom and Tapley all in good shape for the game. Up front, the line of Pace and Hutson at ends, Dangerfield and Durham at tackles, Lumsden and Birkelbach at guards and Conway and Stafford at the center spot gives the Wildcats a well-balanced attack.

The game could well decide the fate of the 1966 Wildcats, in the tight 3-AAA chase. Should the Wildcats win, the achievement could well carry them through the remaining non-district games and through the district competition. If, on the other hand, the 'Cats drop the contest to the Mustangs, it could take a couple of games for the locals to get back to the peak. Either way, the Wildcats will have everything in their favor; the home field, the winning streak, the desire and the determination.

The Mustangs will be making their first appearance against a 3-AAA opponent since entering varsity play. Following the Wildcat encounter, the Mustangs take on a 3-AAA favorite, Lamesa, before entering district play.

As it stands now, the game is rated as a toss-up with the team that gets the breaks coming out the victor. One thing is certain, the Wildcats will have to be high, if they rope the Mustangs. Most of the work this week has been spent on attitude, as much as play, as Coach Kirk and his staff work to get the crew ready for the said test.

Lamb County Accidents Listed

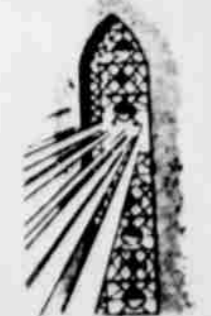

The Texas Highway Patrol investigated 18 accidents on rural highways in Lamb County during the month of August, according to Sergeant Thurman Keffer, Highway Patrol Supervisor of this area.

These crashes resulted in 15 persons injured, and an estimated property damage of \$10,-600.00.

The rural traffic accident summary for this county during the first eight months of 1966 shows a total of 70 accidents resulting in 2 persons killed, 41 persons injured, and an estimated property damage of \$42,-110.00.

September first marked the beginning of the 1967 motor vehicle inspection period. As in previous years, the period will end on April 15, 1967. Motorists are urged to have their vehicles inspected in the routine visits to garages and thereby eliminate the necessity of having to wait in line at a later date for an inspection sticker.

Gay Gary returns this Saturday night to head the mat card at the local sports arena, as he matches his skills against the mysterious Batman. Whether there is any similarity to the other Batman, will have to be discovered in the ring.

Gory Guerrero takes on the Lawman and Prof. Tanaka pits his Japanese skills against the brute strength of the Ox.

In some lively action last week, Ricky Romero fought Killer Karl Kox to a draw. Charles Atlas took two out of three falls from Pancho Pico. Dory Funk, Sr. used his famous spinning toe hold to stop Gar Gay after thirty minutes of steady wrestling.

WMU Has Royal Program

The Women's Missionary Union of the local Baptist Church met Monday afternoon at the church for their Royal Service Program. Mrs. Doc Vann, program chairman, was in charge of the program which was entitled "Developing Baptist Leaders in Central America". She read the Calendar of Prayer and a special prayer time was conducted for the missionaries listed on the calendar. She then gave the introduction to the program. A map of Central America was used as a center of interest, and the ladies each received a small "hand" with a scripture written on it carrying out the theme of their parts.

The parts of the program gave examples of the different qualities of representative Baptist leaders in Central America. Mrs. Ted Hutchins gave the first part "Example: Consecration"; Mrs. J.R. Inklebarger gave the second, "Example: Creativity"; the third "Example: Vision" was given by Mrs. Jess Emmons; the fourth "Example: Dependability" was given by Mrs. H. Harvey; Mrs. J.J. Terry gave the fifth "Example: Cooperation"; Mrs. J.R. Hodges gave the sixth "Example: Friendliness"; Mrs. Preston Pointer gave the seventh "Example: Knowledge"; Mrs. Vann the eighth "Example: Understanding"; and Mrs. Ernest Savage the ninth "Example: Enthusiasm". Mrs. Inklebarger gave the concluding devotional moments using the scriptures in relation to each of the qualities mentioned in the program.

The program concluded with the group repeating the WMU watchword and a prayer of dedication.

Mr. and Mrs. Arthur Turner went to Albuquerque, N.M. last week where they visited in the home of their daughter and family, Mr. and Mrs. Archie Mobley and daughter. The Mobleys are planning to move soon to a new residence in California.

Revival services were brought to a conclusion at the local Baptist Church Sunday night. Services had been held each morning at 10 a.m. and each evening at 7:30 p.m. Evangel-

ist for the meeting was Rev. Tucker who is pastor of a church at Iran, and leading the singing for the meeting was Mr. L. Jones of Anton.

Mr. and Mrs. Donnie Avery visited in the home of their father and family, Mr. Gene Pate and family.

Who Were The Rioters In Watts?

Who were the rioters in the Watts district of Los Angeles during August 4 and 5, 1965? You have heard politicians claiming that they were "outsiders"; they weren't.

You have heard sociologists insist that they were rioting because they were "poor people out of work"; they weren't.

You have heard the opinion of criminologists that most of the rioters were frustrated juveniles; they weren't.

Now we know, from a statistical analysis compiled by California's Bureau of Criminal Identification, that all of these earlier theories were false.

The fact is that the "average rioter" was not extraordinarily deprived or hopelessly sentenced to a life of frustration and joblessness.

The "average rioter" was an adult Negro male who lived with his wife or relatives in a rented apartment or house. He was a high-school dropout who worked as a domestic or unskilled laborer.

He had a police record. The Watts rioting, August 11 through August 15, 1965, killed 34 and damaged \$40 million worth of property.

During the week, 3,927 rioters were arrested and only 556 were juveniles.

It was from analyzing these 3,927 that Attorney General Thomas C. Lynch was able to arrive at certain provable conclusions:

Many were not "poverty cases," even by the Johnson Administration's generous rule-of-thumb. Seventy three per cent of the rioters were employed; 22 per cent earned more than \$400 a month!

Nor were they "recent refugees from the South," as some charged. Seventy five per cent of the rioters had lived in Los Angeles County for at least one year.

If the average juvenile was indeed "frustrated by the circumstances," more a personal than a problem. The average juvenile arrested was arrested for rioting, but for burglary, home of unmarried, divorced or deceased.

What this analysis makes plain is that a similar potential explosive situation exists most every American city.

Senator Robert Kennedy publicly accused the rioters in Los Angeles with "instability toward the plight of the ghetto." This has been countered by pertinent facts.

As we seek to resolve city race strife, we must call it by its right name: "poor people out of work," and deal with it accordingly.

And when I hear too many placed Christian compassion for lawbreakers, I keep remembering that Christ never made an issue of getting out of the slums; He wanted the slums out of the ghetto.
