Eligible Boys To Get Calves

As announced Tuesday by E. C. Cundiff, secretary of the Senior Chamber of Commerce, this booster group is working on a plan whereby any eligible boy between the ages of 14 and 16 can get a calf to feed out each year for the stock show without any cost to the boy except the feeding of the calf.

These calves will be released at the Junior Chamber of Commerce rodeo in the arena, and the eligible boys will have to catch their calves on foot, and with only a halter and a 10-foot rope, and it cannot be used as a lariat.

Full rules and regulations will be released next week, with the names of the sponsors who will provide the calves for the boys.

James Forrestal, Secretary of the Navy: "We regard the welfare services and recreational facilities of the American Red Cross indispensable factors in the welfare and morale of the Navy at home, one the seas and in distant stations."

"On behalf of the Navy, I am requesting a continuance of these services for our able-bodied and hospitalized men, consistent with the resources and facilities of the Red Cross."

Gen. Omar N. Bradley, Administrator, Veterans Administration: "The Veterans Administration regards these Red Cross services an indispensable adjunct to the tasks which we seek to perform on behalf of veterans and their dependents."

"The continuance of these services is absolutely essential. It is my earnest request that the Red Cross will stay at the side of the veteran in peace as it stood at the side of the serviceman in war."

Bonds Cannot Affect Taxes States City Commission

It has been brought to the attention of the city commission that some confusion exists in the minds of some of the voters of the city with reference to the bonds upon which we will vote April 1st. Two issues of bonds are being submitted to the voters at this time—\$65,000 for street improvements and \$10,000 for park improvements, making a total of \$75,000. Based on the tax valuation for the year 1946, which amounted to approximately \$2,500,000, it will require a tax levy of about 29 cents on the \$100 valuation to provide a sinking fund to pay the interest and retire the bonds at maturity.

the same, whether or not the bonds are voted. The reason for this is as follows: the maximum tax rate for towns incorporated under the law under which the city of Littlefield is operating is \$1.50, and the city cannot exceed this rate. Furthermore, under a decree issued by the Federal Court in 1939 and amended in 1947, the city cannot reduce this rate during the life of the present outstanding bonds. Under these conditions it can readily be seen that no change can be made in the tax rate, for the maximum is fixed by state law and the minimum by a federal court decree. Since this decree was amended this year, the tax rate of \$1.50 will and does provide sufficient money on the present valuations to service the present outstanding bonds and provide the necessary sinking fund to retire the bonds proposed to be voted. So it resolves itself into a question of using our money for paving and park improvements, or for other purposes;

in fact, taking it out of one pocket and putting it into another one. With reference to a possibility of an increase in tax values, this was very thoroughly gone into in 1946 by a board of five very able and successful business men, who are thoroughly familiar with property values in the city. The final result of their work showed a total tax valuation of \$2,577,665, which is sufficient to take care of present outstanding bonds and also those proposed to be voted and have a surplus for operating expenses. There is no desire on the part of any member of the city commission to raise tax values, for the town is steadily growing and will no doubt continue to do so for several years, which will necessarily automatically increase total tax values, so there will be no reason to increase the individual rendition of any property owner except for equalization purposes.

No Candidates Filed Up To Wednesday Night

The City of Littlefield will hold three elections on Tuesday, April 1. Taxpayers will vote for or against the issuance of bonds in the sum of \$65,000 for the purpose of construction and improvement of the streets of Littlefield, and for or against the issuance of bonds in the sum of \$10,000 for the purpose of improving lands in said city for park purposes.

A general election also will be held April 1 to elect a mayor and two commissioners.

According to W. G. Street, city secretary, no candidates have filed. Today (Thursday) is the deadline.

A petition requesting Mayor Cheshier and Commissioners Lon Campbell and L. C. Hewitt to continue to serve has been placed in circulation, and signed by a large number. This will be presented to the city commission at an early date.

In an interview with Mayor Cheshier Monday, he stated to a reporter of the Leader that he did not plan to be a candidate.

Mr. Hewitt stated Wednesday that he definitely would not be a candidate, whether or not drafted, as he expected to be too busy in his own business, the Hewitt Motor Company, Chevrolet automobile dealers, to attend to a commissioner's duties.

Mr. Campbell said Wednesday that he had no statement to make at present as to whether or not he would serve.

Colds Caused From Germs

What causes colds? Colds are caused by germs too small to be seen under a powerful microscope; they are known as "Filterable Virus." They are present in discharges from nose and throat. They are spread from person to person by sneezing, coughing, spitting, or on any freshly contaminated article, such as a drinking glass, which will pass on the infected saliva. A cold is not likely to be passed on during the first 24 hours.

If we could each live like a hermit, apart from others, we would probably never "catch cold." People living in Greenland and Labrador, we are told, do not have cold in the winter even when exposed to the most severe weather.

The busy person in everyday life cannot avoid exposure to colds. We

expect to be sprayed by careless coughers and sneezers. Young children, elderly people and invalids who suffer most from the effects of a cold should certainly be protected from those who have colds. Children with colds should be kept home from schools, and if rest and light food do not help the cold to disappear shortly, then the family physician should be called. This may not be a cold but even more serious, as most of the communicable diseases start with some of the symptoms of a cold.

What can we do to avoid colds that cause more loss of time from industry and schools than all the other diseases combined? Have your own cup and glass at home and elsewhere; dress for the weather; eat a balanced diet; get plenty of rest; keep away from persons with colds.

Colds are costly. Prevent them if possible.

'Cuz' Goodman's 'Saddle Mountain Roundup' To Present 'Rainbow Trail' at Palace Theatre

Gerald (Cuz) Goodman, the Southwest's leading stage show producer, has a stage show for the 1947 season that is outstandingly different.

"Rainbow Trail" is the title of this new and different musical western stage revue, coming to the Palace theatre Friday only of this week. The outstanding feature of this production will be presented in living technicolor.

Living technicolor is a new technical development whereby the most astounding scenic effects are produced on the stage in total darkness. All the colors of the rainbow came to life, in total darkness, before the very eyes.

Pretty girls and clever boys in the cast of "Rainbow Trail" will make a complete change of appearance and changes of costume right before the eyes of the audience, by using technicolor effects. It is not magic—it is a new development of the post-war, modern world which will entertain and astound auditors. "Cuz" says, "You have to see it to believe it."

Beautiful special scenery will be carried along with the "Rainbow Trail" stage show. Clever novelties and comedy will be presented in an entirely new manner, in living technicolor.

Goodman will present new comedy routines and, included in the cast of this fine stage show, will be many pretty girls and clever boys who have been heard over the national radio networks—the Hillbilly Hit Parade from Station KRLD, Dallas, and other leading station of the nation.

A fine band, good singing, dancing and comedy galore will be featured in this, the season's newest and most different stage show ever produced by Goodman.

Popularity of Herald (Cuz) Goodman's "Rainbow Trail" stage show is such that the production has been booked solid for the 1947 season by tip theatre circuits.

New and different—packed with fine music, pretty girls, comedy and hilarious entertainment for the entire family—this "living" technicolor stage show is the outstanding entertainment of the year.

FOR MORE FARM MACHINERY

Production of farm equipment is being curtailed by the steel shortage. Pig iron output in some foundries has been reduced by 25 percent. Scrap iron must fill the gap!
 A vigorous scrap collection campaign is as urgent now as at any time during the war. The war proved that one of the best sources of scrap iron is the farm.

Farmers have the most to gain from the success of this drive. Give it your full active support and urge others to help. Collect every pound. If you do not know where to sell it, ask us.

Ring Lost in Cow Lot and After 16 Years

and degree Masonic ring, set with diamond, lost 16 years ago in a cow lot at the V. A. Hines farm near Littlefield, was found last week by a year-old son of the owner, as he was taking care of the cattle in the lot. The ring was not in the

least damaged by laying in the dirt so long. The son who found the ring was only a year old when his father lost it. Mr. Hines was happy about finding his ring, and reported it when in Littlefield last week.

Whitharral Girls Championship

smooth-working Whitharral secured the women's basketball championship of TAAF District Two after squeezing the Plains team from Plainview, 20-18,

in the championship tilt at LAAP gymnasium. Betty Matthews, sharp-shooting Whitharral forward, although she fell short of her previous high game total of 25 set in the semi-finals, hit for a field goal and a pair of free throws in the waning minutes to forge ahead after a 16-16 third quarter deadlock, to give the Whitharral club the title in the first annual TAAF tourney. Matthews' 15-point total in the pay-off tilt gave her a tournament record

of 62 points in three games to lead all point-makers.

Plainview, coached by Wayland mentor Harley Redin, grabbed a 13-10 half-time lead, but the Whitharral lassies closed the gap during the third quarter to pull even at 16-16.

A free throw and a fielder by Matthews sent the score to 19-16 before Sue Crow hit from the field for Plains to make it 19-18 before the Whitharral standout hit again from the free throw line to ice the game in the final minute.

Sue Crow of Plainview garnered runner-up honors with 12 points.

Post failed to show for the third-place play-off, thus giving the third place slot to the Brownfield All-Stars.

Anton To Have New City Hall

Anton is growing at a good rate. Mayor Atkinson and the city commissioners announced last week plans for the building of a new city hall, and workmen were busy Thursday staking off the ground for the structure. The building, which will be 22x40 feet, will be of brick and tile construction, and located on the lot in front of the little jail. It will afford office space for the city and shelter for the city fire truck. Two up-to-date rest rooms are also planned in the building.

The Leader is proud of the following letter received from Rev. A. W. Blaine, pastor of the First Baptist Church of Muleshoe, and clerk of the West Plains Baptist Association, commending this newspaper on the splendid coverage given in connection with the recent simultaneous revival.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ-laden phlegm, and aid nature to soothe and heal raw, tender inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

From where I sit... by Joe Marsh

Do Men Like Women?

Maybe you read that recent article in a national magazine, claiming that American men don't really like the company of women. They don't put them up on a pedestal and love them there.

But I wouldn't say that that was true in our town. Look at any married couple—like the Cuppers. I wouldn't nag if Dee spent his evenings "with the boys"—but actually Dee likes nothing better than to stay home by the fire, drinking a glass of beer with Jane, playing cribbage, or just talking.

And when he does go out, for an afternoon of fishing down at Seward's Creek, or for an evening glass of beer at Andy Botkin's Garden Tavern, Jane is almost always with him (except when she's got a spot of baking in the oven).

From where I sit, respect doesn't rule out everyday companionship... and never should. They go together—essential parts of a successful marriage.

**A MESSAGE FROM
THE
SECRETARY OF WAR**

**How you
can help
YOUR ARMY DO ITS
PART FOR PEACE**

With the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety and our duty to promote world peace — all are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for thorough training in valuable skills.

A job in the new Regular Army compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily — to do his part in carrying out your country's world-wide obligations to build a peace that will endure.

Social Security Official To Be Here Next Wednesday

Elliott W. Adams, manager of the Lubbock office of the Social Security Administration, will be in Littlefield at the U. S. post office at 10:30 a. m., Wednesday, March 26, for the purpose of answering question regarding Social Security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for Social Security account number cards.

The 1946 amendments to the Social Security Act extend the time during which lump-sum applications may be filed based upon the record of a worker who died outside the United States. The Social Security Act pro-

vides that lump-sum payments cannot be made unless the application is filed within two years of the date of the worker's death. Under the amendment, however, the two-year period does not begin until August 10, 1947, in the case of a person who died outside the continental United States. This amendment will affect survivors of servicemen who died overseas and survivors of various civilian workers who died outside the United States during the war. It is effective if death occurred after December 6, 1941, and before August 10, 1946. In these cases if application is filed by August 10, 1948, the lump-sum payment may be made.

Dr. W. M. Whyburn, president of Texas Technological College has accepted an invitation to attend services in Waco March 6 when Baylor University will confer an honorary degree on President Harry Truman.

Any price is too high if it can be reduced

Fowler McBurnett

International Harvester announces \$20,000,000 price reductions

We believe there is nothing more important to this country than to lower the prices of the goods that people buy.

The American people have insisted that the government withdraw from its attempts to control prices in peacetime. That places the responsibility where it belongs—in the hands of business and industry. Not all business can reduce prices now. Not all can reduce by the same amount.

Our company has felt a duty to act as promptly as possible. In our case, the business outlook now makes it possible to move toward the goal of lower prices. The only way out of the vicious circle of higher and higher prices is to break through.

We have taken this step not because of present competitive conditions nor because of a drop in demand from customers. We have taken it because of our belief that ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED.

These reductions, which will save the users of our products approximately \$20,000,000 a year, will become effective before April 1, and will apply to a selected list of tractor, farm machine, motor truck, and industrial power products. Since we lose money on a few of our products, and barely break even on some others, these reductions will not apply to our entire line. Reductions will be made individually on products. Some will be cut more than others. Exact details will be announced as soon as possible.

Our ability to maintain this lower level of prices will depend in part on what happens to the prices and flow of materials that we buy from others. Because we believe price reduction is vital, we are willing to assume the risks that are involved.

Prices had not gone up as much or as fast as many others

Here are Average Price Increases since 1941

All Manufactured Products (U. S. Government Reports)	63.7%
Metals and Metal Products (U. S. Government Reports)	41.2%
Motor Trucks	35%
Industrial Power Products	34%
Farm Machines	25%

These benefits to customers will depend, too, on uninterrupted production at reasonable wage levels. This is not a program that can be carried out if it is hampered by strikes or work stoppages.

Our employes have had substantial increases in pay, and wage questions are currently being discussed with many of the unions with which we deal. Stockholders have recently had an increase in dividend rate. Having considered the interests of these two groups, we are now making these price reductions for the benefit of the third group—our customers.

Business, to our way of thinking, has a social as well as an economic responsibility. This company has long followed the policy of operating in the interests of three groups—its customers, its employes and its stockholders. The duty of the management is to see that equal justice is done as between the three groups.

This price reduction program is another demonstration of our policy in action.
