City Needs Funds. In an interview with Mayor A. C. ... he stated that the City needs money to take care of several projects, which are necessary to carry on, adding in explanation, "With the city's rapid growth, we are going to have to add a man to the police force; we are planning to carry on a sanitation project, and try to keep the streets clean, and we also intend to take care of the pavement program. In any work the city does we have to pay more in materials, etc., than we formerly did to do, yet our income has decreased, and we believe the money from the parking meters will help to meet the funds needed."

The first course to be given is the Christmas Preemployment and Part-time Sales Course. This course has been specifically designed to aid those who are unemployed and desire Part-time and Christmas work, as well as those who are now presently performing Saturday work in local stores.

The Preemployment Sales Training Course is scheduled for 12 hours and will be conducted several nights weekly in the high school auditorium, with two hours instruction during each session. Included in the course will be units in How to Dress, Store Arithmetic, Wrapping, Writing Sales Checks, Cashiering, and Salesmanship. A nominal fee of \$1.00 will be the tuition for each person.

Increase Seen In Christmas Buying

According to a recent, nation-wide market survey Christmas buying will show a strong trend away from luxuries and take a sharp swing toward things to wear and things to use.

Price resistance, resulting from the huge slash at consumers' take-home pay by costs of basic needs, is seen as the reason.

It is estimated that Christmas business volume will exceed last year's by 5 or 10 per cent.

SECURITIES WILL FINANCE LONG-SOUGHT IMPROVEMENTS FOR LITTLEFIELD SCHOOLS

The \$75,000 School Improvement Bond issue to provide funds for the long-sought improvement of Littlefield schools was approved by an overwhelming majority of voters in the election held Monday.

Of the 116 votes cast, 109 were for the issue, 7 against.

Both white and colored schools will benefit under the improvement program.

Long-needed repairs to the school buildings, painting and redecorating, will probably not start while school is in progress. It is expected that major repair work will begin next summer.

Laboratory equipment is scheduled for immediate delivery and expansion of library facilities will get underway immediately.

Early in October the school Board completed arrangements to sell the \$75,000 issue to three separate bonding companies, each of which agreed to take \$25,000 of the bonds.

The bonds were purchased by the Dallas Union and Trust Co., Fort Worth, the Edwards Security Co., Fort Worth, and the First of Texas Corporation, San Antonio.

The bonds are to set up a 15-year basis with a 10-year option. For the initial five year period they will yield an interest rate of 2 1-4 per cent, for the remaining 10-year period they will bear interest of 2 1-2 per cent.

Passage of the bond issue fulfills a critical need by the local schools. Shortages created by the war helped contribute to the overcrowded condition and inadequate lack of equipment which has prevailed for the past few years.

No effect on present taxes will be felt as a result of the bond issue.

Wildcats Rest For Tilt With Levelland

Since the Wildcats have the week off as far as games are concerned, we're going to take advantage of the lull before the storms of the joust between the Wildcats of Littlefield and the Lobos of Levelland at Seely Stadium November 14, to flex our mental muscles and tell you something about the history of football itself. Naturally, we know little history of any kind, prior to the New Deal.

Football as we know it is a game generally played in conjunction with the process of education, such as in high schools and colleges. Sometimes highly educated young men become so proficient in the sport that they go into it professionally, and earn large sums in cash by participating in the game they learned at their alma maters.

As a matter of fact, several motion picture stars have been developed on the gridirons. Football is ideal for developing the personality required for actors of the outdoors type.

High school students with well developed physiques and objective personalities usually play the game. Those not having these highly desirable qualities often grow up to become sports writers and radio announcers, sometimes enjoying vicarious thrills in their work.

There are some seats available in the new grandstand at Seely Stadium and may be obtained by contacting officials at the high school.

Propose Plan To Finance Sanitation

The long sought city sanitation program is handicapped by lack of adequate financial support, according to advocates of a year-round sanitation program. The year-round program is the only method of insuring adequate sanitation for Littlefield.

At the present time, the city does not have sufficient funds to purchase equipment and maintain the force needed to clean the streets and dispose of garbage both in the downtown area and in the residential sections.

Unofficial surveys indicate that a proposed additional levy of \$1.00 on every water meter in the city would provide the means for financing a workable sanitation program and would prove acceptable to the majority of people here.

Mrs. Maggie Lee and E. L. Birdwell Wed at Lubbock

Mrs. Maggie Lee, daughter of Mr. and Mrs. G. B. Hasha, of Waco, and E. L. Birdwell, of Littlefield, formerly of Levelland, were married Sunday, October 19, at 2 P. M. at the home of Mr. and Mrs. E. E. Louthan, 2812-30th St., Lubbock.

The beautiful double ring ceremony was performed by Rev. H. I. Robinson, pastor of the First Methodist Church, Lubbock, in the living-room of the Louthan home, before the mantel, at either side of which were tall baskets of flowers and white tapers burns in candelabra.

The bride wore a cocoa dress with dark brown accessories and an orchid corsage.

She was attended by her daughter, Miss Ann Lee, who wore an aqua moire taffeta dress and carried a colonial bouquet of pink rosebuds and by Miss Judy Brooks, who wore an aqua crepe dress, and wore a rosebud corsage.

Mr. Birdwell was attended by his son, Bob Birdwell.

A reception was held at the home of Mr. and Mrs. Louthan following the ceremony.

The refreshment table was laid with white lace cloth, centered with a large bowl of varied cut flowers. Mrs. Jerry Brooks presided over the crystal punch set, while Mrs. Louthan served the wedding cake, after the bride and groom had cut the first piece.

The bride's going away costume was a green broadcloth suit, white blouse and black accessories.

Following a two weeks trip to New Orleans, La. and other points, the couple are now at home at 1119 Phelps Avenue.

Mrs. Birdwell has been employed as secretary for the Brooks & McKenzie Wholesale Dry Goods Co., Lubbock, for the past two years. She has been a resident of Lubbock about seven years.

Mr. Birdwell and his brother, C. E. Birdwell, are owners and operators of the Birdwell Bros. Firestone stores in Levelland and Littlefield. Mr. Birdwell is now making Littlefield his headquarters.

Launch Campaign To Avoid Waste

A six-point campaign to avoid waste of feed and loss of meat by controlling livestock disease during the coming winter months has been launched by the American Foundation for Animal Health.

Farmers everywhere are urged to join in a thorough, well-rounded program of livestock health conservation—based on these six practical measures:

- (1) Exclusion of diseased animals. "Buy only tested, disease-free stock. Then keep the new stock away from the home herd for at least two weeks." (2) Quarantine. "If disease does strike, have the trouble diagnosed immediately. Isolate the infected animals, and quarantine the premises." (3) Strict sanitation. "Thorough

cleaning and disinfection of buildings and equipment is a wise precaution at all times. It is a vital necessity when a disease outbreak does occur."

(4) Disposal of infected stock. "In some diseases, sick and exposed animals must be disposed of immediately. In all cases, carcasses of disease victims must be destroyed at once in a manner complying with the state law."

(5) Vaccination. "Immunization is the only sure means of preventing certain livestock diseases such as hog cholera and erysipelas."

(6) Wise feeding practices. "Provide balanced rations, and watch for signs of nutritional deficiencies."

"If these measures are applied intelligently under veterinary supervision to meet the special conditions existing on the individual farm, valuable livestock can be saved to help meet the world food emergency," the American Foundation has declared.

BULL LAKE PHILOSOPHER CLAIMS HE KNOWS EXACTLY WHEN THESE HIGH PRICES ARE COMING DOWN

EDITOR'S NOTE: The Philosopher on his Johnson grass farm on Bull Lake has some ideas on inflation, but we'll let you be the judge of how sound they are.

Dear Editor:

With a hint of winter comin on out here Monday I was out in the woods sizing up the fire wood situation, just in case it does get cold, as a man out to think ahead and locate the wood that's already on the ground and about the right length for his stove, lest he get caught in a north-

er and be forced to resort to using his ax or pull in up his front porch, when I noticed a copy of the Amarillo Times blown against a bobwire fence and since I figured it wasn't gonna get cold right now anyway and there ain't no use bein in too big a hurry I gave up my wood hunt and sat down and read where President Truman has called a special

session of congress to see what can be done about high prices.

As I understand it, everything costs twice as much as it used to but very few people is havin twice as much fun and Congress ought to do somethin about it.

Also, it don't seem like anybody knows what the trouble is. There ain't nobody who knows what's causin prices to be so high. That is, the manufacturer blames it on labor, labor blames it on the retailer, the retailer blames it on the wholesaler, the wholesaler blames it on the manufacturer, which is where me and Congress come in and there ain't nothin left much to do but start another Freedom Train or hunt for Communism in a movie close-up and hope for the best.

Now I ain't puttin myself up against Congress and the experts, all I know about inflation is that I ain't no better off under it than I was before, in fact I ain't been no better off since I can remember, don't make no difference what economic situation the experts claimed we was livin under or who was President or County Judge, but I been studyin the present high-price situation and it's my opinion that prices is gonna stay high just as long as people has any money or credit left. For example, the sort of philosopher which the country is subscribin to now is about the same one I got out here: if I take my prime Jersey steer to town to sell I ain't got no fixed price for him, what I want for him is all I can get, without no reference to what it cost to produce him and the

They'll Do It Every Time

By Jimmy Hatlo

more the better. I ain't so smart, but I got a idea the same policy is prevailin in a lot of lines. It used to be the idea was to produce somethin as cheap as you could, but now it don't make no difference, just get it made, at least where it will hold together a while, and it'll sell and the next one will sell too just as long as there is a lot of people around with money to spend.

If the country would follow my lead and get rid of its money, we'd get rid of high prices. What else we'd get rid of in the process, I ain't sure. Yours faithfully, J. A.

 "Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Nov. 2.
 The Golden Text is: "He that covereth his sins shall not prosper; but whose confesseth and forsaketh them shall have mercy" (Proverbs 28:13).
 Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The way of the wicked is an abomination unto the Lord; but he loveth him that followeth after righteousness" (Proverbs 15:9).
 The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Whatsoever a man soweth, that shall he also reap." Error excludes itself from harmony. Sin is its own punishment" (Page 537).

Square Biscuits, Yet!

I see by a neighboring paper, that the round biscuit is on the way out. Yes, sir, home-management specialists have found that the square biscuit lends itself to assembly-line production and easy storage better than those customary ovals.

Well, we're all for progress, but that's one new idea we just don't cotton to. A round biscuit, spread nicely amidst with snappy country cheese, looks like a biscuit! And accompanied by a mellow glass of beer, it's a combination that you can't improve on!

So at the risk of being called old-fashioned, I'm voting for round biscuits, that fit a hungry man's mouth like no square imitation ever will... and for American beer served in the good old-fashioned way, in tall, cool mugs or ordinary glasses, with frothy sides and bubbles winking at the brim!

Think I'll step out to the kitchen for a snack right now!

Joseph Prouke of Chicago is pictured here as he weighs in an extra supply of red snappers for one of the now famous meatless Tuesdays—days when fish sales go swimmingly. Meatless Tuesday, as part of President Truman's food conservation program, is coupled with poultryless and eggless Thursday to make up America's effort to help alleviate hunger in Europe.

Cats Rap Sundown Roughnecks, 46-0

The Littlefield Wildcats chalked up their sixth straight win this season when they trounced the outclassed Sundown Roughnecks at Seely Stadium here last Friday night, 46-0.

The Roughneck eleven was spearheaded by John Ethridge, one of the District's best running backs.

At the half, Littlefield had rolled up 20 points to the Roughnecks nothing. The shut was complete in the final half.

This marked the Cats third conference win.

The second string saw plenty of action in the final quarters against the Sundown eleven.

Shelby took the Sundown kick and made 22 yards before he was brought down. Shelby took the handoff from Price and made the 35 yard stripe. On the next play, Price took off a fast end run to fumble before he hit his stride... the recovery was by Sundown.

Galloping John Ethridge, stocky, 165 pound Roughneck back, was unable to do more than hit the Wildcat wall hard. He tried three times then was forced to kick.

The Wildcats started their scoring drive from their own 42 yard line. Shelby, in a wide, hard drive around end broke through the Roughneck tacklers to score. He was hit hard by John Ethridge. The try for the point was no good, making the score 6-0 in the opening minutes of the ball game.

Ethridge sparked the Roughneck attack, neither his passing nor his running brought the Sundown eleven any closer to the promised land.

Billy Arends took the ball on the next play on a wide, beautiful end run to be hit hard on the 8 yard line. The Roughnecks presented a granite wall to the invading Wildcats, which crumbled to let Price drive through center for the evening's second touchdown. The try for the point was good. As the quarter ended, the score stood 13-0.

The Roughnecks never presented a scoring threat in the second period. James Lee scored again after a long pass by Ethridge to Glynn Lee was hooked by Royce Jennings. The try for the point was no good.

A fine car made finer

A Product of General Motors

Here's every man's automobile!

It is difficult to think of a person who wouldn't be extremely happy to own and drive a Pontiac.

It is one of the nicest-handling, nicest-riding cars available anywhere. It is faithful, dependable, tough and rugged. It is smart and beautiful—and also very distinctive in its appearance. From every standpoint, it is a standout—fine enough for anybody's taste.

Yet—it is just as economical as any car you could buy. All things considered, no car costs less to own over the long period of its usefulness.

Always Drive Carefully

So whether you are seeking quality—or economy—or whether you are seeking *both*—you can find what you want in Pontiac. We sincerely believe it comes very close to being every man's automobile.

DUE TO OUR UNFILLED ORDERS ON HAND, you may experience some delay in getting a new Pontiac. Place your order now to avoid further delay. In the meantime, let us keep your present car operating at top efficiency.

LITTLEFIELD

TEXAS

A flurry of groundwork and aerials characterized the third quarter with Sundown never getting close enough to the goal line to get enthusiastic.

High point was a wide end dash by Peel, and a long pass to Gene McCantles, who made his sixpoint contribution to the Wildcat side of the tally book. The conversion attempt was good.

Lee and Shelby each scored in the fourth period. Shelby's 56 yard run climaxed the ball game.

The brunt of the Roughneck offense was borne by John Ethridge. Also standing out in the Sundown line-up were Ethridge's brother Douglas and T. A. Anderson.

Littlefield completed 3 of 25 passes, made 19 first downs. Sundown completed 7 out of 20 attempts, made

15 first downs.

The Cats sustained 30 yards in penalties, the roughnecks 10 yards.

Score by Quarters:

Wildcats	13	13	7	13	46
Roughnecks	0	0	0	0	0

Sudan To Build Legion Hut

At a regular meeting of the Sudan American Legion recently, a building committee composed of Arthur Shutlesworth, Dyer Love and Trindel Ferguson was appointed, and plans were discussed to raise funds to build a legion hut.

Every man, woman and child in Sudan and area will have an opportunity to help in this worthy cause.

It has been pointed out that many Sudan boys have sacrificed in the past war, and it is only fair to the legionnaires that they have a nice place in which to meet, which will add prestige to the town.

Everyone who can is urged to assist in this worthy project.

Named Committeeman For Veterans

Art Mueller, County Service Officer of Lamb County has been named a volunteer Veterans Reemployment Rights Committeeman for this county by the Veterans Reemployment Rights Division of the U. S. Department of Labor.

The newly named VRR committeeman, will act as a volunteer arbitrator between veterans seeking reemployment and their former employers. The 80th Congress extended the reemployment rights provision of the Selective Service Act after the Act expired March 31 of last year. By law a veteran who reapplies for his old job within 90 days after he leaves the armed services may regain it and may not be discharged from the position without cause for the period of one year.

Under the volunteer organization being set up by the VRRD, the Texas Employment Commission's office here will serve as an information center for the veterans. Veterans with reemployment problems will be referred to Mr. Muller. If he cannot settle the issue locally, the case is turned over to the regional office of the VRRD in Dallas. A final step, if the VRRD fails to get the employers and veterans together, is action through federal courts by U. S. district attorneys.

An estimated 2,000 to 3,000 Texas veterans are being discharged from the armed services each month now. Many of them have job rights dating as far back as 1940 when they left to enter the Army or Navy.
