BOOK OF HEARTS . . . Open its [a half-ounce of captivating perfume, shocking-pink cover and you'll find

* * * * * By BETTY CLARKE

AP Newsfeatures Beauty Editor

It's just being girl-human to expect a present on Valentine's Day. After all, for some girls there are just a few days in the year when will come forth with a gift. Other girls may be luckier with thoughtful males who even produce a gaily wrapped package on Washington's birthday. But these are few and far between, we are told.

So it behooves every young princess to take advantage of the social hint of slight nudge that some men need to prod them to a gift counter.

Scents and flowers are two favorite Valentine gifts. Some girls get both. But if your man is the type who shops hastily just so he has Valentine's Day, you'd better inform your heart's desire.

Smart and inexpensive for the budget shopper is a package containing a pair of hearts in which are imbedded two chesspiece bot she will spend six weeks vacatino-Seagraves; Pete Cartwright, Lub- tles containing perfume. One ing and visiting points of interest. bock; Mr and Mrs. George Cotton, stricking shocking-pink .. book of She plans to make her headquart.

* * * * * comes packaged in a shocking pink

Or choose your very favorite ffragrance, even if it is not especially packaged for Valentine's Day. If you beau has that "I'm-going-to-surtheir romantic swains or husbans prise-you" look in his eye you'd better give him that extra-special whammle hint so he'll know your favorite scent when he gets to the perfume counter.

Valentine's Day is an excellent opportunity to get that little gift your heart desires. If your grooming accessories budget is low and you crave a new compact, hair brush, atomizer, clothes brushes, lingerie bags or shoe bags, now is the time to put in your bid. The luxury gifts you wouldn't buy for wrapped package to produce on yourself such as bath oil, dusting powder and bubble bath, also are fine gifts.

Mrs. J. R. Coen left the first of last week for Old Mexico where of perfume. Heart-shaped soap ter and brother-in-law.

F. F. A. STOCK SHOW **OPENS TODAY**

Last minute preparations have been made for the Eighth FFA and 4-H Club Stock Show which is to be held Thursday through Saturday of this week.

Livestock will be entered Thursday. Judging will be done Friday and Saturday.

C. W. Stafford, Olton High School agriculture teacher, said FFA boys have been hauling hay and doing work at the barracks building.

SENIORS HONORED

Olton High School seniors were honored Monday evening with a Valentine banquet at the First Baptist Church. Speaker for the occasion was

lege. The dinner was served at 7:30 p. m. in the Fellowship Hall. Included on the guest list, in adral services. Pallbearers dition to all high school seniors, on Cure and Cecil Gallo- were the following faculty members on; and Buddy Maxner, and administrators: Messers, and Mesdames Carl Macon, Glen Reeves, Joe Turner, Don Williams, R. B. Cleveland, Clyde W. Gilbert, Leon Sherman, C. W. Stafford, three daughters; Mrs. Dave Tullis, and Hubert Waidrop; Rev. and Mrs. E. J. Keith; and Glenn Lewis.

Church officers who were present were; the pastor and wife, Rev. and Mrs. J. Henry Cox, Music Director David Dodgin and Messrs. and Mesdames James Cowart, Doc Miller, Walter Hurt and Burton Prestridge.

OLTON MAKES RECORD

Oltonies set a record this year in the March of Dimes Campaign with contributions totalling \$1,432.-

Pink Lawson and Lauis Hair acted as drive chairman this year. "We want to thank everyone a million," Mr. Lawson states. .. You

really did do a good job this year." The 1952 campaign netted about as follows: Mrs. Baker's \$1200.00 in Olton. Mr. Lawson was 17.32; Mrs. Yates' troop, also chairman of the drive last

Personal donations made up almost half the total contributions Mrs. Galloway's troop, this year, amounting to \$655.87. A dance last week brought \$320. The grade school collections of \$242.90 were third on the list.

Other means of collecting contributions included miniature iron illed Monday of last week lung containers placed about town in business houses, \$130.65, collection and sale of pop bottles by the dson is the former Orlena girl scouts, \$76.98; and high school collections, \$6.25.

O'DONNELL FIVE TOPS MORTON TO SCORE 48 TO 30

The O'Donnell Eagles, with a second half scoring surge, downed Morton at O'Donnell Friday night, 48-30, to remain in a first place tie in District 4-A with Denver

The winners led, 23-19, at the halfway mark, and were not threatened the rest of the way.

Benny Clark led the scoring with 18 points, followed by Roger Doss with 14.

Doss turned in an excellent defensive game, holding Morton's Lamer Burns to six points. Dom Waller sparked the Indian scoring with 10 points.

O'Donnell also won the .'B" team game, 38-30, with Jack Worthington and Arthur Jackson each hit-

School Board Members Given Opportunity To React On Legislative Proposals

At a recent school board meeting | EXTENDED CONTRACT - This all members present were handed plan is self-explanatory on your a prepared ballot setting forth six ballot. It is a form of security separate specific proposals for le- for teachers to attract them to gislative enactment, which were stay in the profession. It hopes prepared and in the main approved to acquire and develop completeby officials of the state board of ly qualified teachers who will be education.

out the state of Texas. In this man- Texas State Teachers Association. ner the state board hopes and expects to get wide official reaction to the legislative proposals, which and get considered by the current session of the legislature.

The six proposals voted upon are presented here in the belief that they might prove of general interest and be worthy of study by Lamb County and Littlefield school

They read as follows:

must have a salary that is commen- lectively by 72. surate with their job, qualifications, and training. There is a great short- counties in the state of Texas and age of teachers at this til of our children.

CHANGE LOCAL TAX RATE CEILING. This is sponsored by the Texas State Teachers Association. The reasoning here is that many schools are badly in need of buildings. The old buildings that are obsolete are terribly over-cromded. Yet it is impossible because of the limit on the statutes of 50¢, to vote bonds to build new buildings. This plan raises that to 75¢.

LOCAL FUND ASSIGNMENT-Governor Shivers, with his advisors, is proposing that the local school pay out of local taxes 25 per cent of the cost of operation each year. At the present time the local fund assignment is a fixed figure. Under Governor Shivers' plan, which might have merit over a long period of time, for all districts the next year it would cost us approximately \$14,000 from the local taxes. It is the feeling of most school people and lots of lay people that schools are a state problem as well as a local problem, and that possibly 85 per cent of operation should be paid from a state level, because in most districts, as ours, it puts a terrible strain on us to pay 15 per cent of the operation and provide buildings. Of course, this would not be true in all districts, but we have to face the facts as they are.

TEACHERS CERTIFICATES This item proposes to issue a provisional (temporary) certificate at the end of four years' college work. This certificate can be renewed by doing additional college work, This bill is sponsored by the State Board of Education.

better satisfied men and women Each school board member pre- proud of their association with the sent was asked to vote his approv- schools and knowing that day in al or disapproval of each of the and day out they will receive fair six propositions. The same ballot treatment and right consideration has been forwarded to and will be both as teachers and as individvoted upon by school boards throug- uals. This bill is sponsored by the

ECONOMC INDEX - This plan determines the ability of a disthe state board hopes to present, trict to contribute to the finances of the school program. It is a formula that sets the local fund assignment. The formula is weighted as follows:

1. Assessed valuation for county purpose weighted by 20.

2. Scholastic population of county weighted by 8.

3. Income of the county as mea-TEACHER SALARIES. This bill sured by value added by manufacis sponsored by the State Teachers ture, value of minerals produced, Association and it is felt that to value of agricultural products, pay attract the strongest people to the roll for retail, wholesale, and servschool teaching profession they ice establishments weighted col-

in turn to the districts determinmore teachers are needed that are ing their ability to contribute to qualified to teach. This means that the amount of money required by our classrooms will be filled with the laws of Texas that all local sub-standard teachers, which will districts shall pay. This amount must have the strongest people at- | 000 for all districts in the state. tracted to our schools for the sake | That is, every district in the state is required to pay their proportion

> to the district to determine what nix, per cent of the \$45,000,000 that district shall pay.

For the year 1952-53 this county is charged with \$199,350. Little- ter spending a time at home he will field school district is charged with return to his college work. \$57,198.69. This has been based on one year. Most of it was based on 1949 - parts of ti on 1950.

The new plan figures the amount to be paid by the districts on a 3 year or 4-year sliding average, instead of on figures for a single year as at present.

H. B. Daviss Named **Manager Waples Platter Company**

H. B. Daviss has been named manager of the Lubbock house of Waples-Platter Company, wholesale food distributors, J. W. Shugart of Fort Worth ,vice president er, purchase of the new lot, and and general manager of the firm, will finance the new city hall announced Saturday.

Daviss succeeds C. C. Files, who died of a heart attack last Tues-

DISTRIBUTIVE EDUCATION WEEK **PROCLAIMED BY GOV. SHIVERS**

21, has been officially designated Jordan, M. C. Northam, R. L. Rhoas Distributive Education Week in Texas by Governor Allan Shivers, Billy Talley, John Terry, F. E. according to a proclamation received this week by Jimmie Hine, local D. E. coordinator.

The proclamation mentions some of the attributes of the program which trains students in the highest employable field in the state and country. More than 31 per cent of all employed people in the state of Texas are in the field of distributive.

The following students are participating in the local program: Ronald Bates, Terry Church, Henry Jackie Price, Lexie Jackson, Rosa this year.

The week of February 15 to Lee Medlin, Erna Jane Jones, Cam ten. Donald James, Donnie Rogers,

> Rhoten and Cam Jordan and club president, M. C. Northam as delegates to the state convention to San Antonio, February 20-22, accompanied by Mr. Hine. Money was raised by selling Wildcat in-

FIRST BAPTIST CHURCH TO VOTE ON **BIDS ON NEW STRUCTURE SUNDAY**

A total of fourteen bids were received on construction of building proper, electric wiring, and Pettit Closes Out plumbing-air conditioning for the new First Baptist church building, soon to get under construct tion, and now lacking only confirming votes of the entire membership, and opened here Tuesday

This was the second complement of bids called for, after the first series of bids was rejected several weeks ago, as being out of line with architects prospectus, and in the interval, building plans were slightly revised.

Seven bids were received on the 12. building proper, which will replace the building recently razed, and with the new structure, conforming in general lines with the new educational building completed last

In addition, four separate bids were received on plumbing, heat-ing and air conditioning, and three ing and air conditioning, and three bids on electrical construction.

In conformity with church bylaws, no action can be taken on the bids until they have been presented to the full church membership and voted upon. This action will be taken at the two morning services next Sunday, employing secret ballot.

General confirmation and approval is strongly anticipated by the building committee. They stated that only low bids offered would be voted upon by the church membership at this time—the higher bids, disregarded.

of Hereford was the low bidder J. on the building at \$158,000. Only Harvey, son of Mr. and Mrs. Cal slightly higher by \$4,950, was the Harvey; English, Jim Doherty, son bid of West Texas Builders of of Mr. and Mrs. A. Y. Doherty;

Budd Nairn Electric Co., of Morton was low bidder on electrical son of Mr. and Mrs. Claude equipment and installation at \$5, Grimes; Speech, Dorothy Bitner, nurses. 700. Two bids were submitted by daughter of Mr. and Mrs. Joe Bitlocal contractors, but were higher, and amounts bid were not released. They were submitted by W-W Electric and City Electric Co.

If the Sunday vote is favorable, it is planned to enter contracts immediately, and hopes is expressed to get construction underway in the next few weeks.

The new structure will have a seating capacity of more than 1,-000 and will bring the total building investment up to approximately \$400,000. More than \$100,000 is on hand in the church treasury to start the new construction.

Rev. See Hempaill paster, the Leader yesterday, that a report of the vote by the church at the morning services, would be olyn Seil. read at the evening church serv-

1953 Production Goals Announced

The 1953 production goals for spring-seeded crops in Texas reflect the need for more grain and forage crops and less cotton and wheat. If the goals are attained, says B. F. Vance, chairman of the State Agricultural Mobilization Committee, total agricultural production must continue at a high level and would equal or exceed last year's output.

The largest increase-92 percent-is for grain sorghums for grain. The acreage goal is 5,150,000 acres, says Vance. The goal for all sorghums which includes those used for forage such as hay and silage and for grain has been raised 22 percent above fast year's figure to 7,385,000 acres. The corn goal has been increased to 2,500,000 acres or 9 percent above the 1952 acreage. The goal for tame or planted hay crops has been increased by 5 percent and stands at 1,400,000 acres.

These increases, points out Vance, are urgently needed to restore the depleted stocks of grain and roughage feeds because of the drouth and reduce plantings in the state during the past two years. Unusually large quantities of hay have had to come from other states, says Vance, to help meet the demands for roughage feeds.

Texas producers of upland cotton are asked to reduce their acreage 14 percent below the July 1 acreage of last year. The 1953 goal, according to Vance, has been set at 9,945,800 acres. It is hoped that much of this reduced acreage will be planted to grain sorghums. Producers in the state of extra long staple cotton are asked to plant no more than 14,200 acres or a reduction of 59 percent from 1952 plantings. This type of cotton is produced in the Pecos-El Paso areas.

In commenting on the 1953 goals, Vance emphasizes that the goals program, as worked out by the State Mobilization Committee and approved by the USDA, recognizes that the demand for farm products will probably remain high because consumer income and expenditures are expected to exceed those for 1952. At the same time, he adds, exports of some of our important crops are dropping due eo increased supplies of agricultural productions in other countries and a shortage of dollar exchange. Cotton and wheat are two mighty important Texas crops affected by this export situation,

In commenting further, he says, the purpose of the goals program is to give farmers information things in the spots on the ceiling? on expected demand for their products and what Then you'll doubly appreciate how acreage will be needed to meet this demand. If farmers make the necessary adjustments suggested to someone who is sick. Unless he by the goals program, he continues, they will reduce the possibility of building up burdensome sur- patient is very sensitive to his pluses and depressing prices which may in turn surroundings. This is the main reanecessitate acreage allotmenes and marketing son why the sickroom should be

The goals are carried to the farmers through the with unnecessary articles. A mass State and County Mobilization Committees.

Other 1953 goals for Texas spring-seeded crops include rice, 550,000 acres, a decrease of 1 percent from last year; sudan for seed, 27,700 acres, an in either rented or bought, is ideal; crease of 32 percent and sweet potatoes 38,000 however, an ordinary bed can be

Vance urges farmers to plan their spring planting schedules in accordance with the goals program and to utilize abandoned wheat acreage-should mois- mattress is almost essential. ture deficiencies make this necessary-for growing grain sorghums and pasture or hay crops.

To Observe 50th Year of County Agents

Fifty years ago the economy of the South-and especially Texas- was threatened by an insect invader from Mexico. The great money crop of the region-cotton-was facing a crucial test. Could a single insect, the boll weevil, greatly curtail or even wine out the great cotton industry? This was a onestion that needed an answer especially in Texas because of the nearness of the state to the source of

Insecticides for combating the pest had not yet been developed; therefore, the agricultural leaders of that day knew at least a partial answer to the problem must come from better farming methods. In early 1903, Dr. Seaman A. Knapp, special agent for the Bureau of Plant Industry of the United Staees Department of Agriculture, was invited to visit in Texas for the purpose of explaining an idea which he believed would help solve the problem.

The result of his visit was the establishment of the first individually owned and prorated crop demonstration, under government supervision, in the nation. This demonstration was established on the Waleer C. Porter Farm in Kaufman County and was supported, financially and otherwise, by leading citizens of the area. The date was February 26, 1903.

This method of teaching was new. Getting the cooperation of just one farmer was not easy. Farmers of that day were not ready to accept the advice of "book farmers"-a term applied to early day councy agents. It was the purpose of the demonstration to teach by example with the farmer carrying out the supervised program on his own farm.

This was significant for it very shortly became the beginning of the most unique educational program for rural people yet devised-the Farmers Cooperative Demonstration Work. Still later the third great part of the Land-Grant College System-the Agricultural Extension Service-grey out of this first demonstration farm,

According to Director G. G. Gibson of the Texas Agricultural Extension Service, plans are now being perfected both from a state and national basis to observe the 50th anniversary of the establishment of the first farm demonstration. The "kick-off" for the observance will be held on the Porter Farm which is now operaced by Harry and Bill Porter, sons of the original demonstrator, and they, like their father, believe in putting science to work on

The residents of Terrell and Kaufman County will play a major role in the observance plenned for the farm and visitors are expected from each ed if bathroom privileges are not of the Southern States as well as from the USDA in allowed. Washington, says Gibson. Highlight of the program will come with the unveiling of a historic marker on the site of the first demonstration ae the Porter

Gibson is a maker of the national committee representing the USDA and Land-Grant Colleges and avoided, however. Glare in the nurseenough time for rest, recreahe in turn has committees working in Texas planning for the February 26 meeting as well as for other activities being planned for the year. Special programs will be held in the counties in which 4-H club members as well as adults will participate. Past achievements and plans for the future, as was the case 50 years ago, will feature the demonstration method of teaching, says Gibson.

HEALTH TALKS Prepared by the State Medical

Association of Texas

Making a patient comfortable is an art, but ie is one that the home nurse can learn. Often all she needs to do is to put herself in the patient's place in order to foresee and meet his needs.

Take the arrangement and appearance of the sickroom, for instance. Are you the kind of person who counts the flowers on the wallpaper or imagines he sees discurbing a lack of order can be is unconscious or extremely ill, a light, cheerful, and not cluttered of furniture also makes it hard to clean the room.

For a long illness a hospital bed, raised on wooden blocks to make care of the patient easier for the home nurse. A firm, comfortable

Some place should be provided for the home nurse. A firm, comfortable mattress is almost essential.

Some place should be provided for the patient's personal belongings at the bedside; a night table, a straight chair, an orange crate, or even a shoe bag left within his reach will serve the purpose. In addition to tollet articles, cirgarettes, and the like, material for recreation such as books and a radio side should be a water pitcher and drinking glass; paper tissues and a bell or other call system; a bedpatient is allowed to sit up in bed; gown and a footstool if he is allow-

The ideal temperature of the sickroom should be about 70 degrees Fahrenheit, and adequate circulation should be provided. Drafts directly on the patient are to be patient's eyes can be preveneed his line of vision or, if it can't be moved, by shielding it with an noninflammable cover.

The home nurse probably will Beforea all meals. Offer bedpan

IT NEVER FAILS

the bed bath she will find it handy to gather in advonce the bath linen, rubbing alcohol, and talcum

powder In serving a meal, the nurse should see that food is served as attractively as possible, the patient is prepared to eat it, and help is available if he can't feed himself. To assist a patient who can't sit up in bed, the napkin should be placed to protect the pillow and may be kept there. Also at the bed- nightclothes and the tray set where he can see it, if possible. He may want at least to hold his bread and a wastepaper bag for their disposal to suggest the order in which food is rotated. Small bites should be jacket, sweater, or shawl if the offered and a sip of water or other fluid given occasionally. Either a and a warm bathrobe or dressing drinking straw may be used or the patient's head and shoulders gently ed out of bed. A bedpan and urinal lifted to give him a drink. Liquids (for the male patient) will be need- shouldn't be too hot or the patient's lips and congue may be burn-

Often a daily schedule can be worked out to assure needed care for the patient, yet eleminate most conflicts of nursing with houseeither by placing the lamp out of tion, meals, and outdoor exercise. A schedule suggested by the American Red Cross will include approximately the following:

find it convenient to group articles or assist patient to bathroom. which she uses at the same time; wash face and hands, clean mouth a firm box top can serve as a tray and teeth, brush or comb hair, to carry them. As an example, for give a glass of water or hot drink,

and straighten the bed.

After breakfast. Attend to bath and grooming.

Throughout the day. Take the temperature, pulse, and respiration and give medicines and treatments, as ordered.

Mid-morning, mid-afternoon, and evening. Give fruit juice or milk drink as suggested by the doctor.

After lunch. Allow visitors if the doctor permits; in convalescence, suggest some light occupation or diversion.

Evening. Give a light back rub, straighten bed, adjust windows and amount of bedcovers, dim lights.

On Heart Diseases

Diseases of the heart and circultion are the leading causes of death in the United States. In 1952, these diseases were responsible for 763,000 deaths. During the same field Hospital the past week: year, fatality figures for the next five highest causes of death-(cancer, accidents, pneumonia, tubercolosis and diabetes) totaled 414,000. About 10,000,000 people in the United States have some form of heart or blood vessel disease. Of these, an estimated 500,000 are occur, at all ages, causing one-helf man. of all the deachs in the United States. Their economic cost is staggering, in terms of absenteelsm, disability, loss of gainful employment, and treatment-an estimated 152,000,000 work days are lost each year. The causes of the three most important form of heart and circulatory disorders-accounting for about 90 per cent of all heart damage-have yet to be discovered; they are rheumatic, coronary and hypertensive heart disease.

Nichols Family In Car Accident Near Sudan Recently

mustard, 15¢ quart jar.

Mr. and Mrs. James Nichols and their 3-year-old son Danny of 710 E. 3rd Street escaped serious in-jury recently when their car over-turned several times, when trying to avoid hitting a trailer, that came unhitched from a cor.

The accident occured on Highway 84 on the outskirts of Sudan.

Mrs. Nichols was the most seriously injured, and was rushed to Littlefield Hospital, where she un-

fractures and bruises. In some way during the accident a needle pierced the baby's skull and broke off, and he was admitted to the hospital for removal of the needle and also treatment.

Mr. Nichols escaped injury.

The Nichols car, a 1940 Chevrolet was a total wreck according to Mrs. Nichols.

Pains, distress of "those days"s or amazingly relieved

In doctors' tests !

• Here's wonderful news for women and girls who — each month — suffer the tortures of "bad days" of functionally-caused menstrual cramps and pain — headaches, backaches, and those "no-good," dragged-out feelings.

It's news about a medicles

It's news about a medicine famous for relieving such suf-fering!

Here is the exciting news.
Lydia E. Pinkham's Vegetable
Compound — gave complete or
striking relief of such distress
in an average of 3 out of 4 of
the cases in doctors' tests!

This news will not surprise the sthousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage you (if you're not taking Lydia Pinkham's) to see if your ex-

So much more of Everything-except price?

Measure the wonderful new Pontiac for size, beauty and performance against the finest and costliest cars,

Pontiac is big—with its new 122-inch wheelbase and roomy, comfortable bodies. Pontiac is beautiful-easily the most distinctive car on the

road-with luxurious color-matched interiors. With Pontiac's famous Dual-Range power train* you get more power than you'll probably ever need—with a distinct saving in gasoline.

But most remarkable is Pontiac's price tag-just a shade above the lowest-and its wonderful reputation for de-pendability, economy and high re-sale value.

Come in and see for yourself that Pontiac offers much more of everything-except price!

PROMOTED TO RANK OF CORPORAL

WITH U. S. PORCES in Alaska-Billy K. Davis, son of C. W. Davis of Whitharral, Texas, was recently promoted to corporal while serving with the U. S. Army in Alaska. Stationed on Eleison Air Force Base, enar Pairbanks, he is a member of Battery C in the Army's 562d Anti-Aircraft Artillery Battal-

A former student of Whitharral High School, Davis entered the army in July 1951.

Was a nervous wreck agonizing pain

You'll as pleasantly surprised at how much an extension adds to the value and usefulness of your present telephone. You'll be pleased, too, with how little an extension adds to your monthly telephone bill how many steps it subtracts from your daily housework.

No matter where you put it, a second telephone in kitchen, bedroom, den or hallway places service always at your fingertips. Greater convenience encourages greater telephone use — brings you greater value for your telephone dollar. That's true at home and at the office, too.

Just call or come by to order an extension telephone installed right away. It's our pleasure.

*For a minimum additional charge, we will be glad to install extension wall plugs in several rooms of your home, enabling you to move your extension telephone from one location to another. Ask about this added concenience.

1953 Heart Fund Drive Opens Throughout U.S.

self-help, Texans were asked to- Day. day to contribute \$408,000 to the 1953 Heart Fund Drive, which opens this week throughout the nation. The national goal is \$10,000,000. Dr. J. C. Crager, president of the Texas Heart Association, said, "In east 14 of Lot 8 in Block 4 of South one-half of Lot 2 and the the aggregate amount of judgments its fifth year of a national voluntary health agency, the Association's slogan, "Help Your Heart Fund-Help Your Heart," has special significance to the increasing number of American citizens who are being reached by our program of research, education, and community service."

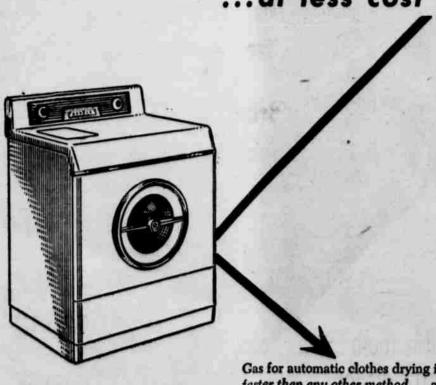

> In an analysis of the past year's efforts to combat diseases of the heart and circulation, Dr. Crager pointed to the advances made. Tremendous accomplishments have been recorded by research scientists in the development of anticlotting drugs, prevention and treatment techniques in and business firms to participate in the Mrs. Sabin Hendrickson returned Heart Fund Drive. From February 1-28, reminders of the need for support of the campaign will be given impetus by the volunteer army heart workers. An intensified educational campaign will mark American Heart Week, February

In the democratic tradition of 8-14 the week includes Valentine's

Governor Allen Shivers will serve again as the honorary state chairman of the annual Heart Fund campaign, it has been announced by S. E. McCreless of San Antonio, state chairman, and Bruce Barton, national chairman for the 1953 Heart Fund. Attorney General John Ben Shep-

pherd and State Insurance Commissioner George B. Butler will serve with the governor as honorary co-chairmen. McCreless also announced that William Rawland. Cleburne publisher and president of the Texas Press Association, will be publicity chairman for the February campaign, and that Ben H. Wooten, president of the First National Bank in Dallas, will be state campaign treasurer.

Gas for automatic clothes drying is much faster than any other method . . . as much as 15 times faster than the old clothes line routine. Lightweight fabrics are ready to iron in 15 minutes, completely dry in 20 minutes. As for blankets . . . you can count on 4 minutes in a Gas dryer for every hour on the line. And don't forget, it costs less than one cent to dry a load of clothes with Gas. See the modern automatic Gas clothes dryers at your dealer's.

You can secure a copy of progress report 1412. CONTROL OF SEEDLING GRASS IN COTTON. by writing the Publication Office tion, College Station, Texas.

CAC In planning your spring and summer pasture program you may find it will pay to include additional cross-fencing for rotation grazing. Rotation grazing of smalled pastures allows the animals to graze preventing patchy grazing. Other advantages of cross-fencing include the use of plants when they are queen at Olton High School last in most nutritous stage of growth year. and the fact chat you will be able to save some blocks for making their new residence in Boise City hay and silage during past periods of growth.

Cross fending for rotation grazfencing may often be reduced by using electric fence.

CAC

Did you know that to properly burn five gallons of tractor fuel required as much air as you could put in a sile 15 feet in diameter and 30 feet high? That is why it is important to service the air cleaner on your tractor often. We recommend servicing tractor air cleaners after each '10 hours of operation.

Neglece your tractor air cleaner will result in wear of bearings, pistons, rings, and other moving parts. This in turn causes excessive oil consumption, less of power and waste of fuel.

When servicing the air cleaner, check for worn air hoses, loose connecting clamps and crushed or broken air lines. Remove the oil cup from the cleaner and pour the dirty

and chemical control of weeds and seedling grass in the cotton drill practical and more economical than hand-thinning and hand-hoeing.
