

Old Bench Is Friendly Gathering Spot

side of the road and of man." In time it is occupied by Anglos, by Spanish-Americans, by Negroes, and even members of nomadic Gypsy tribes have been seen resting there. Doctors and lawyers, preachers and newspapermen, laborers and pensioners, school children and great-grandfathers, have alike sought its comfort and the relief it brings the tired legs and feet. And, it's no secret that lovers have found it a rendezvous, too, and maybe even outlaws have rested there.

And once you have had the matter of the diversity of the occupants of the old bench called to your attention, and take a little time out to observe, you will be able to quickly see how important this old bench has become in the lives of so many Littlefield people, especially when the day is hot and the trip to the Post Office is quite a chore.

There are many of the elderly citizens who make it a regular stop both going to the Post Office and upon their return. There are several families from the

country who make it their regular assembly point when it's time to round up the children and start back home. Peterson knows of some pretty big deals that have been closed on that bench, and far more than just a few family quarrels have been argued out and settled right there.

It's quite likely that the bench could be moved and that countless hurrying, bustling young business people who pass it every day would never notice the change. But Peterson is quite certain there are many who would miss it, many to whom it is always the usual and expected thing. These are the elderly people who have come to depend upon it, who count on it being there to help them on their journey to the Post Office, and then again on their return home. Most of the day it is in the shade and then there are hours in the summer afternoon when the descending sun falls upon the old bench to cover this friendly old throne of the weary with a cloth of gold.

Peterson admits that when he (Continued on Back Page)

South Plains Ginners Convention Set Sept. 1

Funeral Services For Hugh Etta Liles Held Friday

Funeral services were held Friday afternoon, July 27th at the First Baptist church at Amherst for Miss Hugh Etta Liles, age 55, who passed away at the home of her sister and brother-in-law Mr. and Mrs. W. F. Rowland at Amherst, hursday morning about 9 a.m.

Rev. Elmer Crabtree pastor of the First Methodist church at Amherst officiated and interment (Continued on Back Page)

A large number of Lamb County ginners will be among the ginners from over the South Plains when they meet for their annual convention at Lubbock hotel, Saturday, September 1. The meeting was decided in a luncheon held at the hotel Wednesday.

Approximately 300 ginners are expected to attend the one-day session in Lubbock, which is an annual affair preceding the opening of the South Plains cotton ginning season.

W. O. Fortenberry, New Deal farmer is president of the Association and he presided at the meeting held Wednesday. Among the directors is Drew Watkins, prominent ginner from Sudan.

On Earth

— BY — FRANKLIN REYNOLDS

100 contestants are expected to enter the Earth Rodeo and Saturday of next week. The shows will be held at the evening both days.

There will be \$1 for adults and 50 cents for children.

Most 100 ropers are expected to enter the roping events, those who try to ride Willis Branscum's broncs and log his steers. One of the best things about the Earth Rodeo is an amateur show.

resident manager of Mayor Art Chesher's Angus show of Bula was second place man in the Aberdeen-Anhe-world judging contest at Texas Tech, Lubbock, last contest was held in connection with a field day sponsored by West Texas Aberdeen-Angus Breeders Association of which Reynolds is president and one of the founders.

Reynolds was served the crowd of several hundred persons

winner of the judging contest was I. H. Turney, an Angus breeder. Cattle for the field day, exhibit were furnished by half a dozen breeders who are members of the association.

Those attending were Jess Alford of Paris, president of Aberdeen-Angus Breeders Association of which Chesher is president and one of the founders.

best priced cutting horse of all time was sold recently by owners of Fort Worth sold Poco Tivio to Don Dodge of Santa, California, for \$15,000.

Poco was sired by Poco Bueno. This will be interesting to those attending because the good colt recently purchased by Dewey King in the northern part of the county, is a half brother of Poco Bueno, the head stallion at the Waggoner establishment.

Poco Bueno and Dewey Green's colt were sired by King, the prize stallion owned by Jess Hankins. King is a horse man that will "rope, cut or run."

Reynolds' colt does have splendid conformation and is tracked well, the boys around Earth and Springlake report. Dewey has a \$20,000 colt there.

Reynolds is determined to build up one of the very finest herds in the country, and when working toward this goal a good animal he wants he doesn't hesitate to pay the price for it.

Best fine bull he has added to the herd is TT Triumph from the herd of Governor Dan Thornton of Colorado. Significant animal, weighing 2,200 pounds was sired by Domino 45th, and everybody knows that the initials "D" and "R" for "Wyoming Hereford Ranch" one of the world's best of better Whitefaces.

Reynolds says he will be glad to have anybody come out and see the Herefords which are near Earth. A number of the FFA boys are planning to visit the Haberer Ranch and take a cattle Haberer has brought in. They figure they can bring home a trip there, and doubtless they can.

High School Vocational Agriculture Teacher W. W. Allen is teaching irrigation school in Plainview this week. The school will teach the latest methods in irrigation and is being held at the home of teachers and others who may be interested.

The school is conducted by Bob Thurman, irrigation specialist for the University of Utah—and in this connection it may be recalled that the Mormons who "made the desert bloom with crops" were in modern irrigation. There is no better way to irrigate than in the west, where it was first done on a large scale, and where it has been constantly improved.

Allen is available to advise with persons who need his counsel.

Area farmers whose cotton escaped the destructive hail which has been a problem of considerable concern—the bollworms, maybe billions of web worms that have arrived in the fields. Farmers blame them on the millions of millers that have come in the rainy season not so long ago.

Web worms thrive on careless weeds and then when the cotton is gone they swarm in on the cotton. This insect has generations in a season, and originated in the tropics. In the tropics it is possible for them to destroy an entire field.

Agent Dave Eaton, and his assistant, Bill Rodgers, have issued a warning against them for several weeks now. And they will be glad to advise with any farmer who may have a problem with them.

It is the most effective insecticide to use to eradicate them. (Continued on Back Page)

CCC Storage Facility Loan Plan Is Answer To Farmers Problem

Reynolds Will Marage Portales Fall Fair

Franklin Reynolds, who has been living in Littlefield for the past six months, has announced that he is returning to Portales, New Mexico, where he will become manager of the Roosevelt County Fair, a post he held last year.

The fair at Portales, will be held September 24-29, and is the largest county fair in that state ranking next to the New Mexico State Fair at Albuquerque, which opens the following week.

Reynolds, who has become well known as the friend of Lamb County farmers and stockmen, said he welcomed the opportunity to again become manager of the Portales Fair because it gives him a greater opportunity to serve agriculture, and to bring about friendlier relations and a better understanding between the farmers and ranchers and businessmen. While here he has made friends among Lamb County agriculturists who will be glad to know that he expects to return to Lamb county for visits as often as possible.

At this time it is also announced that the Lamb County Leader has made arrangements with Reynolds to prepare special articles for this newspaper from time to time on agricultural subjects of interest to the farmers and livestock raisers of this county.

Reynolds has severed his business association in Littlefield, and is returning immediately to the New Mexico city.

Funeral for Ancil Meadows Held Here Friday Afternoon

Ancil H. Meadows, 72, passed away at Payne-Shotwell Foundation, Thursday afternoon, July 26, at 1:30 p. m. Funeral services were held Friday afternoon at 4 p. m. from the auditorium of the Educational Building of the First Baptist church. Rev. Lee Hemphill, pastor, officiated. He was assisted by Rev. P. D. O'Brien, pastor of the Big Spring Baptist church, who is holding a revival meeting here, and who was also a close friend of the deceased. Rev. Holcomb, pastor of the Lums Chapel Baptist church also assisted.

Burial was in Littlefield cemetery, with Hammons Funeral Home in charge of arrangements.

Palbearers included Bill Wilson, Ott Fair, Grady Bevil, Pat Hart, Clinton McCormick and H. L. Byrd. Flower bearers were Mrs. Oma Dee Heard, Mrs. Opal Pierce, Mrs. Mary Fox, Mrs. Marie Renfro, Mrs. Pat Hart, and Mrs. Bill Fox.

Deceased was born August 16, 1878 in Williamsburg, Kentucky. He was united in marriage to Miss Nettie Boone, October 24, 1897. Five children were born to the union, two daughters and three sons. The two daughters, Aultie, and Pauline, are both deceased. The former passed away in 1907 and the latter died in 1934.

The survivors include the wife, and three sons, Roy and Carl Meadow both of Amarillo and Lee Meadow of Littlefield. Ten grand- (Continued on Back Page)

Armed Forces Day

By T/Sgt. Gerald F. Cutshall

MENTAL STANDARDS LOWERED FOR ENLISTEES AND INDUCTEES . . . The Armed Forces have lowered the minimum requirements for enlistees and inductees on the Armed Forces Qualification Test from a score of 13 to 10. This is compared to the old AGCT scores 70 and 69. Men that now hold 4-F selective service cards because of low score on their mental test will be re-tested and reclassified in the very near future.

GRADE MINIMUMS FOR AIRMEN SLASHED . . . The Air Force slashed in-grade minimums to the vanishing point for airman promotions. Effective August 1, techs, staffs, and buck sergeants will rate consideration after SIX months in grade, corporals and PFCs after FOUR. Current requirements call for a minimum waiting period of 24 months for tech sergeants, 18 for staff sergeants, eight months for corporals, and four for PFCs.

HIGHER SERVICE PAY URGED IN CONGRESS . . . A new plea for action on a general pay increase for service personnel was made in the House last week by Rep. James E. Van Zandt (Rep., Pa.), author of a bill tying service compensation to the cost of living index. Reminding the House that

he had introduced his bill on May 7 and that the cost of living index has increased 9 per cent since the Career Compensation Act of 1949, Mr. Van Zandt said he had seen "many favorable editorial comments" on his bill.

CIVILIAN DOCTORS ARE PAID BY GOVERNMENT WHEN SERVICEMEN CANNOT REACH G. I. CLINICS . . . Servicemen home on authorized leaves and absences from their station developing ailments causing extreme pain, but there are no AF, Army or government hospital in the vicinity, should contact his civilian doctor or hospital promptly for treatment. The only kink in this deal, approval from the C.O. of the nearest military installation (Reese Air Force Base, Lubbock, for those here in the Littlefield area). Bills should be sent to the nearest military installation of the branch of service the ailing serviceman belongs.

NEW ARMY FIND, "ROUGH ON RATS" . . . It will be a short life for cousins of Mickey Mouse in the future. The Army's Medical Research Branch has the answer. The substance which will revolutionize the rat's life is "actidione." It was found that Mr. Rat will drink no liquid containing it, nor will he gnaw at anything that has been sprayed with the liquid. It also shows promise of protecting fruit trees and electric wiring. Deer, it was found, will not chew bark from trees treated with it. This find should be worth gold to the government and the farmers.

Body of Robert Truelock in San Francisco

BODY OF ROBERT —24 pt. Just before going to press Friday afternoon, information was received by Lamb County Red Cross secretary concerning the body of M.M./3c Robert Daniel Truelock, son of Mr. and Mrs. John Henry Truelock of Olton, from U. S. Naval Headquarters in Washington, D. C. that the body is being held in the Naval dispensary at San Francisco, Calif. and that it is being shipped to Amarillo by rail, and will be accompanied by a Naval escort. The wire also stated that the parents will be notified by wire, as to the date of arrival.

A story concerning the death of the boy, and another brother Pvt. Loyd Truelock, stationed in Korea, who was to have accompanied the body home appears on the classified ad section of this issue.

LACKLAND BASICS GET TRY-OUTS FOR BAND . . . Lackland Air Force base, San Antonio, besides providing new manpower for the nation's air arm, also operates a program for turning out fresh recruits into regular Air Force musicians. The program is called the Bandsmen indoctrination school. Under it, every airman entering The Gateway to the Air Force is given an opportunity to qualify for a career in music which can lead quickly up the ladder of advancement.

7 NEW CIVILIAN SCHOOLS OFFER AIR FORCE TECHNICAL TRAINING . . . Approximately 60 civilian schools currently are participating in the program training thousands of airmen in technical courses for the Air Force. An estimated 20,000 airmen have completed basic tech training at the civilian sites in airplane and engine (Continued on Back Page)

LARGER ACREAGE THAN USUAL IS ANTICIPATED

Railroads Will Be Operating at Full Capacity

This year finds us with a larger acreage of grain sorghums than in the previous three years and, at the same time, commercial transportation, especially railroads, are already operating at nearly full capacity due to the increasing defense program. Therefore, it would be logical to assume that the grain sorghums harvested this fall will move to terminal storage points much slower than we would like for it.

As most grain producers know, the grain must arrive at the terminal point and a warehouse receipt received for same before the grain is eligible for CCC loan. And since the CCC loan rate for grain sorghums is higher than the market price, it is reasonable to assume that most of the grain will be placed under CCC loan.

The CCC Farm Storage Facility Loan Program is the answer to this problem for the many farmers who have taken advantage of it and, in all probability, it would be the answer to many more of the farmer's storage problems if they participated in it.

The Lamb County PMA office suggests that you farmers who anticipate a storage problem this fall call at the PMA office and investigate this problem. It will save you money.

Anthony's Manager Sustains Broken Leg Thursday

Amos Ward, manager of C. R. Anthony Company, sustained a broken left leg Thursday evening while skating at the local roller rink.

He is reported to have broken the limb between the knee and ankle.

At the Littlefield Hospital, where Mr. Ward is a patient, a number of X-rays are being taken. He is said to be getting along satisfactorily.

Grain Sorghums Get Recognition As Major Market Commodity

Future trading in grain sorghums on the Chicago Board of Trade, will start on August 1, and this announcement which came out of Chicago Thurs. marks the successful conclusion of a campaign which has been waged by Texas grain and banking interests for several years.

The action is of far more importance to Texas than to any other state, because Texas, year after year, produces more than half of the grain sorghum produced in the entire United States.

It means, in simple words that grain sorghums will now be placed on a par, in marketing with wheat, corn, oats, rye, cotton and soybeans. It means that the farmer can pick up his paper, or listen to the market radio report, and know what his grain sorghum is worth today, and to a degree, in the months ahead. It means that bankers can now hedge their purchases and loans commitments. It means crop reports and forecasts. But probably the most important meaning is that grain sorghums, long unrecognized, as a major market (Continued on Back Page)

IT NEVER FAILS

How Safe Is Your Home?

The farm home is not the safest place on the farm. More farm accidents occur in the home than in any other single place on the farm and the kitchen ranks as about the most dangerous room in the house. According to Mrs. Bernice Clayton, extension home management specialist of Texas A. & M. College, there are several reasons for the high accident rate in kitchens, but few outrank carelessness and household disorder.

She points out that a well kept kitchen, one that is provided with plenty of convenient cabinet and storage space, is most likely to be a safe room. However, a poor job of housekeeping can nullify the safety features of even the best planned and constructed kitchens. A fire caused by an explosion, spilled hot grease or from the use of worn-out electrical equipment or wiring will not only ruin the kitchen and probably the entire home but may even result in death or serious injury to the housewife and other members of the family.

In the well-managed home, all gas connections are checked regularly. Kerosene is not used to start fires in wood and coal burning stoves and all equipment and wiring is kept in good condition. Chil-

dren are not permitted to play with matches and care is exercised at all times by the homemaker when she is cooking.

Many accidents also occur on stairways and steps. The National Safety Council reports that most home accidents, 24 percent, result from falls. Faulty steps should be repaired and all steps and stairways should be well lighted. Scatter rugs should never be placed at the bottom nor the top landings of the stairway and loose or frayed runners on the stair steps are always dangerous.

The stairway treads should all be of the same width and risers the same height, says Mrs. Clayton, and the treads should not be polished. It's always dangerous to climb or descend stair or steps when both arms are loaded and it's so when the stairs and steps are cluttered.

Mrs. Clayton believes that a great number of home accidents can be prevented and at the same time fire hazards can be removed from the home if homemakers will dispose of worn out appliances, make repairs to equipment when needed and follow an orderly program of practicing safety every day in the year.

Soil Tests Tell How Much

Farmers in Cooke county are using larger amounts of commercial fertilizer this year as a result of having their soils tested at A & M College, says County Agent B. T. Haws.

Haws reports that some farmers who had been using 400 pounds of commercial fertilizer per acre under corn and peanuts.

For good production of corn, grain sorghum or sudan grass under normal rainfall conditions, approximately 150 pounds of nitrogen, 60 pounds of phosphoric acid, 150 pounds of potash and 800 pounds of calcium oxide are needed per acre, according to M. K. Thornton, agricultural chemist of A & M College.

"After we test a sample of soil, we can predict with a reasonable degree of certainty what the limiting nutrient will be in crop production under normal rainfall," says Thornton.

The agricultural chemist points out that fertilizer recommendations are affected by other conditions in addition to the amount of plant nutrients present. Some of these conditions are soil type and soil characteristics, amount of leaching, soil structure, the preceding crop on the crop on the land, the crop to be grown, previous soil treatment and seed-bed preparation.

Thornton suggests that farmers contact their county agents for instructions for having their soils tested.

You and Your Congress

While Congress busily attempts to curb wasteful spending among the executive agencies of the government, one of its own committees charges that money is being wasted through inefficient legislative operations.

The Senate Committee on Expenditures in the Executive Departments reports that between January, 1947, and January, 1951, Congress spent nearly \$7,000,000 on special investigations.

Much of that was wasted through duplication of effort, unnecessary hiring of special investigators and, essentially, appointment of special committees to do work which existing permanent committees were able to perform, the report declares. It does not explore the possibility of which there is considerable evidence, that special investigations sometimes are conducted for the personal publicity of the committee members.

The Committee recommends, as the main reform, that all Congressional investigations not directly related to pending legislation be handled by a permanent committee. It does not say whether the House and Senate each should have such a committee or whether the proposed committee should be a joint House-Senate operation. It recommends itself for the job in the Senate in the event it is decided that there should be separate committees.

The Expenditure Committee, as it is known in abbreviated form, presents the following evidence in support of its recommendation for centralized investigation where pending legislation is not concerned:

Several Committees or subcommittees have conducted inquiries into matters already under inves-

tigation by other committees or subcommittees.

For example, the permanent Senate Investigations subcommittee of the Senate Expenditures Committee is the successor to old Truman Committee, which was headed by the President when he was still a Senator and investigated the defense and war efforts.

That notwithstanding, the Senate last year authorized funds for special investigations by a Defense Preparedness subcommittee of the Armed Services Committee. The subcommittee, which is headed by Sen. Johnson (D-Tex.) and got \$150,000 for its work this year, investigates "construction, procurement of supplies, material, munitions, vehicles, aircraft, vessels, plants, camps, and other articles and facilities in connection with the national defense."

The Expenditures subcommittee headed by Sen. Hoey (D-N.C.), con-

Recruiting Station On 7-Day Schedule

The Marine Corps recruiting station in room 200 of the Lubbock Post Office building has been put on a seven day week schedule, following receipt of orders Saturday from Lt. Norman D. Phillips, district assistant recruiting officer at Dallas. The office will remain open from 8 a.m. until 4:30 p.m. each day, until further notice. Lubbock recruiters have an unlimited quota and are accepting men in all categories. Men between the ages of 17 and 31 are eligible for enlistment in the regular Marines for a three or four year period or the Marine Corps Reserves for the duration of the present emergency. Volunteers can be married or single regardless of the number of dependents. Through July 31 the office accepting men who have received their pre induction physical examinations under Selective Service.

Furthermore, the report declares, a subcommittee of a permanent committee, authorized to investigate a particular matter, sometimes finds its jurisdiction inadequate. It develops facts which require further investigation into related matters over which it has no jurisdiction.

That happened during the investigation of conduct of the Reconstruction Finance Corp. by a Senate Banking subcommittee headed by Sen. Fulbright (D-Ark.). The subcommittee found evidence of possible questionable transactions involving the Maritime Commission and possible violations of or loopholes in the federal income tax laws.

When the Fulbright subcommittee sought to pursue these matters, the witness involved balked, claiming the Banking subcommittee lacked jurisdiction. He conceded that the Expenditures Com-

COTTON QUIZ

mittee did have jurisdiction.

The Fulbright subcommittee finally decided to refer those particular matters to the Expenditures Committee is checking up on them.

All of that could have been avoided, the report complains, if the entire RFC investigation could have been referred to a centralized investigation committee. And the Fulbright subcommittee would not have needed the \$70,000 it got to investigate the RFC.

The report also declares that centralized investigation would correct the present lack of "uniformity in the conduct of hearings and the treatment of witnesses. This would eliminate much of the criticism that has been leveled at Congressional investigations."

FREE CARE EXPANDED

VANCOUVER — (AP) — High cost of living has obliged Vancouver General Hospital to expand its free medical care. Formerly a man earning \$110 monthly for himself, wife and one child, and \$20 for each additional child, was eligible. Now a family of three earning \$150 and \$25 for each addition up to a maximum of \$250 is eligible for free care.

ENGLISHMEN LONDON — (AP) — The Englishman is changing his shape again. Instead of lounging around in tweeds, his trousers sagging at the knees and his pockets bulging at the seams, he will soon be strutting about looking like a crack guards officer. In short, he will be wearing the "military look." The "Tailor and Cutter" trade paper for Britain's tailoring industry, welcomed the change. The newest suits for men are based on the style of the 1930s with tighter fitting trousers without the baggy knees. The new style is a "sartorial hysteria" which follows the war, "Drape suits" into an early style and exaggerated popular by Hollywood themselves to a

PROTECT YOUR FAMILY WITH Polio Insurance

PAYS UP TO \$10,000 TO EACH INSURED

If polio were to strike in your family you could not afford the huge cost of medical care. Polio insurance is a low cost means of avoiding financial worry for the welfare of your loved ones. In the event any member of your family is stricken with this dreaded disease, the medical care will be paid for by this plan.

Call 472-J right now and we will explain how your family can easily afford this protection.

**Services for Sgt.
Randolph to Be
At Plainview**

The bodies of two Panhandle soldiers killed in the Korean war were scheduled to arrive at San Francisco July 16.

United Press reports identified the soldiers as Lt. Riley C. Gazzaway of Canyon and Technical Sgt. Raymond D. Randolph of Earth.

Lieutenant Gazzaway, 28 years old, was killed Jan. 1 while he was serving with the 35th Infantry Regiment. He was the son of Mr. and Mrs. R. G. Gazzaway of Canyon, formerly of Happy.

Lieutenant Gazzaway was a star athlete who captained the Happy High School football team in 1936 and 37. A veteran of World War II, he re-enlisted and left for Korea in September, 1950.

Sergeant Randolph, 35, was the son of Mr. and Mrs. L. H. Randolph of Earth. He was killed in action Sept. 5, 1950, while he led an infantry patrol on a scouting mission.

Sergeant Randolph was born in Roosevelt County, N. M., but spent most of his early life at Earth. A veteran of World War II,

**Purchases Fine
Hereford Bull**

At a dizzy purchase level, Ted Haber of Earth last week acquired T. T. Triumphant 7th from the Thornton Hereford Ranch in Colorado to head his purebred herd at Haber Hereford Farms, Earth.

This magnificent animal weighing 2,200 lbs., and sired by W. H. R. Royal Domino 45th is the product of one of the best Hereford ranches in America, owned by Governor Thornton of Colorado.

Ted has spared no expense to stock his farm with many prize animals and he extends a cordial invitation to everyone to drive out and view his herd.

The racing strips at Hialeah Park and Sunshine Park have been sown with soy beans to help revitalize the soil.

**Scouts Close
Swimming Pool
At Camp Post**

Dr. F. B. Malone, Council President, announced today that the Swimming Pool at C. W. Post Memorial Scout Camp at Post, Texas, has been closed for the summer.

This action was taken as a precautionary measure due to several cases of Polio in the nearby City of Post, Texas.

The Scout Camp will remain open for use of Scout Troops for Camping purposes without swimming facilities. Scout Troops are reminded to get their Camping Permits from the Council Office in Lubbock before going to Camp Post.

RETURNS TO PORT
Bobby D. Suggs, seaman, USN of Box 242, Anton, Texas has returned to San Diego, Calif. aboard the landing tank ship USS 1082 which has been supporting United Nations forces in Korea for the past six months.

The ship transports troops and supplies from Pacific bases and Japan to Korea during the tour of duty in the far East.

Vince Boryla, one of the basketball stars for the New York Knickerbockers in the NBA, works as a salesman for a book concern, during the summer months.

Carlos Bernier, playing for Bristol, Conn., in the Colonial League in 1950 stole 53 bases in 52 games. He's now running wild on the bases for Ben Chapman's Tampa Smokers.

"THAT LITTLE GAME" Inter-national Cartoon Co., N.Y. By B. Link

Your Child Today

By David Taylor Marke

Picnics can be great fun for kids. That is, if Mom and Dad are not constantly saying: "Don't go near the water," or "Don't go near the swings," causing the youngsters to get fun of the "stolen" variety instead.

So says Helen Stanick, Cornell University's homemaker in one of her weekly broadcasts. Instead, she thinks we should borrow a few suggestions from the Sunday School teacher who seems to have the knack of managing the daredevils and mischief-makers of many families. Her knack is acquired through practice and patience. And through good planning.

If the youngsters are kept busy, they won't fall into mischief or come to grief, she says. If games are chosen with care so as not to be too strenuous in the heat of the day, no matter how tiny the tots, they'll enjoy playing.

Two to four year olds could have a snowball fight - only instead of snow, the youngsters pelt each other with cotton balls made to look like snowballs. And since the cotton is light and doesn't carry too far, the younger kids are forced to stay close-by.

Balloons on a string are another good way to keep the small fry amused, yet safe from dangers that may lurk when they stray.

Even on a picnic, and despite all the activity, the youngsters should still continue with their naps in the afternoon, says Miss Stanick. A blanket under a tall shade tree would be just the place for this bit of normal routine on the picnic.

Similarly six-to-twelve-year olds can join in these games. Ring-A-Round-The-Roy and Farmer in the Dell are just as much fun on a picnic as they are in the backyard.

Of course, the older children can also help with the mechanics of the picnic such as setting the table, arranging food, etc. In fact, it is the best time for them to help. The paper dishes can't chip or break, the silverware requires less care in handling and there's less fuss and simpler foods so a properly set table isn't so important.

It's a good idea, says Miss Stanick for several families to combine forces on a picnic. Then one set of parents at a time can see about knowing the whereabouts of all the children and all have less cause to worry about them.

It doesn't take too much time to supervise games. Very often, if the parents start a game, the youngsters will just continue on for a while until the next item on the program which might be a walk or a swim. In this way there is proper supervision without suppression.

It is not obvious supervision, but rather supervision in the sense that parents work and plan with the children at the park, woods, or even at the neighbor's barbecue pit.

And you don't have to go far from home to have a picnic. Nor do you have to go too much trouble to make the picnic fun for the youngsters.

Barnyard Manure Increases Cotton Lint Yields Substantially in Ten Year Test

Manure application increased cotton lint yields substantially in a 10-year test at the Lubbock Agriculture Experiment station.

Don Jones, station superintendent, has published results of the dryland tests which began in 1936. The results were listed in a report from R. D. Lewis, College Station director of the Texas Agricultural Experiment station.

Jones said in his summary of results: "Where barnyard manure was applied at the rate of two, four and eight tons per acre for five consecutive years and the land cropped to cotton for 10 years the total increase of lint cotton was 230 and 477 and 820 pounds, respectively. The two, four and eight ton applications of manure gave a yearly increase of 23 and 24 and 22 pounds of lint per ton applied respectively."

The test also involved the use of cotton burs as fertilizer. Of the results from cotton burs Jones said, "For the two ton application of cotton burs, the increase totaled 195 pounds for the nine years."

Wet Years Best
Jones said barnyard manure did not affect plant height except in the wetter years and did not affect the staple length. It did increase the maturity rate.

He believes the tests show the limiting factor in the use of barnyard manure is rainfall. "There is insufficient moisture to activate barnyard manure except when rainfall is abundant," he said. "Good yield response is obtained even after several years when such occurs."

The test began in 1935 on five plots of land. One plot received no manure or cotton burs as a control plot.

One plot received two tons of manure through 1939, another received four tons through the same year and a fourth received eight tons of manure through 1939. The cotton bur plot received two tons of burs each year.

These same plots received no manure from 1940 through 1944.

The plots were listed approxi-

mately seven inches deep and received other normal seedbed preparation and cultivation.

Fertilizer was usually applied just ahead of seedbed preparation, normally during February.

Average rainfall for the five years of application was 18.95 inches and for the residual period it averaged 23.42 inches.

Jones said it is doubtful if there was sufficient rain in the growing seasons of 1935 and 36 for the fertilizer to rot enough to be effective. Heavy rains of September 1936, June and July of 1938, plus the carryover from 1937, are responsible for the increases in yields during 1937 and 1938. Above average rain in 1941 and 1942 indicate sufficient moisture for activation of manure during these two of the five residual years.

First Year Results
In 1935 the plot with no manure produced 151 pounds of lint, that with two tons 150 pounds, and that with 4 tons 181 pounds, and that with eight tons 141 pounds. This was one of the years Jones believes rainfall was insufficient to activate manure by rotting it.

The average for the 10 cropping years was 355 pounds of lint from the no manure plot, 382 pounds from the two ton plot, 419 pounds from the four ton plot, 437 from the eight ton plot and 532 pounds from the cotton bur plot.

MECCA WATER SUPPLY TO BE INCREASED

CAIRO — (AP) — The Saudi Arabian government has earmarked \$1,578,400 to improve roads and water supply for Mecca, the Arab News Agency reports. This is the biggest allocation in the history of Islam's holy city, ANA added in a dispatch from Mecca.

Tens of thousands of pilgrims from all over the Moslem world every year swell Mecca's population. Water supply is one of the main problems of this city, built in the desert.

Anton Legion Elect Officers

Friday night of the Odus Nelson Post No. 458 of the American Legion of Anton elected the following officers: J. G. Greer, Post Commander, J. W. Jackson, Pat Byrum and Paul Tibbett, first, second and third vice-commanders, Artis Lambeth, Adjutant, Nelson Reich, Chaplin, N. E. Wood and Howard Culberth, Sergeants-at-arms; W. O. Stacey, Service Officer and Douglas Teague, Mess Sergeant.

H. G. RICHARDS SELLS ANTON NEWS

Because of poor health, H. G. Richards has sold the Anton News to his son, Alton E. Richards of Aspermont. Judge Richards has edited the News for eighteen years. He has been seriously ill for a number of weeks in a Littlefield hospital, but is reported much improved.

Mother of Anton Resident Dies

Funeral services for Mrs. L. M. Biffle, 73 long time South Plains resident who died at 7 p.m. last Wednesday in West Texas hospital were held in the Petersburg Methodist Church.

Rev. O. A. Graydon officiated assisted by the Rev. Alby Cockrell.

Mrs. Biffle was the mother of Jerry Biffle of Anton.

She entered the hospital two days before her death. She had lived in Petersburg for 10 years. Survivors include her husband, L. E. Biffle of Petersburg, one daughter Mrs. E. E. Hamblin of Shallowater, 4 sons Harold of Lubbock, Marvin of Roosevelt, Herman of Petersburg and Jerry of Anton.

Mr. and Mrs. Biffle celebrated their 50th wedding anniversary last October.

HARKEY'S HAVE GUESTS

Mr. and Mrs. C. C. Harkey and son Ronnie of Houston arrived Friday for a few days visit in the home of his parents, Mr. and Mrs. Newton Harkey. They were called here due to the illness of Mrs. Harkey, who has been confined to her home for the past three weeks. She was slightly improved Friday.

Return from W. O. W. National Convention

Mr. and Mrs. Merle Beard and Mr. and Mrs. W. D. Chapman returned home Wednesday, from a two weeks trip to Seattle, Washington, where they attended a five day meeting of the National Woodmen of the World Convention. Enroute home they visited points of interest including the Yellowstone National Park.

O. C. Sharp Released From Local Hospital

O. C. Sharp who has been a patient at the Payne-Shotwell Foundation for the past 30 days was able to be taken to his home, Wednesday afternoon. He has been suffering from a heart ailment, and has been in a critical condition.

Revival Meeting Will Open at Parkview Baptist Church August 26

Rev. Bruce Giles

A revival meeting will open at the Parkview Baptist Church Friday, August 17, and continue through Sunday, August 26.

Rev. Bruce Giles, Pastor of the First Baptist Church, Earth, Tex., will do the preaching.

Local talent will be in charge of the singing.

Parkview Baptist Church is located on West Fifth Street at Wicker Ave., two blocks west of City Park.

Services will be held at 9 a.m. and 8 p.m. daily.

Dr. Thornton, Baby Specialist, Now at Lubbock

Dr. Melvin Thornton, son of Mr. and Mrs. H. C. Thornton, is now in Lubbock practicing with Dr. Donaldson, in the Medical Arts Building, in the West Texas Hospital.

Dr. Thornton is a baby specialist. He came to Lubbock from the Jeff Davis Hospital, Houston, where he had practiced a year, previous to which he was connected a year at the Santa Rosa Hospital.

Dr. and Mrs. Thornton have two children, Cyndy aged 2, and Margo, 4 months old.

FILM PRESENTED AT FIELDTOWN

A showing of the film "The Holy Land," was presented at the Fieldtown Baptist church, Thursday night, July 26. A large crowd took advantage and saw the worthwhile, educational film.

POISON IVY KILLER

Three new chemicals for destroying the bright shiny poison ivy are suggested by the U. S. Department of Agriculture. Chemical treatments are most effective when the plant is in full leaf, they advise.

Ammonium sulfamate, sold by trade name, is one of the best, according to the department.

They advise using it as a spray — 12 to 16 ounces of the powder to a gallon of water — or dry in a mixture of about one part of the chemical to six parts of sand, shoveled on or shaken from a pail. The spray should be applied to the leaves until they are wet but not dripping. The dry mixture is less likely to injure young trees than the spray and is safer to use in areas where there are ornamental shrubs or other valuable plantings. One treatment of either spray or sand should destroy most of the foliage in about 7 weeks. A complete kill may take 2 or 3 successive applications as regrowth appears.

Other growth regulating compounds such as 2,4-D and 2,4,5-T (sold under various trade names) also may be used singly or in combination.

Experts warn however that these powerful chemicals should be used carefully so as not to hurt other ornamentals or crops.

Television Is Too Expensive

TOKYO — (AP) — Jiro Sato, Japan's man in the street, and his wife are eager for television but they are going to have to wait a long time for it. The reason: Nobody can afford it.

Receiving sets are far beyond the reach of the average man. Six companies are making sets on an experimental basis, but these are not on general sale. The sets cost 100,000 yen, or about \$275. That's a sum the 15,000 yen-a-month worker would find impossible to shell out. There are less than 200 sets in Japan, all of them in Tokyo.

So far one license for TV broadcasting has been issued. It is held by Yomiuri, the largest newspaper in Tokyo. Officials of Yomiuri say they plan TV on a limited and experimental basis for a few years.

CUTS TEETH EARLY
CARLISBAD, N.J. — There's a surprising Verne Tuckey man put the bite on me early in life. Young Bobby, and Mrs. Robert L. bad, boasted from of four months. You he has eight teeth twice his age after their first tooth.

THE STATE OF TEXAS
To: T. J. Frazier

Greeting: You are hereby appear before the district Court of Lamb County, Texas, at 10 o'clock a.m. of the next after the expiration of two days from the date of this order. The substance of this order is the 10th day of July, 1951, then and there Plaintiff's Petition in Plaintiff's cause, No. 3175 on the docket, and styled Dorothy Plaintiff, Vs. T. J. Frazier. A brief statement of this suit is as follows: "This is a suit for..."

by Dorothy Plaintiff against T. J. Frazier. Plaintiff alleges that defendant is guilty of neglectful treatment of such a tender their furtherer or insupportable; that no children born of and no community and for a judgment granted and dissolving the same as is more fully set forth in Plaintiff's Petition on the 26th day of July, 1951.

Vows of Women

Sidney White, Recent Bride Complimented With Gift Shower

Sidney White

Mr. and Mrs. J. D. Nall of Enochs are announcing the marriage of their daughter Miss Jo Maxine to Harvey Coffman, son of Mr. and Mrs. Claude Coffman of Goodland, which took place last Sunday night, July 22, at the Enochs Baptist church. Rev. Ike Harris, pastor, performed the impressive double ring ceremony.

Church Ceremony Unites Jo Maxine Nall and Harvey Coffman

The vows were exchanged before an arch of fern and pink gladioli. Baskets of pink gladioli were placed on each side of the altar. Tiered candelabra formed a background for the decorations.

Candlelighters were Miss Wanda Bayless, cousin of the groom, and Miss Maurine Coffman, a sister of the groom. They were both attractively attired in dresses of pastel pink and blue respectively.

Miss Jerry Harris, pianist rendered a number of selections, and accompanied Mrs. Robert White, Lubbock, a sister of the bride, when she sang, "I Love You Truly." She played the traditional wedding marches.

The bride given in marriage by her father wore a white nylon all over embroidery dress of ballerina length, with rhinestone buttons down the front. She wore a tiny starched lace, off-the-face hat, and carried a bouquet of pink Briarcliff roses on a white Bible.

Miss Myrtle Bayless, cousin of the groom was maid of honor, and she wore a dress of blue embroidered organza, of ballerina length, designed with a full skirt and tight fitting waist. She carried a Colonial bouquet of Briarcliff roses.

The groom was attended by his cousin, David Coffman. An informal reception was held at the home of the bride's parents, following the wedding. The lovely three tiered wedding cake decorated with white icing and tiny pink rosebuds was served by Mrs. Dub Elliott of Morton and Mrs. Eugene Brownfield of Lubbock served the punch.

The bride wore an off-white suit trimmed in brown for traveling to Ruidoso, N. M. where the couple spent a short honeymoon.

Mrs. Coffman is a graduate of Bula High school with the class of 1949, and the groom graduated from Mulshoe High school. The couple plan to make their home on a farm near Goodland.

Glenna Winston and Calvin Steveson To Wed August 19

Announcement is being made of the engagement and approaching marriage of Miss Glenna Winston to Calvin Steveson, son of A. G. Steveson of Odessa. Miss Winston is the daughter of Mrs. Homer Winston and the late Judge Winston of Brownfield and the niece of Mr. and Mrs. E. L. Winston of this city.

The marriage will be read August 19 at Crescent HHI Church of Christ with Carl Spain, head of Texas Tech Bible chair in Lubbock, performing the ceremony.

The bride-elect is a graduate of Brownfield High school and Texas Tech where she was a member of Theta Sigma Phi and Forum, head girl cheerleader two years, named Sun Princess, and was a member of Who's Who in American Colleges and Universities and Who's Who on the Campus.

Anton OES Meets For Robert Morris Program Thursday

A regular meeting of Anton Chapter, Order of the Eastern Star will be held Thursday night, August 2, in the chapter room at Anton.

In observance of Robert Morris Birthday anniversary, founder of Eastern Star, a special program will be presented.

Hosts and hostesses for the occasion will include Mrs. Emma Campbell, chairman, and Claude Campbell, N. B. Oliver and Leora Oliver.

Returning From Honeymoon

The June bride, so recently concerned with getting her man, is now returning from her honeymoon with concern of a different sort: how best, through all the years ahead, to keep him.

Understanding, sympathy, and kindness play an important part in continuing compatibility, but of equal importance is the degree to which a house or an apartment can be made a Home, Sweet Home, instead of merely living quarters.

A recent survey shows that the so-called average bride chalks up a bill of \$1,750 to set up her home, and knowing that the shortest cut to a man's heart is through his stomach, she concentrates a good share of this in the kitchen and dining room.

Any husband will be tolerant, at least for awhile, of imperfections in such specialized fields as baking and roasting, but woe to the blushing bride if she serves him a poor cup of coffee. He feels, and rightly so, that while his wife can't immediately measure up to "mom's cooking," she certainly should be able to serve a good cup of coffee.

Since many of today's brides are apt to have been working girls right up to the date of the wedding, some will be inept housekeepers, even in so simple a department as coffee brewing. So take heed, young madam: here's a checklist of general recommendations for winning the everlasting approval of that Coffee-Loving Lovable Guy.

First, keep your coffee maker immaculately clean by washing it thoroughly after each use and rinsing with clear hot water. Always scald it before using.

Measure coffee and water accurately to guarantee consistency of flavor. Use one National Coffee Association standard measure of coffee—or its equivalent of two level tablespoons—to each six ounces of water (3/4 of a standard measuring cup). For best results, start with freshly drawn cold water, brew at full capacity of your coffee maker, and serve as soon as possible. Coffee that has been allowed to cool can't be reheated without loss of flavor, and boiling it imparts a bitter taste; so hold it at serving temperature by placing the pot in a pan of hot water or over a low heat on an asbestos pad.

Never allow cloth filters to become dry and never wash them with soap or chemical cleaners. Keep the filter clean and sweet by immersing it in cold water and leaving it there until needed again.

A delicious cup of coffee, a good-morning kiss, and a sunny smile, the combination is guaranteed to lend special enchantment to the crucial breakfast hour that sets the tenor of each day.

The Valleyview Club met Tuesday, July 17, at the home of Mr. and Mrs. Wade Strother, when a business session was held.

Plans were made for an auction sale to raise money for repair work on our community house. The sale was held at the Community House Tuesday.

A vegetable salad, rye bread, cake, whipped cream, and cokes were served to Madames Derrell Green, Aubrey Kirby, Nell Matthews, Doyle Gilley, N. B. Embrey, A. A. Gray, J. C. Hodges, Ray Denny, Vinson Boreing, Hayes Denny, LaVern Boswell, Coy Grant, A. B. Roberts, Ellen Wade, Arvilla Tipton, Peggy Starns, Eva Miller, and Wade Strother.

The Club will not have a meeting in August because so many of the members will be away on vacation.

Wedding Vows for Kay Clements And Troy Pritchard at Plainview

A wedding of interest here, which took place in Plainview Saturday afternoon, July 21st, was marriage of Miss Kay Clements, daughter of Mr. and Mrs. R. R. Clements to Troy Dale Pritchard, son of Mr. and Mrs. V. E. Pritchard, both families of Plainview. The Pritchards are former prominent rural residents of Lamb County, and they also lived in Littlefield.

The ceremony was performed at the home of the bride's parents, with M. J. Cunningham, Jr., of Dallas performing the single ring ceremony before a mantle decorated with greenery and white gladioli, which cascaded over the front. Baskets of white gladioli were placed on either side. White tapers in crystal candelabra decorated the mantle.

Miss Beth Booker offered "Clare de Lune," "Indian Love Call," "Yours is My Heart Alone," "Liebestraum" and "Sentimental Me."

The bride given in marriage by her father wore a ballerina length dress of imported French chantilly lace over candlelight satin and layers of nylon tulle. The scalloped hemline graduated to floor length in the back. Tiny buttons filed from the scalloped neckline to the terminal point of the fitted bodice. The yoke of nylon tulle had a high round neck. Matching lace mitts reached the ruffle on the fitted three-quarter length sleeves. The veil of silk illusion of elbow length fell from a headband of crystallized orange blossoms. She wore a single stand of pearls a gift from the bridegroom. Her bridal bouquet was a white Catalpa orchid atop an open white Bible, showered with an arrangement of white satin streamers and Stephanotis.

Miss Christine Foster was her cousin's maid of honor. She wore a dress of orchid nylon marquisette. The embroidered skirt was over a taffeta underskirt. She wore a matching stole around her shoulders, and carried a colonial bouquet of pink delight roses and lace.

Jack Pritchard of Anton was his brother's best man. Mrs. Clements mother of the bride wore a gold-colored crepe dress. Her corsage was of white gardenias.

Mrs. Pritchard, mother of the groom chose a pretty blue lace dress and she also wore a white gardenia corsage.

Following the wedding a reception was held. The serving table was decorated with pink and white nosegays with sweetheart roses and maidenhair fern encircling the three-tiered wedding cake. Bouquets of gladioli and asters were placed on the buffet and elsewhere in the home. Mrs. M. T. Taylor of Lubbock served the cake and Mrs. J. H. Reinken poured the punch.

Mrs. Pritchard left on a wedding trip to Colorado, wearing a navy and white shepard-checked suit with navy blue linen accessories. She wore a shoulder corsage of orchids. They plan to be away two weeks.

The bride attended Plainview High school and also North Texas State College, Denton for the past year.

The couple will make their home at 2099 W. 11th Street, Plainview. Mr. Pritchard is engaged in farming.

Whitharral Group Goes to Lubbock

Along with the other 4-H club boys and girls of Hockley county who made the trip to Lubbock last Tuesday were:

Frankie Sue Billings, Carol Beth Hughes, Vonelle Commons, Carlene Reed, Leslie Hulise, Royce Clark, Jimmy Lott, Jimmie Fay Morrow, Janice Callis, Joy Bennett, Patsy Shedd, oan Tipton, Sue Ratliff, Charles Ray Denny, Dale Gage, Norman Theiford, Barbara Montgomery, Lavana Durrett.

Annabelle Hoelscher, Winfrey K. Grant, Edgar Edwards, Glen Edwards, Lindu Reed, Gwendolyn Bolton, Janice Bailey, Carolyn Husley, Patsy Baisden, Peggy Baisden, Bobby Brown, Bonnie Callis, Harvey Hoelscher, Barbara Gage, Billy Theiford, Cassandra Hood, Sandra Tipton, and Jimmy Dale Billings.

Sponsors included Mr. and Mrs. C. H. Billings and Mmes. Carl Reed, Buck Grant and T. H. Tipton.

Amherst Lions Club Barbecue Held Recently

The annual Amherst Lions Club barbecue was held recently at the V. M. Peterman, Sunshine Ranch 19 miles northeast of Amherst.

Lion President Horace Holt welcomed the Lions, their families and a large number of guests which included employees and their families of the Southwestern Public Service Company Light Plant being built between Amherst and Earth.

Lion Holt introduced J. B. Lynn (Uncle Jay of Amarillo who proved to be very adept at entertaining. He conducted two contests. One among the ex-service men of World War II and the other between the children present, which was a gloom contest. In the ex-soldier contest Uncle Jay had the participants stand in formation for his "Commands." It they obeyed his commands preceded by "Kelley says" everything was all right. If not they had to drop out of the contest. J. W. McQueen of Amherst was winner and received the award, which he turned over to the Lions club treasurer. Twenty-five cents was collected from each participant at the beginning of the contest. In the children's contest Uncle Jay asked each child to wear a frown and when he caused them to smile or laugh they were disqualified. Uncle Jay and Peterman's son Joe drove the tractor around the ranch several times which was attached to a wagon filled with hay and children.

Uncle Jay was required to feed twin lambs milk from a bottle, which added to the merriment of the occasion.

Lester La Grange and V. M. Peterman had charge of the barbecuing of the beef and lamb which was served with all the trimmings to approximately 150 Worth, Lubbock, Mangum, Okla., Oklahoma City, Amarillo, Sudan, Earth, Littlefield, Levelland Houston and California.

menue planning for general entertaining.

Refreshments of cheese tidbits, pineapple punch, and individual cakes were served to Mesdames Evelyn Landers, Lillian Brown, Vera Carlisle, Ethel Wren, Letha Newson, Myrtle Faye Carter, Srna Mae Wade, Lucile Bluhm, and two visitors, Mrs. Roberts and Miss Joan King of Stillwater, Okla.

The club will meet with Mrs. C. G. Landers Sept. 1.

Admiral's Remains Taken Aboard Ship On Which Local Man Is Seaman

On the passing away suddenly of Adm. Forrest P. Sherman at Naples, Italy, Sunday morning, his remains were taken aboard the Mount Olympus, head-quarters ship of Admiral Carney, and on which Harry Rogers of Littlefield was Seaman Apprentice.

Rogers is the son of Mr. and Mrs. Omer J. Rogers of Rt. 1, Littlefield.

He enlisted in the Service on September 2, 1950, taking basic training at Great Lakes base, Ill. From there he was sent to England, and was stationed at Portsmouth for a time. He also spent some time in Nice, France, Africa, Sicily and Greece.

At the time of his death Adm. Sherman was in Naples on a diplomatic mission to add Spain's

military weight to the defense of the West.

Sherman, 54, was also inspecting U. S. Naval Bases in Europe when he suffered two heart attacks.

Within the past week, the admiral had met with Generalissimo Franco in Madrid, had conferred with General Eisenhower in Paris, and had visited Frankfurt, London and Naples.

The strenuous schedule—drafted with an eye to convincing America's European allies that cooperation of Franco Spain is essential to Western defense may have led to the admiral's death.

Saturday night, accompanied by his wife, he had attended a concert in Pompeii and seemed in the best of health.

During the night he suffered the

WATERMELON TIME — Tourists from 25 states will be served free watermelon by pretty Minola girls like Ann Lukenbill (above) during the Third Annual Watermelon festival (July 25). Miss Lukenbill was festival queen last year. (AP Photo)

first attack an Italian Specialist and a U. S. Navy physician worked feverishly on the Admiral and he seemed to rally. A short while later, when all immediate danger seemed to have passed, the Admiral suffered a second heart seizure and died within a few minutes.

Blast, Fire Wreck Muleshoe Building

A fire, believed to have been set by the explosion of an acetylene tank Sunday night gutted the interior of the shop at the National Alfalfa Dehydrating and Milling Company plant at Muleshoe.

Workers at the plant said the fire began with a tremendous explosion that sent flames shooting from all sides of the corrugated steel structure at 9:30 p.m. Although the plant was in full operation, no one was injured.

Onard Upton, manager, said damage would probably amount to \$5,000. The Muleshoe fire department had extinguished the blaze by 10:00 p.m. A truck and other equipment was destroyed but the plant continued to operate on a full scale basis.

FIELDTON FACTS

VACATIONING AT HOT SPRINGS
Mr. and Mrs. H. C. Pickrell are at Hot Springs, N. M. where they will take the baths. Their daughter-in-law, Mrs. L. H. Pickrell, has been there for the last two weeks.

Mr. and Mrs. Bob Mayon of Lubbock spent Sunday visiting in the home of Mr. and Mrs. Cliff Hooley and family.

SUNDAY IN HOOLEY HOME
Mr. and Mrs. H. C. Miller spent Sunday afternoon in the Hooley home.

ILL IN HOSPITAL
T. T. Harrison was ill this week and spent two days in the Payne-Shotwell Hospital. His condition was reported as improving when this was written.

EARTH VISITORS
Mr. and Mrs. Henry Tilman of Earth spent Sunday visiting with Mr. and Mrs. L. E. Arnold and family.

UNDERWENT OPERATION
Troy Keesey underwent an appendix operation last Tuesday at the Payne-Shotwell Hospital. Sunday he was doing fine.

HAS APPENDICITIS
Benny Wilson underwent an appendix operation Sunday at the Payne-Shotwell Hospital.

VISIT GREER FAMILY
Mr. and Mrs. Audis Greer of Shallowater spent Sunday visiting with Mr. and Mrs. J. A. Greer.

IN LITTLEFIELD
Mrs. Werta Richards and children are staying in Littlefield with Mr. and Mrs. Buck Richards and family this week.

Her grandson, Robert D., is ill and she is helping them take care of things.

VISIT IN AMHERST
Gwendolyn Reed is spending this week visiting with Mr. and Mrs. Grady Trotter in Amherst.

FELLOWSHIP SUPPER
Last Wednesday the W.S.C.S. sponsored a fellowship supper held at the Methodist Church.

Each family paid one dollar for their supper to help raise money for the church. About 90 people were present.

SUNDAY VISITOR
Lester Mouser spent Sunday visiting with Doyal Wayne White.

MOVE TO EARTH
Mr. and Mrs. W. C. Dane and son moved to Earth over the week end. They plan to make their home there for the present.

HOME FOR WEEK END
Pfc Leroy Wallace of Fort Sill

Personal To Women With Naggging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to acid, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Three Olton Boys Hurt In Auto Accident

Three Olton teen-age boys received injuries from an automobile accident at Plainview, Thursday night, July 12.

Lonnie Smith 17, received a broken chest bone and other bruises. He was treated at the Plainview Sanitarium.

Earl Powell 17, was treated at the Olton Hospital for a broken nose and facial cuts.

Billy Guy Thomas, 16, received

first aid at the Plainview Sanitarium for minor cuts and bruises.

Parents of the boys are Mrs. L. D. Smith, Mrs. M. M. Powell and Mrs. Dick Thomas.

The boys were in a '51 Ford when it was struck by a pickup truck as doing well.

One of the boys sets in America when cured when Jim Thomas shot, won the Texas

Experience Teaches Valuable Lessons

Mrs. Lula Nelson, 1702 E. 63rd St., Los Angeles, Calif., is the very young mother of seven children. The youngest child is two years old and the oldest is 11. The two youngest children are pictured here with Mrs. Nelson, Murlean, the two-year-old, and Richard, who is three years of age. Now there is probably very little about raising children that Mrs. Nelson doesn't know. Experience has taught her how to safeguard the well-being of her youngsters. And her experience with today's great family formula, HADACOL, has also taught her something valuable, for Mrs. Nelson had been having annoying aches and pains, didn't rest well and felt run-down. She heard how HADACOL was helping other folks who were suffering from a deficiency of Vitamins B₁, B₂, Iron and Niacin and began taking it. HADACOL helped her so much that now all the Nelson children are taking their HADACOL regularly, too.

Here is what Mrs. Nelson says about HADACOL:

"I was run-down, couldn't sleep at night, had aches and pains and with seven children to care for I couldn't get my work done. After three bottles of HADACOL I felt so much better I could do more work than ever before. I've been taking HADACOL ever since and feel so good. I now give it to my children and it has helped them, too."

Richard, Murlean, and Mrs. Nelson

erals to every organ, and every part of your body.

HADACOL is that wonderful new preparation — promising blessed relief for your indigestion, stomach disturbances (gas, heartburn, sour "risings" after meals), as well as that general run-down condition, and annoying aches and pains, if due to a lack of Vitamins B₁, B₂, Iron and Niacin in your system.

HADACOL is so amazingly successful because if your system lacks Vitamins B₁, B₂, Iron and Niacin it acts directly to relieve this deficiency—the real cause of your trouble. That's the kind of product you want—the kind you should buy—the kind you should start taking immediately.

Only One Genuine HADACOL

Don't go through life suffering the miseries caused by such deficiencies when relief may be as close at hand as the nearest drugstore for sufferers from these deficiencies. Buy HADACOL today. Trial size bottle only \$1.25. Large family economy size, \$3.50. Refuse substitutes. There's only one true and genuine HADACOL.

Give HADACOL a Chance

to help you. If your system lacks these essential elements, you, too, will be amazed at the wonderful results HADACOL can bring you, as it has to thousands of other fine folks who suffered a deficiency of Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains. HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals.

Senate Passes Bill to Increase Old Age Pensions \$3 Monthly

The Senate has passed a bill which, if the States take full advantage of it, will increase old age pensions \$3 a month beginning October 1.

The bill is in the form of an amendment to the Social Security Act sponsored by Senator Ernest W. McFarland of Arizona, Senators Tom Connally and Lyndon B. Johnson of Texas, and 20 other Senators. It must still be approved by the House.

The \$3 monthly increase would also apply to payments to the blind. Federal contributions to States for aid to dependent children would be increased an average of \$2 per month per recipient.

"These small increases are overdue and are more than justified by the rising cost of living," Senator Connally declared. "When the bill was before the Finance Committee, I urged and voted for increases of \$5 a month for the aged and the blind and of \$3 a month for dependent children. Average old age assistance payments in Texas in May were only \$32.74, which is obviously not enough to live on."

The bill as passed by the Sen-

Mrs. M. L. Collins Attends Funeral For Father

Mrs. M. L. Collins attended the funeral services for her father, William M. McNabb, 82, that were held at the Lakeview Baptist church Monday afternoon at 4 p. m. Burial was in Southland cemetery.

Mr. McNabb was a retired gin-ner and came to Lakeview in 1932. He is survived by two sons, A. K. McNabb, Riverside, California and Wilton McNabb of Meadow, and the one daughter mentioned above.

Other survivors include 12 grandchildren, 19 great grandchildren, one great great grandchild and three brothers and two sisters.

BOY HURT IN SUDAN ACCIDENT

The six-year-old son of Mrs. Lloyd Seber of Circleback was injured recently when the car driven by Mrs. Seber and Mrs. Charles Wiseman were in collision on Main street in Sudan.

It is believed that the child, who was sitting in the rear of the auto hit the back of the front seat from the force of the impact. The lad was taken to the Amherst hospital where he remained until Monday.

His face and neck were swollen and movement of the tongue was especially difficult for some time. It was at first believed two teeth would have to be pulled, but after sufficient observation this was not found necessary.

The accident occurred on Main

street when Mrs. Wiseman's car was backing from a parking space near Minyard's Jewelry. Mrs. Seber was going south on Main.

Another child sitting in the front seat of the Seber car struck his head on the windshield at the time of the collision. However, it is believed he was not seriously injured.

Damage was estimated at \$280 on the Wiseman car and \$140 on the Seber automobile.

ASTHMA

Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. Thus alleviates coughing and aids freer breathing and better sleep. Get MENDACO from drugists. Satisfaction or money back guaranteed.

MM-3 Robt. D. Truelock Killed In Korea; Brother Here on Leave

Lloyd M. Truelock, with the U.S. army in Korea, and attached to the 180th Infantry, arrived home Monday, after being given an emergency 30-day leave of absence at the request of his parents, Mr. and Mrs. John Henry Truelock, of Olton, and through the agency of Mrs. Lyle Brandon, secretary of Littlefield Red Cross, when news of the death of his brother, Robert Daniel Truelock, Machinist Mate 3rd Clas, with the U. S. Navy, who was one of thirteen killed, when his ship, U. S. Destroyer "Watke," struck a mine in Korean waters on June 12th.

The parents had hoped, and thought details had been com-

Good Results With Sears Swine

COLLEGE STATION — Good results in the 1950-51 Sears Foundation 4-H Swine Program are being reported by county agents.

County Agent Cloyce M. Huckabee reports that of the eight gilts distributed in Coleman county in 1951, all farrowed on time. None of the litters had to be bred a second time; this indicates good management, said Huckabee, on part of the 4-H participants.

Fifty-five pigs were farrowed and 51 were raised to weaning age. Although the litter size was not high, the 4-H boys took good care of the pigs farrowed. The pigs weighed 1,746 pounds at 56 days of age, an average of 34.23 pounds each. The heaviest litter averaged 50.8 pounds per pig.

Eight gilts and a boar were delivered to nine selected farm boys in Nolan county May 26, reported County Agent M. B. Templeton. These hogs are part of the 1951-52 program.

The 4-H boy who receives the boar provides free breeding service for the eight gilts in the county program. And the boar's services, for a fee, are available for use of farmers in the locality also. The selected boys each return a gilt from their first litter to keep the program going.

This program has been operating in Nolan county for many years, said Templeton. He estimates that probably 90 percent of the swine in the area are from Sears breeding stock.

RE

HERE ON EARTH—

(Continued from Page One)

Among the control materials that have been variously recommended are calcium arsenate, Paris green, lead arsenate, and dust and spray formulations of benzene hexachloride, toxaphene, a mixture of hexachloride and DDT, or a mixture of toxaphene and DDT, and 5-10-40.

The best advice we can give, however, is to consult Eaton or Rodgers. They've been fighting these insects all over the county and so they know what is doing the best job. Moreover they have the very latest information from the Texas A & M Extension Service and from the various cotton research councils.

Roy B. McQuatters of Littlefield and J. W. Borders, Jr., of Whitehall were among the directors elected by the stockholders of the Plains Cooperative Oil Mill of Lubbock at a meeting there last week. The occasion for the meeting was also an occasion for a group of bankers to meet the 699 South Plains farmers who attended the conference of the oil mill men and the stockholders of the Plains Cooperative Cotton Press.

ling C. Evans, president of the Federal Land Bank of Houston; B. L. Sanders, chairman of the Farm Credit Board and president of the First National Bank of Corsicana; Charles Thompson of Colorado City, vice-chairman of the Farm Credit Board and chairman of the Texas Tech Board of Directors; W. J. McAnelly, president of the Federal Intermediate Credit Bank of Houston; L. Roy Prescott, treasurer of the Production Credit Corporation of Houston, and William N. Stokes also of Houston, and president of the Houston Bank for Cooperatives. The bankers and South Plains farmers talked, ate, visited and sweated-like-the-devil under the blazing West Texas sun.

Lamb County farmers should attend a most important meeting at the Municipal Auditorium at Plainview, at 10 o'clock the morning of Thursday, August 9th.

This meeting will be their chance to say whether or not they think the State Board of Water Engineers should create an underground water conservation district in the Panhandle-South Plains area.

On the basis of the evidence presented at this meeting the board will decide whether or not to create this district, which would be the first and largest of its kind in the state. If they create the district it will then have to be approved by the voters.

The district will include all irrigated parts of Lamb County, and all of Lubbock, Hale, Parmer and Swisher counties, and parts of Bailey, Armstrong, Briscoe, Castro, Crosby, Deaf Smith, Dickens, Floyd, Graza, Lynn, Hockley, Oldham, Potter, Randall, Terry and Cochran counties.

This meeting will be very distinctly of the greatest importance to all Lamb County farmers. It will cover approximately 13,000,000 acres.

Clovis is to have its first Curry County Fair in a number of years on September 20, 21 and 22, the week before New Mexico's biggest county fair at Portales. The tentative premium list at Clovis calls for awards totaling \$7,000. Premiums in the Junior Livestock Division alone are expected to total \$2,000.

The Curry County Fair comes a week ahead of the Lamb County Fair in Littlefield, which will give Lamb Countians an opportunity to exhibit there if they wish. Curry County voters approved a \$100,000 bond issue to provide the new show grounds which are southeast of Clovis.

Other happenings at Clovis that will be of interest here are the summer sale of the Southwestern Swine Breeders Association which will be held at the pens of the Clovis Commission Cattle Company, Tuesday, August 7th.

The following breeds will be represented: Durocs, Hampshires, Spotted Poland Chinas, Hereford and Chester Whites.

P. E. Burgess of Earth is director of the association. Another of the big steer roping events for which Clovis is becoming famous will be held there on Sunday, September 2nd, at the Homer Benner (Mounted Patrol) Arena. Ten nationally-known ropers will each rope four steers for a \$10,000 jackpot.

Jack Skipworth of Clovis, one of these ropers, attended the Cheyenne Frontier Days Celebration and signed up the other ropers on that occasion.

Contesting at Clovis will be Everett Shaw of Stonewall, Oklahoma, past Clovis winner; Shoate Webster of Nowata, Oklahoma, another winner at Clovis; Carl Arnold, the old-timer from Buckeye, Arizona, who won two special matched steer roping events from the late Bob Crosby at Clovis; Cotton Lee of Fort Sumner; Clark McIntire of Kiowa, Oklahoma; Jack Shaw of Ruidoso; John Scott of Miles City, Montana; Hugh Bennett of Falcon, Colorado; Duane Rosenbarger of Casper, Wyoming, and Skipworth.

Next Monday morning July 30 Aberdeen-Angus breeders will assemble at the Curtis Ranch, not far from Melrose, New Mexico, to attend the all-day field day sponsored by the Curry County Aberdeen-Angus Breeders Association.

Everybody is invited and a big free barbecue of prime Angus will be served at noon. FFA and 4-H Boys from over West Texas and Eastern New Mexico are especially urged to be there.

The Curtis Ranch is located just off U. S. Highway 88 in extreme southern Quay County, three miles from the Curry County line. It is 21 miles north and two miles east of Melrose—just a nice drive from Littlefield and other Lamb County points—and Lamb Countians are most certainly invited.

Among the speakers will be Curry County Agent John Guame; Quay County Agent Curtis Grimes; W. E. Flint, extension animal husbandman from New Mexico A & M College; Milt Miller of Brady, fieldman for the American Aberdeen-Angus Breeders Association, and others. Some of the best Angus cattle in the area will be shown there.

Tommye Stuart, new secretary of the Texas Aberdeen-Angus Association is moving to Cleburne, August 1, where he has bought a small place. He will let his lease on a San Antonio ranch expire later this summer.

Stuart, formerly of Roby and a one-time Menard County agent, plans to buy a few Angus cattle and run them on the Cleburne place. He has sold or will soon sell all the livestock on the San Antonio Ranch.

Stuart is a very close friend of Mayor Art Chesher of Littlefield.

The annual pre-Madison Square Garden Rodeo is to be held at Dublin, August 29 to September 1, inclusive it has been announced. Following this Dublin Rodeo, which is one of the best in the world, the stock that makes the grade will be loaded on two special Santa Fe trains and headed for New York City and Boston. This Dublin rodeo is held for the purpose of eliminating all the rodeo stock except the very best.

The Lightning C Ranch of Dublin, producers of the Madison Square Garden Rodeo is owned by Everett Colborn and Movie Star Gene Autry.

Colborn's daughter, Carolyn, was seen in Littlefield this summer when she showed her trained Tennessee Walking gelding at the annuals Jaycee's Rodeo.

Many of the Madison Square Garden contestants also make the trip to New York on the special trains, taking their horses along, too.

Hill Country cattlemen around Fredericksburg have been warned about anthrax, since cases have been found in that region of the state. Anthrax spores have been known to exist as long as 40 years if a cow dead of anthrax is not completely burned, the spores left in and around the carcass remain a threat for several decades.

The horsefly is one of the worst carriers of anthrax because it is so hard to kill. Cattle can pick it up from grass, or even by eating hay from an infested area.

The best protection is vaccination, and even this can be dangerous if extreme caution is not used in handling the vaccine. It should therefore, be done by a graduate veterinarian.

Lamb County stockmen should watch their newspapers for further word of a possible spread of this disease.

ABOUT PEOPLE YOU KNOW—

Mrs. John Glover, who underwent a major operation over a week ago at the Littlefield Hospital, is expected to be released from the hospital Saturday morning.

Auburn L. Stowers, representing an Amarillo lumber company, left Wednesday for Honduras to be gone from 10 to 30 days. Mr. Stowers will purchase mahogany lumber for the company. He planned to fly from New Orleans, La.

Mrs. A. S. Patterson of Grandview, Okla., arrived Sunday of last week to spend a week with her daughter and son-in-law, Mr. and Mrs. L. R. Brown.

Lt. and Mrs. Bob Watson of Wichita Falls spent the first part of this past week here with her parents, Sheriff and Mrs. Sid Hopling.

Mr. and Mrs. Robert Attaway left Tuesday for Fort Worth, Texas, where he will enter the Baptist Seminary in September to study for the Ministry.

Mrs. J. C. Bales and children, Patsy, Betty and Jimmy, and Mrs. J. E. Long returned Wednesday from Knox City, Texas, where they visited Mr. Bales' parents, Mr. and Mrs. A. D. Bales, since Monday. They report seeing the results of a bad wreck near Crosbyton, where a 1931 Dodge and a 1934 Ford were in collision. Several persons were seriously injured. The Ford was occupied by several colored people.

Mrs. Zella Mae Walker of Odessa, Texas, spent the past week-end with her parents, Mr. and Mrs. B. F. Edlson, here.

Mr. and Mrs. A. T. Walker of Guyton, Okla., spent from Friday until Saturday night of last week with Mr. Walker's parents, Mr. and Mrs. W. H. Walker.

Mrs. Bertha Sparkman returned home Wednesday from visiting her daughter, Mrs. Wofford, at Amarillo, for the past ten days. Her daughter, Mrs. L. B. Huckabay, of Littlefield, went to Amarillo and accompanied her mother home.

Mr. and Mrs. R. F. Alquire of Vernon returned home Wednesday after spending about five days with her parents, Mr. and Mrs. H. C. Thornton.

Miss Geraldine Harlan, who is employed at Security State Bank has returned to work and has resumed her duties, after several months absence due to illness.

Johnny Freeman salesman for National Casket Co. with headquarters in Lubbock, spent Wednesday night here, with Mr. and Mrs. Pryor Hammons. A picnic supper was served on the lawn at the Funeral Home in his honor. Those attending were Mr. and Mrs. Hammons, Mr. and Mrs. Lenyon Smith and Mr. and Mrs. Zach Hall.

Bob Coen, who has been attending the first semester of summer school at Texas Tech, is spending the remainder of the summer here with his mother Mrs. J. R. Coen and sister, Mary Jane.

Mrs. Bob Smith underwent surgery at Payne-Shotwell Foundation the latter part of last week. Hospital authorities say she is doing nicely.

Mrs. W. B. Williams of near Littlefield returned home Monday from a visit with her father, J. R. Legate and her brother and his wife, Mr. and Mrs. F. W. Legate of Whitesboro.

Mrs. Everett Garvin and daughter Ann Arden of St. John, Kansas returned home Monday, after spending the past month visiting in the home of Mrs. J. R. Coen and daughter Mary Jane and Bob. The entire group spent last week-end at Ruidoso, New Mexico. Mrs. Garvin is a sister to the late Dr. J. R. Coen.

Mrs. E. T. Clark and daughter Mary Elizabeth, of Tallahassee, Florida returned to their home Sunday night, after spending the past three weeks with her parents, Mr. and Mrs. J. W. Hunter of near Littlefield.

Mrs. John Holder and her son Phillip Adkins spent last week in Seymour visiting her parents, Mrs. Holder who is employed at Reese Drug, and who has been vacationing for the past two months, plans to return to work next Wednesday, August 1st.

First Fiddle is the only horse to win the \$50,000 Massachusetts Handicap twice.

Congratulations To:

Congratulations to the babies born at the Payne-Shotwell Foundation:

Mr. and Mrs. Leroy Maxfield White of Amherst are the parents of a son, Rodney Lynn, born July 22nd. He weighed 3 pounds and 2 ounces.

A son was born to Mr. and Mrs. John Cordova, July 17th, weighing 7 pounds and six ounces.

Mr. and Mrs. Joe Weems are the parents of a son Richard D. weighing 8 pounds and five ounces. And congratulations to the babies born at Littlefield Hospital:

A daughter was born to Mr. and Mrs. Calvin O. Baker, July 23. Rebecca Jo was born July 23 to Mr. and Mrs. Fred L. Linker.

Save Seed Oats And Wheat

In view of the short oat and wheat crops this year, farmers should have all possible seed for planting, particularly of the approved varieties, says E. A. Miller, agronomist for the Texas Agricultural Extension Service.

Enough oats were produced to plant the 1952 crop, but Miller warns that there will be a shortage if farmers use all their oats for feed. The situation is a little better for wheat than for oats.

"Save good planting seed," Miller advises. "There will be a demand for seed where no oats were made."

He recommends saving all the Mustang oats and Quannah wheat produced. Most of the seed of the seed of these two new varieties planted last year were lost because of the drought and insects.

According to the June USDA crop report, the 1951 Texas oat crop is estimated at 12,576,000 bushels. This is about half of the 1950 production. The 10-year average for Texas is approximately 30 million bushels.

Mustang, New Nortex, Fulltex, Ranger and Stanton are the recommended varieties of oats for Texas. Recommended wheat varieties are Quannah, Wichita, Triumph, Comanche and Westar.

commodity, and through its inclusion on the Chicago Board of Trade more and new markets are almost certain to follow for the commodity. And Lamb county has a share and a big share in all of this, because in 1946, LAMB County led the nation as the top grain sorghum producing county of the entire U. S., and in practically every year, has been one of the top producers. In this county grain sorghums take a second place for cotton, and in many of the years, it has exceeded cotton both in acres and in cash yields. This year, almost as much of Lamb county acreage will produce grain sorghums as will be devoted to cotton. Some farmers, especially of non-irrigated lands, are firm in their opinion, that sorghums produce higher net cash income than does cotton.

The recognition by the Chicago Board of Trade, probably is the greatest boost that grain sorghums have received, since the war year, when grain sorghums were made available to breweries and distillers, at a time when use of other grains was limited or banned for this purpose, which resulted in a very sharp increase in the price of the sorghums, and a price increase that has never been wiped out.

It doesn't take the speculation out of the growing or marketing of grain sorghums. It provides for an orderly speculation or marketing for the holders. Banks and traders now can protect themselves against sharp price changes.

And lately, Ft. Worth in West Texas, will continue to store the bulk of the grain, and will become the undisputed grain sorghum capital of the nation.

And in that city, grain men, believed the day is not too far distant, when Texas will be producing 200,000,000 bushels annually—more than doubling our present production of the crop, which in Texas is outranked only by wheat and cotton.

Several local grain men with whom we talked were highly pleased at the Chicago action, as was the local P. M. A. Offices at Amherst.

Grain production in Lamb County for the past several years, as released Friday by John McQuiten, manager of the PMA office at Amherst is as follows:

1946—311,400,000 pounds.
1947—(Figures not available).
1948—121,500,000.
1949—251,000,000.
1950—232,000,000.

How the Texas production compares with that of other areas may best be understood from the fact that in 1950, this state produced 148,818,000 of the total 237,456,000 bushels harvested in the entire country. In 1949 Texas harvested 92,874,000 of the total 152,630,000 bushels grown in the United States, and for 19 years, 1939 to 1948, Texas average grain sorghum crop was 62,954,000 bushels while the nation produced an average of 108,826,000 bushels.

HEART ATTACK OR INDIGESTION?

THANK HEAVENS! Most attacks are just acid indigestion. When it strikes, take Bell's antacid tablets. They contain the fastest-acting medicines known to doctors for the relief of heartburn, gas and similar distress. 25¢.

BACKACHE

For quick comforting help for Backache, Rheumatic Pains, Getting Up Nights, strong cloudy urine, irritating passages, Leg Pains, circles under eyes, and swollen ankles, due to non-organic and non-systemic kidney and bladder troubles, try Cytex. Quick, complete satisfaction or money back guaranteed. Ask your drugist for Cytex today.
