

What You Can Do To The Kettle

There is still a Christmas spirit in the air and it falls on the date; but this year it's different. This is our first real war-Christmas since 1917. Christmas find many of our homes absent loved ones. America is still at work—generally at its height. Still The Army around the world stretching out "The Help" into homes where there is grief, sorrow and sin. There are many unmet needs, aching where there is no cheer. This year, as in the years past, the Salvation Army has placed Christmas Kettle on the streets. Remember, there might be someone close to you that will need a helping hand just now, would fail unless you give your love at this Christmas.

Cotton Marketing Referendum Saturday, Dec. 12

Wherever you live in Lamb County there will be a polling place for the cotton marketing referendum Saturday, December 12.

Time restrictions and the importance of all farmers voting made necessary to increase the number of polling places for the referendum. E. C. Clayton, chairman of county AAA committee, has announced.

Since every cotton grower in the county should participate in the referendum, we are doing what we can to make it as easy as possible for them to vote by increasing the number of ballot boxes, the AAA chairman said.

This year there will be 13 ballot boxes in the county. Gasoline rationing, tire shortages and other wartime problems require that the number of boxes be increased, Clayton said.

Polling places in Lamb County will be open from 8 a. m. until 7 p. m. at the following places: Courthouse; Spring Lake; Farmer's Garage; Earth-Farmer's; Amherst-Lamb Co. ACA Office; Sudan-Farmer's Gin; Littlefield City Hall; Beck Gin-Store; High School; Fieldton-Store; Hart Camp-High School; Rocky Ford-Church; Friend-Gin; and Pleasant Valley-Farm House.

Littlefield Schools To Close Dec. 18 For Holidays; To Re-Open Dec. 28

Must Keep Records Of Foods Served

Records of virtually all foods served in boarding houses, restaurants, hotels, clubs, hospitals and institutions in the month of December must be kept for later use by the Office of Price Administration, the Lamb County War Price and Rationing Board announced today.

Such establishments should have registered with the Lamb County War Price and Rationing Board on Monday, Tuesday or Wednesday, November 23, 24 or 25, to obtain their coffee allotments for the period ending January 31, 1943.

The Board has now received copies of precise instructions as to the records which such institutional users of foods must keep in December, and reports based on the facts thus recorded will be required of each boarding house, restaurant, hotel, club, hospital, and other institutional user after December 31.

The OPA has explained that the facts are necessary so it may have accurate information as to the effect of the current rationing programs on the service of meals, and on the use of other foods that are not rationed. It is expected that valuable information especially will be provided on the present coffee and sugar rationing programs.

Boarding houses, restaurants and hotels are among the largest users of all foods, therefore they are being requested during the month of December to keep exact records of their use and sale of various foods and also the number of meals they serve and the dollar revenue they obtain from this. The OPA expects to obtain from these reports a much clearer picture of the needs of public and private group eating places.

Quota For Bond Sales In December Total \$47,400

The quota for the sale of War Savings Bonds and Stamps during the month of December for Lamb County is \$47,400, Pat Boone, chairman of the Lamb County War Bond Committee, announced this week.

Women in the county have been taking the lead in the drive the past few weeks, after the President made an urgent appeal to the women of the United States to sell bonds and stamps.

Each Penny Spent On Bonds And Stamps To Count As One Vote

The Spade High School are sponsoring a Bond Rally Friday evening in the Gymnasium of the school, which opens at 8 o'clock, with a patriotic program.

The program will include the singing of patriotic songs and musical numbers.

Pat Boone, Chairman of the Lamb County War Bond Committee, and Arbie Joplin, Assistant Postmaster, of Littlefield, will be present at the rally to handle the bond and stamp sales.

Mr. Boone is scheduled to address the gathering.

In connection with this bond rally which, according to R. L. Davidson, Superintendent of Spade school, is a County and Community affair, a pie and box supper and a victory queen contest will also be staged. The Junior Class of Spade school is sponsoring the pie and box supper Friday evening following the patriotic program.

Supt. Davidson in announcing the affair said: "No pie will sell for more than 35 cents or box for 50 cents. Bids may be made as high as desired, and the difference in these prices and the bids will be paid by the purchaser in war stamps or bonds. We are trying to have total stamp and bond sales as high as possible. This is a community affair, and we are inviting the folks from all other cities and communities to attend and enjoy the evening with us."

Following the box supper, a Victory Queen Contest will also be staged Friday night. Each High School class will select a candidate for Queen, and in the sale of bonds and stamps each penny spent will count as one vote for any one queen.

FUNDS SOUGHT TO FIGHT INFANTILE PARALYSIS

Infantile Paralysis

Initial activities in connection with the observance of the President's birthday throughout the nation on Saturday, January 30, are underway. National observance of the President's birthday is given over each year to the raising of funds to fight infantile paralysis.

The Texas state committee has established headquarters at 221 Cotton Exchange Building in Dallas, and from this office are aiding in the setting up of groups for the carrying out of celebrations in hundreds of cities and towns of this state.

Activities have been carried out in Littlefield and Lamb county in the past in the celebration of the President's birthday and the gathering of funds for the fight against infantile paralysis.

The fight against infantile paralysis, even in the face of war activities, is of vital importance and should not be permitted to lag.

One or more celebrations should be held in Lamb county! What are we going to do about it?

Weigh well any extra hard knocks you get. It might be opportunity.

Bonds Purchase Survey

A recent survey by the Gallup poll revealed that 78 per cent of Americans have bought War Bonds or Stamps.

Reporters for the poll asked a representative cross-section of the voting population this question:

"Do you happen to have bought any war bonds or stamps?"

The result was:
Yes—78 per cent.
No—22 per cent.

Dr. George H. Gallup, head of the Institute of Public Opinion, said the findings were splendid testimony to the effectiveness of the Treasury Department's War Savings Campaign.

Following is a table comparing the purchase of War Bonds and Stamps by the various groups of people making up our nation:

	Have Bought	Have Not Bought
Middle Income and Well-to-do	90 per cent	10 per cent
Lower Income Group	68 per cent	32 per cent
Farm	71 per cent	29 per cent
Cities (10,000 or over)	81 per cent	19 per cent

A breakdown of the bond and stamp purchases by occupations reveals that the professional men, the business man and the white collar workers are well ahead of other occupational groups in their bond and stamp buying.

Here is the comparison by occupations:

	Have Bought	Have Not Bought
Professional	92 per cent	8 per cent
Businessmen	88 per cent	12 per cent
White-collar Workers	88 per cent	12 per cent
Skilled and semi-skilled	78 per cent	22 per cent
Unskilled and service Workers	65 per cent	35 per cent

tion, thereby conserving a large amount of the funds appropriated to this organization."

"This will necessitate closing out all project operations in many states by Feb. 1, 1943, and in other states as soon thereafter as feasible," the President wrote Fleming. "By taking this action there will be no need to provide project funds for the work projects administration in the budget for the next fiscal year."

The president read the letter to his press conference, emphasizing that he was proud of the WPA.

"With the satisfaction of a good job well done and with a high sense of integrity, the Work Projects administration has asked for and earned an honorable discharge," he wrote Fleming.

The WPA program was established in 1935, succeeding a series of other relief organizations, and in seven years employed approximately 8,000,000 Americans with 30,000,000 dependants. The WPA rolls since the war have dropped steadily and now total about 350,000.

Conservation Vital To War Production

If we are to meet 1943 food production goals, every bit of conservation work possible must be done.

With that statement the Texas USDA War Board this week instructed county boards to undertake a program "to get the maximum amount of conservation with the least labor and equipment use and with a minimum of technical assistance."

The simple conservation practice program will be designed in each county by county USDA War Boards with the assistance of other agricultural workers in the county. Practices which will do the best possible conservation job necessary to keep

About 28,000 Texas Youths To Register

Brig. Gen. J. Watt Page, state selective service director, announced Thursday that approximately 28,000 Texans in the 18-year age bracket would register for selective service this month.

The proclamation of the president establishes the dates for the sixth registration as follows:

Liquidation Of WPA Ordered By President

President Roosevelt Friday ordered the "prompt liquidation" of the Works Projects Administration.

War work had reached the point "where a national work relief program is no longer necessary," Mr. Roosevelt said in a letter to Maj. Gen. Philip B. Fleming, Federal Works administrator, whose agency includes the WPA.

He said Fleming "should direct the prompt liquidation of the affairs of the Work Projects Administration."

Obstacles In Construction Of The New Canada-Alaska Highway

Crash of a pile driver shatters the silence, bulldozers and caterpillar tractors roar as they carve out a lifeline to our northern frontier. Engineers are shown pounding bridge supports into the ground, completing another link in the Canada-Alaska highway. There has been no obstacle too great for these courageous men to overcome.

No, it isn't all pretty scenery and clear air. There's plenty of work! Here Pvt. Al Hubbell, of Dallas, Texas, is seen rinsing out some undies for himself.

On this carry-all tons of earth are moved from a high section to fill in a low section of the Canada-Alaska Highway. Hidden two or three feet under the muskeg in some sections are glacial ice formations thousands of years old. When the muskeg is removed the ice melts, creating heavy morass, but the U. S. Army engineers have found a solution to the problem.

Your Government Needs It NOW For The Manufacture Of War Requirements

We are Americans . . . we love the "American Way of Life" and each of us, in the way that we best can, rejoice at the opportunity to take a "Slap at the Jap" . . . and Hitler, too, of course. The government is making another appeal to the American farmer to dedicate the remaining weeks of 1942 to an intensified scrap hunt. "Steel mills need more heavy scrap and the farmers are one of the best sources of this type of metal," said a telegram to the editor of the Lamb County Leader from Donald M. Nelson.

Farmers of the nation have turned over to the government tons upon tons of scrap for the manufacture of munitions of war, and their outstanding assistance in the war effort is fully recognized by the government. With the new appeal for scrap, farmers will again come to the assistance of their nation and repeat the good record they have already attained in the fight against Hitlerism and Japanese ambitions.

WAAC's**

Opal Nixon, daughter of Mr. P. F. Nixon of Spade, re-enlisted in the Women's Auxiliary Corps, and is now receiving basic training at Des Moines, Iowa.

Nixon wrote Mrs. Arbie Joplin of Littlefield, that she felt that the WAAC's "is a privilege as well as a duty."

Nixon is a graduate of the Spade school and attended Draughn's Business College, Lubbock, and Vocational school, El Paso. Entering the service as a typewriter operator, she passed the service test for Junior Typewriter operator after completing the basic course which takes four weeks. Nixon has an 18-year old brother who is serving in the anti-

aircraft Coast Artillery in California. Her parents have been residents of Lamb County the past six years, and they reside two miles west and one mile south of Spade.

Reports From Gold Star Winners

From the annual reports of the Lamb County 4-H Club girls of the County Home Demonstration Agent of the Texas A. and M. College of the Extension Service, Miss Beatrice McCurdy, passes on these interesting items:

From Bitsy Sigman, Spring Lake Club, 1941 Gold Star Girl, we quote her entire letter. "This year in 4-H I have enjoyed it more than ever before. I have added to my yard by setting out 21 shrubs, 19 of which lived (these shrubs were furnished to Bitsy by the Experiment Station at Woodward, Okla., as an experiment.) These shrubs improved the looks of my yard very much. I have canned 20 quarts of vegetables. All of the family has

enjoyed the vegetables which I have canned, and it has helped the grocery bill stay down. I raised 25 fyers which also helped on the family budget. To help win the war I have gathered 500 pounds of rubber and 400 pounds or more of scrap metal. I have bought a bond. Since I have been doing 4-H work my home is more enjoyable. If every girl would complete her 4-H goals her home life would be enjoyed more."

From Louise May, Amherst, we quote this letter. Louise was nominated by her club as the 1942 Gold Star Girl and will compete with several others in the county.

"This year I was chosen garden demonstrator, and with the help of my parents, I have tried to be a good one. Daddy made the frame for my frame garden, and Mother made the canvass to cover it. It was all ready to plant by the first of March. All of the seed came up to a good stand and we were enjoying these vegetables long before the open garden was ready. From the open garden I canned several jars by myself and helped Mother with hers. I gathered, prepared and served vegetables from this garden more than fifteen times.

"Besides the garden work I have set out fifteen cuttings and all lived. I equipped a sewing box for my sewing and during the year I made a smock, tea towel and pot holder. I have used these in my garden work and cooking and canning, too."

15 Is On Sugar Rationing

Who did not register for rationing which began last week and who were denied ration books, known as number one, may have an extra ration book on hand, but it will be necessary to purchase this number one book by Dec. 15.

The Office of War Reliefs said Saturday, they will have difficulties next January when application for the second ration book must be made. Otherwise, ration books will not be able to be renewed and the date when they are to be renewed is December two.

The rationing of coffee now is being rationed on the original sugar book number one, stamps 20-28 each being negotiable for one pound of coffee, if the holder is 15 years of age or older. Without this book, no matter how much sugar an individual may have still on hand, the purchase of a pound of coffee is not legal or permissible.

Those who have a sugar rationing book may buy needed coffee on it as easily as they do sugar until book number two is available. Those without it must procure one at some time between now and Dec. 15 in order to purchase legally either sugar or coffee.

Mr And Mrs. Green Attend Funeral Of Nephew At Borger

Mr. and Mrs. L. T. Green, accompanied by Mrs. Green's sister,

Mrs. W. L. Currier of Delta, Colo., who had been here on a week's visit, left Sunday for Borger, Texas, to attend the funeral of Lieut. James Willis Brittain, 22, nephew, who was killed in an airplane crash Sunday, November 29, in South Carolina.

Lieut. Brittain had received his wings at Chandler Field, Ariz., about a month ago, and was assigned to coast guard patrol duty at the time of his untimely death.

Funeral services were conducted at 2 o'clock Sunday afternoon at Borger; and interment took place in the Borger Cemetery with all military honors.

Lieut. Brittain was survived by his bride of two months, and his mother, Mrs. Minnie Lee Brittain, of Borger.

Mrs. Currier accompanied Mr. and Mrs. L. T. Green to Littlefield Sunday night, and left Monday to spend the winter in Dublin, Texas.

Marketing Quotas Play Important Part In War Program

Cotton marketing quotas play an important part in agriculture's wartime program, according to George Slaughter, Texas AAA committee chairman.

Marketing quotas are the only means of assuring planned production needed in our war effort, Slaughter declared, since they are, in effect, rationing of the needed agricultural productions.

"Wartime production demands that we make the best possible use of our resources," the AAA official said. "Quotas are a method of making certain that all available land, labor, equipment, and fertilizer are used to the greatest advantage in the production of essential war crops."

Rejection of quotas by farmers voting in the nation-wide referendum Saturday, December 12, probably would result in additional acreage being planted to cotton when it should be planted to crops for which there is a greater need, Slaughter said.

Under the quota plan, the nation's farmers will produce all the cotton needed, he continued, while at the same time they will produce the other crops so vital to the war effort.

Marketing quotas have been in effect on cotton for the past five years. If they are to be continued in 1943, two-thirds of the growers voting in the referendum must approve them.
