

# 30,000 Drive Is Planned To Build New Methodist Church

To Start Building Spring

Architect's drawing of the new First Methodist church was unveiled for the first time at the Sunday morning service.

The new one-story functional building will be constructed on a 5.3 acre plot of land on the church three blocks east of the intersection of Mrs. J. T. Elms and Mr. Elms.

Between Fourteenth and Twentieth streets and Phelps street, the 30,000 square foot structure will cover a block area, including off-street parking for 200 cars.

Architectural Design: The architect has chosen the type of building that will give us the most usable space for the money. Hoover, general contractor of the building, called Wednesday.

The pitched roofs are the style of the churches today", Hoover said.

The straight lines of the exterior are broken by modern Gothic-style inside featuring liberal stained glass windows. The structure will be of brick.

Start in Spring: Construction to Hoover, construction is under way.

# Signup For Acreage Reserve Starts Monday At Lamb County ASC Office

Farmers may begin signing up for acreage reserve under the soil bank program next Monday, as announced by Lamar D. Aten, Jr., Lamb County ASC manager. The closing date will be March 1.

The money allotted to Lamb County amounts to \$1,231,900, and will be spent on a first come—first serve basis. The acreage reserve agreement is a legal and binding contract, which cannot be canceled by the farmer after the close of the sign-up period.

The following conditions have been set up by the State Committee for designating cotton acreage under the Soil Bank:

1. Cotton acreage cannot be taken in the 1957 Soil Bank under the following conditions:
2. The shape of the designated acreage must be such that it would normally be used in farming practices;
3. Such areas as waterways, turn rows, knolls, narrow strips

in and around fields, and land that is not raised in cotton because productivity is not the same as land put in cotton.

There will be no premeasurement of designated acreage. If the farmer does not know how much and what area will make his designated acreage for the 1957 acreage reserve of the Soil Bank, he will have to measure the area himself before making application.

The acreage designated cannot be harvested or grazed during 1957.

# New Drilling Is Underway; Leasing Volume Expands

Excitement continued this week over the local oil picture as the prospects for the Young No. 1 wildcat well, five miles southwest of Littlefield, continued to look bright.

According to the Delfern Oil Company of Lubbock, 95 barrels of new oil and no water was pumped from the new well in 10 hours. The project was drilled to a total depth of 4,131 feet.

Largest lease holder in the area is Dekalb, which holds 42 labors in a four-mile square surrounding the new wildcat.

Dekalb is expected to develop the area rapidly as many of their leases expire early next year.

**Waiting On Young Well**  
However, an official of the Dekalb company told a Leader reporter late Wednesday that his company would make no plans until the Young well was proven after a 24-hour test.

Meanwhile, prospects for additional drilling soared as new leasing got underway, a 90-day drilling contract was signed on a block south of town, and a new rig was erected northeast of town Wednesday, bringing the total number of rigs in the county to six.

Several farmers in the vicinity of the Young well signed leases this week as an independent company.

# Big Drilling Program

L. C. Grisson, Ray Hulse, and Frank Lehman signed a 90-day drilling contract with Pete Sisson, who is associated with the Livermore Drilling Company, on three labors less than two miles south of town. If the first well is a producer, the contract calls for a well to be drilled every 90 days.

Western Drilling Co., began work on a well on the Troy Armes farm 2 1/2 miles northwest of town Monday. Actual drilling is expected to begin today. A lease, due to expire early next month, is held by Sinclair Oil Co. The well site is approximately one-half mile from a producer in the San Andres pay.

Meanwhile, little progress is being made on the Hobgood No. 5, 10 miles southeast of town. According to officials at the well, only 10 feet have been gairped since the drill stem stuck 10 days ago. Depth is now 6494 with the Clear Fork formation expected to be hit around 6650.

**Some Showing Reported**  
The Shell No. 1 well, six miles

northeast of town, was at 4930 at 1 p.m. Tuesday. Only slightly showings of oil were found at the

# Wilma Charlene Hamilton Bride Of Robert F. Riley

Mr. and Mrs. Robert F. Riley  
(Photo by John Nail)

Miss Wilma Charlene Hamilton and Robert F. Riley exchanged wedding vows in a twilight service at First Baptist Church January 26 at five o'clock. Rev. John T. Williams, pastor of the Earth Baptist Church, officiated at the ceremony.

Parents of the bride are Mr. and Mrs. Price Hamilton of Earth. The groom is the son of Mr. and Mrs. Furehe Riley, of Springlake. Mrs. Gladys Parish played traditional wedding marches and accompanied Mrs. Gene Stevens as she sang "Oh, Promise Me," "Because," and "The Lord's Prayer." The couple stood before an altar of greenery, with baskets of white roses and gladioli, flanked by lighted candelabra.

Given in marriage by her father, the bride wore an original model gown of white imported French lace over net and satin. Designed with portrait neckline outlined with scalloped lace, the fitted bodice was fashioned with long light sleeves ending in points over the hands, terminated with a wide ruffled sash of satin and accented with point at center front waistline and tying in large bow at back. A voluminous, waltz-length skirt of lace and fully shirred, with scalloped edge outlining the bottom, worn over net and satin, was emphasized by crinoline worn underneath. The veil of imported silk illusion joined a bonnet type cap of silk, embellished with scalloped lace and embroidered with seed pearls. She carried a cascade bouquet of white roses and white orchid on a white ribbon.

Maid of honor was Miss Janis Jones of Baylor University. She wore blue velvet with a head-dress of the same and carried a bouquet of white roses.

Best man was Jimmy Herring of Springlake, Texas. Ushers were Kenny Hamilton of Earth, Doug Parish of Earth, A. J. Phillips of Muleshoe, and Doug Higgins of Canyon. Candlelighters were Miss Norma Hamilton and Elaine Riley.

For her daughter's wedding Mrs. Hamilton chose a champagne frock with lavender and black accessories. She wore a corsage of pink roses.

Immediately following the ceremony a reception was given by the bride's parents in the dining hall of First Baptist Church, Earth. Guests were registered by Loy

Hamilton and Elaine Riley. Others assisting in hospitalities were Laura Bartlett, Jura Parish, Carolyn Parish and Marilyn Higgins. The bride's table was laid with linen and embroidered organza cloth, centered with a tiered wedding cake decorated in white and blue, flanked by blue candles and an arrangement of white roses.

For travel the bride chose a brown dress, mouton coat with beige accessories and lifted the white orchid from her bridal corsage. After a wedding trip to Louisiana, the couple will be at home at Springlake, where the groom will be engaged in farming. Mrs. Riley attended Springlake schools and Baylor University. The groom also attended Springlake schools and West Texas State College.

## Pioneer Couple Honored On 50th Anniversary

A Pioneer West Texas couple, Mr. and Mrs. L. P. Fisher, were guests of honor at a reception held in observance of their 50th wedding anniversary at their home, three miles west of Olton. The serving table was laid with a lace cloth over gold and was centered with a bouquet of yellow rosebuds. The three tiered golden cake was topped with a miniature bride and groom and was inscribed with the words "50th anniversary" "Bertha and Leroy Jan. 30-1907-1957". Mrs. A. E. Hudgens, Miss Dot Haynes and Mrs. Lester Mouser presided at the serving table. All are granddaughters of the couple. Mrs. Paul McFadden registered the guests.

Mr. and Mrs. Fisher were married in 1907, at Peabody, Kansas. Mr. Fisher came to the Texas Panhandle in 1909 on an excursion train and purchased grass land as an investment. In 1925 the family moved on this land and built their present home. The Fishers have five children, all of whom were present for the reception. They are Marvin, Plainview, Texas, Luther, Modesto, Calif.; Mrs. Bruce Farrar, Midland, Texas; Mrs. Lee Haynes, Littlefield, Texas; and Robert of Olton. They have nineteen grandchildren and thirteen great-grandchildren.

## Sunnydale HD Club Appoints 1957 Workers

Mrs. B. D. Birkelbach was hostess to the Sunnydale H. D. Club when it met on Friday, January 25th 1957, with the President, Mrs. Thos Harris presiding.

For opening exercises Mrs. B. E. Reagan prepared and conducted a game of short skits on New Year's resolutions.

Roll call was answered with a Rule of Parliamentary procedure. Mrs. W. C. Hampton gave the report on Council's meeting.

During the business session the president appointed the following committees: Sympathy, Mesdames G. J. Perkins, chairman, W. O. Hampton, J. W. Brooke.

Recreation—B. E. Reagan (chairman) L. G. Grizzle, Bill Cape. Finance—E. J. Grisham, Jr., (chairman), E. Brooks, I. Rice. Civil Defense—A. L. Aldridge (chairman), Carl Pillion, Dale McGaugh.

Year Book—B. L. Wheeler, (chairman), Paul Lewis, Mesdames Reagan and Perkins volunteered to attend workshop meeting on Civil Defense, Aldridge and Grizzle to attend workshop on refinishing and upholstering furniture.

Mrs. I. Rice was nominated as a County Delegate to the T.H.D.A. district meeting at Levelland in March.

At close of the business session the meeting was turned over to Mrs. Lady Clare Phillips, County H. D. Agent, who gave a program on "Family Economics" pointing out that as it was always with us we should try to do the best job of it that we can.

Family Security—an important force in life was the particular branch she dealt with in her talk, suggesting that it represented "Money Management" and "Peace of Mind" to most of us.

Money management could be helped by examining our Family Security to see if the family was satisfied with what its income was purchasing.

Family budgeting could be helped by keeping records of all family living expenses incurred over a period of time. Older children could be allowed to take part in the budget discussion.

The budget plan set up should be one to suit the family's specific needs, and could include—long time expenses such as, rent, taxes, retirement. Regular running expenses—food, utilities, home upkeep and replacements.

Elastic expenses as—clothing, gifts and subscriptions. These expenses to be totaled to give balanced income over the period of time and an average found which could be revised as necessary.

Social Security, insurance, bonds and postal savings were suggested as some ways of obtaining family security and peace of mind—keeping in mind however, to cut the garment according to the cloth—or keep the spending within the confines of the budget set up.

At the conclusion of Mrs. Phillips program the meeting adjourned and the hostess assisted by Mrs. J. W. Brooke served refreshments of Ritz sandwiches, cookies and delicious coffee cake, cakes and coffee to the following members, the agent and one guest.

Mrs. Thos Harris, Mrs. J. G. Perkins, Mrs. B. E. Reagan, Mrs. C. E. Walker, Mrs. I. Rice, Mrs. B. E. Wheeler, Mrs. B. Eitelgorge, Mrs. Bill Cape, Mrs. Fred Grisham, Mrs. L. Elms, Mrs. W. O. Hampton, Mrs. Carl Pillion, Mrs. A. L. Aldridge, Mrs. L. G. Grizzle, Mrs. Phillips, and Mrs. Walter Birkelbach.

The next meeting will be on February 8th at 2 p.m. at the home of Mrs. J. W. Brooke at 621 E. 17th St.

Greetings 'Cats!

Hasn't the library been overflowing with Seniors lately? If just couldn't be because they have a ten page research theme due next week, could it? Those reference books are really getting the word.

Congratulations to Patsy Tiry for being the Choir Sweetheart for '56-57. It couldn't have happened to a nicer Senior.

Do you like to argue? If you do, you would be happy as can be in Mrs. Ruff's Speech Class. They are studying the "art of debate" now and are having a wonderful time doing it. There certainly are some promising contest-hopefuls this year.

Wouldn't it be wonderful if all of us could go to the Fat Stock Show in Fort Worth? I just know the people who went last weekend had a marvelous time. Lawrence Macha may not want to go back again as long as there are a bunch of rambunctious boys along.

Lawrence was hit in the throat by a flying snowball and now he can't talk every well. We still like you, Lawrence, even if you can't talk to us.

Speaking of weekend trips! There are some more LHers who really had a ball weekend. Carol Caldwell, Andy Parker, Pat Street, Joe Hoover, Johnita Gallini, Michael Greer, Mrs. Houston Hoover, Mrs. Geneva Parker, her daughter, Georgia, and a friend of Georgia's, Sandy, all went skiing in the New Mexico mountains for three days. They came back bruised and sore, but knowing it was well worth it.

I hear Mr. Goodwin is well on his way to recovery in Houston. In a letter to the school, his sister said that he was feeling very well, was in the best of spirits, and there was every reason to believe he might be back teaching in three weeks or a month. Everyone was very glad to hear that.

Get set for a grand evening that will be coming your way in the not too distant future. The Wildcat Band is preparing their first formal concert of the Season so be watching for the date.

## South Plains Junior Fat Stock Show Set March 18

Dates for the 24th annual South Plains Junior Fat Stock Show to be held at the Panhandle South Plains Fairgrounds were set by the Show's Steering Committee at a meeting January 23 at the Lubbock Chamber of Commerce.

The show will be held March 18-19-20, 1957.

O. L. Byrd of Ralston Purina in Lubbock was named General Chairman, with Dixon White of Lubbock Cottonoil Co., as Vice-Chairman.

The South Plains show has become one of the finest regional

exhibitions of Livestock in Texas, with nearly 1,200 animals shown last year. The number of hogs shown in 1956 show was the largest outside of the State Fair's Show in Dallas. More than 700 4-H and FFA youths from a 29-county area showed barrows, lambs, and steers in the 1956 show.

Named to committees were: Finance, Ray Johnson of Lubbock Packing Co., and Jim Ed Waller of Plains National Bank; Entertainment, Odie A. Hood of Southland Life Insurance Company, and Alton A. Strickland of Production Credit Association Catalog; Lynn County Agent W. B. Griffin of Tahoka, Hale County Agent Ollie Limer of Plainview, and Vocational Agricultural Teacher Thomas Neely of Monterey High School in Lubbock.

## Sidedress For Better Small Grain Yields

Generally, the value of using a nitrogen fertilizer for increasing the yields of cotton and corn is well known, but according to M. K. Thornton, extension agricultural chemist, small grain producers who fail to give their crop an application of this same plant food are passing up an opportunity to increase yields.

From now until mid-February, farmers in the area south of Waco should apply the nitrogen sidedressing. Those to the north of the area should make the application by March 1 or not later than March 15.

The specialist emphasizes that demonstrations conducted for the past several years have shown that small grain yields can be increased from 25 to 30 percent through the use of nitrogen fertilizers.

Generally Thornton says, an application of 150 to 200 pounds of ammonium sulphate or 100 pounds of ammonium nitrate an acre is sufficient if applied within the suggested dates. The increased yields will more than pay for the plant food and labor required to put it on the crop. Too, he adds, increased yields are needed now to replenish the short stocks of farm held in small grains in Tex.

Of course, he says, cooperation from "mother nature" in the form of badly needed moisture will materially aid the cause of production.

For more detailed information on the use of all types of fertilizers, Thornton suggests a visit with the local county agent.

# Wildcats Drop Non-Conference Battle To Plainview Bulldogs

## Hale Men Win Over Locals In 96-42 Score

By J. D. TRULY

The Littlefield Wildcats dropped a non-conference game to the high flying Plainview Bulldogs, 96-42, Tuesday night in Plainview. The Bulldogs are regarded as one of the top teams in the area in AAAA play, and they were just too much for the Wildcats to handle.

Plainview's towering height was the difference in the ball game. Littlefield just could not get the rebounds that are so important in a ball game. Plainview completely controlled the backboards, and the summary showed it. Plainview got 35 field goals and Littlefield 11. The Wildcats had to fight hard to get the ball when it was loose and as a result they committed several fouls.

**First Quarter Goal Battle**  
The first quarter was a hard fought battle with Plainview finally coming up with the edge. 19-16. Littlefield hit only two baskets from the field, but they dropped in six free throws. Plainview hit five from the field and nine free throws.

In the second quarter the Bulldogs lengthened their lead by dropping in 25 points. The Wildcats fought gamely but their height and experience of this AAAA team really started showing. Buddy Jones was playing his man very close and as a result he had five fouls on him before the second quarter was over. Charles Duval also got into trouble via the foul route. At the end of the half he had three fouls on him. Plainview dropped in 10 goals from the field and five from the charity toss line for their 25 points. Littlefield had their best quarter of the ball game by hitting five field goals and three free throws for 13 points. Plainview led 44-23

**AIRMAN EDWIN RAY BAINES**, 19, son of Mr. and Mrs. A. L. Baines, 1215 West Fifth St., Littlefield, has completed the first phase of military training at the "Gateway to the Air Force" at Lackland AFB, San Antonio. He has qualified for specialized technical training and will be assigned to 370th Technical Training Wing Sheppard AFB, Wichita Falls, Texas. While at Lackland the new recruit undergoes the transition from civilian to airman through a program which includes processing, aptitude testing, physical conditioning, survival and weapons training, and varied classroom studies ranging from citizenship to military customs and courtesies. Like the USAF Officer Candidate and Pre-Flight schools, also located at Lackland, basic military training prepares graduates for specialized training and on-the-job assignments.

Whenever an individual thinks he is above the law, it is time to set him straight.

when the teams left the floor at the half.

**Third Quarter Active**  
In the third quarter the Bulldogs tallied for nine field goals and eight free throws for 26 points. Littlefield, led by Miles Stephens with three field goals, hit for four from the field and four from the free throw line for 12 points. This quarter caught Duval on fouls and the Wildcats were really in trouble as far as height was concerned. The Bulldogs led 70-25 at the end of this period.

In the fourth period the Wildcats were almost completely down, two of their starters were on fouls and Miles Stephens, their high point man, had four on him. Littlefield could not manage to hit from the field and they counted for only seven free throws. The Bulldogs were still fired up and they bucketed 11 field goals and four free throws for 26 points.

The boys really played well in this ball game, but they were not in the same class as the Plainview team. They showed a lot of spirit and drive in the fact that they fouled 25 times. They also showed their fighting spirit by drawing 21 personal fouls from a team so much taller than they were. It is a good indication that they are nothing the tall boys when the taller team commits almost as many fouls.

Coach Bullard said after the game: "The boys worked hard and had good spirit. We got into foul trouble that hurt us a lot, and we could get only one shot while they got five or six."

Plainview had six men scoring

in double figures. Lee Richards was the high point man for the game with 20 points. He was backed up by Billy Taegel with 14, followed by Jessie McGuire and Bobby Grace with 11 and Nicholl and King with 10 each.

Miles Stephens was high for Littlefield with 15 points. Jgnz-backed him up with seven.

In the B-team game, Plainview won, 85-53. Bill Reeves paced the Plainview team with 26 points. Billy Jeffries was high for Littlefield with 22.

The Wildcats return home Friday night for a District 1-AAA game with Dumas. The B-team game begins at 6:16 and the varsity game at 8:00.

## Teenage Meeting To Be Held Tonight

Teenagers, parents of teenagers and workers with youth are urged to attend a meeting (tonight) Thursday at 7:30 in the courtroom, City Hall, for the purpose of planning a recreational program for the youth of the vicinity. J. E. Chisholm will preside at the meeting, and it is hoped that a large group will participate in this effort to provide wholesome entertainment for the young people. The young people themselves are particularly urged to attend the meeting and use this opportunity to express their desires about the matter.

**Poll Tax Total May Reach 3,800**  
Estimates are that approximately 3,800 poll taxes will have been paid by the deadline tonight. About 3,000 poll taxes had been paid throughout the County Tuesday night according to compilation of totals made by Herbert Dunn, Lamb County Tax Assessor - Collector.

There were 5400 poll taxes paid in 1956. Poll tax paying booths have been operating this year at City offices throughout the County.

The Littlefield Jaycees sold 55 poll taxes at a booth in Littlefield Saturday. Extreme cold weather cut down the number of poll taxes purchased.

## Clements & Keomuka Match Rescheduled For Saturday

Due to bad weather, the bout between Duke Keomuka, savage Japanese judo-chopper, and Ray "Big Train" Clements, scheduled for the Littlefield Sports Arena last weekend, was postponed until next Saturday night. Clements, once one of the most feared wrestlers in this part of the country, will discard his white referee's briefs for a pair of wrestler's trunks.

Promotor John Ussery, after listening to Keomuka insult Big Train in a lengthy discussion, signed the pair to appear in a tag-team tussle on next week's main event. Keomuka will bring Juan Humberto, the big and rugged Mexican, into his corner with him as a partner to do battle against Clements and popular Roger Mackey. Keomuka's foe here last week.

Keomuka was indignant toward Clements after last week's main event between the oriental and Mackey had been declared no contest. The crafty Japanese toughie declared Clements was, in his words, "plenty tough when he was hiding behind the white plants of a referee and had the state of Texas backing him."

"But I'd like to see him get guts enough to discard his fancy white suit and climb into the ring where he can swing his fists legitimately," continued the Duke.

Last week Clements became engaged in the festivities after being kicked around by Keomuka and the "Train" lost his temper and apparently forgot his position as referee. He became involved in another wild and woolly fracas that ended in a "no contest" ruling by local wrestling commissioner F. L. Newton.

Big Train, no stranger to the mat after having spent over half of his life under the bright lights, declared he "wasn't afraid of Keomuka or any other man that ever stepped into the ring" and if Ussery would give him the chance, he'd show Keomuka.

Ussery saw tremendous possibilities in the trend. Clements, although primarily a referee now, still works occasionally as a wrestler. He's still in fine shape and experience-wise is plenty capable of taking care of himself in the roped-off area. And too, Clements has a capable partner in Mackey, former junior world heavyweight champion.

## Drilling Activity

(Continued from Page 1)  
San Andres level and drilling will continue to the Clear Fork formation.

Drilling was at 3535 feet late Wednesday on the Block 96 well, a block and a half west of the football stadium. A core is expected to be pulled late this week near 4000 feet.

The Cain well, near Yellowhouse, is drilling at 4620 in lime.

Mankind will do almost anything to make money just so long as mankind worships wealth.

ring-savvy and Mackey's youth and speed, this team should be hard to handle, even for two ring veterans like Humberto and Keomuka. The match has been scheduled for the best two out of three falls with a one-hour time limit.

In a one fall preliminary scheduled for 20 minutes, Clements will battle Keomuka in a match that should kindle the fire for the main event. To further fan the flames for the hot tussle, Mackey will square off against Humberto in another 20 minute preliminary. The matches start at 8:15 at the new Sports Arena on the Levelland Highway.

## Parents Of Little Leaguers To Meet Next Thursday

All parents of Little League a meeting Friday, February 8, in members are requested to attend the City Hall to discuss national affiliation for the local group.

Plans for the meeting were made Wednesday morning when the team managers met at Tompkins' Cafeteria. Attending the meeting were Odell Mathews, Jimmie Chapman, Charles Duvall, Bob Harney and Ray McKenny.

According to Chapman, the franchise for the local group has been received and must be returned to national headquarters by March 1.

- ECONOMY** — You save time and money in storing, handling and spreading high analysis pelletized AMMO-PHOS because it contains up to 2 1/2 times more plant nutrients than most other fertilizers. Compare plant food values.
- STORABILITY** — AMMO-PHOS occupies only half as much of your valuable storage space. Pellets will not lump or cake if stored in a dry place. Buy ahead with confidence. AMMO-PHOS will be in excellent condition when you need it.
- SOLUBILITY** — All guaranteed plant food in AMMO-PHOS are completely soluble in water. The method of compounding keeps the phosphorus available longer.
- DRILLABILITY** — No sticking or bridging when you drill with AMMO-PHOS. The pellets are dry and free-flowing — provide easier, more even distribution in the field without bothersome dust. Airplane application is simplified.
- CHEMICAL UNIFORMITY** — There's no feeding with AMMO-PHOS. Each pellet has a uniform content of the major plant foods . . . the same guaranteed analysis . . . because AMMO-PHOS is chemically compounded. Each plant receives the same proportions of plant foods, resulting in uniform high yields.
- AVAILABILITY** — AMMO-PHOS gives you quick-acting, non-leaching nitrogen . . . the most available phosphorus you can buy . . . and potash to fit soil requirements. The pellets retard the rate of erosion of phosphorus by clay in the soil . . . give you a quick, healthy start and feed through to a successful, big-yield maturity.

bed probably sneak off in secrecy with the seed catalog to walk about in their very own Kpdachrome garden.

Traditional as the order-book is, though, it has started to take on a new look by a sort of fashion nomenclature. Take zinnias, for instance. They're not just zinnias anymore, or "old maids" as some people call them. Late reports are that the hottest numbers this season are "Ortho-

Polka", "Peppermint Stick", "Sherry Sundae" and—a real newcomer—"Crackerjack". And they're all zinnias.

It would be much better if they dispensed with the naming and gave out with some of their planting secrets. They must have some secrets, because nobody can grow anything as pretty as it looks in the seed catalog.

facilities are in demand. Many of the institutions are expanding, only to be faced with an increasing enrollment.

An outstanding example of immense growth is Texas Tech. Tech officials have revised the start of the Spring Semester to take care of a record-breaking 7,000 or more students. Pre-registration figures of 8,471 students already have sur-

passed last year's all-time record spring enrollment of 6,450. The figures come on the heels of an all-time high Fall Semes-

Tech President E. N. Jones declared that "projected enrollment figures now place Tech's student population at 15,000 by 1965. This changes the estimate of only a year ago that the 15,000 mark wouldn't be reached until 1970." Tech is now the second largest

state-supported educational institution with students from literally every corner of Texas, representing 222 of 254 counties.

Dr. Nicholas Nyaradi, former Hungarian Minister of Finance now in a southwestern speaking tour, tells this story of a visit to Moscow: While waiting for a Kremlin meeting to begin, Nyaradi took an

American newspaper from his briefcase and began reading. A Russian attaché waiting with him asked for part of it.

"Ha!" exclaimed the Russian after a few minutes of silence. "Just what we always suspected would happen in capitalist America." Nyaradi said he glanced at the banner headline to which the Russian was pointing. It read: "Indians murder Senators!"

LITTLEFIELD, LAMB CO., TEXAS, THURSDAY, JANUARY 31, 1957

NUMBER 36

## Program Starts To Liquidate First Baptist Debt

**Hemphill Is Pastor 14 Years**

Dr. Lee Hemphill, pastor of the First Baptist Church of Littlefield, announced a goal of \$5,125 for next Sunday in connection with the retirement of the remaining \$10,000 owing on the church building. It is hoped to pay off the balance of the indebtedness in June.

Following the payment of the entire indebtedness there will be a mortgage lending company at a date not yet set, said Dr. Hemphill.

**W.P. Improves Limestone**

According to the pastor, the church's arena, Herbert Brunker, of Lubbock, will start work on plans for the finishing of the basement under the sanctuary about July 1, which should get underway soon thereafter. With the completion of this work, the church property will reach an investment of \$55,000.

**Mrs. Tipton, 96, Dies at Muleshoe**

Mrs. Laura Ann Tipton, 96, of Muleshoe, died at 1 p.m., Saturday at the West Plains Hospital in that city, following a long illness.

She had moved to that section of the state in 1910, and was the widow of S. F. Tipton, a pioneer Baptist preacher who died in 1910.

The couple had celebrated their 60th wedding anniversary prior to his death. She had been a member of the Baptist Church for 82 years, and was the senior member of the Muleshoe Order of the Eastern Star.

Funeral services were held at 10 a.m. Monday in the Main Street Baptist Church, Muleshoe by the Rev. J. D. Hudson, pastor, and assisted by the Rev. Roy B. Flippo, pastor of Bethel Baptist Church of Amarillo.

Burial took place in West Camp Cemetery under the direction of Singleton Funeral Home of Muleshoe.

Survivors include one adopted son, A. A. Tipton, Amarillo; one half-sister, Mrs. B. E. Chaney, Muleshoe; and a half brother, C. E. Dotson, Tucson, Ariz.

that there will be large attendance at both services to observe these occasions.

Dr. Hemphill has asked the Lamb County Leader to express his sincere appreciation to all those who have contributed, encouraged him, or in any way had a part in the construction of the beautiful church property.

**Balcony To Be Finished**

The seating capacity of the present sanctuary is 1000, but this will be increased to 1250 with the completion of a balcony at the rear, which is expected to be carried out in the near future.

Members of the finance committee, who have worked so hard to make the construction of the beautiful buildings possible, are: E. B. Luce, chairman, and Fryor Hammons, C. O. Stone, J. C. Hilburn, Jack Farr, C. L. Walker, Jack Christian, W. H. McCown, M. P. Theford, Elmer Hall, Hamp McCary, Roy Byers, and Pat Boone, Sr.

**Pastor Costs In 144**

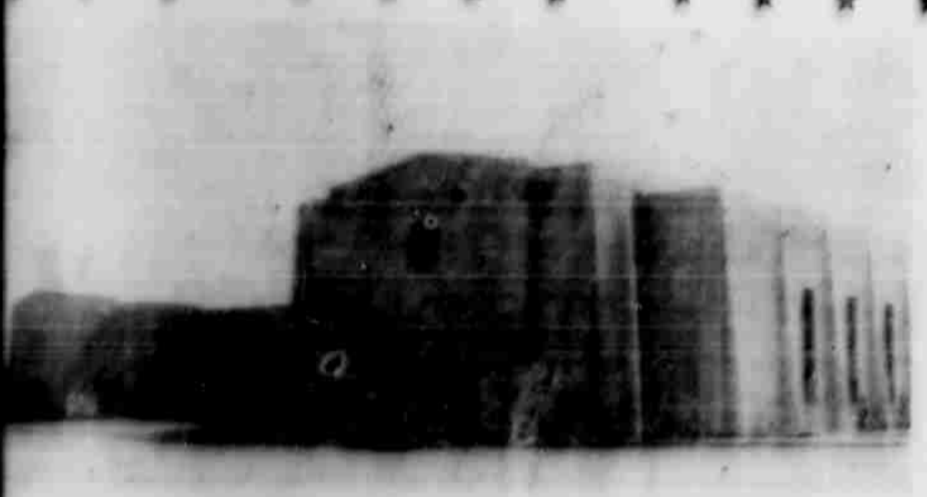

Dr. Hemphill came to Littlefield February 1, 1943, from Dayton, Texas, where he had served as pastor for 11 and a half years.

Membership of the local church at that time was only 771, as compared with 1800 at the present time, of which number 1270 are resident members, indicating the great growth of the church under the leadership of Dr. Hemphill.

The average attendance at Sunday school for the month of January was 645.

Employed by the First Baptist Church at the present time is Kenneth Hill, music-educational director, and Mrs. Hugh Trimble, church secretary.

Construction of the new sanctuary was started March 1, 1957, with \$105,000 in the building fund. It is attached to a new educational building started August 30, 1948, with \$75,000 in the building fund. The educational building was dedicated free of debt February 4, 1951.

### Baptist Sets March 10 Annual Spring Revival

The Baptist Church has announced a week's revival beginning Sunday, and extending through March 10.

Rev. Curtis is a native of Big Spring, and has been an active leader in State Baptist work, serving on the executive board for several years until he took over his present work.

Kenneth Hill will have charge of the choir and youth activities during the revival.

#### OLTON HOSPITAL NEWS

Mr. and Mrs. Jesse Rodriguez are the parents of a 5 pound 6 ounce baby girl, born January 27. She has been named Margret Ann.

Mr. and Mrs. Truitt Ray are the parents of a 6 pound, 16 ounce baby girl born January 26. She has been named Janice Ann.

**Recent Medical Patients**  
Bill Dickenson, Mrs. Olan Hackler, Mrs. G. T. Crosby, Z. Z. Moss (deceased).

**Recent Surgical Patients**  
Cathy Carlisle, Friona; Mrs. Bill Lunford, Mrs. Howard McClure, Mrs. W. C. Malone.

Dr. Lee Hemphill, pastor of the First Baptist Church Sunday will complete 14 years of service to that congregation. Sunday also will be the third anniversary of the occupancy of the new sanctuary.

#### PEP PARAGRAPHS

The infant daughter of Mr. and Mrs. Gaubert Dogel, Pamela Sue, was brought home Monday after being a patient in the Littlefield hospital for a week.

Mr. and Mrs. Eugene Gerik and Don, Mr. and Mrs. Charles Burt, and Mr. and Mrs. V. H. Diersing attended the funeral of Mrs. Bill Burt January 21 in Lubbock.

Mr. and Mrs. Leon Shilling returned Tuesday from their honeymoon at Colorado Springs, Colo. The couple will make their home in Bovina.

V. H. Diersing left Monday morning with other members of the Electric Co-op for Austin where they will attend the meeting of the Texas Electric Co-ops.

Mrs. Glen Hughes and children of Abilene recently spent a week visiting her parents, Mr. and Mrs. A. J. Sokora and family.

Margaret and Michael Diersing of Hillsboro spent Sunday night, January 20, in the Eugene Gerik home.

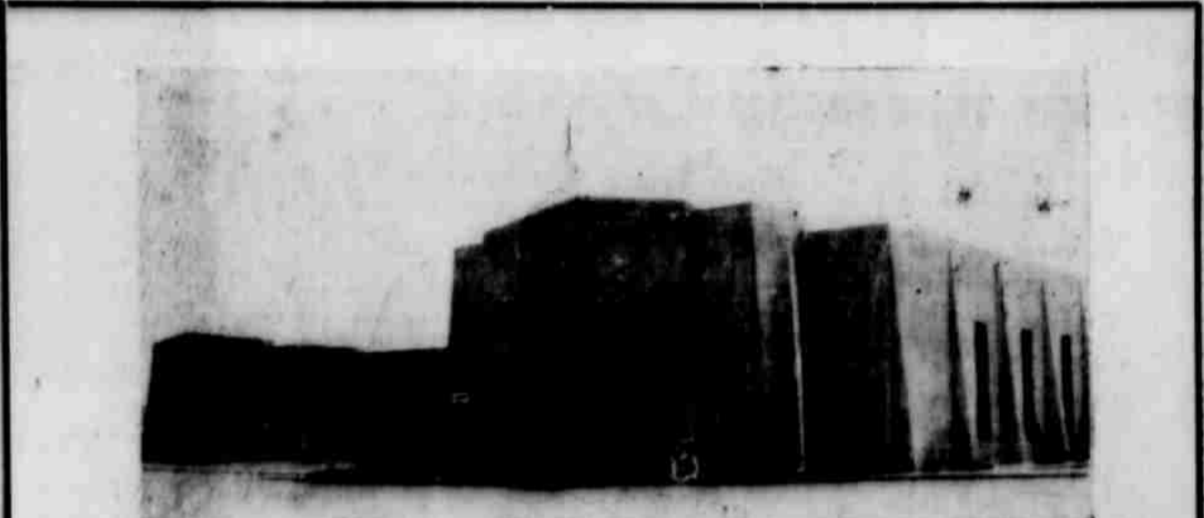

Sunday dinner guests in the home of Mr. and Mrs. Eugene Gerik and sons were Joe Gerik and Mr. and Mrs. V. C. Weaver of Bula.

The Pep school will sponsor the annual March of Dimes dance on Thursday, January 31, from nine until twelve p.m. Tommy Hancock and his Roadside Playboys will furnish the music. Proceeds will be divided between the Littlefield and Levelland March of Dimes fund.

The Pep boys and girls held their monthly 4-H meetings on Monday, January 21 in the Pep school building. During the boys' meeting the Fat Stock Show was discussed. At the meeting, Paul Meyer received a prize of \$50 for placing third in the county cotton contest and first in the community and Harvey Demel was awarded \$20 for placing second in the community cotton contest. After the meetings games were played and refreshments were served.

At a meeting of the District 5-B schools recently Supt. Marion MacDaniel of Pep was elected chairman of the high school literary events. The meet will be held at Pep on Mar. 29. Mr. John MacDaniel, the boys' coach, will direct the tennis meet which will be held at Pep on Saturday, April 6.

Too much water can be just as bad as too little for your grass crop. For best results, find out which forage crops are best suited to the moisture content of your land; then choose special grasses for the wet spots.

## A Word of Appreciation

As we approach the successful close of our \$500,000 Building Program, we wish to take this means of expressing our sincere thanks to everyone who has had any part.

We wish to thank the Littlefield Press and its predecessors for their part. We thank those who have encouraged us from time to time in the undertaking. We thank those who are not members of our church, but who have made their contributions. We thank all our members who have so liberally given throughout the program.

Sunday, February 3rd, is the third anniversary of entering the New Sanctuary, and the Pastor's Fourteenth Anniversary. The church plans to pay about one half of the \$16, 800.00 remaining on the indebtedness. The balance will be paid within four or five months.

## Automatic Machines Won't Replace Necessity Of Work

2 col Hear Sandhills Philosopher Editor's note: The Sandhills Philosopher on his Johnson grass is argu about automation, his letter this week reveals. We can't tell whether he's for it or against it.

I noticed in a copy of a newspaper which the wind blew against my back screen door, I could have pulled it through a hole in the screen but I was afraid I'd tear it and anybody who is too lazy to open a door to pull a newspaper off ought to stay ignorant anyway, because a scientist has predicted that in a few more years the automatic coin machine and push-button controls will just about relieve man of most of his work.

As I understand it, you can now buy anything from hot coffee to an insurance policy to a full meal merely by dropping coins in a machine, but I would like to say that while I'm in favor of anything that will eliminate work, I don't believe automatic coin machines and push-button controls will do it.

For example, I would like to see the inventor who thinks he can shoe a horse automatically.

While it's true you can milk a cow automatically, nobody has been successful in figuring out how to get the automatic machinery attached without somebody getting up before daylight to do it. They make automatic hay balers, it's true, but they haven't replaced the man who throws out the hay in the winter time, with one foot caught in the baling wire. Oh, I know they can bale it with twine, but you can trip on twine the same as wire.

In fact, surveying the whole field of automatic controls, it seems to me that while man has eliminated a lot of old-fashioned ways of doing things, enabling him to do a lot of things faster and things at the same hours. It's a lot nicer to start a tractor

with a button than a crank, but having swung it, the inventors quit too soon. They seem to consider the job done and go off to leave me still having to climb in the seat and stay there going up one row and down another.

It's pretty easy to get an automatic machine to tell you how much money you have in the bank, or when your note is coming due, but I don't believe they'll ever get a machine that can decide who's entitled to a loan and who isn't.

The way it looks to me, there's always been plenty of work for bankers and farmers, and while this may suit the bankers, it doesn't suit me.

Yours faithfully,  
J. A.

## Meeting Is Held By Pep 4-H Club

The Pep 4-H Girls Club meeting was held Monday night at 7:30. Miss Elaine Simmacher the president called the meeting to order. Loretta Simmacher led the motto: Harriet Simmacher and Georgia Albus gave a demonstration on how to use electric appliances, and they cooked a breakfast with them.

Mrs. Jewel Robinson, County Home Demonstration Agent, gave a demonstration on muffins. She gave several books to the girls on cooking from the Texas A&M College System.

Those present at the meeting were Georgia Albus, Mary Burt, Jane Kuhler, Kay Litchford, Deloris and Joyce Schlottman, Elaine, Harriet, and Loretta Simmacher, Mrs. Charles Burt, and Mrs. Robinson.

"Twenty years ago, Madge had a notorious affair with a man, and now she's mixed up with the same man's married son."

"Every man is worth just so much as the things about which he busies himself are worth." The current issue of a woman's magazine carries this quotation from Marcus Aurelius.

While the truth of the saying still stands, it is interesting to realize that it was written by a Roman emperor-philosopher in the second century, A.D. What things were worth busying oneself about in those days? What is worth busying oneself about today?

We'd like to turn the proverb around and suggest that "The things a man busies himself about are worth just so much as he thinks they are worth." It makes less difference what one does for a living, for instance, than the pride he takes in how well he does that job. The annual income from a trade or profession is much less important than the way a man feels about how he earns it.

The public services he performs, the committees he agrees to serve on — these experiences are valuable to him, and to the community, in direct proportion to how he carries out his assignment.

Recently we heard a story about a 35-year-old man who for many, many years earned a living as a contractor. When a building was torn down in his hometown last month, a brown paper sack, such as nails come in from the hardware store, was found suspended by a string behind some shelves. On it was written in pencil, "I, Joe Smith, built these shelves. It is a good job." The date was 1888.

For that carpenter-contractor, building shelves was as important as being president of the United States, and building them right was a matter of personal pride. If all of us had such pride as that, what would become of crime and delinquency?

## Views From Pleasant Valley

The Pleasant Valley Community is sponsoring a cake walk Saturday night February 2, at 7:30 p.m. at the Community Center. Proceeds goes to March of Dimes. Everyone is invited.

Mr. and Mrs. Leroy Hicks were shopping in Clovis Saturday afternoon.

The community welcomes Mr. and Mrs. Kenneth Duncan and son of Plainview as residents. Mrs. Duncan is the daughter of Fred Determan and they are farming her fathers farm this year.

Mr. and Mrs. Roy Blair and family moved to Shallowater recently.

The P. V. Social club ladies served refreshments at the farm sale of Mrs. Audie Black last Wednesday.

Roy Shoemaker had knee surgery at the Medical Arts Hospital in Littlefield Monday. He will stay in the hospital for 10 days.

Mr. and Mrs. Walter Hutton and family moved from the Pleasant Valley Community to Muleshoe recently.

Raymond Roubinek was in Morton Monday on business.

Leroy Hicks and Jack Calhoun attended a farm sale near Dimmitt last Thursday.

Guy Nichols of Muleshoe, owner of a Pleasant Valley Gin, has purchased a Gin in the Pleasant Valley Community. The gin was built in 1955 and has been in operation the past two seasons.

## FFA Boys Visit Fat Stock Show

The Littlefield F.F.A. Chapter, consisting of 42 boys including James Purkey and W. W. Hall; Sweetheart, Linda Latimer; Plov Girl, Roxene Bingham; and their sponsors, Mrs. Patricia Borland and Mrs. Nellie Sullins attended the Fort Worth Fat Stock Show and Rodeo. The boys and their sponsors left Thursday night at 11 o'clock.

Harold Adams, who has driven for the chapter for the last five years, drove again for the sixth year.

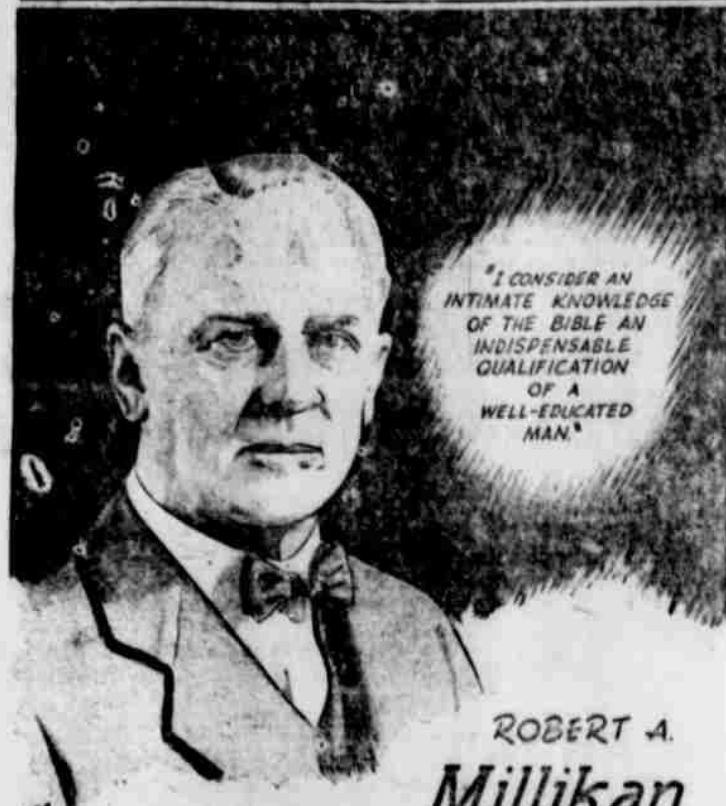

The chapter arrived at Fort Worth at 7 a.m. Friday and left the girls at their hotel and took the boys to Stripling Junior High School where they slept in the gymnasium.

Friday they went to the stock shows and to other parts of town Saturday the group attended the 2 o'clock matinee rodeo. Sunday morning the group left for Littlefield.

The Ag boys at dinner at Seymour and arrived home at 7:30 p.m. Sunday.

Those who founded the United States would probably be amazed at what it is today.

## Highlights and Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

AUSTIN, Tex. — A number of the "Better Government" bills requested of the Legislature by the Texas Press Association have hit the legislative hopper.

1. A Mandatory Publications bill, designed to force public officials to print public notices as called for by present statutes. Requiring removal from office of any public official who refuses to publish financial reports called for under existing laws, this bill would eliminate such occurrences as have happened in Duval County in recent years. Introduced by Sen. Preston Smith of Lubbock and Rep. John Lee of Kermit.

2. A bill to provide for public notice of applications of veterans applying for loans under the Veterans Land Act. Notices, to appear in the veteran's home town newspaper, would specify name of the veteran, describe the land, and quote the price he will be paying. Sen. Charles Herring of Austin and Rep. Louis M. Anderson of Midland have introduced companion bills in the Senate and House.

3. Rep. Virginia Duff of Ferris and Sen. Crawford Martin of Hillsboro have introduced measures which will require publication of annual financial statements by school districts and their official bodies. Again, a measure to help prevent situations similar to that in Duval County.

4. Sen. Otis Lock of Lufkin and Rep. Howard Green have introduced bills in their respective houses which would make it unlawful to bar newspaper reporters from precinct conventions. Object: To prevent instances when newsmen are unable to report convention facts to their readers because they are refused admission to such political meetings.

5. Meetings of public bodies would be open to the public, including newspapermen, if a bill introduced by Sen. Henry B. Gonzalez of San Antonio and Rep. Don

Kennard of Ft. Worth is passed. This bill will insure the "public's business" being kept public.

6. A measure providing for removal of officials who refuse to testify concerning their duties. By Sen. Doyle Willis and Rep. Howard Green, both of Ft. Worth.

7. Two bills introduced by Rep. Jack Welch of Marlin would require insurance companies to publish financial statements annually, and provide a penalty for furnishing false information to the insurance commission.

8. Sen. Culp Krueger of El Campo has introduced a measure calling for publication of the full text of ordinances, rather than merely by the caption. Publication of captions only, as now allowed by law, frequently does not give the public sufficient information as to what the ordinance contains.

9. Another bill by Rep. DeWitt Hale of Corpus Christi would require each treasurer receiving or controlling funds of a school district to keep a full account of all funds, and to file an annual report of those funds each school year. Present laws do not provide adequate protection at the local level for such accountings.

Among other items in the still-abundant flow of suggested legislation are bills which would:

1. Require voters to register by parties. By Sen. Henry B. Gonzalez of San Antonio.

2. Provide paid investigators to assist grand juries. By Rep. John T. Cox of Temple.

3. Refund state taxes on gasoline paid by cities. By Rep. Robert W. Laker of Houston.

4. Exempt widows, old age pensioners, injured veterans and others from state property taxes on the first \$5,000 in value. By Rep. D. Roy Harrington of Port Arthur.

5. Place liquidation of insurance companies under supervision of Travis County district judges rather than the Insurance Commission. By Sen. Charles Herring of Austin.

6. Make Texas Thanksgiving the same as the federal holiday. By Sen. Dorsey B. Hardeman of San Angelo.

7. Re-organize the Industrial Accident Board and increase workmen's compensation benefits. By Reps. Kennard and Wade Spelman of McAllen.

8. Provide for annual sessions, boost legislators' salaries to \$7,500 a year and the speaker and lieutenant governor to \$12,500. By Rep. Truett Latimer of Abilene.

**MONEY HERE, MONEY THERE** — House and Senate committees now neck deep in hearings on the paramount issue of the 55th session of the Texas Legislature — how much money to appropriate and to whom.

Facing them are these requests:

1. A \$2,000,000,000 appropriation bill submitted by the Legislative Budget Board.

2. A bill to increase public school teachers' basic salaries from

Sen. A. M. Aiken and Rep. James A. Turman.

3. A bill to give state employees a 15 per cent raise on the first \$3,000 of their salaries. By Sen. Charles Herring. Reps. Charles Sandahl and Wilson Foreman of Austin. Another bill by the other Travis County member, Rep. Obis Jones, asks a 25 per cent raise.

4. A bill to appropriate \$3,000,000 to aid the totally disabled. By Sen. William S. Fly of Victoria.

5. A bill to raise judges' salaries, from \$9,000 to \$12,000 for district judges, from \$12,000 to \$20,000 for civil appellate judges, from \$17,500 to \$24,000 for Supreme Court and Criminal Appeal judges. By Sen. Doyle Willis.

**NEW WATER PLAN** — With two previous plans junked, a third recommendation has been made for buying state water storage space in federal reservoirs. Earlier plans included, first, a fishing and boating tax, and then a water users tax. Both met strong opposition.

Now Sen. George Parkhouse of Dallas, water program leader, has substituted a plan to finance storage buying with a \$100,000,000 bond program. This is separate from another \$100,000,000 bond proposal to aid local governments in financing water conservation.

Two of the 15 "Better Government" bills, sponsored by the Texas Press Association have hit the legislative hopper in Austin.

Both are "public information" measures. They are specifically designed to correct existing evils in Texas laws by providing free information to the people of Tex-

as on the activities of public officials and agencies.

Senate Bill 67, introduced by Sen. Charles Herring, provides for public notice in home town newspaper of an application for a lease of Veterans Land Bill. His name the veteran who has applied for a loan to buy the purchase price.

Herring's bill is scheduled for hearing before the Senate Affairs Committee at 2 p.m. Feb. 13. A companion House Bill 104 introduced by Louis H. Anderson of Midland.

Second of the two new Senate Bill 55, introduced by Preston Smith of Lubbock, provides for removal from any public official who prints public notices regarding existing laws. It does not create any new penalties, it merely puts the law already on the statute books into effect.

Both are responsible for public financial reports and other measures specifically called for in known as the "Mandatory Publications" act.

## Income Tax Deadline For Some Farmers Is Feb. 15

February 15 is the income tax report deadline for farmers and ranchers who did not file an estimate and payment before January 15, 1957 according to C. H. Bates, extension farm management specialist.

Farmers and ranchers should not overlook the fact that certain livestock sales made under drought conditions need not be reported in taxable income provided the animals are to be replaced within one year, says Bates. An extension of this 12-month provision may be obtained from the district director of Internal Revenue if drought conditions continue, he adds.

Bates says all operators with a "net farm profit" of \$400 or more must file a return and pay a 3 per cent social security tax whether any income tax is due or not. Operators with less than net profit, but over \$500 gross farm income may use two-thirds of their gross income for determining self-employment tax up to \$1200, says the specialist.

Landlords are covered for self-employment benefits this year provided they "materially participate" in the farm's operations, Bates points out. He says "material participation" may be determined either on the basis of actual physical work or through management decisions affecting farm and ranch production.

The Farmer's 1956 Tax Guide provides information on tax credits and other deductions allowed farm operators. Farmers may secure same from the County Agent, or the Internal Revenue office by writing for this bulletin.

It is also suggested that farmers ask the County Agent about a farm record book designed for

Ronnie Grant, Jimmy Johnson, Donnie Polk and Teddy Gray.

### Julem Speech At Church

Joe Salem of Sulem, lay-leader in the Methodist Church, and an ardent speaker Thursday night at a meeting of the United Nations, was the speaker at a meeting of the United Nations at the Methodist Church at Canadian.

The program was a "night" affair, at which families of the members visited, following which a fish dinner was served.

Salem spoke on "The Films of the United Nations," an annual celebration.

Salem was formerly a Canadian.

### Heart Attack Victim Showing Improvement

The condition of Charlie who has been a patient at the Medical Arts Hospital for the past two weeks, is showing improvement. Aldrick, who suffered two heart attacks two weeks ago and another day of the past week, is under an oxygen tent. The first attack he was on for 48 hours and the last hours, but is now sufficient to get him out of the hospital. However, he is still a patient of the hospital. ### GASOLINE

*gives extra anti-knock performance in modern engines*

Modern cars, especially the 1957 models, have engines with high compression ratios.

Even at this altitude, these engines require the extra performance of Humble's famous Esso Extra gasoline.

It's the best premium gasoline you can buy... with extra anti-knock performance... extra power... extra protection against vapor lock... extra mileage... extra quick starting and warm-up.

Fill up with Esso Extra gasoline under your neighbor's Humble sign—it's famous for performance.

Prevent "the knock you cannot hear"—use famous Esso Extra gasoline.

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class—especially if it's a 1957 model—prevent "trace knock" with Humble's famous Esso Extra gasoline.

**CHERRY PIE SUPREME**

- 1/2 cup Fat Evaporated Milk
- 3 Tablespoons cornstarch
- 1/2 cup sugar
- 1-lb. 4-oz. can sour, pitted cherries
- 2 Tablespoons butter or margarine
- 1 Tablespoon lemon juice
- few grains salt
- 1 cup powdered sugar

Have ready a baked 9-in. pastry shell. Chill milk in ice tray until almost frozen around the edges. Mix in a 1-qt. saucepan the cornstarch and sugar. Drain cherries, saving syrup. If necessary, add water to syrup to make 1 cup. Stir syrup into cornstarch mixture. Cook and stir until very thick and clear, about 7 min. Cool thoroughly and then add drained cherries. Put into pastry shell. Meanwhile, melt butter in small saucepan. Take from heat and mix in until smooth the lemon juice, salt and powdered sugar. Cool thoroughly. Put ice-cold milk into a cold 1-qt. bowl. Whip with cold rotary beater, or with electric beater at high speed, until stiff. Whip in cooled powdered sugar mixture just until mixed, about 1/4 at a time. Do not overbeat. Arrange around edge of pie. Chill an hour before serving.

# Lions District Head Will Visit Littlefield Feb. 1

## Don B. Stark Will Aid Work Of Local Club

Don B. Stark of Amarillo, district governor, Lions International, will make an official visit to the Littlefield Lions Club on Wednesday, February 13. He will be the chief speaker at the luncheon meeting of the local club on that day.

The purpose of Stark's visit will be to advise and assist the officers, directors and members of the club on matters pertaining to Lions administration and the Lion's great program of humanitarian service. Hubert Henry is president of the Littlefield club, and Bill Lyman is secretary.

**Amarillo Club Members**  
Stark has a long record of service in the work of Lions clubs, and has held important offices. He is a member of the San Jacinto club in Amarillo.

The district governor is a cabinet manufacturer, a Methodist, and a member of the American Legion.

Stark is one of the 293 district governors who supervise the ac-

tivities of the 12,415 Lions clubs. There are 83 clubs in this district.

**International Lions Growing**  
Lions International was formally founded in 1917 in Dallas, Texas, and during the past 39 years has become one of the outstanding service club organizations in the world. There were on June 30,

1956, Lions clubs in 75 countries or geographical locations of the world with a membership of over 548,447. During the fiscal year of 1955-56, 1,005 new Lions clubs were organized.

The Lion's clubs special mission is the promotion of good government and good citizenship, the de-

velopment of civic, educational, social and moral welfare of the community and nation, and to help create and foster "a spirit of generous consideration among the peoples of the world." The slogan of the International Association of Lions clubs is "Liberty, Intelligence, our Nation's

Safety." Its motto is "We Serve." Littlefield is an active unit of the International Association of Lions Clubs, which is dedicated to community betterment in all its aspects; to national and economic social and cultural progress; and to the promotion of international understanding and amity.

## Sales Of Livestock At Texas Markets Hit Five-Year High

Livestock sales at Texas markets . . . accelerated by drastic reductions and many liquidations in herds and flocks due to severe drought conditions . . . increased during 1956 and hit a five-year high, according to preliminary year-end estimates by the United Livestock Marketing Service.

The tabulations of final figures and initial annual report estimates of the state's livestock markets' volume during the 12 months of last year totaled 9,361,059 head of cattle, calves, sheep, lambs and goats—17,827 head greater than the previous high of 9,343,472 set in 1954.

The year's combined sales of cattle and calves totaled 4,693,319, topping the 4,234,663 head marketed during 1955 and only 371,337 head under the record 5,064,656 total of 1953.

Marketing of sheep was highest in recent years—3,524,596 head. The 1956 sheep sales showed a substantial gain over the previous high of 3,480,731 head in 1954.

Swine sales during 1956 are estimated at 622,286 head, largest

since 1952 and considerable more than the 411,876 porkers sold in 1955.

**IT'S THE LAW in Texas**  
A public service feature of the State Bar of Texas

### MAN-MADE LAW?

Some people find confusing our different state and national laws dealing with the same things. Income tax laws for an example.

Surely, they say, you can have no real justice, unless there is some one "best way" to do each thing — to hold property, to manage traffic — to pay taxes, or to enforce contracts.

So it bothers them. Why should Englishmen drive on the left side of the street? Why should married couples hold title under community property laws in some states and not in others?

Is law merely a man-made contraption?

It is true that like good manners much law is man-made, growing out of custom or local problems. In card games you can play many different games with one deck. You merely change the rules. But as with cards and all games, the law goes deeper than convention into man's basic needs for order, for a grasp of the part he is to play, and for a way to settle disagreements.

Law provides an orderly way to do things so that people can make long-range plans and work together. Its rules help you to find out where you stand — your rights and duties. And last, law has binding ways of settling disputes if need be: first to keep the peace, and then win people over by dealing with them in ways that satisfy their sense of fairness.

You can find these traits of law in most groups from the most primitive to the civilized.

As man finds out more and more about himself and his world, as his experience and wisdom grow, the law may get better. For example, as the psychological laboratories find out more about man's reaction times, his fears and faults, our laws about driving, for instance, may improve.

And here is another purpose the different kinds of laws may serve. You may look upon each as a

## Molasses Glazes Barbecued 'Ribs'

With pork supplies now bountiful at meat counters, many styles of this meat can be economically prepared in the months ahead. Here barbecued spareribs, topped with spicy apple rings, make for a very special and popular menu. Unsulphured molasses in the barbecue sauce adds a fine glaze and color to the spareribs. Unsulphured molasses, the concentrated juice of sugar cane, gives good spreading consistency to a barbecue sauce. Its aromatic and sweet flavor also offers interesting contrast to the nip of mustard, vinegar, Tabasco and Worcestershire included in the sauce. The sauce is ready to be used as soon as the ingredients are blended.

### Barbecued Spareribs

3 pounds spareribs 3 tablespoons vinegar  
4 tablespoons unsulphured molasses 2 tablespoons Worcestershire sauce  
4 tablespoons prepared mustard 2 teaspoons Tabasco

Have spareribs cut in serving pieces. Place in shallow baking pan. Combine unsulphured molasses and mustard; stir in remaining ingredients. Brush spareribs with part of sauce. Bake in a moderate oven, (350° F.) 1½ hours, brushing frequently with remaining sauce. Serve with "Glazed Apple Rings." YIELD: 6 servings.

### "Glazed Apple Rings"

4 medium red apples 3 tablespoons unsulphured molasses  
3 tablespoons butter or margarine

Core apples; cut in approximately ½ inch slices. Heat unsulphured molasses and butter in skillet; add apple slices. Turn to cover with butter-molasses mixture. Simmer gently 10 minutes, turning and basting occasionally.

sort of experiment. Some turn out badly, and some well.

But in the give and take of public discussion, these efforts may yet bring us more nearly to the "one best way" — if any such thing exists.

(This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Modern education, with all of its frills, has yet merely scratched the surface of the child training problem.

## ★ PEP SCHOOL HONOR ROLL

B-honor roll: Myles Demel, Lona Hawkins, Charlotte Litchford, and Charles Burt.

The Second Grade A honor roll was made by Betty Burt, Wayne Green, and Mary Simmacher. The B honor roll was made by Elisa Garcia, Nancy Sokora, Barbara Franklin, Sharon Duesterhaus, Ronald Baxter, and Samuel Albus.

The third Grade A honor roll was earned by Gordon McDaniel and Brenda Homer. The B honor roll was made by Jane Albus, Matt Demel, Kaye Litchford, Felipa Prado, and William Sokora.

Leonard Dierring made the fourth grade A honor roll. The B honor roll was made by Mary Burt, Mary Jane Demel, Jane Kuhler, and Clarence Albus.

The Fifth Grade B honor roll was made by Robert Decker.

The Sixth Grade B honor roll was made by James Sokora, Larry Hogue, and Marilyn McDaniel. There were no honor roll students in the seventh and eighth grades.

Ronnie Kuhler earned the freshman A honor roll, while the B honor roll was made by Georgia Albus.

The Sophomore B honor roll was made by Loretta Simmacher. Billy Hogue made the Junior A honor roll. The B honor roll was made by James Dierring, Elaine Simmacher, Joyce Schlottman, and Maloy Simmacher.

The Senior B honor roll was made by Margaret Homer, Bridget Sokora, Dwain Kuhler and Dwain Trull.

Driving carefully may not get you anywhere as fast as possible, but it will probably get you there safely.

Contentment is really just a matter of reducing your wants and desires.

## Ginning For South Plains Crop Total 1,621,641 Bales

With cotton officials now figuring the harvest as much as 99 per cent complete, the ginning for the South Plains area for the 1956 season are reported at 1,621,641 bales.

However, the cool weather the past ten days have probably hindered some collecting and ginning and it is estimated that a few more bales probably will be ginned and classed during the next two months, but the overall total will not be raised significantly. Thus the 1956 cotton season will go down in history as the second best on record for the South Plains area, topped by an unalloyed crop of 1953, when 1,644,000 bales were harvested.

The reading of one intelligent-written book a week will make you an educated person in less than three years.

A girl from the big city com-  
plained that a bull kept looking  
at her in a somewhat menacing  
manner.  
"I imagine," said the farmer,  
"that it's on account of that red  
dress you're wearing."  
"Oh," said the girl, "I know it's  
terribly out of fashion, but just  
fancy a country bull noticing it."
