installed for downtown parking in Littlefield went into effect the first of this week. Here J. C. Bryce, chairman of the safety committee of the Jaycees is seen paying his ticket at one of the self-service boxes installed in each downtown block. The ticket like the one shown here is being left for overparking violations. It is an envelope which the receiver of the ticket deposits with his quarter in one of the yellow receipt boxes. This saves a trip to city hall, and is expected to increase overparking fine collections. (Staff Photo)

Sudan's Festival Gets Top Praise In New Book About United Nations

The City of Sudan is grouped with a couple of very large cities in a new book about the United Nations, Sudan, Los Angeles and Dayton were picked by Robert H. Cory Jr of Ohio University as examples of cities which are communi- cating ideas about the UN.

He says, "Sudan represents the most successful case on record of citizen participation in the cause of the United Nations. Out of the population of 1400 an estimated 1000 citizens took active part in the preparations and staging of the 1953 Fall Festival."

The book is entitled "Communicating Information and Ideas about the United Nations to the American People." Professor Cory wrote it under the auspices of the Carnegie Endowment for International Peace.

Cory points out that the Sudan Festival is tempered with patriotism and religion. He adds, themes of political conflict have been disregarded or laid aside. The essence of the emotional mood of Sudan at Festival time has been a desire for a peaceful world to be brought about not by government but by Peoples speaking to peoples."

Cory also notices that the congressman from this district has supported the annual festival and wonders if this might influence him to a more kindly attitude toward the UN than he might otherwise have.

He ends his discussion of the festival by saying "We can assume, however, that those delegates to the United Nations and those members of the United Nations Secretariat who are sensitive to American opinion have been cheered by the evidence that those who vociferously repudiate the United Nations are not representative of all Texans."

The author notes that films of the festival have been shown at UN headquarters and summaries broadcast over the Voice of America. In addition, Joe Salem, who has exerted much of the leadership which has made the festival so outstanding, has spoken at UN commission meetings.

The U. S. Committee for United Nations Day is quoted as reporting Sudan's festival as "the most outstanding program, considering the size of your community, throughout the whole country."

County Farmers To Enter Corn In State Contests

Five Lamb county farmers have entered corn production records in state competition for correlation, and have already set new county records for corn production, county agent Dave Eaton announced this week.

Royce Turner of Pleasant Valley has 1.6 acres planted in 17 W variety corn, which yielded 274.31 bushels with a moisture content of 18.88 per cent. His corn was planted May 6 in 40 inch rows with spacing of 7.2 inches. The land was in corn and cotton last year, and was broken out in January and listed and watered in April. It was watered again June 19 and every two weeks for a total of four waterings. Turner applied 300 pounds of 16-20-0 and 70 pounds of anhydrous ammonia at planting time, cultivated twice, and estimates his fertilizer cost at 9.08 cents per bushel.

Doyle Turner, his twin brother has 1.5 acres of 101-W which yielded 253.75 bushels with a moisture content of 17.86 per cent. This land was disced and levelled in February and eight tons of barnyard manure was added. At planting time, he put on 300 pounds of 16-20-0 and irrigated the plot five times. His fertilizer cost 6.9 cents per bushel.

Doyle Turner had two acres of TRF-3 corn which yielded 236.68 bushels per acre with a moisture content of 17.88 per cent. It was irrigated five times and cultivated twice. Fertilizer, consisting of 300 pounds of 16-20-0 and eight tons barnyard manure, cost 7.2 cents per bushel.

Allen Doyle Turner had a 1.5 acre patch of 17-W which yielded 231.5 bushels per acre with 18.68 per cent moisture content. 300 pounds of 16-20-0 and eight tons of barnyard manure were put on, making a total fertilizer cost of 6.9 cents per bushel.

Frank Wuerflein, whose father, George, grew the first 100 bushel corn in Lamb county, had 10 acres of Funk G-11 which yielded 185.9 bushels per acre, with a moisture content of 25.35 per cent.

Frank's corn was planted May 6 in 40 inch rows with 11 inch spacing. The land was flat broke, harrowed and levelled. Per-watered on April 25, it was irrigated five times following a 5 1/2 inch rain May 9. 200 pounds of 16-20-0 was used as fertilizer per acre.

In fertilization tests made in the same community, a plot of 17-W was fertilized with 300 pounds of 16-20-0 and 60 pounds of anhydrous ammonia, and yielded 274.31 bushels, while a plot of the same variety, 17-W was fertilized with only 100 pounds of 16-20-0 and 60 pounds of anhydrous ammonia, and the yield was only 146.1 bushels.

The test plot of Texas 30 Hybrid was fertilized with 300 pounds of 17-20-0 and 60 pounds of anhy-drous ammonia, yielded 231.12 bushels while the same variety, fertilized with 200 pounds of 16-yielded 230 bushels.

Attendance this year will be drawn from a ten state area, including Texas, New Mexico, Oklahoma, Louisiana, Mississippi, Missouri, Arkansas, Kansas, Colorado, and Arizona.

Monday Frost Hurts Some, Helps Others

The heavy frost of Monday morning brought a mixed reaction from Lamb County farmers, with those south of the sandhills welcoming the freeze, and some of the farmers north of the sand considering the frost harmful.

Dave Eaton reports that a check of ginners in the county show farmers north of the sand consider the frost caused about 10 per cent damage to an estimated 30,000 acres of late planted irrigated cotton.

While south of the sandhills strip, farmers feel the frost this week, plus the frost of October 7, have done much to take off top leaves and cure out young bolls. The frost was pretty generally spotted south of the sand, and most farmers welcomed the white freeze.

The general opinion is that two fairly light frosts, a week or more apart, are better than one heavy killing frost that would end any hopes of hand harvesting cotton already open.

Band To Give Outstanding Half-Time Show

The Wildcat band will give an outstanding performance during the half-time at the Littlefield-Dimmitt game here Friday night.

Beryl Harris, band director, says the entire theme will be Halloween, and promises that it will be thrilling to the children as well as the grown-ups.

The activities of this band show have never been used here or elsewhere before.

Don Lee, who is attending the University of New Mexico in Albuquerque, visited his parents, Mr. and Mrs. J. H. Lee, the past weekend. The Lee's other son, James, who is in service in California is expected home in two weeks for a short leave.

Mrs. Joe Rone was program director and introduced Mrs. W. A. Beale, who gave a demonstration on corset making.

Refreshments of coffee, and cake were served by the hostess to Mesdames Ray Wood, Doyle Watkins, G. W. Masten, Cleo Whitmire, A. L. Robinson, Joe Rone, Roy Baccus, W. A. Beale, Tom Wood, A. E. Perkins, M. A. Walker, and J. E. Dryden.

Artists Visit Peter Hurd And Scenic Coe Ranch

Mrs. Hazel Wiseman, Mrs. Joe Foster and Mrs. John Dean were visitors last week in Roswell, Ruidoso and the Hondo Valley in New Mexico, when the highlight of the trip for the three women was a visit to the Peter Hurd Ranch near San Patricio.

Mr. Hurd, who is a noted artist showed the three his studio and art work that he is now engaged in doing. While at the ranch they also visited Mr. Hurd's 'sunken garden' where he raises tropical flowers.

The group visited the scenic Coes ranch which is near the Hurd ranch. While at Roswell, Mrs. Wiseman and Mrs. Foster entered some of their painting in the Circle show to be held there soon. They also visited Miss Maxine Wiseman, daughter of Mrs. Wiseman, and relatives of Mrs. Foster.

WSCS To Have District Meet In Levelland Fri.

The Women's Society of Christian Service of the Brownfield District will have their district meeting Friday, October 28 in the First Methodist church in Levelland.

The meeting will begin at 9:45 and the ladies of the host church will serve lunch. The semi-annual reports will be given.

Ladies from the Littlefield, Enochs, Bula, Spade, Anton, Amherst and Whitharral Methodist churches expect to attend, and all Methodist women are invited.

Bill Nelson Celebrates 6th Birthday

Billy Earl Nelson was honored on his sixth birthday with a football luncheon at the home of his parents, Mr. and Mrs. Ralph Nelson, 408 E. 13th St.

Wildcat colors of maroon and white were used in the decorations. The cake was designed in the form of a football field, with green coconut for the turf, and white icing for the yardage lines. The goal posts were made of plastic straws, with Littlefield on one

end and Dumas Demons on the other.

Three tall white candles made the flood lights, and in the center of the field was a ceramic football player. The place cards were footballs. Favors for the boys were miniature footballs, and for the girls, bracelets with footballs.

Ball game fare was served consisting of pop corn, hot dogs, cold drinks, and ice cream.

Guests attending were: Joe Horne, Joan Jordan, Linda Lance, Sandra Onstead, Varina Dee Ray, Brent Robinson, Bobby Williams, and Bill.

Red Cross records show that at least 100 lives a year are saved because of its training of people in first aid and water safety.

Miss Jones & Mr. Newton Wed In Anton, Sunday

Miss Kathryn Jones, daughter of Mr. and Mrs. Love of Shallowater, bride of Linnis Boyce of Anton, at 4 p.m., Sunday, in a ceremony at the Law Church of Christ.

The bride was escorted by Mr. Coffman, accompanied by Mr. Barron, Dorman Shockley, Gary Don Newton, and Herbert Nelson, Jr., ushers.

The reception was held in the home of the bride's parents. The table was laid with a white cut-work cloth and centered with an arrangement of blue and white mums with white streamers.

The bride is a graduate of Abernathy high school, and Abilene Christian College and received her M. A. degree from the University of Texas. She has been employed in Houston by Houston Christian Schools.

The bridegroom is a graduate of Anton high school and Texas Tech. He is engaged in farming and is a lieutenant (jg) in the U. S. Naval Reserve.

Among the people attending from Littlefield were the groom's brother, Flannery Newton, Mrs. Newton, Roger and Alan.

Formal Party Held For Jr. High Students

Five girls were hostesses at a formal party at the Community Center Saturday night.

Pink lemonade, cookies, pink and white mints were served from a table laid with a white cloth centered with a bouquet of pink flowers.

Hostesses were Charlotte Robinson, Sharon Erwin, Sandra Foust, Linda Cloninger, and Beth Foust.

Parents of the girls were chaperones. About 75 boys and girls attended.

Injured Wildcats Ready For Dimmitt

Richards And Jim McShan Out For Game

The injury riddled Littlefield Wildcats will be seeking their second conference victory here Friday night when they take the field against the Dimmitt Bobcats at 8:00 p.m.

Glenn Richards, 210 co-captain and guard of the Wildcats will not see action in the encounter and may be through for the year. He suffered a broken rib in the game last Friday against the Tulla Hornets and the doctors say that it may be at least six weeks before the burly guard can see action again. Jimmy McShan, who was a standout against Tulla last week will also be sidelined. McShan suffered a mild concussion in the fourth period of the game and is not fully recovered.

Mayfield says that with McShan's injury, he will be forced to put John Clayton back in the backfield and Wayne Wicker back at the end position. Wicker played quarterback and Clayton end last week at Tulla with Jimmy McShan holding down the back field spot vacated by Clayton.

James Pressley will start at quarterback for the Cats. The young freshman played an outstanding game last week and also intercepted one pass to stop a Hornet drive. The Tahoka Bulldogs, who played the Cats three weeks ago say that Pressley is the best ballhandler they have run into this year and they have played some good teams. Their only loss has been a 19-14 loss to Crane. Max Morris and Mike Greer will be the other two men in the backfield.

Wicker and Andy Parker will start at ends. Roger Lowe and James Lee at guards and Paul Yarbrough at center. Mayfield will start the only two tackles he has left on the squad, Davis Lee Williams and Joe Hoover.

Paul Yarbrough is one of the best all-around football players in Class AA ball on the South Plains. His defensive playing is making him almost a sure thing for All-District and other honors. His line play is helping the Cats forward wall considerably and with Richards gone, Yarbrough will need plenty of help when the Bobcats roll into town.

Dimmitt will bring a well balanced club to Littlefield and they will be scrapping mad after the narrow 21-20 loss they took at the hands of the Lockney Longhorns last week after they had piled up a lead and had the game virtually won.

Dimmitt has won three games and lost three, better than the Cats' 2-4 record, and holds the honor of putting the biggest margin of victory over the strong Sudan Hornets. They beat Sudan 19-12 and is the only team that has been able to punch over three touchdowns against one of the strongest lines in this part of the state.

Don Mobley, quarterback, Keith Lowe, halfback and Jim Manning are the sparkplugs of the Bobcat crew coached by Leo Fields. Manning caught two passes against Sudan that were good for 125 yards. Lowe ran one touchdown that covered 65 yards and the Bobcats have a good line in front of their backs to open holes in the line.

This is the first year that Dimmitt has played in AA ball and they have proved most promising. They have beaten Silvertown, Turkey, and Sudan while losing to Hale Center, Abernathy and Lockney. They have a large squad and are expected to bring about 33 boys to Littlefield for the important contest.

Outlook For Friday Games . . .

Springlake, Bula And Whitharral Picked To Win; Spade And Amherst To Lose

By JIMMIE CHAPMAN

Several top games are on tap for the area this week, the biggest will be at Abernathy where the undefeated Antelopes will take on the Tahoka Bulldogs. Winner of the contest will have only Spur to worry about before wrapping up the District 3-AAA title.

Sudan enjoys an open date this week after losing their important encounter to Springlake last week 13-7.

Sudan has already played more games than any other team in the area. They started a week earlier than the other schools and have not had an open date since their victory over the ever City Mustangs. They have several beat-up boys from the tough encounter

with the Wolverines, one of them being their star quarterback Jim Bacous, who scored all of their points against Springlake.

The Hornets of Coach Francis Smith now have won five games while dropping three. They have only Happy and Friona, both district opponents, left remaining on their schedule.

Springlake is supposed to have little trouble this week with their opponent, Price College at Amarillo.

Bula, who already has their six-man district drapped up will take on the Pettit Eagles at Pettit in another conference game. The Bulldogs of Coach Claud Morrison should have little trouble with

the Eagles.

Here are our picks of the week with the potential winner appearing in capital letters.

- Dimmitt at LITTLEFIELD
- OLTON at Tulla
- LOCKNEY at Muleshoe
- SPRINGLAKE at Price College
- HAPPY at Friona
- Tahoka at ABERNATHY
- ANTON at Amherst
- KRESS at Bovina
- Lamesa at LEVELLAND
- SPUR at Floydada
- WHITHARRAL at Hart
- BULA at Pettit
- Spade at COTTON CENTER

It would take 1,000 ships the size of the 80-ton Santa Maria, largest in the Columbus fleet, to equal today's liner Queen Elizabeth, 80,000 tons.

Olton And Littlefield Favored . . . Dist. 2-AA Gets Off To Good Start; Dimmitt Upset 21 - 20

District 2-AA got it's race started last week with all teams seeing conference action. Dimmitt, the team with the best record going into the game, was upset 21-20 by the Lockney Longhorns to get the race off to an unpredictable future. Olton beat the Muleshoe Mules and Littlefield beat the Tulla Hornets in other conference games.

Guard Weldon Jones proved to be the star of the week in District 2-AA. Playing at a guard position for the Lockney Longhorns, fell on the ball over the goal line after it had been fumbled on third try for extra point. Dimmitt was leading in penetrations and would have won the game had not Jones recovered the ball which had rolled some eight yards across the double stripe.

Jackie Gray was the star for the Olton Mustangs as they rolled over the Muleshoe Mules 39-0 at Olton in their first conference game. Back Bobby Johnson suffered a broken leg for the Mustangs on the opening kickoff and will be out for the rest of the season. Johnson was one of the better backs for the Mustangs and did all the kicking off and punting for Coach Joe Turner's crew.

Quarterback Wayne Wicker, Mike Greer, James Lee and Jim-

mie McShan were just a few of the Wildcats that stood out in their opening 20-6 victory over the upset-minded Tulla Hornets at Tulla last Friday. Wicker a converted end, figured in all of the Wildcats long drives. John Clayton who played at end for the first time this year, also played outstanding ball at this position, catching one that was good for a touchdown.

Looking at the record of the teams, Olton and Dimmitt both have a 3-3 record. Olton has the best over-all record, having scored the most points and allowed the least to be scored against them.

The Mustangs have scored a total of 110 points while their opposition has crossed the goal line for only 45 points. Dimmitt has scored 104 points while their opposition has totaled almost as many. 101. Littlefield has had 111 points rolled off against them while they have managed to cross the goal line for 103 points. Lockney has scored only 61 points and their opponents 159. Tulla and Muleshoe haven't won a game yet and the Mules have crossed the goal line only twice this season. Tulla has scored 24 points while their opponents have rolled for 233. Muleshoe has scored 14 while their opponents have scampered for 239.

All total, District 2-AA teams have won only 10 games this season while they have been beaten 26 times, one of the poorest records for any district in the state.

Games this week will find Olton going to Tulla, Lockney journeying to Muleshoe and Dimmitt rolls into Littlefield.

Team	W	L	T
Littlefield	1	0	0
Olton	1	0	0
Lockney	1	0	0
Dimmitt	0	1	0
Tulla	0	1	0
Muleshoe	0	1	0

In District Anton And Whitharral Still In Race

In the other two districts involving Lamb county teams, Springlake is the only team left undefeated and leading their district.

Whitharral is still in the running in District 3-B, although they lost their first game last week to Plains and Sudan still has a chance at a tie for the District 2-A crown if the Happy Cowboys can defeat Springlake.

Happy has a terrific ball team and has been beaten only once this year. They were upset by the stiff Kress Kangaroos 25-20 and have rolled up victories over Turkey, Bovina, Quitaque, Silvertown, Price College and Hale Center. They beat the tough Hale Center Owls by three touchdowns, the only team that has been able to do it this year.

Springlake still should win the District, but they had better not think they have it sewed up just because they beat Sudan. They have to go to Happy November 18, and if Happy is still unbeaten in District competition, this last game of the season for both teams should be a tough one.

Here is the standings of the two Districts.

DISTRICT 2-A STANDINGS

Cats Face Tough 1956 Grid Schedule

Officials of the new 1-AAA for 1956 met at Ford Sunday to set up a schedule, discuss uniforms and admission prices for the season.

The meeting was attended by Coach Gene Myrtle, superintendent Ralph S. and Principal Glenn Boy Littlefield.

Supt. Schilling announced a tentative schedule for 1956 Wildcat football. The nine games have been set far but the Cats will be home games. The date of is still an open date, but he said that he will try to date before too long.

Weldon Marcum, Superintendent of schools at Levelland, elected chairman of 1-AAA for 1956. Schools in the district will be Dumas, Levelland, Phillips and Littlefield. All except Levelland will play Class AA ball at the Levelland has been a member of District 1-AAA for the past seasons.

Admission prices for the newly formed district will be 50 cents for students, general admission and reserved seats.

The schedule will prove the toughest ever faced by Wildcat team. Plainview, Phillips and Dumas will be opponents for the Cats. Clovis, Hereford, Brown, Levelland and Olton are year's schedule.

Longest trip the Wildcat team will have to make will be to on October 26. The away team, Dumas will Littlefield on Nov. 16. Dumas and Phillips are District 1-AAA this year. Levelland is currently leading the district 1-AAA.

OLD V. RATLIFF
 Press Sports Editor marks the thirty-fifth anniversary of a football game played in 1915, in amusing fashion. He says that Cumberland University and the University of Tennessee played a game in 1915, in which Cumberland was defeated 10-0. He says that Cumberland was a group of fraternity boys, that Cumberland didn't have a football team and that the game was played because of a mistake by a messenger boy, who delivered a telegram to the Dappa Sigma fraternity house instead of to the athletic director (non-existent) of Cumberland University.

land player tried to get relief. Gaudin doesn't remember that the game was cut short but he agrees that it should have been and probably was.

It actually wasn't the first time for Cumberland to be slaughtered on the gridiron, if the record books are to be believed. In 1915 it is shown that the University of Tennessee whipped Cumberland 10-0. No other references to Cumberland in football can be found so it is presumed that the 1915 outfit was a "jumped up" team, too.

Dugat doesn't recall that it was a fraternity team but says that most of the players were fraternity men. Anyway, he says he was not solicited to play as a frat man. But he certainly knew little about football. "I didn't know what a down was until 25 years later," he ruefully confesses.

Anyway, the game was played and Cumberland was beaten worse than any other football team in history. It is as famous a game as any ever played.

Dugat would like to meet the fellows once more. This time it'll be much more cheerful and heart-warming than that bitter afternoon at Atlanta—at least for those who wore the tattered jerseys of old Cumberland.

There's something radically wrong with a sport that can't use men like Ray George and Ed Price as coaches.

This isn't to say that football and Price are being separated. Laconic Ed still is coach at the University of Texas but the handwriting appears to be on the wall. There are hints that Price will resign but even if he doesn't the alumni will get him before another season rolls around. He may coach elsewhere but probably will just shuck it all as did George.

George, a fine gentleman and capable coach, quit A&M because he didn't produce a champion and the alumni, not considering the fact that he may not have had the men to do it with, forced him to give it up with their howls for a winner.

Price is one of the best-liked men personally to be found. He is the kind you'd want to coach your son in football. Obviously he did a good job because he won one championship and tied for another in his first three years as head man of the University of Texas football. But he didn't win in 1954 and now his team is on the way to one of the worst seasons, percentage-wise, in Texas history.

Everybody admits that his team is playing to the best of its ability. It fights hard to the last gun and is always tough at the finish. But it isn't winning and that always has been the main thing and presumably always will be.

Matty Bell was inducted into football's hall of fame the other night. Bell coached for more than 25 years. He was at three Southwest conference schools—Texas Christian, Texas A&M and Southern Methodist. He was one of the few big time coaches who managed to stay around that long. But he had his troubles. He was fired as coach of Texas A&M

as being teammates. Also, their accounts of the game differ some. One thing they agreed upon, however, is that they would have preferred to be in the stands or elsewhere the day that game was played.

Gauldin says the Cumberland team was a group of fraternity boys, that Cumberland didn't have a football team and that the game was played because of a mistake by a messenger boy, who delivered a telegram to the Dappa Sigma fraternity house instead of to the athletic director (non-existent) of Cumberland University.

Gauldin the other day read an account of the famous game in a magazine. He recalled only two players mentioned — McDonald and Pete Gray. "You know what your memory does to you after 39 years," Gauldin declared. "I don't remember Dugat in the game although I knew him personally in Dallas when I was in the district attorney's office."

Anyway Gauldin said a man named George Allen later a big name in Washington politics, accepted the telegram and went out and got up a football team to play Georgia Tech. It seems the colleges made up their schedules as they went along in those days and some times would come up with an open date. They would fill them with any soft opponent they could find. Georgia Tech thought Cumberland had a football team and wired that school asking it if it would play.

Allen wired back that dear old Cumberland would joust on the gridiron with mighty Tech if a cash guarantee was made. This Georgia Tech did and it wasn't until the Cumberland team made up mostly of boys who never had played football before arrived in Atlanta that the Techs knew they were playing a fraternity team instead of a bona fide college outfit.

There were, as Gauldin recalls, only 15 on the squad. The coach was one Butch McQueen a lad who played football at Vanderbilt before coming to Cumberland and knew about the ferociousness of Georgia Tech's football teams. He decided he would do the coaching and let the other 14 do the playing. That he did. In fact Gauldin says it became impossible to get a substitute after Georgia Tech had run up about a dozen touchdowns. "Nah, we ain't coming in there," the three subs would say when a Cumberland

Flying Queens Will Feature Sister Team From Dimmitt

LOMETA and MARGARET ODOM

PLAINVIEW (Special) — Wayland College's Hutcherson Flying Queens will this year feature a new sister team, in Lometa and Margaret Odom of Dimmitt.

Lometa has been a mainstay for the National AAU Champions for the past three years, while Margaret is beginning her freshman year at Wayland. Both girls received State-wide recognition while playing at their post-forward positions for the Dimmitt High School Bobbies.

Margaret lettered four years in high school, and during her last two years received All-District, All-Regional and All-State honors. Like four other freshmen playing for the Queens this year, she was valedictorian of her high school's graduating class the past year.

Lometa, a senior at Wayland this year, has made the All-American ranks for three straight years. Faye Wilson, Duncanville, is the Queens' only other All-

championship.

Matty went to Southern Methodist, coached a Rose Bowl team and won three conference championships and tied for another. He retired from coaching without being asked to, which is rather unusual in football. But, it is to be observed, that even Bell, with his great record, had his troubles.

Amos Alonzo Stagg, the grand old man of football, had a philosophy about coaching that all coaches should have—for their personal peace of mind anyway. Stagg said: "I always prepared my team to the best of my ability. I did everything possible to furnish them with the tools of victory. If there were boys on the other team that could run harder and faster and think better than I did not worry me. There is a difference in people, physically and mentally, you know. The coach is not responsible for that."

Woody Woodward, coach of Southern Methodist, was criticized severely because his team didn't win against Notre Dame and Georgia Tech. The Methodists had done a lot of fumbling, had a flock of passes intercepted. Nobody took the attitude that the coach couldn't handle the ball or throw the passes, therefore he wasn't responsible for the way the ball bounced. They also wouldn't excuse SMU on the basis that it played two of the outstanding football teams of the nation and wasn't expected to win these games anyway.

Woodward's team beat Rice 20-0 last week in what was considered a big upset because Rice was the pre-season championship favorite. "Man, those Mustangs are sharp," said one fellow who had been the loudest talker about SMU's ineptness in the Notre Dame and Georgia Tech games. Woodward was the same fellow who had coached the team in those two games. He hadn't improved enough in two weeks to make him that much better. It must have been that the opposition just wasn't as good as SMU.

In this coaching business the alumni say victory isn't the most important thing in life unless it's the opposition that wins it.

Joe Walden, M. C. Northam Tangle Saturday

LUBBOCK—West Texas State with a team reminiscent of the Buffalo squad that downed Texas Tech in 1950, invades Lubbock for a Border Conference contest with the Red Raiders at 8 p.m. Saturday.

For the first time since that 28-13 victory five years ago, the Buffs are given a good chance to defeat their closest gridiron neighbors. This is based more on West Texas State's current strength than the Raiders' record, admittedly a disappointing mark of two wins, two losses, and a tie.

Frank Kimbrough's Buffaloes, sporting the conference's leading scorer in Joe Walden, weren't even scored on in their first three starts. They next tied a pre-season favorite, University of Arizona, 20-20 in the unfriendly confines of Tucson, and edged into a contender's role with a 32-6 win over New Mexico A&M.

West Texas will be trying to bounce back into the title picture following a close 19-18 loss to pace setting Hardin-Simmons Saturday night.

Tech, too, will be hoping to rebound. The Raiders dropped a hard-fought 7-0 game to University of Houston there Saturday night, although out-first-downing and outgaining the Cougars.

It will be Tech's second conference start. Texas Western and the Raiders tied 27-27 earlier. Tech holds wins over University of Texas, 20-14, and Oklahoma A&M 24-6. Texas Christian dumped Tech 32-0 in the Raiders only home start.

Coach DeWitt Weaver is encouraged by the news fullback Jim Sides of Lubbock, twice all conference, should be ready for the first time since breaking a wrist in the Texas game. Tackle Jerry Walker of Pampa is improving after dislocating a knee in the TCU game, but is not expected to play. Neither is guard Arlen Wesley of Littlefield, who twisted a knee against Texas Western.

"MR. UNIVERSE" HELPS U. S. WIN TEAM TITLE—Tommy Kono, of Sacramento, California, is winner of the light heavyweight (181 pounds) lifting title, and also winner of the coveted "Mr. Universe" title, at the championship competitions in Munich, Germany. In the opinion of Bob Hoffman of York, Pa., the American coach of the U. S. Weightlifting Team, the extra 5 points which "Mr. Universe" title should have earned were not added to the 25 points given to the U. S. team when the reports from Munich gave 29 points to the Russian team to declare them to be the champions.

Letter To The Editor

Dear Betty:
 Here is an interesting version of the XIT
 as given by J. Evetts Haley, historian, folk-
 lorist, author and friend. He is also a Cattle-
 man and member of the faculty of The
 Texas Technological College, Lubbock.

During the middle eighties the XIT Ranch
 was established. It was the oldest ranch in
 the cow country of the old west and probably
 the largest fenced range in the world. Its
 barbed wire enclosed over 3,050,000 acres
 of land in the Panhandle of Texas, patented
 by the State to a Chicago firm in exchange
 for the Capitol at Austin.

The XIT brand was conceived by an old
 Texas Trail driver named Ab Blocker, who
 placed it upon the first cow.

In 1836, nearly a century and a half after
 the first expedition into Texas, the Anglo-
 Americans wrested the State from Mexico
 and pushed the last soldier of the Southern
 Republic from her borders. There remained
 fortunately for the Texas, a phase of life and
 an industry suited to the frontier—an in-
 dustry essentially Spanish in origin and
 methods. Ten years later the congressional
 struggles were ended, and Texas entered
 the union with the important provision that
 she retain all her public lands. This land was
 vast millions of acres unmeasured by sur-
 veyor's chain.

The Texas State House was built in ex-
 change for three million acres of land set
 aside by an act of the Texas legislature in
 1879. The tract lay along the western border
 of the Panhandle. At that time scarce a
 score of people were upon it. Not a plow
 share had broken the sod, and not a wire
 fence had enclosed an acre of its grass. These
 three million acres were converted into the
 XIT Ranch pending the arrival of the farm-
 ing settler.

Because of our rich Texas heritage we
 named our club XIT.
 The Springlake XIT Study Club feel it
 an honor to the pioneer farming settler who
 reveal the struggle of men with the soil that
 has made our community what it is today.
 I personally appreciate this friend J. Evetts
 Haley and his book, The XIT Ranch of
 Texas as he autographed it with the hope that
 we might enjoy the story of our own range.

Mrs. Bill Clayton
 Springlake, Texas

(Editor's Note: — The question about the
 XIT brand was not its origin, but what it
 stood for. I was born in Lubbock, my father
 Hal Bradley and his cousin Jim Bradley
 operated a jitney service and hauled the cattle-
 men, and Bradley Auto in Lubbock was the
 headquarters of the cattlemen before my time.
 Ab Blocker told my father and Uncle Jim
 that XIT stood for "Ten in Texas" for the ten
 syndicates, and too I lived next door to Mrs.
 M. M. Seaton who was an heir to part of this
 land, and in using "Ten in Texas" in referring
 to XIT I drew from what I had been taught
 by people who actually knew the Blocker
 Boys well.

The Sandhills Philosopher—

(Editor's note: The Sand Hills Philosopher
 on his Johnson grass farm discusses sleep
 this week, and if there's anything he's an au-
 thority on, that must be it.)

Dear editor:

A copy of time magazine turned up out
 here on this Johnson grass farm the other
 day, I don't know how it got here unless the
 mail carrier got mixed up and put it in my
 box instead of my intellectual neighbor's box
 down the road, although understand taking
 the magazine is no proof that you're an in-
 tellectual or it is either, but I was glad to
 get my hands on it and was especially inter-
 ested in an article on the champion boy farm-
 er in the U. S.

According to it, this boys gets only about
 four or five hours of sleep a night, stagger-
 ing up out of bed at 4:30 a. m. and working
 until anywhere from 10 p. m. to midnight
 before he falls asleep in the middle of a
 letter to his girl.

This is vicious propaganda. Out of the
 years of experimenting, I wish to state that
 a man can get just as much sleep on a farm
 as he can in a city, maybe more. This idea
 that farming may be all right if you can stand
 the loss of sleep is a lot of nonsense, although
 understand I'm not arguing that more people
 ought to farm, the way it looks now, judging
 from the stacks of surplusses we've got piled
 up all over the country, too many people are
 farming as it is.

But it has been my observation that more
 white collar workers and business executives
 fall asleep in church than farmers. More
 town people go to sleep driving their cars
 than farmers. Have you ever heard of a
 farmer falling asleep while driving a tractor?
 While milking a cow? While borrowing
 money at the bank?

A man may not be able to make as much
 money as he wants farming, but he sure
 can get plenty of sleep. I've tried it and I
 know. Furthermore, I intend to keep on get-
 ting plenty.

Yours faithfully,
 J. A.

GLEANINGS . . . From Nearby Newspapers

County commissioner precincts certainly
 need a good overhauling. In the Ralls pre-
 cinct, one commissioner represents about 40
 per cent of the county's population. In an-
 other precinct, one commissioner represents
 about 5 per cent of the county's population.
 Real representation isn't it? The commis-
 sioner from sparsely populated areas has an
 equal voice with those from heavily populat-
 ed precincts. Obviously, somebody isn't get-
 ting the amount of attention he's entitled to.
 It would be simple to create new precincts
 with boundary lines drawn from north to
 south across the county in such a manner
 as to give equal representation on a basis
 of population instead of dividing it out sim-
 ply on the basis of acres of land. Its something
 that must, sooner or later, be worked out.
 —Ralls Banner

A decision by the Court of Criminal Ap-
 peals a few days ago which wiped out 104
 hard-won indictments against Duval County
 political boss George Parr and his associates
 should cause a lot of lifted eyebrows over
 the state.

The three-member high court, which had
 ruled a year ago that the indictments were
 legal, didn't exactly reverse itself with the
 decision . . . the court has simply had a
 change of personnel since the earlier de-
 cision, not a change of mind.

In the 1954 decision on the indictments,

judge Harry N. Graves joined Judge K. K.
 Woodley in ruling the indictments were
 legal, with Judge W. A. Morrison dissent-
 ing. Since that time, an election has inter-
 vened. Judge Graves has retired, and been
 replaced on the Court by Judge Lloyd W.
 Davidson. In the new decision, the new mem-
 ber, Judge Davidson, joined Judge Morris-
 son in holding the indictments illegal . . .
 while Judge Woodley stuck to his guns and
 wrote a dissenting opinion.

Does that sound complicated? It isn't. It's
 as simple as this: the facts at issue haven't
 changed in the past year, but the make-up
 of the Court has. Justice as dispensed by
 the Court of Appeals, therefore, becomes
 not so much a matter of law as a matter of
 politics.

On the face of it, it looks like George Parr
 has won another political victory . . . this
 time at a state-wide rather than a local
 level. —Canadian Record

CADILLAC for 1956

Top to bottom—Eldorado Biarritz, Sedan de Ville, Sixty Special

Presenting the Most Inspiring Motor Cars the World Has Ever Seen!

You are looking at three of the most magnificent and
 inspiring creations ever to issue from the drawing boards
 of Cadillac's designers and engineers.

These spectacular new Cadillacs—in company with
 the other Cadillac models for 1956—introduce a stand-
 ard of automotive excellence that will find no counter-
 part on the highways of the world.

Where, for instance, could you find anything to match
 them for beauty and elegance? Their long, low, sweeping
 lines . . . their jewel-like grille and rear-fender designs
 . . . their brilliant new color combinations . . . their
 sparkling highlights of chrome and gold . . . all combine
 to create a beauty that is truly unique.

Where could you find anything to equal them in luxury?
 Inside are fabrics of rare richness and pattern . . .

and features of comfort and convenience that will delight
 even the most experienced Cadillac owner.

And where could you find anything to rival them in
 performance? There's a completely redesigned Cadillac
 engine developing 285 and 305 horsepower . . . a new,
 controlled-coupling Hydra-Matic Drive . . . and
 advanced Cadillac Power Steering and Power Braking.

This extraordinary new Cadillac beauty . . . and this
 brilliant new Cadillac luxury . . . and this dynamic new
 Cadillac performance . . . have been interpreted in four
 separate series and in nine individual body styles.

We sincerely urge you to stop in for a personal inspec-
 tion and demonstration at your earliest convenience.

We know you will agree that, in every way, they are
 the most inspiring motor cars the world has ever seen!

Bench Levelling Should Be Done Soon After Harvesting

Farmers who are planning to do bench and field leveling before the next crop should prepare to do this as soon after the crops are harvested as possible.

Indications are that the demand for this kind of work will be greater than ever before. Unless these jobs are well distributed over the season, not all of this work can be done before it is time to plant the next crop; due to the lack of contractors or technical assistance available by the Soil Conservation District. Leveling involves considerable amount of time in the engineering of the layout and checking.

James Abbott, Soil Conservation Service Work Unit Conservationist assigned to the Lamb County Soil Conservation District, advises farmers who are interested in leveling to contact the Soil Conservation office in Amherst. If they are interested in technical assistance furnished by the District, technical assistance for land leveling includes the engineering which is available without cost to the farmer but does not include the actual cost of moving the dirt by the farmer himself or by the contractor.

Some of the farmers who will do their land leveling in the near future are: Aubrey Jones, M. E. Dutton, Doyle Tapley, and Benjie Harmon of Amherst, and J. M. Machen and R. L. Neinst of Oilton.

The purpose of land leveling is to alter the slope of irrigated land. This operation is engineered to hold erosion damage to the minimum, and at the same time, make maximum use of rainfall and irrigation water facilitating water and soil management.

The dandelion derives its name from the French *Dent-de-lion* (lion's tooth) because of the tooth-like lobes of the leaves.

John L. Swanson Diamond Medal Award Winner

Ernest C. Swanson, court reporter of the 109th Judicial District of Texas and residing at Kermit, has received a diamond medal which he was awarded during the recent convention of the National Shorthand Reports Association held in New Orleans in August of this year.

The test consisted of taking Congressional Record at 200 words per minute for five minutes and typing it with an accuracy of 95 percent or more.

Ernest also has been awarded the Proficiency Certificate. This was another examination which consisted of taking literary material at 160 words per minute for 5 minutes; followed with jury charge material at 180 words per minute for 5 minutes, and court room testimony at 200 words per minute for 8 minutes. Accuracy in this examination also had to be 95 percent correct or above.

He is the son of Mr. and Mrs. Luther J. Swanson, residents of the Spade community.

State Farm Favored By Nat. Magazine

The mystery of the "best buy" in auto insurance, the tangled web that most motorists know little or nothing about, has been solved by the editorial research board of Car Life Magazine, in an exclusive article appearing in the November issue. After two months of study and evaluation of 39 auto insurance companies by the national magazine's research team, the State Farm Mutual Automobile Insurance Company of Bloomington, Ill., was awarded the Car Life Magazine Seal of Merit Award for "the nation's best buy in auto insurance."

"When you are ready to buy your policy," Car Life found, "you need not shop for one that offers everything and a little ex-

tra. Today, all policies have standard provisions and most companies use the standard policy. But what you do need to consider is this: The kind and amount of protection your particular needs require. The cost of the policy and the reputation and

stability of the company insuring you."

"However, these are by no means the only or most important factors to be taken into account in buying auto insurance," the magazine article continues. "What is important is what happens when you present your insurance company with a claim."

"Is the agent or representative easily reached? Is he cooperative? Does he represent you as well as the company? Will the company try to talk you out of your claim, or reduce it? Will the company try to talk you out of your claim, or reduce it? Will you have to wait a long period for settlement? Will the company force you to go to court? In short, will your insurance policy do what it claims to do?"

Taking all these factors into consideration, the magazine editors found that State Farm Mutual Automobile Insurance Company compared better with the rigid code of specifications than any of the 39 auto insurance companies studied.

The company is represented in Littlefield, Texas by F. L. Newton.

Highlights and Sidelights From Your State Capitol

Speculation is running that both Gov. Allan U. S. Sen. Lyndon B. will have leading roles in the next Democratic presidential nominee.

He denied participation in a Southern bloc re-nomination of Stevenson.

He denies that he is head of the coalition. Nomination is delegates, he said, and support whoever wins out is not a "conservative," stressed, but a "moderate."

At the conclusion of the Democratic Governors Convention a slightly different picture emerged. He said he will vote for the future of my country. I hope the Democrats see that man." He also mentioned a drive for control.

tions, the Health Department explained that it is not known at present exactly how long protection from three Salk shots will last. Experts estimate protection at about two and a half years. Perhaps after that time, booster shots again will be advised.

Persons who already have recovered from polio also should have the shots, the Department said. There are three types of polio. Having a case of one type will not set up immunity against the other two. The Salk vaccine is aimed at giving immunity to all three types.

Only nine Texas children have been stricken with paralytic polio despite Salk inoculations, Dr. Henry A. Holle, state health commissioner announced. The nine cases were among 473,830 vaccinated children.

UT ENTRANCE EXAM APPROVED

Beginning next fall the University of Texas will admit students on the basis of aptitude test scores.

Tests are to be given probably three times a year, without cost to the applicant, at centers throughout the state.

Rapidly increasing enrollment necessitated tests to eliminate students who will be unsuccessful, the Board of Regents stated.

ANTI CRIME STRATEGY OUTLINED

A multi-fold educational program to reduce crime in Texas was proposed at an Austin conference of three law enforcement groups.

Suggestions included (1) greater publicity on the cost of crime, (2) establishment of a four-year college course in criminology and (3) education of youngsters by a touring "crimobile" equipped with latest detection devices.

Participants were the Texas Law Enforcement Foundation, the Attorney General's Citizens Committee on Law Enforcement Advisory Council.

BOOBY PRIZE STOLEN
Last year Austin received the "booby prize" in the Safe Driving Day contest. Award was a dented fender which was displayed—but not proudly—on the city hall lawn.

Painted on the fender, in white, was "Awarded to Austin Texas for Last Place in the First Annual Safety Bowl."

Theft of the "prize" was discovered last week when preliminary work began on the upcoming S D Day. Nobody knows who took it or when. "We never were too happy about getting that thing in the first place," said Captain Bob Miles of the Austin Police Department. "We didn't keep up with it very closely."

SHORT SNORTS: Amar Nandi, of Calcutta, India, on tour as a guest of the U. S. State Department, visited in Austin last week. He is assistant editor of India's largest newspaper. Only 36 years of age, Nandi spent nine years of his life in prison or in hiding during India's struggle for independence. . . . Veterans land program profits of \$7 to \$8 million

within 10 years and \$40 million after 40 years were predicted by Land Commissioner J. Earl Rudder. Restored confidence and better laws will bring about the gains, he said. . . . Mail Christmas packages to military personnel overseas not later than Nov. 15, Austin Postmaster O. N. Bruck has urged. Even earlier mailing for personnel in Japan, Korea and the Pacific was suggested. . . . Senator Jimmy Phillips of Angleton said future veterans land inquiries will be hindered by complete overturn of the investigating committee. It's unusual for the coach to put in a completely new team after you have driven from the shadow of your own goal posts to the opposition's 10-yard line," he said.

The boom days our elders tell us, were in pre-depression 1929 when bricklayers bought \$10 silk shirts to work in.

If those were the boom days, what's happening now deserves at least a boom-boom. We speak of:

Delton Pomone, taxi driver of 1090 Pela St., Houston. For years he threw all the dimes and quarters he got as tips into a brass

vase doorstop which he emptied each Dec. 1 to buy Christmas presents for his children. This year the vase spilled over Sept. 27 and quarters out-numbered dimes for the first time.

R. N. O. Woodsworth, business man of 200 Uxley St., San Angelo. After 10 good years as a farmer implement dealer he opened a sideline of selling foreign sports cars. He's making more money now selling sports cars—to farmers—than he ever did selling farm machines.

Charles V. Liebleicher, stock salesman of 2221 F. 42nd St., San Antonio. Two-thirds of his new business this year has been with carpenters and plasterers. "I have one carpenter who invests \$120 a week in blue-chip stocks," says Liebleicher, "and a plasterer who has built his holdings up to \$72,000."

Ramery Jones, door to door salesman of 97 Penelope St., Tyler. "The secret of selling now is to spend all your time in what looks like the slums," says Jones. "The people there aren't

used to salesman, they're flattered to have you call. And they have money, lots of money." Jones reported \$183 net profit one week, a six-month average of \$171.50 a week.

Ludwig Holsum, union painter of 1914 E. Sand St., Lubbock. Discovered by the local newspaper painting a house during a rainstorm, protecting himself with an umbrella, on a Sunday which was also a union holiday, he explained:

"Sunday means it's overtime pay, and being a holiday, I get double overtime. I told the contractor the rain's washing this paint off as fast as I put it on, but he said stay on the job." If he wants to pay me \$19.80 an hour, it's no skin off my nose. It's time now to admit this is all made up—all lies.

But times are good and the best proof the stories aren't fantastic are that they are believable.

You believed them, didn't you, until we got to the painter with his umbrella?

SEDAN DE VILLE: Cadillac's Sedan de Ville, a four-door hardtop presented for the first time for 1956, preserves the graceful Florentine window styling of two-door hardtops yet provides the roominess and four-door convenience of sedan models. Rear seat head and leg room in the Sedan de Ville is greater than in two-door hardtop models. The car features a new power train consisting of a new 285 horsepower engine and a "controlled coupling" Hydra-Matic transmission which is completely new in principle and mechanical parts.

Cadillac Line For 1956 Presents New Appearance, More Powerful Engines

Cadillac's line of 1956 automobiles presents a completely restyled appearance, features an impressive list of important engineering advancements, and has been expanded to include two new body styles it was announced today by Don E. Ahrens, vice president of General Motors and General Manager of the Cadillac Motor Car Division.

"While consistent with Cadillac's progressive styling continuity, Cadillac's 1956 models are dramatically new in appearance both inside and out," Ahrens reported. "A new, more powerful, 285 horsepower Eldorado engine coupled with a vastly improved transmission system are typical of the many engineering developments designed to insure the 1956 Cadillac owner the greatest possible driving satisfaction."

Ahrens announced that to provide additional coverage of the fine car field and to further expand customer selection, Cadillac is introducing two new body designs for 1956.

Presented for the first time are the Sedan de Ville, a four-door hardtop; and the Eldorado Seville, a limited production model supplementing Cadillac's dramatic Eldorado convertible, the Biarritz.

With the addition of the two new models, Cadillac now offers a total of ten body styles in three series.

Designed to convey a feeling of sweeping lowness, the new 1956 Cadillac is readily identified by its highly distinctive exterior styling.

Front end appearance is marked by a new delicately styled aluminum grille of narrowly spaced cellular design which gains sharp definition from the massive yet gracefully tapered new front bumper guards. Matching the cellular texture of the grille, which is available in either gold or silver color, is a newly patterned cowl-wide intake beneath the windshield. Wider front fenders which feature new smartly styled hooded headlamp bezels have been created to blend with a low or hood.

Further accenting the new car's road hugging stability is a highly distinctive side pane treatment.

A narrow chrome belt molding running beneath the door windows provides a sharp two-tone color line. Delicate chrome trim

moldings on the top edge of the integral rear fenders lend additional definition to the low profile as do the new fluted chrome vertical slashes on the forward edge of the rear fenders.

Replacing the Cadillac nameplate on the sides of the front fenders is a new Cadillac crest. The Coupe de Ville, Sedan de Ville, Sixty Special, and the Eldorado models are identified by script name plates placed beneath the crest.

The new rear fender styling, characteristically Cadillac, incorporates chrome trimmed fairings which flow rearward to the newly created oval exhaust outlets at the outer ends of the restyled bumper. Special exhaust ports are featured on Eldorado models.

Block letters above a wider "V" emblem are mounted on the otherwise unbroken expanse of the rear deck lid.

Deep formed fluted chrome wheel discs, also new in design will be standard equipment on all models except the Eldorado which will retain the exclusively styled forged aluminum Saber Spoke wheels.

A striking variety of solid and two-tone color combinations have been developed to enhance the new 1956 exterior design. New Vico-deco material in a choice of five colors is available for convertible tops and as custom trimmed padded roof paneling for the Eldorado Seville.

As with the exterior, Cadillac stylists have displayed thoroughness to every detail in creating an entirely original interior design.

897 More At Texas Tech Now

LUBBOCK—Texas Tech's fall enrollment is 7,154, a new all-time record high, an official Registrar's Office report reveals.

The previous all-time high was 6,257, set last fall.

Arts and Sciences is the largest of Tech's six academic Divisions, with 2,545 students. Next are Engineering, with 1,910; Business Administration, 1,505; Agriculture, 821; Graduate School, 384; and Home Economics, 373.

Women are outnumbered almost three to one by men in this year's student body but the girls are enrolled in all of the College's divisions except one.

Forty-nine are studying engineering, long considered primarily a man's field. Arts and sciences attracted the largest number of women, 1,302, and Business Administration, 394.

Only Agriculture is an all-male

domain at Tech this fall.

Also bucking educational traditions are seven men enrolled in Home Economics, and for good reason. Food demonstration is becoming a promising field for men, particularly in television, and more and more men are entering interior decoration, food management and food buying, Home Economics officials said.

Tech has the largest freshman class in its history, 2,657. Sophomores number 1,699; Juniors, 1,350; and Seniors, 1,064.

Production of bituminous coal in 1954 was 392 million tons. This is about 2.5 tons for every man, woman and child in the United States.

INTELLECTUAL TRAMP

Marriage counseling is an important service largely lacking today. The fact that young people are getting married without any idea of the responsibilities involved or the pitfalls that may lie ahead, was pointed out by a certain mother whose oldest daughter recently ran away to marry a man of whom she apparently disapproves. Said she:

"Try as best we mothers can, we need the help of our schools in this important matter. Why can't they do something more about preparing students for those important years ahead when our sons and daughters will be having families of their own? I for one think such a course offering in high school is far more valuable than algebra."

Much progress has been made since 1828 when Catherine Beecher began her distinguished career as teacher and propagandist by founding the Hartford Female Seminary. Here she aspired to develop a woman's college in which to incorporate her advanced ideas on education. At that time the prevalent idea was that formal education simply spoiled a girl for her duties as a wife and mother in the years to come. With rare exceptions, schools at that time definitely were for boys only.

The Beecher concept of women's sphere included the home, nursing and teaching. With her publication in 1842 of "A Treatise on Domestic Economy," she developed what Emma Willard had called the "scientific study of housewifery" into a teaching subject. That was the forerunner of our modern home economics courses which, in some high schools and colleges, are truly effective training for the years to come.

Several of the bigger universities now have marriage institutes. Some years ago a young professor at the University of California made a nationwide reputation because of the popularity of his offerings. Enrollments were limited, there was a waiting list. One of his classes was for married couples only; another was limited to young engaged couples, those planning to get married. There is no record unfortunately of how successful the after-effects proved to be.

Important in marriage is the maturity of the individuals. Too many of us Americans enter matrimony without actually having our feet on the ground. The girl who runs away from the home of her parents to escape certain harsh realities is almost certain to find equally difficult situations under the same roof with a husband and children. Human beings physically are sufficiently mature for matrimony at 14 or 15. But emotional and mental factors are equally important for insurance of successful marriage. There are exceptions, of course, but most of these child brides are old women in appearance by the time they are legally old enough to vote.

There are other factors, of course. Common interests of man and wife, mutual respect, per-

sonal loyalty. The parents of bygone days selected the mates for their children, and that plan certainly had its merits. In certain communities the marriage counselor idea has worked out. One minister in Ohio refused to perform the wedding ceremony for those he judged, after talking several hours with them, as being unsuited to each other. Parents, unfortunately, are not always the best qualified to give counsel to their own children. These youngsters of ours know us too well! Perhaps they recognize that the advice we so freely give doesn't always agree with the way we adults actually live our own lives. There is truly a real need for professional marriage counseling!

Sudan Artists Win Awards In Clovis Show

Two Sudan women, who are well known South Plains artists, placed the spotlight on Sudan when they won the two highest awards at the Cattle Festival Art Show being held in Clovis this week.

Mrs. Milton Wiseman received the first prize, the purchase award, with her picture, "Ghost Town." The picture will be placed in the new Senior high school in Clovis.

The second award, a cash prize of \$25.00, went to Mrs. Joe Foster, also of Sudan, for her painting, "The Laborer."

The Sudan women proved there is scenery to paint "Right in their own backyard." Mrs. Wiseman's picture is of an early Sudan business building that is now empty. Mrs. Foster's painting portrays a cotton picker in the fields.

Both artists have received awards at the Cattle Festival Art show before. The formal opening and reception of the show was held Sunday in the Ball Room of the Clovis Hotel. Attending the opening day from Sudan were Mr. and Mrs. S. D. Hay, Mr. and Mrs. John Bean, Mrs. E. J. Stone, Mr. and Mrs. Drew Watkins, Margaline Pierce, Carol Ann Watkins, Mr. and Mrs. Milton Wiseman, and Mrs. Joe Foster.

YEARBOOK COMMITTEE MEETS

The yearbook committee of the Home Demonstration Council held a meeting Tuesday at 9:00 a.m. in the women's jury room in the courthouse. Plans were made for the 1956 club yearbooks. Mrs. M. A. Bowling, chairman of the committee, and Mrs. Hazel Hickman, agent, were in charge. Others present were Mrs. C. G. Landers, Lums Chapel club, outgoing Council chairman; Mrs. Bayne McCurry, Spade Jr. club, incoming Council chairman; Mrs. W. O. Hampton, and Mrs. L. B. Elms of Sunnydale club, Mrs. Maurice Brantley and Mrs. W. L. Bradley of Amherst club, Mrs. W. W. Thompson of Spade Jr. club, Mrs. W. E. Vaughns of Spade sr. club, Mrs. W. B. Gwyn of Sodhouse, and Miss Janette Parr, a visitor from Charlotte, Michigan.

OFFICERS TO CONDUCT RADIO PROGRAM

The 1955 officers of the Lamb County Home Demonstration Council will have charge of the agent's radio program on Monday October 31 at 4:30 p.m. Mrs. C. G. Landers, chairman, Mrs. Bayne McCurry, vice chairman and incoming council chairman, and Mrs. Joe Prater, secretary-treasurer, will give reports of the 1955 club and council work.

COMMITTEE TO PLAN PARTY

Mrs. Bayne McCurry will be in charge of a committee meeting to plan the HD Council Christmas party Wednesday, Nov. 2, at 2:30 in the women's jury room at the courthouse.

SPADE JR. CLUB MEETS THURSDAY

The Spade Jr. HD Club met Thursday in the home of Mrs. Glendon Peel. The president, Mrs. W. W. Thompson, was in charge. Opening exercise was led by Mrs. John Vrubel. Roll call was answered with "My Favorite Way of Serving Ground Meat." Mrs.

Vrubel gave a council report.

Mrs. Hazel Hickman, agent, gave a demonstration on "Broiler Meals." She prepared ground meat patties, sweet potatoes, and peach halves. This meal was served to the group along with soft drinks, canapies, and ice cream cones. Those present were Mesdames Sam Sewell, John Vrubel, W. W. Thompson, Bayne McCurry, Hazel Hickman, and the

hostess.

The next meeting will be Thursday, Nov. 3, at 2:30 with Mrs. Sam Sewell, for a program on "Salads for Supper."

Mothers Have 16 To 1 Better Chance Now

AUSTIN—If the death rate which prevailed in the United States in 1935 still continued, 24,000 American mothers would have died in childbirth this year.

Of that number, 1700 would have been Texas mothers.

But instead, because of advances in medical care during pregnancy, the 1955 death toll of women during childbirth probably won't exceed 2,000 for the U. S. as a whole and 135 for Texas.

If this were 1935, some 230,000 infants would meet death before their first birthday.

But instead, due to better medical and nursing care, the death

rates among infants has

duced to 100,000 for the

and 7,300 for the state.

The figures are based on

To the man who's thinking about buying a new truck:

maybe you're missing something...

➤ And what you're missing is more than "maybe," it's for sure—if you haven't yet visited your Dodge truck dealer.

➤ Do you want to miss a rock-bottom price? Perhaps you haven't realized that Dodge trucks actually cost less than you'd pay for corresponding models of most other makes.

➤ Do you want to miss power so high it leads the field? Consider this: with engines of 169 to 175 horsepower, Dodge overpowers every other leading make of truck in the low- and medium-tonnage fields.

➤ Surely you don't want to miss the dependability, the over-the-years economy of which Dodge is so well known.

➤ You don't want to miss Dodge safety—which includes the biggest wrap-around windshield of any truck on the road, the shortest turning radius. Or Dodge superior cab comfort... Forward Look styling

➤ In short, you can get a whale of a lot more truck for a good deal less money than you think! Stop in and see your Dodge truck dealer right away—don't miss anything!

SEELY STADIUM

FRIDAY, OCTOBER 28TH

PLAYER OF THE WEEK

This week's "Player of the Week" is James Lee, son of Mr. and Mrs. John H. Lee, 147 N. Westside. A guard on the Wildcat team, James is the best downfield blocker. This is his third year to letter.

His biggest contribution to the team is his blocking which sets Mike Greer off on a pitch-out play.

CARAMEL APPLES:
1 lb. Kraft Caramels
2 tablespoons hot water
Wooden skewers
4 or 5 medium size apples

Place the caramels and water in the top of double boiler. Heat—stirring frequently until the caramels are melted and the sauce is smooth. Stick a wooden skewer into the stem end of each apple. Dip into the hot caramel sauce and turn until the surface is completely coated. Put on wax paper and place in the refrigerator until firm.

PTA TO HAVE CALL MEETING
The Olton P.T.A. will have a call meeting on Monday to decide whether to have a chuck wagon supper the night of the homecoming game here.

SWEETHEART TO BE NAMED AT HALF TIME

Candidates for Olton Band Sweetheart are Juanice Hendrix, Naomi Burrus, Sue Hill, Donice Silcott, and Betty Sides. The identity of the sweetheart will be kept secret until half time and girls are already on the field.

The game is between Muleshoe and Olton. The Pep squad King will be also named from five candidates, who are, Clyde Rhodes, Max Wozencraft, Wallie Stewart, Jarrell Edwards and Donald Powell.

JONES DRY GOODS HAS OPENING

The J. C. Jones Dry Goods store had its formal opening on Friday morning at 9 a. m. The first 100 customers received mixing bowls. 13 of the Jones family were present for the two day opening and three local women helped with the opening. The store is located in the Granbery building, which housed the Cox Hardware for a time.

The Morton Products Merry-Go-Round is in Olton this week and is taking children on free rides. It has been in front of the grocery stores which display the Morton products.

Increase in fall business has not been noticed.

Mrs. Neta King is the new beauty operator at Olton Beauty Salon. She is a sister to Mrs. Hubert Moses and Mrs. Leonard Jones here.

FORMAL OPENING OF HILLCREST HOMES

The formal opening of the new homes in the Hillcrest addition will be held on Sunday, October 23. Miss Sue Macon will serve as

hostess for the opening.

more likely to overlook and excuse actions which we consider not so good, if we are persuaded that there is an unworthy motive in the person acting. Motive, then, is a highly important consideration.

The highest motive for human action is the expression: "for this is right." It includes all other good motives, for that which is good is right. The desire to please ourselves, or to be popular, or to make a lot of money may sometimes lead us wrong. Without more basic motives (which are good) such desires are most sure to hurt us. But the desire to do what is right will lead us to treat God and our fellow-men in the proper manner. This motive should overshadow and outweigh all other motives in our lives.

"With four children, you want to heat water the SAFE WAY... of course, it's Electric!"

says Mrs. Roy N. Byrd, Jr.
1209 20th STREET, CANYON, TEXAS

"When Roy and I picked a water heater for our new Canyon home, the safety of our four children was the first consideration. We had two electric water heaters at our farm, so we knew that we could be safely sure with an electric water heater in our new city home."
"I was really surprised when one new 40 gallon electric water heater proved to be enough in our new home—especially after having two. But, we've never run out."
"My clothes washer works every day—at least once—and yet the water heater keeps up with it and the dishwasher, too, which I use at least two times every day."
"Then, at the sink, I'm always using hot water for cooking, to prepare food for the freezer, or to wash out things for the children. There's always enough."
"Four children can produce a lot of dirty hands—and keep the baths busy. We have a shower and a tub so that we can clean them up in shifts—and that takes lots of hot water."
"My electric water heater gives me plenty of hot water, an extra counter space, and a feeling of complete safety about my children. It goes perfectly with the other work-saving electric appliances in my home."
