What Can Be Done About the Housing Shortage?

possibly others . . . "wash us up" as far as obtaining additional housing. Restrictions on building materials, we are told, is the hurdle we cannot jump in a program for new homes.

But surprising things have been accomplished here, there and everywhere when obstacles seemed unsurmountable.

Used Lumber Being Employed

We notice a few houses being built in Littlefield. Sometimes they are being constructed from an old building moved from another location . . . sometimes they are being built out of used lumber. There's an old axiom: "There is more than one way of skinning a cat."

If new lumber is not available,

what would be the matter with one or a number of Littlefield residents buying some used lumber . . . used materials of all kinds that could be used in building?

Of course, new materials would be better and it might be possible that they could be obtained if the proper authorities were shown that a real need for housing exists in Littlefield. FACTS AND FIG-URES MIGHT DO THE TRICK. Active In War Effort

Littlefield does have a big part in the war effort. It is the center of a great agricultural development that furnishes cotton . . feed for stock . . . foods of all kinds . . . and without an ample supply of food the United States and our Allies would be helpless against our enemies. People who work at any occupation, and their families, must have a roof over their heads. Tied in with our farm operations are the sources of supply for the farmer, and Littlefield is truly an outstanding supply center. These firms employ men and they must have a place to live.

"In announcing as a candidate for representative from this, the 120th legislative district, I do so with the fullest realization of the importance of this position in our state government and of the duties incumbent

upon our legislators. Of the three departments of the state, the legislative is the most important in our government, since it is the legislature that formulates the policies of government and exercises full control over the state's financial structure. Through the State Tax Board it fixes our tax rates and is responsible for the expenditure of the people's tax money; it enacts laws and repeals laws. On account of the broad powers of the Legislature it is more important even than the office of Governor.

Red Cross War Fund Workers From All Over **County Present**

About 60 were in attendance at the Red Cross banquet and meeting held at the Amherst Hotel, Amherst, Friday evening, which was presided over by G. M. Shaw, County Chairman.

The invocation was offered by Mrs. Brandon, which was followed by the singing of "God Bless Amer-ica" by the entire gathering.

The banquet table was centered with the Red Cross emblem, while the place cards also featured this patriotic motiff.

A delicious meal, highly complimentary to the Amherst Hotel, was served.

During the meal, KICA Person-ality Girls of the Clovis Radio Station, Sue, Kay and Betty singing, with Nelva at the piano, rendered several numbers much appreciated and enjoyed. Mr. Shaw acted as Toastmaster.

Splendid talks were made by Capt. Robert E. Kenim, instructor at

America has assumed the grave responsibility of freeing and feeding the enslaved people of the world. You farmers and your fertile fields must carry the bulk of this work by producing more than you've ever produced before. Food is an essential weapon of war but it is also a producer of peace. Our enemies have starved people into submission and we must counter-attack by sending them food with which to build up their bodies and morale into usefulness.

You farmers are faithfully meeting the great task of pro-ducing "Food For Freedom" and we want to be of every possible assistance to you in your outstanding undertaking.

WATER AND CONSERVE FUEL FOR THE WAR EFFORT

America is a land of bathtubs-millions of them. We Americans take our luxurious hot baths in well-filled tubs as a matter of course.

But please do not forget that the natural gas used to heat your bath water is a vital war fuel, and that your government wants you to use it sparingly.

It is said that the King of England ordered a line to be painted around the inside of each bathtub in Buckingham Palace, five inches from the bottom. That was so that no one in the royal household, including the King himself, would fill the tubs above that line. They have a fuel shortage in England, too.

They say cleanliness is next to Godliness, so let's continue to take our hot baths. BUT, let's use no more hot water than we need. And let's save natural gas in all the ways we can. Some of the ways are suggested in the box to left.

GIVE and GIVE GENEROUSLY

... when the need is greater than ever before -this year you will want to give more . . . to give freely to your own Red Cross . . . to your own sons in the service.

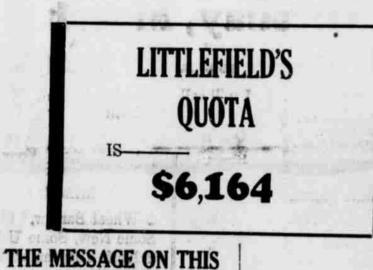

EVERY year you have given to the Red Cross willingly and with a free heart. You helped us help millions of people ... when the floods struck when the earthquakes came ... when famine devastated some far-off land. It was your habit to give ... the great proud habit of thirty million American families ... proud that they could give ... proud of the great Red Cross that made the giving worthwhile.

But this year it is going to be different.

When you dig into your pockets and purses it won't be just your "regular" contribution. For this year of global war the need is greater than it's ever been before. And this year it is your own boys the Red Cross serves. . . . Eleven million of them in every land from Sicily to Chungking on every ocean and in every sky.

This year, when you cannot be near your sons, you will give generously and be glad that the Red Cross-your Red Cross-is still the greatest mother return? in the world.

So give-for this is the year when giving really hits home. Give for the boy who longs to be with you-give to your Red Cross which will reach him for you.

Yes, give generously and be glad that Red Cross-your Red Cross-is still the greatest mother in the world and that wherever in the world your boy is.

Then stop a moment and think of the lonelier ones . . . the prisoners of war . . . condemned proud. to wait it out in some alien land . . . condemned to live on alien bread . . . alone tonight under the stars . . . alone and forgotten. Forgotten?

No . . . not while the Red Cross-your Red Cross-has the power to help.

For the Red Cross will, to the utmost of its power, get your letters in to them and will pass their letters back to you.

And every week, through the barbed wire straight from your generous heart, you have done the extra work . . . donated your blood and bought your bonds. But here is one extra gift you will gladly make. This is one time when you will dig deeper than ever before . . . dig deeper and be

He also stated that a number of firms had already reported their employees signed up 100 per cent. "This spe-cial feature," said Mr. Shaw, "will make it easy on committees as they go about among the business houses."

Mr. Shaw also reported that beginning Monday morning at 9:30 o'clock at the sound of the fire whistle, there will be some 60 to 75 business men who will meet at Rowe's Abstract office, and will be assigned the section of the business part of town they are to work.

Aspecial appeal will be made Sunday from the pulpits of the Churches of Littlefield asking volunteer workers to solicit funds in resi-dential section. This group of ladies will meet Tuesday morning in the Methodist Church basement at 9:30 o'clock. Under the supervision of Mrs. C. O. Stone they will be assigned the different sections of town

in which they will work. Mr. Shaw stated that by having a large group of men and women to assist in the solicitation for funds, it is not going to be necessary for them to put in more than about 30 minutes each to complete their assignment. We expect to complete the business section of town by Tuesday afternoon.

Mrs. P. S. Hanks and Mrs. A. B. Jordan have been named to handle the drive in Sunnydale Community. Committees will be appointed at Lum's Chapel, Bainer and Rocky Ford this week.

At last report Spade lacked but a very little of obtaining their quota, but assured local Red Cross officials that they would arrive at their goal right away.

Five Sons To Serve Uncle Sam's Army

With the entering into the service of Kenneth Landrum, son of Mrs. S. A. Landrum, who left Sunday for the Navy and San Diego, this makes five sons of Mrs. Landrum to serve

their country. Lieut. James O. Landrum, pilot of a P-51 fighter plane, and who was previously in North Africa, is now "somewhere in Italy."

Darrell Landrum, 17, volunteered for the Navy, and left Lubbock March 1. He is now attending a Radar School at San Diego.

In reporting a promotion recently to his mother, Derrell said:

"I took some more tests, and when my jumper came back from the tailor I had two stripes on the cuff, in place of one, which means Second Class Seaman."

Darrell has had poor health, and for the past year has spent most of his time in hospitals. His condition was reported to the Army doctors before he was sworn in, and 16 Army doctors examined and passed
