

Miscellaneous Bridal Shower Compliments Latayne Steffey

Mrs. M. Nicholson's home, 318-S 11th street, was the scene of a most enjoyable bridal shower Wednesday afternoon, Sept. 15, honoring Latayne Steffey, bride-elect to Don Nichols.

The hostess, her mother, Mrs. J. Steffey, the prospective bride's mother, Mrs. Wayne and Mrs. Marion Nicholson, and Mrs. Nicholson greeted the guests at the door.

Guests were registered by Miss Beva at Ray in a bride's book of which a table was covered with cut work cloth and with four white candles

in crystal holders. Aqua colored punch was served from the large crystal punch bowl and crystal cups. Individual cake squares and assorted nuts and mints were also served. The names Latayne and Don were printed on the white napkins in silver.

The hostesses, Mrs. H. B. Sharp, Miss Joyce Sharp, Mrs. Nolan Ray, Miss Beva Jean Ray, Miss Jackie Hill, Miss Gloria Thompson, Miss Marion Nicholson, and Mrs. G. M. Nicholson, presided at the bride-elect with a precise cooler. Many other lovely and useful gifts were displayed

MISS MECCA GRANT, daughter of Mr. and Mrs. Tom J. Grant of Littlefield, will become the bride of Ray Aldridge in a ceremony performed at her parents' home Sunday. Aldridge is the son of Mrs. Bill Booher of Dimmitt, Miss Grant, a graduate of Littlefield high school, received her Bachelor of Science degree at Texas State College for Women. She did graduate work in occupational therapy at Long Island, N. Y., and in Indianapolis, Indiana. She has been employed as occupational therapist in the LaRue Carter Memorial hospital in Indianapolis. Aldridge is employed by the Rogers Exploration company of Houston and has worked with the company in Arabia and Alaska and just returned from Venezuela.

Sunday School Teachers Plan Training Union Study Course

Monday night was the regular meeting of the Sunday school teachers and officers of the First Baptist church. The group brought covered plates and sat at the tables for supper.

Approximately 50 persons were present to hear Rev. Olin C. Henderson, pastor of the First Baptist church, speak on "The Christian's Responsibility to the World." The speaker was assisted by Mrs. Henderson.

The new member song "Jesus The Lamb of the World" and ad songs were sung. The group plans to promote the union study course.

A luncheon was also held on the training union study course. The group will meet Monday night Sept. 27. It was announced that Rev. Olin from the State Training Union district will be present to direct the study course.

Books to be taught and the teachers were announced as follows: "Christian in the Modern World" by Rev. Olin; "The Christian's Responsibility to the World" by Dr. L. H. Hendricks; "Winning Orders to Christ" by Mrs. W. J. and young people by L. J. Jordan; "International Politics" by Dr. J. H. Johnson; "Human Manual for Parents" by Mrs. Henderson; and "Jesus Christ" by Rev. Olin.

IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

A young man just beginning his life work was advised to save his money for investment and for future needs. He said he had agreed with his parents to save for but would not delay the process because he was having such a fine time spending his money.

"What will you do," he was asked, "if you become ill or if you lose your job?" The government provides for you in such cases. It has a job and helps you during the process because he was having such a fine time spending his money.

"What will you do," he was asked, "if you become ill or if you lose your job?" The government provides for you in such cases. It has a job and helps you during the process because he was having such a fine time spending his money.

The primary and beginners will be taught "Birds and Animals Go To School" with a film to match their theme each night. This group will be taught by Mrs. Hooper McGowan, Mrs. Terrell Pettit, and Mrs. Lincoln Smith.

The nursery will be open each night during this course and there will be thirty minute instruction periods during which time there will be demonstrations and applications.

Mrs. Albert Miller and Mrs. Oscar Wilmore attended the P. T. A. county council meeting at Sudan last Tuesday. Seven units belong to the Lamb county council which meets four times a year.

Miss Pat Gilbert

Youth No Obstacle To Sudan Dance Teacher

Monday through Friday lunch Pat Gilbert a student of the Junior class in Sudan High, but comes Saturday - Pat changes from pupil to teacher.

Pat, daughter of Mr. and Mrs. Henry Gilbert of Sudan, began her teaching career this past summer at the age of 15 when she opened her own dancing studio in Earth. She enlisted twelve small fry as pupils and is teaching them tap, aerobics and ballet dance. Pat commutes from the family farm north of town to her studio in Earth to hold classes.

With two older brothers and a sister already in the teaching profession Pat couldn't wait for a formal education to get into the act. And - having studied ballet since the age of six, she felt qualified to make the change from pupil to teacher.

However, Pat doesn't confine all her spare-time to practicing and teaching the ballet. She is an active member of the Sudan school band, having joined it when it was first organized seven years ago. She plays the clarinet and spends much of her time in practicing and marching with the band.

Pat says she plans to lead her career either as an accompanist or a teacher. If she decides to make it teaching she figures she'll be two steps ahead of her competitors who has gained nothing in dancing class.

COTTON FRESH!

Good and fresh on a subtle summer afternoon, this pretty new white and pink cotton frock is a refreshing color and design. Her dress, designed by Nanette, is an elegant, feminine and cool style. The cotton fabric has a wrinkle-resistant finish.

ADHERENT - Mrs. Velma Melton was chosen to the Sod House Demonstration club at her home on Earth highway Friday afternoon.

Mrs. K. E. Gregson presided in the morning after Mrs. Melton had given an amusing poem for an opening number. Refreshments were the topic of the meeting.

Miss V. H. White gave a demonstration of open relish.

Home made ice cream and beverages were served to Mesdames C. W. Rowson, Edwin Edwards, Dancer Bill, E. S. Melton, Mr. N. E. Gregson, Velma Melton and Misses N. O. and Willa White.

OLD-FASHIONED CHOW-CHOW

Ingredients: 1 quart 1/2 of a medium head chopped cabbage, 1/2 pound (2 medium) onion (chopped), 1 green pepper (chopped), 1/2 pound green beans (chopped), 1/2 pound red peppers (chopped), 1/2 cup vinegar, 1/2 cup sugar, 1/2 teaspoon turmeric, 1/2 teaspoon ground ginger, 1 tablespoon mustard seed, 1/2 teaspoon celery seed, 1/2 teaspoon mixed whole pickling spice.

Directions: Wash and prepare vegetables; mix with salt. Cover; let stand overnight; drain. In kettle mix mustard with a small amount of the vinegar; add remaining vinegar, sugar, turmeric, ginger, mustard seed, celery seed and pickling spice. Simmer 20 minutes. Add vegetables; simmer 10 minutes. Continue simmering while quickly packing one hot sterilized jar at a time. Fill to within inch from top. Be sure liquid covers vegetables. Seal each jar at once. Makes 3 to 4 pints. Use relish within 6 months.

If you want to try other small-batch recipes you'll find them in one of last summer's cookbook crop, "Old-Time Pickling and Spicing Recipes" by Florence Brodley's collection of butters, catsup, chutneys and pickles here. Brandied and spiced fruits plus mince also come in for treatment, too.

When you're planning an informal supper party either on the patio or in the dining room, hamburgers are excellent to serve as a main course. They are quickly prepared, economical, and a universal favorite. To add a special touch to hamburgers cooked either inside or outside on a open grill, spread them with a delightful "gourmet spread." This spread dresses the hamburgers up and gives them a wonderful flavor.

- 1/2 cup grated onion
- 1/2 cup minced parsley
- 1/2 cup softened margarine
- 1 teaspoon Worcestershire
- 1/2 teaspoon salt
- 1/2 teaspoon dry mustard
- 1/2 teaspoon pepper
- 1/2 cup crumbled blue cheese

Mix together the onion, parsley, margarine, Worcestershire sauce, salt, mustard, pepper, and cheese to make a smooth paste. Spread over the broiled hamburgers. Then return to the broiler and continue broiling until the spread is melted. This recipe makes enough for eight hamburgers.

The University of Texas

HIGHEST BUSINESS LEVEL - Texas business activity, shown by the composite index above, was down 1 per cent July from June, with an index drop from 156 to 154. In spite of the decline, the July figure, computed by the University of Texas Bureau of Business Research, registered the second highest index level on record. Dr. John R. Stockton, bureau director, has pointed out that nothing in the current-business situation indicates the July decline was anything more than an erratic fluctuation, common in monthly time series. Here's How You Can Test Your Ability As A Hostess

By Virginia Brown
AP Newsfeatures Writer

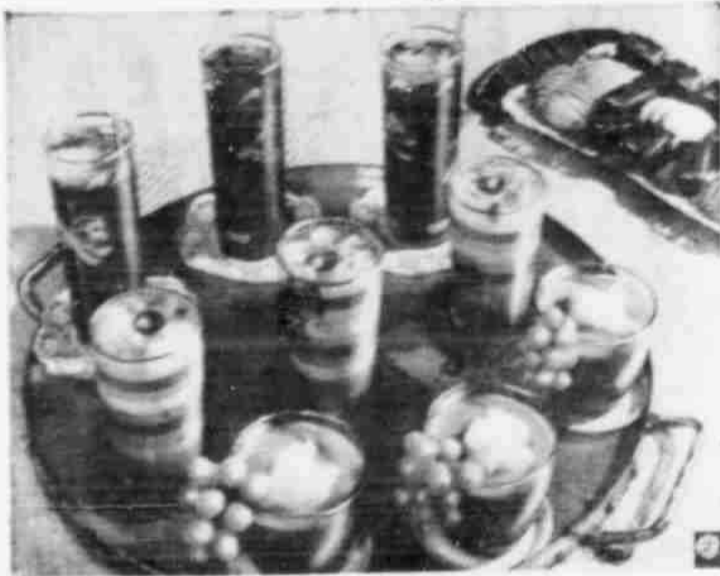

IF YOU doubt that you are a perfect hostess, try to work on your role objectively. Many a hostess and man (consequently, newspaper) believe there is nothing more to having company than just inviting them.

Actually the role of hostess is not easy. It takes a certain tact, observation and good judgment to please your guests. If you think you possess these qualities, but are not sure, try the test.

Here's how to test your Hostess Quotient:

- 1.—(a) Do you begin to talk to your invitation, rather?
- (b) Ask for a RSVP?
- (c) Wait until the invited reply to see who appears?
- 2.—(a) When starting guests to your table do you look up a list of "intelligent" topics?
- (b) Just make guests at random?
- (c) Take other people's suggestions for a party list?
- 3.—(a) Do you introduce your guests leaving a clue to their identity?
- (b) Try to look that the conversation goes on?
- (c) Get a conversational conversation going at once?
- 4.—(a) Do you wave your guests out by shouting they are invited?
- (b) Make sure play guests even if they don't leave?
- (c) Try to get a party pattern of interest develop before you leave over?
- 5.—(a) Do you keep up conversation and empty dish trays wipe up spilled drinks with discretion?
- (b) Yawn and look at your watch every few minutes?
- (c) Take an early pleased at feet and try to be pleasant, what what may?
- 6.—(a) Do you schedule dinner for 7:30 and serve it at 8 or 10?
- (b) Try to serve dinner on time with perhaps a bit of an apology?
- (c) Rush around madly — hot and confused reminding your guests how much work they are!
- 7.—(a) When introducing at dinner

Refreshments Ready in a Jiffy

• Tall, cool fruit juice drinks are just right for warm weather get-togethers. Check your pantry to see that a supply of canned juice is on hand. The vitamin-rich fruit juices are good alone, or for variety add other ingredients such as ice cream and ginger ale for a sparkling treat. Here are some choice coolers that you can make in a jiffy.

The Party Special

Spiced Mash: Mash 2 ripe bananas; add a 12-oz. can of orange nectar, 1 cup milk and 1 tablespoon sugar. Stir until smooth. Serve chilled. Four to six servings.

Teenager Tasty

Fruity Sparkle: Mix together a No. 2 can pineapple juice, 1/2 teaspoon grated orange rind, juice of 1 orange, 1/4 cup sugar and an 8-oz. can fruit cocktail. Add a pint of soda water. Serve in tall glasses over ice cubes. Makes six cups.

Grow-Up Extra

Coolberry Almond Fizz: Empty an 8-oz. can jellied cranberry sauce into a bowl. Beat until smooth. Gradually add a No. 2 can orange juice, beating. Add 1/4 teaspoon almond extract and a few drops red coloring. Chill. Makes 1 cup.

Everyone's Favorite

Fruit Fizz: Fill glasses half full with your favorite chilled canned fruit juice. Add a scoop of ice cream or sherbet. Finish filling glasses with chilled ginger ale.

- (a) Do you take notice in little arguments that develop?
- (b) Prove to be a poor loser in your own home?
- (c) Give the impression that a word game is serious but can still be fun?
- 8.—(a) When making introductions with guests do you arrive over relations, positions, etc.?
- (b) Take a belligerent attitude toward some guests just because you feel you "had" to invite her?
- (c) Try to do more "listening" than talking?
- 9.—(a) Do you let your dog annoy guests "barking for food" and jumping in their laps?
- (b) Encourage the children to sit at the living room around at the company?
- (c) Is your household calm and peaceful with children and company tucked away when guests appear?
- 10.—(a) You you save the best wine for personal consumption?
- (b) Feed your guests anything

- as long as it is cheap?
 - (b) Give them a good meal unless you inform them you are offering a "pot-luck" dinner?
- Answers: 1-(b) 2-(a) 3-(a) 4-(c) 5-(a) 6-(b) 7-(c) 8-(c) 9-(c) 10-(c).
- ### Bula Defeats Spade 39-6
- Bula downed Spade 39-6 in a game last Friday night at Bull. The Bula team is defending District 6-B champions. They play Southard at Bull Friday.
- In the game with Spade Bula's first three games, the Bula team led 5-0 at the end of the first quarter. At halftime, the Spade Longhorns had chalked up their one touchdown of the game, but missed the conversion, and Bula led 20-0. Another score by Bula in the third quarter was the last in the game, which ended 39-6.

Red Raiders Meet WT's Buffaloes

LUBBOCK, Sept. 20 — Texas Tech's Red Raiders and West Texas State's Buffaloes took up in their annual regional grid rivalry at Jones Stadium here Saturday night.

Despite Tech's 41-0 losing of Texas A&M while West Texas State was bowing to McMurry 13-18, Coach DeWitt Weaver is treating Frank Rimbrough's Buffs with great respect.

"There's always the chance of a let-down following the peak of the Raiders' attitude against A&M," Weaver explains. "If we don't stay up or if the boys take the game lightly, we're in for an upset."

Tech's season reported that West Texas looked considerably improved over 1953 and that it was a powerful McMurry team that took the Buffaloes' measure.

Making the Red Raiders' task more difficult is the fact that West Texas State — thanks to the arm of Dugger's Bubba Hillman — is a scoring team. Texas A&M eliminated only two times all night.

Reserved seats will be available until game time at 8 p. m. Jimmie Wilson reported that although the Oklahoma A&M contest Oct. 2 is Tech's hot seller, reserved tickets are still being sold to it as well.

The game launches Tech's defense of its Barber Conference title.

FIGHTING SHIPS

THE USS RENSHAW DDE-499
A VETERAN OF WWII WITH BATTLE STRENGTH BACK IN THE THICK OF THE CURRENT CONFLICT—STILL ONE OF THE NAVY'S BRAGGARTS—

FIGHTING SHIPS.

LATE ONE NIGHT IN OCTOBER, 1951, AFTER MONTHS OF COMBAT, THE RENSHAW SET A NAVAL PRECEDENT—SHE SANK AN ENEMY SHORE BATTERY.

THE GUN WAS LOADED ON THE BRINK OF A CLIFF HIGH ABOVE THE STORMY SEA—HIDDEN BY CARROUTAGE—SHARP RENSHAW COURAGEOUSLY DROPPED IT.

NOT SATISFIED WITH THAT RECORD, THE RENSHAW SET ONE MORE OF BLOOD IN A MILITARY BLOOD BANK IN HAWAII—E-EMPHATICALLY THE SPIRIT OF A TRUE FIGHTING SHIP.

THE FOURTH SALVO WAS A DIRECT HIT OFF THE CLIFF AND INTO THE SEA WENT THE GUN AND ITS CREW, TO BECOME THE FIRST KNOWN ENEMY SHORE INSTALLATION TO BE SUNK BY NAVY GUNS.

PIKEVILLE, Ky. (AP)—The chestnut, nearly extinct as the results of a blight, is trying a one-tree comeback here.

Before the blight struck about 25 years ago, the trees made valuable lumber and the savory nuts enclosed in prickly burrs were eagerly sought in the Autumn. Apparently in the old trees are dead now although occasionally a few branches spring from the old trunks only to wither away.

But Mrs. Ben Cassidy has nur-

sed a transplanted twig into a healthy 6-year old chestnut sapling, filled with green burrs.

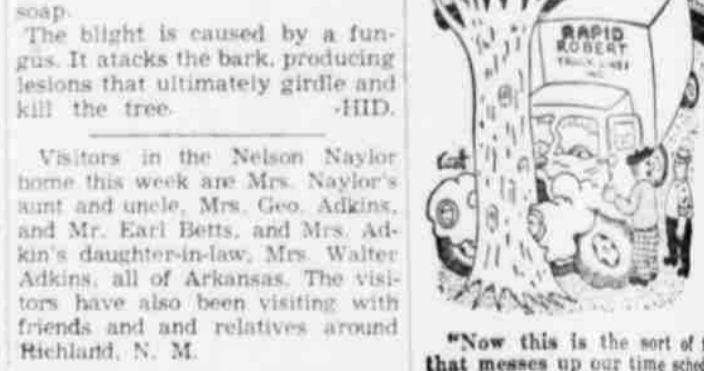

When blight struck at the sapling last year, Mrs. Cassidy placed a cake of laundry soap in its fork. The blight went away.

So far as is known, no one has used soap successfully before to stop the blight. Although Mrs. Cassidy has confidence in her remedy, foresters fear her tree will succumb later. No blight-killing properties are attributed to soap.

The blight is caused by a fungus. It attacks the bark, producing lesions that ultimately girdle and kill the tree.

Predicting This Weeks Games

by Wayne Cunningham

THE GAME OF THE WEEK ON THE PLAINS

LITTLEFIELD — LEVELLAND: Two very good lines. Levelland's is heavier with same speed and timing as Wildcats. Two top scoring teams with the slightest edge to Littlefield (or Mayfield, we should say). Levelland's backfield has the edge in speed but the Wildcats have the edge in deception. (Howard, Davis, Orr) variety and old reliable (clayton and Vaughn).

Both teams will make at least 4 touchdowns but we'll have to pick (for the sake of our average in the writer's league) Levelland by one touchdown. Let's give Freeman (quarterback) the edge with his super passing and the Wildcats slight weakness in the defense of good passing. **LITTLEFIELD 27, LEVELLAND (Boo-Hoo) 33.**

OLTON-SLATON. Coach Turner and a sports wild town will keep the State clean here, even without Alcorn. **OLTON.**

SPRINGLAKE-MEADOW. Last year's broncos will give the Wolves a scare before their "down-to-earth" fans. **SPRINGLAKE.**

AMHERST-OPEN. The Amherst Bulldogs will win this open date (joke). The good rest will be taken advantage of against Lockney next week.

SUDAN-MORTON. The Hornets will sting again. But who'll be the star? District 2-A is stronger than District 4-A and Sudan will prove it. IF, IF the Sudan fans go over to add the enthusiasm the Hornets need for this game Sudan will win. **SUDAN.**

ANTON-LORENZO. Even Stephen with Lorenzo having the slight edge. **ANTON.**

SPADE - SOUTHLAND. We'll take a scoop here with Spade.

TEXAS TECH - WEST TEXAS STATE. If Tech opened the big guns all the way they would revenge that West Texas State upset over them several years ago when Gene Mayfield was quarterback of the Canyon club. The score would be over 60. However, Weaver is working for tomorrow as well as today. He'll let Kirkpatrick and Johnson sow it up in second quarter and Littlefield's M. C. Northam will lead out the second half and show what's coming up at Tech the next two years. **TECH 47, WT STATE 13.**

TEXAS - NOTRE DAME. For the first time in Ed Price's administration of the big Austin machine, the Longhorns are very, very strong at the opening of the season. Notre Dame is highly over-rated above Southwest Conference teams. If it isn't freezing up at South Bend, Texas will really surprise the nation with 2 touchdowns extra. I'll say **TEXAS 27, NOTRE DAME 21.**

LAST WEEK

I missed one out of seven. The Muleshoe - Sudan game. The Hornets were a little too self-confident so I helped Coach Smith by raking my 100 percent average of predictions in making his team the underdogs. (This is a poor excuse, isn't it Francis?). I'm sticking with the Hornets, hereafter until they hit Dimmitt.

Olton and Morton almost got my score on them. I chose 32-6. It was Olton with 33-6. Littlefield made a fool out of my prediction with them over Hereford 26-21. They won 40-13. Boys, you can make a real genuine fool out of me against Levelland, please.

football, especially for the Cotton Bowl. Playing in that stadium over a period of eight years he has performed before more than 1,000,000 fans both as a collegian and as a pro appearing in the annual exhibition game promoted by the Dallas Salesmanship Club. There's going to be a big fall-off in attendance at the Cotton Bowl when the Doaker becomes a spectator.

Mr. and Mrs. Albert Odell's daughter and family spent Sunday with them. They are Mr. and Mrs. Doyle Dean Stuart and Rita Ann and Wanda Jean of Floydada.

react to the defensive end accordingly. When the end came after him, he lateraled to Rabbit. When he backed off he struck out for the needed yards. When the half-back on defense covered potential receiver Rabbit ran and when he started for Rabbit, he passed. I love this low option play. It gives the quarterback the option and even after that it gives the halfback another option. It is the spectators game again and still the players can have all the deceptive they won't on the field.

The fans love that option play. Listen to them yell, just as soon as Howard takes the ball from center and starts down the back of his right side of the line. Fans see what is going on and can also see the potentialities coming up if a defensive player deciphers the play and threatens to bottle it for a loss.

RECRUITING GETS MY O.K. Some non-athletic sport - hating prunes try to run down the emphasis on sports in America. Ask the big armed forces instructors about the value of American athletic programs in high schools, communities and sand lots to a nation which suddenly finds itself at war.

The physical build-up through sports and the coordination developed in sports makes American men real fighting men when a war comes. In the last war they out-manuevered Jap Zeros with ancient equipment the first year of war. They out-shot with rifles, out-jungled enemy veterans and on the water with the PT boats made a whole Jap navy look sick. Top military men have repeatedly commented upon the American competitive spirit that becomes invaluable, even in war.

TAKE MY BOYS, COACHES I'm personally a believer in football as an aid to character building. Now, basketball and track were my sports, so you see I'm not just singing out a favorite in football. However, I've repeatedly seen the value of football in the lives of young men. Don't take away or de-emphasize a thing (football) that has so much educational value for our children today. (Don't take away our fan-recreation, either).

In football, boys learn cooperation, submission to authority, and learn to really work hard for a chance to play (go watch those kids sweat it out for hours, if you think it is all play). They learn to take the hard knocks, blows and losses with a grin instead of retaliating illegally. Football builds men that are men.

BAD ON HEARTS The old-fashioned idea of the athlete's heart enlarging and later becoming flabby, etc. is taboo today with the scientists. With normal heart, the specialists say, there is never any after effect of (so-called) over doing in sports. I submit to you the books and articles by a top heart specialist,

Dr. Cureton of Illinois University. He ran a good article in the new SPORTS ILLUSTRATED recently on the killing type of hard training of such athletes as Roger Bannister. Bannister ran and exercised himself to the point of exhaustion and sometimes torture daily for a couple years. He not only became the first man to run the mile in less than 4 minutes but is unusually healthy today. He'll no doubt live to a ripe old age like the 26 mile marathon runners who torture their hearts and lungs.

It is much harder on the heart being a fan, eating hot dogs, sipping drinks (coke and oranges) and watching the exciting Wildcats from the stands. They tell me the coaching business is the hardest on the stomach (ulcers, you know) and bring heart-trouble in middle age. Mayfield already gets that ulcer look the day before games. If anyone finds a bar of Grandmother's lye soap, bring it in and we'll get our coach to eat it. Then he'll have the cleanest ulcers in the land.

An Experiment in Grade Teams For me, I'd love a football team

for every grade. This subject prompts arguments. Lynchburg, Va., began ten years ago on a build-up program. They got a top coach from the big high school power in North Carolina, Central at Charlotte.

This coach began a program with schools and local civic organizations cooperating. The athletic department of the school provided equipment for teams in every grade. The city built fields and basketball courts all over town so kids could play every afternoon, and all summer long. The civic organizations hired playground supervisors to take care of the balls, nets, etc. These supervisors let the boys in the town of 65,000 people have equipment at any time and taught them to take care of it.

Lynchburg never won state championships. It never had big strong teams in football or basketball. Now for the last four years the E. C. Glass High School of Lynchburg, Va., is a state championship contender year after year in football, basketball, track and tennis.

They don't always win but they always have contenders and the kids of that city don't have to be ashamed of their town because they recruit in the modern way.

Does Football Hurt Grade Schoolers?

This city-wide experiment in Virginia has proven successful in combating the juvenile delinquency problem. In 10 years the records show a 201 percent decline in the juvenile arrests, a 74 percent increase in percentage of boys staying in school, and so on the figures go in that city.

The argument of harm to the grade-school boys' health can still go. Naturally they have injuries of the arm, leg and ankle nature. But in ten years there has not been a permanent injury in all the football teams from one through the varsity.

The head coach of the high school continually insists upon good equipment and uniforms, sound fundamentals and getting into shape. He contends these cut down injuries. There was no fatal accident on

a tennis court from a little girl chasing a ball out onto the court. A tennis racket cracked her skull. But, you know, there are freak accidents everywhere.

HERSCHS MOVE HERE Mr. and Mrs. Mac Hersch of Los Angeles, Calif., have moved to Littlefield where they will be associated with Replin's department store. Mrs. Hersch is the former Celia Replin, sister of Mrs. Dan Berg. Berg is manager of Replin's.

THIS NEW OPTION

For ten years I have been sitting in the stands not knowing what is going on out there on the field. I finally discovered who was carrying the ball when the referee unpiled the players with the ball dead. It took me about ten years to discover who had the ball.

Here is how I learned how to enjoy a deceptive "T" formation football with all the ball handling under cover from the stands. I took my portable to the game and listened to Lloyd Spencer (who knew the game and saw what I couldn't). As I listened and watched, I got a little out of the game.

Now, this year, the Split "T" specialty begun by Fargot of Missouri and perfected by the top coach of the nation today, Wilkinson of Oklahoma, is bringing the ball out for the public to see. I watched the Clovis, Tahoka and Hereford games. I saw the ball and the carrier. I watched Howard head for right end and

YARBROUGH TO SPEAK

Jack Yarbrough, president of the Lamb County Farm Bureau, was one of two county FB presidents named to participate in a statewide radio broadcast which will be heard over KVDH at 12:30 p. m. Sunday as the regular Farm Bureau meeting.

Yarbrough will discuss the outstanding achievements of the Lamb County Farm Bureau. Also participating in the broadcast is the Terry county Farm Bureau.

STAY MUSCLES IN ON HOG HEAVEN—David Wimberley, farmer northeast of Kress, Texas, believes in furnishing his hogs the best in cool comfort . . . an air conditioned barn. The hogs thoroughly enjoy it, usually pile up in front of the air outlet. Old Red, the milk cow, can't see the point of letting all that cool air go to waste, so she muscles in on the hogs' heaven. Carter is a government employee in Cairo, Egypt. He was accompanied there by Mrs. Carter and their son, Jimmy.

Describing the country to the boys, "The climate is beautiful—about 80 degrees at 1 p. m. and 94 at night. This is a country of great contrast—desert—then three built up cities, very rich people here, and lots of very poor people. They all look well but though they are some of the poorest buildings in the world here—then in the country, houses, barns, etc. are built on wooden poles, and they are very poor."

The Carters will visit 60 or so miles on the Nile, 100 miles, and 1/2 mile wide and 2 miles long, in

Upside-Down Cake Fills Bill for Money Saving

UPSIDE-DOWN COFFEE CAKE with pineapple and cherry layer.

By CECILY BROWNSTONE
 Associated Press Food Editor

WHEN MONEY-SAVING plans make layer cakes with cream fillings and rich frostings taboo, call on quick breads. There's something about such a bread, fresh from the oven, that pleases men as well as women.

UPSIDE-DOWN COFFEE CAKE
Ingredients: 1/2 cup butter or margarine (melted), 1/2 cup firmly-packed brown sugar, 1/2 teaspoon cinnamon, one 9-ounce can crushed pineapple (drained), 9 maraschino cherries (quartered), 1 cup sifted flour, 1/2 teaspoon baking powder, 2 tablespoons sugar, 1/4 teaspoon salt, 1 cup corn meal, 1 egg (beaten), 1/4 cup butter or margarine (melted), 1 cup milk.
Method: Mix 1/2 cup melted butter, brown sugar and cinnamon spread in bottom of a 9-inch round layer or an 8-inch square cake pan. Sprinkle evenly with pineapple and cherries. To make batter, sift flour, baking powder, sugar and salt together. Mix in corn meal thoroughly. Mix beaten egg, 1/2 cup melted butter and milk, add to dry ingredients; stir only until dry ingredients are well moistened. Pour over pineapple and Lake in a moderate (375F.) oven, 30 to 35 minutes.

CALVES SELL DOLLAR ABOVE LAST SEPTEMBER

FORT WORTH — Just a year ago this week the calf market was at its lowest ebb in years. There was virtually no stocker trade in calves and yearlings, with the heavy September receipts of 1953 moving largely into packer channels.

The break in calf prices of around 50 cents per hundred at Fort Worth Monday, with some spots on medium kinds of stockers around 30 cents to \$1 per hundred lower, still left prices far ahead of a year ago on calves.

On Monday good and choice slaughter calves brought \$14 to \$17, and a year ago on September 24th, good and choice slaughter calves were quoted at \$11 to \$14.50, few above \$13.50. Cull, common and medium slaughter calves Monday sold from \$8 to \$13.50, and a year ago at this time drew \$6 to \$11.

Stocker and feeder calves hopped at \$16 to \$17 a year ago as against \$18.50 to \$19.50 at Fort Worth Monday. Steer yearlings at \$15 to \$15.50 a year ago, compared with \$16 to \$18 Monday.

Fat steers enjoy a better market than a year ago at this same date, but cows and heifers are not selling as well. Good and choice fat steers and yearlings at \$17 to \$23 at mid-September of 1953, compared with \$19 to \$24 at this time. Common and medium grades at \$17 to \$15 a year ago compare with cattle sold this week at \$10 to \$18.50.

Fat cows a year ago drew \$9.50 to \$11, and this week at Fort Worth sold at \$8.50 to \$12.50, while common and cullers a year ago drew \$5 to \$9.50, and cullers sell from \$3 to \$9, with some shells carriers under \$5.

Bulls sold at Fort Worth a year ago from \$8 to \$11, and Monday drew \$8 to \$12, a year \$12.50.

Monday's trade at Fort Worth saw fat steers and yearlings

SUMMER BREAKFAST FOODS

Golden brown slices of French Toast, strips of crisp bacon and delicious cups of hot coffee. There are foods to make a tempting summer breakfast—a proud offering for family and guests. The French Toast is made of enriched yeast-raised bread, of course, and is garnished with whole fresh strawberries dusted with powdered sugar. Use other berries in season for tasty variations.

Here's a recipe for French Toast—just to make getting breakfast that much easier:

French Toast
 (3 servings—double the recipe for 6 servings)
 2 eggs 1/2 teaspoon salt
 1/2 cup milk 2 tablespoons confectioners' sugar
 6 slices enriched yeast-raised bread

Combine eggs, milk, salt and sugar; beat slightly with a fork. Place buttered skillet over medium heat or heat griddle. One at a time, dip bread slices into egg mixture, turning them to coat both sides. Brown on both sides. Garnish with fresh strawberries. Serve piping hot with warm syrup. Makes 3 servings—2 slices toast per serving.

West Plains Baptist Meet At Muleshoe Church Thursday

The twenty-seventh Annual Session of the West Plains Baptist Association was held at the Muleshoe First Baptist church last Thursday.

The opening song service was directed by Ernest Hock of Littlefield and the scripture and prayer were led by Albert Coleman. The program on Brotherhood was led by Homer Morris and Rev. Wayne Perry was in charge of the Training Union portion of the morning program. Hock led the discussion of the Sunday School, and Mrs. Jim Edwards was in charge of the W. M. U. program. A Co-Operative program was directed by Dr. H. A. Haswell of Dallas.

The annual sermon was presented by Charles Vanlindingham.

The early afternoon session was devoted to W. M. U. and executive board meetings and the business session. Scripture and prayer was led by Rev. W. F. Smith. Robert Smith led the program on Mexican Missions, Dr. Lee Hemphill on Christian literature, Ernest Hock on Church Music, and E. K. Shepherd on Civic Righteousness. John Williams and Jim Green were in charge of resolutions.

The memorial program was directed by Mrs. H. J. Barker.

**Sardines Meuniere Yield
Robust Portions for Two**

A FRENCH DISH—Sardines with capers and brown butter.

COOKING FOR TWO? Then try this luncheon or supper dish when you are short on time. A handy can of Norway sardines goes into it along with a buffet can of small white potatoes. It makes robust servings—so there will be no complaint from your groom that you are not feeding him well!

SARDINES MEUNIERE

Ingredients: One 3¼-ounce can Norway sardines, 2 tablespoons butter or margarine, 4 slices of lemon (peeled), 1½ teaspoons minced parsley, 1 teaspoon lemon juice, 1 tablespoon capers, small canned potatoes (heated).
Method: Drain oil from sardines. Heat carefully in 1 tablespoon of the butter. Arrange lemon slices in shallow serving dish; sprinkle with parsley. Arrange sardines on top and sprinkle with lemon juice and capers. Place remaining tablespoon of butter in skillet; heat until light brown; pour over capers. Arrange heated potatoes at ends of dish. Serve very hot. Makes 2 generous servings.

**What To Expect From
Your Child's School**

By Dorothy V. Whipple, M. D.

In the olden days when John and Mary reached their sixth birthday they were packed off to school. They were supposed to learn how to read, write and figure. Nobody expected a school to do more than put a few facts into John's and Mary's heads.

But nowadays we know that the learning of facts is quite likely the least important of all the things that happen at school.

A school is the first place-away from home where a youngster has to get along with other people besides his family.

Getting along with people is tremendously important. All through life we have to live with others. The man or woman who is easy and pleasant, who is neither a door-mat, nor yet a pugilist, is the one who is going to have a full life. These qualities of personality make for good relations and promotions on the job. They also make for good marriages and a good home life.

Some youngsters come to first grade well prepared to walk into group life. Bill was a happy outgoing little fellow. He thought first grade was swell. He liked his teacher; it was great to have a whole lot of kids to play with, and "Gee, Mom, we played baseball at recess today."

Bill is all right. We wish all first graders were like him. But unfortunately they are not.

Harry was a timid soul. He clung to his mother's hand, didn't want to go into the classroom. Once there he tucked his thumb into his mouth and just watched. He couldn't be induced to play with the other children nor did he seem to understand when the teacher talked to him.

Irene was very different from Harry. She was a little show-off. She grabbed a doll from another child, shouting, "Let me have it; I know how it works." Wherever Irene went around the school, there went trouble too. Irene was forever interfering with other children because she said she "knew

TASTY SCOTCH CRISPIES

There is no more popular spot in the house than the cookie box, so make sure yours is always full and ready for snacking. Children and grownups, too, will love to raid a cookie box filled with these crunchy, delicious Scotch Crispies.

Ingredients: 2 cups sifted flour, ½ teaspoon soda, ½ teaspoon cream of tartar, ¼ teaspoon salt, ½ cup margarine, 1 cup brown sugar, 1 egg, ½ teaspoon vanilla extract, ½ cup chopped peanuts.

Sift together flour, soda, cream of tartar, and salt. Cream margarine until fluffy. Gradually add brown sugar, creaming until smooth. Add egg and vanilla extract. Beat well. Mix in flour, a fourth at a time. Fold in peanuts. Shape into rolls and wrap in waxed paper. Chill until very firm. Slice ¼-inch thick and bake on ungreased baking sheets in moderately hot oven (400° F.) 8 to 10 minutes.

how to do it better." There are many other types of first graders who find adjustment to school difficult.

By the time a child is 6, the traditional time to enter first grade, he already has formed some pretty definite behavior patterns.

Nowadays we think that earlier experiences in meeting the world outside the family helps in preventing some of these troublesome personality traits. So it's becoming more and more custom-

ary to send children to nursery school and kindergarten. Some children need this pre-school experience a lot more than others do. An only child, especially if he lives where there are few children of his own age needs to have some group give and take before he is 6. Any child who is shy and timid, or aggressive and bossy, or whiny and sulky will profit by a

year or two in a good school—not just a parking place for children. Nursery school is an important educational experience and should be selected with the child's needs in mind.

The homemaker who wants to "boss" her daily tasks, such as cooking and clothes-washing and drying, rather than having the tasks boss her, wants to use automatic electric appliances. See your Reddy Kilowatt Dealer now and find the electric appliance that will bring you homemaking freedom.

"I am a graduate home economist as well as a busy homemaker, and I really appreciate the value of electric appliances in saving time with everyday homemaking. I have owned my electric clothes dryer just a few months, but I've had time to appreciate the freedom which it gives me to enjoy my home and my family."

"I love to cook, and I chose electric cooking when we built our new home. We do a lot of entertaining, and I chose the two separate ovens in order to bake and broil at the same time for my guests."

"My washer and dryer give me more time for preparing food and the other things I enjoy doing. Convenience—and time-saving—just naturally follow when you use electric appliances."

"My laundry is so soft, even better than when drying in the sun. I often do my laundry after the children have gone to bed. Electric service lets me do my laundry at any hour, day or night."

It has not been easy for me to make up my mind to accept the challenge to cite a favorite Bible verse and tell why. Versification of scripture, I verily believe, was a device of the Devil to obscure the larger truth.

However, there is undoubtedly great good to be done by encouraging readers to take even homeopathic doses of Holy Writ. It may be good for what ails us all.

Here is an idea whose time has come, in the words of Jesus: "Holy Father, keep them in Thy name which Thou hast given Me, that they may be one, even as we are one." (John 17: 11 RSV)

This plea to God by his Son is worthy, yes, compelling of thought, because:

1. It issued from the heart of the True Head of the church.
2. It points up the basic condition on which that church may hope to succeed in its mission.
3. It reveals Jesus' resource for power—prayer.
4. It challenges current denominationalism, for this eddying sectarianism diverts power from the central current of Christian effort.
5. The implementation of this single petition of our Lord would subdue a warring world and bring the dawn of peace.

THE BIBLE SPEAKS

BY DR. KENNETH J. FOREMAN

Living Witness

Lesson for September 26, 1954

"AGAINST the Stream" is the title of a recent book by Karl Barth. The title means to suggest that Christian living has to be against the stream of a great deal of what the world thinks and admires. Many people think that Christian faith simply helps a man to do better what everybody in the world wants to do. Men want success, money, power, prestige, and "being a Christian helps one to get these things faster. No, that is not it. When Christ comes into a life, that life will not have the same aims as before. The Christian does not swim with the world-stream, only faster. He has to swim upstream.

Dr. Foreman

Redeeming the World
What a Christian is and does is determined both by the kind of world we see around us, and the kind of God we have above us and in us. If it were a different world, or a different God, our tasks would no doubt be different. As we look at the world, we can see two facts about it which are pretty unpleasant, but true. Poets and policemen know these things are true, even if a lot of us try to dodge the facts. One is: the world is flat and tasteless, especially strange as it may seem to the very persons who try their hardest to "get a kick" out of life. The other is: the world is decadent, which is a polite word for rotten. (The Bible word is corrupt, which means the same thing.) In such a world Christians are called on to be different. Jesus' words about salt and light will always be remembered by Christians. They are expected to give taste and zest to a stale world; to keep a rotting world from decaying entirely. As light, they are to bring to the world what

sunlight does to dark cold places. Christians are to share in God's work of redeeming the world, just by being different from the world, not merely different, like sand in the soup, but savingly different, like salt.

God's Attack on Man
A crank-sided philosopher once called Christianity God's "attack on man." That is both a long way from the truth, and close to it, depending on how you take it. It is a long way from the truth that God so loved the world that he gave his only Son; a long way from the prophet's saying that God desires not the death of the wicked, but rather that he shall turn from his way and live (Ezekiel 33:11). Christianity is all that happens when God comes to the rescue of man. On the other hand, there is something in man that God does have to attack. When a swimmer starts to drown and the lifesaver goes in after him, one of the first things the lifesaver may have to do is to knock the fellow out. A drowning man will fight his rescuer and sometimes only a knock-out will save him. Now the world that is to say the world outside of God is a hostile world. It carries on a kind of war against God. It does not ask for help, it is proud, self-satisfied. It always associates God with what is unpleasant or cruel, such as death or disaster. God does have to attack man's pride, his self-satisfaction, his mental slandering of God himself. God does not need to be reconciled to man, but man does need to be reconciled to God. So the business of the Christian is to give testimony to this. As Paul puts it, the Christian is an ambassador for Christ, a messenger of reconciliation.

When Love Controls
So the Christian is expected to be a living witness, both in what he is and in what he says. Could a real Christian be perfectly content with being "saved" himself without worrying over other people in the least? If ever there had been a generation of such self-centered "Christians," our religion would have died out. One thing is certain: as a witness, no one is convincing if his attitude to his lost contemporaries is one of scorn. The effective witness, in word or in life, comes from the heart moved by the same compassion that only Jesus fully had, and only he can inspire. The growing Christians, the contagious Christians, the witnessing Christians, have always been those who could say as Paul did: The love of Christ controls us.

Orange Raisin Coffee Cake

Broadcast September 18, 1954

1/4 cup brown sugar 1 teaspoon salt
1 teaspoon cinnamon 1/2 cup water
1/2 cup soft shortening 1/2 cup soft butter
1 1/2 Tablespoons margarine 1/2 cup vanilla
1/2 cup finely cut raisins
2 1/2 teaspoons grated orange rind 1/2 cup milk
3 cups sifted flour 1/2 cup orange juice
4 1/2 teaspoons baking powder 1/2 cup orange juice
1/2 cup orange juice 1/2 cup orange juice
3 Tablespoons water

Mix with fork until crumbly the brown sugar, cinnamon, butter and 1/2 teaspoon grated orange rind. Let stand. Stir into a 2 1/2 quart bowl the flour, baking powder, salt and sugar. Work in with fork the shortening and 1 1/2 teaspoons orange rind. Add raisins and nuts. Stir in quickly a mixture of beaten eggs, milk, orange juice and water. Spread batter to the very edge of a well greased 9-inch square pan. Sprinkle crumb mixture over top. Bake on rack slightly below center of 425 oven (very hot) about 25 minutes or until cake pulls from sides of pan. Serve warm or cold.

MRS. BROYLES

Mrs. Broyles Has Successful Home Business In Sewing And Sidelines

by Evelyn M. Scott

DAN—"One stop does it" is certainly true in the case of Mrs. F. C. Broyles, Sudan street.

Broyles has combined the talents of resourcefulness and hard work to form a recipe for a comfortable living within the four walls of home. Her case filled with cosmetic added feature of Mrs. Broyles' sewing room. While waiting for a button to be covered one of the fifty styles Mrs. Broyles uses — or for the finishes put on a new frock — a customer may try out the latest lipstick. And if she can't live without it, she'll buy it here. Broyles' sewing room is equipped with thread cabinet, button and needle covering machine and the latest conveniences used in modern seamstress.

customer may browse in the "All-Occasion" greeter Mrs. Broyles keeps for sale. Or if she wishes, she can settle down in an easy chair while inspecting the show room filled with infants wear in a sewing room. Among items for sale is the B-29 Bomber diaper.

These are just ways to earn money. My sewing is my source of income," states Broyles, whose modern electric sewing machine makes differences simply by turning a dial. When speaking of her sewing machine, she says, "It does everything. Sometimes it even tries to

her cosmetics sales, she once had an order overseas to a man's wife in Germany. Recently she had a young active father in to buy items for Infant's Wear.

Operating a business is nothing new to Mrs. Broyles, who with her husband, the late F. C. Broyles, was one of Sudan's pioneer business people. The Broyles family moved to Sudan in 1925 when they opened a grocery store here.

TOSKEY, Mich. (AP) -- Roy Brubaker imported 600 farm workers from Phoenix to help him with his 1954 crop. The farm hands were brought and came by plane. Brubaker figured each lady bug would eat 45 insects a day and pay at the rate of 15-to-1 the first 15 days. They eat aphids, lygus, flea hoppers, small beetles and their eggs.

Are American women the luckiest women in the world?"

One hot morning recently, we went to a meeting with several of these so-called lucky ladies.

We were to help with a club project. Many of them were pretty and vivacious and young; all were energetic and pleasant. Before we left, each had agreed to make one radio appearance, attend two evening rehearsals, make at least three trips downtown "arranging," and then give one full day to the project — all within two weeks.

It was the day the public schools opened, so most of the women had to "run by" the school after our meeting, to enroll Jackie or Sue or Bill. After that, one was off to lunch and bridge. Then she would "run by" the grocery store to buy food to cook for a church supper that night.

One woman had gotten an early start — she took her first grader to school before coming to the meeting. Her car was stacked high with tables and chairs for a bridal supper she was giving that night.

Some were dashing off with their husbands for a football weekend downstate. Some were having birthday parties for children, mamas, nieces. They were going to P-T-A, the beauty shop, the church. All in all, they were knocking

school patrols and traffic signs and signals.

2. Observe the rules learned in school about crossing streets safely and playing only in safe places.

3. When going to and from school, take the safest route.

4. If there are no sidewalks, walk on the left side of the road facing traffic.

5. Never use roller skates, tricycles, wagons or scooters in the street or road. They are for the sidewalk only.

6. When you ride a bike take the following safety precautions:

a. Ride with traffic and keep to the far right.

b. Never weave or stunt. Ride in a straight line.

c. When riding with others, ride in single file.

d. Don't carry passengers on your bike. Carry books and packages in a carrier.

e. In traffic obey all signs, signals and traffic laws.

f. Never hitch on to a passing truck, street car, automobile or any vehicle.

g. If you must ride at night, have a good light and rear reflector.

h. Keep your bicycle in good mechanical condition at all times.

Safety Rules For Young Pedestrians

"Cross a street on careful feet." This should be the watchword of boys and girls who want to be safe in traffic. Col. E. B. Tilley of Houston, President of the Texas Safety Association, and Services Advisor for the Gulf Oil Corporation told the children of Texas today.

He was speaking in connection with the traffic safety program, Child Safety, which is being sponsored in Texas by the Texas Safety Association, the Texas Department of Public Safety and the National Safety Council.

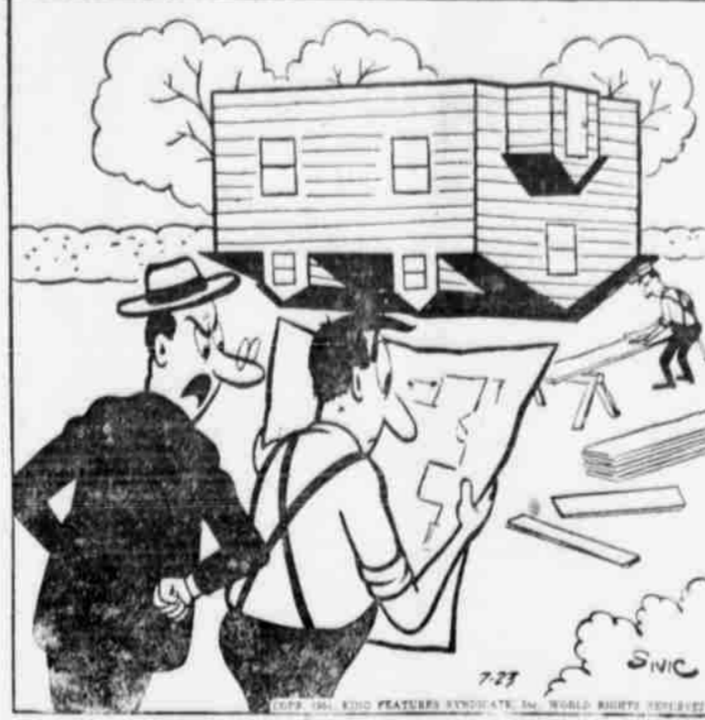

He told children that they can do a lot to prevent accidents on the nation's streets and highways by following safety rules.

"A driver who has to dodge a careless child may hit another car or a building, and cause a bad accident," Col. Tilley said. "Also, motorists sometimes can't avoid hitting a child who runs into the street unexpectedly, or rides a bicycle in an unsafe manner."

He listed the following safety rules for children to follow in traffic:

1. Obey all traffic officers,

Grace and Faith

By TOMMY WILLIAMS, Minister

Two words used in the New Testament when understood in their broadest meaning, cover the entire field of justification — both the divine side and the human side. These words are GRACE and FAITH.

We are "justified freely by his GRACE through the redemption that is in Christ Jesus" (Romans 3:24). But again, "being justified by FAITH, we have peace with God through our Lord Christ" (Romans 5:1).

God's grace is his unmerited favor toward man. However, the word, grace, is used to include not only the attitude of favor, but also all God has done as an expression of grace . . . the giving of his Son, the Bible and many other things.

As GRACE includes the activities of God which grow out of his favor to man, so

FAITH includes the activities of man which grow out of his belief. Grace, without being manifested in action on the part of God would not justify man. Neither would man's faith without activity on part of man. Hence, there is no conflict in the Bible in those passages of scripture which teach we are justified by faith and those which call us to obedience to the word of God. It is this obedient, active faith which justifies.

Such obedient faith does not earn our justification. There is no way that we can merit salvation. It is "not of works lest any man should boast." Obedient faith is simply the ground upon which God has promised to save by his grace.

You'll always be glad you bought a Chevrolet

(and now's a great time to buy one)

Isn't it great to hum along the highway in a car fresh out of the showroom? But how long will that new car pride and pleasure last? This is why it lasts longer if you buy a new Chevrolet . . . and why right now is such a smart time to buy one.

You'll stay proud of Chevrolet's lasting good looks
You won't find another low-priced car with the look of quality you see in Chevrolet. And if you like Chevrolet's looks now, you'll like its looks always. For there's fine design in those clean and smoothly curved lines (nothing "boxy" about Chevrolet!). Fine design like this, you know, always wears well—never really goes out of style.

You'll enjoy exclusive features for finer motoring
Chevrolet quality runs deep. There's more

pride for you in the only low-priced car with the finer materials and workmanship of Body by Fisher. There's more fun for you in the highest-compression power of any leading low-priced car. (Higher compression means more ginger in the going and more miles out of the gas.) There's more safety for you in the biggest brakes and the only full-length box-girder frame in the low-price field. And there's more comfort for you in Chevrolet's smoother, softer Unitized Knee-Action ride. Down to the last detail, Chevrolet's more finely built . . . it's even the only car in its field with Safety Plate Glass in all windows of sedans and coupes!

You save when you buy and when you trade
Even so, Chevrolet is priced below all other lines of cars. (That's possible because Chev-

rolet builds the most, and can build 'em better to sell for less.) And at trade-in time, you'll be ahead again from Chevrolet's traditionally higher resale value.

You'll get a special deal right now
Right now, we're in a position to give you the deal of the year on a new Chevrolet. Come in and let us show you how much you'll gain by buying now!

Now's the time to buy!
Get our big deal! Enjoy a new . . .

Accident Toll Running Ahead

AUSTIN, Sept. — The Executive Secretary of the Game and Fish Commission said the accident toll for the 1954 hunting season was running ahead of the record for the 1953 season.

Reports showed four fatalities compared with 19 deaths from fire-arms for all of Texas throughout the entire state during the 1953 wildlife harvest.

Two of the deaths involved mourning dove hunters, who came out in force for the north zone opener on September 1.

One hunter was killed by his shotgun when he stumbled. Another, a 12-year-old boy, died instantly when struck in the head at close range by a shotgun held by his 19-year-old brother.

In the other hunting deaths: A West Texas rancher was killed as he pulled his shotgun toward himself, muzzle first.

A Central Texas boy, age nine years, was fatally wounded while squirrel hunting when a rifle held by his brother-in-law was accidentally discharged.

Another death involved a South Texas hunter whose gun fell and was discharged as he went target shooting with his young son.

The Executive Secretary said actual game shooting results in the north dove zone were "generally satisfactory." He said reports

not open until December. Some arrests have been made for hunting doves in the South Zone where the season does not open until October 1.

Hunters were counseled by the Executive Secretary to be very careful when hunting in pastures, so that shotgun pellets do not injure livestock.

Carelessness in this respect, he suggested, could have a negative effect on farmer-hunter relations.

"The average hunter knows all about this," said the Executive Secretary, "but some inexperienced gamblers get excited and let go without intending to harm any stock. But if the animals are injured, it leaves a very bad impression on the landowner."

Spade Homecoming Slated Sept. 25

SPADE — The Senior class is sponsoring a homecoming for all students, ex-students, teachers and ex-teachers and their families of the Spade school.

It will be held Sat. Sept. 25 at the school building. A pep rally will be held at 5:30 p. m. followed by a barbecue supper at \$1.00 per plate. The football boys will play New Home at 7:30 p. m.

Partnership

... means a joint interest. But in family life it means more than that. It means planning together, working together, going together and doing together... It means sharing the finer things of life. The husband is to love his wife as Christ loved the church. The wife is to be devoted to her husband as the church to Christ. It takes more than thrills in courtship to avoid spills in marriage. Be he governor or gravel shoveller, he is happiest who finds his happiness in his home and in his church. This is proof of a truly great partnership.

Texans In Washington

WASHINGTON, Sept. 23.—W. L. (Bob) Poage of Waco, back from the Interparliamentary Union meeting in Vienna, reports the United States is running a sad second to Russia in propaganda competition.

"They try to put us on the spot every time possible," he said, "and unfortunately a lot of Europeans and Asians fall for their stuff."

He cited various ways in which he said the Soviet focuses the spotlight on its own virtues and on the faults of America and other free nations.

"Through three Iron Curtain countries which sent delegates to the Vienna conference—Hungary, Bulgaria and Poland—they preached the possibility of peaceful co-existence and accused us of warmongering," Poage reported.

The Russians capitalize on the natural attraction of fanfare to create goodwill toward themselves, the Texan said. In this connection he recalled a scene he witnessed when the United States gave up its turn over administra-

tion of Vienna in accordance with schedules set up at the end of World War II.

"Every four months the U. S. and Russia have their turns to control Vienna, which is situated within Russian-controlled Austria," Poage continued.

"About 50,000 people were gathered in the big square before the old Hapsburg Palace to watch the ceremonies. The Russians flew in a magnificent band from Moscow, dressed in brilliant red uniforms with all the trimmings and beautiful shining metal instruments. Our boys looked first in comparison."

"The Austrians are anti-communists and sympathize with our position, but they admired the Russian show. That's a regular quarterly procedure. I was told we ought to put on a good act or quit competing in such fanfare."

For several years an American delegate to the Interparliamentary Union, Poage said he found that the closer one went to the Iron Curtain the less jittery the people seemed to be over the prospects of a third World War.

He attributed this to two main reasons:

1. They have accepted as truth much Soviet friendship propaganda, lacking the full facts be-

cause of censorship.

2. They feel that if wholesale war breaks out Russia won't bother to drop atomic bombs on them—that the target will be the United States in the belief that England and the Continent will fall easily if America is prostrated.

Poage couldn't conjure any bright picture for the future. But he didn't forecast any outbreak of open warfare.

"I'm afraid this cold war will continue for a long time to come," he said.

"Russia will continue to shoot down our planes or take other aggressive steps whenever they feel they can do so, just short of war. I don't believe their leaders want war, but they are willing to take risks to increase Russia's strength and power by embarrassing the United States everywhere possible."

Poage expressed the opinion the United States should draw certain lines or limits beyond which it will not yield and firmly serve such notice of Russia. He said he believes a firm position now should be expressed in regard to southeast

What Does It Cost You To Run Water In An Open Ditch?

By W. L. Broadhurst

On July 8 and 9, 1954, a test was made on the Joe D. Unfred farm near New Home in northwestern Lynn County to determine the loss resulting from running water in an open ditch from his irrigation wells to his field. Two wells were used in the study: well No. 1 is in the southwest corner of the quarter section and well No. 2 is 1,250 feet east of well No. 1. Water from the two wells was discharged into the ditch connecting the wells and was diverted from the ditch to a field at a point approximately midway between the wells. Sparing flow meters were used to measure the discharge from the wells. A Parshall flume, which was furnished by the Soil Conservation Service, and a two-foot rectangular weir were used to measure the discharge from the ditch to the field. The wells had been pumped 7 days and night, continuously into this same ditch before the test started.

Well No. 1 is equipped with a 6-inch deep-well turbine pump and well No. 2 is equipped with a 4-inch deep-well turbine pump. The pumps are driven by small Allis-Chalmers engines using butane for fuel.

Well No. 1 produced 250 gallons a minute. The motor used 2.5 gallons of butane per hour. At 8 cents a gallon, cost for butane was 20 cents per hour or \$4.80 for 24 hours.

Well No. 2 produced 185 gallons a minute. The motor used 2.18 gallons of butane per hour. At 8 cents a gallon, cost of butane was 17 1/2 cents per hour or \$4.20 per day. This unit also used one quart of motor oil at 35 cents a quart and one pint of drip oil at 5 cents per pint. Total cost for butane and oil was \$4.60 per day. One hundred and eighty-five gallons a minute for 1,440 minutes in a day is 265,200 gallons a day at a cost of \$4.60 equals 1.72 cents per thousand gallons.

The combined discharge of the two wells (250 and 185) was 435 gallons a minute. Four hundred and thirty-five gallons a minute times 1,440 minutes in a day is 625,400 gallons a day divided by 326,829 gallons in an acre-foot per day pumped. In other words, the pumpage from the two wells was sufficient to cover 1.92 acres to a depth of one foot.

The total flow from the 1,250 foot ditch at a point about midway between the wells was 366 gallons a minute. This indicated that evaporation and seepage loss from the ditch was 69 gallons a minute 5 1/2 gallons a minute for each 100 feet of ditch. Three hundred sixty-six gallons a minute times 1,440 minutes in a day is 525,040 gallons in a day divided by 326,829 gallons in an acre-foot equals 1.61 acre-feet per day delivered to the field. The difference between the amount pumped (1.92 acre-feet per day) and the amount delivered to the field (1.61 acre-feet per day) was 0.31 acre-foot. The loss from this 1,250 foot ditch was over 0.31 acre-foot every 24 hours.

The cost of butane and oil was \$9.80 per day to pump 1.92 acre-feet of water. The cost of pumping the 0.31 acre-foot that was lost was only \$1.58 per day, but in 120 days it would amount to \$189.60. This, however, is only an insignificant part of the loss.

Mr. Unfred reported that the two wells were pumped an average of 120 days a year. If each day he loses from this 1,250-foot ditch enough water to put 3 3/4 inches on one acre of land, in 120 days he will lose enough water to put 12 inches on 37.5 acres. If the cotton would net \$50.00 a bale, it means a loss of \$1,400 a year.

If we add the \$189.60 for butane and oil plus the \$1,400 we did not produce, plus the extra wear and tear on the equipment, plus the cost of maintaining the ditch plus the inconvenience of not being able to cultivate the field while the ditch is full of water, plus the additional time required to irrigate the field, the loss of 69 gal-

lons a minute from the mile of open ditch may be \$2,000 a year.

Wouldn't it mean extra in your pocket nation in your pocket and at the time conserve water, use if you would substituted distribution system in the open ditch?

Lou Little, coach of the Iowa University football team, an infantry captain during War I.

Farm Exports Up 36 Percent

COLLEGE STATION, Sept. 23.—Farm exports from the U. S. were 36 percent higher in June than in the same month last year.

It brought to \$2,932,000,000 the value of farm products shipped abroad for the year ending with June, says John G. McHenry, extension economist. This was four percent above last year.

Lower foreign stocks and higher competitive prices stimulated cotton exports which exceeded the level of a year earlier by a substantial margin. Cotton's large gain in the last half of 1953-54 was a primary factor in the increase for the year in total shipments.

Another bolstering factor were large shipments of peanuts, raisins,

This Week's "Player of the Week"

(Five dollars will be given to Al Chambers for this week's winning letter.)

Dear Sir:

My nomination for "Player of the Week" goes to Dan Howard for his superb play as the Split-T Quarterback of the Wildcats.

Dan's elusive ball handling kept the Hereford Whitefaces (and fans) wondering who had the ball. Dan's passing was great, as he completed 6 of 7 passes for over 150 yards. He also mixed the plays well, which kept the opponents off balance defensively.

The whole team played good, as they have shown improvement each week and I believe a word of credit should be given their fine coaches Gene Mayfield and Don Williams.

BS Council Builds Camp

The South Plains Boy Scout Council has an 80-acre tract of land 10 miles northeast of Silverton in Briscoe County awaiting development - awaiting the funds to pay for the development.

The tract is known as Camp Haynes, given to the 20-county South Plains Council in 1942 by the late John Haynes in memory of his mother. The camp is located in a huge canyon area, beautiful because of the roughness of the terrain and because of the contrasting coloring of trees and rocks. The Little Red River runs through the canyon and the Scout Council has a fine dam which has created an excellent water area for fishing and boating.

The camp will serve the boys of the Council as an advanced short-term, overnight and weekend camping area. The plans for development call for three developed Troop campsites, each capable of handling 36 Scouts and Leaders at a time.

But the development will depend on the success of the annual campaign for operating funds in the 20-county area in October and November. The total construction cost is estimated conservatively at \$7,000 at the campsite. This figure will be included in the Council's campaign for its regular operating budget this Fall. Total campaign goal, according to Joe T. Salem, President of the South Plains Council, is \$100,000.

W. R. Sewell of Lubbock is Chairman of the Council's Finance Committee; and Ray Mowery of Texas Tech is Chairman of the overall operating and capital development part of the entire program.

Each of the three developed Troop campsites will include a Troop Cabin 12 by 14 feet with cement floor, provisions for cooking and small meetings. The Troop Cabins will be built in a rustic style out of quarter logs, which will blend with the rugged environment.

An adirondack shelter 9 by 14 feet for winter camping purposes will be included on each Troop campsite. They will have concrete floors and will be constructed with quarter logs. Fireplaces for cooking and reflector heating will be on the open side of the shelter.

Troop washing and bathing and toilet facilities will be erected on each Troop campsite. The Troops will add, later on, flag poles and Council fire rings.

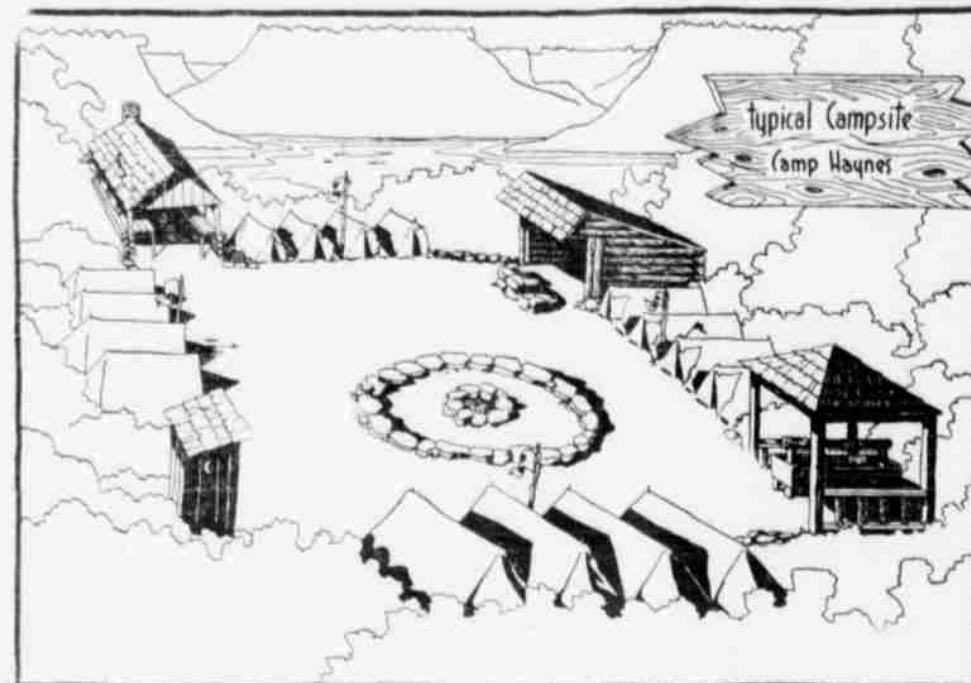

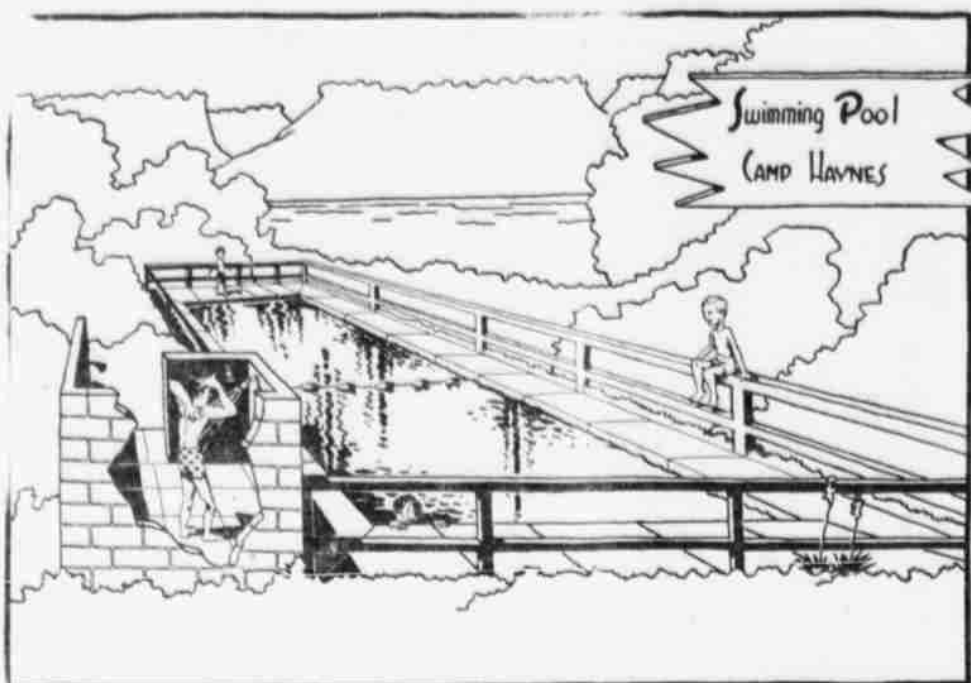

A large spring under a big cottonwood tree northeast of the dam has been boxed in cement. Water will be piped to an overhead storage tank to be chlorinated for drinking purposes. Pipes then will carry water to each Troop campsite. Water from the springs will also be diverted through pipe to the new concrete swimming pool. The swimming pool will be 20 to 30 feet with water flowing through it continuously. A four-foot stream of cement will form a walk completely around the pool. A terraced concrete fence will surround the wall that encloses the pool.

A 10 by 10 foot bath house for dressing and showering will be located on one corner of the pool at the shallow end. The bath house will be of concrete block construction. The depth will range from 3 to 7 feet. A 4-inch drain will provide the necessary drainage so that the floor and sides can be cleaned regularly.

An outdoor shelter 16 by 32 feet will provide an assembling area in case of a rain or for large gatherings and observations. It will have a pitched roof and a pitched roof on each side. Provisions will also be made for an up-to-date rifle range with 8 shooting stands and a field archery course.

THP Capt. Posey Summarizes Aug. Accident Report

Captain E. L. Posey, Commanding officer of the Texas Patrol District No. 6, today released the following summary of accidents investigated and all activity carried on by Highway Patrolmen under his command in the month of August 1951.

Twenty-five highway patrolmen investigated a total of 88 accidents, 9 of which were fatal, killing 12 persons. In 32 personal injury accidents 55 people sustained injury and property damage amounted to \$58,976.00 from 47 property damage accidents.

Major causative factors in rural traffic accidents in order were the following: Too fast for conditions, driving while drinking, wrong side of road, improper passing, disregarding warning or stop signs and did not have right-of-way.

Traffic accidents on the South Plains have claimed the lives of 57 persons thus far in 1951 as compared to 96 deaths for the same period in 1950, which figures a 40

percent reduction in number of fatalities in 1951.

Highway Patrolmen working 4,950 man hours and traveling 78,000 miles in August filed a total of 991 cases in the 21 county area they work. Cases filed for speeding led with 221. DWI cases totaled 26. 28 ran stop sign or signal and 716 cases were filed for other violations of traffic laws. In addition 996 drivers were warned for hazardous violations, 450 citizens were instructed in traffic safety in public lectures and 44 Driver Training teachers were given Behind-the-Wheel instructions in 2 college classes.

Posey said, "One of the three basic functions of the Texas Highway Patrol is accident investigation. First of all traffic accidents must be investigated to determine who had the accident, where and when it happened, and why, how and what had occurred. The answers to these 6 questions are very important to any good investigator and he must, without fail, in each case make sure that the above questions are answered in detail as accurately as possible. The facts obtained by the investigating officer, usually at the scene of the accident, must then be accurately recorded and made available to accident analysis personnel in order that the information obtained from the report can be used by all agencies directly concerned. These agencies include engineers, educators, legislators, drivers licensing authorities, public information groups, prosecuting attorneys and many other such organizations. Texas Highway Patrolmen are specially trained in accident investigation and are charged with the responsibility of investigating all motor vehicle accidents reported to them which occur on public roadways."

There are several things that each investigating officer must bear in mind when the report of an accident is received. (1) He must get ready that is determine if possible if injury or death has resulted, how long it will take to arrive at the scene and proceed to the scene as safely as possible. (2) Keep the accident scene from becoming worse and administer any necessary aid to the injured. (3) Get the facts. (4) Decide what happened. (5) Follow up, that is file cases, for any violations of traffic laws, look for additional evidence in support case and prepare information for prosecuting attorney.

Posey said, "Good accident investigation is the very heart and basis for an efficient traffic law enforcement program."
