Temperatures are expected to range from two "This weather certainly is to seven degrees below normal, which would shove the mercury to near the freezing mark. However, the Weather Bureau said it did not anticipate freezing weather in the immediate Lubbock area. Some freezing and possible snow flurries, however, may occur Thursday in the northern regions of the Panhandle.

Clearing skies are forecast for late Thursday or by mid-Friday.

A report, received this week from the Texas Employment Commission shows that 65% of the estimated 198,000 bale Lamb County cotton crop is now open, but only one per-cent has been harvested, indicating that there is a long way to go. The TEC report said 15,881 bales had been ginned to date, in the county.

Area ginners report, the cold front that moved into the area Sunday night has slowed the tempo of the harvest, but has not cut the expectations of the crop. The drizzling rains make it impossible to get into the fields, and the work is progressing slower.

plied in making the necessary certification to the Immigration Service. After receiving all of the oral and written views presented, the hearing examiner will certify the record to the Secretary of Labor for his de-terminations. In addition to the Dallas hearings, others are scheduled in Washington D.C. on November 30; in Miami, Florida on December 2, and at San Francisco, California on December 7. The announcement of this lat-

est development on the farm la-bor front, which came from Tracy C. Murrell, Regional Administrator of the Bureau of Employment Security in Dallas. made no mention of when the Secretary of Labor might be expected to notify farmers of the necessary steps to securing foreign workers. Individual and Association contractors of workers under P.L. 78 have been notified by the Department of Labor that workers now under contract or workers contracted before November 19 (the final

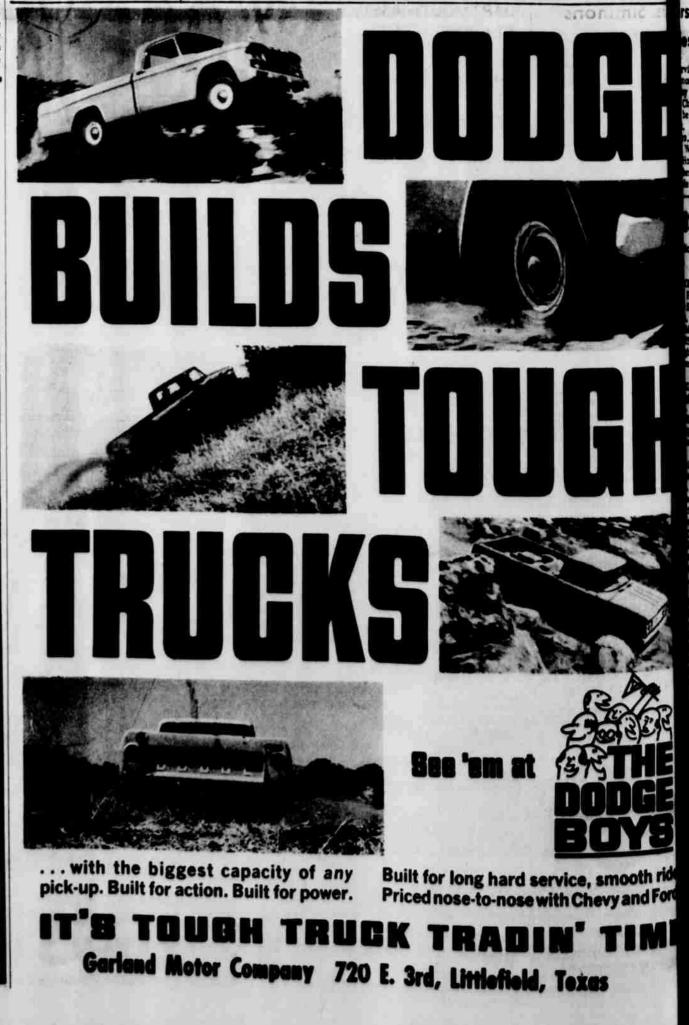

date for contracting or recontracting at Reception Centers) must be returned to Reception Centers on or before January 5, 1965. It is considered highly unlikely that foreign workers could be secured under P.L. 414 before that date, and this is expected to leave many High Plains farmers without workers for completing the harvest of this year's crop. To date

no solution has been offered to this situation. Elvon Devaney, Manager of the Western Farm Labor Association at Muleshoe, has said that his group would definitely present testimony at the Dallas hearing, and other associations, including Plains Cotton Grow-

ers, are expected to do the

same.

BIG SAIL -- Norman Renfro, right, and Wayne Barnett, both of Littlefield, pose with the 10 1/2-foot sailfish landed by Renfro in a recent fishing trip off the coast of Mexico in the California Gulf. The sailfish weighed 108 pounds and it took 75 minutes to land. Also in the trip with Renfro and Barnett, aboard Renfro's 18-foot Texas Maid boat, were Cal Harvey of Littlefield, Marvin Bowling of Sudan and Melvin Roach of Lubbock. The group brought back 600 pounds of fish, mostly dolphin, with Barnett and Roach also landing sailfish.
