SUFFERS BRUISES IN AUTO MISHAP

Mrs. Bill Austin was treated for
minor cuts and bruises Wednesday
afternoon about 4 o'clock at the
Payne-Shotwell Hospital, sustained
when the car in which she was rid-
ing was in collision with a truck on
the Levelland Highway, just east
of town. She was released after
treatment. Other occupants of the
car were Mrs. R. W. Shirley and
her two little daughters. The car
was badly wrecked.

County Cannery Now In Operation

The County Cannery, with Mrs.
J. T. Newton as Supervisor, re-
opened here Monday.

Mrs. Newton explained that some
of their equipment was out for re-
pairs, but that it would be returned
Tuesday, and that they were all
ready to make appointments for can-
ning of vegetables.

Mrs. Newton said she was needing
help. The plan of the project is:
the Cannery takes 15 per cent;
those who help receive 42½ per
cent; and the owner of the vegeta-
bles gets the other 42½ per cent.

Mrs. Newton requests that those
wishing to bring vegetables in, please
first make appointments.

Norris Onstead Is Life Scout

In reporting Norris Onstead's high
standing in Scouting in last week's
issue of the Leader it was errone-
ously stated that he received the
Star Scout Award instead of the
Life Scout Award, which medal his
mother, Mrs. I. D. Onstead, had the
honor of pinning on him at the
Court of Honor held here.

No other Littlefield Scout has yet
gone beyond the achievement of
Life Scout recognition in Scouting
work here, though others have re-
ceived this award in the past.

Norris lacks a very few Merit
Badges in his upward climb to the
position of Eagle Scout, which re-
cognition he hopes to have at the
end of the required six months' ser-
vice as a Life Scout. The names of
other active Scouts giving him a
good race for being Littlefield's first
Eagle Scout were not available.

Miss Ernestine Short and her brother,
Bud, returned Sunday from
spending over two weeks with their
grand-mother, Mrs. Sarah Ross, at
Corsicana, Texas. They pronounced
it lovely and cool here on arriving,
despite the fact that Littlefield resi-
dents were complaining of the in-
tense heat.

Citizens Urged To Cooperate To Stop Spread Of Disease

Inspector To Call At Homes, Business Houses, Advise Sanitary Hazards

The City-wide clean-up campaign
is getting underway in a big way;
and according to Mayor Homer Hall,
splendid cooperation is being extend-
ed by the citizenship of Littlefield.

This clean-up campaign is being
sponsored by the City Commission
in an effort to prevent the spread
of Infantile Paralysis, cases of which
have been reported at nearby cities
to Littlefield.

In order to advise citizens just
what the City was depending, and
urging on them to do, a circular
was distributed Monday to all resi-
dences. Three men, employed by
the City, distributed these circulars,
at the same time explaining in de-
tail to the resident how to carry
out the instructions.

The City is urging on the citizens
to do the following:

1. Kill all flies and eliminate all
breeding places of flies and mos-
quitoes.
2. Keep the yards and all out-
houses clean and sanitary.
3. Place all garbage in securely
covered garbage cans, first wrapping
wet garbage in paper.
4. Do not eat out of doors or in
a place not adequately protected
from flies.
5. No hog pens should be main-
tained near your premises or those
of your neighbors.
6. Do not permit children to play
in the hot sun.
7. See your physician at the first
signs of fever, headache, stiffness
in back or neck or other illness.

Medical authorities have announc-
ed that infantile paralysis—also
known as poliomyelitis—is a com-
municable disease, and that this dis-
ease is carried by the house fly,
and other unsanitary means.

For this reason, the City is ur-
ging that residents eliminate all
breeding places for flies; cut all
weeds, both on their property, and
on alleys; clean alleys; and rake all
weeds, etc., to the rear of the lot,
so that the City may pick it up.
Herman West is employed by the
City as full time man to haul dry
garbage, weeds, etc.

day, July 23, at 10:30 a. m., at the

night of last week in his home. Bro.

Hemphill, pastor of the First Baptist
Church of Littlefield.

Losses From Fertile Eggs Is Costly

Losses from fertile eggs are cost-
ing the farmers of Lamb County
thousands of dollars annually and
depriving our country of some in-
crease in food, according to V. F.
Jones, County Agricultural Agent of
the Extension Service of Texas A.
& M. College.

Most of this loss can be removed
by taking the male birds from the
flock for the production of infertile
eggs and then take better care
of the eggs. During this hot weath-
er eggs should be gathered at least
twice a day and marketed twice a
week. It is patriotic and also good
business to eliminate egg waste.

High Temperature Of 107 Recorded

The highest temperature in two
years for this area was recorded in
Littlefield Saturday, when the ther-
mometer at the West Texas Gas
Company rose to the high point of
107 degrees at 3 o'clock in the af-
ternoon; 72 was reported the low
for the day.

The readings for the week were:
Thursday, low 66 and high 100;
Friday, low 68 and high 100; Satur-
day, low 72 and high 107; Sunday,
low 68 and high 86; Monday, low
66 and high 94; Tuesday, low 69
and high 96; and Wednesday, low
70 and high 100.

Rain, ushered in by high winds
and some sand, visited Littlefield
area Saturday night, starting about
9 o'clock, which resulted in one-
quarter of an inch of moisture, ac-
cording to the gauge at the West
Texas Cottonoil Mill.

Dr. Cox To Test Cattle For Bangs Again Friday

Raymond L. King, local Voca-
tional Agricultural instructor, an-
nounced Saturday that 130 head of
cattle in Lamb County were tested
for bangs by Dr. N. A. Cox, Lub-
bock Veterinarian, Friday last.

In-as-much as there is a great
demand for this service at the pre-
sent time, Dr. Cox will be in this
area next Friday, July 30, and any-
one interested in getting their cows
tested, should contact Mr. King, who
stated Saturday that he had already
a list of 75 to test on Dr. Cox' next
visit here.

In order to protect the health,
and stop this spread of Bangs dis-
ease, it would seem at this time

that Dr. Cox is rendering a worthy
service, and one which should be
taken advantage of.

So long as the demand exists Dr.
Cox will continue the testing pro-
gram in this area, Mr. King said.

Six Year War

The Navy's plans for six years of war in the Pacific are founded upon accurate information as to Japanese strength and the prodigious task of servicing our forces thousands of miles from the source of supply.

Although the Navy program for a six year war necessarily allows a time margin for safety, the calculations of military leaders who have all the facts are far closer to the truth than optimistic forecasts from uninformed home-fronters and overexuberant officials.

The Allies have gained the initiative, but every reputable, informed authority has warned repeatedly that the hardest fighting with the heaviest losses is yet to come, with the possibility of grave reverses.

War Bond Advertising Helps To Win War

The War Finance Division, Treasury Department, Washington, recently wrote the Leader as follows:

"War Bond advertising now is the largest account, by a wide margin, running in newspapers. It's dollar value is greater than the expenditures of the five largest newspaper advertisers combined.

"Thousands of newspapers, large and small, are running this advertising and hundreds of them have sold a page or more a week for a year or for the duration, plus intensive schedules during the War Loan Drives.

"This is important lineage—but it is much more than that. It helps to win the War. Every man who sells this advertising constructively, like everyone who participates as a sponsor, is pulling his oar in the boat."

Horne, vice chief of naval operations, now reveals plans for a six-year war in the Pacific. He may be forced to revise his calculations upward if our war production continues to lag as during May and June.

Spade School To Open August 9 For Fall Term

By SUPT. R. L. DAVIDSON

Though at present without a full corps of teachers, the Spade School will open the fall session on August 9. School opens early in August each year and closes for several weeks during the harvest season.

The enrollment is expected to be approximately the same as last year which was 251. The number of scholars on the April census was ten

less than last year.

Mr. R. L. Davidson will serve his third term as superintendent at Spade. Mr. Davidson holds the Master of Arts Degree from Texas Tech, and also has studied an additional year at the University of Texas. He has had several years' experience as superintendent, having served in New Mexico, before coming to Spade.

Mrs. Robbie Wright will be principal and teach English. Mrs. Wright received the B. A. Degree from Texas Tech in 1938 and is beginning her sixth year of work at Spade. Her home is Roxton, Texas.

Miss Fannie Pillow will teach the fifth and sixth grades for the second year. She received the B. A. Degree from Canyon in 1942 and taught in Hale and Swisher counties before coming to Spade. Her home is in Plainview.

Miss Mattie Lee Seago will teach Home Making and Science. She began her first year of teaching at Spade last year. She is a graduate of Canyon with a B. S. Degree in Home Economics. Her home is Shamrock.

Mrs. Roy McQuatters will teach mathematics for the second year at Spade. Mrs. McQuatters received her education at Sam Houston Teachers College and Normal University of Las Vegas, N. M. Her home is in Spade community, where she has lived for several years.

Mrs. Noell Dodson will teach

English and Social Science in the upper grades for the second year. She received her training at Weatherford, Okla. She taught in Oklahoma, and at Hart Camp before coming to Spade last year. Her home is in Spade Community.

Mrs. R. L. Davidson will teach social science in the High School. She received her training at Clarendon and Texas Tech.

Miss Anna Lee Neale will teach Primary work, having been elected recently to fill the vacancy created by the resignation of Mrs. Blanche Dodgen. Miss Neale resides in Littlefield, and is a niece of Mr. and Mrs. W. W. Brown.

The positions vacant at the present are the third and fourth grades position and the commercial position. These places have been created by resignations recently, and so far, the Board has not been able to fill them.

Considerable repairs have been made during the summer. A garage has been built, the teacherages and bus shed have been repainted, and the roof and class rooms have been revarnished and waxed and the walls and floors of the restrooms and halls have been painted. A new coat of paint has been applied to the walls in the science room and study hall. Over 70 volumes of books and magazines have been rebound and approximately 50 new books have been added to the library.

The newspapers and periodicals that come to the library are the Lamb County Leader, the County Wide News, and the Lubbock Avalanche, Life, Times, American, National Geographic, Popular Science, Saturday Evening Post, Ladies Home Journal, Practical Home Economics, Readers Digest, and Current Events. The Library, having slightly over 600 volumes, is small but effective as most of the books are practical and up to date. It is

completely classified and catalogued by the Dewey Decimal System.

The school owns and operates five school buses. They are Superior buses mounted on V-8 chassis. They have been used only two years and are in good condition. Mr. Robert Wilson, who is bus mechanic, drives one of the buses. The other four buses are driven by teachers.

Mr. J. H. Herring is custodian. He began work last December 1, when the previous custodian, Mr. Edwards, was drafted into the Army. Spade has the most beautiful campus of any school in the County. The ground was landscaped and the lawn and shrubbery was set shortly after the building was erected in 1930. The community has a good school, of which it is justly proud.

Mrs. W. S. Barnes of Littlefield, parents of George Barnes, a Marine master sergeant, with the Marine's crew somewhere in the Pacific, have been notified that their son has been awarded the Silver Star and a citation from Adm. F. Halsey, commander of the Pacific area, and the Pacific force. The citation, with the Silver Star, reads: "For conspicuous gallantry and intrepidity in action against the enemy. Late at night, on Oct. 14, 1942, Japanese surface forces, which were at least one mile off the coast of Henderson Island, British Solomon Islands, to a terrific bombardment. In the early morning of 14 October, 1942, one of the enemy's shells hit near a bomb shelter and buried five enlisted men of a fighting squadron under a great amount of earth and debris. Hearing the cries for aid of these Marines, Staff Sergeant George S. Barnes and twelve other Marines voluntarily exposed themselves to the enemy's intensive shell fire and bombing attack and succeeded in rescuing two of their comrades and recovering the bodies of the remaining three." Sgt. Barnes who was wounded in a barrage of Jap naval shelling on guard duty only a few days later at Henderson Field, on October 22, had modestly refrained from mentioning the escapade, which won for him the Silver Star, in letters to his family. Barnes was flown from the Solomons to a navy hospital in another part of the Pacific for treatment of his wounds, and is now recovered and back on duty. Previous to his going into the Pacific war zone, he had been with America's first offensive force in the occupation of Iceland early in 1941.

Newly arrived at Dodge City Army Air Field, Kans., from Sheppard Field, Texas, is Rhesa F. Walden, son of Mr. and Mrs. Floyd Walden of Littlefield. "I can truly say the boys here are putting their all into the thing. I will add this too, you will hear from us plenty in the future. "Tell everyone I'm fine and will see them as soon as we have gotten

FIRST METHODIST CHURCH

Amherst, Texas
Rev. R. H. Campbell, Pastor
We wish again to remind everyone that our revival meeting will begin with the morning service next Sunday morning.

We need to remember that no evangelist can bring us a revival in his suitcase. The success of the meeting will depend upon the faithfulness and enthusiasm of the people of the church and community. So let everyone have a mind to work.

We invite the cooperation of all people of the community. We are anxious for the meeting to be a help to all church work in the community, so come on in and help us. Bro. Watkins needs no introduction to most people of the community. He served the church as pastor some years ago and is remembered with love by a good many people. Remember he is leaving his own work to come and give us two weeks of his time, so let us make the time count for good for the Lord.

Remember the date, August 1 to 15th. Bro. Watkins will be with us for the opening service next Sunday morning. Let everyone be present and start off in a great way for a great revival.

Betsy

The little girl tugged gently at her mother's sleeve.

"Now, Mother?" she asked. "Now can't we write my letter?"

"Why, of course, Betsy," Mrs. Carson grinned. "Are you going to write it or am I?"

"Well," Betsy said. "Maybe you'd better kind of say it to me. Only I'd love to write it."

"All right, then, Miss Carson, take a letter," her mother said, walking slowly up and down the room.

"Ready? Dear Mr. Morgenthau: The way I save money for War Stamp buying is to steer all the small household jobs toward my daughter, who is eight years old. She is so keen about buying War Stamps that I know all the money I might have paid to someone else for doing the jobs will go toward Victory when paid to her."

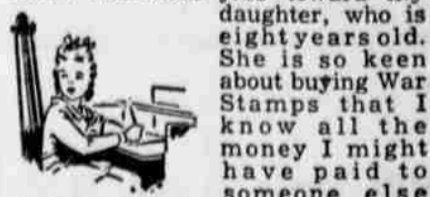

"Now make a list, Betsy. Windows washed, 60 cents. Apples picked from under the tree, 25 cents. Emptied trash cans, 4 cents. Sold string beans from the garden, 15 cents. Sold strips of spooled film to children for sun-gazing, at one cent a yard, 20 cents. Total, \$1.24. Yours helpfully, I hope,—and then I'll sign it at the bottom."

Betsy was puffing like a grampus from her labors. The tall, painstaking letters tottered bravely across the sheet of paper. Gravelly Mrs. Carson took the pen to sign.

"Mother, would it be the proper etiquette if I signed it too?"

"Perfectly proper, I think," Mrs. Carson said without a smile, and handed the pen back to Betsy.

WOMEN AT WAR

Irene

When Irene got home from the airplane factory she was good and tired. This was the hour, after work and before dinner, that she always looked forward to. Her private name for it was "My sissy hour." Into it, these days, she packed all the lazy, luxurious little things she loved—things that used to take up a lot more than an hour of her peace-time days.

She sat down at the little desk in her room. You could tell quite a lot about Irene from that desk. The water-glass filled with the small bouquet of flowers she sometimes bought on the way home. The paper-weight of pink marble. The thin, crackly blue air-mail stationery. And the big, framed photograph of a young man in a corporal's uniform—as good-looking a man as Irene was pretty. On the blotter lay the telegram that had come that morning just as she was leaving for work.

With those long, well-shaped fingers she reached for a sheet of paper. She nibbled the end of her pen for a bit, and then she wrinkled up her nose at the picture of the soldier and began to write. "Dear Mr. Morgenthau," but the corporal's name was "thau", but the corporal's name was "thau", but the corporal's name was "thau". Jackson and she called him Pete. Her round handwriting spread across the page. "My boy friend is with the A.E.F. in Ireland. He has cabled me fifty dollars with which to buy a diamond ring. I've been thinking it over and decided to buy a War Bond to help Uncle Sam instead. This may help to bring my boy friend home sooner, and then he can help me select my ring."

Slowly she began to sign her name. "Irene"

(Letter from an actual communication in the files of the Treasury Department.)

Let's all sacrifice as Irene has done. Bring final victory closer with the money you put into War Bonds. Make certain your family budget tops 10 percent by New Year's.

VAN CLARK SELLS HALF INTEREST IN BARBER SHOP TO JESS INMAN

Van Clark, who has been in the barbering business in Littlefield almost 20 years, Tuesday announced he had sold his half interest in the Clark & Haile Barber Shop to Jess Inman, who has been employed in the shop; and that he planned to leave in the real estate and land business. Mr. Inman has taken possession, but Mr. Clark is remaining in the shop until Star Haile, the other partner, arrives here from out of town.

Mr. Inman was a resident of Littlefield in 1931, but left here going to Bristow, Okla., returning to this City in March of this year, when he became connected with the Clark & Haile Barber Shop. He has had 17 years experience in the barbering trade.

He invites all the customers and friends of the shop to continue to patronize the concern, stating he will appreciate their business.

Mr. Clark came to Littlefield from Hamlin, Texas, Thanksgiving Day, 1923, and has been barbering here ever since. He said Tuesday that if he had continued until November of this year, it would make 20 years that he had barbered continuously here.

It is his plan to work in the land business with C. C. Thompson.

Mr. Clark asked the Leader to express his appreciation to the people of Littlefield who have continuously favored him, and the Clark & Haile Barber Shop with their business, stating that he has enjoyed the friendship and cooperation of all, and appreciated the contacts he has made.

Mr. and Mrs. Clark have two children, a son, Gene, student of Tech College, who has been majoring in business administration, and a daughter, Larue Clark, aged 13.

Miss Dorothy Grisham, daughter of Mr. and Mrs. E. E. Grisham, came home Tuesday on a two weeks' vacation. She is employed with the Commercial Insurance Company in Lubbock.

People's Responsibility

Eight billion dollars of the 13 billion dollars in this Second War Loan Drive must come from non-banking sources, so the responsibility for the bulk of this 13-billion-dollar drive rests with the American public. Indications are that Americans generally need only to be reminded of this responsibility and how much they should lend their government in order to reach this goal. Americans are backing up their fighting men on the battle fronts. They are supporting the Second War Loan. "They give their lives... You lend your money."

War Takes 96¢ Of Each Dollar

Out of every \$18.75 that is invested in a War Bond, \$18 goes into guns, planes, tanks, ships and other military equipment. The 75 cents goes for ordinary governmental expenditures. Out of every dollar 96 cents goes toward the war effort and 4 cents goes for Government "business as usual." The same ratio applies to all other securities the Government has offered investors in the Second War Loan campaign for 13 billion dollars.

Miss Hazel Grisham and Miss E. na Shroeder will visit in the home of Miss Grisham's parents, Mr. and Mrs. E. E. Grisham, over the week end. Miss Grisham is attending the summer session at Tech.

Mrs. Maud Street was ill and confined to her home Monday and Tuesday last.

Mrs. Curtis Wade of San Augustine, Texas, is visiting her parents, Mr. and Mrs. J. W. Porcher, of 3 1/2 miles north, and 1 mile east of Littlefield.

Mrs. J. A. Streeby of near Spade, who had undergone an appendicitis operation at the Littlefield Hospital recently, and was released Sunday of last week, was brought back to the hospital Friday suffering from Fleibitis.

MRS. DAISETTE D. S. MCKENZIE New President of the First Church of Christ, Scientist, in Boston, Mass.

Annual Meeting Of The First Church Of Christ, Scientist, Boston, Held Recently

BOSTON, Mass.—The Christian Science Board of Directors placed "prayer" at the top of the list of defensive and offensive weapons that free-thinking peoples are counting upon to win the global war against oppression and suppression. . . .

In a statement to the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., the Directors first emphasized the word "prayer," then followed with the term "miracle of deliverance" which is to be accepted, they said, as the logical answer to righteous prayer. . . .

Thus, deliverance from the hand of the oppressor was seen by the Directors to be no miracle at all, but rather a simple witnessing to the fact that power springs from the prayer of understanding. . . .

"A praying people can never suffer defeat," summarized the Directors' remarks to several thousand Christian Scientists assembled in The Mother Church. . . .

Because of the gasoline and transportation shortages, the attendance was more localized than it has been for many years. But the reports heard from the broad field of Christian Science activities indicated that demands for spiritual enlightenment were as universal as ever, only growing more and more pronounced under the stress of world conditions. . . .

From the armed services and along the home front, the reports revealed unusual demands for church literature, hinging upon an increasing effort to bring prayer to bear upon the crucial tests of the times. "Battles are not won," the Directors said, "through trust alone, but through intelligent, scientific preparation and skillful execution. . . .

"Yes, the demands of the hour are crucial," the statement said, "they are imperative; they call upon us as Christian Scientists to be instant in prayer—not just prayer of affirmation and expectancy, but prayer of demands, through spiritual understanding, that the might of right prevail now. . . .

"This is the method of prayer

used by the master Christian. Our Leader, Mary Baker Eddy, tells us in 'Unity of God' (p. 11) in speaking of the healing, by Jesus, of the withered hand, 'He demanded a change of consciousness and evidence, and effected this change through the higher laws of God. The hand was restored whole.' . . .

"Christian Science teaches," the statement continued, "that this is an hour of miracles. In the Christian Science textbook, 'Science and Health with Key to the Scriptures'

(p. 591), the following definition of miracle is given: 'That which is divinely natural, but must be learned humanly.' So it is divinely natural to expect and witness the answer to righteous prayer. . . .

The Directors also announced the election of Mrs. Daisette D. S. McKenzie of Cambridge, Mass., as president of The Mother Church for the ensuing year, succeeding Mrs. Elizabeth F. Norwood, of Brookline, Mass. . . .

Unity of purpose and action which is the common goal of all nations in this war, said the incoming President, has been attained in the Christian Science movement under Mrs. Eddy, who the new President described as a master in the art of spiritual strategy. . . .

In this decisive and final conflict, the speaker stated, determining the immediate future of the world, "how exceedingly blessed it is to belong to this valiant army of those who are working, both defensively and offensively, for civilization and Christian ideals. . . .

The retiring President pointed out that it is not people who are waging the present world conflict, but "forces of evil working through people to destroy the very foundation of true Christianity." . . .

godless system in which "there is no Christines, no love."

State, provincial and national legislative bodies, were shown to have dealt fairly with Christian Science activities in the statement of Arthur W. Eckman, manager of Committees on Publication. . . .

Who are non-essential travelers?

You are the judge of whether or not your trip is essential—and your judgment is what our government is relying upon.

Please consider these points when you think of traveling on the railroads this summer and for the duration:

1. Your trip may take a Pullman berth or chair car seat needed by men in uniform traveling under orders.
2. Your trip may delay war workers, not in uniform, in reaching their vital jobs.
3. Your trip may deprive men and women in the service of a furlough trip to visit their homelands. If you do take a trip, plan for it in advance, travel light, consider taking a box lunch to avoid delayed meals in the diners, and make up your mind to put up with certain inconveniences and crowded conditions.

WHAT ABOUT VACATION TRAVEL?

Vacations should be spread out over the year, not confined to summer months.

A vacation trip should be confined to one round trip only, starting and returning on Tuesday, Wednesday or Thursday.

Travel in chair cars whenever possible, and please carry only one piece of luggage.

Consult your Santa Fe Agent about your travel plans. You'll find his friendly advice helpful.

What You Buy With WAR BONDS

Save now to buy later, after the War. That's good common sense because if you spend now, you help to drive prices up for everything you buy. Durable goods are scarce so invest in War Bonds today and do that house remodeling when Victory is won.

If you have not done so, join a Payroll Savings Plan at your office or factory. If you are not investing at least ten percent in War Bonds, increase your regular deductions on your Payroll Savings Plan. Let's "Top that ten percent."

City-Wide Clean-Up
(Continued From Page 1)

Homer Hall Tuesday he said: "We are meeting with plenty of encouragement. Everybody is ready for a clean-up, and we are receiving splendid cooperation."

"We are really going to clean up the town before we quit. Due to the shortage of labor it is impossible for us to get the weeds cut in the alleys and in the vacant lots; and for that reason we are asking the cooperation and assistance of the citizens in this job."

"We are going to depend on each property owner cleaning up his property, and the back alley. We will appreciate it if owners of vacant lots, and those owners living out of town, who own lots here, would arrange to have the weeds cut and raked to the rear of the lots, when the City will haul same away. Inasmuch as we expect to get trucks started hauling during the coming week, it is important that this work be done as soon as possible."

The City Commission has also announced that within the next few days an inspector for the City will make a canvass of the City, calling at the homes and business establishments, pointing out any sanitary hazards that may exist, and the City states that any cooperation extended him will be appreciated by the Commissioners.

The City Commission is urging on everyone to work together on this very necessary and worthwhile project to stop the spread of infantile paralysis, and if possible, keep Littlefield from having a single case.

Mr. and Mrs. Ross Thomason of Dallas are visiting his aunt, Mrs. A. L. Henderson, and is on business in the interest of the Munger Gin Co.

E. P. Hutchins of Spade returned home Tuesday morning from a three weeks' stay in Hot Springs, N. M., where he has been taking baths.

CITY AUTHORITIES AND PHYSICIANS ISSUE WARNING TO PREVENT INFANTILE PARALYSIS

Littlefield has been fortunate so far in not having a case of infantile paralysis, but we cannot tell when the disease may strike us.

Therefore it behooves us to do all we can to prevent the disease spreading to our community, and we believe that it is only necessary to call attention to the matter in order to get our people to take proper precautions.

In some localities the authorities are threatening to prosecute and are prosecuting individuals for violations of laws and ordinances regulating sanitation, but we are of the opinion that will not be necessary here, as our people will cooperate when need therefor is shown.

Medical authorities have announced that infantile paralysis — also known as poliomyelitis — is a communicable disease and that the disease is carried by the house fly and other unsanitary means.

We therefore urge you to aid in preventing the spread of this dreadful disease to our community by keeping your premises in a sanitary condition.

PLEASE DO THESE THINGS:

1. Kill all flies and eliminate all breeding places of flies and mosquitoes.
2. Keep the yards and all out houses clean and sanitary.
3. Place all garbage in securely covered garbage cans, first wrapping wet garbage in paper.
4. Do not eat out of doors or in a place not adequately protected from flies.
5. No hog pens should be maintained near your premises or those of your neighbors.
6. Do not permit children to play in the hot sun.
7. See your physician at the first signs of fever, headache, stiffness in back or neck or other illness.

We ask that you please cooperate with us in seeing that our city is made and kept sanitary. By doing so we may probably prevent this disease from spreading to us.
