

Safecrackers Take \$2,200 From Whitharral Gin Vault

Floor Safe Cracked For Money

HERE IS THE RESULT of work done by safecrackers sometime Tuesday night when they hit the Whitharral Co-op Gin and took more than \$2,200 in cash from this floor safe. They used explosives on a vault door to get to the safe.

WHITHARRAL — Safecrackers who apparently know their trade well blasted a vault door and floor safe at Whitharral Co-op Gin sometime Tuesday night and made off with \$2,200.24 in cash.

Gin Manager J. W. Borders Jr. estimated that damages in the safe job would amount to about \$1,000.

Hockley County Sheriff Weir Clem and Texas Ranger Razz Renfro continued an investigation of the case Wednesday afternoon, but they had turned up no suspects and few clues.

The burglary occurred sometime Tuesday or during a snowfall Tuesday night, because investigators found no tracks Wednesday morning. The intruders blasted open a vault door to get to a floor safe and the money.

Borders said the money loss was covered by insurance.

The safe job was discovered about 7:55 a.m. Wednesday by Clifford Williams, manager of a farm supply store operated in connection with the gin. He immediately called Borders.

Investigators said the burglars gained entry through the south door of the gin office, apparently without having to force their way in.

One hole was drilled in the 4 by 7-foot vault door, but the burglars apparently kicked a second lock into operation on this try. Three other holes were drilled in the door.

A pry bar was used to open the outer shield of the vault door, so that explosives, apparently nitroglycerin, could be inserted.

Once the vault door was blasted open, the burglars chipped away asphalt tile and concrete, in which the floor safe was buried.

Two holes were drilled around the tumbler in the floor safe to \$1242 last year and had operating expenses of \$1,219, leaving a net of \$23 to make improvements.

The Center was built in the late 1940's with funds donated by residents from throughout the county.

City To Discuss Center's Future

What to do with Lamb County's Community Center is the subject of a regular meeting at the city hall at 7:30 tonight.

The Community Center board recently voted to turn over "direction, management and control" of the building to the city.

Reason for the action, board members said, was the feeling that the building has fallen into poor condition, with no hope of improvement under present financial conditions.

Several members of the Community Center board are expected to meet with the council tonight to discuss the situation.

Other items on the agenda tonight are the opening of bids on 1960 paving, opening of bids on painting of several water tanks, consideration of park improvements, and discussion of speed zoning of state highways in and through the city.

The board offered to serve as a citizens' advisory group for the city, if the city wants such an arrangement.

The Center's charter says that all assets of the Community Center will go to the city at any time the corporation under which the Center operates is dissolved.

Board members voted to turn over the building to the city after studying financial statements which showed the Center took in \$1242 last year and had operating expenses of \$1,219, leaving a net of \$23 to make improvements.

The Center was built in the late 1940's with funds donated by residents from throughout the county.

At Soil Fertility Event

Farm Men Emphasize Efficient Operation

SUDAN — A few years back, the event with a look at farm economy prospects for the coming year. Here is a summary of the outlook.

Farming today has grown out of that stage into a big business. Dr. A. B. Wooten, A & M College economist, told more than 100 persons attending Lamb County's annual Soil Fertility Day here Tuesday.

"It's no longer a hit or miss proposition," Dr. Wooten said. "Farming is a business that demands efficient operation."

Dr. Wooten's address keynoted a day-long program in which other speakers talked about methods of making farm operations more efficient.

The A&M economist kicked off

COTTON — The support price is off about \$7.50 per bale and he expects more B plan cotton in 1960 than in 1959. He figured a 50 per cent increase, bringing the B plan total from 20 per cent last year to 30 per cent in 1960.

The pressure will be on cotton moving in the free market, because exports will be down in 1960. The free market price will be close to support level.

GRAIN — The greatest surplus in history is on hand, and the farmer probably will get a lower support price in 1960. Grain in the free market probably will move at close to the support level.

HOGS — The picture looks better, with farrowings expected to be down 12 per cent this spring over the nation. This, he said, could result in a price increase of around 20 per cent, with 16-cent hogs expected in July.

CATTLE — Producers are in a favorable position because of rising family incomes, which mean people will eat more beef. Slaughter prices will be steady the next 90 days, he predicted.

Also, Dr. Wooten said, Royce Walker, Lubbock Experiment Station agronomist, showed slides relating the proper use of fertilizers.

Absentee Vote Opens On WCD

Absentee voting on a Lamb County Weed Control District got under way this week and will continue until 5 p.m. March 1, County Clerk Charles Jones announced this week.

County commissioners have called the county-wide election for Saturday, March 5.

Approximately 150,000 acres will not be included in the district if it is voted. Commissioners excluded rangeland where they found at least 160 acres of it.

All the land in the Sandhills area of the county was knocked out of the proposed district, along with about 30,000 acres of rangeland southwest of Littlefield and a few isolated spots in other parts of the county.

Voters will mark either "for" or "against" on the ballot. If the district is approved, a tax of three cents per acre per year will be assessed on land in the district.

This money would go primarily to finance the administration of the district by a five-man board of directors.

Penalty for violations in the proposed district would be a fine of from \$25 to a maximum of \$25 for each violation.

A ballot may be cast by any other wise qualified voter who resides within the proposed district and who any kind of property — real or personal — rendered for taxation.

Establishment of the Lamb County district would be aimed at controlling Johnson grass and Bindweed primarily.

Miss Charlie Mae Fines of Kansas City, the show director, was called home Sunday when her father became seriously ill.

IT'S SERIOUS BUSINESS—Lee Spurgeon Reeves, 2, is wide-eyed and open-mouthed as Johnny Hucks, Littlefield Hospital lab technician, makes ready to blood-type Lee's father, Glenn, high school principal. In the first picture, Hucks is swabbing Reeves' finger. Next, Hucks makes ready to draw blood. And now even Papa is open-mouthed.

IT'S ALL OVER—Mrs. Robert Richey of the Forum Club fills out a card for Reeves, who by now is trying to explain to Lee Spurgeon that the blood-typing didn't hurt a bit. Meanwhile Lee's eyes and mouth have opened wider and wider.

Prior to the banquet, the Lamb-Bailey County School Administrators met and decided to send nine delegates from county schools to the Texas State Teachers Assn. annual meeting at Lubbock March 3-4.

Amherst, Springlake, Spade and Sudan will supply one delegate each and Littlefield and Olton will have two each. County Superintendent Jerry Lumsden will be delegate at large.

Blood-Typing Project Gets Under Way

An effort to blood-type every adult in and around Littlefield got underway Tuesday at the Community Center.

The Forum Club will continue its project today and Friday with members of six service clubs scheduled to report for blood-typing.

Non-club members will be typed later, according to Mrs. Lou Driskell, president of the Forum.

Motor Vehicle Inspections Going Slow In Lamb County

Motor vehicle inspections in Lamb County have slowed to a snail's pace as only 786 vehicles were inspected during January.

The inspections brought the total checked since September 1, when this year's sticker went on sale, to 3,480 or 25 per cent of the 13,500 registered vehicles in this county.

Captain Alan Johnson, supervisor of the Motor Vehicle Inspection Service in this region of the Texas Department of Public Safety, has urged vehicle owners to have their vehicles inspected as early as possible to avoid delays in the last minute rush.

In past years crowds during the last few days before the deadline have lined up for several blocks waiting to get into the inspection stations.

The safety inspection stickers, which must be on all registered vehicles operated over public streets, roads and highways by midnight, April 15 may be obtained at any of the 20 approved vehicle inspection stations in this county.

TOWN and COUNTRY

by **Wendell Tooley**

The old phrase, "I'm just so proud to be here..." comes to mind as I begin this column. After being in an automobile wreck and the entire family coming out in reasonably good shape, it's good to be back home and to work.

Just a word of thanks to the fine folk at Bovina and Friona for taking care of us until we could come home... and it won't hurt to say a good word about the doctors and the efficiency of the hospital at Friona. Of course, any hospital looks mighty good when you're injured... but we felt that this one is particularly outstanding in service and efficiency.

And the Lamb County Leader is taken by many families up in that area. There was a family in the room next to my wife's at the hospital from Friona. The little girl was visiting in my wife's room and she said, "We get the Lamb County Leader. Daddy calls it the Lamb County Lar!"

Well, our subscribers probably call our Littlefield newspapers a lot of things, but as long as they are keeping them and renewing their subscriptions we won't worry about the name calling.

I enjoyed the program presented by Hugh Ellison and his High School choir at the Lions club last Wednesday.

Hugh said something that I wish more people could hear. He explained the reason the choir did not sing popular songs, but instead concentrated on songs that had a true history and a cultural foundation.

When you mention culture... and you take a look around here in Littlefield... we could use a lot of it.

True, some of our organizations require a lot of culture for entrance membership, so where are we going to improve our culture? Logically, the high school is a good place to start and we commend Hugh for his interest in this phase of community life.

Willard Hedges at the Littlefield Nursery reminds folks its time to put out that shrubbery and fruit trees. There's no need to go out of town to buy trees. Willard now has a good stock and he is conveniently located on the Bula highway.

You ladies keep an eye out for the Gladiola Flour bargains in the Thursday papers for the next two months. Gladiola is carrying a campaign in our Thursday papers... the local grocers are carrying some good special prices along with it.

I see the Woman's Club has taken over sponsorship of the heart drive which will be in Littlefield the night of Feb. 25, 6 to 8. The drive will be similar to the Mother's March with persons interested in contributing turning on the front door light. Mrs. W. D. T. Storey is doing a nice job on the publicity. Jack Wicker is the treasurer, and Mrs. T. L. Dunlap is county chairman.

The U. S. Department of Commerce has come out with its Cotton Ginnings report. Looks like

MR. AND MRS. DANNY GRANT

Mr. and Mrs. Danny Grant United In Marriage Ceremony In Home

The home of Mr. and Mrs. Clifford, northeast of the city, was the scene Sunday of the marriage of their daughter, Barbara Stafford, daughter of Mr. and Mrs. Grant of Whitharral, to Montgomery read the ceremony before the bride. A large basket filled with a huge ribbon centered the scene flanked on each side by a white tapered candle.

Miss Jackie Stafford attended her sister as maid of honor. Her dress was identical to the bride's. She wore a clip of white flowers in her hair and wore white knit gloves. She carried peppermint carnations set in a heart of red net with red satin streamers.

The bride carried a handkerchief which had been carried by her mother, her grandmother, and her great-grandmother as each were married; and carried out the traditional "something old, something new, something borrowed and something blue along with a penny in her shoe."

Serving his brother as best man was Coy D. Grant. Candelighters were Don Stafford and Ronny Grant, brothers of the bride and groom, respectively.

Immediately following the ceremony a reception was held. The Valentine theme was further carried out with the heart-shaped cakes with "Danny" on one and "Barbara" on the other, with a miniature bride and groom in the center, and a heart of red net behind the couple. Centering the table was the bride's bouquet with the punch bowl on one end. Other appointments were in crystal and silver. Mrs. Jimmy Jack Grant of Levelland and Mrs. Marion Polk of Littlefield served cake and poured the punch.

For a brief wedding trip to Amarillo, Mrs. Grant chose a sheath dress of blue wool with black accessories. She chose the roses from her wedding bouquet for her corsage. The couple, graduates of Whitharral High School, will reside northeast of town where Grant is farming.

Among the out-of-town guests were the bride's grandparents, Mr. and Mrs. O. L. Harp Sr. of Lamesa and Mrs. E. M. Stafford of Levelland, Mrs. Bonnie Lindsey, Mrs. Dean Wood, and W. C. Coulter of Lamesa, Mrs. Rhodie Davis of Memphis, Mr. and Mrs. Howard Buck and Perry of Amarillo, Mr. and Mrs. Don Taylor of Lubbock, Mr. and Mrs. Marion Polk and daughter of Littlefield, Mr. and Mrs. W. A. Grant, Miss Lenora Sue Grant and Mr. and Mrs. Jimmy Jack Grant of Levelland.

Don Townsend Married

Mrs. Don Townsend with a layette show at 10 a.m. in the home of C. L. Berry. Assisting Mrs. Berry were Mrs. Marjorie Crowe, pianist, and Miss Lenora Sue Grant. The bride was married by her father, a street of white embroidered lace designed and made by her mother. The fitted bodice featured a boat neck in the front, a v-neck at the back, puffed sleeves which joined a bouffant skirt. A small white hat of mesh and satin flowers completed her ensemble. She carried white rosebuds with satin streamers atop a white Bible.

The High Places

Does the goal you're seeking seem as remote—as unattainable—as this snow-frosted mountain top? Does it seem, sometimes, as if you'll never get there? Are you on the verge of giving up?

Don't! Though your objective may seem light-years beyond your reach, if it's the right thing for you, God will help you to attain it, if you'll let Him. The teachings of His Church will help you find the patience and endurance you need to accept setbacks . . . and still keep trying.

Don't try to climb to the top all by yourself. It's a lonely ascent. Let the Church help you, as it helped those who were here before you . . . and as it will help those who come after you.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

The \$2,200.24 taken from the vault was in bills of \$20 or less, and change. Money wrappers were taken off about \$150 in change and strewn about the vault.
The burglars shut the floor safe after they were through and Ranger Renfro and Manager Borders had to enter the floor safe the same way the burglars did, with a punch.
The burglars also entered the farm supply store, located adjacent to the gin office in the same building, but they found only 13 pennies in the drawer. These were left.
Also entered was a feed house, the gate but nothing was reported missing there.

ze. He stressed the importance of soil testing as one of the ways to find out proper fertilizer treatment, but he added that a farmer must also use his own past experience to tell him how to fertilize.
Henry Stroh, Wiggins, Colo., farm operator, dwelled on farming methods in his state. He pointed out that most farmers in Colorado feed a few hogs on their own and make a profit out of it.
Roland Willis, Littlefield SCS work unit conservationist, described the Great Plains Program and its operation in this county.
W. E. Mitchell, Spade farmer, was honored as the "outstanding soil conservation supervisor of the year" in the County SCD. Wilcox Mudgett, SCD supervisor of Sudan, presented Mitchell a plaque.
Levon Ray, Lubbock Experiment Station agronomist, said the use of one cotton variety is no longer stressed in this area. He added that dual varieties often result in increased yields.
Four farmers - Raymond Nix, Dexter Baker and Richard West of Sudan and Wilburn Hayden of Springlake - joined the program in a discussion of cotton and grain practices, along with proper fertilization.
After a dinner sponsored by the banks of Lamb County persons attending visited the Sudan Livestock and Feeding Co., with Manager Ben Davidson conducting the tour.
Wayne Brown of Sudan acted as master of ceremonies for the day. Coffee and doughnuts were furnished at the start of the program by Guy Nichols of Sudan.
After Dr. Wooten discussed the economic outlook for the year, he pointed out the size of Texas' agricultural industry, which ranks only second to oil and gas in value. "Agriculture in Texas is a \$4.5 billion a year industry," he explained. "That's between a fourth and a third of all the income in the state."
Pointing out that the number of farmers has declined in the past 20 years, Dr. Wooten said many of the people who left the farm have gone into other phases of the industry.
He divided agriculture industry into three segments: farmers, suppliers and processors - distributors.
Statistics show that 40 per cent of Texas' population is involved in agriculture. Eleven per cent are farmers, 11 per cent are suppliers and the other 18 per cent are processors - distributors, he said.

Gladiola Land is just a little bigger than Texas. What's it famous for? biscuits, cakes and pies turned out by the best home bakers in America.

When it comes to flour, these ladies are as choosy as a princess picking a husband. Only snow-white Gladiola flour is good enough. So, naturally, it outsells every other brand.

If you're from Zigzag, Ore., we hope we haven't hurt your feelings. We just wanted to make sure you realize that Gladiola Flour is different. It has to be. And by the way, it costs only about a day more than the cheapest flour.

Givens Asks Election As Olton Commissioner

Delmer Givens has authorized the Littlefield Press to announce his candidacy for the office of county commissioner of Precinct 1.

This is Givens' first bid for any elective political office. Delmer was born March 24, 1922 south of Olton near the place he is farming at the present time.
