Miss Cecilia Wray Wood and C. C. Goodwin, Wed Saturday

In a beautiful double ring ceremony Miss Cecilia Wray Wood, daughter of Mr. and Mrs. W. O. Wood, and C. C. Goodwin, son of Mr. and Mrs. Clyde Goodwin, both of Earth, were united in marriage at the First Methodist Church in Earth Saturday evening at 6:00 o'clock before an archway of greenery flanked with huge baskets of white Gladioli and white Snapdragons.

Rev. Hugh F. Blaylock, Pastor of the Earth Church performed the ceremony.

Mr. R. G. Wilson, Sr., pianist, played the wedding music, including "One Alone", "The Rosary", "Will you Remember", "Lohengrin's wedding March", "Ava Maria", and "Mendelssohn's wedding March". Mrs. Phillip Haberer, soloist, sang, "With This Ring I Thee Wed", and "The

Lord's Prayer" accompanied by Mrs. Wilson.

Lloyd Ray Goodwin served as best man for his only brother.

The bride wore a skipper blue gaudine suit with navy and pink accessories, and carried a single white orchid on a white bible.

For something old she wore a locket belonging to her mother; for something new the new and blue suit; and the bible she carried was borrowed. She also had a good luck penny in her shoe.

The bride's only attendant was the matron of honor, Mrs. F. B. Clark of Lubbock, cousin of the groom, who was dressed in a brown suit with brown accessories, and carried a nosegay of pink roses.

Candle lighters were; Miss Glenna Fern Rutherford, cousin of the groom,

and Calvin Wood of Sudan, cousin of the bride.

Ushers were; Newton Goodwin, of Lubbock, uncle of the groom, J. J. Coker and Homer D. Maize.

Mrs. Wood chose for her daughter's wedding a navy blue suit with pink and black accessories. She wore a corsage of pink Camellias.

Mrs. Goodwin was dressed in a black suit with black and gray accessories and a pink camellia corsage.

Following the wedding a reception was held in the church parlor where Mrs. Harold Miller secured the names for the guest book.

Mrs. Wayne Rutherford, aunt of the groom, served the three tiered all white wedding cake topped with a miniature bride and groom, and Mrs. Ray Wood, aunt of the bride, served the punch.

For the wedding trip to Ruidosa, N.M. the bride wore a chartreuse linen suit with navy accessories, gray top coat and a white orchid corsage. Mrs. Goodwin graduated from Springlake high school in 1947 and attended Draughan's Business College in Lubbock.

Mr. Goodwin was a 1943 graduate of Springlake High School and served in the Armed Forces two and half

years with two years of the time overseas in the European theater.

BULL LAKE PHILOSOPHER APPROVES OF TRUMAN'S SLEEPING LATE, AND ALSO OF J.A.'S SLEEPING LATE

Editor's note: The Bull Lake Philosopher on his Johnson grass farm on Bull Lake seems to think Pres. Truman is on his side in the matter he discusses, but he's mistaken, which isn't the first time.

Dear editor:

I want you to know I supported President Truman from the start, no just the day after he was elected like a lot of startled big papers I know and some small ones, and I still admire him, but I was sitting out here the other afternoon in the warm sunshine listenin to the drone of tractors and admirin the on-rush of a new farming season, without no immediate plans for

startin any operations of my own, as winter may not be over yet, at least I ain't over winter anyway, when a copy of the Clovis Journal some fisherman had wrapped worms in blew over near me and I could reach it without gettin off my tibow and I picked it up and read where Pres. Truman while he was vacationin in Florida slept late one morning and the reporters said he "stayed in bed late like a city feller."

I don't object to the President stayin in bed as late as he wants to in the morning, glad to see he's getting some sense on that topic, handed a marked copy of it to my wife, but I do object to the insinuation that sleeping late is strictly a city practice, that it's somehow out of place in the country.

There ain't nothing in my philosophy which prevents a country man

from sleepin late if he wants to, and as far as I'm concerned there has been too much propaganda about farmers gettin up early.

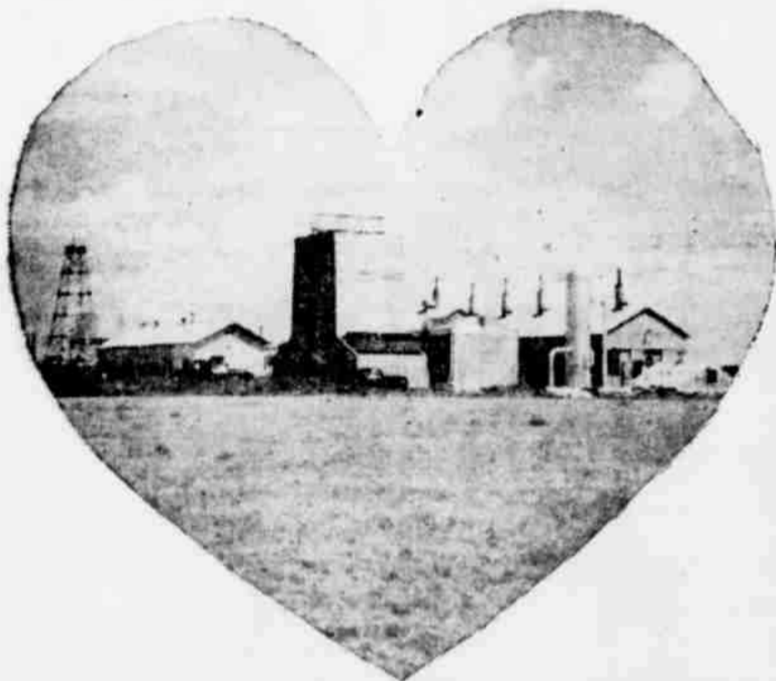

Some people like to promote the idea that if farmers ain't up and stumblin to the barn in the dark six days a week, their whole economic system will fall to pieces and the bank might even call in their loan if it heard about it. And that it ought to be against the law for a farmer to turn his tractor off or unhitch a mule any earlier than an hour after sundown. That if he don't fall asleep toward the end of supper he ain't put in a honest day's work.

I'll admit there is some farmers who seem to follow this philosophy but it ain't the one that prevails out here. If a farmer is gonna work all year and take a chance on his crop bein lost at the last minute to a hail storm or boll weevils or too much rain or a drought or the bottom fallin out of the price, he might as well sleep late in the morning when he feels like it. Ain't nothin worse than goin busted sleepy.

I personally ain't prejudiced against late-sleepin, and I am happy to know a lot of people, preachers, teachers business men, even editors, is equally open-minded on the subject.

Yours faithfully J.A.

Heart of Your Gas Service

West Texas Gas Company's McSpadden Compressor Station, near Canyon, Texas, is one of the stations employed to maintain movement of natural gas to South Plains cities.

Compressors and Maintenance Cost More... But Your Gas Rate! Are at Pre-War Prices!

Construction of McSpadden Compressor Station began in 1943. Three compressor engines, two 165-horsepower and one 80-horsepower, were installed. Larger compressors were preferred at that time but were not available due to governmental restrictions during the war years.

Since 1943 West Texas Gas Company has installed six 400-horsepower compressors and made other improvements to increase the capacity of this station to 2,850-horsepower, almost seven times that of the original plant.

In 1948 West Texas Gas Company paid over 92 per cent more for 400-horsepower compressors than it paid for the same type engines purchased in 1940.

Despite increased costs of compressors, steel pipe, wages, valves and other items... natural gas service for your home and business is still furnished you at 1940 prices!

Cerebral Palsied Clinic To Be Held At Lubbock

A clinic for the examination of Cerebral Palsied children will be held Monday, April 4, at the Cerebral Palsy Treatment Center, 1317 Tenth Street, Lubbock.

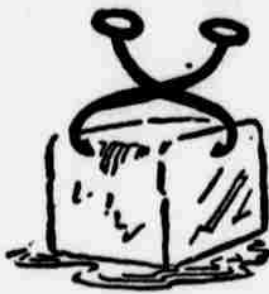

Orthopedic specialists from Amarillo and Plainview will be present to examine patients.

Cerebral palsy is sometimes referred to as spastic paralysis or birth injury

and may be evidenced by the child's inability to sit alone, stand alone, walk or hold objects at the age these things are accomplished by the average child. Research has shown that treatment is most effective if started within the first few months of the child's life although children respond to treatment begun at a much later age.

Parents planning to bring children to the clinic are requested to register the children at the Center prior to the date of the clinic. Information regarding the clinic may be obtained by writing Dr. Esther Snell, Director, or calling Lubbock 6541.

The new Servel water heater is a fairly new appliance with the Servel corporation. It is equipped with the famous heat exchanger, assuring hot water when you want it, and where you want it, and carries the same 10-year guarantee as the Servel Electrolux.

A representative of the company stated Saturday that "when you heat a gallon of water in this heater, it goes to you in the faucet instead of mixing in the tank," thereby giving quicker and better service.

Besides the large number who attended Ray's Butane opening Saturday, a number sent well wishes in the form of beautiful baskets of flowers.

Coffee, doughnuts and cold drinks were served visitors throughout the day. Mrs. Frances Ray registered the guests, while Mrs. Nolan Ray and daughter, Miss Beva Jean Ray, served.

Anton School District To Vote On Bonds to Erect New Gymnasium

A Petition was circulated recently asking that an election be called in the Anton Independent School District to permit the voters of the district to say whether the school shall issue bonds in the amount of \$110,000 to build a new gymnasium and a cottage for the Homemaking Department.

The petition asks that the election be held on the first Saturday in April, 1949.

Atkinson and Acheson, Architects, who drew the plans for the gymnasium, placed the cost at \$100,000, and it would have a court 50x90, with seating capacity of 2,000. The seats on one side will be permanent and the other will be the "roll away" type, which would enable the school athletic department to make two courts for regular practice.

Arrangements have been made to sell the bonds, half of them to be the 15-year bonds at 3 1-4 percent interest, the others will bear 3 1-5 percent.

Members of the school board stated that they had been urged by so many people to build a new gymnasium that they had decided to put the question squarely before the people and let them make the decision.

Another and entirely different question is to be voted upon at the same time. That is, shall the school have the authority to raise the tax rate from \$1.25 to \$1.50? This step is being taken, it was pointed out, to set up a maintenance fund to keep the building equipment in condition. By raising the rate the fund will not be considered in State Aid, it was pointed out. Whereas, if the tax valuation were raised, it would be taken from the State Aid. This issue has nothing whatever to do with the proposal to build the gym.

Local Girl Scouts Observe Birthday

Girl Scouts of Littlefield, Olton, Amherst and Sudan joined in the nationwide celebration of the Girl Scout 37th birthday Saturday March 12. The observance commemorated the founding of the Girl Scout movement 37 years ago by Juliette Low in Savannah, Ga., March 12, 1912.

From the first Savannah troop and its twelve members, the Girl Scout movement in the United States has grown to include a total membership of 1,384,864 girls and adult workers organized into 61,727 troops across the country and in Hawaii, Guam, Alaska, Puerto Rico, Panama, the Philippine Islands and the Virgin Islands.

Local celebration included a special showing for Girl Scouts and Brownies of the picture "Rusty Saves a Life" at the Palace Theatre with the compliments of W. J. Chesher, Wayne's ice cream served through the courtesy of the South Plains Creamery, and birthday cake presented by George's Bakery.

Girl Scouts and Brownies of Olton, Amherst, and Sudan attended the celebration in Littlefield.

Refreshments were served after the picture show at 9:30, when the group adjourned to the Girl Scout hut.

Sabine Television Corporation Files Application

Miles F. Leche, prominent Texas advertising executive, announced in Dallas that the Sabine Television Corporation, a group which he heads, has filed an application for a television station license for the Beaumont-Port Arthur-Orange area. The company, which includes a number of South Texans, was organized in September, 1948, with a capital of \$200,000 fully subscribed.

In making the announcement, Leche said "We consider the Beaumont-Port Arthur-Orange area assuredly one of the most promising in Texas. For that reason we wish to get into the locality with a first class television operation as soon as possible. Television service, such as we have in mind, is new and exciting and certain to please South Texans. Ultimately, it is our plan to affiliate with the Texas Talent System if the FCC approves our application and those pending for TTS".

Urges Planting Of Hubam Clover

According to Louis P. Hawkins, assistant state planning engineer for the Texas State Soil Conservation Board, now is the time for wheat farmers to plant Hubam Clover. The method recommended by Mr. Hawkins is to overseed the clover in wheat either by broadcasting and harrowing across the drill row or by planting with a drill going across the wheat drills. Ten pounds to the acre is recommended.

Hubam clover is an annual white clover maturing in one season, producing seed ready for harvest in late summer. If planted now it will not interfere with wheat harvest but with sufficient moisture makes a rapid growth after the wheat is cut.

This clover can be harvested with a combine and the stubble and root system make excellent land cover and is valuable as a soil builder.

Homecoming At Hale Center July 4

Hale Center's fifth annual Homecoming, home-town operated carnival and Independence Day program will be staged at Hale Center on July 4, the Hale Center Lions Club, one of the sponsors of the event, has voted.

Among new attractions this year will be a calf scramble in which youngsters will vie for free calves, according to Elmo Caudle, in charge of that part of the affair. Fireworks, sideshow attractions and home-spun carnival booths

will be offered the local residents and former Hale Center citizens who return on that day for a visit with the home-folks.

Vernon Hofacket left for Oklahoma City on business Tuesday, returning on Friday.

Brilliant new **DE SOTO** gets tremendous welcome from public!

Come in and see "The Car Designed With YOU in Mind"

It's BRAND-NEW . . . so new that there aren't many on the streets yet. But already it's a tremendous success. And it's easy enough to see why. Everybody wants a smart, good-looking modern car. But most of us don't want to pay a penalty for being modern. We want more room . . . more comfort . . . more visibility . . . not less. That's where De Soto scores. It's got those long, low lines. But you don't have to wriggle into it. It has big wide doors. Plenty of headroom, too. The roof won't scrape your hat, no matter where you sit. It's roomier than ever.

It's no use having bigger windows and windshields unless you can see out of them. In the new De Soto you can . . . because you're sitting on chair-high seats. Even a short person can see over the steering wheel. Even a six-footer won't hit his knees on it. You don't have to enlarge your garage to hold the new De Soto. You can still change a tire yourself. And a dent in the fender doesn't mean an expensive body repair job. Come in and see this wonderful car that lets you drive without shifting. Compare it with any other at any price. Then decide. Tune in "HIT THE JACKPOT" every Tuesday night, all CBS stations

Complimenting
... Homer Sewell

Enroute from Littlefield to Sudan, a
gentleman with a heart of gold and a
human thought for the unfortunate,
picked up a Mexican lady along the
highway.

By pencil, he learned that this Mexi-
can lady was deaf and dumb and that
she had only four days previously been
released from a hospital in Oklahoma
and was now enroute to Albuquerque,
New Mexico, to join her destitute peo-
ple.

The bitter cold and the condition of
the Mexican lady touched the gentle-
man deeply. He brought her to the
Santa Fe station in Sudan and pur-
chased her a ticket on the Santa Fe
for her destination.

Little do some of us realize that there
are thousands of unfortunates like this
Mexican lady now in destitute circum-
stances. . . where are the charitable
organizations?

We have learned that this kind
hearted man was Homer Sewell, with
the Franklin Life Insurance Company
of Littlefield. Mr. Sewell, please accept
the compliments of many Sudan resi-
dents for your kind and good deeds
. . . What this world needs, is more
men like you.—Sudan News.

ALL IN THE FAMILY...
THE EQUITABLE FAMILY

During 1948 thousands of families who wanted the se-
curity provided by life insurance joined The Equitable
Society.

From every state in the Union—from big cities, from
country towns, and from farms—The Equitable wel-
comed a host of new members last year, widening its
family circle to a total of 4,150,000 men and women.

It is the thrifty action and self-reliance of this huge
family banded together for mutual protection that makes
possible the record of accomplishment which The
Equitable brings to you in this annual report.

Of the \$307,600,000 disbursed last year to policyholders
and beneficiaries, \$70,086,000 was paid out as dividends;
and \$108,500,000 was paid in death benefits. Payments to
living policyholders were approximately 65 per cent of all
disbursements to The Equitable during the year—
indicating a continuing trend of utilizing life insurance
as a means of providing living as well as death benefits.

We have consistently done our best to preserve the funds
and protect the interests of the members of The Society
and their families in the realization of the fact that the
best interests of the life insurance policyholders are con-
currently the best interests of the people in general.

There are some current economic conditions for which
we are not responsible, which we cannot control, but
against which we have tried and will try to protect those
who contribute so greatly to the public welfare by their
voluntary provision for the members of their families.

We shall be glad to send you a copy of the President's
Report to the Board of Directors for the year 1948. This
report gives the full details of The Society's finances, the
main features of which are outlined below, and is avail-
able on request either to the home office or your nearest
Equitable representative.

Attend Cotton Council Meeting

Mr. and Mrs. Roy McQuatters returned last week from the Cotton Council convention held at Los Angeles, Calif., March 7, 8, and 9.

On Sunday, March 6, the delegates and visitors enroute to convention, were entertained by the Arizona Council, at Phoenix, Ariz., with a breakfast, a tour and a barbecue luncheon.

The convention opened Monday, March 7, at the Biltmore Hotel, and closed at

noon Wednesday, March 9. The convention was composed of delegates representing the following interests: Producers, ginners, warehousemen, crushers, spinners and merchants, and the program consisted mostly of discussions of such subjects as Domestic and Foreign markets, Utilization Research, Sales Promotion, Public Relations and Margarine Legislation.

The California Council went all out in an effort to entertain the delegates and visitors.

On Tuesday, March 8, the ladies were taken on a tour of the city, lasting from 9 a. m. to 5 p. m., with luncheon

at the Sportsman's Lodge. The tour included a trip to Wilshire shopping center, The University of California of Los Angeles, Beverly Hills and the homes of film celebrities, Bell Air and Brentwood Estates, The Palisades of Santa Monica overlooking the Pacific, and a tour through Warner Bros. and Republic studios.

Wednesday they were entertained at Tom Brennerman's restaurant with the radio program "Breakfast in Hollywood."

Tuesday night a banquet was held at the night club, "The Biltmore Bowl." The banquet was followed by a style show featuring cotton costumes created by Hollywood designers, the night club's floor show and a dance.

After the convention, all who cared to make the trip, were taken on a tour of the San Joaquin Valley cotton growing area, a trip to Yosemite National Park and a day of sight seeing in San Francisco, still the guests of the California Council. On the return they were given an all-day sight seeing trip at the Grand Canyon as guests of the Arizona Council.

Mr. and Mrs. McQuatters report a most delightful trip.

The meetings started Saturday, March 18, and will continue through to March 27. They are being held at 7:45 each evening and at 10:30 Sunday morning.

Brother Gipson is a brother of Minister Norman Gipson of the Amherst Church. He is recognized as an evangelist of outstanding ability in this region. He recently conducted a series of meetings at Clovis, N. M.

NEW OLTON COTTON GIN TO BE BUILT

A group of Olton farmers have for some time been considering the establishment of a one-variety cotton bloc, with a one-variety cotton gin at Olton. Such a project now becomes a reality.

Last week the One-Variety Group signed an agreement with Jack Straw and Brent Burrow whereby the farmers will plant the required number of acres of cotton, and Straw and Burrow will build a new gin to gin the cotton.

This will become the first one-variety cotton bloc and gin in Lamb or adjoining counties, although such a proposal has been talked and encouraged for a number of years in the South Plains area.

Lubrication

ISN'T ENOUGH!

Cold weather driving demands more than lubrication from motor oil... and Veedol Motor Oil does more! It resists extreme heat and pressure... minimizes oxidation... checks formation of harmful, corrosive acids that attack vital motor parts... keeps motors cleaner, smoother-running and better protected.
