LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY,

MAY 27, 1926.

NO. 6.

## DENT SPEIGHT MAKES **EHENSIVE REPORT OF LOCAL DOL CONDITION DURING 4 YEARS**

the Littlefield | state. Four years ago the school had ast Friday evenensive report of present status of gether with cerwas presented . L. Speight.

a period of four umbency of the at, showing that enrolled during this year the en-1,566. In 1922 year the same n 1922 the aver-180, while this hen there were

oing high school are eight. Then teachers in the there are 27. In a second class th no accrediting rtment; now the ar first class inits of accrediting s stated by Prof. probabilities, six its would be rethis year.

on to state that year of 1922-23 school was very mistry and gendded and laborances were equipthis vocational nics, agriculture years more work s and economics, language have the cirriculum, year this will be h school gradullege in the state

the school system poorly equipped ts of four build-

four trucks and two autos transporting children to and from school; now 24 trucks and 1 auto are being used. Then about 80 children were being carried; n. y an average of 520 are hauled daily. The tax rate then was 50 cents; now it is \$1.00; then the valuation was \$3,061,456; now it is \$7,887,780; then the tax assessment was \$15,308.48; now it is \$76,815.25. Notwithstanding this increase in tax rate and tax assessment, the school is now not costing the community as called for 193 much per child as it cost in 1922 and much better facilities are being enjoyed for work and far greater results are being obtained.

Prof. Speight, in his report, also made the following recommendations: The addition of a commercial department and another foreign language; a supervising principal for the primary building; to include athletic equipment in the next financial budget; individual lockers for the high school; retention of public school music; seat the old auditorium with desks or tablet arm chairs so that it may be used as a study hall for intermediate grades.

Based on present outlook, Prof. Speight estimated that the probable enrollment for the 1926-27 school year would be in the neighborhood of 1,200 pupils.

The Board at this meeting also voted to lease to J. P. Spinks, the present manager, the school cafateria for a period of three years, he to make certain additions at his own exmake certain additions at his own ex-pense, and which at the end of three BOY SCOUT MEET years would be taken over by the school.

It was ordered that all school truck bodies should be turned in immediately following the close of the school term this week for storage until the

opening of school again next fall. It was further decided that sealed bids would be received by the Board equipped as any from local dealers for the school coal section of the supply up to and including May 28th.

### THE HIGH SCHOOL BACCALAUREATE SERVICE SUNDAY

The baccalaureate service of the Littlefield high school, class of 1926, was held in the high school auditorium last Sunday evening. The audience present taxed the capacity of the room, every seat being taken and a large number standing in the rear and around the walls inside the auditorium.

The stage and room had been appropriately decorated with class colors of white and lavender; also with numerous beautiful flowers and banks of evergreen in copious quantities. With Mrs. Arthur P. Duggan at the piano, the class of 18 young men and women marched in and took their places, following which the choir of 24 voices, under the direction of Mrs. G. M. Shaw, rendered an anthem. Rev. C. A. Dugger, of the Presbyterian church, offered the invocation and congregational prayer, and the scripture lesson was read by Rev. W. B. Phipps, of the Baptist church. The audience was very attentive during the delivery of the sermon, "The Finest of the Fine Arts," by Jess Mitchell.

Taken as a whole, numerous people present, declared it to be the best service of its kind ever held in Littlefield. Many remarked in eulogistic manner regarding the fine music furnished by the choir, several numbers being rendered by that body of singers, representing the pick of the local music talent.

Those of the graduating class this year are Floyd Hemphill, Lillian Honping, May Davis, Fern Hoover, Gladys Dorman, Luycle Yancy, Ida Beebe, Vernon Brewer, Howard Robinson, Azela Berryman, Norma Henson, Lee Pool, Otis Elder, Kenneth Staggers, Paul Blair, Longlis Foster, Mercedus Allen and Ruth Sims.

TO HAVE AUTO TRAIN.

Littlefield Delegates to Amarillo Will Camp Two Days.

At a meeting of the directors of the Littlefield Chamber 01 0 held Tuesday noon, it was decided to abandon the idea of running a train to the West Texas Chamber of Commerce convention at Amarillo next month on account of the heavy cost. Instead, the delegates will make up a big auto caravan, take a truck along loaded with cots, bedding, etc., hiring a man to constantly watch the camp, and all will camp out during the convention.

**SUNDAY; OFFICERS DULY APPONITED** A very interesting meeting of the

Boy Scouts was held at the high school building last Sunday afternoon. It was attended by H. B. Palmer and L. S. Harkey, of Lubbock, also several representative citizens who are

interested in the movement. The purpose of the meeting was to

is going to call her place "The Home,"

"Ma," as she is familiarly known by her large circle of friends here,

and she declares it will not be a "home" in name only, but that it is her desire to make it a home-like place in every detail. The house arrangement is going to be homey, the cooking will be like mother used to

atly appreciated | do, and it is her desire that her patrons, whether of local acquaintance or passing through transcients and travelers may catch the home-like atmosphere while in 'her hostelery.

Meals will be served at stated hours three times a day.

Mrs. Foster has been a citizen of Littlefield for more than two years now and has a large circle of friends who will be glad to lend her success in her now business venture.

#### MAY LOCATE HERE.

Rev. Berry of McKinney Preached for Christian Church Here.

Rev. F. J. Berry, former pastor of the Christian church at McKinney, is in Littlefield this week negotiating with the local church of that denomination regarding accepting their pastorate. He preached there last Monday night and those present who were fortunate enough to hear him were well pleased with his message. Rev. Berry comes to Littlefield

highly recommended both as a public spirited citizen and successful pastor. He will hold a meeting for the church here in August.

Charlie Big Eyes, an Alaskan In-dian, under tribal decree, must pay to his squaw as alimony one bull moose, properly buichered and delivered, ten mink skins, dressed and stretched, five gray fox pelts or one silver pelt, and one nundred full-grown samon each year

engender a greater interest in behalf of the Boy Scout troops now organiz-"Ma" Foster to Reinstate Her Famed in Littlefield and to provide sponsors for them, and at that meeting it was virtually decided that the Baptist church would take care of one troop while the Methodist and Presbyterian churches would look after the other. It was also suggested that a third troop might be organized here in the near future.

Rev. C. A. Dugger, of this place, is a member of the South Plains Council, representing Lamb county, and he stated it was his desire that there might be Scout troops organized at other points throughout the county. He was elected chairman of the local board, other members of the board elected at the meeting last Sunday are Prof. B. M. Harrison, E. A. Bills, A. G. Hemphill and Ralph Dunbar. Future meetings of the troops will

be held in the basement of the Presbyterian church.

#### THE GRADUATING EXERCISES LFD. HI. SAT'Y NITE

The graduating exercises of the Littlefield high school class will be held next Saturday evening in the high school auditorium.

The class address will be given by Dr. P. W. Horn, president of West Texas Technological College, Lubbock. Dr. Horn has already appeared as a public speaker in Littlefield on various past occasions and his excellency as an orator is well known.

Every citizen of this town and surrounding community will do themselves an honor to hear him on this occasion.

Other features of the graduation program will be a piano solo by Miss Lillian Hopping, the validictory. "Education and Responsibility," by Kenneth Staggers, and the salutatory, "Eyes That See Not," by Miss Fern Hoover.

The program will begin promptly at 8:15 o'clock.

Don't let the mail order house decive

you pleased, over seven thousand terdays, gone to return no more.

What did you do with them? What formidable columns of yes terdays confront you when you them off on the debit and credit sides of your life-book, and take account of your past behavior!

There are yesterdays blotted with tears, recalling sorrows and disappointments ; there are yesterdays filed with joyful anticipations, courage and arnest endeavor, still suffused with the fine moirt in which they were recorded, but you cannot stop now to catch their old-time thrul!

Nor can you feel their exaitation lost somewhere along the road you never again can retrace. You mus cast up your account and get your whether you are solvent or bankrupt. So you add up the days of obstinacy and pride, and those still more wanton days of idleness, which you suspect now are at the bottom of your angleties.

There are pages and pages of them As you turn lost after lent, you whether others in their experiences have faced so many blots, erssures and unkept promises as are now mocking you in your day of trial. Alas.

The world contains many such men and women, who, like you, would glad-ly give all they have if they could turn backward and reciaim their vanished yesterdays, and transform them by some magic touch into days of With all the wrecks of these van-

shed yesterdays before you, you must be rather a poor sort of human being if you cannot turn the lessons they teach to profitable account.

It is not possible to recall them, but it is possible to patch up your strength and brace up your courage. Nor can you help some emotion when you read of the lost battles, but you can buckle on a new armor and begin a new fight, which by watching the todays, and turning each one to real account, you can yet win victory and wear a crown of honor !

TO HAVE ART CLASS Miss Aleene Cox, residing on Okla-

homa Ave., will have a class in art here during the summer months. She is from Simmons College, Abilene.

Buy it in Littlefield.

represented here, and it has had a steady growth of business ever since. Operated originally as a "drum station," business has advanced under the efficient management of Mr. Matthews until it is now one of the leading dispenseries of gas and lub in West Texas.

Last week the work of installing three monster tanks, each of 15,000 gallons capacity, was completed, under the direction of Contractor E. A. Bowman and A. B. Jordan, of the company's construction department. One of the tanks will be used for Gulf gasoline, one for kerosene and the third for "No-Nox," a super-refined gasoline product now being put out by that concern.

These tanks are equipped with pumps that are electrically operated. There is a 3-horse power motor attached to the pumping unit. Following the installation 24,192 gallons of gasoline and kerosene were taken from the tank cars and transferred to the storage tanks in about 8 hours' time, the unit representing a pumping capacity of about 3,000 gallons an hour, or more than 50 gallons per minute.

## ENOCHS MANIS LIGHTNING STRUCK AND DOG KILLED

During an electric storm last week C. R. Humphreys, a farmer residing in the Enochs neighborhood, was struck by lightning and knocked unconscious.

Humphreys was returning home from Littlefield in his wagon, loaded with seed when the flash came, knocking him from the wagon and rendering him unconscious for several minutes. When he regained his senses the team and wagon were found about a mile farther down the road. The bolt that dazed Humphreys also struck his dog, trotting alongside the wagon, killing the animal instantly.

Aside from the shock, Humphreys suffered no disastrous results from the accident other than a severe headsche for a few days.

COLLEGE COMMENCEMENT

Invitations were received by several Littlefield citizens last week to attend the commencement exercises of the West Texas State Teachers' College, at Canyon, beginning Friday, May 28th and continuing until June 1st. It is understood several of the former students of the college residing here will attend.

Use a fork instead of a spoon when blending flour and water. It quickly makes the mixture smooth.

lessons in carelessness. We always guard against the big things and esescape them, only to suffer from little things, such as crossing a street or highway without looking both ways, driving with defective brakes or with- phone.

out properly focused headlights. In fact there are innumerable little things in every day life that may cause loss of limb or life. We believe the death of Bobbie Leach from a little thing like a banana peel is about as good a warning to us to watch the little things as anything millions. that has ever come to our attention.

When it comes to the morality of our ancestors, none of us have anything to brag about. Even Adam and Eve were never married, according to any records we've ever read.

CALAMITY HOWLERS

"We'd like to support someone for the legislature who would run on a platform of putting all friends of the farmer in jail for 90 days," says the editor of a weekly paper at Long Prairie, Minn., and we know every farmer around here will agree with him.

Those so-called "friends of the farmer" with their calamity howling are doing the farmer no real good On the other hand, their agitation is actually harmful. As a matter of fact, but little calamity howling comes from the farmers themselves, but is produced by professional politicians with a view to fooling the farmer. They ride into the state legislature and into congress on such a cry, and history fails to show where a single

one of them ever did much worrying about the farmer after he had his political job nailed down. There one sure way to help the farmer, it you really want to do so, and that is

to just give him a square deal-and then let him attend to his own business

Our idea of a diary is a book in which one may write the things they are too timid to say out in public.

A rainy day in Littlefield, an east side front porch, which also serves as sidewalk-pedestrians removing mud from their shoes as they cross the porch and you have a fair demonstration of the "Charleston," savs Mrs. Pauline Sweggart.

Autos are now coming in a new variety of colors, but pedestrians still have to be content with black and white.

## LITTLE LEADERS

Things have gotten so in some Littlefield families that father has to ask the children two or three days ahead if he may use the car.

Whenever you see a Littlefield man wearing both a belt and a pair of suspenders you may know that he believes in "safety first."

Not all things are even. Citizens of Littlefield always welcome the first robin, but you don't hear them doing any cheering when the first fly shows up.

The reason the average Littlefield mother is so proud of her good-looking, well-behaved children is she knows they take after her.

If you meet a Littlefield man who seems in more of a hurry to get home to dinner than usual, you may know that house-cleaning is over at his house.

After a Littlefield man has struggled for two hours trying to light the kitchen fire it's hard to convince him that a cigarette can start one that will destroy a whole forest or burn up sevseral sections of good grass land.

### PANHANDLE WILL BE HERE FOR A GAME ON FRIDAY

The Littlefield ball team will cross bats with the team from Panhandle next Friday afternoon, the game being played on local grounds at the ball park near the school center.

The Panhandle organization is on the road for the coming weeks, and will play the Hubbers in Lubbock next Saturday and Sunday. They have previous winnings from Amarillo hanging to their belts and are now on the warpath for more scalps. Whether they will secure any in Littlefield is still a matter of conjecture, as the local lads declare they are whipping into such good form the game will be hotly contested ere they yield the honors of the diamond to the visitors. This will doubtless be the best game of the season so far in Littlefield and the local players are desir-

ous of having a strong representation of the Littlefield fans in the grand tand and on the bleachers.

#### SANITARY FLOORS FOR DAIRY BARNS

Sanitary floors are a first requirement to a cleanly dairy. Non-absorbent material and without crevices where dirt and filth can lodge is recommended. It should be easily washed and disinfected.

In building a dairy barn floor, all rubbish and refuse within the enclosure should be removed and the floor area graded to the required level, allowing, of course, for the thickness of the floor. The soil should be thoroughly compacted. If it is possible for water to get under the floor at any time, this possibility should be reduced by using a fill of clean gravel, cinders or crushed stone and providing suitable drainage. The gravel or cinder sub-base, if used, must be thoroughly compacted and consolidated by tamping or rolling.

Forms for defining floor slabs, alleyways or other areas to be concreted should be of smooth lumber, rigidly braced in line and carefully set to proper grade. The manger curb is usually placed first. It should be not less than four inches thick and is usually made about six inches high on the stall side. Uprights supporting stanchions are of several types. Some are attached to anchors which are set In the curb and others are embedded in the concrete. Feed and litter alleys are usually placed after the curb, then the stall platform and manger are placed. The length of stall platform, that is,

the distance from manger curb to gutter, will depend upon the breed of cattle kept. For Jerseys or Guernseys the average length is about four feet eight inches; for Holsteins about five feet is necessary. The platform should be pitched about one inch from the curb toward the gutter.

The surface of the manger should be finished smooth, with corners carefully rounded to make cleaning out easy and to provide a comfortable surface for the animals to eat from. Litter and feed alleys should be finished with a wood float to secure an even but gritty surface, thus providing se-cure footing for the animals.

#### Good Appearing Cows Not

**Always Most Profitable** In dairying it is entirely possible to get nothing for something. This is the conclusion of the New Jersey state dairy specialist after reviewing records of dairy herds in the Mercer County Cow-Testing association. It was found that though some cows had unsatial le appetites and good appearance they were niggardly in their milk output, whereas other cows eating but little more would give four and one-half times as much milk.

Three cows ate \$79 worth of feed apiece in one year and returned their owners 3,292 pounds of milk each.

wo other cows each ate \$168 worth of feed and gave their owners 14,817 pounds of milk each. Thus, for 2.1 times as much feed the good cows gave four and one-half times as much milk

By calculating further, the specialist found that it cost the owners of the poor cows \$2.40 in feed for each 100 pounds of milk, against \$1.13 for an equal amount of milk from the good cows. When labor, housing and haulage expenses were added, it was found that the cost of producing 100 pounds of milk with the poor cows was greater than prevailing sale prices. Hence, these low-yielding animals were eating up the profits made on the high-producers.

This is a clear case, concludes the state specialist, of wasting feed, labor and barn space on worthless cows, or of getting nothing for something.

#### Save Young Live Stock to Increase Net Profit

Cutting down the high and costly death rate among infant live stock is one of the farm problems for which the farmer must apply the solution himself. The causes of early deaths in live stock fall into three general classes:

1. Conditions little influenced by treatment: Malformation, extreme feebleness or extreme prematurity, certain accidents during birth.

2. Conditions capable of considerable reduction, chiefly through proper hygiene sanitary solation, and medi-cal treatment: Tuberculosis, acute respiratory diseases, certain acute contagious diseases, some forms of animal parasitism,

3. Conditions capable of a very great reduction through proper feeding, care, and sanitation: Acute gastrointestinal diseases, golter troubles, prematurity (if not extreme), many forms of animal parasitism.

#### Failure to Breed

Failure of cows to breed may be due to one of many causes. The chief cause, however, is infection with contagious abortion. This disease brings about changes in the maternal organs which make conception either uncertain or entirely impossible. The treatment consists of manual manipulation of the uterus and ovaries and regular irrigation. A cure can be brought about only by a prolonged course of treatment at a considerable expense to the owner.

#### **Concrete Sidewalks Finding Much Favor**

The use of concrete for sidewalks has become so universal throughout the cities and towns of this country that a town or city of any appreciable size is rarely found in which the sidewalks are not all made of this favored material.

Concrete is now universally accepted as the ideal sidewalk material. Properly built concrete walks meet all the requirements of a good footway. They are durable, smooth without being slippery, and are pleasing and clean in appearance. Good walks are easy to build. It is only necessary to follow a

There are still many old home weeks to be observed, a decade hence. a century farther on. Those who participate in such gatherings will look back upon the building which is now being done, just as we of today look back upon the structure we have received as a legacy from sturdy and high-minded forebears. - Christian Science Monitor. Time to Plant Trees Whatever trees we want to plantand everybody ought to plant treesshould be planted now. The early planted trees get the best chance at making satisfactory growth. If we are going to grow a lawn-and everybody ought to grow a lawn-this is the best time to get the seed in the ground. Hot dry weather is not conducive to growing grass. It takes the cool, moist senson of spring to get a new growth for a lawn started. Then if we expect

to garden, plant flowers, paint the premises or otherwise let the world know that we are among those present in the world's activities, it is also time to get going. It is the time to leave our bibernating mental attitude and get into the wide-awake swing of real action .-- Florence News.

#### City's Opportunity

Cities have the ambition to aspire to great heights when they have built their foundation with an understand? ing of the main essentials which go into the development of prestige and good will. Without these attributes, some cities may become richer and greater, but they do not and cannot become better. Troy has the opportunity. Troy may never become the city of half a million people; but Troy may become better and more favorably known than any city twice or three times its size if new standards are adopted and applied.-Troy Herald.

# **BUICK** Authorized Service leads the world

Experienced owners would rather have an ordinary car with good service facilities than a better car with poor service.

But the ideal combination is Buick and Buick Authorized Service - a car of highest merit -built right-and then backed by world-wide, organized maintenance of the highest efficiency.

You are near Buick Authorized Service, wherever you happen to be.
