George Barr, also one of the noted raiders over Tokyo, who was ill with beri-beri when the Doolittle raiders were released from the Jap prison camp, and who was not able to make the trip to the States until some time later. Red Cross Drive Starts Friday

The Lamb County Chapter Red Cross drive will start Friday, March 7. Tuesday night final plans were made for the campaign by the planning board—Dr. Ira E. Woods, Littlefield; Joe Salem, Sudan; Norman Cleavenger, Springlake; and Gus Shaw, Littlefield—who met in the Red Cross office. These men worked out plans whereby the whole county can be covered in one day.

It's going to take hard word and hearty cooperation on the part of all business men, women and children to put the fund-raising campaign over. "Lamb County has always reached its goal in Red Cross work," so states Dr. Ira E. Woods, chairman, and he feels the response to this drive will be very successful.

Lions, Rotarians and all civic clubs are being organized to lend their assistance. Booths will be set up in banks to care for those donations which might not be contacted otherwise.

When you are approached by these busy men and women, give them a warm welcome, meet them with a smile and give them all you can. After all, you are the American Red Cross.

Guard Against Pneumonia

According to Dr. George W. Cox, state health officer, pneumonia caused approximately 2,460 deaths during the past year in Texas, a total which is entirely too high. This disease is most prevalent during the winter and spring months.

Pneumonia is caused by a germ called the pneumococcus, which many of us have lurking in our throats ready to start trouble, when our resistance to it is lowered. We can keep our resistance by avoiding undue fatigue and unnecessary exposure to extreme weather conditions. When we go outside in cold weather sufficient wraps should be worn to protect us. Keeping the temperature of our homes as low as consistent with comfort will greatly lessen the difficulties encountered in ad-

justing ourselves to the cold when we leave the house.

Another method of prevention in pneumonia is not to neglect a cold, for the common cold often results in pneumonia when neglected. A person with a severe cold should stay at home, and call his physician for advice if temperature persists or the cold lingers on. He should follow his physician's advice until the cold has disappeared.

The successful treatment of a pneumonia case often depends upon starting treatment very early. That is why a physician should be called at once when pneumonia is suspected. A patient my really have beginning pneumonia when he thinks it is only a cold. If the physician's advice is sought, he will have an opportunity to start treatment early if pneumonia is present, or develops in such cases.

Senator W. Lee O'Daniel Urges Reduction in National Spending; Makes Talk on Floor of Senate

A reduction in national spending is urged by Senator W. Lee O'Daniel.

Mr. O'Daniel outlined his position in an address on the national budget, delivered on the floor of the senate Monday, February 24.

Mr. O'Daniel's address was as follows:
Mr. President:

We are discussing here whether or not it would be possible to cut six billion dollars off the budget which the President recommended. In other words, we are debating whether we shall follow the recommendations of the President and spend in round figures thirty-seven billion dollars or whether we shall cut that figure and spend in round figures thirty-one billion dollars.

It seems to me that those who believe in a reduction in expend-

itures of the Federal Government have allowed themselves to be maneuvered into a very undesirable position. I do not think we should be discussing here today the question of whether or not the President's budget will be reduced to thirty-one billion dollars. I think that what we should be discussing is whether or not the budget should be reduced to twenty-five billion dollars.

This is not the place to attempt to go into a detailed discussion of the budget which the President has proposed, but I think if we will simply take an over-all look at the situation, we will be constrained to reach the conclusion that a budget of twenty-five billion dollars for the next fiscal year and a budget of not more than twenty billion dollars for

the succeeding fiscal year would be entirely reasonable.

The memory of you gentlemen, I am sure, goes back to the Utopian days of the New Deal, when I think everybody agreed at that time that they were using every known means of funneling money out of the Federal treasury to all individuals and governmental agencies who would offer to take the money and put it into circulation. Occasionally during those days we would hear a few stout-hearted Democrats, who were already in bad repute with the then ruling dynasty, observe that this government was engaged in wasteful expenditures of public funds; occasionally we would have some member of the Republican party make the observation that New Deal Socialism was leading us into bankruptcy.

Now, it seems to me that our memories are inclined to be short. Back in those days when the New Deal was being criticized for being wasteful, when the New Deal was being criticized for using the public treasury as a means to perpetuate itself in public office, the top amount which they were ever able to think up means of spending in any one fiscal year was slightly more than nine billion dollars. Back in 1940, the last year before we entered the war, the New Deal brethren were only able to think up plans to spend a little more than eight billion dollars.

Now we come to the point where we are planning our expenditures not for a war period, but for a peace-time period, two and three years after the war was over, and we find ourselves here debating the question of whether we shall spend thirty-one billion dollars or thirty-seven billion dollars. It is my personal judgment that if we would set as a limit twenty-five billion dollars instead of thirty-seven billion dollars, certainly that would be a liberal limit, which should be cut to not more than twenty billion dollars for the next fiscal year.

I realize of course, that we must find a means of servicing our public debt, which will require five or six billion dollars annually, and I think we all realize that we must maintain an adequate system of national defense, but if the budget was cut to twenty-five billion dollars that would give us seventeen billion dollars to allot to national defense, debt retirement, and veterans' relief over and above what we were spending in 1940, and then it would enable us to continue to operate the gravy train which the New Deal was operating and spend eight billion dollars for that purpose. It looks to me that this ought to be enough to satisfy the most liberal spenders.

I want to say to my colleagues here in the Senate that there is no easy way to reduce federal expenditures; every time you make a move to unhook a coach from the New Deal gravy train that has been running here for the past twelve or thirteen years, there are going to be plenty of squawks from the passengers on the train. There is only one sensible way to reduce public expenditures and that is to reduce them. Give these bureaus

and agencies a certain amount of money to spend and tell them to spend that and quit.

We built up in this nation during the war period a situation where we are actually collecting in federal, state and local taxes more money than the total national income was twelve or thirteen years ago. Private business and private enterprise simply cannot exist under this kind of a tax load.

No one is stronger than I am as an advocate of national defense. The best way in the world to have a strong national defense is to have a strong, solvent national economy. Whatever we do which will tend to put the wheels of business moving to furnish employment for our people and to get them in a position to maintain a high standard of living is the very essence of building a strong national defense. And you simply cannot do this and at the same time bleed the citizens of this country white through taxation, and you cannot reduce taxes unless you reduce expenditures.

My judgment is that the results of the election on November 5 proved without any question of doubt that the American people are sick and tired of the kind of government we have had for the last fourteen years. They voted for a change. I think the American people are tired of the plan of operating the New Deal gravy train at Washington at the expense of the taxpaying public, and I should like to suggest to the new members of the Senate that I do not think the people simply voted to change the engineers and conductors of the gravy train. I think they want the unnecessary coaches unhooked. I think they want govern-

ment to get back to operating on a sound and reasonable basis, and my opinion is that if the leadership of the Republican party has reached the conclusion that the only thing wrong with this government philosophy that has grown up in the past fourteen years and that the only thing wrong with this taxpayer-financed gravy train we have been operating in the past is that the conductors and engineers have been Democrats and not Republicans, I think they are due for a rude awakening at the next election.

The people want the New Deal gravy train stopped and its schedule cancelled. I think the people of this nation are seriously concerned about getting the cost of operating government back on a reasonable basis, reducing taxes to the point where a man not only can make some money, but can keep part of it.

I think the people of this nation are sick and tired of a government controlled and operated where those in power utilize the public purse to satisfy groups and blocks and thereby make sure their safety in the forthcoming election. I believe the people of this nation will applaud the members of Congress who have the courage to stand firm and square for real sure-enough economy.

I believe the people of this nation are ready and willing to support the leadership that offers constructive evidence of its intention to re-establish free enterprise in this country and make it possible to operate and for the individual to be rewarded by allowing him to keep a reasonable portion of what he earns.

For these reasons I shall certainly vote to sustain the idea of reducing the President's budget to thirty-one

billion dollars, unless I have an opportunity to vote to reduce it to twenty-five billion, and I certainly think the reduction should be to thirty-one, but to twenty-five billion dollars. Furthermore, if I have an opportunity, I will vote for a per cent reduction in taxes, provided I do not have an opportunity to vote for a greater reduction.

My opinion is that within the next two or three years federal expenditures should be cut at least 40 per cent, federal taxes should be cut at least 50 per cent, and I think it reasonable to suppose that both these objectives could be accomplished if we would go to work in earnest to get the job done.

AIR EXPRESSES SHIPMENTS

AUSTIN.—Air express shipments in Texas leveled off in January after the usual Christmas mailing boom to fall 36 per cent below December shipments, according to reports by the Railway Express Agency coded by the University of Texas Bureau of Business Research.

Compared with shipments in the year ago, however, the picture is rosier: increases were reflected in every city with the exception of Laredo, where a yearly drop of 18 per cent was noted. Average increase was 43 per cent for the State.

 Most of our students who have their Private License, Jim Smith, Clark, Guy Gage, Claude Pool, Charles Molone, Charles Heathman, Tex Crow, Joe Love, Warner Peterson, a large number of others are doing a lot of flying with us and are approved for Commercial flying. The McGuire and Miller Fly-100 service hopes to be approved for commercial flying by the second of March.

 One of our employees, Earl G. Bea-

ch, has been on the sick list the last week, but he is back at work again. Speaking of sick list, Curtis Malone was also absent a few days because of illness, but is back on the job again.
 The mechanics, Tex Crow and Curtis Malone have been overworked this week. Planes from Dimmitt, Plainview and Hereford are really pouring in for repair work and re-licensing.
 We had an unexpected visitor from New Mexico today. Two guys from Socorro, N. M., landed for refueling today. On their take off for Oklahoma they found that the acid from their battery had eaten the fabric on their ship thin, the wind tore a large place in the bottom of the fuselage. They were delayed for a few hours repairing the hole in the fabric and letting it dry for flight on to Oklahoma.
 James Miller and Lawrence Draper from Painview were over today in the New four place Ballanca Crusair. Draper was demonstrating it to some of our most prominent business men. We hope to complete several sales soon.
 Well at last, Glenn Pass has taken another cross country flight in Joe Walters red T Craft. We hope he gets back, safe and sound and also the T Craft.
 We had a large crowd at the airport last Sunday afternoon, we hope this will continue! Also hope to have a large crowd of women Flyers soon.
 All flyers and every one who wishes to attend the National Aeronautic Association at Fort Worth, July 3rd, 4th, and 5th, are cordially invited to attend.

It was moved by Commissioner L. C. Campbell and seconded by Commissioner L. C. Hewitt that there be submitted to the qualified property taxpaying voters of the City of Littlefield, Texas, who own taxable property therein, and who have duly rendered the same for taxation, at an election for that purpose, the proposition for the issuance of the bonds of said City in the principal sum of Sixty-Five Thousand (\$65,000.00) Dollars, to mature serially over a period of years not to exceed twenty (20) years from the date thereof, bearing interest at a rate not to exceed three (3%) per centum per annum, payable semi-annually, and the levy of tax on the taxable property in said City for the purpose of paying the interest on said bonds and to create a sinking fund for the payment of the bonds at maturity, for the purpose of the construction and improvement of the streets of said City.

The said above motion was put to vote, and the same duly carried by the following unanimous vote: Mayor A. C. Chesher and Commissioners L. C. Campbell and L. C. Hewitt voted "AYE" in favor of said motion, and none voted "NO", whereupon it was declared that said motion had duly prevailed.

And, thereupon, Commissioner L. C. Campbell introduced an order calling an election for the purpose of submitting the proposition to a vote of the qualified property taxpaying voters of said City, and duly moved the passage and adoption of said order.

The motion was duly seconded by Commissioner L. C. Hewitt.

The motion, carrying with it the passage and adoption of the election order, was then put to vote and prevailed by the following vote: Mayor A. C. Chesher, and Commissioners L. C. Campbell and L. C. From where I sit... by Joe Marsh

A Definition of Our Town

Somebody defined our town just the other day as "A place where the people talk about you behind your back, and come to wait on you when you're sick."

I've got to admit there's something to it. A lot of our folks are inclined to be pretty outspoken and quick to criticize... even about little things, like a woman's hat, or a man's preference for a glass of beer, or the color of Cy Hartman's new barn.

But when anyone's in trouble, those differences and points of

criticism are forgotten... and folks become neighborly and helpful, like they really are.

From where I sit, criticism never did much harm to anybody, so long as folks don't let it guide their actions... so long as they respect our individual preferences, whether they apply to hats or beer. That's the way it is in our town, anyway, and I hope that it's the same in yours.

Lamb County Teachers Get Additional Salary

According to J. Ernest Jones, county school superintendent, the emergency salary bill allowing \$300 to each teacher for this school year, to be \$75 a month for the last four months of this school year, including February, March, April and May, which was passed in February, covers all rural schools in Lamb County, with the exception of the Littlefield schools.

Vote to Pay Teachers \$300
Littlefield schools, however, voted to pay teachers \$300 for the same year.

Pass Two More Bills
Jones further announces that the House of Representatives has passed two bills recently, one setting the per capita apportionment at \$55 per child, and another setting the salary of beginner teachers with a degree at \$2,000 per year. It is now hoped that the Senate will pass these bills with the provisions.

In Jap Prison 42 Months

Major Hite was released from a Jap prison camp by the American Army early in the fall of 1945, after 42 months' confinement, and returned home in September. He and his mother, Mrs. Lena Hite, and younger brother, Kenneth, traveled for about three months, visiting in the Northeast, including Boston and New York, sightseeing, and also visiting their daughter and sister, Mrs. C. J. Ricketts, and Lieutenant Commander Ricketts.

After a 90-day furlough, Major Hite re-enlisted. He was instructor at the Enid Army Air Field for about six months and, until January, when he was transferred to New York City.

While stationed in Enid, Major Hite and his bride visited his mother, Mrs. Hite, at Earth.

Later her parents, who operate a hotel at Enid, accompanied their daughter to New York City, and remained for the wedding.

Major and Mrs. Hite left New York City shortly after the ceremony on a three weeks' honeymoon to the Bermuda Islands.

Progress Reported in Construction of New Wing to Payne-Shotwell Hospital

Factory progress is reported on construction of the new wing of Payne-Shotwell Hospital, and the third floor of the new building is expected to be ready for occupancy about two weeks.

Eubanks is the contractor in charge of the work. The new wing will add 30 additional rooms to the hospital, making a total of 50 beds.

In addition, of brick and tile construction, is 100 per cent fireproof, with no wood in the building, with exception of the door frames. The building is of concrete construction, and is plastered, with asphalt tile.

A special feature of the new wing of Payne-Shotwell hospital will be an electric automatic elevator, which is being installed at a cost of \$10,000 and is the only elevator of its kind in Littlefield. All a person has to do, as explained to the Leader, will be to step on the elevator, punch a button, and

the elevator will stop at the floor signified.

Another special feature is the system installed for the transferring of food from the large kitchen in the basement to the upper floors by electrically controlled food lifts. These are operated much on the same principle as the elevator.

A refrigerated room to take care of considerable food is also a new feature of the addition to the hospital, as are also refrigerators placed in the wall of the kitchen for the convenience of the dietitians in preparing food for the patients.

The new wing is three-story, having a basement, second and third floors.

When completed the enlarged Payne-Shotwell Hospital will offer Littlefield and the South Plains a hospital as fine both as to building and equipment as can be found in the State of Texas, which is a decided complement to a city the size of Littlefield.

Sudan Post 614 Sponsors Box Supper

An old-fashioned box supper with free Air Force combat movies will be featured by the Sudan Post 614 of the American Legion at the high school gym in Sudan on Tuesday, March 11, it has been announced.

Soldiers from the Air Force recruiting office in Lubbock promise new films just released for the first time by the War Department for public showing. The movies, to be held preliminary to the box supper, show actual combat scenes that helped knock out the Krauts and the Japs.

Following the films, and old-fashioned box supper, with all the fun and used to have thrown in, will get underway immediately.

A real auctioneer will handle the sales of the boxes. Legionnaires say it will probably be W. F. Hayes, of Muleshoe.

A committee, composed of Arthur Shuttlesworth, Reed Markham, Golden Benton and Harold May, has been appointed to work out details of the affair.

Besides auctioning of the boxes, which always draws a lot of competition, there will be contests to find the most popular girl and the ugliest boy. You can have a barrel of fun plus eating with your best girl friend, if you bid enough on her box, Legion officials said.

The proceeds from the box supper will go into the Legion building fund.

BLYTHE UNDERGOES MAJOR OPERATION

Joe Blythe, 22, son of Mrs. Ann Blythe of Olton, underwent a major operation at the Littlefield Hospital Saturday morning for a kidney and bladder ailment.

Mr. Blythe suffered a heart attack February 8, and was a patient in the Memorial Hospital, Lubbock, about a week.

He is reported as doing as well as can be expected. He spent three years in the service, and was discharged last spring.

His mother was remaining here, to be near her son.

Seismograph Crew to Work Area for Texas Company

A seismograph crew arrived in Littlefield this week, whom, it is understood, will work this territory for the Texas Company.

The group includes about ten families, who are looking for homes, and it will be appreciated if anyone having an apartment or house to rent will get in touch with the Chamber of Commerce office, indicating just what they can offer.

Other workers, both for oil companies and employed on road construction work in this area, are look-

ing for places to live. There being such a shortage of rent houses and apartments, it would seem to be the patriotic thing to do for everyone to rent any rooms or apartments they possibly can to help out the situation.

Students at Texas Technological College are finding group hospitalization insurance valuable. Since the service was started early in December, some 57 hospital cases have been reported covered.

Will Suspend Itinerant Contact

In keeping with the curtailment of Federal funds, the Veterans Administration regional office at Lubbock has been directed to suspend itinerant contact services throughout the region, Robert W. Sisson, West

Texas VA regional manager announced this week.

Veterans in towns formerly visited on an itinerant basis will be served only in an extreme emergency by VA contact representatives. In such instances veterans should communicate with the nearest contact office. The regular schedule of VA itinerant service will be discontinued immediately, Sisson stated.

Contact offices will remain open Monday through Saturday in Abilene, Amarillo, Childress, Big Spring, Borger, El Paso, Lubbock, Odessa and San Angelo. Pecos contact office will be open Monday through Friday.

The VA regional office, located at Lubbock Army Air Field, has been directed to operate on a 40-hour work week, and will not be open on Saturday, it was pointed out.

"Every effort will be made to render efficient and expeditious service to West Texas veterans. Services to victims of war must not slacken," Sisson asserted.

Water Survey To Be Made On High Plains

Measurements of water levels are to be made during March, 1947, in several hundred observation wells throughout the irrigated region of the High Plains. Such measurements have been made in the same wells about this time of the winter each year since 1937. They are made by employees of the United States Geological Survey and the State Board of Water Engineers, and the depths to water from fixed points near the surface are recorded to the nearest hundredth of a foot.

All of the records of water level measurements are published annually in U. S. Geological Survey Water Supply Papers and a part of them have been included in each of several mimeographed reports on ground water in the High Plains, which have been released to the public at regular intervals during the last eight years. The most recent mimeographed report, Progress Report No. 6, released on January 31, 1947, includes measurements in 163 wells that were made only two weeks before.

Most of the pumping plants are idle during the five months from October through February. Therefore, a comparison of the late winter measurements from year to year gives the most accurate information regarding the rise of the water table due to rainfall, the decline caused by pumping, and additions to or losses from the underground reservoir.

The men doing this work hope to contact the owner or operator of each well used for observation purposes so that complete information about the well may be obtained and, in return, so that the owner may be informed regarding the past record of water levels in the well.

This work is a part of the state-

wide investigation of the ground-water resources of Texas, and is of primary importance in connection with the detailed studies of the ground-water supply in the High Plains region.

A copy of Progress Report No. 6 will be mailed to any resident of the Plains who will send a request by letter or postal card to the Texas State Board of Water Engineers, Austin, Texas.

Other matters discussed included the rodeo to be staged by the Junior Chamber of Commerce later.

cause serious outbreaks among children and their resulting impairment makes them easy victims of other forms of infection.

"Some of the most serious outbreaks of chickenpox which we had, have been traced to mild cases—that is, to cases too light for a doctor to be called. In some instances the children have continued to go to school and to associate with other children. In other cases after they have been kept at home for a few days, they have returned to school and have scattered the germs around among their school mates. Eventually a group of cases—sometimes very serious ones—developed from the carelessly handled mild case. The result was another epidemic that could have been prevented."

The state health officer said the family doctor is the best person to watch for such outbreaks of diseases, and suffering an acute case will be avoided if the child is put to bed, and a doctor's advice sought and followed.

Great Increase Reported In Cases Of Chickenpox

AUSTIN, March 4.—With the incidence of chickenpox more than 50 per cent higher than records indicate for a seven-year median, Dr. George W. Cox, state health officer, issued a statement today declaring: "It is a great mistake to treat even light cases of childhood diseases such as chickenpox, measles, mumps, scarlet fever or whooping cough as though they did not amount to much. That sort of treatment makes it possible for these diseases to spread and

Hogs Reach All Time High; Grains Go Up Sharply; Other Farm Products Steady To Strong

Hogs reached all-time highs and prices went up sharply, as most southwest farm products sold steady to strong prices last week, according to Production and Market Administration, U. S. Department of Agriculture.

All grains made strong advances during the past week, except oats, which remained fully steady. Friday's price on wheat was \$2.55-60 a bushel, bulk, for No. 1 ordinary Fort Worth and Galveston; corn \$1.83-84 for No. 2 white, \$1.69-70 for No. 2 yellow; and hams \$2.68-71 per hundred.

Some feeds were higher, as bran shorts moved up around \$3 per ton over a week earlier. Good quality alfalfa advanced \$2 per ton above last quotations. Peanut meal remained about steady at \$65 per ton and 43 per cent protein. Farmers' peanuts resold at \$210 to \$215 a ton in the southeastern states. All quantities of rough rice moved up at ceiling prices.

Wool held firm last week despite eased supplies. Most southwest wools paid around 36 to 37 cents a dozen. Houston and Baton Rouge paid 40 cents. Fryers and wethers remained steady, but hens lightened last week. Heavy hens quoted 27 to 28 cents per pound, and a few as high as 23 cents at Fort Worth.

Denver's wholesale market saw the first asparagus last week at per crate. Radishes from Texas in good demand, while potatoes, onions and beets remained dull. Drizzly weather interfered with planting in the Lower Rio Grande valley. Light haulings of cabbage some stronger at 85 cents to \$1.50 a pound sack. Citrus demand eased a little. Louisiana sweet potatoes held steady at \$2.70 to \$3.00 for 50 pounds of best stock. Demand for Texas spinach raised

prices to \$1.35 to \$1.50 per bushel.

Spectacular early-week advances carried hog prices to new all-time highs at practically all markets. Southwest trading tended to level off toward the close at net advances of \$1 to \$1.50 for the week. Highest price paid at San Antonio was \$26; while at Fort Worth the record price was \$28; and at Denver, \$30.25. Friday's top at Oklahoma City was \$28.50; and \$28.85 at Wichita.

Cattle advanced steadily at southwest terminals last week, and closed 50 cents to \$1 higher on most classes. Bulk of prices paid for common and medium steers were \$12 to \$17 at Houston; and \$12.50 to \$19 at Fort Worth. Medium to low good steers, and yearlings moved close to \$18 to \$21 at San Antonio, Oklahoma City, Wichita, and Denver.

Sheep held fully steady at San Antonio and gained mostly 25 to 75 cents at other southwest points. Good and choice spring lambs at Fort Worth realized \$21.50 to \$22.50; and good and choice lambs brought \$22 to \$22.50 at Wichita; and \$23 at Denver. Medium shorn goats sold at \$6.25 to \$6.50 at San Antonio.

More selling of revalued Texas wools was reported. Mohair was contracted more actively in Texas at prices 1 to 2 cents higher.

Cotton netted around a dollar per bale advance, as demand slackened.

Miss Lydia Jungman and Franklin Green Wed at Pep

Miss Lydia Jungman, daughter of Mr. and Mrs. A. G. Jungman of Pep, and Franklin Green, son of Mr. and Mrs. Otto Green of Burlington, were united in the holy state of marriage on February 17, at 9 o'clock, in St. Philip's Neri Catholic Church at Pep, with Rev. Father Norbert Wagner officiating at the beautiful double-ring ceremony.

The bride wore a white rayon satin wedding gown with sweetheart neckline, with finger-tip veil gathered on a beaded crown. For "something old" she carried her grandmother's (Mrs. J. V. Glumpler) first Holy Communion rosary, which is about 65 years old; for "something borrowed" she carried a black Missel belonging to her youngest sister, Adriene; for "something blue" she had a blue chiffon handkerchief; for "something new," was her torseau. Her arm bouquet was made up of white carnations and fern tied with white malene and satin ribbon and finished with streamers.

All the bride's attendants wore floor-length gowns of light blue net, with a small net ruffle head band, with small white satin bows. Their bouquets were of white sweetpeas finished with small malene and satin ribbon. Miss Valeria Jungman, sister of the bride, was maid of honor,

and Randolph Green, cousin of the groom, was best man. The other bridesmaids were Miss Theresa Jungman, sister of the bride; Miss Viola Demel, cousin of the bride; and Lucille Green, cousin of the groom. The other groomsmen were Max Demel and Alvin Jungman, both cousins of the bride; and Maynard Miller, cousin of the groom. The bridegroom wore a brown suit. The groom and groomsmen wore white carnation corsages.

Gerald Jungman, cousin of the bride, played the Lohengrin bridal chorus as the bridal party entered the church and presided at the organ during Mass while the choir sang the St. Aloysius Mass. Altar boys for the ceremony were Ralph Demel, Eugene Miller, Eugene Sokora and Jerry Decker.

The bride was a graduate of Pep High School with the class of 1945. The bridegroom was a graduate of Burlington High School. He served as an M. P. in the European theater and also in the United States for two years. He received his discharge in July, 1946.

A reception was held at the home of the bride's parents. The table was laid with a white linen tablecloth, centered with a two-tiered wedding cake, topped with a minia-

ture bride and groom; on each side were white tapers. The wedding cake was cut by the bride and groom at the evening meal.

The bridal couple was honored with a dance in the evening at the Pep schoolhouse. Grand march was led by Mr. and Mrs. A. G. Jungman and Mr. and Mrs. Otto Green. Music was furnished by the Pep orchestra.

Some of the out-of-town guests attending the wedding ceremony, including relatives and friends of both the bride and groom, were: Mr. and Mrs. Otto Green and family, of Burlington; Mr. and Mrs. Wesley Plunler, of Dumas; Mark Halsey and Hop Halsey, both of Lubbock; Mr. and Mrs. Harvey D. Pool, of Levelland; Mr. and Mrs. Elmund Doskiel, Charles Engbrock, Mrs. Leo Green and family, all of Burlington; Mr. and Mrs. W. A. Jungman and Alvin, Shirley Ann Herring, Mr. and Mrs. Herman Jungman, all of Monday.

The bridal couple, after a short trip to the southern part of Texas, will make their home three miles northeast of Pep, on a farm owned by the bride's parents.

On Coaching Staff of West Texas State College

Panhandle sports lovers are welcoming to the athletic fields of West Texas State College two newcomers who have taken places on the coaching staff. When the Buffaloes begin intercollegiate competition next fall, they will be under the direction of the mentors pictured above: Head Football Coach Frank Kimbrough, on the left, and Assistant, Clark Jarnigan, on the right. Kimbrough, former head mentor

of achievements in football behind at Baylor University, comes to West Texas State with a very fine record. While coach of Amarillo College in 1933-34, he tutored his teams to two straight state championships before moving to the top football position at Hardin-Simmons, where he turned out especially fine grid machines. In 1940, Kimbrough moved into the Southwest Conference as coach of the Baylor Bears, where he stayed with the exception

of time spent in the service, until he moved to his present position at West Texas State.

Jarnigan, a graduate of Hardin-Simmons University, coached at Denison High School before joining Kimbrough at Baylor as assistant coach. Football fans in the Panhandle have honored the two new coaches with several banquets including one given by the ex-students of Hereford and one sponsored by the Globe-News in Amarillo.
