Two sons, Luther S. Jenkins, Jr. of Shreveport, La. and Bill Jenkins of Hardin-Simmons University, Abilene; a brother, Jess Jenkins of Gorree, Texas; and a sister, Mrs. Mack Roller of Salina, Kans.

Similar Proposed Water Laws to Those Defeated Last Year May Develop

The Lamb County Water Conservation Association, which last year successfully fought proposed irrigation legislation believed to be unwise for this section and the South Plains, is again alerting the farmers and business men of this area to the fact that new legislation to control underground water is being prepared.

This legislation is proposed by the Texas Water Conservation Association, and is expected to be similar to that which was defeated last year.

Last Rites Held For Frances Penny

Frances Penny, 18, daughter of Mr. and Mrs. D. L. Gray, passed away suddenly at her home in the west part of Littlefield about 1 A. M. Sunday.

Miss Penny, who formerly attended Littlefield schools, was employed last Saturday at Perry's Variety Store.

Her family reports that she had a girl friend as a guest Saturday night, with whom she had enjoyed the evening; that about 1 A. M. her brother passing by her bedroom had noticed a very peculiar look on her face, and went to her bed as she gave a couple of gasps for breath. The family rushed her to a local hospital where she was pronounced dead. A heart ailment is believed to have caused her death.

Funeral services were conducted at the Littlefield Missionary Baptist Church at 3:30 P. M. Monday, with Rev. Weldon D. Meers, Pastor officiating. Interment took place in the Littlefield cemetery.

Pallbearers were: John Clayton, Hobson Grant, W. H. Berry, Hugh Bledsoe, Howell Wilson and Albert B. Askew.

Flowerbearers were: Misses Lucille Dunn, Janelle Hays, Clara Freeman, Lucille Johnson, Edith Douglass, Alice Douglass, Bertie Kyser, Dorothy Kyser, Billie Evitt, and Mrs. Robert Kloiber.

Deceased was survived by her parents, a brother, Troy Autry Penny of Littlefield; her grandmother, Mrs. Ida Powell of Ranger, and the following aunts and uncles; Mrs. E. D. Williams of Littlefield; Mrs. Lelia McKinney of Ranger; Mrs. Lillie Tucker; D. C. Powell of Greenville; G. D. Powell of Lone Oak, Texas; and W. J. D. C., J. A., Chester and Atlas Penny.

Folder To Advertise Littlefield Planned

Plans are being made for the publication of an advertising folder to publicize the many advantages of Littlefield and the area.

The folder is expected to be pictorial in character, with emphasis laid upon the natural resources and business opportunities inherent in this territory.

The folder will be prepared in the near future, the Chamber of Commerce announced.

TO ORGANIZE HARD BALL TEAM IN LITTLEFIELD

Plans are underway by the Jaycees with the cooperation of the various civic organizations of the City, to organize a hard ball team to enter the oil belt league.

A committee has been named, who will contact the various civic organizations, including the Rotary Club, Lions Club, V. F. W., American Legion, Senior Chamber of Commerce, etc. This Committee is composed of Merlin Yarbrough, Lomer Nelson, Wayne Brown, Amiel Onstot, D. L. Whitson and O. K. Yantis, Jr.

This league takes in Denver City, Seagraves, Brownfield, Lamesa, Se-

It is anticipated that the proposed legislation will be based on the recommendations contained in a report which was received from the water laws committee of the Texas Water Conservation Association, and adopted by that organization this month at a meeting in Austin.

The report adopted by the association calls for the setting aside of \$15,000 "for use in carrying out the contemplated program."

The report also calls for "a strong administrative organization cloaked with adequate powers through adequate statutes" and with adequate administrative personnel and facilities for the administration of these water laws.

The sentiment of the people of this section is the setting up of a "strong" administrative agency in Austin, with life and death jurisdiction over this area, would retard the development of this section and give too much power to people who do not understand the problems of this part of the state.

Under the legislation submitted to the legislature at the last session, a farmer could not drill a well without getting a permit from Austin.

The citizenship of Lamb county and the South Plains is vitally interested in any steps which will assure the wise use of underground water, but they do not believe that regulatory body should be concentrated 500 miles away. If any group is to be set up, it should be composed of people of this area, who, naturally, would know local conditions.

Study Being Made At the present time, a study is being made of High Plains water conditions by the Texas Board of Water Engineers in conjunction with the United States Geological Survey, whose headquarters are in Plainview. Dry land farmers, irrigation farmers, and business men of the South Plains are urged to watch closely (Continued On Back Page, Sec. 1)

Golden Wedding—

(Continued From Page 1)
 Plainview, and Mr. and Mrs. C. O. Griffin and Miss Ruth Griffin of Littlefield.
 Open house was observed at the Pass home during the afternoon.
 Miss Ruth Griffin greeted the guests at the door, while Mrs. Hardy Shelby and Mrs. Pete Wynne presided at the register.
 Wedding cake and tea and coffee were served to all guests calling dur-

ing the afternoon.
 The refreshment table was laid with lovely handmade lace cloth over gold satin centered with large crystal bowl of yellow Maragolds, at one end of which stood the silver tea service, and at the other the coffee urn.
 Assisting in the serving were: Mesdames C. O. Griffin, Jimmie Bryan, Arthur Jones, Bill Little, and Bill Pass.
 Misses Barbara Bryan, and Katherine Lewis played soft music on the

piano during the afternoon.
 For the occasion the spacious home was made more attractive by baskets of flowers artistically placed, all of a golden hue to carry out the 50th anniversary motif.
 On the mantel stood a large picture of Mr. and Mrs. Pass taken on their original wedding day.
 Other out of town relatives and friends who were present were:

Mr. and Mrs. C. B. Travis of Ralls; Mr. and Mrs. Spot Sargin of Ralls; Mr. and Mrs. Kenneth Watson of Anton; Mr. and Mrs. J. D. The Lions will appreciate any donation or assistance to secure the lights for the football field.

The students have been sponsoring several events the past week, the proceeds of which will go towards this worthy cause.

The Sophomores staged a rummage sale Saturday in front of Wagner's Grocery, the proceeds of which will go towards installing lights in the stadium.

The Freshmen auctioneered off pies Tuesday night of last week at the high school auditorium, and realized \$55.00 for which they are to be commended. Doughnuts, coffee and cocoa were also served.

Fun night, sponsored by the Senior Class at the Legion Hall, was also scheduled for this week, when games "42" and Bridge were to be played.

Admission of 25 cents was to be charged, and the money is to go towards the lighting project.

The new Amherst postoffice building is completed, and plans are underway to move into same December 1.

The building is of tile and stucco construction, 25x50 ft., located on Main Street. The fixtures have not arrived yet, but are expected to be received in time for occupancy by Dec. 1, according to Postmaster Alan H. White.

In the new building there will be 500 post office boxes available, or 100 more than at the present time.

BULL LAKE PHILOSOPHER TURNS FROM INTERNATIONAL SITUATION TO PROBLEM OF MILK COW AT HOME

EDITOR'S NOTE: The Philosopher on his Johnson grass farm on Bull Lake pretends to be wanting our advice in his letter this week, but publishing his letter is enough without giving him advice too.

Dear Editor: I know what with big international problems confrontin the world it ain't no time to be discussin small affairs and the individual is supposed to be swallowed up in the gulf of world-wide situations or somethin along that line, but try as I will I can't help but give some of my thought to my own affairs out here on Bull Lake, and I understand even the President takes time off occasionally from global affairs to think of personal things like votes.

At any rate, I would like to have your opinion on the cattle market, as I figure your opinion on the cattle market is worth as much as your opinion on the cotton market or the United Nations or who caused high prices.

I have a Jersey cow out here which I reckon I ought to sell, at least she's about stopped givin milk and don't seem to get the same nourishment she used to out of Johnson

grass, hay, but I can't make up my mind whether it would be economically sound to do it. Should I sell her now while prices is high, or hold on to her until the next war when things may be even higher?

As I see it, any farm ought to have at least one cow, but changin cows is a serious undertakin. You take mine, she has sort of gotten used to the place in the last ten or eleven years, knows my fences as good as I do, in fact I say fence but in some places it's only a single strand of bobwire, in some places not even bobwire, just a piece of balin wire, and in some places just a hint of a fence, but my cow has sort of given up ambition, greener pastures don't appeal to her much no more, and while I don't get much use out of her it's a big satisfaction to know I can depend on her to stay at home. A new cow would give more milk, but wouldn't stay at home and by the time I got through spendin money on new fences and payin damages to my neighbors for tromped up gardens and corn fields, there wouldn't be no profit in it. If you was me, would you sell? Is it better to have more milk and more work, or less milk and no worry?

Yours faithfully, J. A.

Nebraska was named the "Tree Planters' State" by act of legislature in 1895 because Arbor Day was originated there by J. The name "Nebraska" itself, suggested by Fremont in 1843, was derived from the Otoe Indian name for the Platte River—"Ne-brath-ka," meaning "Shallow Water."

How women and girls may get wanted relief from functional pe pain

Cardul is a liquid medicine which many women say has the relief from the cramp-like aches and nervous strain of functional periodic distress. Here's how it may help: 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. 2 Started 3 days before "your time", it should help relieve "pain" due to purely functional periodic causes. Try Cardul. If it helps, you'll be glad you did.

Canyon Museum Has Large Collection Of Indian Relics

CANYON, Oct. 30.—When the second unit of the Panhandle-Plains Historical Museum is completed, as it is hoped it will be at the conclusion of the current campaign for funds, it will house one of the largest collections of Indian relics in the Plain region of the Southwest. In the additional, much needed space, these exhibits will be adequately displayed for the first time, according to Boone McClure, Museum Director.

The collections are many and varied. Perhaps the most outstanding among them are the contributions of Susan J. Allen, Dr. R. Goetsche, E. E. Dowden and Anna W. Dove.

As a memorial to her parents, Miss Allen of Pennsylvania, who spent many years collecting artifacts of American Indian culture as well as articles of historical interest from all quarters of the globe, gave this collection to the museum.

Included are more than 250 Pomo Indian baskets, representing types of weaving done by them; 50 pieces of Apache bead work; more than 30 Navajo blankets, many of them priceless, and more than 100 articles of hand-tooled silver from the Navajo, Hopi and other tribes.

Of special interest in the group is the blanket that was Apache tribe at the time he was taken from Chief Geronimo of the en prisoner by the United States Army. One of the most unusual items in the entire collection is a squaw pipe with a braided percupine quill covering on the stem.

Dr. Goetsche was for many years a frontier dentist, having contact and association with the Plains Indians, from the Dakotas to the Red River. His collection numbers approximately 100 articles including, as an outstanding item, "trial pipe," made from the leg-bone of a deer and occasionally used by the Indians in their rituals on the trail, when a larger peace pipe was not available. Also included are articles of clothing, jewelry and tools of the Cheyennes.

The E. E. Dowden Collection consists very largely of Comanche Indian relics. It includes the personal

ANYTHING FOR A THRILL . . . Some people will do a lot for publicity. Take this guy, for instance. He probably has a wife and three sweet children waiting for him at home. Chances are his ulcers don't bother him too much. He has a good job. He has, in short, everything to live for, but still he goes skinning around on this vicious looking rock. (It's part of Big Slide mountain in the New York Adirondacks.) Worst of it is, he doesn't even get his name in the papers.

effects of Quannah Parker and his wives. A papoose cradle, belonging to one of the wives, is of unusual interest. A lock of papoose hair is still attached to the cradle, as a token of friendship between Mr. Dowden and the Comanches.

According to tradition, Quannah Parker was the husband of six wives, and each of them was represented with a star placed above his living quarters. An Indian Agent informed Parker that according to law he would be allowed only one wife, and advised him to choose one from among the six and inform the other five of his choice. Parker is reported to have taken the matter under consideration for a short time, then

turning to the Agent, he said, "You tell them."

Received most recently is the Anna W. Dove Collection which is valued at several thousand dollars. It was previously shown at the Dallas Museum of Fine Arts and was removed by the owner to be added to the Indian exhibits of the Panhandle-Plains Museum.

Very valuable in the group is the Navajo Germantown Indian blanket which is estimated to be worth \$1,000. The blanket is five by seven feet in size and is of the bright colors found in most Indian designs. There are also papoose cradles from the Omaha, Sioux and Ute tribes. These are varied materials and styles. This collection also contains numerous items of interest to museum visitors.

Eusan J. Allen, in recognition of her splendid contributions, has been named by the Board of Directors as one of the Benefactors of the Panhandle-Plains Museum.

Star-Studded Army Tilt At Roswell Saturday

Saturday afternoon at 2, at Roswell's Farrington Field the 8th Air Force Bombers will square off with the undefeated Randolph Field Ramblers. Without a doubt, the biggest service team clash in many years, the Bomber and Rambler teams both are studded with former college and high school football stars.

Ten former West Point gridders, including "Doc" Blanchard, Arnold Tucker, Jim Enos, Max Minor, Bobby Dobbs, Al Nemetz, Frank Merritt and others will be playing in the game.

Blanchard kicked off and made the initial tackle in the Rambler's opening game with Mexico's "West Point," but has seen little action since due to an injury sustained in that game. He did, however, see action last weekend against the 34th Inf. Division. Blanchard is expected to start in the game this weekend at Farrington Field.

Skirt Lengths Are Coming Down

—It looks like skirts lengths are coming down, in spite of all the hemming and hawking that's going on about it.

So, for the girls who have decided to stop the fight and let their hems

down, here's what might be some helpful information.

The question is: "How am I going to lengthen a skirt without giving it that telltale, let down look?"

If it is a wool skirt that's being let down, and if the fabric is shiny on the underside of the hem, rip the hem and steam-press it on the wrong side of the fabric—that is, if the wool is light weight or has a raised pattern in the weave. If it is a thick wool, Miss Routh advises steam pressing on the right side.

In steam pressing, cover the fabric with a dry wool press cloth, then with a cotton cloth dampened in warm water. You may use a warm iron, but set it down, then lift it. Don't slide it back and forth, warns the clothing specialist.

If the shine is still showing after that operation, there's another trick you can try. Take a clean brush or a rubber sponge—the kind used for suede shoes—and try raising the nap of the wool with it.

Conspicuous and stubborn hem-line greases can often be erased by wetting the crease on the wrong side, says Miss Hambricht. Then turn the goods over on the right side and roll the crease back and forth in your finger to work it out. Then press on the wrong side afterward.

From where I sit... by Joe Marsh

Sam's a Matrimony Expert

Sam Abernathy never intended to be a matrimony expert, but he hit the nail on the head the other day when he said:

"What marriage really needs is more open minds and a lot fewer open mouths."

Sam may not think much of his missus' choice of hats or her habit of serving watercress and cream cheese salad. But he keeps his mouth shut (I mean, he just uses it to eat the salad). And the missus never criticizes Sam's affection for that worn-out chair before the fire,

and his mellow glass of beer and pipe at the end of a long day.

From where I sit, that prescription would apply to most human relationships. Criticism rarely rouses anything but resentment. But an open mind—whether it's applied to a woman's choice of hats, or a husband's preference for a pipe and a moderate glass of beer or two—leads to the conclusion that there's right on both sides.
