### FARM BOOKKEEPING

No modern business man would think of conducting a store or factory year after year without keeping records to show whether he is making or losing money. Yet many farmers try to get along with no records at all, or keep records so incomplete and haphazard as to be of little value.

Many progressive farms do keep books in a practical way and these are usually the ones who are making a success of farming. They realize that they are business men, engaged in the greatest business in the world and they adopt business methods accordingly.

Not only should a farmer's books show the total amounts of his receipts and disbursements, but they should show a separate account for each crop and for each other activity, such as livestock, poultry, fruits, vegetables, etc.

In this way he may discover what pays and what does not pay. Without such records he is working in the dark, often suffering losses where he least suspects them.

Bookkeeping on the farm will not turn losses into profits, but it will serve to point out the mistakes of a given year and be a great help in avoiding them in the future. No farm should be conducted without a complete and accurate system of bookkeeping.

### FIRE PREVENTION

The estimated loss from fire in the United States last year was 508 million dollars. Littlefield may well be thankful that she did not contribute a single penny toward this huge sum, yet she has nothing for which to boast. With an inadequate water supply—one from which she could not even muster a decent bucket brigade; with no fire fighting apparatus of any kind, the hazard is always great, but where many of the buildings are of frame and other inflammable material the risk is always far greater.

Littlefield citizens should ever be on the alert in the prevention of fire. A thoughtlessly dropped match; the careless flirt of a cigar or cigarette, the forgotten oily rag with which the furniture was being cleaned—all these under the proper conditions could cause a holocaust which, with the wind in the right direction, might sweep into ashes two or three blocks of our little city.

Fire prevention week is well advised—but it ought to last 52 weeks in every year.

### GREET NEWCOMERS

That a word of welcome to the newcomers is worth while is evidenced frequently by the expressions of appreciation that come from the new settlers who have already received greetings of this character.

From all over the country they are coming to Lamb county this fall in great numbers, and the sooner we can help them to catch the spirit of the South Plains country and make them feel at home in our midst, the sooner they will put their own shoulders to the wheel of progress and become loyal cooters in our midst.

So, as the strangers enter within our gates, let us give them the welcome smile and the hearty handshake.

### THE DAIRY FARMER

The dairy farmer is always the farmer ahead. The Leader has always urged and continues to urge

the farmers of this section to keep more milk cows and sell more dairy products.

However, we have recently been talking with some of the farmers of this vicinity and learned they do not have the best milk stock for their products. It don't pay to keep "boarders," and the cow that won't pay for her keep in milk had better be sold. A man had better have one 400 pound butter fat cow than to have five or six 100 pound cows. If a man were going to buy binders he wouldn't buy six binders each a foot long, but he would purchase one binder six or seven feet long. The same rule should apply to cows.

A few cows on a farm helps wonderfully toward paying the grocery bills and buying the other household necessities, and the quicker our farmers learn this and start the cream checks rolling in, the better off they will become financially.

### TOWN TEAMWORK

Every town has its business competition, its differences in politics and religion, its social rivalries and personal antagonisms—and these will probably always exist to a greater or lesser extent.

But there is one common ground where all citizens should lay aside their various differences and meet together, and that is the welfare of the town as a whole. No matter how much citizens may disagree regarding all other questions they should be a unit for everything that is to make a bigger and better town for all of us.

Frequently by joining with a rival or an antagonist in some community movement he may be found to be a pretty good fellow after all, and by cooperating with him the town and surrounding country is always made better.

Development of a strong community spirit is absolutely essential to community advancement. Loyalty and teamwork are the things that count for bigness and betterment.

### Little Leaders

Every day is defense day—with some husbands.

Scandal-mongers have no union rules and never object to working overtime.

Quite frequently, it is our observation, the upper hand comes from the bottom of the deck.

There always has been and always will be plenty of unemployment—and much of it is on somebody's payroll.

Mount Shasta's phoebe has recently been throwing considerable mud. Probably taking its cue from the politicians.

An easier word than "chauveur" might be found, but it is doubtful if pedestrians would be permitted to use it in polite society.

A Danish college professor declares men are more convincing liars than women. Perhaps in Denmark they get more practice at the art.

Mrs. Augusta Evans Inge of Corinth, Miss., poet-laureate of the Sons of Confederate Veterans, recently wrote a beautiful "Ode to Stone Mountain" at the age of 91.

Mrs. Mary Longely, an English woman, by heroic efforts supported a heavy beam for half an hour until help came, thus preventing her two children from being crushed when their home collapsed.

Mrs. Henry M. Pindell has succeeded her late husband as president of the Peoria Daily Journal Company

George Henderson and A. Baker were Sudan visitors Saturday.  
 Rev. John Cobb filled his regular fourth Sunday appointment, assisted by Rev. Mack Williams and J. W. Saffle. Following the morning service a big basket dinner was served to a large crowd, after which Claude and Clyde Coffman were ordained as deacons of the Baileyboro Missionary Baptist church.

Quite a number of Baileyboro folks attended the baptizing at Aberney tank Sunday afternoon. The two candidates baptised were additions to the Sudan church.

**THE FLOCKING BIRDS**

Blues and Reds Have Good Time At Junior League.

Sunday afternoon was a good time for the birds of the Junior League, and four new ones were added to the flock. The song service was splendid and the scripture reading and quotations were good.

Wyvonne Mason gave a lovely Bible story on the life of Joseph that would have done credit to a grown lady. She pointed out plainly the lesson of returning good for evil, as Joseph did.

There were some absent from the program, but their time was occupied with a talk by Mrs. Watson, the district superintendent from Lamesa.

The program for next Sunday afternoon is as follows:

Song service. Prayer.  
 Going to Jesus for Joy. Luke, 18: 15-17.  
 Business. Lesson story—Middy B. Butler.

## NOTICE TO COTTON FARMERS

Nearly everyone who has lived in the Littlefield territory during the past few years knows something of the history of the Littlefield Gin, but for the information of those who are not familiar with such, we are herewith publishing some facts regarding the discouragements and vicissitudes which the gin has undergone in its efforts to supply the needs of the cotton farmers of this vicinity.

When G. M. Mason, of Lampasas, Texas landed in Littlefield, in response to a telegram from the business men of this place, he was carried over the "Littlefield trade territory," which at that time consisted of a very small number of farms, mostly occupied by northern people who knew but very little about cotton raising. At that time cotton was selling at from 35 to 40 cents per pound. People were enthusiastic regarding the staple. Mason himself, was enthusiastic with the outlook, the future of the town, etc., and made preparations to build a gin here.

In 1920 more cotton was planted, some of it was hailed out, some made a fairly good crop, but the price dropped and much of it was not considered worthy of picking. Farmers became discouraged and with good reason, and the following year of 1921 the acreage planted was considerable smaller in proportion to the amount in cultivation, 375 bales being ginned in 1921 against 145 the previous year. In 1922, 870 bales were ginned and in 1923, 645 bales were ginned.

In consideration of these facts and figures it may readily be seen that the gin business in Littlefield has not been a profitable business. However, the gin owners have never attributed this condition to any fault of the country, but, rather, to "unavoidable conditions," pronouncing in other words.

Therefore, the object of this article is to let the cotton farmers of this section know that the Littlefield Gin is still here, and in better physical condition to serve them than ever before. Its owners have, at all times, endeavored to keep the gin modern in every respect. Experience during the past two years demonstrated the need of a burr extractor, and, accordingly, the management invested more than \$1700.00 in a Roseman-Lockey machine of this nature, universally considered the best machine for its work the market affords, and which is not only a burr extractor but a cleaner as well.

Those of you who are acquainted with the machinery in our plant know we already have a first-class cleaning system. We have a Murray air-line cleaner, a Standard (Hart) boll-breaker and cleaner, and last year we added a Williams cleaner, making three cleaners installed up to date, besides the noted Roseman-Lockey burr-extractor.

Cotton farmers already know that it is good machinery, and not a fine gin house that makes their cotton bring the most money on the market, and in making our repairs and improvements for this season's ginning it has been our endeavor to equip our plant with everything necessary for the benefit and convenience of our customers. Our plant is now in fine condition to give you the best kind of service. We have built a cotton house where, if in a hurry, you may unload your cotton, and have it ginned later. We will at all times pay the highest market price for your staple, buying it in the seed or after it is baled as you prefer. We are here to serve you, and if we do not do so it will be because you do not give us the opportunity.

Bring us your cotton. We guarantee you the best of ginning.

LITTLEFIELD GIN  
(Adv. Itc.)

## CITATION BY PUBLICATION

The State of Texas,  
To the Sheriff or any Constable of Lamb County—Greeting:

You are hereby commanded, that you summon, by making publication of this Citation in some newspaper published in the county of Lamb if there be a newspaper published therein, but if not, then in any newspaper published in the 64th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th judicial district for four weeks previous to the return day hereof, L. A. Ritz, George G. Wright, Ella D. Hammett and husband J. P. Hammett and J. M. Hammett Banking Co., a corporation, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be held in the County of Lamb at the Court House thereof, in Olton, Texas, on the Fourth Monday in Nov., A. D. 1924, and being the 24th day of Nov., A. D. 1924, then and there to answer a petition filed in said Court, on the 4th day of October A. D. 1924, in a suit numbered on the docket of said Court

No. 102, wherein Thomas Kareher is plaintiff and L. A. Ritz, George G. Wright, Ella D. Hammett and husband J. P. Hammett and J. M. Hammett Banking Company are defendants. The nature of the plaintiff's demand being as follows, to-wit: suit against defendants in trespass to title to the North one-half of section No. thirty-eight in block No. two, W. E. Halsell subdivision in Lamb County, Texas, alleging that on the first day of September 1924, the plaintiff was lawfully seized and possessed of said lands, claiming same in fee simple and that the defendants on said date unlawfully dispossessed the plaintiff to his damage in the sum of \$5,000.00; the plaintiff alleges that he has title to said lands by common source with that of the defendant L. A. Ritz and holds title from L. A. Ritz under Deed of Trust executed by L. A. Ritz with power of sale in favor of George G. Wright, and that under resignation of the trustee in said Deed of Trust and the appointment of a substitute trustee, deed was made by substitute trustee to the defendant J. M. Hammett Banking Company, and deed by J. M. Hammett Banking Company to Ella D. Hammett, and by Ella D. Hammett to plaintiff, also by J. M. Hammett Banking Company to plaintiff and that in deeds from Ella D. Hammett and husband to plaintiff there is recited vendor's lien in favor of Ella D. Hammett, and conveyance subject to deed of trust lien in favor of J. M. Hammett Banking Company, but each of said recitals was a mistake and erroneous, it being intended to recite assumption of payment of a consideration growing out of a note of \$2500.00 executed by Ella D. Hammett in favor of the defendant, J. M. Hammett Banking Company which said note has been paid and released; also alleges as Count No. 2, that the plaintiff and those under whom he claims have had peaceable, continuous and adverse possession of said lands and premises, cultivating, using, enjoying the same and paying taxes thereon, claiming under deeds herein above set out each and all of said deeds being of record in Lamb County, Texas, in proper records thereof for a period of more than five years next before the first day of September 1924, and claiming the same under the 5 year statute of limitation which he pleads and prays for judgement for the title and possession of said lands and premises, for writ of restitution, for costs, damages and general and special relief such as he may be entitled to in law and in equity.

Herein fail not, and have you before said Court, on the first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Olton, Texas, this 4th day of October, A. D. 1924.

M. R. Cavett, Clerk District Court, Lamb County, Texas. (Seal)

land have gone far beyond his most sanguine expectations, and on the opening day it was found necessary to throw onto the market an additional 25,000 acres to accommodate the numerous prospective buyers who were present at the opening. Actual sales closed on that day amounted to a total of 22,000 acres.

The Spade ranch has long been known as one of the finest bodies of land to be found anywhere on the South Plains of Texas. It embodies some 173,000 acres of land, practically every foot of which is tillable. Thousands of acres could be placed in one vast field, if desired, but the land has been cut up into sections of 640 acres each, and then subdivided into 160 acre tracts, it being the desire of the owner, W. L. Ellwood, that it be sold to actual settlers, rather than to speculative interests. These lands are ideally adapted for the growing of every crop that flourishes in this section. The soil is excellent, the water pure and of shallow depth. Located in the very heart of an already well proven agricultural section, they are destined to become some of the finest farming lands of this entire western country.

This week the new town of Anton is being laid off by surveyors. The land company has already erected an office building on the townsite, several lots have been spoken for, and various business enterprises are being arranged for this week.

Constable F. T. Pyeatl was notified that they were traveling in this direction and spent Sunday night in search of them. A description of two couples, answering those in question, was sent from Sudan, but ere the officer could locate them, they had disappeared, supposedly crossing the line into New Mexico.

Ladies Have Interesting Program With Mrs. Hinson.

The Spring Lake home demonstration club met Wednesday, October 8th at the home of Mrs. Hinson, there being a good attendance and much interest manifested in this vicinity.

Following the roll call, the singing of "Home, Sweet Home," and the discussion of current events, the program was entered into. Mrs. W. F. Cleavinger discussed the judging of silks; Mrs. Wm. Hall, the judging of linen; and Mrs. Willis White, the judging of wool goods. The talks of these ladies were all good.

The Spring Lake Club is entering into their work with a zest that bids fair to accomplish great results.
