

## Halloween Prank Calls Numerous

Trick-or-treaters kept volunteer firemen busy with prank calls as they observed Halloween here Saturday night, but for the most part it was all in fun.

No violence was reported in the city. Neither was there any report of persons being injured as a result of Halloween fun here.

But firemen, who acted as a cleanup crew, had little time to sit down between calls for a time Saturday night.

Their first call came at 8:36 p.m., when they were needed to remove a roll of wire between 6th and 7th streets.

After that, these notations were made on the city police log:

8:51 p.m. - Logs in the middle of a street in Duggan addition.

10 p.m. - Gas fire at the west side of the Primary School.

10:07 - A woman called to say that someone was stealing firewood outside her home.

10:18 Fire four miles out on Spade highway.

11:25 Two trailers turned over a north end of football field.

11:27 - Washing machine reported in the middle of LFD Drive.

11:30 Hay rake reported in the center of East Highway 54.

12:42 a.m. - Fire in a Dempster Dumpster at Yarbrough Grocery.

1:05 a.m. - Twelve bales of hay on West Highway 84.

1:35 - Four wheel trailer reported on Highway 84.

1:40 - Spark plugs and distributor caps broken on several cars on Phelps Avenue.

2:38 - Tree in street at First street west of Union Complex.

3:29 - Two-wheel trailer turned over on XIT.

## Four Injured In Accident Near Anton

(See Pictures, Page 6)  
Four Anton youths were injured Saturday about 8 p.m. in a two-car collision at the intersection of U.S. 84 and Farm Road 597 near Anton.

The injured included the driver of one of the cars, Mary Lou Morton, 14, and three passengers in her auto, Doyce Wood, 17, Charles Reichle, 20 and Delores Pierce 15.

Most seriously injured was Miss Pierce. She was still hospitalized at Littlefield Hospital Wednesday, but her condition was listed as good.

The two boys had been dismissed from the hospital earlier in the week. Miss Morton was not admitted to the hospital, however, she received emergency treatment there Saturday night.

Driver of the other auto, Lelan L. Tatham, 19, Levelland, escaped injury.

Investigating officers said Miss Morton, driving a 1958 model auto, pulled her car onto U.S. 84 after stopping at a service station. Tatham, driving a 1954 model auto, was pulling a small trailer and headed west on U.S. 84.

The autos collided as Miss Morton pulled her auto into the path of the Tatham car, officers said. Damages were listed as \$1,200 to the Morton auto and \$800 to the Tatham car. Damages to the trailer were set at \$50.

## HART CAMP FIRST TO GO OVER UF GOAL

Hart Camp Monday unseated Springlake in the race to be the first community in Lamb County to go over its 1959 United Fund goal.

Blanton Martin, fund chairman for Hart Camp, reported Monday that workers there had collected \$212. The community's goal was \$200.12.

Springlake had been first in the county the past two years. Only other report early this week was one from Littlefield workers. Through Tuesday, \$3,092 had been collected, about 30 per cent of the Littlefield goal.

Reports from all communities in the county are due by Friday.

Just Eight Youngsters?

## Better Look Again!

The camera never lies? Maybe not, but sometimes it doesn't tell the whole story.

A quick glance at the picture above doesn't reveal anything unusual. But on closer inspection, using the picture below, you'll see that the eight youngsters in the picture above are four sets of twins in the picture below.

You probably didn't guess it at first, unless you are already acquainted with the youngsters involved.

They thought they'd play a trick on you by acting silly in the first picture, then posing for real in the second.

There isn't much use identifying them in the top picture. It's simpler that way, because the photographer got mixed up when he tried.

But he carefully wrote down the names in order in the picture below. Here they are:

Front row, from left, Johnny and Freddie Moore, first

graders, sons of Mr. and Mrs. Dale W. Moore; middle row, from left, Kelly and Margaret Fain, first graders, daughters of Dr. and Mrs. J. R. Fain and Danny and Darrell Isbell, second graders, sons of Mr. and Mrs. Jim A. Isbell; back row, Sherrilyn and Merrilyn Francis, second graders, daughters of Mr. and Mrs. C. W. Francis.

Now, can you pick them out in the top picture?

## Christmas Event Plans Completed

Eighteen merchants at the retail merchants' regular meeting here Wednesday morning completed plans for the Second Annual Christmas Stockin' Festival.

The Festival is scheduled to begin Nov. 27, and end Dec. 1. Joe Fenn, chairman of the event, reported that 24 merchants had already indicated that they would give gift certificates and also have sent in money for Santa Claus, candy, and street decorations.

Fenn reported that many merchants still have not cooperated and he appointed a phone committee to contact them.

Free parking for Littlefield's regular monthly dollar day was discussed and it was the general feeling of the group that it should be continued. The Chamber of Commerce sent out cards for each merchant to use as a ballot and to date, 44 have voted for free parking and 15 against.

Chairman of the retail merchants committee, Wendell Tooley, presided at the meeting and introduced Don Page, new Chamber of Commerce manager. Page pledged his best efforts to help in every way possible to work with the retail merchants.

POLICE JAIL 21  
City officers jailed 21 persons on drunkenness charges and issued 16 traffic tickets over the weekend. Two more drunks were jailed early Tuesday morning.

## Olton Chamber Elects Officers, Harper Prexy

OLTON - Emmett Harper was selected president of the Olton Chamber of Commerce and Agriculture Tuesday morning by the organization's board of directors.

Also elected officers were Percy Parsons, vice president; Fred Thompson, secretary - treasurer; and Sidney Allen, fourth member of the executive board.

Harper, a farmer who has an active record in community, civic and church affairs, was vice president of the organization in 1959. Parsons is a funeral home opera-

tor and furniture dealer and Thompson is an auto dealer.

The Olton Chamber is planning a community clinic as a result of a report made by B. C. Flitts and Wayne Cooper, Cooper, manager of the Olton C-C, and Flitts recently attended a meeting at Midland of West Texas Chamber of directors and managers.

The clinic will be in January and will include meetings of merchants, professional people, farmers, high school seniors, and housewives. The purpose will be to acquaint the community with the duties of the Chamber.

Other plans of the Olton Chamber include a Christmas program Dec. 12, and the annual banquet of the organization, Jan. 28. Jack Lacy Sr. of Amarillo will be the banquet speaker.

Three new members of the board are Lacy Armstrong, Melvin Hines and Allen, all of whom are farmers. The three new businessmen members are Parsons, James Hall and Don Spain.

Retiring directors were President, Major James, Secretary - treasurer Bob Duncan, Past president Don Williams, Murrill Brigrance and Fred Hicks.

## SCHOOL GROUP MEETS

A regular meeting of Littlefield's school study committee is scheduled tonight at 7:30 at the school library.

# Heavy Agenda On Tap For Councilmen Tonight

## Collection Of Taxes Normal

As far as three tax assessor-collectors are concerned, things are about normal.

Taxpayers have paid about the normal amount of taxes during the first month of collections, report the Lamb County, Littlefield and Littlefield School District tax offices.

Herbert Dunn, at the county tax office, reports that his office collected \$289,900.98 through Oct. 31. This is 64.2 per cent of the total tax roll of about \$450,000. At the same date last year the county tax man had received 66 per cent of the total county tax.

However, last year was a record year for early tax paying to the county and Dunn says the figure is about average in comparison with past years.

City of Littlefield and Littlefield School District are under the percentage of collection as compared with the county collections.

Joel Thomson, city tax collector, reports 22.69 per cent of the total taxes collected, a figure of \$26,979.40. His office is a best \$1,000 ahead of last year's collections.

Taxpayers in Littlefield School District paid \$50,054.20 as of Oct. 31, reports Sid Hopping, school secretary. His office is also above last year about three per cent.

Poll taxes are coming in good, so, reports Dunn. His office has

## Grid Upsets Take Toll In Contest

Rest easy, football guessers, it was a rough week for everybody. Upsets took their toll on constants in the Littlefield Press football contest, with some of the entries missing more than half the games.

Robert Henry Ogerly of Rt. 1, Jadan, came through with the winning entry, missing only four games. He wins \$5.

Mike Slate, Box 193, Amherst, wound up second, missing five games. Second place money is \$3.

Bob Gronewald, Rt. 1, Littlefield, placed third. He also missed five games, but his guess on the tie-breaker wasn't as close as Mike's. Bob wins \$2.

Mike guessed the Littlefield Hereford score would be 22-7, Littlefield. The final was 14-6, making Mike nine points wrong. Bob guessed it would be 28-12, 20 points wrong.

Most people entering last week's contest missed these upsets: Lockney over Olton, Sudan over Kress, Springlake over Anton, Dumas over Phillips, Monterrey over Borger, Amarillo over Tascosa and Plainview over Tom S. Lubbock.

If you're still game, you can enter this week's contest by clipping an entry blank from Sunday's County Wide News, filling it out, and depositing it at any of the stores on the contest page.

## THE WEATHER

Today's forecast - Colder and possible showers. Temperatures - Sunday high 64, low 48; Monday high 67, low 57; Tuesday high 74, low 59; Wednesday high at 10 a.m. 58, low 49.

Moisture .10 of an inch for this month; 17.01 for the year; and 17.58 for this time last year.

MRS. GLADYS GOODWIN takes oath of office.

## Commissioner's Widow Named To County Post

Man's work is from sun to sun, but woman's work is never done.

That old saying may hold true for Mrs. Gladys Mae Goodwin of Earth, appointed Tuesday to succeed her late husband, Clyde Goodwin, as precinct 2 commissioner for the county.

She was sworn in as the new commissioner about 10:30 a.m. Tuesday by County Judge Pat Boone Jr., who made the appointment.

In taking the oath, Mrs. Goodwin became Lamb Coun-

ty's first woman commissioner since the county was organized 51 years ago.

Mrs. Goodwin will serve under the appointment until Jan. 1, 1961. Persons appointed to fill terms of officials who die in office serve until the next general election, according to state law.

As a result, precinct 2 voters will ballot in November, 1960, on a commissioner for the next two years. Goodwin, had he lived, would have served

## Parking, Traffic Head List

City councilmen are expected to cover topics ranging from parking and traffic to telephones and water meters at a regular meeting tonight at 7:30 at the city hall.

Several different items will come up under the parking and traffic heading.

For one thing, councilmen will review a survey of merchants on the advisability of continuing free parking here on Dollar Days.

Councilmen also will go over a list of outstanding parking meter fines and may decide on a course for collection. Introduction of a new parking meter ordinance is planned.

In addition, City Manager J. W. Harrison intends to introduce an ordinance on speed zoning of all highways into and through the city.

A report by Mayor E. J. Foust will take up proposals for school crossings on U.S. 84, a traffic light at U.S. 84 and Phelps, and improvements of water drainage on U.S. 84.

The mayor discussed these possibilities with State Highway Department officials in Lubbock recently.

Also on the agenda is the invitation of bids on two new police cars to replace two autos presently in use.

Bids will be opened on 100 new water meters.

City Manager Harrison is scheduled to report on the findings of a study to determine which of two phone systems might be best for the city when a dial change-over goes in here in 1960.

The council also will consider a proposal to close the city hall on Saturday afternoons and Sunday. Offices are now closed, but the city hall itself is left open.

# Wildcats Try To Ride Sweetwater Mustangs

By JIMMIE HINE

The Littlefield Wildcats, one of the four undefeated Class AAA teams in the state, take a long jaunt to Nolan County Friday night to test the offerings of the Sweetwater Mustangs in a non-conference battle.

Littlefield, after defeating winless Hereford, 14 to 6, last week, was dropped to the seventh spot in AAA, according to this week's poll of coaches and sports writers across the state.

Coach Don Williams predicted, "Sweetwater will be playing extra hard for this game after losing their district game to Snyder by a couple of points last Friday. Besides the home field advantage, Sweetwater could gain a lot of prestige in beating our undefeated team."

"Sweetwater has lost four games alright, but those losses were to Abilene, Breckenridge, Snyder, and Stamford. All of these teams are ranked high in their respective classifications. "We'll give them a good game because the boys are going down there with a winning desire and attitude," the coach commented.

Sweetwater's head mentor, Elwood Turner, perates his Mustangs from the regular "T" formation with many variations, especially with flankers. QB Carol Feagan is a fine field general and a good passer, according to Littlefield scouting reports.

The Mustangs have an exceptionally fine full back in 180-pound Ronnie Cox. Cox is a potent runner and has a powerful disposition for gaining.

Sweetwater's mascot, a Shetland pony, will be on hand to lead the Mustangs onto the field at Mustang Bowl. Sweetwater is a member of District 3-AAA. The Mustangs won last year's contest, 30-26.

### Miss Jeffries Is Crowned Queen Of Homecoming

MISS PHYLLIS JEFFRIES

Phyllis Jeffries, daughter of Mr. and Mrs. Bill Jeffries, was crowned University Queen at Hardin-Simmons University in Abilene Friday night as the homecoming program opened.

Miss Jeffries was named University Queen over four other West Texas girls in the finals of the contest. They were Sue Garrett of Coahoma, Sharon Tucker of Lubbock, Barbara Brown of Fort Worth.

Phyllis, a senior elementary education major, is sponsor of the ROTC Band Company at H-SU this year and was the ROTC Rifle Team sponsor last year. She is a member of the student council, Student Education Assn., The Cowgirls, greater council of the Baptist Student Union, the Life Service Band and the Young Women's Auxiliary. She has served on her dormitory council.

Dr. Evan Allard Reiff, H-SU president, placed the crown on her head before an applauding crowd in Rose Field House to climax the All-University Talent Show, first event of the homecoming schedule.

The queen was escorted by Gerald Norman. Saturday night she was presented at halftime of the Hardin-Simmons-Texas Western football game in the Abilene Public School Stadium. An honor escort was provided by the ROTC Pershing Rifles.

### Forum Members Attend Japanese Show At Lubbock

The Forum chose for their program on "entertainment from across the world" to attend the all-girl Japanese show which was presented at the Lubbock Auditorium Sunday afternoon.

The Takarazuka Dance Theatre from Japan presented a two and one-half hour show that combined dancing, singing and comedy in a superbly costumed extravaganza. The company of 75 included 55 girls chosen for this cross-country tour from all of Japan and trained for more than two years for their roles in this colorful presentation. The show was a "natural" for children and adults alike, and made its only West Texas stop in the auditorium. There were only three other Texas cities on the tour which was brought to Lubbock from the Metropolitan Opera House in New York City.

These Takarazuka dancers were seen in the movie, "Sayonara". Members of the Forum attending the program were Mrs. Jim Baxter, Mrs. Lula Dickenson, Miss Joyce Holden, Miss Clara Jarmon, Mrs. Robert Richey, Mrs. Raymond Schellin, Mrs. W. D. Smith and Mrs. A. D. Ward. Mrs. Edward Betts and Mrs. John Driskill were unable to attend.

### Spanish Supper Planned For Sunday

A Spanish Supper will be held Sunday afternoon from 5 to 9 p.m. at the Community Center.

The supper will be sponsored by the Guadalupe Ana Altar Society of the Sacred Heart Catholic Church.

Everyone is invited.

After Dry Winds

Cotton Harvest Back In Action

Winds brought in dry air and were welcomed in cotton circles around Lamb County Wednesday morning.

After a damp spell that started Thursday of last week and lasted through Monday night, the winds were rapidly drying out fields and letting strippers return to the harvest.

By Wednesday afternoon, strippers were starting in most areas around the county.

No damage was reported from the wind, except for a few strings hanging from cotton bolls.

At Bainer, ginners V. G. Eagan reports that he had ginned cotton gathered Tuesday, and it was ginning very satisfactory.

John Burks of Lums Chapel south of Littlefield reported that the area got a slight sprinkle Monday.

BUILDING PERMITS TOP MILLION MARK

Only three building permits were issued in Littlefield in October, but they sent the total for the year soaring over the million-dollar mark.

Permits totaling \$3,850 were issued to:

Dillon Lumber Co., office on West Delano, \$850.

Willson - Crump Lumber Co., dwelling for Methodist Parsonage, in Crescent Park, \$15,000.

Dillon Lumber Co., dwelling on 17th Street, \$18,000.

That brought the total for the year to \$1,005,885, compared to \$477,125 at this time last year.

Littlefield Man Found Guilty At Lubbock

A 33-year-old Littlefield man was found guilty in Lubbock County Court-At-Law No. 1 in a traffic violation case that had been appealed from justice court.

Donald Ray Hull was assessed a fine of \$25 and costs in the case. In justice court, he had been assessed a \$75 fine on a charge of driving on the wrong side of the road, leading to a collision.

McGinnis Rites Held Tuesday At Lubbock

Funeral services for Mrs. Elodie McGinnis, 67, mother of Mrs. Jack Wright of Littlefield, were held Tuesday at 2 p.m. in the Arnett-Benson Baptist Church.

The Rev. Billy Barber, pastor, officiated.

Burial was in the City of Lubbock Cemetery under direction of McDonald Funeral Home.

Mrs. McGinnis died about 2:30 p.m. Sunday in the Methodist Hospital after a week's illness.

Survivors include the husband, R. E.; two daughters, Mrs. Jack Wright and Mrs. Dorothy Walker, Lubbock; a son, C. D., Lubbock; a sister, Mrs. Mattie Morgan, Sulphur Springs; three brothers, Ed Byrd and John Byrd, both of Sulphur Springs; and Ben Byrd, Vernon; and 11 grandchildren.

Collection

(Continued From Page One) written poll tax receipts for 887 voters to date. Comparative figures from past years by month are not available, but Dunn says that this is good poll tax paying.

In addition to the poll taxes paid in the county tax office, are the sub-stations at which poll taxes may be paid.

The sub-stations are the city clerks' offices in Olton, Springlake, Earth, Amherst and Sudan. Number of poll taxes paid at these stations has not been reported to the county office.

All persons that come into Dunn's office are reminded that they can pay their poll tax now.

Most everybody is paying, Dunn says. They aren't offering the excuse there won't be anything to vote on next year, Dunn adds.

TOWN AND COUNTRY BY WENDELL TOOLEY

Material "things" are about the most important assets to most people, but when the chips are down there's nothing so great and wanted as good health.

Persons who have good health take it for granted. . . many times they do not take care of it and only too soon find they have lost something that is hard to recover.

When one of the children develops 104 fever. . . and aspirin won't bring it down. . . when there's an unexpected serious injury we begin to think about doctors and hospitals.

It's a very secure and wonderful feeling to know that there's a hospital near and open 24 hours a day.

Littlefield is blessed with many outstanding doctors and two very modern hospitals. Good health is taken for granted, good hospitals are taken for granted.

We read in the Tulia paper last week that the board of directors had voted to close the one and only hospital in this town of around 6,000 people. The reason. . . no money! Editor of the Tulia Herald Baggerly immediately came out with a much needed editorial. He explained that when the county wanted new and better roads they voted money. . . when they wanted schools and other public needs they appropriated the money. . . likewise hospitals were important. . . so it wasn't a time to lie down and quit. . . Tulia must have a hospital. . . the money could be raised.

There's a good article in this month's Reader's Digest. It explains very vividly and plainly why hospitals charge a lot of money for their services. It all boils down to this, hospitals can't stay in operation and depend on everyone to pay equal amounts. The people who can afford it have to help pay for those who can't afford it. . . the many welfare cases that hospitals absorb. Our hospitals must serve human suffering, whether the person be rich or poor.

So that's something to keep in mind the next time you complain about a high hospital bill. . . remember you've helped someone less fortunate than you gain access to hospital care.

Then again, compare hospital room costs to hotel and motel costs. . . consider the food. . . consider the personalized service. . . consider the high cost of scientific equipment and it all begins to balance out.

Hospitals and doctors have a tremendous responsibility. They are concerned with human life. It isn't a way of business, it is to most a calling in life. True, doctors make a lot of money, yet night after night they are on call. . . always obligated to help when needed. Their wives and families can't plan an evening's entertainment out without knowing that it will be interrupted by a tele-

SP4 Stewart Receives Letters Praising Work

SP4 Jimmy A. Stewart, son of the Leonard Stewarts of Littlefield, has received two letters of commendation for outstanding performance in his signal battalion.

The letters, both from his superior officers, included the following statements:

"I have worked with you through only two field problems and in this short period of time I have admired the drive and determination you have demonstrated in your performance of duty. It is because of your outstanding work that I am writing this letter.

"Your leadership ability, your technical knowledge and your desire to communicate makes you an outstanding soldier and in my opinion, you are ready and deserving to be promoted to the grade of Sergeant E-5."

Commissioners

(Continued From Page One) ed a four-year term, ending in 1962.

He died in office Oct. 22 after a heart attack. He was 57.

Goodwin, who had been an employe of Lamb County since 1942, had taken the oath of office as precinct 2 commissioner in January of this year.

Mrs. Goodwin, 55, a resident of Earth since 1928, says she'll continue to do her own housework while she handles the full-time duties of being a commissioner.

Do problems like when to patch this road and when to rebuild that one scare her? "No, she says, emphatically. "I don't know a whole lot about roads, but I have a foreman who does."

As to other duties of a commissioner, Mrs. Goodwin feels she'll be able to handle them in the manner expected by the voters of the precinct.

During the years her husband was a county employe and the 9 1/2 months he was a commissioner, Mrs. Goodwin said she and her husband frequently talked over the problems he encountered.

"I was with him a lot when he went around the precinct, and I campaigned with him just before he was elected to office," says Mrs. Goodwin.

Mrs. Goodwin has two sons, C. C. of Earth and Loyd Ray of Fort Worth. C. C. was with her Tuesday when she took the oath of office.

She received congratulations from each of the other three commissioners—Don Bryant of Olton, Bill Jeffries of Littlefield and Hubert Dykes of Sudan—and from the county judge.

Mrs. Goodwin is a member of the Earth Methodist Church. She formerly was a member of Eastern Star, but she decided to quit after her husband suffered his first heart attack.

Qualifying of Mrs. Goodwin for her new post was the only action taken by the court Tuesday.

Commissioners met in regular session last Saturday and voted to purchase seven bonds totaling \$7,028.17 in interest and sinking funds from Ira Haupt and Co., Dallas, in an interest-saving move.

In other action, the court voted to pay a full month's salary for October for the late Commissioner Goodwin's duties prior to his death on Oct. 22.

THESE ARE SOME OF THE NUTS, BOLTS AND SCREWS THAT WERE NOT PUT INTO THE BODY AND FRAME OF THE 1960 PLYMOUTH.

They can't loosen and rattle because they're not there. Instead, Chrysler engineers now bring you Dura-Quiet Unibody: a body and frame that's a single unit welded around 5400 times for super strength. You will feel and hear the difference the first mile you drive the Solid Plymouth for 1960.

Expect a pleasant new experience when you first try the '60 Plymouth. What happened to the "car sounds" you used to think were normal? They're gone, in the new Solid Plymouth. They were built out of it from the start. And they won't appear later to haunt you, because this car is built to stay quiet for a long, long time.

Quiet durability is only one of the advantages of solid Unibody construction. You'll notice unusual new comfort as well, and new handling ease. We think this is the best built, best performing car in the low-price class. Try it and see what you think.

It's a good way to tell area folks that their business is appreciated in Littlefield. Well, Let's smile a little: On the beach a genial fat man watched a group of shapely young ladies in scanty swim suits as they went through their morning setting-up exercises. "Do you think this sort of thing is really good for reducing?" a sour - visaged acquaintance demanded. "Unquestionably," beamed the fat man. "Why I walk three miles every day to watch it." The judge eating lunch at a downtown club, ordered milk. His companion showing his worldliness, taunted, "Why, Judge, milk's a child's drink. Didn't you ever try gin and tonic?" "No," answered the judge, "but I've tried a lot of fellows who had." A man came out to install the hillbilly's new TV set. "Now this," he said, pointing to the antenna, "will have to go on the roof." "It's like I always said, Zeke," said the lady of the house to her husband. "One thing leads to another. Now we have to put a roof on the house."

# Dumas Win Over Hawks Livens 1-AAA Picture

Dumas, after 20 years of failure against Phillips concocted the formula it needed to beat the Blackhawks, 24-22 in a rough-and-tumble Halloween game Saturday night.

The Dumas victory kept the Demons in the thick of things in District 1-AAA and put perennial toughie Phillips out of the running, for the moment anyway.

Littlefield stayed on the unbeaten, untied path with a lackluster victory over Hereford, 14-6. Levelland was idle.

Last week's results pointed to some fearsome action this weekend when Levelland must meet the angry Blackhawks at Phillips, 1-AAA.

Dumas, which may have a time staying up after last week's tremendous victory over Phillips, hosts Hereford.

Hereford, although it hasn't won a ball game this year, gets a break because it plays Dumas after the Demon-Hawk game. The Whitefaces were faced with the same situation when they played Littlefield, and the Wildcats barely managed to pull through.

Littlefield takes a week off from conference play to travel to Sweetwater, where the Mustangs should be boiling mad after their loss to Snyder last week knocked them out of the running in District 3-AAA.

Above is the car driven by Mary Morton, 14, of Anton, and below is the auto driven by Lelan Tatham, 19, of Levelland. The autos collided at the intersection of Highway 84 and Farm Road 597 near Anton. (STAFF PHOTOS)

# Amherst - Whitharral Game Tops Area Action

The District 3-B leading Amherst Bulldogs travel to Whitharral Friday night in a crucial game. The Bulldogs are the only undefeated team in district competition and a victory over the Panthers would clinch a tie for district honors.

Whitharral must win this game in order to remain a conference threat.

Amherst nipped Ropesville, 14-12, last Friday while Meadow knocked off Whitharral, 20-16. Amherst can wear the district crown outright by defeating the Panthers and then Whiteface next week.

having identical won and loss records, 2-1.

The Mustangs can clinch at least a tie with a win, but will hang up their football gear if they lose since this is their last regularly scheduled game.

Lockney upset Olton last week, 8-6, with Morton winning over Muleshoe, 34-14. Abernathy has lost to Morton, but won over Lockney. Olton has defeated Morton and Muleshoe.

contest will not have any bearing on the district title, as both teams have been eliminated from title contention.

**SUDAN VS. FARWELL**

The District 3-A leaders, Sudan travel to Farwell tomorrow night in a game in which the Hornets can clinch a tie for the district crown with a win.

Sudan's Hornets pulled a "trick or treat" win over the Kress Kangaroos last week, 8 to 0, while Farwell was enjoying an open date. Should the Steers win, the district race could wind up in a three-way tie.

**ANTON VS. KRESS**

Anton entertains the Kress Kangaroos tomorrow night in a District 3-A game which both teams need to win in order to remain in the district race. Springlake turned the tables on Anton, 40-14, last week while Kress was defeated by Sudan, 8 to 0.

**SPADE VS. THREE WAY**

Spade's winless Longhorns play their last pigskin game this season Friday at Three Way. The

**BULA VS. NAZARETH**

Bula's Bulldogs travel to Hart Saturday night to meet Nazareth in a game that could decide the District 5-B six-man champions.

Nazareth defeated Bula in an earlier game and the Swifts are favored to win again. Bula knows that it must have this one to remain a contender, so it could go either way.

Retire his old stem-winder now...

Get him the watch he'll never have to wind

**Mido Powerwind**

The modern man needs a watch designed to keep pace with modern living. Self-winding, worry-free...in a word, a Mido. Fully waterproof\* (you can actually swim or shower with it), protected against shocks, accidental falls; mainspring can't break. And styled in classic good taste. What man could ask for a finer gift? Put his old watch in a museum case and surprise him with a fine self-winding Mido from our large selection.

\*As long as case, crystal and crown remain intact.

**B-Team, Frosh Games Slated**

Littlefield's 9th Graders will journey to Morton for a grid game today, while the Wildcat B-team is playing host to Olton B at Wildcat Stadium.

Both games will start at 6 p.m. The 7th and 8th grade teams have an open date.

The nation's public debt in 1958 averaged \$1,587 per person.

## Patrons Hear Report On Study Of School Needs

Members of Littlefield's school study committee explained their tentative findings in a panel discussion before 150 school patrons here Monday night.

The committee members were challenged on several points in a question - answer period, and one patron suggested that another general meeting be held after all final recommendations have been made to the school board.

The session was sponsored by the Primary - Elementary P-T-A. Persons attending were urged to make personal contact with members of the school board and express their opinions in regard to school needs.

In other activity, patrons were urged to write to Governor Daniel if they see a need for a special session of the Legislature to consider pay raises for teachers, as recommended by the Hale - Aik in Bill.

The governor has said that unless individuals write and ask for the session, he will not call one. Letters should be addressed to the Honorable Price Daniel, Governor of Texas, Austin, Texas.

The Nebraska State Legislature has only one house. Its members are classed as senators for every 10 former members.

Vista In Surgery

Book, the heroes of the day are those anonymous men in California who succeeded in putting the leg of a young foundry worker after it was sewed off by a crane.

A company doctor applied a tourniquet to the leg of the worker to Eden Hospital in Castroville. The lower leg was attached by a two inch wide flap of skin. An orthopedic surgeon looked at the vicariously, he says, on the "spur of the moment" to save the leg. He called a vascular surgeon to help. The operation, which involved the leg by two inches to compensate for the loss, was begun three-and-a-half hours after

three month later, and the doctors have the story to be told. They are sure now the man will walk again, although he must still have skin grafts and an operation to link up the lower leg. His leg won't be as good as new, but the doctors, he'll be better off than with "anybody in a store."

have been cut off and successfully stuck in. So have ears, and we once heard of a tip of a sliced-off nose was restored, but medical authorities, there is no previous record of sewing a completely severed ear on again.

think, is progress. We would be far more likely to have ever so slight a hand in this victory over the controlled lunik camera that they are back of the moon.

Vs. Brats

Small boy's repugnance to soap and water and inability to reach way back to his ears, even when he is accepted as completely normal. Not even, however, is the fact that there is an age when the gentler sex is more scatterbrained than the boys, direct action can be taken without hurt feelings. Tell a male youngster he's a dirty rascal and he will be amused if not downright flattered. Every parent and every teacher knows girls should be handled that way. Just how to arouse a girl's daintiness is a largely unresolved headache for those charged with the upbringing and education of the female of the species. The somewhat cow-like behavior has been largely that of letting time

educators have now realized that the slovenly Achilles heel, too. The same young lady who goes to school without cleaning her nails, and who wears clothes till they drop off, would rather have human companionship and hide in the garret than be different!

on this principle, school executives and physical education teachers are improving hygiene and health by incorporating the youth fitness program. Despite the lectures on personal hygiene, the gym suit got stuffed back in the locker week after week. Now equipped with two suits of different colors, the class wears the red one this week the blue one next week (or whatever the color choices may be). Sensitive young ladies would rather be caught in the wrong colored attire! A gym suit goes home for washing each week, and the atmosphere of learning at such alert schools is a break for Father, too, since the suits last twice as long under this system. We may be extending the lives of gym teachers.

He went on to say that the feeling of most Americans that the Cuba is such that this country should regard it as a friend. President Eisenhower referred to the freeing Cuba from the Spanish yoke in the further intervention in 1906 to save the country from its weak government and our administration of the country under the until 1909 when the republic was reestablished.

President said that he had gone over with the State Department's report on the report by US Ambassador Philip W. Bonsal that Castro charges that this country had permitted to take off from his country and "bomb" the population of Havana.

to a later question the President said that the every single facility that is available to the Government and ... the cooperation of the Government to prevent illegal flights over Cuba.

the puzzlement of Americans at large is not the alleged "bombing" incidents that Castro has and his threats of seizing American territory and throwing the US Navy out of the Gulf of Mexico. It has occurred since the Spanish American war why our Government allowed Castro to get his bristles—and why we still don't seem to pick up his expense account.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

By VERN SANFORD, Texas Press Association. AUSTIN, Tex. — Should all public school teachers receive "better" teachers? (2) How do a raise, or should higher pay be a reward for being a better teacher? This is one of the questions being debated as teachers flood Gov. Price Daniels' office with letters asking for a special session of the Legislature next year to hike their salaries.

Other points of controversy: (1) How would you decide which are "better" teachers? (2) How do teachers' salaries compare with those of other college graduates? Texas State Teachers Association is asking for a \$405 per year boost in the present \$3,204 minimum annual salary.

giving teachers examinations to determine which should receive raises on the basis of merit. A bachelor's degree, Byram noted, is not a mark of "exceptional learning" in these days.

Choice, in Byram's view, is either better pay for the more competent teachers or a uniform scale pegged at a lower level.

Byram declared that teachers' salaries in the larger Texas cities which pay more than the state-wide minimum already compare well with those of other professions. He said a beginning teacher in Houston gets \$444 a month, while a new geologist or petroleum engineer may start from \$375 to \$425 with the necessity of living "where the job is."

placement official challenged Byram's figures. Joe L. Bruns contended the Houston school pay is tops, not typical, for the state, and reminded that teacher pay is for only nine months a year.

On a 12-month basis, said Bruns, most Texas teachers average \$267 a month. He said UT's engineering graduates last year started at an average of \$490 per month.

In Austin, he said, the average starting teacher has about \$220 a month take-home pay — not enough "to lure an able young man — particularly a married man."

SENATE COMMITTEES — Lt. Gov. Ben Ramsey has passed out between sessions study jobs to 23 of the Senate's 31 members.

Key posts went to members who have made up the Senate's conservative leadership for a decade or more. Omitted from committees were Sens. Henry B. Gonzalez of San Antonio and Andy Rogers of Childress, both regarded as liberals.

Named by Ramsey to the panels which will do advance research affecting 1961 legislation are:

LEGISLATIVE BUDGET Board: Sens. William S. Fly of Victoria, Wardlow Len of Center, Crawford C. Martin of Hillsboro and Dorsey B. Hardeman of San Angelo.

TEXAS LEGISLATIVE COUNCIL: Sens. George Moffett of Chillicothe, Preston Smith of Lub-

bock, Neveille Colson of Navasota, Bruce Reagan of Corpus Christi and Abraham Kazen of Laredo.

COMMISSION TO STUDY STATE AND LOCAL TAX POLICY: Sens. Fly, George Parkhouse of Dallas and Jimmy Phillips of Angleton.

However, Phillips has announced his resignation from the Senate, effective Nov. 2. He will join the legal department of Dow Chemical Company in Freeport.

COMMITTEE TO STUDY COST OF GOVERNMENT: Sens. Floyd Bradshaw of Weatherford, David Ratliff of Stamford, Ray Roberts of McKinney, Louis Crump of San Saba and Culp Kreuger of El Campo.

COMMITTEE TO STUDY PROBLEMS OF THE AGED: Sens. Crawford Martin of Hillsboro, Grady Hazlewood of Amarillo, Jess Fuller of Port Arthur, Doyle Willis of Fort Worth and Ratliff.

EDUCATION STANDARDS COMMISSION: Sens. Fly, Bradshaw and Roberts.

COMMISSION ON CITY AND COUNTY GOVERNMENTS: Sens. Robert Byker of Houston, Frank Owen III of El Paso and Crump.

COMMISSION FOR STATE HEALTH AND WELFARE SERVICES: Sens. Bill Wood of Tyler, Owen and Colson.

COMMITTEE TO STUDY STATE FISCAL SYSTEM: Sens. A. M. Aikin Jr. of Paris, R. A. Weiner of Seguin, Lane, Hardeman and Reagan.

COMMITTEE TO INVESTIGATE INVESTMENT PRACTICES FOR STATE FUNDS: Sens. Martin Dies Jr. of Lufkin, Charles F. Herring of Austin, Hubert Hudson of Brownsville, Lane and Crump.

COMMITTEE TO STUDY EFFECTS OF RADIATION: Sens. Kreuger, Reagan and Wood.

Sandhills Philosopher

He'd Like To See Actress Learn The Cattle Business

Editor's note: The Sandhills Philosopher on his Johnson grass farm thinks he has a new idea this week, but we doubt if it'll work.

Dear editor: Brand new ideas are pretty scarce, so when one comes along I go out of my way to recognize it and hold it up to public gaze. I have now found one and would like to enlist your help in getting it spread around in the right places.

According to an article I read in a newspaper last night, a prominent movie actress a while back bought 500 cows, and then when a bunch of them started dying and having other trouble she turned

the defendant to take property from the site.

In one case the defendant confessed that he cut a hole in the ceiling of an office and stole a safe. However, in the appeals court opinion, it must be proven against the wishes of the property owner.

STOP FOR SCHOOL BUS — Texas motorists are being urged to observe the law to the letter when they encounter a school bus on the streets or highways.

Ten children have been killed and 86 injured in school bus accidents since Sept. 1, the Department of Public Safety reports.

Texas law required that a car must come to a full stop when approaching from either direction a school bus that is taking on or letting off passengers. After a complete stop, the motorist may pass the bus at not more than 10 miles per hour.

Penalties for violation range up to a \$200 fine. "But the real penalty," said Highway Patrol Captain E. K. Browning Jr., "is the possibility of killing or hurting a child."

The government is arguing this is not a legitimate claim, and I would like to see everybody rise up and protest that it is. If we can get the government to recognize it's perfectly legitimate to claim tax deductions for the costs of learning how to raise cattle efficiently, the door will be opened wide for tax relief regardless of how high the tax rate goes. Congress can take the debt ceiling off completely and not bother me.

For example, take my farm out here. If I can claim some deductions for inefficiency, I believe I could manage to get off scott free for years to come. Farming is something it takes years to learn how to do efficiently, and the cost of learning it ought to be deductible.

And also, in case something slips up and I do have a good farming year with a taxable profit, that'll be the year I take up movie acting, with the cost of learning to be taken off my income tax. I figure my deductions for learning how to become an efficient movie actor will last for years, because it looks like a profession that's hard to learn. At least, I know some movie stars who've been at it for years and haven't succeeded.

Furthermore, this opens up all sorts of possibilities for you town people. The cost of learning how

to become an efficient drygoods merchant ought to be deductible. The same applies to grocers, bank clerks, filling station men, plumbers, electricians, television repairmen, why even school teachers, and it's possible there may be one or two newspapers editors scattered around the country who could get in on this.

Yours faithfully, J. A.

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE WHO OWN CHEVROLETS

The first and the latest—the 1912 and the 1960 Chevrolet. The progress represented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automotive world. We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people. We know that we can hold your preference and your loyalty only by continuing to offer more of the things you want, by meeting our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them.

To Build the Kind of Products You Want and Need. Our first responsibility, we think, is clear: To design and build products that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960: Made the 1960 Chevrolet more economical, roomier, more quiet and comfortable, easier to handle and maneuver. Introduced the compact and revolutionary Corvair, the result of nine years' development. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done. Each of these products is the best of its kind we have ever made. Each, we believe, reflects your wishes, your desires and your needs to an exceptional degree.

To Build Them the Way You Want Them Built. But it isn't enough to design and build the kinds of products you want. They must be built right. Solidly. Carefully. Built to serve you long and faithfully. Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safeguarded by more of our engineering and manufacturing people, and by more checks and inspections and tests, than ever before. We are determined that your new Chevrolet shall reach you with everything looking and fitting and working the way it should look and fit and work. And we're determined that, if you give it any reasonable kind of care at all, your Chevrolet shall stay that way for a long, long time.

To Provide Better Care Through Your Chevrolet Dealer. Along with your Chevrolet dealer, we want you to have available the finest and most complete service facilities. That is why we: Conduct training schools for Chevrolet dealer mechanics. Study and recommend improved service equipment and techniques. Maintain the industry's most complete parts warehouse system to provide your Chevrolet dealer with the parts you need in the quickest possible time. And that is why we have, together with your Chevrolet dealer, initiated a comprehensive new program designed to make available even finer service at any time you want it.

A New Department—Your Department. Finally, neither Chevrolet nor your Chevrolet dealer has any intention of forgetting you after you buy. Our interest in you and your satisfaction continues as long as you own one of our products. To help keep you happy with your Chevrolet, we have established a department new to us, and so far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family... and to welcome a growing number of new members.

# U. S. Rejected Texas Bid For Annexation In 1837

(Editor's Note: This is the fourth in a series of articles outlining the numerous boundary conflicts dating back to 1716, pointing up little known facts which shaped the Texas of today.)

The Republic of Texas wanted annexation in 1837 but was rejected by Congress.

Sam Houston withdrew the offer and dreamed of a new republic stretching westward from Texas to the Pacific including the northern tier of Mexican states, plus present day New Mexico, Arizona, and California.

Attorney General Will Wilson, a great admirer of Houston, pointed out the jealousy of the United States.

"Houston stoked the fire under the pot of jealousy by ignoring the United States and dicker with France and England, both known to want Texas independent."

"Houston's vision of a large competitive nation between the U.S. and Mexico caused Washington to run a fever."

Annexation followed, resulting in the 1848 War with Mexico in which the Western one third of the present United States was acquired. During this war, Gen. Stephen W. Kearny led U.S. troops overland from Dodge City, Kansas, to capture Santa Fe and remain in possession.

Senator Benton in Congress immediately put the Santa Fe territory into a boiling caldron of debate over slavery by demanding that possession of Santa Fe not be delivered to Texas because Texas was a slave state.

A full dress rehearsal of the coming tragedy of civil war began.

Texas sent Spruce M. Baird as county judge to take possession of Santa Fe, but Colonel John M. Washington kicked him out. Texas also sent Robert S. Neighbors as county judge of El Paso.

Since there were no federal troops in El Paso Judge Neighbors successfully established a

beachhead and took possession for Texas.

Governor Bell of Texas called a special session of the legislature to organize 3,000 mounted volunteers to capture Santa Fe from the federal troops. The legislature gave Bell an out by providing that the troops be used only if the United States refused to buy the disputed territory.

This brought on another bitter division and debate in our national congress, compromised by fixing the present boundary between Texas and New Mexico and paying Texas ten million dollars for surrendered territory. Texas kept El Paso because she had possession, but Texas lost most of what is now New Mexico.

Historian Will Wilson says Texas got short changed again.

Texas had money in the treasury but her northern and western boundary had been pushed down more than 100,000 square miles. "The United States bought that real estate for 15 cents an acre!"

## Tech-Arizona Game Saturday

LUBBOCK - Texas Tech meets University of Arizona in Tucson Saturday night in the eighth game of the season.

Following the game with the Wildcats, only Border Conference team on the Red Raider schedule this fall, Texas Tech will play University of Houston here Nov. 14 and University of Arkansas in Little Rock Nov. 21.

Texas Tech is now 3-4 for the season. Last week the Red Raiders dropped a 17-7 decision to Tulane. Texas Tech's freshmen sent their record to 2-1 by defeating the University of Arkansas 26-6 Saturday night.

Although the Houston game is of Homecoming, Jimmie Wilson, bus manager of athletics, still has reserved tickets for sale.

### Which of these Babies is J. D.?

This is the nursery of a large metropolitan hospital. Six times a day these precious bundles visit their happy mamas. And every night their proud papas gape at them through the glass. Nurses watch over them constantly. Doctors examine them daily.

But the statistics in the files of the police department cast a black shadow over this innocent scene. For one of these babies is J.D.

J.D. is short for a juvenile delinquent. And from police records and census figures we can estimate the proportion of new-born infants who will become juvenile delinquents in ten to twenty years. The one factor that threatens the accuracy of our calculations is that juvenile delinquency is increasing.

There are just two ways to deal with the problem. One is to enlarge our jails. The other is to give every child's spiritual well-being the same thorough attention that this hospital gives his physical well-being.

Is yours a church-going family? Is yours a religious home?

#### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

every \$1 sends a Food Crusade package

So many like him are hungry . . .

A bowl of rice, a lunch of bread and milk, are a feast to millions of children. More than half the people in the world do not have enough to eat.

We have such plenty to share . . .

From our farm abundance the U.S. Government gives CARE milk powder, flour, corn meal. Then, to help even more, CARE buys other foods to match the various needs of hungry people in other lands.

You can be their friend . . .

Every \$1 you give provides one food package based on country conditions. Your packages reach needy families, schools, welfare institutions — delivered with your name and address, to bring a message of friendship from you and our country. Join CARE's Food Crusade!

**Get ready for the Freezin' Season!**

To get your car ready for winter, Phillips 66 Dealers offer guaranteed anti-freeze service. It works like this:

Tell your Phillips 66 Dealer the degree of protection you want (even down to 50 below) and he'll put in the proper amount of Phillips 66 Anti-Freeze—permanent type. Then if at any time this winter you need more anti-freeze to maintain this level of protection, your Phillips 66 Dealer will add it with no additional charge.

Sounds like a fair proposition, doesn't it? Come to your Phillips 66 Dealer for guaranteed anti-freeze service.

# Fieldton Facts

The home of Rev. and Mrs. G. W. Fine was the scene for a Hal-loween party for the young people of the Baptist Church. The theme, tacky party, was used. A prize was given for the tackiest costume.

Games of ghosts and goblins were enjoyed by the guests. Refreshments of punch, cookies, candy and pop corn were served to 32 guests.

A party and shower was given Sunday night, after the evening church services for Rev. G. W. Fine and his family.

for peace of mind...

Our aim is to always provide funeral services that are beautiful and reverent - truly the perfect tribute. Anytime, day or night, our experienced staff is at your call, to help in your hour of need.

## IT'S THE LAW in Texas

Many persons feel that the "whereases", "aforesaid", and other legal verbiage used by lawyers are intended only to confound and confuse the layman.

Nothing could be further from the truth. In drafting legal documents, the lawyer attempts to draft them in such a way as to exclude all ambiguities. In the last analysis, a legal document

million in loans to REA and other cooperatives, which farmers repay in full, with interest. Another \$650 million goes for such things as research to improve food quality, for meat inspection and like programs of primary benefit to consumers.

Half a billion a year is invested in preserving our soil, water and timber resources in order to assure a plentiful supply of food for future generations. The charge that farmers are "getting something for nothing" from the government is completely false.

Until city people understand that, as farmers already do, Washington is going to have difficulty in making needed changes in present farm laws.

It means, too, that there will be heavy pressure of Congress next year to do something about (1) growing surpluses and rising farm program costs, and (2) farm income depressed to the point where it endangers national prosperity.

Despite farm income officially estimated by USDA at 12 per cent below last year, farmers are spending almost half a billion dollars more in farm operating expenses. They are caught in a tightening cost-price squeeze.

City Workers Hit  
When farmers' income is reduced by a billion dollars and they must spend half a billion more for the things they buy it means they must either cut down on family living expenses or go deeper into debt.

Many are doing both. When they reduce their buying of such "luxuries" as automobiles, refrigerators, clothing, etc., it means fewer jobs for factory workers. And, when factory workers lose their jobs they must cut down on purchases of the things farmers produce. Also, they buy fewer things that other factory workers produce.

That is why many people who take the trouble to look at both sides of the "farm problem," realize that when farmers are hurt many city people also suffer. What city workers gain in cheap food they more than lose in the loss of farm customers for what they produce for sale to farmers.

For every farmer on the land there are three people in towns and cities who make a living processing and marketing farm products or in manufacturing trucks, tractors, automobiles, clothing, etc., that farmers buy.

Smear Campaign  
All of us hear and read about the \$7 billion a year "farm program" costs and some assume that this is money paid to farmers as a subsidy. The facts completely disprove the charges that the government is "keeping farmers in clover and Cadillacs."

Of that amount almost \$2 billion a year goes to finance foreign aid programs. More than \$600 million in spent for food for free distribution to schools, charitable institutions and others in this country.

It includes, too, more than \$500 million in loans to REA and other cooperatives, which farmers repay in full, with interest.

Another \$650 million goes for such things as research to improve food quality, for meat inspection and like programs of primary benefit to consumers.

## LIPSTICK LOGIC

Toronto school officials who ruled a young man "too fat to teach" may never hear the last of it. The argument that "fat teachers don't make good teachers" is one of those slips in logic that are usually attributed to women. Indeed, the very same newspaper in which we read this story carried a true-to-human nature cartoon of two plump, be-hatted women saying of a politician: "Even if he is baldheaded, I agree with what he says about taxes!"

The truth is most of us—both men and women—act as often on prejudices as on scientific thinking. This is especially true when we come to judging public figures. We say of an actress, "I'll never like her acting because of the way she treats her children!" Or we lose sight of the great genius of a pianist in our disap-
